(D) The Company’s Business and Business Plan

The Initial Partnership.

The French-speaking brother and sister duo from Madagascar shared Justin's dream to open a bakery, but more importantly their morales and values aligned: people before profits, work-life balance for employees, representation, and inclusivity...no matter how challenging it gets.

- Hommage Bakehouse was scheduled to open as a part of La Clochette du Coin in March 2020, but COVID hit the world and they were forced to delay their timeline. They opened in August 2020, but were forced to change their model to survive.
- The bakery pivoted to a wholesale model (as customer traffic in the cafe was still trickling in), and they very quickly became a staple in the San Diego community both in the cafe and around the county.
- Hommage outgrew their initial 600 sq ft kitchen (operating 24 hours a day) in the back of the

cafe and moved into their new 2000 sq ft commissary in December 2022. They were able to offer above-industry standard wages, fully-paid benefits, time off, holidays off, and ample work-life balance.

- While waiting for construction, they were forced to delay growth and could not keep up with wholesale and retail demand. Hommage had to create a waitlist of potential clients.
- Since opening, Hommage has grown to 30 wholesale accounts delivered daily, two farmers markets (a third starting in February), and one retail storefront (with another on the way in 2023.)

Baked and Delivered Doesn't Mean Stale:

The nature of wholesale requires bread and pastries to be baked ahead of time. Hommage developed its recipes and logistical system to send out the freshest and highest quality product possible while still working in scale. Croissants and other pastries are always best straight out of the oven, but quality bread and pastries should be accessible everywhere, on your time--even outside of the bakery walls.

Looking Forward.

We are humbled by and grateful for the amount of support we've received, and cannot wait to keep moving forward. We believe in what we do, but we don't need Hommage to rank #1. We do, however, want to make a lasting impact on our community.

- Our Mission: To facilitate accessibility and educate our great community about quality bread and pastry, all while maintaining a healthy work environment for all team members.
- Our Vision: To feed the West Coast with a refreshed view of bread and pastry standards that empower all chefs and makers to create foods that speak to their community.
- Our Dream: To build a cohesive holdings company that encompasses the diversity of our team and their aspirations, starting with our own retail locations.

Why "Hommage"?

"Hommage," the French spelling of homage, is our way of staying true to the tastes, flavors and experiences that we all grew up with. It's also a tribute to what shaped us and who we want to become.

- The People: The bakery is made up of a majority of POC, and the partners come from all different industries and experience backgrounds.
- The Product: Hommage is most known for its croissants and naturally-leavened sourdough, but its iconic almond croissant and kouign amann are the bakery's best sellers. Hommage also has seasonal flavor rotations of items that the bakery team develops together, and are often inspired by their cultures and heritages.
- The Local Partners: The bakery works with some of the most reputable names in the field, including partnerships with Blue Bottle Coffee and Consortium Holdings.
- National Recognition: Justin won an episode of Hulu's "Bakers Dozen" in 2021 and has since drawn crowds for his Ube Bibingka Custard Buns, an ode to his Filipino heritage.

Our Story, Abbreviated.

Hommage Bakehouse may only be two years old, but it's a story of a business a decade in the making. And it started with selling cookies and cake out of duffle bags in high school.

- Justin, a Hapa (half-Filipino) baker from San Jose, CA fell in love with baking in high school

when he began hustling cookies and cakes out of duffle bags to students and staff. His entrepreneurial start was so successful, he expanded his operations and created distribution channels to sell over 12 dozen pastries a day.

- From that moment on, he knew he wanted to open a bakery. After high school, he spent four years honing his craft and discovering his passion for business and croissants.
- Justin worked in a multitude of food establishments, but found his time at Manresa Bread to be a shining example of what he wanted to open. A high quality product with large output, but an equally important focus on company culture and a healthy workspace.
- He moved to San Diego to follow his wife, and after pop-ups, 120 hour work weeks, failed partnerships, Lyft driving to pay the bills, and thousands of croissants, he found his dream team in Willy and Karine.

The Team

Justin Gaspar, Head Baker/Partner

Justin Gaspar is a half-Filipino Bay Area native who moved to San Diego in 2018 with dreams of opening a bakery.

He has worked in all sorts of kitchens over the last eight years, but has always gravitated towards baking—especially laminated pastry (i.e. CROISSANTS!) and naturally-leavened breads. Justin recently won an episode of "Baker's Dozen" on Hulu, where he debuted his now sell-out ube bibingka custard buns. He hopes to share his tastes and experiences with the San Diego community, as well as help contribute to the growing food scene in the awesome city he now calls home.

David Mirabelli, Operations Manager/Partner

Dave Mirabelli has lived in the Midwest, San Francisco and San Diego and has over twenty years of experience in operations of specialty coffee, retail, restaurants, and wholesale production. He has proven business knowledge with continued YOY growth in all industries while ensuring genuine and effective team development and customer satisfaction.

Dave is a proud husband and loving father of two amazing boys and is passionate about connecting, learning, and staying positive inside and outside of the workspace.

Willy Wu Jye Hwa, Administrative/Partner

Willy Hwa partnered with Justin and Karine after founding La Clochette du Coin with the intention of putting management and cultural health of the company first.

Particularly proud of his business track record, Willy's passion for productivity and leadership has given him the opportunity to work with amazing individuals and collaborate on innovative ideas and projects. He finds joy in finding and developing talent and dreams within his community.

Willy's thought process includes curiosity, observation, a healthy dose of skepticism (knowing what we don't know,) focusing on the process and not the problem, and valuing gaps and differences.

Karine Beers, Marketing Manager/Partner

Karine Beers was born and raised in Madagascar and moved to California after graduating from high school. She has worked in various industries ranging from non-profit organizations to event

venues and restaurant groups, where she has created and designed numerous marketing materials for print and digital collateral. Shortly after, she co-founded La Clochette Du Coin with her brother, and later on partnered with Justin and Willy to open Hommage Bakehouse. Interestingly enough, Karine has never thought she would be working in the food industry. However as an entrepreneur and restaurant owner, she has developed the desire to bring happiness to people by serving quality food.

Karine loves to stay active and believes that it does not only change your body, but it changes your mind, your attitude and your mood.

Viraj Desai, Finance Manager/Partner

Viraj Desai has eight years of experience in finance, marketing, and management. He spent several years at Microsoft working as a Finance Manager working on various teams from supply chain finance to their treasury department. Post Corporate America, he pivoted in starting an angel investing company and spends his time managing his stock market, crypto, and start up portfolio. He also has a background in mentoring and teaching in finance and the stock market. Viraj currently operates out of San Francisco and is passionate about education, finance, and helping those in his community and network reach their personal and life goals.

One of Viraj's life goals is to start a non profit that focuses on providing education to the many communities around the world that don't have access to educational and professional resources.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	0.6 - 2.7% ²
Payment Deadline	2028-12-31
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.75 x 1.5 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	3.79%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 0.6% and a maximum rate of 2.7% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$100,000	0.6%
\$187,500	1.1%
\$275,000	1.6%
\$362,500	2.2%
\$450,000	2.7%

³ To reward early participation, the investors who contribute the first \$100,000.0 raised in the offering will receive a 1.75x cap. Investors who contribute after \$100,000.0 has been raised in the offering will receive a 1.5x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Willy WU JYE HWA	22.5%
Justin Gaspar	40%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

Hommage Bakehouse has been operating since June 2021 and has since achieved the following milestones:

- Opened operations within La Clochette du Coin in San Diego, CA leveraging a 600 sq ft kitchen for wholesale production.
- Achieved revenue of \$292,000 from July 2021-December 2021, which then grew to \$820,000 in January 2022-December 2022.
- Grew team from 4 to 15 people, all paid \$18+ an hour and four of whom are on salary. Began offering fully paid health, vision and dental benefits to full time workers in April 2022.
- Moved bakery operation in November 2022 to a 2,000 sq ft kitchen in Sorrento Valley with an increased production capacity of 400%.

Historical financial performance is not necessarily predictive of future performance.

Forecasted milestones

Hommage Bakehouse forecasts the following milestones:

- Open new Hommage Bakehouse Retail Location in Civita properties in San Diego, CA by August 2023.
- Achieve \$4,400,000 revenue per year by 2024.
- Achieve \$1,733,000 profit per year by 2024.

Other outstanding debt or equity

As of December 2022, Hommage Bakehouse has debt of \$70,000 outstanding and a cash balance of \$25,000. This debt is sourced primarily from OnDeck and will be senior to any investment raised on Mainvest. In addition to the Hommage Bakehouse's outstanding debt and the debt raised on Mainvest, Hommage Bakehouse may require additional funds from alternate sources at a later date.

No operating history

Hommage Bakehouse was legally established in June 2021, and financially separated from La Clochette du Coin in April 2022. Accordingly, there are limited financial statements and information for investors to review. When evaluating this investment opportunity, investors should consider factors outlined in the risk section as well.

Financial liquidity

Hommage Bakehouse has a low liquidity position due to its low cash reserves as compared to debt and other liabilities. Hommage Bakehouse expects its liquidity position to decline upon raising capital on Mainvest and deploying the capital to grow the business.

Other challenges

Hommage Bakehouse has had the following other challenges that are not otherwise captured in the Financial Condition Section, the Risks Section, or the Financial Statements:

- Wholesale Revenue: Wholesale revenue is roughly 50% of the retail revenue opportunity when selling Direct to Consumer rather than Business to Business.
- Delayed Growth: Hommage was forced to pause its growth for a few months in 2022 due to production constraints in its initial facility while awaiting construction on the larger space.
