Key Challenges:

Taking shots is a popular social activity enjoyed by millions worldwide. However, the traditional shot experience often presents inconveniences and compromises the enjoyment of chasers. There are many challenges and implications to the traditional shot experience that diminish the enjoyment of social drinking.

1. **Shot-Chaser Transition:** Customers struggle to smoothly transition from consuming a shot to enjoying their chaser drink.
2. **Inconvenience:** The need to use separate shot glasses and straws adds complexity and inconvenience to the drinking process.
3. **Chaser Dilution:** By drinking the chaser separately, there is a risk of diluting the taste or losing the intended flavor profile.

Implications:

There are three main implications that come with the existing shot-taking industry. First, existing shot-taking methods hamper customer satisfaction and diminish the potential for creating memorable experiences. Second, brands and establishments lack a solution that enhances shot-taking rituals and encourages repeat business. And lastly, there is a demand for a novel, all-in-one solution that simplifies the shot-chaser experience while preserving the intended flavors.

Introducing TakeShots:

TakeShots is an innovative creation that seamlessly combines a shot glass and a straw into a single, exciting device. Combining the two creates an instant chaser, eliminating the bitter after taste from shots, allowing people to have fun without the burn and gross taste from alcohol. Our patent-pending device was designed to elevate the experience of taking shots by enabling customers to drink the chaser directly after the shot.

TakeShots revolutionizes the shot experience, addressing the limitations of traditional shot-taking methods and unlocking new opportunities for customer satisfaction and brand differentiation. With a global alcoholic beverages market on the rise, TakeShots is aiming to capture a significant market share. Join us on this exciting journey as we redefine the art of taking shots!

TakeShots employs a multi-faceted business model designed to generate revenue through various streams. Here's an overview of how we monetize our innovative shot glass-straw device and related offerings:

1. Half Takes: Priced at \$15.95, this version includes a half shot glass-straw device, targeting individual customers or those looking to try out our product.
2. Takes: Priced at \$19.95, this version includes a full shot glass-straw device, designed for customers who want a more comprehensive shot experience.

Bundles:

1. Pro Bundle: Priced at \$129.70, this bundle includes five Takes and a case, offering added value for customers purchasing in larger quantities.
2. Ultra Bundle: Priced at \$164.65, this premium bundle includes five Takes, a case, and a water bottle, providing customers with a complete shot experience package.
3. Starter Bundle: Priced at \$40.85, this starter bundle includes one Half Takes and one Takes, providing the customer the essentials to try the product for the first time.

Accessories:

TakeShots offers a range of accessories, such as cases, water bottles, stickers, T-Shirts, etc. to enhance the shot-taking experience and complement our core product. These accessories are sold separately on our website, providing additional revenue opportunities.

By combining these revenue streams and continuously expanding our market reach, TakeShots aims to achieve sustainable profitability and maximize our potential in the shot industry.

Sales Strategy:

Our sales strategy for TakeShots focuses on leveraging our innovative drinkware product, the Shot Straw, to capture the attention of consumers and drive sales. As an e-commerce brand, we expect to utilize both Amazon and Shopify platforms to reach a wide customer base. Firstly, we seek to optimize our product listings on Amazon and Shopify with compelling descriptions, high quality images, and positive customer reviews to enhance our brand presence and credibility. We also implemented targeted advertising campaigns to increase visibility and attract potential customers. Secondly, we seek to emphasize the unique selling proposition of the Shot Straw, highlighting its ability to provide a fun and hassle-free way to take shots without compromising on taste. Through engaging social media content, influencer collaborations, and customer testimonials, we have created a buzz around our product and built a community of enthusiastic shot takers.

Future Product Line:

We are soon expecting to introduce disposable takes! We're gearing up to white label our own liquor products that come in packs of 12 disposable Takes. Like a shooter, but better. They still use our patented technology to eliminate the burn of shots.

Financial Highlights:

In 2022, TakeShots achieved impressive sales of \$151,471, indicating a strong demand for our product. With approximately 23,000 units sold over the past year, we believe that consumers have embraced the concept and recognized the value it brings to their enjoyment of shots. This initial success speaks to the appeal and novelty of our device, as well as the effectiveness of our marketing and distribution strategies.

Looking ahead to 2023, TakeShots is projecting significant growth, aiming for approximately \$1,069,000 in sales, which translates to an estimated 65,000 units. This projection indicates we are confident in the continued popularity of our product, we have successfully tapped into a market niche, and our innovative solution resonates with consumers seeking a more enjoyable way to consume shots.

Our forecast for 2024 is even more impressive, with projected sales of around \$2,400,000, equivalent to approximately 156,000 units. This substantial increase in sales demonstrates our anticipation of substantial market expansion, a surge in demand for our product, and our expanding product line.

Please refer to our Sales Projections attached to this Form C.

TakeShots has bootstrapped since the company's inception in 2021. TakeShots has come a long way through bootstrapping, relying on its founders' determination, resourcefulness, and creativity to bring the product to market. From the initial concept development to the production of the shot glass-straw device, TakeShots has demonstrated its ability to innovate and execute on its vision.

Why Seeking Investments Now:

1. While TakeShots has achieved notable success through bootstrapping, the founder recognizes that strategic investments can accelerate the growth trajectory.
2. Investments will allow TakeShots to scale production, expand marketing efforts, and enter new markets more quickly.
3. Access to funding will enable TakeShots to invest in research and development, innovate new product offerings, and secure key partnerships.
4. Seeking investments is a strategic decision aimed at unlocking the company's full potential, capturing a larger market share, and establishing TakeShots as a dominant player in the shot industry.

By sharing their bootstrapping journey and highlighting a track record of success, TakeShots positions itself as a promising investment opportunity for potential investors looking to support an innovative and rapidly growing company in the beverage industry.

Global Alcohol Market:

Alcoholic Beverages Market Research, 2031. The global alcoholic beverages market size was valued at \$1624 billion in 2021, and alcoholic beverages market size is projected to reach \$2036.6 billion by 2031, growing at a CAGR of 2.2% from 2022 to 2031.

Global Drinkware Market:

Global drinkware market size is estimated to be worth USD 3.34 billion in 2021 and is forecast to a readjusted size of USD 3.982 billion by 2028 with a CAGR of 2.5% during the forecast period 2022-2028.

Market Trends:

The global alcohol market is valued at approximately \$1.46 trillion. It consists of several segments, including beer, wine, spirits, and others like cider and RTD beverages. Europe, North America, Asia-Pacific, Latin America, and Africa are key regions with varying consumption patterns. Major players in the market include Anheuser-Busch InBev, Heineken, Diageo, and

Pernod Ricard. Changing consumer preferences include the rise of low-alcohol alternatives and a demand for premium and high-quality beverages.

Drinkware Market Analysis:

Throughout history, drinkware has evolved alongside human civilization. Ancient civilizations used materials like clay, stone, and animal horns for drinking vessels. The Greeks and Romans introduced ceramic cups and goblets, while the Middle Ages saw the use of pewter, glass, and pottery. The Renaissance and Baroque periods brought intricate glassware, and the Industrial Revolution enabled mass production of glassware. In modern times, drinkware has become more diverse, with specialized glasses for different beverages. Contemporary trends focus on aesthetics, sustainability, and functionality, leading to eco-friendly options and innovative features. Drinkware reflects cultural practices, technology, and consumer preferences.

The shot industry is a vibrant and growing market, with various players catering to shot enthusiasts and partygoers. While the competition exists, TakeShots stands out as a unique and innovative solution that redefines the shot-taking experience. Some competitors to TakeShots include:

Traditional Shot Glasses:

Traditional shot glasses are widely available and commonly used, offering a basic and straightforward shot-taking experience. However, they lack the integrated functionality of TakeShots, preventing a seamless transition from the shot to the chaser.

Novelty Shot Glasses:

Some companies offer novelty shot glasses with distinctive shapes, colors, or designs to enhance the visual appeal. While these products offer a touch of novelty, they still do not address the convenience and functionality provided by TakeShots.

Disposable Shot Glasses:

Disposable shot glasses are convenient for large gatherings or events where cleanup is a concern. However, they are not designed for an enhanced shot-chaser experience like TakeShots, and their disposable nature creates waste.

Risk Factors

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters. The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Regulatory changes and uncertainties.

The Company operates in a highly regulated industry subject to substantial change. In addition, both its labor and customer base are licensed and regulated by local, state, and federal governments. Policies may be changed for several reasons including, but not limited to economic conditions, public safety, socio-political factors, and such. As policy changes are made by regulators, there is no guarantee that the company will be able to provide services in its current form, which may place a substantial hardship on operations, causing an Investor to lose all or a portion of their investment.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations may require a significant pivot in strategy and execution, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenue, as well as the inherent business risks associated with our Company and present and future market conditions.

The Company's success depends on the experience and skill of its manager and other key personnel.

In particular, we are dependent on our managers. The loss of our founder, Shane Cramsey, or any other key personnel could harm the Company's business, financial condition, cash flow and performance. Accordingly, you should not invest in the Company unless you are willing to entrust all aspects of the management of the Company and the investment decisions we make on the behalf of the Company.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success and will be critical to our success as we form and advise new markets. Any incident that erodes confidence in our brand could significantly reduce the Company's value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correct.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering “ it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

Although Investors will have no right to voluntarily withdraw capital from the Company or withdraw their Securities, in certain circumstances they may be forced to withdraw from the Company.

An Investor may be forced to withdraw from the Company if the Company reasonably determines that it is necessary or desirable to do so in order to comply with applicable law or

regulations, or to avoid a material adverse effect on the Company or the other holders of securities in the Company.

Investors will have no right to control the Company's operations.

The Investors will have no opportunity to control the day-to-day operations of the Company, including, without limitation, the investment and disposition decisions of the Portfolio Companies. In order to safeguard your limited liability for the liabilities and obligations of the Company, you must rely entirely on the Manager and Principals to conduct and manage the business affairs of the Company

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

The Company may never undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never undergo a liquidity event such as a repurchase of the Securities by the Company, a sale of the Company or an initial public or coin offering. If a liquidity event does not occur, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities have no voting rights or ability to direct the Company or its actions.

The Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company's equity securities will be subject to dilution. The Company may issue additional equity to third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's economic interests in the Company. The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional

financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

The Securities may be substantially different from other equity securities offered or issued by the Company.

The Securities may be materially different from the other equity securities of the Company in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. The Securities may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred membership interests, have been paid in full. Neither holders of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

Tik Tok Could Be Banned In The United States

TakeShots has utilized Tik Tok advertising as a mechanism to generate sales. A government ban on Tik Tok could result in a decrease in sales and net profit and could harm an investor's investment.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

TakeShots LLC ("Company") is offering securities under Regulation CF, through PicMii Crowdfunding LLC ("PicMii"). PicMii is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.5% of the value of the securities sold through Regulation CF and a \$1,500 up-front payment. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$10,000 and \$1,000,000 through an offering under Regulation CF. Specifically, if we reach the Minimum Raise Amount of \$10,000, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have not yet to be closed.

In the event The Company fails to reach the minimum offering amount of \$10,000, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

7. What is the purpose of this offering?

If the maximum offering amount is raised, our anticipated use of proceeds is as follows in Question 8.

8. How does the issuer intend to use the proceeds of this offering?

	% of Capital if Target Offering Amount Raised	Amount if Target Offering Amount Raised	% of Capital if Maximum Offering Amount Raised	Amount if Maximum Offering Amount Raised
Inventory	25%	\$2,500	25%	\$250,000
Product Development	5%	\$500	5%	\$50,000
Advertising and Marketing	25%	\$2,500	25%	\$250,000

Liquor Line	25%	\$2,500	25%	\$250,000
Reserves	5%	\$500	5%	\$50,000
Employees	10%	\$1,000	10%	\$100,000
Total	100%	\$10,000	100%	\$1,000,000

*We reserve the right to change the above use of proceeds if management believes it is in the best interest of the Company.

9. How will the issuer complete the transaction and deliver securities to the investors?

Manage Own Records - In entering into an agreement on PicMii Crowdfunding's Funding Portal to purchase securities, both investors and the Company must agree that a transfer agent, which keeps records of our outstanding Units (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed) or that the Company is capable of maintaining investment records on their own. In this Case, they will be managing their records on their own. Unit ownership is recorded in the company's electronic books and records, which may be kept online if directed by the Board, with issuance and transfers of Units made electronically.

10. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering PicMii will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). PicMii Crowdfunding will notify investors when the target offering amount has been met. If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering,

the investor's investment commitment will be cancelled, and the committed funds will be returned.

11. Can the company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.
- The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person. The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

The Company's operating agreement per Exhibit E contains additional restrictions on transfer.

Description of Issuer's Securities

16. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Amount Authorized	Amount Outstanding	Reserved Options	Convertible Note/SAFEs	Voting Rights

Class A-2 Units	50,000	0	N/A	N/A	No

*The issuer has an unfinished agreement that could result in the issuance of the following Units to a service provider:

1. 5,000 Class A-1 Units upon completion of the first batch of the disposable versions of the shot straw.

2. 2,500 Class A-2 Units upon the one-year anniversary of the date of the agreement.
3. 2,500 Class A-2 Units upon the two-year anniversary of the date of the agreement.

Options, Warrants and Other Rights

17. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional units. In other words, when the company issues more units, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of units outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible bonds, preferred units or warrants) into stock. If the company decides to issue more units, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early-stage companies are unlikely to offer dividends, preferring to invest any earnings into the company)

18. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

Yes, Class A-2 Members are not entitled to voting rights per the operating agreement in Exhibit E. Additionally, holders of Class A-1 Voting Units may be entitled to preferred distributions per the operating agreement in Exhibit E.

19. How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?

The holder of a majority of the voting rights in the company may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholder may decide to issue additional units to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

20. How are the securities being offered valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The securities being offered are valued at the issuer's discretion. An early-stage company typically sells its units (or grants options over its units) to its founders and early employees at a very low cash cost, because they are, in effect, putting their "sweat equity" into the company. When the company seeks cash investments from outside investors, like you, the new investors typically pay a much larger sum for their units than the founders or earlier investors, which means that the cash value of your stake is immediately diluted because each share of the same type is worth the same amount, and you paid more for your units than earlier investors did for theirs.

There are several ways to value a company, and none of them is perfect and all of them involve a certain degree of guesswork. Any of these methods, plus others, may be used to determine valuation in the future:

Liquidation Value - The amount for which the assets of the company can be sold, minus the liabilities owed, e.g., the assets of a bakery include the cake mixers, ingredients, baking tins, etc. The liabilities of a bakery include the cost of rent or mortgage on the bakery. However, this value does not reflect the potential value of a business, e.g., the value of the secret recipe. The value for most startups lies in their potential, as many early stage companies do not have many assets.

Book Value - This is based on analysis of the company's financial statements, usually looking at the company's balance sheet as prepared by its accountants. However, the balance sheet only looks at costs (i.e., what was paid for the asset), and does not consider whether the asset has increased in value over time. In addition, some intangible assets, such as patents, trademarks or trade names, are very valuable but are not usually represented at their market value on the balance sheet.

Earnings Approach - This is based on what the investor will pay (the present value) for what the investor expects to obtain in the future (the future return), taking into account inflation, the lost opportunity to participate in other investments, the risk of not receiving the return. However, predictions of the future are uncertain and valuation of future returns is a best guess.

Different methods of valuation produce a different answer as to what your investment is worth. Typically, liquidation value and book value will produce a lower valuation than the earnings approach. However, the earnings approach is also most likely to be risky as it is based on many assumptions about the future, while liquidation value and book value are much more conservative.

Future investors (including people seeking to acquire the company) may value the company differently. They may use a different valuation method, or different assumptions about the company's business and its market. Different valuations may mean that the value assigned to your investment changes. It frequently happens that when a large institutional investor such as a venture capitalist makes an investment in a company, it values the company at a lower price than the initial investors did. If this happens, the value of the investment would go down.

21. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

The company's Articles of Organization or Operating Agreement can be amended by the holders of a majority of the issued and outstanding units of the Company. As minority owners, the crowdfunding investors are subject to the decisions made by the majority owners. The issued and outstanding units give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as, among other things: (a) the liquidation, dissolution or winding up of the company, or effecting any merger or consolidation; (b) amendment of any provision of the Certificate of Formation or Operating Agreement; (c) creation and issuance of other securities having rights, preferences or privileges senior to the Units sold to the crowdfunding investors, or increasing the authorized number of Units of the company; or (d) creation of any debt security.

22. What are the risks to purchasers associated with corporate actions including:

- 1. Additional issuances of securities**
- 2. Issuer repurchases of securities**
- 3. A sale of the issuer or of assets of the issuer**
- 4. Transactions with related parties**

The authorization and issuance of additional Units will dilute the ownership of the crowdfunding investors. As a result, if the company achieves profitable operations in the future, its net income per share will be reduced because of dilution, and the market price of the company's Units, if there is a market price, could decline as a result of the additional issuances of securities. If the company repurchases securities, so that the above risk is mitigated, and there are fewer Units outstanding, the company may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our Units would decline. A sale of the company or of all of the assets of the company may result in an entire loss of your investment. We cannot predict the market value of the company or its assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors. We may need to negotiate with a related party for additional capital. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms.

23. Describe the material terms of any indebtedness of the issuer:

Creditor(s)	Amount Outstanding	Interest Rate	Maturity Date
N/A	N/A	N/A	N/A

24. What other exempt offerings has the Company conducted within the past three years?

None.

25. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

- 1. Any director or officer of the issuer;**
- 2. Any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;**
- 3. If the issuer was incorporated or organized within the past three years, any promoter of the issuer; or**
- 4. Any immediate family members of any of the foregoing persons.**

Problem

Taking shots is a popular social activity enjoyed by millions worldwide. However, the traditional shot experience often presents inconveniences and compromises the enjoyment of chasers. There are many challenges and implications to the traditional shot experience that diminish the enjoyment of social drinking.

Key Challenges:

- 1. Shot-Chaser Transition:** Customers struggle to smoothly transition from consuming a shot to enjoying their chaser drink.
- 2. Inconvenience:** The need to use separate shot glasses and straws adds complexity and inconvenience to the drinking process.
- 3. Chaser Dilution:** By drinking the chaser separately, there is a risk of diluting the taste or losing the intended flavor profile.

Implications:

There are three main implications that come with the existing shot-taking industry. First, existing shot-taking methods hamper customer satisfaction and diminish the potential for creating memorable experiences. Second, brands and establishments lack a solution that enhances shot-taking rituals and encourages repeat business. And lastly, there is a demand for a novel, all-in-one solution that simplifies the shot-chaser experience while preserving the intended flavors.

Market Projection

Global Alcohol Market:

Alcoholic Beverages Market Research, 2021. The global alcoholic beverages market size was valued at \$1624 billion in 2021, and alcoholic beverages market size is projected to reach \$2036.6 billion by 2031, growing at a CAGR of 2.2% from 2022 to 2031.

Market Trends:

The global alcohol market is valued at approximately \$1.46 trillion. It consists of several segments, including beer, wine, spirits, and others like cider and RTD beverages. Europe, North America, Asia-Pacific, Latin America, and Africa are key regions with varying consumption patterns. Major players in the market include Anheuser-Busch InBev, Heineken, Diageo, and Pernod Ricard. Changing consumer preferences include the rise of low-alcohol alternatives and a demand for premium and high-quality beverages.

Drinkware Market Analysis:

Throughout history, drinkware has evolved alongside human civilization. Ancient civilizations used materials like clay, stone, and animal horns for drinking vessels. The Greeks and Romans introduced ceramic cups and goblets, while the Middle Ages saw the use of pewter, glass, and pottery. The Renaissance and Baroque periods brought intricate glassware, and the Industrial Revolution enabled mass production of glassware. In modern times, drinkware has become more diverse, with specialized glasses for different beverages. Contemporary trends focus on aesthetics, sustainability, and functionality, leading to eco-friendly options and innovative features. Drinkware reflects cultural practices, technology, and consumer preferences.

Competition

The shot industry is a vibrant and growing market, with various players catering to shot enthusiasts and partygoers. While the competition exists, TakeShots stands out as a unique and innovative solution that redefines the shot-taking experience. Some competitors to TakeShots include:

Traditional Shot Glasses:

Traditional shot glasses are widely available and commonly used, offering a basic and straightforward shot-taking experience. However, they lack the integrated functionality of TakeShots, preventing a seamless transition from the shot to the chaser.

Novelty Shot Glasses:

Some companies offer novelty shot glasses with distinctive shapes, colors, or designs to enhance the visual appeal. While these products offer a touch of novelty, they still do not address the convenience and functionality provided by TakeShots.

Disposable Shot Glasses:

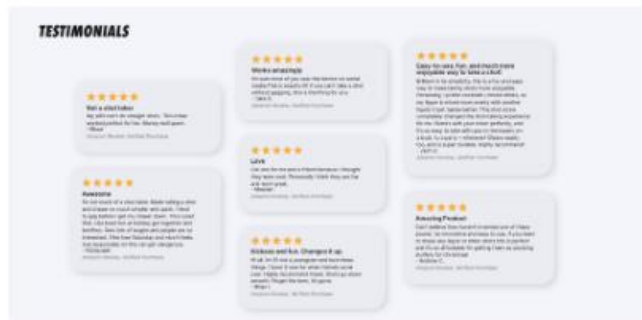

Disposable shot glasses are convenient for large gatherings or events where cleanup is a concern. However, they are not designed for an enhanced shot-chaser experience like TakeShots, and their disposable nature creates waste.

In 2022, TakeShots achieved impressive sales of \$151,471, indicating a strong demand for our product. With approximately 23,000 units sold over the past year, we believe that consumers have embraced the concept and recognized the value it brings to their enjoyment of shots. This initial success speaks to the appeal and novelty of our device, as well as the effectiveness of our marketing and distribution strategies. Looking ahead to 2023, TakeShots is projecting significant growth, aiming for approximately \$1,069,000 in sales, which translates to an estimated 65,000 units. This projection indicates we are confident in the continued popularity of our product, we have successfully tapped into a market niche, and our innovative solution resonates with consumers seeking a more enjoyable way to consume shots. Our forecast for 2024 is even more impressive, with projected sales of around \$2,400,000, equivalent to approximately 156,000 units. The Company may accept subscriptions until December 31, 2023 (the "**Offering Deadline**"). Provided that subscriptions for 200 Units (\$10,000 in investments) are received, the Company may elect at any time to close all or any portion of this offering, on various dates at or prior to the Offering Deadline (each a "**Closing**").

2. Acceptance. The Company has the right to accept or reject Subscriber's subscription in its sole and absolute discretion. The subscription will be accepted only when the Company countersigns this Subscription Agreement. Subscriber understands and agrees that, if this Subscription Agreement is accepted, it may not be cancelled, revoked or withdrawn by Subscriber. If this offer to buy Units is rejected by the Company or is withdrawn by Subscriber in writing prior to acceptance by the Company, such portion of the Purchase Price as has been received by the Company in connection with this Subscription Agreement will be returned to Subscriber without interest, and Subscriber will cease to have any interest in, or rights with respect to, the Units.

3. Purchase Procedure.

(a) Payment. The purchase price for the Securities shall be paid simultaneously with the execution and delivery to the Company of the signature page of this Subscription Agreement, which signature and delivery may take place through digital online means. Subscriber shall deliver a signed copy of this Subscription Agreement, along with payment for the aggregate purchase price of the Securities in accordance with the online payment process established by the intermediary.

(b) Escrow arrangements. Payment for the Securities shall be received by Enterprise Bank & Trust (the "**Escrow Agent**") from the Subscriber by transfer of immediately available funds or other means approved by the Company prior to the applicable Closing. Upon such Closing, the

Escrow Agent shall release such funds to the Company. The undersigned shall receive notice upon Closing.

4. Representations, Warranties and Agreements. As of each of the date Subscriber executes and delivers this Subscription Agreement and the date of the Closing, Subscriber makes the following representations, warranties, acknowledgments and agreements in order to induce the Company to accept this subscription:

(a) Authorization. Subscriber has full power and authority to enter into this Subscription Agreement, and when executed and delivered by Subscriber, will constitute valid and legally binding obligations of Subscriber, enforceable in accordance with their terms, except as limited by applicable bankruptcy, insolvency, reorganization, moratorium, fraudulent conveyance and any other laws of general application affecting enforcement of creditors' rights generally, and as limited by laws relating to the availability of specific performance, injunctive relief or other equitable remedies.

(b) Purchase Entirely for Own Account. This Subscription Agreement is made with Subscriber in reliance upon Subscriber's representation to the Company, which by Subscriber's execution of this Subscription Agreement, Subscriber hereby confirms, that the Units to be acquired by Subscriber will be acquired for investment for Subscriber's own account, not as a nominee or agent, and not with a view to the resale or distribution of any part thereof, and that Subscriber has no present intention of selling, granting any participation in, or otherwise distributing the same in violation of applicable securities laws. By executing this Subscription Agreement, Subscriber further represents that Subscriber does not presently have any contract, undertaking, agreement or arrangement with any person or entity to sell, transfer or grant participations to such person or entity or to any third person or entity, with respect to any of the Units. In an entity, Subscriber has not been formed for the specific purpose of acquiring the Units.

(c) Disclosure of Information. Subscriber and his, her or its attorneys and/or advisors have had an opportunity to obtain information concerning the Company and have had an opportunity to ask questions of and receive answers from authorized representatives of the Company concerning the Company, the offering and sale of the Units and any other relevant matters pertaining to this investment, and in all instances have been afforded the opportunity to obtain such additional information as necessary to verify the accuracy of the information that was otherwise provided.

Subscriber has read and fully understands the Offering Statement and the LLC Agreement. Subscriber understands that the Company is subject to all the risks that apply to early-stage companies, whether or not those risks are explicitly set out in the Offering Statement. Subscriber acknowledges that except as set forth herein, no representations or warranties have been made to Subscriber, or to Subscriber's advisors or representative, by the Company or others with respect to the business or prospects of the Company or its financial condition.

(d) Restricted Securities. Subscriber understands that the Units have not been, and will not be, registered under the Securities Act, by reason of a specific exemption from the registration provisions of the Securities Act which depends upon, among other things, the bona fide nature of the investment intent and the accuracy of Subscriber's representations as expressed herein. Subscriber understands that the Units are "restricted securities" under applicable U.S. federal and state securities laws and that, pursuant to these laws, Subscriber must hold the Units

indefinitely unless they are registered with the Securities and Exchange Commission and qualified by state authorities, or an exemption from such registration and qualification requirements is available. Subscriber acknowledges that the Company has no obligation to register or qualify the Units for resale. Subscriber further acknowledges that if an exemption from registration or qualification is available, it may be conditioned on various requirements including, but not limited to, the time and manner of sale, the holding period for the Units, and on requirements relating to the Company which are outside of Subscriber's control, and which the Company is under no obligation and may not be able to satisfy.

(e) Illiquidity and Continued Economic Risk. Subscriber acknowledges and agrees that there is no ready public market for the Units and that there is no guarantee that a market for their resale will ever exist. Subscriber must bear the economic risk of this investment indefinitely and the Company has no obligation to list the Units on any market or take any steps (including registration under the Securities Act or the Securities Exchange Act of 1934, as amended) with respect to facilitating trading or resale of the Units. Subscriber acknowledges that Subscriber is able to bear the economic risk of losing Subscriber's entire investment in the Units. Subscriber also understands that an investment in the Company involves significant risks and has taken full cognizance of and understands all of the risk factors relating to the purchase of the Units.

(f) No Violations. Subscriber will not sell, transfer, or otherwise dispose of the Units in violation of this Subscription Agreement, the LLC Agreement, the Securities Act, the Securities Exchange Act of 1934, or the rules promulgated thereunder, including Rule 144 under the Securities Act.

(g) Securities Law Restrictions. Regardless of whether the offering and sale of Units under this Subscription Agreement have been registered under the Securities Act or have been registered or qualified under the securities laws of any state, the Company at its discretion may impose restrictions upon the sale, pledge or other transfer of the Units (including the placement of appropriate legends on stock certificates, if any, or the imposition of stop-transfer instructions) if, in the judgment of the Company, such restrictions are necessary or desirable in order to achieve compliance with the Securities Act, the securities laws of any state or any other law.

(h) Rights of the Company. The Company shall not be required to (i) transfer on its books any Units that have been sold or transferred in contravention of this Subscription Agreement or (ii) treat as the owner of Units, or otherwise to accord voting, dividend or liquidation rights to, any transferee to whom Units have been transferred in contravention of this Subscription Agreement.

(i) No Public Market. Subscriber understands that no public market now exists for the Units, and that the Company has made no assurances that a public market will ever exist for the Units.

(j) Legends. Subscriber understands that the Units are issued and issuable in uncertificated form, but that the Members of the Company may authorize the issuance of stock certificates at any time, and if so authorized, such stock certificates representing the Units will bear such legend as the Members of the Company then determines appropriate, including the following example legend:

"THE UNITS REPRESENTED BY THIS CERTIFICATE HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933 AND HAVE BEEN ACQUIRED FOR INVESTMENT AND NOT WITH A VIEW TO, OR IN CONNECTION WITH, THE SALE OR DISTRIBUTION

THEREOF. NO SUCH TRANSFER MAY BE EFFECTED WITHOUT AN EFFECTIVE REGISTRATION STATEMENT RELATED THERETO OR AN OPINION OF COUNSEL IN A FORM SATISFACTORY TO THE COMPANY THAT SUCH REGISTRATION IS NOT REQUIRED UNDER THE SECURITIES ACT OF 1933."

(k) Investor Limits. Subscriber is either an accredited investor as defined in Rule 501(a) of Regulation D promulgated under the Securities Act or is investing within their investor limits as defined in 4(a)(6) of Regulation CF.

(l) Speculative Investment. Subscriber is aware that an investment in the Units is highly speculative and Subscriber could lose his, her or its entire investment and Subscriber's financial condition is such that Subscriber is able to bear the economic risks of investment in the Units, including the risk of loss of Subscriber's entire investment in the Units should the Units become worthless, taking into consideration the limitations on resale of the Units.

(m) Financial Experience. Subscriber, by reason of his, her or its business or financial experience or by reason of the business or financial experience of his, her or its financial advisor is capable of evaluating the risks and merits of an investment in the Units and of protecting his, her or its own interests in connection with this investment.

(n) Residence. If Subscriber is an individual, then Subscriber resides in the state identified in the address of Subscriber set forth on the signature page of this Subscription Agreement; if Subscriber is a partnership, corporation, limited liability company or other entity, then the office or offices of Subscriber in which its principal place of business is identified in the address or addresses of Subscriber set forth on the signature page of this Subscription Agreement.

(o) Indemnification. Subscriber agrees to indemnify, defend and hold harmless the Company and its shareholders, directors, officers, employees, agents and representatives from and against all damages, losses, costs and expenses (including reasonable attorneys' fees) which they may incur by reason of the failure of Subscriber to fulfill any of the terms or conditions of this Subscription Agreement, or by reason of or attributable to any breach of the representations and warranties made by Subscriber herein, or in any document provided by Subscriber to the Company or the fact that any of such representations and warranties or acknowledgments and understandings set forth herein or therein are untrue or without adequate factual basis to be considered true and not misleading.

5. Choice of Law. This Subscription Agreement, its construction and the determination of any rights, duties or remedies of the parties arising out of, or relating to, this Subscription Agreement shall be governed by the internal laws of the State of Colorado.

6. Entire Agreement. The terms of this Subscription Agreement are intended by the parties as the final expression of their agreement with respect to the terms included in this Subscription Agreement and may not be contradicted by evidence of any prior or contemporaneous agreement, arrangement, understanding, representations, warranties, covenants, or negotiations (whether oral or written).

7. No Waiver. No waiver or modification of any of the terms of this Subscription Agreement shall be valid unless in writing. No waiver of a breach of, or default under, any provision of this Subscription Agreement shall be deemed a waiver of such provision or of any subsequent

breach or default of the same or similar nature or of any other provision or condition of this Subscription Agreement.

8. Counterparts. This Subscription Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

9. Electronic Execution. A signed copy of this Subscription Agreement, including in Portable Digital Format (.pdf) or other digital format, delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Subscription Agreement.

10. Expenses. Each party shall pay all of the costs and expenses that it incurs with respect to the negotiation, execution, delivery, and performance of this Subscription Agreement.

11. Survival. All representations, warranties and covenants contained in this Subscription Agreement shall survive acceptance of the subscription.

12. Gender and Number. Terms used in this Subscription Agreement in any gender or in the singular or plural include other genders and the plural or singular, as the context may require. If Subscriber is an entity, all reference to "him" and "his" or "her" and "hers" shall be deemed to include "it" or "its" and vice versa.

13. Foreign Investors. If Subscriber is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), Subscriber hereby represents that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation to subscribe for the Securities or any use of this Subscription Agreement, including (i) the legal requirements within its jurisdiction for the purchase of the Securities, (ii) any foreign exchange restrictions applicable to such purchase, (iii) any governmental or other consents that may need to be obtained, and (iv) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, redemption, sale, or transfer of Securities.
