Form 10-K for the Year Ended December 31, 2015
Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations
Consolidated Financial Results
2015 Compared to 2014
Income and Mining Taxes, page 38

1. Your discussion on page 38 of MD&A indicates that your effective tax rate was 6.7% in 2015 as compared to an effective tax rate of 26.5% for 2014. Your discussion also indicates that the effective tax rate is impacted by recurring items such as foreign exchange rates on deferred tax balances, the impacts of mineral interest impairments, the full valuation allowance on the deferred tax assets in the United States and certain foreign jurisdictions, mining tax expense and uncertain tax position accruals. However, you provide no discussion or insight into the specific factors or circumstances that caused your effective tax rate to decline from 26.5% in 2014 to 6.7% in 2015. Please revise

2. Your disclosure in Note 20 indicates that each of your subsidiary guarantors is 100% owned by Coeur and the guarantees are full and unconditional. Please revise future filings to also disclose whether the guarantees are joint and several. Refer to the requirements outlined in Rule 3-10(f) of Regulation S-X.

Quarterly Report on Form 10-Q for the Quarter ended June 30, 2016
Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

3. In your reconciliation of net income (loss) to the non-GAAP measure, adjusted net income (loss), you reflect a reconciling adjustment for the tax effect of adjustments. Please revise to explain how you calculated or determined the tax effect of adjustments. Refer to the guidance in Question 102.11 of the updated Compliance and Disclosure Interpretations issued on May 17, 2016.
