HUM Inc.

HUM

Shares of Class B Common Stock

This Form C (including the cover page and all exhibits attached hereto, the “**Form C**”) is being furnished by HUM Inc., a California Corporation (the “**Company**,” as well as references to “**we**,” “**us**,” or “**our**”), and its crowdfunding vehicle, HUM CF SPV LLC, a Delaware limited liability company (the “**Co-Issuer**,” together with the Company, the “**Issuers**”), to prospective investors for the sole purpose of providing certain information about a potential investment in Units of Membership Interests (“**Units**”) of the Co-Issuer. The Co-Issuer will use the proceeds raised from the sale of such Units to fund its purchase of the Company’s Class B Common Stock. As described more fully below, in purchasing Units, purchasers will receive Co-Issuer securities that provide an indirect economic interest in the Company’s Class B Common Stock on materially the same terms and with the same rights as those who purchase directly from the Company. For this reason, and in compliance with Regulation Crowdfunding under the Securities Act of 1933 (the “**Securities Act**”), the Issuers are considered to be co-issuers of the combined offering of the Class B Common Stock to the Co-Issuer and, in turn, the Units, to purchasers thereof (together, the “**Offering**”), and are providing prospective investors here with information related to both the Company’s Class B Common Stock and the Co-Issuer’s Units (collectively, the “**Securities**”).

Investors in Securities are sometimes referred to herein as “**Purchasers**.” The Issuers intend to raise at least \$25,000.00 and up to \$1,000,000.00 from Investors in the offering of Securities described in this Form C (this “**Offering**”). The minimum amount of Securities that can be purchased is \$100.00 per Investor (which may be waived by the Company, or the Co-Issuer, as applicable, each in their sole and absolute discretion). The offer made hereby is subject to modification, prior to sale and withdrawal at any time.

The rights and obligations of the holders of Securities of the Issuers are set forth below in the section entitled “*The Offering and the Securities--The Securities*”. In order to purchase Units and to thereby obtain an indirect economic interest in the Class B Common Stock, a prospective investor must complete the subscription process through the Intermediary’s platform, which may be accepted or rejected by the Co-Issuer, in its sole and absolute discretion. The Issuers have the right to cancel or rescind its offer to sell the Securities at any time and for any reason.

The Offering is being made through EquityVest LLC (the “**Intermediary**”). The Intermediary will be entitled to receive compensation related to the purchase and sale of the Securities. The compensation will be a percentage of the dollar amount of the Securities sold in the Offering as follows:

- 6% of the first \$250,000 raised;
- 5% of amounts raised greater than \$250,000 up to \$500,000;
- 4% of amounts raised greater than \$500,000 up to \$1,000,000; and
- 3% of amounts raised exceeding \$1,000,000.

	Price to Investors	Service Fees and Commissions ⁽¹⁾	Net Proceeds
Minimum Individual Purchase Amount ⁽²⁾	\$100.00	\$15	\$235.00
Aggregate Minimum Offering Amount	\$25,000.00	\$1,500.00	\$23,500.00
Aggregate Maximum Offering Amount	\$1,000,000.00	\$47,500.00	\$952,500.00

(1) This excludes fees to the Issuer’s advisors, such as attorneys and accountants.

RISK FACTORS

Risks Related to the Company's Business and Industry

The development and commercialization of our services is highly competitive

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved services and thus may be better equipped than us to develop and commercialize services. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our services will achieve initial market acceptance and our ability to generate meaningful additional revenues from our products.

We depend on third-party service providers and outsource providers for a variety of services and we outsource a number of our non-core functions and operations.

In certain instances, we rely on single or limited service providers and outsourcing vendors because the relationship is advantageous due to quality, price, or lack of alternative sources. If production or service was interrupted and we were not able to find alternate third-party providers, we could experience disruptions in manufacturing and operations including product shortages, higher freight costs and re-engineering costs. If outsourcing services are interrupted or not performed or the performance is poor, this could impact our ability to process, record and report transactions with our customers and other constituents. Such interruptions in the provision of supplies and/or services could result in our inability to meet customer demand, damage our reputation and customer relationships and adversely affect our business.

The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.

We collect and store sensitive data, including intellectual property, our proprietary business information and that of our customers, suppliers and personally identifiable information of our customers and employees, in our data centers and on our networks. The secure processing, maintenance and transmission of this information is critical to our operations. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our networks and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, liability under laws that protect the privacy of personal information, and regulatory penalties, disrupt our operations and the services we provide to customers, and damage our reputation, and cause a loss of confidence in our products and services, which could adversely affect our business/operating margins, revenues and competitive position.

An intentional or unintentional disruption, failure, misappropriation or corruption of our network and information systems could severely affect our business.

Such an event might be caused by computer hacking, computer viruses, worms and other destructive or disruptive software, “cyber attacks” and other malicious activity, as well as natural disasters, power outages, terrorist attacks and similar events. Such events could have an adverse impact on us and our customers, including degradation of service, service disruption, excessive call volume to call centers and damage to our plant, equipment and data. In addition, our future results could be adversely affected due to the theft, destruction, loss, misappropriation or release of confidential customer data or intellectual property. Operational or business delays may result from the disruption of network or information systems and the subsequent remediation activities. Moreover, these events may create negative publicity resulting in reputation or brand damage with customers.

The Company’s success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Garrett M Kolb, President, and Christopher G Kolb, Vice President. The Company has or intends to enter into employment agreements with Garrett M Kolb and Christopher G Kolb although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of Garrett M Kolb or Christopher G Kolb or any member of the board of directors or executive officer could harm the Company’s business, financial condition, cash flow and results of operations.

We rely on third-party suppliers for the materials used in the manufacturing of our products.

In 2022, the following suppliers provided the following percentage of the listed services, inputs or raw materials.

Supplier or Description: Jugnoo

Service: Transportation network software and APP provider.

% of such service: 30.0%

Supplier or Description: STRIPE

Service: Treasury and financial services

% of such service: 30.0%

Supplier or Description: Fair American Select

Service: Hired & Non-Owned auto liability, collision and comprehensive insurance

% of such service: 30.0%

Supplier or Description: Firestone

Service: Vehicle inspections and services

% of such service: 10.0%

If any of these suppliers changed its sales strategy to reduce its reliance on distribution channels, or decided to terminate its business relationship with us, sales and earnings could be adversely affected until we are able to establish relationships with suppliers of comparable products. Any delay or interruption in manufacturing operations (or failure to locate a suitable replacement for such suppliers) could materially adversely affect our business, prospects, or results of operations. Most of our agreements with suppliers are terminable by either party on short notice for any reason. Although we believe our relationships with these key suppliers are good, they could change their strategies as a result of a change in control, expansion of their direct sales force, changes in the marketplace or other factors beyond our control, including a key supplier becoming financially distressed.

The Company intends to use the proceeds from the Offering for unspecified working capital.

This means that the Company has ultimate discretion to use the proceeds as it sees fit and has chosen not to set forth any specific uses for you to evaluate. The net proceeds from this Offering will be used for the purposes, which our management deems to be in our best interests in order to address changed circumstances or opportunities. As a result of the foregoing, our success will be substantially dependent upon our discretion and judgment with respect to application and allocation of the net proceeds of this Offering. The Company may choose to use the proceeds in a manner that you do not agree with and you will have no recourse. A use of proceeds that does not further the Company's business and goals could harm the Company and its operations and ultimately cause an Investor to lose all or a portion of his or her investment.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people

The Company is dependent on Garrett M Kolb and Christopher G Kolb in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any

of Garrett M Kolb or Christopher G Kolb die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in the United States.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We face risks related to health epidemics and other outbreaks, which could significantly disrupt the Company's operations and could have a material adverse impact on us.

The outbreak of pandemics and epidemics could materially and adversely affect the Company's business, financial condition, and results of operations. If a pandemic occurs in areas in which we have material operations or sales, the Company's business activities originating from affected areas, including sales, materials, and supply chain related activities, could be adversely affected. Disruptive activities could include the temporary closure of facilities used in the Company's supply chain processes, restrictions on the export or shipment of products necessary to run the Company's business, business closures in impacted areas, and restrictions on the Company's employees' or consultants' ability to travel and to meet with customers, vendors or other business relationships. The extent to which a pandemic or other health outbreak impacts the Company's results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of a virus and the actions to contain it or treat its impact, among others. Pandemics can also result in social, economic, and labor instability which may adversely impact the Company's business.

If the Company's employees or employees of any of the Company's vendors, suppliers or customers become ill or are quarantined and in either or both events are therefore unable to work, the Company's operations could be subject to disruption. The extent to which a pandemic affects the Company's results will depend on future developments that are highly uncertain and cannot be predicted.

Risks Related to the Securities

The Shares of Class B Common Stock will not be freely tradable until one year from the initial purchase date. Although the Shares of Class B Common Stock of Common Stock may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Shares of Class B Common Stock. Because the Shares of Class B Common Stock have not been registered under the Securities Act or under the securities laws of

any state or non-United States jurisdiction, the Shares of Class B Common Stock have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Shares of Class B Common Stock may also adversely affect the price that you might be able to obtain for the Shares of Class B Common Stock in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

A majority of the Company is owned by a small number of owners.

Prior to the Offering the Company's current owners of 20% or more beneficially own up to 95% of the Company. Subject to any fiduciary duties owed to our other owners or investors under California law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at

which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

Your ownership of the shares of stock will be subject to dilution.

Owners do not have preemptive rights. If the Company conducts subsequent Offerings of or Securities convertible into, issues shares pursuant to a compensation or distribution reinvestment plan or otherwise issues additional shares, investors who purchase shares in this Offering who do not participate in those other stock issuances will experience dilution in their percentage ownership of the Company's outstanding shares. Furthermore, shareholders may experience a dilution in the value of their shares depending on the terms and pricing of any future share issuances (including the shares being sold in this Offering) and the value of the Company's assets at the time of issuance.

The Securities will be equity interests in the Company and will not constitute indebtedness.

The Securities will rank junior to all existing and future indebtedness and other non-equity claims on the Company with respect to assets available to satisfy claims on the Company, including in a liquidation of the Company. Additionally, unlike indebtedness, for which principal and interest would customarily be payable on specified due dates, there will be no specified payments of dividends with respect to the Securities and dividends are payable only if, when and as authorized and declared by the Company and depend on, among other matters, the Company's historical and projected results of operations, liquidity, cash flows, capital levels, financial condition, debt service requirements and other cash needs, financing covenants, applicable state law, federal and state regulatory prohibitions and other restrictions and any other factors the Company's board of directors deems relevant at the time. In addition, the terms of the Securities will not limit the amount of debt or other obligations the Company may incur in the future. Accordingly, the Company may incur substantial amounts of additional debt and other obligations that will rank senior to the Securities.

There can be no assurance that we will ever provide liquidity to Purchasers through either a sale of the Company or a registration of the Securities.

There can be no assurance that any form of merger, combination, or sale of the Company will take place, or that any merger, combination, or sale would provide liquidity for Purchasers. Furthermore, we may be unable to register the Securities for resale by Purchasers for legal, commercial, regulatory, market-related or other reasons. In the event that we are unable to effect a registration, Purchasers could be unable to sell their Securities unless an exemption from registration is available.

The Company does not anticipate paying any cash dividends for the foreseeable future.

The Company currently intends to retain future earnings, if any, for the foreseeable future, to repay indebtedness and to support its business. The Company does not intend in the foreseeable future to pay any dividends to holders of its shares of .

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover,

the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

BUSINESS

Description of the Business

HUM is a subscription transportation network company. People that drive rideshare, subscribe to HUM the Rideshare app, complete registration, background checks and pay a monthly fee to accept ride request and receive 100% of the fare, tip and any fees.

Business Plan – The Company

HUM Inc. HUM RIDESHARE BUSINESS SUMMARY Company Description: HUM is a transportation network (rideshare) company that provides on-demand and pre-arranged transportation services through an online-enabled smartphone application. Unlike Lyft and Uber, our subscription-based model offers drivers 100% of the fare and tip (less payment and transaction costs). HUM prioritizes safety by displaying driver and vehicle information for passenger verification, and our app includes features like insured rides and a panic button for added security. Our technology monitors the vehicle location and the driver's speed, turning and braking intensity coupled with cell phone use during the ride. Drivers are safety rated by the Company.

Market Overview: In the United States, rideshare services have gained significant popularity, with approximately 1 million rideshare drivers, of which 750,000 are actively engaged. It is estimated that nearly two thirds of all smart phones have a rideshare app installed.

Structure: HUM Inc. is a California Corporation, formed on April 5, 2023. The business was previously conducted under HUM Limited Liability Company, formed on September 25, 2020. The assets of HUM Limited Liability Company were transferred by its members to the Company upon its incorporation. The Company is currently conducting business under the name of HUM Rideshare. The Company's website is www.humrideshare.com.

Operations: HUM Rideshare is built using proven technology and partnerships that support the business without expensive infrastructure.

Treasury Services: The collection of financial data and the collection of the fare from the passenger's payment card to the Driver's bank account is facilitated end-to-end using STRIPE.

Technology: App and software creation, maintenance and enhancements are leased from Jugnoo operating on Amazon servers.

Insurance: Commercial Collision, Casualty and Liability insurance is provided through Fairmatic using a "pay-per-mile" payment assessed from the passenger's fare to the insurer.

Support: Firestone Auto Care provides local vehicle inspection services, driver support and the distribution of marketing materials.

Business Goals and Objectives:

Short Term:

- Secure 2,500 paid subscriptions within four months of operations in Arizona.
- Secure 7,500 paid and recurring monthly subscriptions in 90 days from launch in key markets.
- Achieve a total of 75,000 paid and recurring monthly subscriptions within 12 months of launch in California, expanding into Texas, the Southwest, and the Pacific Northwest.

Long Term:

- Expand services in the Northwest and Southwest states within the first 18 months, securing 150,000 paid and recurring monthly subscriptions.
- Expand into key Central, Northeast, Mid-Atlantic, and Southeast markets within 36 months, securing 500,000 paid and recurring monthly subscriptions.
- Introduce ancillary revenue generating services such as a debit card to access driver wallets and food and delivery services.

Marketing Summary Target Market: Our initial target market is Arizona, with an estimated potential subscriber base of 5,000 . We will focus on acquiring drivers and passengers through social media campaigns, lead generation, and strategic partnerships. Drivers who refer new drivers to HUM are incentivized with credits that reduce the cost of their subscription.

Pricing Strategy: We have determined the following pricing strategy:

- HUM Sedan: \$29.95 monthly subscription
- HUM XL: \$39.95 monthly subscription
- HUM LUX: \$59.95 monthly subscription

These prices may be adjusted in response to market demand and operating costs.

Marketing Campaigns: To launch in new markets, we have designed three distinct marketing campaigns:

1. **Driver Registration Campaign:** Target existing rideshare drivers through social media, boots-on-the-ground recruiting efforts, digital advertising, and additional lead generation efforts.
2. **Driver Activation Campaign:** Convert leads into app activations by offering a free trial subscription.
3. **Passenger Acquisition Campaign:** Acquire new passengers through app downloads, providing a \$5 discount on their first ride (deducted from the driver's fare). Each campaign has specific goals

and utilizes both digital and ground activities. The campaigns are strategically timed to maximize effectiveness.

Legal Considerations: Recent regulatory challenges pose a threat to the industry as companies face reclassification of drivers as employees. As gig jobs face increased government intervention, we believe that HUM's business model is defensible from recategorization of drivers as independent contractors. We will closely monitor any legal developments and adapt our operations to comply with regulations while advocating for the rights of our drivers.

Conclusion: HUM aims to disrupt the rideshare industry by offering a driver subscription-based model that has the potential to benefit both drivers and passengers. With a focus on safety, fair fares, and driver independence, we believe are well positioned to capture market share and expand our services across key regions.

History of the Business

Structure: HUM Inc. is a California Corporation, formed on April 5, 2023. The business was previously conducted under HUM Limited Liability Company, formed on September 25, 2020. The assets of HUM Limited Liability Company were transferred by its members to the Company upon its incorporation.

The Company’s Products and/or Services

Product / Service	Description	Current Market
Technology and Rideshare App	HUM operates a transportation network company known as HUM Rideshare	Arizona

HUM Rideshare will expand the current business to other states and introduce additional subscription options for high capacity and luxury vehicles.

HUM offers a free trial subscription for new drivers and offers a first ride discount to new passengers. Both promotions are offered through social media and existing drivers.

Competition

The Company’s primary competitors are UBER and LYFT.

The rideshare market is dominated by two competitors that built the rideshare industry as we know it today. The majority of rideshare drivers are independent and drive for either one or both companies. Rideshare passengers use both competitors interchangeably and are driven to a choice based on the fare and driver availability. The Company’s competitors struggle with profitability that have led to poor business practices impacting drivers and passengers. Drivers for both competitors have experienced reduced fare splits that impact their take-home pay. Passengers for both competitors are subjected to high fares during peak demand periods. HUM’s driver subscription business provides rideshare drivers access to rideshare passengers for a low monthly subscription and retain 100% of the fare, tip and fees. HUM attracts passengers with fares that are not subject to daily variation based on demand.

Supply Chain and Customer Base

HUM built a rideshare business utilizing existing technology and integrated third-party services. The rideshare technology is contracted through Jugnoo on a pay-per-use contract. Treasury services that include the collection of fares and payment to the driver are provided through a STRIPE integration. Rideshare insurance is collected through the fare as a surcharge and paid to the insurers. Insurance claim management is outsourced to a third-party management company selected and paid for by the insurer. Vehicle inspection and field services are provided at no cost by Firestone.

The Company is dependent on the following suppliers:

Supplier or Description	Service, input or raw material provided	Percent of such service, input or raw material from such supplier
Jugnoo	Transportation network software and APP provider.	30.0%
STRIPE	Treasury and financial services	30.0%
Fair American Select	Hired & Non-Owned auto liability, collision and comprehensive insurance	30.0%
Firestone	Vehicle inspections and services	10.0%

HUM Rideshare drivers are its customers as each is a subscriber to use the technology and service. Passengers represent the rideshare driver's customer. At present, there are over 1 million independent rideshare drivers in the United States. 6% of drivers are between the ages of 18-29 - 20% are between 30-39 - 22% 40-49 - 28% between 50-59 and 24% are 60+. 77% are male, 48% married, 64% have children and 62% drive full-time. 15% have master's degrees and 40% bachelor's degrees. 66% of all rideshare drivers utilize one or more rideshare companies.
