Summary

Invest here: <https://www.WeFunder.com/Trace.tampons>

Experienced founder and women's health clinician leading the way for better materials and transparency in absorbent hygiene products. Launching the first farm-to-body tampon made from hemp fiber and Climate-Beneficial cotton.

Believes in the power to heal earth, self, and kin through reciprocal stewardship. Passionate about women's health, autonomy, regenerative agriculture, farm-level traceability, innovative natural materials, and sourcing and manufacturing ethics. Pioneer influencer of US hemp fiber textile value chain development. Absorbent hygiene innovator.
