The financial statements have been prepared on the accrual basis of accounting.

**c. Use of estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could materially differ from those estimates.

**d. Fair value measurements**

Generally accepted accounting principles define fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and such principles also establish a fair value hierarchy that prioritizes the inputs used to measure fair value using the following definitions (from highest to lowest priority):

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
  
- Level 2 - Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets and liabilities

in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.

- Level 3 – Prices or valuation techniques requiring inputs that are both significant to the fair value measurement and unobservable.

The Company has not experienced any losses in these accounts.

#### 4. GLIDE award note payable

During 2018, the Company received \$100,000 in award proceeds from the Great Lakes Innovation & Development Enterprise (GLIDE), a nonprofit that provides technology startups with early-stage funding. Under the terms of this funding, the Company can repay the total sum without interest at any time during the first 3 years.

If the funds are not repaid within three years, the total award amount plus an interest charge of 6% annually calculated from the date of the initial payment plus 3 years is due.

If on the 6th anniversary following the initial receipt of the award proceeds, the Company has not elected to repay the funds, GLIDE has the option to convert the balance into a promissory note with an annual interest rate of 6% beginning with the third anniversary of the initial payment. GLIDE may exercise this option any time during the six-month period following the sixth anniversary.

be at an equity valuation equivalent to recent investments made by other outside investors or such other valuation methods which are verifiable and approved by GLIDE. Acceptance of any offer would be at the sole discretion of GLIDE.

**5. Commitments and contingencies**

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. As of December 31, 2022, there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of the Company's operations.

**6. Going concern**

These financial statements have been prepared on a going concern basis which contemplates the realization of assets and the payment of liabilities in the ordinary course of business. As shown in the accompanying financial statements, the Company has yet to earn revenue and has operated at a loss while relying on accelerator awards and owner contributions to finance operations. Those factors and conditions create a substantial doubt about the Company's ability to continue as a going concern for the year following the date the financial statements are available to be issued. Management of the Company has evaluated these conditions and has proposed a plan to raise funds via a crowdfunding campaign. The ability of the Company to continue as a going concern is based on management's ability to successfully implement the plan. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

**7. Subsequent events**

Management evaluated all activity of the Company through August 11, 2023 (the issuance date of the financial statements) and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the related notes to the financial statements.
