5. Please revise future filings to describe in greater detail how you utilize bond table data in your determination of the allowance for loan losses. Please tell us how you determine that the underlying collateral for the bonds is similar enough to your own portfolio to provide meaningful data.

Note 3 – Fair Value Measurements, page 84

6. We note your disclosure on page 75 regarding the impact of the new accounting guidance on your valuation of auction rate securities. We also note that your valuation model, significant inputs and the source of those inputs do not appear to have significantly changed from the prior period disclosure. Note 4 – Investment Securities, page 94

7. Your disclosure on page 97 indicates that you did not purchase any new auction rate securities during the year. Additionally, we note that your auction rate securities were in an unrealized loss position for less than 12 months at the end of 2008. Given this disclosure, please clarify why your auction rate securities are not in an unrealized loss position for greater than 12 months as of December 31, 2009.

Note 9 – Goodwill, page 101

8. We note that your retail bank segment has incurred a net loss during the year and has experienced declining revenues during the past few years. Refer to Release No. 33-8350.

If the latter is true, please revise management's discussion and analysis to discuss any material trends that may be impacted by this policy election.
11. Please revise future filings to disclose how you define "long-term" as it relates to your expected long-term rate of return on plan assets. Additionally, please disclose the actual return on assets during the periods presented.
