# Ralph Burleson

Founder and Executive Officer @ Go LoCo, PBC & Dine.Direct  
Reno

## Summary

My passion for technology and its application to social and business problems has led me on an exciting journey through large corporations like Microsoft and Accenture to startups in GeoCapital (Finance), Avanade (Technology Consulting) and Posigent (Artificial Intelligence).

Right now I'm involved in an awesome new venture that gives restaurants power and control of their delivery and takeout business channels. The company is called Dine.Direct. If you want to support the local restaurants you love, take a moment and discover how our Dine.Direct community can help them.
