Draft Registration Statement on Form F-1

Cover Page

1. Please amend your disclosure to clearly disclose how you will refer to the holding company and subsidiaries throughout the document so that it is clear to investors which entity the disclosure is referencing and which subsidiaries or entities are conducting the business operations, and refrain from using terms such as "we" or "our" when describing activities, functions, or employees of your subsidiaries. Please disclose clearly the entity (including the domicile) in which investors are purchasing an interest.

2. Please disclose prominently on the prospectus cover page that you are not a Chinese operating company but a Cayman Islands holding company with operations conducted by your subsidiaries based in China and that this structure involves unique risks to investors. Disclose that investors may never hold equity interests in the Chinese operating entities. Your disclosure should acknowledge that Chinese regulatory authorities could disallow this structure, which would likely result in a material change in your operations and/or a material change in the value of your securities, including that it could cause the value of such securities to significantly decline or become worthless. Please provide a cross-reference to your detailed discussion of risks facing the company and the offering as a result of your operating structure.
3. Please disclose whether your auditor is subject to the determinations announced by the PCAOB on December 16, 2021 and whether and how the Holding Foreign Companies Accountable Act and related regulations will affect your company. Please revise your disclosure relating to the Holding Foreign Companies Accountable Act to include a discussion of the Accelerating Holding Foreign Companies Accountable Act, as well as the time frames under both Acts.
4. Please amend your disclosure here and in the summary risk factors and risk factors sections to state that, to the extent cash or assets in the business is in the PRC or a PRC entity, the funds or assets may not be available to fund operations or for other use outside of the PRC due to interventions in or the imposition of restrictions and limitations on the ability of you or your subsidiaries by the PRC government to transfer cash or assets. On the cover page, provide cross-references to these other discussions.
5. Please discuss whether there are limitations on your ability to transfer cash between you and your subsidiaries or investors. Please provide a cross-reference to your discussion of this issue in your summary, summary risk factors, and risk factors sections, as well.
6. To the extent you have cash management policies that dictate how funds are transferred between you, your subsidiaries, and investors, please summarize the policies on your cover page and in the prospectus summary, and disclose the source of such policies (e.g., whether they are contractual in nature, pursuant to regulations, etc.); alternatively, state on the cover page and in the prospectus summary that you have no such cash management policies that dictate how funds are transferred. Provide a cross-reference on the cover page to the discussion of this issue in the prospectus summary.

Prospectus Summary, page 1

7. Please identify clearly the entity in which investors are purchasing their interest and the entities in which the company's operations are conducted. Describe the relevant contractual agreements between the entities and how this type of corporate structure may affect investors and the value of their investment, including that the company may incur substantial costs to enforce the terms of the arrangements. Disclose the uncertainties regarding the status of the rights of the Cayman Islands holding company with respect to

its contractual arrangements and the challenges the company may face enforcing these contractual agreements due to legal uncertainties and jurisdictional limits.

8. In your summary of risk factors, please disclose the risk that the Chinese government may intervene or influence your operations at any time, or may exert more control over offerings conducted overseas and/or foreign investment in China-based issuers, which could result in a material change in your operations and/or the value of your securities. Acknowledge any risks that any actions by the Chinese government to exert more oversight and control over offerings that are conducted overseas and/or foreign investment in China-based issuers could significantly limit or completely hinder your ability to offer or continue to offer securities to investors and cause the value of such securities to significantly decline or be worthless. Please provide cross-references to the relevant individual detailed risk factors.
9. Please provide a clear description of how cash is transferred through your organization, and disclose your intentions to distribute earnings. Quantify any cash flows and transfers of other assets by type that have occurred between the holding company and its subsidiaries and direction of transfer. Quantify any dividends or distributions that a subsidiary has made to the holding company and which entity made such transfer, and their tax consequences. Similarly quantify dividends or distributions made to U.S. investors, the source, and their tax consequences. Your disclosure should make clear if no transfers, dividends, or distributions have been made to date. Describe any restrictions on foreign exchange and your ability to transfer cash between entities, across borders, and to U.S. investors. Describe any restrictions and limitations on your ability to distribute earnings from the company, including your subsidiaries, to the parent company and U.S. investors.
10. Please disclose that trading in your securities may be prohibited under the Holding Foreign Companies Accountable Act if the PCAOB determines that it cannot inspect or investigate completely your auditor, and that as a result an exchange may determine to delist your securities. Disclose whether your auditor is subject to the determinations announced by the PCAOB on December 16, 2021.

Risk Factors, page 12

11. Given the Chinese government's significant oversight and discretion over the conduct of your business, please revise to highlight separately the risk that the Chinese government may intervene or influence your operations at any time, which could result in a material change in your operations and/or the value of the securities you are registering. Also, given recent statements by the Chinese government indicating an intent to exert more oversight and control over offerings that are conducted overseas and/or foreign investment in China-based issuers, acknowledge the risk that any such action could significantly limit or completely hinder your ability to offer or continue to offer securities to investors and cause the value of such securities to significantly decline or be worthless.
