

The trash you helped us to collect through funding our clean ups and river barriers will all be **dumped** into one place...

PANGEA's very own Plastic Innovation Center!

In this space, the trash we collect will be turned into high quality outdoor products in 3 simple steps.

And the magic man who will be managing the production?

Darius Mahendra!

Left: Marcos and Darius, Right: Darius in the workshop

Darius joined the PANGEA team last year and through his amazing hard work, he has worked his way up to be our workshop manager.

Our customers who invested in our Wefunder campaign last year funded the Plastic Innovation Center. **Invest in PANGEA today** and scale this solution to replace plastic supply chains **globally**.

We are "testing the waters" to gauge investor interest in an offering under Regulation Crowdfunding. No money or other consideration is being solicited. If sent, it will not be accepted. No offer to buy securities will be accepted. No part of the purchase price will be received until a Form C is filed and only through Wefunder's platform. Any indication of interest involves no obligation or commitment of any kind.

Hey <<First Name>>,

You may have seen my email two days ago about our Wefunder campaign and the opportunity for you to become a PANGEA shareholder.

I received so many replies from that email asking me:

"What is equity crowdfunding?"

The PANGEA team and I decided to put together a video for you guys.

Watch the **1 minute video** below to understand the differences between equity crowdfunding and Kickstarter.

Let me know what you think of the video by replying to this email!

Last year 250 of our customers decided to become shareholders!

Become a PANGEA shareholder here

Any indication of interest involves no obligation or commitment of any kind.

Together with your support, we just crossed a total of **200,000 lbs** of trash collected from the environment.

3 reasons Pangea's solution to ocean pollution is ready to scale:

1. Pangea river barriers are **500x cheaper** upfront cost to manufacture than the interceptor
2. Pangea's recycling process to create sunglasses **adds 1000x more value than traditional recycling**
3. Pangea's barriers inspired 7 government run barriers, driving **systemic change**

You can become a shareholder of Pangea and fund this **global solution**.

1. China currently produces roughly 60% of global recycled products. Most recycled plastic is untraceable, unethical, or a dirty lie.

2. **As a PANGEA customer**, you are helping us fix the broken recycling industry. We are one of the **ONLY** brands using **true environmental waste!**

3. We are ready to scale this solution globally. You can fund the next chapter of PANGEA's story by becoming a **PANGEA shareholder**.

Challenge the broken recycling industry here

Hi, Marcos here!

Last year PANGEA investors and customers funded these amazing two changes so we can take on the extremely wasteful sunglasses industry.

Most recycled plastic is untraceable, unethical, or a dirty lie.

PANGEA is one of the **ONLY** brands using **true environmental waste** and we are ready to scale this solution globally.

You can help us fix the broken recycling industry by becoming a PANGEA shareholder and funding the next chapter of our story.

Disrupt with PANGEA here

With love,
Marcos Bulacio

Hi Chase!

I'm one of the founders of Pangea, we're turning trash into high quality sustainable products. I thought you might be interested in this, I'd love to know what you think about our pitch here:

<https://wefunder.com/pangea>

Invest in PANGEA: Turning Trash into High Quality Sustainable Products
