Q: What percentage of the combined company will be owned by Keyarch shareholders who elect not to redeem their shares?, page 17

1. Revise your disclosure to show the potential impact of redemptions on the per share value of the shares owned by non-redeeming shareholders by including a sensitivity analysis showing a range of redemption scenarios, including minimum, maximum and interim redemption levels.

Q: What interests do the Sponsor and the current officers and directors of Keyarch have in the Business Combination?, page 20

2. Given that the Initial Stockholders, the Sponsor and the Keyarch directors have agreed to vote in favor of the proposals, please specify the percentage of votes by public or nonaffiliated holders required to approve each of the proposals.
3. Please describe the current value of any loans extends, fees due to, and out-of-pocket expenses for which the Sponsor and its affiliates are awaiting reimbursement. Provide similar disclosure for the company's officers and directors, if material.

Please revise the conflicts of interest discussion so that it highlights all material interests in the transaction held by the sponsor and the company's officers and directors, including any fiduciary or contractual obligations to other entities as well as any interest in, or affiliation with, the target company. In addition, please clarify how the board considered those conflicts in negotiating and recommending the business combination.

5. Your disclosure here and on page 119 indicates that ZOOZ intends to effect a stock split to cause the implied value of the outstanding ZOOZ ordinary shares to equal \$10 per share prior to the Effective Time. Please explain how the reverse share split based on the conversion ratio of approximately 11.4168 disclosed throughout the filing will result in an implied value of ZOOZ ordinary shares of \$10 per share prior to the Effective Time, considering the trading price of ZOOZ ordinary shares on the TASE.

Redemption Rights, page 33

6. Your disclosure here that the minimum cash condition is 5,000,001 is inconsistent with your disclosure elsewhere in the filing which states that the minimum cash condition is \$10 million. Please revise or advise.

7. You indicate here and on page 43 that ZOOZ's existing shareholders may have the greatest voting interest in the Combined Company under either redemption scenarios. Please explain the basis for this assertion, considering that, under the No Redemption Scenario, Keyarch's existing shareholders, including the EBC Shares, are expected to own 50.3% of the Combined Company and ZOOZ's existing shareholders are expected to only have 49.7% ownership in the Combined Company based on the charts on pages 17 and 45.

Risk Factors

The Restated ZOOZ Articles will provide that unless ZOOZ...., page 87

8. We note that you have designated the federal district courts of the United States as the sole and exclusive forum for claims arising under both the Securities Act and the Exchange Act. Please revise your risk factor to highlight that Section 22 of the Securities act grants concurrent jurisdiction to both state and federal courts. Additionally, revise to highlight that the exclusive forum provision may have the impact of discouraging claims or limiting the ability of shareholders to bring a claim in a forum they find favorable.

Risks related to Ownership of the Combined Company's Shares, page 91

10. We note your risk factor that the future sales of ZOOZ ordinary shares may cause a significant decline in their market price. Please expand this risk factor to highlight the impact that additional redemptions may have on your ability to fund the surviving company, including the likelihood that you will be unable to raise additional capital on favorable terms, if at all. Discuss the downward pressure potential sales of securities following additional capital raising transactions may have on the trading price of the combined entity.

Reasons of the Keyarch Board for the Business Combination and the Recommendation of the Board, page 126

11. We note your statement that the board decision to recommend the transaction was “including, but not limited to, the following material factors.” Please revise to include, without qualification, the full list of material factors considered by the board when determining whether to recommend the business combination to shareholders.

13. Please revise this discussion to clearly highlight the material assumptions underlying the projections and the limitations of the projections. Further, if the board considered multiple sets of projections other than those referenced here, each should be highlighted in your discussion, including the basis for the board's belief that the selected projections are reasonable.
