Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

AN INVESTMENT IN THE COMPANY IS SPECULATIVE AND INVOLVES A HIGH DEGREE OF RISK, INCLUDING THE POSSIBLE LOSS OF THE ENTIRE INVESTMENT, AND INVESTOR HAS CAREFULLY READ AND CONSIDERED THE FOLLOWING RISK FACTORS AND ALL MATTERS SPECIFIED IN THESE SUBSCRIPTION DOCUMENTS IN DETERMINING WHETHER OR NOT TO INVEST IN THE COMPANY AS SPECIFIED HEREIN. EACH INVESTOR UNDERSTANDS THAT THE FOLLOWING FACTORS ARE NOT AN ALL-INCLUSIVE LIST OF POSSIBLE RISKS INHERENT IN THE OFFERING.

No Guarantee of Return. No assurance can be given that an Investor will realize a substantial return on investment, or any return at all, or that an Investor will not lose a substantial portion or all of the investment. For this reason, each prospective investor should carefully read this memorandum and all exhibits attached hereto and should consult with an attorney, accountant, and/or business advisor prior to making any investment decision.

We have not retained an independent party to sell the offering and the failure of our officers to sell the offering may result in a shortage of operating funds. Managers of the Company are offering our units on a "best-efforts" basis. We have not contracted with an underwriter, placement agent, or other person to purchase or sell all, or a portion of our units and there is no assurance that we can sell all or any of the units. Further, if we had hired an underwriter, placement agent, or other independent person to sell the offering, that person would have conducted an independent due diligence examination into our business

Revisions to Use of Proceeds. It is possible that the use of the proceeds will be revised by management. Management will have significant flexibility in applying the net proceeds of this offering within the scope of the business of the Company. The failure of management to apply such funds effectively could have a material adverse effect on the Company's business, prospects, financial condition, and results of operations

The Company May Not Be Able to Compete Against Established Competitors. The Company will be competing with established businesses that have an operating history and greater financial resources, management experience and market share than we have. There can be no assurance that we will be able to compete or capture adequate market share. The Company will not be profitable if we cannot compete successfully with other businesses.

Control of the Company. Control of the Company and all of its operations are, and will remain, solely with its Manager, which is controlled by the Company's members. Investors must rely upon the judgment and skills of such persons. Purchasers of the securities will have one vote and limited control over the management and affairs of the Company.

Company May Require Additional Funds. The Company currently anticipates that the net proceeds of this Offering, assuming the Company raises a significant portion thereof and obtains debt financing as described herein of the Offering, will be sufficient to meet its anticipated needs for working capital and other cash requirements for the foreseeable future. However, the Company may need to raise additional funds to build or operate the project. There can be no assurance that additional financing will be available on terms favorable to the Company, or at all. If adequate funds are not available or are not available on acceptable terms, the Company's ability to fund its project would be significantly limited. Such limitation may have a material adverse effect on the Company's business, operating results and financial condition.

Because there is no market for the Company's units, you may not be able to sell your units to others. There is currently no, and there may never be any, secondary market trading in the units, and investors' ability to sell their units are further limited by transfer restrictions under applicable securities laws and the terms of the subscription agreement.

Dilution. After completion of the Offering, the Company's then existing equity holders may have their interests diluted through any future issuance of securities by the Company to raise capital. Moreover, existing equity holders may experience further dilution to the extent that future units may be issued for a value less than the price paid in this offering. Subsequent investment into the Company may dilute each investor's percentage of ownership in the future. The purchase of equity in this offering does not confer on the investor any rights or protection against this dilution.

Determination of Offering Price. The offering price was determined arbitrarily by the Company based upon several factors. Such price is based primarily on the amount of funds sought from this financing and the number of units the Manager is willing to ultimately issue in order to raise such funds. Accordingly, there is no relationship between the price of the Offering and the assets, earnings or book value of the Company, the market value of the stock, or any other recognized criteria of value. As such, the price does not necessarily indicate the current value of the units and should not be regarded as an indication of any future market price of the Company's capital stock.

Dependence on Key Personnel. The Company is highly dependent on the services of Storm Kaufman, Manager and CEO, and the loss of his services could have an

adverse effect on the future operations of the Company. Although the Company does not currently maintain a key-person life insurance policy insuring the life of these persons, the Company may apply for such a life insurance policy.

Risks Associated with Financial Projections. The financial projections discussed in our offering materials have been prepared by management and are based upon assumptions that the Company believes to be reasonable. The projected results are dependent on the successful implementation of management's growth strategies and are based on hypothetical assumptions and events over which the Company has only partial or no control. Such assumptions may, however, be incomplete or inaccurate, and unanticipated events and circumstances may occur. The selection of assumptions underlying such projected information has required the exercise of judgment, and the projections are inherently subject to significant uncertainty because that economic, legislative, political or other changes may have on future events. Changes in the facts or circumstances underlying such assumptions could materially affect our ability to achieve the projected results. For these reasons, actual results achieved during the periods covered may be materially and adversely different. Even if the assumptions underlying the Company's plans prove to be correct, there can be no assurances that the Company shall not incur substantial operating losses in attaining its goals. The Company's plans are based on the premise that customers desire the advantages provided by the Company's products and services. However, there can be no assurances that the Company's objectives shall be realized if any of the assumptions underlying its plans prove to be incorrect. Investors should also be aware that no independent market studies have been conducted by the Company regarding the Company's plan, nor are any such studies currently planned.

Risks Related to Economic Conditions. Economic recessions or downturns may have an adverse effect on the Company, its financial condition, results of operations and the Company performance. Negative general economic conditions could continue to reduce the overall amount of demand, which may in turn adversely affect our revenues.

Consumer Demand. The Company has developed a plan and forecast based on certain targets and base assumptions about the level of consumer demand, and the corresponding level of sales potential that exist. There is a risk that one or more of the base assumptions used to determine consumer demand and/or the Company's sales potential may be incorrect and/or may change in the future in a manner that the Company cannot anticipate. Such changes may cause the Company to not achieve its annual targets for sales and operating margins, which may jeopardize the Company's financial solvency and/or its ability to pay its employees, vendors, shareholders and/or other parties.

Competition. There are a number of other businesses that are or may in the future be working on similar projects including other team sports in the same or nearby geographic areas. There can be no assurance that the Company will be able to compete successfully against its competitors, and competitive pressures faced by the Company may have a material adverse effect on the Company's business, prospects, financial condition and results of operations. Further, as a strategic response to changes in the competitive environment, the Company may from time to time make certain pricing or marketing decisions that could have a material adverse effect on its business, prospects, financial condition and results of operations. There can be no assurance that the Company's competitors will not develop products that are equal or superior to that produced by the Company or that achieve greater market acceptance than the Company's. There can be no assurance that the Company will be able to compete successfully against existing or potential competitors or that competitive pressures will not have a material adverse effect on the Company's business, financial condition and results of operations.

The Company is not required to make disbursements to members. While the Company has an annual target distribution payment, the Company is not required to, and there is no guarantee that the Company will, pay cash disbursements on the units in any year or at all. An investor could be required to hold their investment indefinitely without receiving any disbursements.

No due diligence. The Company's legal counsel has not conducted any due diligence with respect to the offering. The Company has engaged Cutting Edge Counsel, Inc. ("CEC") to assist the Company in determining legal requirements related to this offering, preparing and/or review the Offering Materials and obtaining required approvals under applicable securities laws. However, CEC has not conducted any independent due diligence on the Company or otherwise attempted to verify any representations or other statements made by the Company, herein or otherwise, with respect to its business, financial condition, prospects or plans. CEC does not represent investors with respect to this offering, and investors are hereby advised to consult their own legal and financial advisors in connection with their investment decisions.

Unanticipated Risks. Unfavorable weather, earthquakes, floods, hurricanes and other natural disasters, as well as health issues, including pandemics, could impact the Company's success. Such disasters could cause damage to the Company's business and otherwise lead to a loss of revenue or an increase in costs to the Company.

Tax Risks. No representation or warranty of any kind is made by the Company, the officers, directors, counsel to the Company, or any other professional advisors thereto with respect to any tax consequences of any investment in the Company. EACH PROSPECTIVE INVESTOR SHOULD SEEK THE INVESTOR'S OWN TAX ADVICE CONCERNING THE TAX CONSEQUENCES OF AN INVESTMENT IN THE COMPANY.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in

attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,025**

Use of Proceeds: 35% towards new locations, 25% for franchise operations, 15% for manufactured product, 10% social media advertising, 7.5% towards pending patents and operations, 7.5% towards WeFunder fees.

If we raise: **\$750,000**

Use of Proceeds: 40% towards new locations, 20% for franchise operations, 15% for manufactured products, 10% social media advertising, 7.5% towards pending patents and operations, 7.5% towards WeFunder fees.

If we raise: **\$1,069,950**

Use of Proceeds: 40% towards new locations, 17.5% for franchise operations, 10% for manufactured product, 10% social media advertising, 15% towards pending patents and operations, 7.5% towards WeFunder fees.

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. WeFunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle ("SPV"). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors' interests in the investments will be recorded in each investor's "Portfolio" page on the WeFunder platform. All references in this Form C to an Investor's investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

Priced Round: \$6,211,725.00 pre-money valuation

See exact security attached as [Appendix B, Investor Contracts](#)

Freakin Fitness LLC is offering up to 14,266 units, at a price per unit of \$75.00.

The campaign maximum is \$1,069,950 and the campaign minimum is \$50,025.00.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV has been formed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. The Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

If the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the

Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

14. Do the securities offered have voting rights?

- Yes
- No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

16. How may the terms of the securities being offered be modified?

The terms of the offering may only be modified in writing by agreement of the parties.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

- A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and
- B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Preferred Units	20000	2823	No
Common Units	80000	80000	Yes

Securities Reserved for Issuance upon Exercise or Conversion

Warrants: _____

Options: _____

Describe any other rights:

Members holding Common Units have voting control of the Company save for voting rights required by law. Common and Preferred Units will receive distributions on a pro rata basis, when such distributions are issued by the Company's Manager. Preferred units have liquidation preference over common units.

18. How may the rights of the securities being offered be materially limited, diluted or qualified

by the rights of any other class of security identified above?

The holders of Common Units may vote to authorize additional units of the Company thereby diluting the interests of holders of all units. All voting rights permitted by law are held by the Common Unit holders and thus Common Unit holders may vote to modify the terms of the operating agreement which governs the rights and privileges of all unit holders.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the unitholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the unitholders** may change the terms of the Operating Agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The unitholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns. **The unitholders** have the right to redeem their securities at any time. Unitholders could decide to force the Company to **redeem their securities** at a time that is not favorable to the investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability. In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional units, an Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common unit that take into account factors such as the following:

1. unrelated third party valuations of our common unit;
2. the price at which we sell other securities, such as convertible debt or preferred Unit, in light of the rights, preferences and privileges of our those securities relative to those of our common unit;
3. our results of operations, financial position and capital resources;
4. current business conditions and projections;
5. the lack of marketability of our common unit;
6. the hiring of key personnel and the experience of our management;
7. the introduction of new products;
8. the risk inherent in the development and expansion of our products;
9. our stage of development and material risks related to our business;
10. the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
11. industry trends and competitive environment;
12. trends in consumer spending, including consumer confidence;
13. overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
14. the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Management, and the Investor will have no independent right to name or remove an officer or member of the Management of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk

Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

We are a Fitness Mall, offering a variety of Functional Fitness group classes, and traditional gym space designed for moms, dads, kids, weightlifters, and elite athletes.

Our Brand hosts and runs large functional fitness competitions bringing in thousands of spectators and athletes annually.

We even have a virtual aspect, where anyone can sign up for personal nutrition coaching and/or access to our integrated APP for daily workouts at home or at other gyms.

In 5 years we hope to have over 15+ locations in the South East corner of the US, at one \$22million+ in annual revenue. In 10 years we hope to have over \$200 million in annual revenue. Forward-looking projections cannot be guaranteed.

Milestones

Freakin Fitness LLC was incorporated in the State of Florida in November 2010. All patents mentioned in this Form C are owned by Freakin Fitness LLC.

Since then, we have:

- 📈 Doubled our sales from 2016-2019 > fast post-pandemic recovery and record setting year
- 🗣️ Strong fundamentals across with 60% growth coming from organic word-of-mouth
- 🌐 Help us take our cult following and world-class franchise systems to the nation
- 🏠 Largest facilities in the country (locations up to 30,000 square feet)
- 💰 Diverse Revenue Streams

Historical Results of Operations

- *Revenues & Gross Margin.* For the period ended December 31, 2021, the Company had revenues of \$1,039,351 compared to the year ended December 31, 2020, when the Company had revenues of \$698,334. Our gross margin was 97.21% in fiscal year 2021, compared to 92.75% in 2020.
- *Assets.* As of December 31, 2021, the Company had total assets of \$426,425, including \$235,774 in cash. As of December 31, 2020, the Company had \$200,710 in total assets, including \$120,412 in cash.
- *Net Income.* The Company has had net income of \$20,115 and net losses of \$41,552 for the fiscal years ended December 31, 2021 and December 31, 2020, respectively.
- *Liabilities.* The Company's liabilities totaled \$465,197 for the fiscal year ended December 31, 2021 and \$184,745 for the fiscal year ended December 31, 2020.

Liquidity & Capital Resources

To-date, the company has been financed with \$229,343 in equity, \$604,744 in debt, and \$10,000 in grants.

In 2020, One of the Company's members converted a loan, to equity, with the understanding that the equity would be repaid as the Company's cash flow permits.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 24 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 18 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Freakin Fitness LLC cash in hand is \$210,000, as of May 2022. Over the last three months, revenues have averaged \$94,330/month, cost of goods sold has averaged \$3,593/month, and operational expenses have averaged \$112,660/month, for an average burn rate of \$21,923 per month. Our intent is to be profitable in 3 months.

Since December 31st, 2021 and through to May 24th: Freakin Fitness has invested

heavily into our social media, new equipment, a move to a larger location of one existing gym location, patents, new equipment production, internal infrastructure development, large partnerships of events and legal fees relating to business infrastructure and growth. This accounts for a \$55,000 additional expense not related to normal operations.

Freakin Fitness is revenue generating. In 3-6 months, monthly revenue is projected to be at \$110,000 a month. Expenses are projected to be at \$105,000 a month.

We hope to be profitable again in the next 3-6 months. First and Second Quarter of 2022 we planned for major expenses in relation to crowdfunding campaign, business legal fees, new equipment production, and growth of events. We believe we need to raise \$70,000 to reach profitability.

Short Term burn throughout the campaign was planned for. We have \$200k in accounts to cover a burn at the current rate for up to 20 months.

Any projections above are forward looking and cannot be guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

No matters are required to be disclosed with respect to events relating to any affiliated issuer that occurred before the affiliation arose if the affiliated entity is not (i) in control of the issuer or (ii) under common control with the issuer by a third party that was in control of the affiliated entity at the time of such events.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such as circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:

- (a) a description of the material content of such information;*
- (b) a description of the format in which such disclosure is presented; and*
- (c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.*

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

<https://www.FreakinFitness.com/invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.
