Nett Venture Investments LLC

This Offering Statement (this “**Disclosure**”) is furnished solely to prospective investors through the investment platform available at www.nextseed.com and each subdomain thereof (the “**Site**”) and operated by NextSeed Services LLC, a Delaware limited liability company, on behalf of NextSeed Securities, LLC, a Delaware limited liability company and registered broker-dealer (together with its affiliates, “**NextSeed**”), for the sole purpose of evaluating investments in certain securities (“**Securities**”) offered by Nett Venture Investments LLC, a Texas limited liability company (“**NettBar Shady Acres**” or the “**Issuer**”). The Securities, in the form of promissory notes in increments of \$100 (each, a “**Note**” and together, the “**Notes**”), will be issued pursuant to, and will be governed by, a note purchase agreement among the Issuer and the purchasers of the Securities (the “**NPA**”). The Issuer is raising funds in reliance on the exemption from registration pursuant to Section 4(a)(6) (the “**4(a)(6) Exemption**”) of the U.S. Securities Act of 1933 (the “**Securities Act**”) and the regulations promulgated with respect thereto (“**Regulation Crowdfunding**”). The Issuer is seeking to raise under Regulation Crowdfunding a minimum of \$150000.00 to a maximum of \$400000.00 through the offer and sale of Securities on the Site (the “**Offering**”).

A Regulation Crowdfunding investment involves risk. An investor should not invest any funds in this Offering unless he or she can afford to lose his or her entire investment. In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the Offering, including the merits and risks involved. The Securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document. The U.S. Securities and Exchange Commission (the “**SEC**”) does not pass upon the merits of any Securities offered or the terms of the Offering, nor does it pass upon the accuracy or completeness of any offering document or literature, including this Disclosure. These Securities are offered under the 4(a)(6) Exemption; however, the SEC has not made an independent determination that the Securities are exempt from registration. Prospective investors should not construe the contents of this Disclosure as legal, business, tax, accounting, regulatory, investment or other advice, and should consult their own advisors concerning the Securities.

The Securities may not be transferred by any investor during the one-year period beginning when the Securities are issued, unless the Securities are transferred: (i) to the Issuer; (ii) to an “accredited investor” as defined in Rule 501(a) of Regulation D; (iii) as part of an offering registered with the SEC; or (iv) to a member of the family of the investor or the equivalent, to a trust controlled by the investor, to a trust created for the benefit of a member of the family of the investor or the equivalent, or in connection with the death or divorce of the investor or other similar circumstance. In addition, there is no ready market for the sale of the Securities and it may be difficult or impossible for an investor to sell or otherwise dispose of the Securities. Furthermore, the investors are not permitted to assign the Securities without the Issuer’s prior written consent in accordance with the terms of the NPA.

No person other than the Issuer has been authorized to provide prospective investors with any information concerning the Issuer or the Offering or to make any representation not contained in this Disclosure. To invest in the Securities, each prospective investor will be required to (i) register for an investor account with the Site, (ii) make representations regarding the investor’s investment eligibility and complete a questionnaire to demonstrate his or her understanding of the risks involved in investing in the Securities and (iii) execute the NPA. The Issuer reserves the right to modify any of the terms of the Offering and the Securities at any time before the Offering closes.

Certain information contained in this Disclosure constitute “forward-looking statements” that can be identified by the use of forward-looking terminology such as “may,” “will,” “should,” “expect,” “anticipate,” “estimate,” “intend,” “continue,” or “believe” or the negatives or variations thereof. Furthermore, any forecasts or other estimates in this Disclosure, including estimates of returns or performance, are “forward-looking statements” and are based upon certain assumptions that may change. Due to various risks and uncertainties, actual events or results or the actual performance of the Securities may differ materially from those contemplated in such forward-looking statements. Moreover, actual events are difficult to project and often depend upon factors that are beyond the control of the Issuer or the Site. Neither the delivery of this Disclosure at any time nor any sale hereunder shall under any circumstances create an implication that the information contained herein is correct as of any time after the earlier of the relevant date specified herein or the date of this Disclosure.

III. COVERED PERSONS

The directors, managers, officers and/or equity owners of 20% or more (calculated on the basis of voting power) of NettBar Shady Acres are listed below.

Name	Bio
<p>Oswaldo Gutierrez, CEO, 09/20/2019 to present</p>	<p>Oswaldo Gutierrez is the owner of XCS Expert Consulting Services Inc., leading it as an experienced systems architect with over 27 years of technology consulting, helping large companies run their businesses more efficiently by improving their systems and processes through custom-fit technology solutions. Oswaldo obtained an MBA in Finance from Our Lady of the Lake University executive program in 2004 to further broaden his understanding of the business world. In 2010, various investments in real estate led Oswaldo to purchase what he considered to be a perfect property for an innovative concept rarely seen around Houston, now known as "neighborhood bars". Being an outsider to the hospitality business, but not a stranger to spotting potential, he partnered with the best of the best talent in the hospitality industry, John Caravello. Thanks to this great partnership, NettBar opened its doors in May 2017 and has become one of Houston's best neighborhood bars and a staple in town, a bar that checks all the boxes it advertises in its slogan: social, active and fun. Oswaldo plans to leverage his diverse skill set and financial savvy, in addition to his recent NettBar success to further improve the business and expand the NettBar concept.</p>
<p>John Caravello, COO, 09/20/2019 to present</p>	<p>John Caravello is a proud Houstonian that moved here in the 1980's from New York City. With over 22 years of experience in the hospitality industry as an owner and operator, John is widely respected by both peers and vendors throughout the hospitality industry. In his early 20's, John began working as a concierge and host, focusing on guest relations and private events in some of Houston's quintessential nightlife venues. Beginning in 2001, he began to take on more responsibility for two of Lee Ellis' groundbreaking lounge concepts, Tonic/Tryst and The Social Lounge. John was promoted to General Manger of Tonic/Tryst while still maintaining operational responsibilities at The Social Lounge. In 2004, John seized the opportunity to pursue his dream of becoming an operating partner of his own concept by opening Next Nightclub. Over the course of a year, John organized the investment group, oversaw construction and became the daily operating partner. Next Nightclub successfully paid off it's investors and remained profitable until 2009 when the property was sold for development. Over the next six years, John opened and operated five more unique and successful nightlife concepts in Downtown and Midtown Houston. In 2014, John was recruited to become the Director of Operations for Kingfish Hospitality LLC, owners of Pax Americana and Zimm's Bar in Montrose. His first goal was the reconceptualization of the long running Zimm's into Zimm's Whisky Bar to fit the growing atmosphere in the Houston nightlife scene. At the same time, Pax Americana rose quickly to National Attention as one of America's best new restaurants. In his role as Director of Operations, John was a vital part of Pax Americana being named as Houston's 2016 Best New Restaurant of the Year (CultureMap Tastemaker Awards). John left Kingfish Hospitality in 2017 to again pursue ownership opportunity. In 2016 John partnered with Oswaldo to help create what would become NettBar. John has developed the beverage program, dining program, weekly events and activities as well as keeping a strong focus on staffing and marketing. Under his leadership, NettBar has become a fixture in the neighborhood for singles, young couples and families alike.</p>

VI. RISK FACTORS

An investor should not invest any funds in this Offering unless he or she can afford to lose his or her entire investment. In making an investment decision, investors must rely on their own examination of NettBar Shady Acres and the terms of the Offering, including the merits and risks involved. This list of potential risks is not intended to be inclusive.

These Securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document. The SEC does not pass upon the merits of any Securities offered or the terms of the Offering, nor does it pass upon the accuracy or completeness of any offering document or literature. These Securities are offered under exemptions from registration; however, the SEC has not made an independent determination that these securities are exempt from registration.

Business Risks

The success of a business depends on its brand perception, in part, upon the popularity of the establishment and the customer's experience. We take brand perception seriously and intend to reinforce and extend positive brand perception, including by providing a training program for our employees to ensure a high quality of customer service. However, any shortcomings in our brand building initiatives or business incidents that diminish customer perceptions of our brand could negatively impact revenues. If we overestimate the demand for our business or underestimate the popularity of the competition, we may not fully realize anticipated revenues. Our business, financial condition and results of operations also depend in part on our ability to anticipate, identify and respond to changing consumer preferences. Any failure to anticipate and respond to changing customer preferences could make our business less appealing and adversely affect business, including loss of potential revenue. If we do not achieve a certain level of revenue, the financial performance will be negatively impacted, in which case there may be serious adverse financial consequences for the Investors.

Financing Risks

We have not yet commenced operations and have not generated any revenue to date. In order to begin business operations, we will need to incur expenses related to the development of the planned service, expenses related to the acquisition of certain supplies, expenses related to the opening of the first planned location, and other start-up costs. Accordingly, if we do not obtain additional financing, including the financing sought in this offering, the business will likely fail.

Development Risks

Our dependence on development exposes us to timing, budgeting and other risks. New project development has a number of risks, including risks associated with: (i) construction delays or cost overruns that may increase project costs; (ii) receipt of zoning, occupancy and other required governmental permits and authorizations from local governmental agencies, which are issued at the discretion of the issuing authority with no guaranty that all licenses and permits applied for by us will be issued; (iii) development costs incurred for projects that are not pursued to completion; (iv) so-called acts of God such as earthquakes, hurricanes, floods or fires that could adversely impact a project; (v) defects in design or construction that may result in additional costs to remedy or require all or a portion of a property to be closed during the period required to rectify the situation; (vi) ability to raise capital; and (vii) governmental restrictions on the nature or size of a project or timing of completion. We cannot assure you that

any development project will in fact be developed, and, if developed, the time period or the budget of such development may be greater than initially contemplated. We are planning to open in Houston TX. There is no guarantee that this site will remain suitable, or that the business will be operated profitably. We depend on cash flow from operations to pay lease obligations and to fulfill other cash requirements. If the business does not generate sufficient cash flow and sufficient funds are not otherwise available from other sources, we may not be able to meet lease obligations, grow the business, respond to competitive challenges or fund its other liquidity and capital needs, which would have a material adverse effect on our business.

Reputational Risks

Adverse publicity concerning Food and Beverage and the business could damage our brand and negatively affect the future success of the business. This can take different forms, such as word-of-mouth criticisms, web blogs, social media websites, and other Internet-based communications that allow individuals access to a broad audience of consumers and other interested persons. Many social media platforms immediately publish the content their subscribers and participants can post, often without filters or checks on accuracy of the content posted. There is significant opportunity for dissemination of information, including inaccurate information. Information about the business may be posted on such platforms at any time, and may be adverse or inaccurate, either of which may harm the business and our financial performance. The harm may be immediate without affording us an opportunity for redress or correction.

Competition Risks

The market for Food and Beverage is competitive and we may need to compete with other established competitors. We compete with these other businesses on the basis of quality and price of products and/or services offered, atmosphere, location and overall customer experience. The Food and Beverage industry is characterized by the continual introduction of new concepts and is subject to rapidly changing consumer preferences, tastes and dining habits. The Food and Beverage industry in Houston TX area is highly competitive in terms of type and quality of products, quality of service, location, atmosphere and price. The entrance of new competitors into our markets could reduce revenue and operating margins. Some competitors may have greater financial and other resources, greater name recognition, more experience in the business and/or better presence in the planned markets. Any inability to compete successfully with competitors, shifts in consumer preferences away from Food and Beverage or our inability to develop new products or services that appeal to consumers may negatively affect revenues.

Market Risks

Our success depends to a significant degree on numerous factors affecting discretionary consumer spending, including general economic conditions, disposable consumer income and consumer confidence. We will cater to both business and social guests. Accordingly, cost-conscious consumers may reduce their level of discretionary spending during economic turmoil or periods of uncertainty. Any material decline in the amount of discretionary spending could have a material adverse effect on our revenue, results of operations, business and financial condition. Our sales are also dependent on foot traffic and sales in a specific location. If the foot traffic in the area declines, or we are forced to move operations to a different location, revenues may be negatively impacted. Our success also depends on the popularity of our menu offerings and the overall dining experience provided to guests. Any shift in consumer preferences away from our business concept could negatively affect financial performance.

Risks from Work Stoppages, Terrorism or Natural Disasters

Our operations may be subject to disruption for a variety of reasons, including work stoppages, terrorism, acts of war, pandemics, fire, earthquake, flooding, tornadoes or other natural disasters. Certain natural disasters, such as

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON NEXTSEED ONLY. DO NOT COPY OR DISTRIBUTE.

hurricanes, are known to occur sporadically in Houston TX, where we are located. These disruptions can result in, among other things, lost sales due to the inability of customers, employees or suppliers to reach the store, property damage and lost sales if we are forced to close for an extended period of time.

Management Risks

Any operational growth will place additional demands on our administrative, management and financial resources. It is imperative that we manage our growth; if we do not effectively manage growth, our operations and financial condition may be negatively impacted. The timing and extent of future growth depends, in part, on our ability to manage its organizational structure and financial resources.

Personnel Risks

The success of the business is heavily dependent on the judgment and ability of the members of our leadership. If they are unable to attend to the business for health or personal reasons for an extended period of time, the business may suffer. If members of our leadership team or other key management personnel leave, we may have difficulty replacing them, and the business may suffer. There can be no assurance that we will be able to successfully attract and retain the leadership team and other key management personnel needed.

Labor Supply Risks

A primary component of our operations is labor. We compete with other employers in the market for hourly workers and may be subject to higher labor costs as a result of such competition. We devote significant resources to recruiting and training team members, as its success depends, in part, upon its ability to attract, motivate and retain qualified employees in Food and Beverage industry, including general manager, bartenders, barbacks, cooks, boss boys, etc. If we are unable to recruit and retain sufficiently qualified personnel, the business and growth could be adversely affected. Any material increases in employee turnover rates or any employee dissatisfaction could have a material adverse effect on the business and operations. We may sustain an increase in operating costs if we pay increased compensation or benefits to employees. We are subject to various federal and state labor laws, including but not limited to employee classifications as exempt or non-exempt, unemployment tax rates, workers' compensation rates, citizenship requirements and other wage and benefit requirements for employees classified as non-exempt. We may be adversely affected by legal or governmental proceedings brought by or on behalf of its employees or guests. Although we require all workers to provide government-specified documentation evidencing employment eligibility, some employees may, without our knowledge, be unauthorized. If any of our workers are found to be unauthorized, we may experience adverse publicity that negatively impacts our ability to hire and keep qualified employees. Termination of a significant number of employees who were unauthorized may disrupt operations, cause temporary increases in labor costs as new employees are trained and result in additional negative publicity. We could also become subject to fines, penalties and other costs related to claims that we did not fully comply with all record-keeping obligations of federal and state immigration compliance laws. These factors may have a material adverse effect on the business, financial condition and results of operations.

Privacy Risks

Our business operations require processing and/or maintaining certain personal, business and financial information about customers, vendors and employees. Our use of such information is regulated by federal and state laws, as well as certain third party agreements. If our security and information systems are compromised or if employees fail to comply with the applicable laws and regulations, and this information is obtained by unauthorized persons or used inappropriately, it could adversely affect our reputation and result in litigation and settlement costs, damage awards or penalties and fines. As privacy and information security law and regulations change, we may incur additional costs to ensure compliance.

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON NEXTSEED ONLY. DO NOT COPY OR DISTRIBUTE.

Real Estate Risks

We are leasing the business location and are subject to any penalties that may result from a violation of the lease terms, such as early lease cancellation. The current location of the store may become unattractive as demographic patterns change. We may fail to negotiate renewals of the lease, either on commercially acceptable terms or at all, which could require us to close a store in a desirable location. Negative effects on our landlord due to any inaccessibility of credit and other unfavorable economic factors may, in turn, adversely affect our business and results of operations. If our landlord is unable to obtain financing or remain in good standing under the existing financing arrangements, they may be unable to provide construction contributions or satisfy other lease covenants with us. If the landlord files for bankruptcy protection, the landlord may be able to reject our lease in the bankruptcy proceedings. While we may have the option to retain some rights under the lease, we may not be able to compel the landlord to perform any of its obligations and would be left with damages as the sole recourse. In addition, if the landlord is unable to obtain sufficient credit to continue to properly manage its retail site, we may experience a drop in the level of quality of such retail center. We may be adversely affected by the negative financial situations of developers and landlords.

Supply and Delivery Cost Risks

Supplies and prices of the various products used in the goods that we offer can be affected by a variety of factors, such as weather, seasonal fluctuations, demand, politics and economics in the producing regions. These factors may subject us to shortages or interruptions in product supplies, which could adversely affect revenue. We do not have control over the businesses of its vendors, suppliers and distributors, and our efforts to specify and monitor the standards under which they perform may not be successful. Higher diesel and gasoline prices may affect supply or transportation costs and may affect our profitability. If we have long-term purchase commitments in excess of what we need due to a decline in demand, this may also adversely affect profitability. Furthermore, certain supplies may be perishable, and we have limited control over whether those items will be delivered in an appropriate condition for use. If any of our vendors, suppliers or distributors are unable to fulfill their obligations to our standards, or if a replacement provider cannot be found in the event of a supply or service disruption, we could encounter supply shortages and incur higher costs to secure adequate supplies, which could materially adversely affect the business, financial condition and results of operation.

Food Safety Risks

We consider food safety a top priority and dedicate substantial resources toward ensuring that customers enjoy high-quality, safe products. However, food tampering, employee hygiene and cleanliness failures or improper employee conduct at the business could lead to product liability or other claims. Instances of food-borne illnesses, whether real or perceived, and whether at the store or those of competitors, could harm customers and otherwise result in negative publicity about us or the products we serve, which could adversely affect revenue. If customers become ill from food-borne illnesses, we could be forced to temporarily close. In addition, we may have different or additional competitors for intended customers as a result of such changes and may not be able to compete successfully against those competitors. Food safety concerns may also adversely affect the price and availability of those affected ingredients and cause customers to shift their preferences. A decrease in customer traffic as a result of these health concerns or negative publicity, or as a result of a change in menu or customer experience or a temporary closure of the store, could materially and adversely impact the business's financial condition and results of operations. A number of pandemic scares related to a variety of raw food ingredients, including meats, fruits and vegetables, have recently caused concern among consumers and health care officials. One or more such outbreaks of such food related illnesses, whether pandemic or isolated, may adversely affect the consumer demand for certain

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON NEXTSEED ONLY. DO NOT COPY OR DISTRIBUTE.

foods and consequently negatively impact the operations and profitability, regardless of the quality and safety of products offered by us.

Required Nutritional Disclosure Risks

Government regulation and consumer eating habits may impact our business as a result in changes in attitudes regarding diet and health or new information regarding the health effects of consuming the menu offerings. These changes have resulted in, and may continue to result in, the enactment of laws and regulations that impact the ingredients and nutritional content of the menu offerings, or laws and regulations requiring us to disclose the nutritional content of its food offerings. Compliance with current and future laws and regulations regarding the ingredients and nutritional content of the menu items may be costly and time-consuming. Additionally, government authorities may increase regulations regarding trans-fats and sodium, which may require us to limit or eliminate trans-fat and sodium in the menu offerings, switch to higher cost ingredients or may hinder our ability to operate. We cannot make any assurances regarding its ability to effectively respond to changes in consumer health perceptions or successfully implement the nutrient content disclosure requirements or menu-labeling laws, which could have an adverse effect on the results of operations and financial position.

Legal Risks

Food service businesses can be adversely affected by litigation and complaints from customers or government authorities resulting from food quality, health claims, allergens, illness, injury or other health concerns or operating issues stemming from one or more retail locations. Negative publicity about these allegations may negatively affect us, regardless of whether the allegations are true, by discouraging customers from patronizing NettBar Shady Acres. We may also be impacted by industry trends in litigation, including class-action allegations brought under various consumer protection laws, securities and derivative lawsuits claiming violations of state and federal securities law, and employee lawsuits, including wage and hour claims. Due to the inherent uncertainties of litigation and regulatory proceedings, we cannot accurately predict the outcome of any such proceedings. An unfavorable outcome could have a material adverse impact on the business, financial condition and results of operations. Further, regardless of outcome, these proceedings could result in substantial costs and may require resources be used to defend any claims.

Alcohol Sale Risks

We are subject to alcoholic beverage control regulations that govern various aspects of daily operations of the business, including the minimum age of guests and employees, hours of operation, advertising, wholesale purchasing and inventory control, handling and storage. Any failure to obtain and maintain, on a timely basis, liquor or other licenses, permits or approvals required to serve alcoholic beverages or food, as well as any associated negative publicity, could delay or prevent the opening of, or adversely impact the viability of, and could have an adverse effect on, the business operations and financial performance. Because of the many and various state and federal licensing and permitting requirements, there is a risk that one or more regulatory agencies could determine that we have not complied with applicable licensing or permitting regulations or have not maintained the approvals necessary to conduct business within its jurisdiction. We are subject to state “dram shop” laws, which generally allow a person to sue us if that person was injured by an intoxicated person who was wrongfully served alcoholic beverages at NettBar Shady Acres. A judgment against us under a dram shop law could exceed our liability insurance coverage policy limits and could result in substantial liability and materially adversely affect operations. Any inability to continue to obtain such insurance coverage at reasonable cost could also have a material adverse effect on operations. Regardless of the validity of the claims, we could be adversely affected by negative publicity resulting from such actions.

Alcohol Investment Risks

Alcohol beverage control regulations may limit an Investor's ability to hold interests in NettBar Shady Acres. For example, Texas laws and regulations generally do not allow a person from holding financial interests in both manufacturers and distributors of alcoholic beverages and retailers of alcoholic beverages, and local regulators may require disclosure of Investors' personal information to verify their eligibility to invest in NettBar Shady Acres. In the event that Texas laws and regulations do not allow an Investor to hold the Securities, such Investor may be required to transfer its interests in the Securities to NettBar Shady Acres as described in the NPA. If a number of Investors are ineligible to hold the Securities, it could materially adversely affect the financial condition.

Environmental Risks

We are subject to national, state and local laws and regulations in the U.S. concerning waste disposal, pollution, protection of the environment, and the presence, discharge, storage, handling, release and disposal of, and exposure to, hazardous or toxic substances. These environmental laws provide for significant fines and penalties for noncompliance and liabilities for remediation, sometimes without regard to whether the owner or operator of the property knew of, or was responsible for, the release or presence of hazardous toxic substances. Third parties may also make claims against owners or operators of properties for personal injuries and property damage associated with releases of, or actual or alleged exposure to, such hazardous or toxic substances at, on or from NettBar Shady Acres. Environmental conditions relating to releases of hazardous substances at NettBar Shady Acres could materially adversely affect the business, financial condition and operations. Further, environmental laws, and the administration, interpretation and enforcement thereof, are subject to change and may become more stringent in the future, each of which could materially adversely affect the business, financial condition and operations.

Information Technology Risks

We rely heavily on information systems, such as point-of-sale processing, for management of the supply chain, payment of obligations, collection of cash, credit and debit card transactions and other processes and procedures. Our ability to efficiently and effectively manage the business depends significantly on the reliability and capacity of these systems. Our operations depend on our ability to protect computer equipment and systems against damage from physical theft, fire, power loss, telecommunications failure or other catastrophic events, as well as from internal and external security breaches, viruses and other disruptive problems. The failure of these systems to operate effectively, maintenance problems, upgrading or transitioning to new platforms, expanding our systems or a breach in security of these systems could result in delays in guest service and reduce operational efficiency. Remediation of such problems could result in significant, unplanned capital investments.

Accounting Risks

Changes to existing accounting rules or regulations may impact the future results of operations or cause the perception that we are more highly leveraged. Other new accounting rules or regulations and varying interpretations of existing accounting rules or regulations have occurred and may occur in the future. For example, accounting regulatory authorities have indicated that they may begin to require lessees to capitalize operating leases in their financial statements for the next few years. If adopted, such change would require us to record significant capital lease obligations on the balance sheet and make other changes to the financial statements. This and other future changes to accounting rules or regulations may impact our future operating results.

Intellectual Property Risks

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON NEXTSEED ONLY. DO NOT COPY OR DISTRIBUTE.

Our intellectual property is material to conducting business. Our success depends in part on furthering brand recognition using trademarks, service marks, trade dress, trade secrets and other proprietary intellectual property, including our name, logos and unique ambiance of NettBar Shady Acres. We have taken efforts to protect our brand, but if its efforts are inadequate, or if any third party misappropriates or infringes on our intellectual property, the value of the store brand or consumer products brand may be harmed, which could have a material adverse effect on the business. There are no material claims against us from prior users of intellectual property, but there can be no assurances that we will not encounter any material claims in the future. If this happens, it could harm our image, brands or competitive position and cause us to incur significant penalties and costs.

Regulatory Risks

Products and services offered by us are subject to regulation. Regulatory action could substantially increase costs, damage reputation and materially affect operating results. Increased costs in complying with these requirements or failure to obtain required licenses or permits in a timely fashion may materially affect operations. "Regulations regarding climate change, energy usage and emissions controls may impact us directly through higher cost of goods. The potential impacts of climate change and climate change regulations are highly uncertain at this time, and we cannot anticipate or predict the material adverse effects on the business as a result of climate change or climate change regulation. For instance, changes in the prevailing climates may result in a reduction in, or increased prices of available goods, which may adversely affect our revenue and operating margins. "We are subject to various federal, state and local regulations, including regulations related to the preparation and sale of food, the sale of alcoholic beverages, 16 zoning and building codes, land use and employee, health, sanitation and safety matters. We are also subject to the U.S. Fair Labor Standards Act, which governs such matters as working conditions, family leave mandates and other employment law matters. In recent years, there has been an increased legislative, regulatory and consumer focus on nutrition and advertising practices in the food industry]17. Compliance with additional regulations can become costly and affect operating results. There is also a potential for increased regulation of certain food establishments in the United States, where compliance with a Hazard Analysis and Critical Control Points ("HACCP") approach would be required. HACCP refers to a management system in which food safety is addressed through the analysis and control of potential hazards from raw material production, procurement and handling, to manufacturing, distribution and consumption of the finished product.

Tax Risks

We are subject to federal, state and local taxes. In making tax estimates and paying taxes, significant judgment is often required. Although we believe our tax positions and estimates are reasonable, we could have additional tax liability, including interest and penalties, if a taxing authority disagrees with the positions. If material, payment of such additional amounts could have a material impact on finances and results of operations.

Limited Source of Repayment

The only source of financial return for investors before maturity is through payments as set forth in the NPA and the Notes and there is no guarantee of any investment return. The Securities are speculative investments inherently involving a degree of risk, meaning part or all of such investments may be lost. While we are providing a lien on our assets, there is no guarantee that it will have sufficient assets to make full payment to the investors, as the assets may decrease in value, lose their entire value over time or may fluctuate based on the performance of the underlying business. Neither NettBar Shady Acres nor NextSeed guarantees payment or investor returns.

Risks Relating to Financial Forecasts

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON NEXTSEED ONLY. DO NOT COPY OR DISTRIBUTE.

The financial forecasts provided by us herein are reasonable forecasts by us based upon assumption of stable economic conditions and other various assumptions regarding operations. The validity and accuracy of these assumptions will depend in large part on future events over which NettBar Shady Acres and the key persons will have no control. CHANGES IN ASSUMPTIONS OR THEIR UNDERLYING FACTS COULD SIGNIFICANTLY AFFECT THE FORECASTS. TO THE EXTENT THAT THE ASSUMED EVENTS DO NOT OCCUR, THE OUTCOME MAY VARY SIGNIFICANTLY FROM THE PROJECTED OUTCOMES. CONSEQUENTLY, THERE CAN BE NO ASSURANCE THAT THE ACTUAL OPERATING RESULTS WILL CORRESPOND TO THE FORECASTS PROVIDED HEREIN.

☐ ***Risks Relating to Debt Financing***

Our debt service obligations may adversely affect cash flow. As a result of any future debt obligations, we may be subject to: (i) the risk that cash flow from operations will be insufficient to meet required payments of principal and interest, (ii) restrictive covenants, including covenants relating to certain financial ratios, and (iii) interest rate risk. In addition, in the event that NettBar Shady Acres obtains a SBA loan, the lien granted to secure the obligations under the NPA and the Notes may be subordinate to lien granted in favor of the SBA loan. Although we anticipate repaying or refinancing any indebtedness when it matures, there can be no assurance that we will be able to do so or that the terms of such refinancing will be favorable. NettBar Shady Acres's leverage may have important consequences including the following: (i) ability to obtain additional financing for acquisitions, working capital, capital expenditures or other purposes, if necessary, may be impaired or such financing may not be available on favorable terms and (ii) a substantial decrease in operating cash flow or a substantial increase in expenses could make it difficult for us to meet debt service requirements and restrictive covenants and force a sale of assets or modification of operations.

☐ ***Potential Conflicts of Interest***

The key persons individually or as an entity may wish to own, operate or consult with other operations in the area similar to NettBar Shady Acres, including operations utilizing the brand associated with us. Such other businesses may be owned by entities other than NettBar Shady Acres. While it is the intention of the key persons to place such businesses operations strategically so as to maximize the revenue and profitability of each business, there can be no guarantee that such activities will not have a deleterious effect on the revenues of NettBar Shady Acres's operations due to unintended competitive factors resulting from the comparative accessibility and desirability of the respective businesses. The relevant key persons will have no duty to account to NettBar Shady Acres for profits derived from such other such activities.

Certain Tax Considerations

The Issuer intends to treat the Securities as contingent debt instruments for U.S. federal income tax purposes. The Issuer’s good-faith determination that the Securities should be considered contingent debt instruments for U.S. federal income tax purposes is not intended to be, nor should be construed to be, legal or tax advice to any particular person. This consideration is not binding and therefore may be subject to review and challenge by the IRS. All prospective investors are urged to consult their own tax advisors with respect to the U.S. federal, state, local and non-U.S. tax consequences related to the purchase, ownership and disposition of the Securities based on their particular circumstances. Preparation and distribution of required tax documents to investors (e.g., Form 1099-INT) will be handled electronically at no additional cost on an annual basis.

Other Matters

NextSeed Assessment

Every offering on the Site undergoes a standardized assessment process by NextSeed that is applied on all businesses listing on NextSeed. The assessment is intended to first determine if a prospective issuer fits the business categories offered on NextSeed, based on the objective criteria established by NextSeed. If a good fit is found, NextSeed helps the Issuer determine the terms to offer to their prospective investors. When assessing the feasibility of a prospective offering, NextSeed typically considers the following key factors:

- **Historical Financial Performance** – comparison of key financial ratios to industry standards to evaluate the prospective issuer’s strengths and weaknesses
- **Projected Impact of Proposed Terms** – analysis of proposed terms’ potential impact on the prospective issuer’s overall financial condition
- **Credit History Information** – credit history of the prospective issuer, as well as personal credit histories of key personnel
- **Leadership Experience and Stability** – the level of industry expertise and length of tenure of the prospective issuer’s leadership
- **Industry Risk** – overall success/failure rate in the relevant industry in which the prospective issuer operates, according to historical data

The final terms and valuation of the Securities offered to prospective investors reflect NextSeed’s and the Issuer’s good-faith assessment, and are not a guarantee or guidance of performance of any kind. Investing in securities inherently involves risks, and investors should consider their own investment objectives before investing.

Valuation of the Security in the Future

INTENDED FOR REVIEW BY POTENTIAL INVESTORS ON NEXTSEED ONLY. DO NOT COPY OR DISTRIBUTE.

The value of the Security is the present value of the future payments. In the event that the Issuer is unable to make the required payments, the value of the Security may be impacted adversely and the investor may lose some or all of the money invested.

Minority Ownership

By purchasing the Securities investors will not become holders of minority ownership in the Issuer. They will not have the rights of minority investors afforded by general corporate law of the state in which the Issuer has been formed. With any investment in debt securities or minority investment in a private company, an investor should be able to bear a complete loss of their investment.

Corporate Actions of the Issuer

Because Securities are governed by the NPA, the Issuer cannot unilaterally take subsequent corporate actions to change material terms of the Securities. In addition, because the holders of Securities' rights are limited to those described in the NPA, they will have no ability to influence the policies or any other corporate matter of the Issuer, including the election of directors, changes to the Issuer's governance documents, additional issuance of securities, the Issuer's repurchases of securities, a sale of the Issuer or of assets of the Issuer or transactions with related parties.

Payment Processing Operations

Collection and repayment of funds to investors who have purchased the Securities depend on the continuous operation of NextSeed and its banking partner(s) that facilitate payments. If either NextSeed or its banking partner(s) were to stop or otherwise be unable to continue operations in the future, while NextSeed will make all commercially reasonable efforts to facilitate repayment of all outstanding Securities, it may not be possible to service the existing Securities until completion.

Legal and Regulatory Implications

The legal and regulatory regime governing investment crowdfunding is a recent development and subject to inherent uncertainty as the applicable legal and regulatory environment continues to evolve. Accordingly, there may be changes to the legal and regulatory requirements that negatively affect the operations of NextSeed, including servicing the Securities. In addition, while the effective interest rates that may be charged to the Issuer are intended to be compliant with state usury law requirements, if in the event that any lawsuit brought by any issuer on NextSeed results in the Securities being found to violate state usury laws, such Securities may lose certain value.

Limited Security and Enforcement Options

The Issuer will grant a security interest in all of its assets in favor of NextSeed for the benefit of the investors but the Securities are not insured by any third party or backed by any government authority in any way. NETT VENTURE INVESTMENTS LLC

Notes to the Financial Statements

December 31, 2020 and 2019

(unaudited)

Note 1 - Nature of Business

Nett Venture Investments LLC (the “Company”), a Texas limited liability company, was formed on September 20, 2019. The Company intends to open a restaurant in the Shady Acres neighborhood of Houston, TX. The restaurant will seat 250-300 patrons indoors and outdoors, featuring indoor and outdoor areas for both relaxation time as well game activities.

Note 2 – Going Concern

The accompanying financial statements have been prepared on a going concern basis. The Company's prospects are subject to the risks and uncertainties frequently encountered by companies in rapidly evolving markets. These risks include the failure to market the Company's offering, as well as other risks and uncertainties.

The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to generate profits and/or obtain financing sufficient to meet current and future obligation. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. No assurance can be given that the Company will be successful in these efforts.

These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities.

Note 3 - Significant Accounting Policies

Basis of Accounting

The summary of significant accounting policies presented below is designed to assist in understanding the Company's financial statements. Such financial statements and accompanying notes are the representations of the Company's management, who are responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America (“GAAP”) in all material respects and have been consistently applied in preparing the accompanying financial statements.

Cash Equivalents

For purposes of the statement of cash flows, the Company considers all short-term, highly liquid investments with an original maturity of three months or less to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, at the date of the financial statements, as well as the reported amount of revenue and expenses during the reporting periods. Actual results could differ from these estimates.

Note 3 - Significant Accounting Policies *(continued)*

Revenue recognition

Revenue is recognized at the point in which the performance obligation under the terms of a contract with the customer have been satisfied and control has transferred. The Company's performance obligation is typically defined as the accepted order with the customer which requires the Company to deliver the requested products at agreed upon prices at the time and location of the customer's choice.

Revenue is measured as the amount of consideration the Company expects to receive in exchange for fulfilling the performance obligation. Sales and other taxes the Company collects concurrent with the sale of products are excluded from revenue.

Income Taxes

The Company has elected to be taxed as a partnership under the provisions of the Internal Revenue Code. Under those provisions, the Company does not pay federal corporate income taxes on its taxable income. Instead, the Members are liable for individual federal income taxes on their taxable net income.

The Company regularly assesses uncertain tax positions in each of the tax jurisdictions in which it has operations and accounts for the related consolidated financial statement implications. Unrecognized tax benefits are reported using the two-step approach under which tax effects of a position are recognized only if it is "more-likely-than-not" to be sustained and the amount of the tax benefit recognized is equal to the largest tax benefit that is greater than fifty percent likely of being realized upon ultimate settlement of the tax position. Determining the appropriate level of unrecognized tax benefits requires the Company to exercise judgment regarding the uncertain application of tax law. The amount of unrecognized tax benefits is adjusted when information becomes available or when an event occurs indicating a change is appropriate. As of December 31, 2020, the Company has recorded no unrecognized tax benefits. Additionally, the Company does not expect any unrecognized tax benefits to change significantly over the next twelve months. The Company is generally subject to tax examinations relating to US federal tax returns for three years.

The Company is subject to the Texas state franchise tax, which is based on taxable margin, as defined by the law, rather than taxable income, and is accounted for as an income tax.

Financial Instruments and Credit Risk

Financial instruments that potentially subject the Company to credit risk include cash and cash equivalents. Cash is deposited in demand accounts and maintained at high quality, federally insured financial institution. At various times during the year ended December 31, 2020, balances in these accounts may have exceeded Federal Deposit Insurance Corporation (FDIC) insured limits. The Company has not experienced and does not anticipate any credit losses on these deposits. Account receivable is generally unsecured.

Recent Accounting Pronouncements

Additional accounting standards that have been issued or proposed by the Financial Accounting Standards Board ("FASB"), or other standards setting bodies, are not expected to have a material impact on the Company's financial position, results of operations or cash flows.

Note 3 - Significant Accounting Policies (continued)

In February 2016, the FASB issued ASU 2016-02, Leases. Under ASU 2016-02, a right-to-use asset and lease liability will be recorded by lessees measured in the statement of financial position for leases classified as operating leases under previous GAAP. The asset and liability will be initially measured at the present value of lease payments. The single lease cost is then allocated over the lease term on a generally straight-line basis. All cash payments are then classified within the operating activities in the statement of cash flows. The accounting applied by a lessor is largely unchanged from that applied under previous GAAP. For leases with a term of 12 months or less, a lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. If a lessee makes this election, it should recognize lease expense for such leases generally on a straight-line basis over the lease term. These amendments are effective for the Company beginning January 1, 2022. Early application is permitted. The Company has not yet determined the impact of adopting the standard on its financial statements.

Note 4 – CARES Act Grant

In April 2020, the Company received a grant under the CARES Act from the United States Small Business Administration for \$2,000. The Company recorded the grant as other income during the year ended December 31, 2020.

Note 5 – Members’ Capital

In July 2021, the members signed a Limited Liability Company Agreement (“LLC Agreement”) to set forth the terms for the management of the Company. The LLC Agreement has two classes of members in the Company: Class A members and Class B members.

Liquidation preferences – In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, the holders of Series A and Series B membership units, on a pro rata basis, will receive a return of their initial capital contribution until the unreturned capital equals zero.

After distributions pursuant to the liquidation preferences noted above, Class A and Class B members shall participate in additional distributions, pro rata.

Company Managers – The management and control of the business of the Company shall be one manager appointed by the Class A members.

Note 6 - Commitments and Contingencies

Litigation and Claims

The Company from time to time may be involved in litigation relating to claims arising out of its ordinary course of business. Management believes there are no claims or actions pending or threatened against the Company, the ultimate disposition of which would have a material impact on the Company’s financial position, results of operations or cash flows.

Note 6 - Commitments and Contingencies (continued)

Risk Management

The Company is subject to various claims and liabilities in the ordinary course of business. The Company maintains various forms of insurance that the Company's management believes are adequate to reduce the exposure to these risks to an acceptable level.

COVID-19

On March 11, 2020 the World Health Organization declared the novel strain of coronavirus ("COVID-19") a global pandemic and recommended containment and mitigation measures worldwide. The extent of COVID-19's effect on the Company's operational and financial performance will depend on future developments, including the duration, spread and intensity of the pandemic. As of the date of the independent accountants' review, the Company cannot reasonably estimate the length or severity of this pandemic, or the extent to which the disruption may materially impact the Company's financial position, results of operations, and cash flows in 2021.

Lease Arrangements

The Company has a non-cancellable operating lease with the majority owner of the Class A member units. The lease which is for the Company's restaurant space commenced in February 2020 and has a five-year term with the option for a three-year extension. The rent payments on the Company's operating lease for years 2020 and 2021 are equal to a full year of property taxes for 2020 and 2021, respectively. Monthly rent payments of \$12,500 commences only when the Company commences operations in 2022.

Future minimum lease payments under these leases as of December 31, 2020 are as follows:

Year ended December 31,	
2021	\$ 21,108
2022	139,259
2023	150,000
2024	150,000
2025	12,500
	<u>\$ 472,862</u>

The Company has accounted for the lease under ASC 840 and recorded a deferred rent liability of \$69,133 in compliance with GAAP. Rent expense was \$90,241 for the year ended December 31, 2020.

Note 7 – Subsequent Events

Management of the Company has evaluated subsequent events through July 30, 2021, the date the financial statements were available for issuance.

On July 15, 2021, the Company entered into an agreement with NextSeed Securities, LLC ("the Portal") to raise funds through an offering of securities to eligible investors electronically through the Portal's website. The agreement was signed in accordance with the exemption from registration of securities under Rule 506(c) of Regulation D and/or Section 4(a)(6) of the Securities Act of 1933, which permits crowdfunding securities offerings over the internet by eligible users.

During 2021, the Company received \$55,000 in equity contributions from its majority owner for Class A member units.
