PicMii does not make investment recommendations and no communication through this website or in any other medium should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Background:

Matthew Dever and Dan Taren met while studying at Penn State University. They were both part of a student run hedge fund and both worked in New York after graduation in credit research roles at Citigroup and Bank of America, respectively. While in New York they began to develop a system for betting on sports and decided to create a hedge fund that would pool investor money and place bets according to our model. The technology that was initially developed to improve our process for betting on sports was then converted into a consumer product, which became the genesis of Scrimmage. Back in February 2021, the founders quit our jobs and moved to Austin Texas to fully invest their capital and time into the development of Scrimmage.

Business Description:

Scrimmage operates in the online sports betting and sports content industry. Scrimmage is a sports betting hub for both the casual and more serious sports bettor. The Company's website and mobile app aggregate data from various sources, simplifying the user's betting process while providing the tools necessary to make more money betting on sports. Phase 1 of the website and

mobile app is still under development and is expected to be released in January 2022. This Phase includes the following prominent features:

- (a) Aggregated prices - each sportsbook has their own price for a bet. Scrimmage shows where the best price is available, getting the user best execution. The platform supports a dozen of the largest U.S. sportsbooks and redirects the user to the sportsbook to place the bet.
- (b) Bet tracker - Scrimmage syncs user's sportsbook accounts and displays all bets in a centralized ledger. 65% of the sports betting market either manually tracks or does not track their bets. This tool greatly simplifies the process for these bettors, showing them their aggregated sports betting performance among other statistics and helps them to save time while improving their betting.
- (c) Price improvement notifications - Scrimmage notifies a user when a bet is available at the price they want, working like a limit order for a stock. Scrimmage is the first company to offer this functionality for free. This is an invaluable tool for ensuring that a bet is never missed because you weren't watching the screen.
- (d) News terminal - real time news updates from 2000+ prescreened sports news sources. This is a Bloomberg inspired terminal that will provide all actionable sporting updates to the bettor so that they can make game time decisions on the outcome of a bet.
- (e) Data and analytics - Scrimmage provides key insights like trend data and team and player statistics. These are highly appealing to both experienced and new sports bettors. They keep users more engaged on our platform by providing all the data they need to make a decision in one place.

Phase 2 will expand Scrimmage's content offerings. The Company will build a freelance sports blog will onto the existing website and mobile app with an aim to better monetize sports content writers by providing them an opportunity to generate both subscription revenue and advertising revenue from other Scrimmage users. Current freelance options fall short in two key categories. Many of these sites do not allow their writers to monetize through advertisements. Scrimmage will fix that, and in the process more than double the revenue its content creators can make. Additionally, many of these sites are broadly oriented, focusing on everything from sports to cooking to travel. Scrimmage's freelance creators will be sports content focused. This will provide a natural subscription boost from Scrimmage's existing user base, unlike more broadly oriented blog sites that fail to successfully promote their writers. To monetize this Phase Scrimmage will take a percentage of the creator's subscription and advertising revenue. The expected development for this Phase will be 4 months, with an estimated launch in July 2022.

Revenue Model:

The Company's primary revenue model in 2022 will be affiliate revenue. Scrimmage has deals with many of the top sportsbooks in the U.S. and receives a CPA amount for every user brought to that sportsbook. At the present time, this amount averages at around a \$200 CPA. In 2023 this will likely switch to ad and subscription revenue from the Phase 2 freelance blog segment.

Risk Factors

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters. The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises such as COVID-19 can have a significant effect on our business operations and revenue projections.

There is an ongoing outbreak of a novel and highly contagious form of coronavirus ("COVID-19"), which the World Health Organization declared a global pandemic on March 11, 2020. The outbreak of COVID-19 has caused a worldwide public health emergency with a substantial number of hospitalizations and deaths and has significantly adversely impacted global commercial activity and contributed to both volatility and material declines in equity and debt markets. The global impact of the outbreak is rapidly evolving, and many national, state, and local governments have reacted by instituting mandatory or voluntary quarantines, travel prohibitions and restrictions, closures or reductions of offices, businesses, schools, retail stores, restaurants, and other public venues and/or cancellations, suspensions and/or postponements of certain events and activities, including certain non-essential government and regulatory activities. Businesses are also implementing their own precautionary measures, such as voluntary closures, temporary or permanent reductions in work force, remote working arrangements and emergency contingency plans.

Such measures, as well as the general uncertainty surrounding the dangers, duration, and impact of COVID-19, are creating significant disruption to supply chains and economic activity, impacting consumer confidence and contributing to significant market losses, including by having particularly adverse impacts on transportation, hospitality, healthcare, tourism, sports, entertainment and other industries dependent upon physical presence. Technological infrastructure has, and will likely continue to be, strained for so long as mandatory or voluntary quarantines are instituted, which will change, and potentially disrupt, the operations of the

Company. As COVID-19 continues to spread, potential additional adverse impacts, including a global, regional or other economic recession of indeterminate duration, are increasingly likely and difficult to assess and, if the spread of COVID-19 is prolonged, it could adversely affect many economies, global financial markets and the Company even after COVID- 19 is contained.

The extent of the impact of COVID-19 on the Company's operational and financial performance will depend on many factors, all of which are highly uncertain and cannot be predicted. Those factors include the duration and scope of the resulting public health emergency; the extent of any related restrictions implemented; the impact of such public health emergency on overall supply and demand, goods and services, investor liquidity, consumer confidence and levels of economic activity; and the extent of its disruption to important global, regional and local supply chains and economic markets. The effects of the COVID-19 pandemic may materially and adversely impact the value, performance and liquidity of the Company.

In addition, COVID-19 and the resulting changes to global businesses and economies likely will adversely impact the business and operations of the Company and therefore the business and operations of the Company. Certain businesses and activities may be temporarily or permanently halted as a result of government or other quarantine measures, voluntary and precautionary restrictions on travel or meetings and other factors, including the potential adverse impact of COVID-19 on the health of key personnel.

Regulatory changes and uncertainties.

The Company operates in a highly regulated industry subject to substantial change. In addition, both its labor and customer base are licensed and regulated by local, state, and federal governments. Policies may be changed for several reasons including, but not limited to economic conditions, public safety, socio-political factors, and such. As policy changes are made by regulators, there is no guarantee that the company will be able to provide services in its current form, which may place a substantial hardship on operations, causing an Investor to lose all or a portion of their investment.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations may require a significant pivot in strategy and execution, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenue, as well as the inherent business risks associated with our Company and present and future market conditions.

The Company's success depends on the experience and skill of its manager and other key personnel.

In particular, we are dependent on our managers. The loss of the Managers, the Principals or any other key personnel could harm the Company's business, financial condition, cash flow and performance. Accordingly, you should not invest in the Company unless you are willing to entrust all aspects of the management of the Company and the investment decisions we make on the behalf of the Company.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success and will be critical to our success as we form and advise new markets. Any incident that erodes confidence in our brand could significantly reduce the Company's value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correct.

Risks Related to the Offering

The U.S. Securities and exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of

compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered Offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering -it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

Although Investors will have no right to voluntarily withdraw capital from the Company or withdraw their Securities, in certain circumstances they may be forced to withdraw from the Company.

An Investor may be forced to withdraw from the Company if the Company reasonably determines that it is necessary or desirable to do so in order to comply with applicable law or regulations, or to avoid a material adverse effect on the Company or the other holders of securities in the Company.

Investors will have no right to control the Company's operations.

The Investors will have no opportunity to control the day-to-day operations of the Company, including, without limitation, the investment and disposition decisions of the Portfolio Companies. In order to safeguard your limited liability for the liabilities and obligations of the Company, you must rely entirely on the Manager and Principals to conduct and manage the business affairs of the Company

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

The Company may never undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never undergo a liquidity event such as a repurchase of the Securities by the Company, a sale of the Company or an initial public or coin offering. If a liquidity event does not occur, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities have no voting rights or ability to direct the Company or its actions.

The Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company's equity securities will be subject to dilution. The Company may issue additional equity to third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's economic interests in the Company. The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that

additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

The Securities may be substantially different from other equity securities offered or issued by the Company.

The Securities may be materially different from the other equity securities of the Company in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. The Securities may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred membership interests, have been paid in full. Neither holders of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

Total Amount of the Securities Outstanding After Offering (if Target Offering Amount Met)	\$10,000
Maximum Amount of the Securities Outstanding after Offering (if Maximum Offering Amount Met)	\$250,000
Total Amount of the Securities Outstanding after Offering (if Maximum Offering Amount is Met)	\$250,000
Price Per Security	N/A - SAFE
Minimum Individual Purchase Amount	\$100
Offering Deadline	8/31/22
Use of Proceeds	See Question 8
Voting Power	See Question 13

*The Company reserves the right to amend the Minimum Individual Purchase Amount, in its sole discretion. In particular, the Company may elect to participate in one of the Intermediary's special investment programs and may offer alternative Minimum Individual Purchase Amounts to Investors participating in such programs without notice.

Scrimmage Co. ("Company") is offering securities under Regulation CF, through PicMii Crowdfunding LLC ("PicMii"). PicMii is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.5% of the value of the securities sold through Regulation CF. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$10,000 and \$250,000 through an offering under Regulation CF. Specifically, if we reach the Minimum Raise Amount of \$10,000, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have not yet to be closed.

In the event The Company fails to reach the minimum offering amount of \$10,000, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

7. What is the purpose of this offering?

If the maximum offering amount is raised, our anticipated use of proceeds is as follows in Question 8.

8. How does the issuer intend to use the proceeds of this offering?

Add rows as necessary to account for all ways you intend to use the proceeds of this offering.

	% of Capital if Target Offering Amount Raised	Amount if Target Offering Amount Raised	% of Capital if Maximum Offering Amount Raised	Amount if Maximum Offering Amount Raised
Product Development	55%	\$5,500	55%	\$137,500
Targeted Marketing Campaign	25%	\$2,500	25%	\$62,500
External Data and Maintenance	20%	\$2,000	20%	\$50,000
Total	100%	\$10,000	100%	\$250,000

*We reserve the right to change the above use of proceeds if management believes it is in the best interest of the Company.

9. How will the issuer complete the transaction and deliver securities to the investors?

Transfer Agent - In entering into an agreement on PicMii Crowdfunding's Funding Portal to purchase securities, both investors and the Company must agree that a transfer agent, which keeps records of our outstanding Common Stock (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed) or that the Company is capable of maintaining investment records on their own. In this case, the company will be utilizing a transfer agent.

10. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering PicMii will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). PicMii Crowdfunding will notify investors when the target offering amount has been met. If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled, and the committed funds will be returned.

11. 11. Can the company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Ownership and Capital Structure

The Offering

12. Describe the terms of the securities being offered.

Scrimmage will be offering 2 tiers of SAFE agreements based on the amount of funding raised in this Regulation Crowdfunding offering:

Tier 1: \$0 - \$75k in investments | \$3M valuation cap at 30% discount

Tier 2: \$75k - \$250k | \$6M valuation cap no discount

The security being offered is a Simple Agreement for Future Equity (SAFE), therefore, investors will not be receiving equity at the time they invest in Scrimmage through this SAFE. Instead, they will receive equity at a later date once the events outlined in the subscription agreement occur.

If there is an Equity Financing before the termination of this SAFE, on the initial closing of such Equity Financing, this Safe will automatically convert into the greater of: (1) the number of shares of Standard Preferred Stock equal to the Purchase Amount divided by the lowest price per share of the Standard Preferred Stock; or (2) the number of shares of Safe Preferred Stock equal to the Purchase Amount divided by the Safe Price.

If there is a Liquidity Event before the termination of this Safe, this Safe will automatically be entitled, subject to liquidation priority, to receive a portion of the proceeds, due and payable to the investor immediately prior to, or concurrent with, the consummation of such liquidity event, equal to the greater of (i) the purchase amount or (ii) the amount payable on the number of shares of common stock equal to the purchase amount divided by the liquidity price.

If there is a Dissolution Event before the termination of this Safe, the Investor will automatically be entitled (subject to the liquidation priority) to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the Investor immediately prior to the consummation of the Dissolution Event.

13. Do the securities offered have voting rights? Voting Rights and Proxy:

No, the security is a SAFE. Even after the SAFE converts, it will do so into preferred stock, which does not come with voting rights.

14. Are there any limitations on any voting or other rights identified above? See Question 13.

15. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be cancelled and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.
- The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person. The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

16. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Amount Authorized	Amount Outstanding	Reserved Options	Convertible Note/SAFEs	Voting Rights
Common	5000000	4000000	1000000	0	Yes.

Options, Warrants and Other Rights

17. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities? Investors should understand the potential for dilution.

The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible bonds, preferred shares or warrants) into stock. If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early-stage companies are unlikely to offer dividends, preferring to invest any earnings into the company)

18. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

Yes, the SAFE will convert into preferred stock, which does not come with voting rights, but is senior to payments for common stock in the event of liquidation.

19. How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?

The holder of a majority of the voting rights in the company may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholder may decide to issue additional shares to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to

you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

20. How are the securities being offered valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The securities being offered are valued at the issuer's discretion. An early-stage company typically sells its shares (or grants options over its shares) to its founders and early employees at a very low cash cost, because they are, in effect, putting their "sweat equity" into the company. When the company seeks cash investments from outside investors, like you, the new investors typically pay a much larger sum for their shares than the founders or earlier investors, which means that the cash value of your stake is immediately diluted because each share of the same type is worth the same amount, and you paid more for your shares than earlier investors did for theirs.

There are several ways to value a company, and none of them is perfect and all of them involve a certain degree of guesswork. Any of these methods, plus others, may be used to determine valuation in the future:

Liquidation Value - The amount for which the assets of the company can be sold, minus the liabilities owed, e.g., the assets of a bakery include the cake mixers, ingredients, baking tins, etc. The liabilities of a bakery include the cost of rent or mortgage on the bakery. However, this value does not reflect the potential value of a business, e.g., the value of the secret recipe. The value for most startups lies in their potential, as many early stage companies do not have many assets.

Book Value - This is based on analysis of the company's financial statements, usually looking at the company's balance sheet as prepared by its accountants. However, the balance sheet only looks at costs (i.e., what was paid for the asset), and does not consider whether the asset has increased in value over time. In addition, some intangible assets, such as patents, trademarks or trade names, are very valuable but are not usually represented at their market value on the balance sheet.

Earnings Approach - This is based on what the investor will pay (the present value) for what the investor expects to obtain in the future (the future return), taking into account inflation, the lost opportunity to participate in other investments, the risk of not receiving the return. However, predictions of the future are uncertain and valuation of future returns is a best guess.

Different methods of valuation produce a different answer as to what your investment is worth. Typically, liquidation value and book value will produce a lower valuation than the earnings approach. However, the earnings approach is also most likely to be risky as it is based on many assumptions about the future, while liquidation value and book value are much more conservative.

Future investors (including people seeking to acquire the company) may value the company differently. They may use a different valuation method, or different assumptions about the company's business and its market. Different valuations may mean that the value assigned to your investment changes. It frequently happens that when a large institutional investor such as a venture capitalist makes an investment in a company, it values the company at a lower price than the initial investors did. If this happens, the value of the investment would go down.

21. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

The company's Certificate of Incorporation or Bylaws can be amended by the holders of a majority of the issued and outstanding shares of the Company. As minority owners, the crowdfunding investors are subject to the decisions made by the majority owners. The issued and outstanding shares of common stock give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as, among other things: (a) the liquidation, dissolution or winding up of the company, or effecting any merger or consolidation; (b) amendment of any provision of the Certificate of Incorporation or Bylaws; (c) creation and issuance of other securities having rights, preferences or privileges senior to the common stock sold to the crowdfunding investors, or increasing the authorized number of shares of stock of the company; or (d) creation of any debt security.

22. What are the risks to purchasers associated with corporate actions including:

- 1. Additional issuances of securities**
- 2. Issuer repurchases of securities**
- 3. A sale of the issuer or of assets of the issuer**
- 4. Transactions with related parties**

The authorization and issuance of additional shares of the company's common stock will dilute the ownership of the crowdfunding investors. As a result, if the company achieves profitable operations in the future, its net income per share will be reduced because of dilution, and the market price of the company's common stock, if there is a market price, could decline as a result of the additional issuances of securities. If the company repurchases securities, so that the above risk is mitigated, and there are fewer shares of common stock outstanding, the company may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our securities would decline. A sale of the company or of all of the assets of the company may result in an entire loss of your investment. We cannot predict the market value of the company or its assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors. We may need to negotiate with a related party for additional capital. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms.

23. Describe the material terms of any indebtedness of the issuer:

Creditor(s)	Amount Outstanding	Interest Rate	Maturity Date
N/A	N/A	N/A	N/A

24. What other exempt offerings has the Company conducted within the past three years?

506 (b) SAFE offering in March 2022 - \$45,000 raised
Techstars Convertible Note in April 2022 - \$100,000 raised

25. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

1. Any director or officer of the issuer;
2. Any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
3. If the issuer was incorporated or organized within the past three years, any promoter of the issuer; or

Business Description

Scrimmage operates in the sports betting industry as the broker between the sportsbook and the sports bettor. The sports betting market is new, quickly growing, and very inefficient. We greatly simplify the sports betting process, from getting the bettor the best price available and telling them where to place the bet, to tracking a complete history of all of their bets from all of their sportsbook accounts in one place. Additionally, our provide content aggregated from over 2000 sports news sources that pairs with the ability to make quick betting decisions. We will expand our content offerings in future developments with a freelance sports blog that will allow writers and content creators to monetize their work.

Problem

The process for placing and tracking a sports bet is highly inefficient and time consuming. For bettors with more than 1 sportsbook account, which is a majority of sports bettors, they need to separately check each of their sportsbook accounts to determine where the best price is available and manually record the details of the bet. By the time this is done, the price has already moved and is no longer available. If you were an active stock trader you would never accept this, and sports bettors are beginning to demand the same conveniences.

Solution

Scrimmage greatly simplifies the sports betting process. We automatically sync data from each of the bettor's sportsbook accounts, directing the bettor to the sportsbook with the best price while simultaneously recording the details of the bet onto our platform. We are the start and end of every bet, one ledger for their entire betting history.

Business Model

Initially, Scrimmage's revenue model will be affiliate marketing with top U.S. sportsbooks. We are already licensed in the majority of states with legal online sports betting and already have contracts with some of the largest sportsbooks in the U.S. These sportsbooks will pay us around \$200 for each sign-up we bring them, and our app and website are geared toward maximizing this number. It is in the sports bettor's best interest to sign-up with as many sportsbook accounts possible. In the future we intend to expand our content offerings, allowing independent writers to receive subscription and advertisement revenue, with Scrimmage receiving a commission from this.

Traction & Customers

Scrimmage's app is pre-launch, while the desktop has been open to a small number of beta testers for the past 2 month. Up until this point, the team has done a tremendous job with our organic social media following, with over 120k followers across all channels. We have done this by providing content that is related to what will be available on the application and we will continue to grow our reach in this way. Our product was created by sports bettors and has been continuously tested by sports bettors throughout the development process.

Investors

Investments up until this point include about \$250k from a combination of founder's capital, friends and family, and an investment from the Techstars Sports Accelerator

Terms

Scrimmage will be offering 2 tiers of SAFE agreements based on the amount of funding raised in this Regulation Crowdfunding offering:

Tier 1: \$0 - \$75k in investments | \$3M valuation cap at 30% discount

Tier 2: \$75k - \$250k | \$6M valuation cap no discount

The security being offered is a Simple Agreement for Future Equity (SAFE), therefore, investors will not be receiving equity at the time they invest in Scrimmage through this SAFE. Instead, they will receive equity at a later date once the events outlined in the subscription agreement occur.

If there is an Equity Financing before the termination of this SAFE, on the initial closing of such Equity Financing, this Safe will automatically convert into the greater of: (1) the number of shares of Standard Preferred Stock equal to the Purchase Amount divided by the lowest price per share of the Standard Preferred Stock; or (2) the number of shares of Safe Preferred Stock equal to the Purchase Amount divided by the Safe Price.

If there is a Liquidity Event before the termination of this Safe, this Safe will automatically be entitled, subject to liquidation priority, to receive a portion of the proceeds, due and payable to the investor immediately prior to, or concurrent with, the consummation of such liquidity event, equal to the greater of (i) the purchase amount or (ii) the amount payable on the number of shares of common stock equal to the purchase amount divided by the liquidity price.

If there is a Dissolution Event before the termination of this Safe, the Investor will automatically be entitled (subject to the liquidation priority) to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the Investor immediately prior to the consummation of the Dissolution Event.

Risks

This offering involves a SAFE (Simple Agreement for Future Equity). Please note, that upon your investment you do not immediately earn an equity stake in Scrimmage Co. SAFEs involve a triggering event that must occur for your investment to convert into equity. It is critical that investors read the subscription agreement prior to investing in a SAFE to understand all of the terms of the security.

See Offering Statement; A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

Market Projection

Scrimmage's addressable market is 40M current online sports bettors in the U.S. This is expected to grow to 80M over the next 1-3 years as online sports betting legalizes in the U.S. Roughly half of these bettors are already using tools that help improve their sports betting process and we know there is demand for the product we have created.

Because of this growing market, there will be about 20M sportsbook app downloads in 2022. Sportsbooks are willing to pay on average \$200 per affiliate sign-up which means an addressable market size in 2022 of \$4B.

By 2025, we estimate that we could have 3M users (3.75% of the future expected online sports betting market), and account for 25k sportsbook sign-ups (0.125% of 2022 sportsbook app downloads), which would result in \$5M in annual revenue.

Competition

We are confident that the future of sports betting will mimic the trajectory of retail stock investing. The bettors will begin and have already begun to take sports betting more seriously, looking to utilize tools that save them time and help them make more money. The process for placing and managing sports bets is highly inefficient and Scrimmage's sole focus is to simplify that process so the user will decide that we are a product they can't live without. We want to completely eliminate wasted time for the bettor and give them all the tools they need to maximize their profit. Our competitors provide some of these tools, but not to the extent that Scrimmage does, and not at the same price point. Their thinking is more antiquated, providing things like "top picks" and in house content that serves their own agenda over the bettor. Bettors want to be involved in the decision making process and want a community around them. That is Scrimmage.

Our primary competitors are:

2. Betsperts- <https://www.betsperts.com/>
3. Betstamp - <https://betstamp.app/>

SAFE

(Simple Agreement for Future Equity)

THIS CERTIFIES THAT in exchange for the payment by _____ (the “**Investor**”) of \$ _____ (the “**Purchase Amount**”) on or about _____, Scrimmage Co., a Delaware corporation (the “**Company**”), issues to the Investor the right to certain shares of the Company’s Capital Stock, subject to the terms described below.

The “**Valuation Cap**” is \$3,000,000.

The “**Discount Rate**” is 70%.

See **Section 2** for certain additional defined terms.

1. *Events*

(a) **Equity Financing.** If there is an Equity Financing before the termination of this Safe, on the initial closing of such Equity Financing, this Safe will automatically convert into the number of shares of Safe Preferred Stock equal to the Purchase Amount divided by the Conversion Price.

In connection with the automatic conversion of this Safe into shares of Safe Preferred Stock, the Investor will execute and deliver to the Company all of the transaction documents related to the Equity Financing; *provided*, that such documents (i) are the same documents to be entered into with the purchasers of Standard Preferred Stock, with appropriate variations for the Safe Preferred Stock if applicable, and (ii) have customary exceptions to any drag-along applicable to the Investor, including (without limitation) limited representations and warranties, liability and indemnification obligations for the Investor.

(b) **Liquidity Event.** If there is a Liquidity Event before the termination of this Safe, this Safe will automatically be entitled (subject to the liquidation priority in Section 1(d) below) to receive a portion of Proceeds, due and payable to the Investor immediately prior to, or concurrent with, the consummation of such Liquidity Event, equal to the greater of (i) the Purchase Amount (the “**Cash-Out Amount**”) or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the “**Conversion Amount**”). If any of the Company’s securityholders are given a choice as to the form and amount of Proceeds to be received in a Liquidity Event, the Investor will be given the same choice, *provided* that the Investor may not choose to receive a form of consideration that the Investor would be ineligible to receive as a result of the Investor’s failure to satisfy any requirement or limitation generally applicable to the Company’s securityholders, or under any

applicable laws.

Notwithstanding the foregoing, in connection with a Change of Control intended to qualify as a tax-free reorganization, the Company may reduce the cash portion of Proceeds payable to the Investor by the amount determined by its board of directors in good faith for such Change of Control to qualify as a tax-free reorganization for U.S. federal income tax purposes, provided that such reduction (A) does not reduce the total Proceeds payable to such Investor and (B) is applied in the same manner and on a pro rata basis to all securityholders who have equal priority to the Investor under Section 1(d).

(c) **Dissolution Event.** If there is a Dissolution Event before the termination of this Safe, the Investor will automatically be entitled (subject to the liquidation priority in Section 1(d) below) to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the Investor immediately prior to the consummation of the Dissolution Event.

(d) **Liquidation Priority.** In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard non-participating Preferred Stock. The Investor's right to receive its Cash-Out Amount is:

(i) Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);

(ii) On par with payments for other Safes and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Stock in proportion to the full payments that would otherwise be due; and

(iii) Senior to payments for Common Stock.

The Investor's right to receive its Conversion Amount is (A) on par with payments for Common Stock and other Safes and/or Preferred Stock who are also receiving Conversion Amounts or Proceeds on a similar as-converted to Common Stock basis, and (B) junior to payments described in clauses (i) and (ii) above (in the latter case, to the extent such payments are Cash-Out Amounts or similar liquidation preferences).

(e) **Termination.** This Safe will automatically terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with this Safe) immediately following the earliest to occur of: (i) the issuance of Capital Stock to the Investor pursuant to the automatic conversion of this Safe under Section 1(a); or (ii) the payment, or setting aside for payment, of amounts due the Investor pursuant to Section 1(b) or Section 1(c).

2. *Definitions*

directors, (ii) any reorganization, merger or consolidation of the Company, other than a transaction or series of related transactions in which the holders of the voting securities of the Company outstanding immediately prior to such transaction or series of related transactions retain, immediately after such transaction or series of related transactions, at least a majority of the total voting power represented by the outstanding voting securities of the Company or such other surviving or resulting entity or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

“**Company Capitalization**” means the sum, as of immediately prior to the Equity Financing, of: (1) all shares of Capital Stock (on an as-converted basis) issued and outstanding, assuming exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding (A) this Safe, (B) all other Safes, and (C) convertible promissory notes; and (2) all shares of Common Stock reserved and available for future grant under any equity incentive or similar plan of the Company, and/or any equity incentive or similar plan to be created or increased in connection with the Equity Financing.

“**Direct Listing**” means the Company’s initial listing of its Common Stock (other than shares of Common Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Company with the SEC that registers shares of existing capital stock of the Company for resale, as approved by the Company’s board of directors. For the avoidance of doubt, a Direct Listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services.

“**Equity Financing**” means a bona fide transaction or series of transactions with the principal purpose of raising capital, pursuant to which the Company issues and sells Preferred Stock at a fixed valuation, including but not limited to, a pre-money or post-money valuation.

“**Initial Public Offering**” means the closing of the Company’s first firm commitment underwritten initial public offering of Common Stock pursuant to a registration statement filed under the Securities Act.

“**Liquidity Capitalization**” means the number, as of immediately prior to the Liquidity Event, of shares of Capital Stock (on an as-converted basis) outstanding, assuming exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (i) shares of Common Stock reserved and available for future grant under any equity incentive or similar plan; (ii) this Safe; (iii) other Safes; and (iv) convertible promissory notes.

“**Liquidity Event**” means a Change of Control, a Direct Listing or an Initial Public Offering.

“**Liquidity Price**” means the price per share equal to the Valuation Cap divided by the Liquidity Capitalization.

“**Proceeds**” means cash and other assets (including without limitation stock consideration) that are proceeds from the Liquidity Event or the Dissolution Event, as applicable, and legally available for distribution.

“**Safe**” means an instrument containing a future right to shares of Capital Stock, similar in form and content to this Safe, purchased by investors for the purpose of funding the Company’s business operations. References to “this Safe” mean this specific instrument.

“**Safe Preferred Stock**” means the shares of the series of Preferred Stock issued to the Investor in an Equity Financing, having the identical rights, privileges, preferences and restrictions as the shares of Standard Preferred Stock, other than with respect to: (i) the per share liquidation preference and the initial conversion price for purposes of price-based anti-dilution protection, which will equal the Conversion Price; and (ii) the basis for any dividend rights, which will be based on the Conversion Price.

“**Safe Price**” means the price per share equal to the Valuation Cap divided by the Company Capitalization.

“**Standard Preferred Stock**” means the shares of the series of Preferred Stock issued to the investors investing new money in the Company in connection with the initial closing of the Equity Financing.

To its knowledge, the Company is not in violation of (i) its current certificate of incorporation or bylaws, (ii) any material statute, rule or regulation applicable to the Company or (iii) any material debt or contract to which the Company is a party or by which it is bound, where, in each case, such violation or default, individually, or together with all such violations or defaults, could reasonably be expected to have a material adverse effect on the Company.

(c) The performance and consummation of the transactions contemplated by this Safe do not and will not: (i) violate any material judgment, statute, rule or regulation applicable to the Company; (ii) result in the acceleration of any material debt or contract to which the Company is a party or by which it is bound; or (iii) result in the creation or imposition of any lien on any property, asset or revenue of the Company or the suspension, forfeiture, or nonrenewal of any material permit, license or authorization applicable to the Company, its business or operations.

(d) No consents or approvals are required in connection with the performance of this Safe, other than: (i) the Company's corporate approvals; (ii) any qualifications or filings under applicable securities laws; and (iii) necessary corporate approvals for the authorization of Capital Stock issuable pursuant to Section 1.

4. *Investor Representations*

(a) The Investor has full legal capacity, power and authority to execute and deliver this Safe and to perform its obligations hereunder. (b) Subscriber is either an accredited investor as defined in Rule 501(a) of Regulation D promulgated under the Securities Act or is investing within their investor limits as defined in 4(a)(6) of Regulation CF. 5. *Miscellaneous*

(c) The Investor is not entitled, as a holder of this Safe, to vote or be deemed a holder of Capital Stock for any purpose other than tax purposes, nor will anything in this Safe be construed to confer on the Investor, as such, any rights of a Company stockholder or rights to vote for the election of directors or on any matter submitted to Company stockholders, or to give or withhold consent to any corporate action or to receive notice of meetings, until shares have been issued on the terms described in Section 1. However, if the Company pays a dividend on outstanding shares of Common Stock (that is not payable in shares of Common Stock) while this Safe is outstanding, the Company will pay the Dividend Amount to the Investor at the same time.

(d) Neither this Safe nor the rights in this Safe are transferable or assignable, by operation of law or otherwise, by either party without the prior written consent of the other; *provided, however*, that this Safe and/or its rights may be assigned without the Company's consent by the Investor (i) to the Investor's estate, heirs, executors, administrators, guardians, and/or successors in the event of Investor's death or disability, or (ii) to any other entity who directly or indirectly, controls, is controlled by or is under common control with the Investor, including, without limitation, any general partner, managing member, officer or director of the Investor, or any venture capital fund now or hereafter existing which is controlled by one or more general partners or managing members of, or shares the same management company with, the Investor; and *provided, further*, that the Company may assign this Safe in whole, without the consent of the Investor, in connection with a reincorporation to change the Company's domicile.

(e) In the event any one or more of the provisions of this Safe is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the provisions of this Safe operate or would prospectively operate to invalidate this Safe, then and in any such event, such provision(s) only will be deemed null and void and will not affect any other provision of this Safe and the remaining provisions of this Safe will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

(f) All rights and obligations hereunder will be governed by the laws of the State of Delaware, without regard to the conflicts of law provisions of such jurisdiction.

(g) The parties acknowledge and agree that for United States federal and state income tax purposes this Safe is, and at all times has been, intended to be characterized as stock, and more particularly as common stock for purposes of Sections 304, 305, 306, 354, 368, 1036 and 1202 of the Internal Revenue Code of 1986, as amended. Accordingly, the parties agree to treat this Safe consistent with the foregoing intent for all United States federal and state income tax purposes (including, without limitation, on their respective tax returns or other informational statements).

(Signature page follows)

IN WITNESS WHEREOF, the undersigned have caused this Safe to be duly executed and delivered.

1. *Events*

(a) **Equity Financing.** If there is an Equity Financing before the termination of this Safe, on the initial closing of such Equity Financing, this Safe will automatically convert into the greater of: (1) the number of shares of Standard Preferred Stock equal to the Purchase Amount divided by the lowest price per share of the Standard Preferred Stock; or (2) the number of shares of Safe Preferred Stock equal to the Purchase Amount divided by the Safe Price.

In connection with the automatic conversion of this Safe into shares of Standard Preferred Stock or Safe Preferred Stock, the Investor will execute and deliver to the Company all of the transaction documents related to the Equity Financing; *provided*, that such documents (i) are the same documents to be entered into with the purchasers of Standard Preferred Stock, with appropriate variations for the Safe Preferred Stock if applicable, and (ii) have customary exceptions to any drag-along applicable to the Investor, including (without limitation) limited representations and warranties, liability and indemnification obligations for the Investor.

(b) **Liquidity Event.** If there is a Liquidity Event before the termination of this Safe, this Safe will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds, due and payable to the Investor immediately prior to, or concurrent with, the consummation of such Liquidity Event, equal to the greater of (i) the Purchase Amount (the “**Cash-Out Amount**”) or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the “**Conversion Amount**”). Notwithstanding the foregoing, in connection with a Change of Control intended to qualify as a tax-free reorganization, the Company may reduce the cash portion of Proceeds payable to the Investor by the amount determined by its board of directors in good faith for such Change of Control to qualify as a tax-free reorganization for U.S. federal income tax purposes, provided that such reduction (A) does not reduce the total Proceeds payable to such Investor and (B) is applied in the same manner and on a pro rata basis to all securityholders who have equal priority to the Investor under Section 1(d).

(c) **Dissolution Event**. If there is a Dissolution Event before the termination of this Safe, the Investor will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the Investor immediately prior to the consummation of the Dissolution Event.

(d) **Liquidation Priority**. In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard non-participating Preferred Stock. The Investor's right to receive its Cash-Out Amount is:

(i) Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);

(ii) On par with payments for other Safes and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Stock in proportion to the full payments that would otherwise be due; and

(iii) Senior to payments for Common Stock.

The Investor's right to receive its Conversion Amount is (A) on par with payments for Common Stock and other Safes and/or Preferred Stock who are also receiving Conversion Amounts or Proceeds on a similar as-converted to Common Stock basis, and (B) junior to payments described in clauses (i) and (ii) above (in the latter case, to the extent such payments are Cash-Out Amounts or similar liquidation preferences).

(e) **Termination**. This Safe will automatically terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with this Safe) immediately following the earliest to occur of: (i) the issuance of Capital Stock to the Investor pursuant to the automatic conversion of this Safe under Section 1(a); or (ii) the payment, or setting aside for payment, of amounts due the Investor pursuant to Section 1(b) or Section 1(c).
