Form 10-K for the Fiscal Year Ended January 3, 2010
Filed March 1, 2010
File No. 1-05075**

Dear Mr. Friel:

We have limited our review of your filing to disclosure relating to your contacts with a country that has been identified as a state sponsor of terrorism, and we have the following comments. Our review with respect to this issue does not preclude further review by the Assistant Director group with respect to other issues. At this juncture, we are asking you to provide us with supplemental information, so that we may better understand your disclosure. Please be as detailed as necessary in your response. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filings. We look forward to working with you in these respects. We welcome any questions you may have about our comments or on any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

General

1. We are aware of an April 2010 news report that your atomic absorption spectrometer was offered for sale at a recent trade show in Iran. The article also refers to activity by your "former Iranian distributor." Iran is identified by the State Department as a state sponsor of terrorism, and is subject to U.S. economic sanctions and export controls. We note that your Form 10-K does not include disclosure regarding contacts with Iran. Please describe to us the nature and extent of your past, current, and anticipated contacts with Iran, whether through subsidiaries, distributors, or other direct or indirect arrangements. Your response should describe any products, components, equipment, technology, software, or services that you have provided into Iran, directly or indirectly, and any agreements, commercial arrangements, or other contacts you have had with the government of Iran or entities controlled by that government.

2. In addition, please tell us whether, to the best of your knowledge, understanding, and belief, any of the products, components, equipment, technology, software, or services you have provided, directly or indirectly, into Iran have weapons or other military uses, and describe such possible uses of which you are aware. Also, tell us whether, to the best of your knowledge, understanding, and belief, such products, components, equipment, technology, software, or services have been put to weapons or other military use by Iran, and discuss any such use of which you are aware. Finally, if any items that you have provided into Iran, directly or indirectly, have weapons application, please discuss the applicability of Section 5(b) of the Iran Sanctions Act of 1996, formerly the Iran and Libya Sanctions Act of 1996, as amended by the Iran Freedom Support Act of 2006, to your contacts with Iran.
3. Please discuss the materiality of any contacts with Iran and whether those contacts constitute a material investment risk for your security holders. You should address materiality in quantitative terms, including the approximate dollar amounts of revenues, assets, and liabilities associated with Iran for the last three fiscal years and any subsequent period. Also, address materiality in terms of qualitative factors that a reasonable investor would deem important in making an investment decision, including the potential impact of corporate activities upon a company's reputation and share value. As you may be aware, various state and municipal governments, universities, and other investors have proposed or adopted divestment or similar initiatives regarding investment in companies that do business with U.S.-designated state sponsors of terrorism. Your materiality analysis should address the potential impact of the investor sentiment evidenced by such actions directed toward companies that have operations associated with Iran.
