File No. 333-259879**

Dear Mr. Gong:

We have limited our review of your registration statement to those issues we have addressed in our comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by amending your registration statement and providing the requested information. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your registration statement and the information you provide in response to these comments, we may have additional comments.

Amendment No. 7 to Registration Statement on Form S-1

General

1. With a view toward disclosure, please tell us whether your sponsor is, is controlled by, or has substantial ties with a non-U.S. person. If so, also include risk factor disclosure that addresses how this fact could impact your ability to complete your initial business combination. For instance, discuss the risk to investors that you may not be able to complete an initial business combination with a U.S. target company should the transaction be subject to review by a U.S. government entity, such as the Committee on Foreign Investment in the United States (CFIUS), or ultimately prohibited. Disclose that as a result, the pool of potential targets with which you could complete an initial business combination may be limited. Further, disclose that the time necessary for

government review of the transaction or a decision to prohibit the transaction could prevent you from completing an initial business combination and require you to liquidate. Disclose the consequences of liquidation to investors, such as the losses of the investment opportunity in a target company, any price appreciation in the combined company, and the warrants, which would expire worthless.

2. We note your response to comment 1 and reissue in part. Please provide prominent disclosure about the legal and operational risks associated with a majority of your directors and officers being based in or having significant ties to China. Your disclosure should make clear whether these risks could result in a material change in your search for a target company and/or the value of the securities you are registering for sale. Your prospectus summary should address, but not necessarily be limited to, the risks highlighted on the prospectus cover page.

3. We reissue comment 2. In your summary of risk factors, disclose the risks that the majority of your directors and officers being based in or having significant ties to China poses to investors. In particular, describe the significant regulatory, liquidity, and enforcement risks with cross-references to the more detailed discussion of these risks in the prospectus. For example, specifically discuss risks arising from the legal system in China, including risks and uncertainties regarding the enforcement of laws and that rules and regulations in China can change quickly with little advance notice; and the risk that the Chinese government may intervene or influence your search for a target company or completion of your initial business combination at any time, which could result in a material change in your operations and/or the value of the securities you are registering for sale.
4. We reissue comment 3. Please disclose each permission or approval that your officers and directors are required to obtain from Chinese authorities to search for a target company. State whether your directors and officers are covered by permissions requirements from the China Securities Regulatory Commission (CSRC), Cyberspace Administration of China (CAC) or any other governmental agency and state affirmatively whether you have received all requisite permissions or approvals and whether any permissions or approvals have been denied. Please also describe the consequences to you and your investors if your officers and directors (i) do not receive or maintain such permissions or approvals, (ii) inadvertently conclude that such permissions or approvals are not required, or (iii) applicable laws, regulations, or interpretations change and your directors and officers are required to obtain such permissions or approvals in the future.

5. We reissue comment 4. Given the Chinese government's significant oversight and discretion over the conduct of your directors' and officers' search for a target company, please revise to highlight separately the risk that the Chinese government may intervene or influence your operations at any time, which could result in a material change in your search and/or the value of the securities you are registering.
6. We reissue comment 5. In light of recent events indicating greater oversight by the Cyberspace Administration of China (CAC) over data security, please revise your disclosure to explain how this oversight impacts your officers and directors or their search for a target company, and to what extent you believe that your officers and directors are compliant with the regulations or policies that have been issued by the CAC to date.

We remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.

Refer to Rules 460 and 461 regarding requests for acceleration. Please allow adequate time for us to review any amendment prior to the requested effective date of the registration statement.

Please contact Stacie Gorman at 202-551-3585 or Pam Howell at 202-551-3357 with any questions.

Sincerely,
