

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2009

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ____ to ____

Commission File Number: 0-16772

PEOPLES BANCORP INC.

(Exact name of Registrant as specified in its charter)

Ohio

(State or other jurisdiction of incorporation or organization)

31-0987416

(I.R.S. Employer Identification No.)

138 Putnam Street, P. O. Box 738, Marietta, Ohio

(Address of principal executive offices)

45750

(Zip Code)

Registrant's telephone number, including area code:

(740) 373-3155

Not Applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer
(Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: 10,471,340 common shares, without par value, at July 22, 2009.

PEOPLES BANCORP INC. AND SUBSIDIARIES
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

Basis of Presentation: The accompanying Unaudited Consolidated Financial Statements of Peoples Bancorp Inc. and its subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States (“US GAAP”) for interim financial information and the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, these financial statements do not contain all of the information and footnotes required by US GAAP for annual financial statements and should be read in conjunction with Peoples’ Annual Report on Form 10-K for the fiscal year ended December 31, 2008 (“2008 Form 10-K”).

The accounting and reporting policies followed in the presentation of the accompanying Unaudited Consolidated Financial Statements are consistent with those described in Note 1 of the Notes to the Consolidated Financial Statements included in Peoples’ 2008 Form 10-K, as updated by the information contained in this Form 10-Q. Management has evaluated all significant events and transactions that occurred after June 30, 2009, but prior to July 23, 2009, the date these consolidated financial statements were issued, for potential recognition or disclosure in these consolidated financial statements. In the opinion of management, these consolidated financial statements reflect all adjustments necessary to present fairly such information for the periods and dates indicated. Such adjustments are normal and recurring in nature. All significant intercompany accounts and transactions have been eliminated. The Consolidated Balance Sheet at December 31, 2008, contained herein has been derived from the audited Consolidated Balance Sheets included in Peoples’ 2008 Form 10-K.

The preparation of the consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Results of operations for interim periods are not necessarily indicative of the results to be expected for the full year, due in part to seasonal variations and unusual or infrequently occurring items. Peoples’ results of operations for the three and six months ended June 30, 2009, were impacted by the recognition of FDIC insurance expense of \$930,000 (\$605,000 after-tax) associated with a special assessment imposed on all FDIC-insured depository institutions as of June 30, 2009. This special assessment will be collected on September 30, 2009. In addition, Peoples’ insurance income includes contingent performance based insurance commissions that are recognized by Peoples when received, which typically occurs during the first quarter of each year.

Preferred Stock and Common Stock Warrant: As more fully described in Note 4, Peoples issued preferred stock and a common stock warrant, which are classified in stockholders’ equity on the Consolidated Balance Sheet at June 30, 2009. The outstanding preferred stock has similar characteristics of an “Increasing Rate Security” as described by Securities and Exchange Commission (“SEC”) Staff Accounting Bulletin No. 68, *Increasing Rate Preferred Stock* (“SAB No. 68”). The proceeds received in conjunction with the issuance of preferred stock and common stock warrant were allocated to preferred stock and common stock warrant based on their relative fair values. Discounts on the increasing rate preferred stock are amortized over the expected life of the preferred stock (5 years), by charging imputed dividend cost against retained earnings and increasing the carrying amount of the preferred stock by a corresponding amount. The discount at the time of issuance is computed as the present value of the difference between dividends that will be payable in future periods and the dividend amount for a corresponding number of periods, discounted at a market rate for dividend yield on comparable securities. The amortization in each period is the amount which, together with the stated dividend in the period, results in a constant rate of effective cost with regard to the carrying amount of the preferred stock.

Common stock warrants are evaluated for liability or equity treatment. The common stock warrant outstanding is carried in stockholders’ equity until exercised or expired based on the view of both the SEC and Financial Accounting Standards Board (the “FASB”) that they would not object to classification of such warrants as permanent equity. This view is consistent with the objective of the Capital Purchase Program that equity in these securities should be considered part of equity for regulatory reporting purposes. The fair value of the common stock warrant used in allocating total proceeds received was determined based on a binomial model.

New Accounting Pronouncements: On June 29, 2009, the FASB issued Statement of Financial Accounting Standards (“SFAS”) No. 168, *The FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162 (“SFAS 168”)*. SFAS 168 establishes the *FASB Accounting Standards Codification™* as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with US GAAP. SFAS 168 will be effective for financial statements issued for interim and annual periods ending after September 15, 2009, for most entities. On the effective date, all non-SEC accounting and reporting standards will be superseded. Peoples will adopt SFAS 168

for the quarterly period ended September 30, 2009, as required, and adoption is not expected to have a material impact on Peoples' financial statements taken as a whole.

On June 12, 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets* ("SFAS 166"), and SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)* ("SFAS 167"), which change the way entities account for securitizations and special-purpose entities.

SFAS 166 is a revision to FASB SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, and will require more information about transfers of financial assets, including securitization transactions, and where companies have continuing exposure to the risks related to transferred financial assets. SFAS 166 also eliminates the concept of a "qualifying special-purpose entity", changes the requirements for derecognizing financial assets and requires additional disclosures.

SFAS 167 is a revision to FASB Interpretation No. 46(R), *Consolidation of Variable Interest Entities*, and changes how a company determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. The determination of whether a company is required to consolidate an entity is based on, among other things, an entity's purpose and design and a company's ability to direct the activities of the entity that most significantly impact the entity's economic performance.

Both SFAS 166 and SFAS 167 will be effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application is prohibited. The recognition and measurement provisions of SFAS 166 shall be applied to transfers that occur on or after the effective date. Peoples will adopt both SFAS 166 and SFAS 167 on January 1, 2010, as required. Management has not determined the impact adoption may have on Peoples' consolidated financial statements.

On May 28, 2009, the FASB issued SFAS No. 165, *Subsequent Events* ("SFAS 165"). Under SFAS 165, companies are required to evaluate events and transactions that occur after the balance sheet date but before the date the financial statements are issued, or available to be issued in the case of non-public entities. SFAS 165 requires entities to recognize in the financial statements the effect of all events or transactions that provide additional evidence of conditions that existed at the balance sheet date, including the estimates inherent in the financial preparation process. Entities shall not recognize the impact of events or transactions that provide evidence about conditions that did not exist at the balance sheet date but arose after that date. SFAS 165 also requires entities to disclose the date through which subsequent events have been evaluated. SFAS 165 was effective for interim and annual reporting periods ending after June 15, 2009. Peoples adopted the provisions of SFAS 165 for the quarter ended June 30, 2009, as required, and adoption did not have a material impact on Peoples' financial statements taken as a whole.

On April 9, 2009, the FASB issued three final Staff Positions intended to provide additional application guidance and enhance disclosures regarding fair value measurements and impairments of securities. FASB Staff Position No. FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* ("FSP 157-4"), provides guidelines for making fair value measurements more consistent with the principles presented in FASB SFAS No. 157, *Fair Value Measurements*, when the volume and level of activity for the asset or liability have decreased significantly. FASB Staff Position No. FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*, ("FSP 107-1") enhances consistency in financial reporting by increasing the frequency of fair value disclosures. FASB Staff Position No. FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*, ("FSP 115-2") provides additional guidance designed to create greater clarity and consistency in accounting for and presenting impairment losses on securities.

All three Staff Positions were effective for interim and annual periods ending after June 15, 2009. Entities were permitted to early adopt these Staff Positions for interim and annual periods ending after March 15, 2009, but had to adopt all three Staff Positions concurrently. Peoples adopted these Staff Positions for the quarterly period ending June 30, 2009, as required. As a result of adopting FSP 115-2, Peoples recorded a cumulative effect adjustment on April 1, 2009, which increased retained earnings by \$304,000, net of tax, for the noncredit portion of previously recorded impairment charges, with a corresponding reduction in accumulated comprehensive loss included in stockholders' equity on the Consolidated Balance Sheets. The adoption of FSP 157-4 and FSP 107-1 did not have any material impact on Peoples' financial statements taken as a whole.

On April 1, 2009, the FASB issued FASB Staff Position No. FAS 141(R)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies* ("FSP 141(R)-1"). FSP 141(R)-1 provides additional guidance regarding the recognition, measurement and disclosure of assets and liabilities arising from contingencies in a business combination. FSP 141(R)-1 is effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period

beginning on or after December 15, 2008. The impact of Peoples adopting FSP 141(R)-1 will depend on the timing of future acquisitions, as well as the nature and existence of contingencies associated with such acquisitions.

Note 2. Fair Value of Financial Instruments

The measurement of fair value under US GAAP uses a hierarchy intended to maximize the use of observable inputs and minimize the use of unobservable inputs. This hierarchy uses three levels of inputs to measure the fair value of assets and liabilities as follows:

Level 1: Quoted prices in active exchange markets for identical assets or liabilities; also includes certain U.S. Treasury and other U.S. government and agency securities actively traded in over-the-counter markets.

Level 2: Observable inputs other than Level 1 including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data; also includes derivative contracts whose value is determined using a pricing model with observable market inputs or can be derived principally from or corroborated by observable market data. This category generally includes certain U.S. government and agency securities, corporate debt securities, derivative instruments, and residential mortgage loans held for sale.

Level 3: Unobservable inputs supported by little or no market activity for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation; also includes observable inputs for single dealer nonbinding quotes not corroborated by observable market data. This category generally includes certain private equity investments, retained interests from securitizations, and certain collateralized debt obligations.

Assets measured at fair value on a recurring basis comprised the following at June 30, 2009:

	<u>Fair Value Measurements at Reporting Date Using</u>			
	<u>Fair Value</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>
<i>(Dollars in thousands)</i>				
Available-for-sale investment securities	\$ 693,772	\$ 3,427	\$ 687,482	\$ 2,863

The investment securities measured at fair value utilizing Level 1 and Level 2 inputs are obligations of the U.S. Treasury, agencies and corporations of the U.S. government, including mortgage-backed securities, bank eligible obligations of any state or political subdivision in the U.S., bank eligible corporate obligations, including private-label mortgage-backed securities and common stocks issued by various unrelated banking holding companies. The fair values used by Peoples are obtained from an independent pricing service and represent either quoted market prices for the identical securities (Level 1 inputs) or fair values determined by pricing models that consider observable market data, such as interest rate volatilities, LIBOR yield curve, credit spreads and prices from market makers and live trading systems.

The investment securities measured at fair value using Level 3 inputs are comprised of four collateralized debt obligations, with a total book value of \$4.7 million, and a single corporate obligation, with a book value of \$1.0 million, for which there is not an active market. Peoples uses multiple input factors to determine the fair value of these securities. Those input factors are discounted cash flow analysis, structure of the security in relation to current level of deferrals and/or defaults, changes in credit ratings, financial condition of the debtors within the underlying securities, broker quotes for securities with similar structure and credit risk, interest rate movements and pricing of new issuances.

The following is a reconciliation of activity for assets measured at fair value based on significant unobservable (non-market) information:

	<u>Investment Securities</u>
Balance, January 1, 2009	\$ 5,422
Unrealized loss included in comprehensive income	(3,026)
Adjustment to initially apply FASB FSP 115-2	467
Balance, June 30, 2009	\$ 2,863

Certain financial assets and financial liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). Financial assets measured at fair value on a non-recurring basis included the following:

Impaired Loans: Impaired loans are measured and reported at fair value in accordance with the provisions of FASB SFAS No. 114, *Accounting by Creditors for Impairment of a Loan*. Management's determination of the fair value for these loans represents the estimated net proceeds to be received from the sale of the collateral based on observable market prices and market value provided by independent, licensed or certified appraisers (Level 2 Inputs). At June 30, 2009, impaired loans with an aggregate outstanding principal balance of \$28.4 million were measured and reported at a fair value of \$26.3 million. During the three months and six months ended June 30, 2009, Peoples recognized losses on impaired loans of \$5.9 million and \$6.0 million, respectively, through the allowance for loan losses.

The following table presents the fair values of financial assets and liabilities carried on Peoples' consolidated balance sheet, including those financial assets and financial liabilities that are not measured and reported at fair value on a recurring basis or non-recurring basis:

<i>(Dollars in thousands)</i>	<u>June 30, 2009</u>		<u>December 31, 2008</u>	
	<u>Carrying Amount</u>	<u>Fair Value</u>	<u>Carrying Amount</u>	<u>Fair Value</u>
Financial assets:				
Cash and cash equivalents	\$ 75,471	\$ 75,471	\$ 35,598	\$ 35,598
Investment securities	718,128	718,128	708,753	708,753
Loans	1,074,795	1,077,551	1,081,101	1,088,322
Financial liabilities:				
Deposits	\$ 1,407,590	\$ 1,418,011	\$ 1,366,368	\$ 1,376,614
Short-term borrowings	48,464	48,464	98,852	98,852
Long-term borrowings	302,533	310,339	308,297	324,809
Junior subordinated notes held by subsidiary trust	22,513	25,998	22,495	26,009

The methodologies for estimating the fair value of financial assets and liabilities that are measured at fair value on a recurring or non-recurring basis are discussed above. For certain financial assets and liabilities, carrying value approximates fair value due to the nature of the financial instrument. These instruments include cash and cash equivalents, demand and other non-maturity deposits and overnight borrowings. Peoples used the following methods and assumptions in estimating the fair value of the following financial instruments:

Loans: The fair value of performing variable rate loans that reprice frequently and performing demand loans, with no significant change in credit risk, is based on carrying value. The fair value of fixed rate performing loans is estimated using discounted cash flow analyses and interest rates currently being offered for loans with similar terms to borrowers of similar credit quality.

The fair value of significant nonperforming loans is based on either the estimated fair value of underlying collateral or estimated cash flows, discounted at a rate commensurate with the risk. Assumptions regarding credit risk, cash flows, and discount rates are determined using available market information and specific borrower information.

Deposits: The fair value of fixed maturity certificates of deposit is estimated using a discounted cash flow calculation based on current rates offered for deposits of similar remaining maturities.

Short-term Borrowings: The fair value of term national market repurchase agreements is estimated using a discounted cash flow calculation based on rates currently available to Peoples for repurchase agreements with similar terms.

Long-term Borrowings: The fair value of long-term borrowings is estimated using discounted cash flow analysis based on rates currently available to Peoples for borrowings with similar terms.

Junior Subordinated Notes Held by Subsidiary Trust: The fair value of the junior subordinated notes held by subsidiary trust is estimated using discounted cash flow analysis based on current market rates of securities with similar risk and remaining maturity.

Bank premises and equipment, customer relationships, deposit base, banking center networks, and other information required to compute Peoples' aggregate fair value are not included in the above information. Accordingly, the above fair values are not intended to represent the aggregate fair value of Peoples.

Note 3. Investment Securities

The following table presents the amortized cost, gross unrealized gains and losses and fair value of securities available-for-sale:

<i>(Dollars in thousands)</i>	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
June 30, 2009				
Obligations of U.S. Treasury and government agencies	\$ 87	\$ –	\$ (1)	\$ 86
Obligations of U.S. government sponsored agencies	7,917	226	–	8,143
Obligations of states and political subdivisions	64,916	1,331	(294)	65,953
Residential mortgage-backed securities	501,569	14,371	(9,001)	506,939
Commercial mortgage-backed securities	35,732	162	(591)	35,303
U.S. government-backed student loan pools	52,655	3,572	(570)	55,657
Bank-issued trust preferred securities	20,744	165	(4,680)	16,229
Collateralized debt obligations	4,692	–	(2,829)	1,863
Equity securities	1,228	2,422	(51)	3,599
Total available-for-sale securities	\$ 689,540	\$ 22,249	\$ (18,017)	\$ 693,772
December 31, 2008				
Obligations of U.S. Treasury and government agencies	\$ 176	\$ 1	\$ (1)	\$ 176
Obligations of U.S. government sponsored agencies	8,160	282	–	8,442
Obligations of states and political subdivisions	67,830	1,356	(256)	68,930
Residential mortgage-backed securities	519,744	4,618	(13,161)	511,201
Commercial mortgage-backed securities	26,835	5	(889)	25,951
U.S. government-backed student loan pools	47,915	21	(2,951)	44,985
Bank-issued trust preferred securities	20,742	992	(3,846)	17,888
Collateralized debt obligations	4,225	198	–	4,423
Equity securities	1,228	1,581	(48)	2,761
Total available-for-sale securities	\$ 696,855	\$ 9,054	\$ (21,152)	\$ 684,757

At June 30, 2009, there were no securities of a single issuer, other than U.S. Treasury and government agencies and U.S. government sponsored agencies that exceeded 10% of stockholders' equity. Investment securities having a carrying value of \$619,094,000 and \$619,347,000 at June 30, 2009 and December 31, 2008, respectively, were pledged to secure public and trust department deposits and repurchase agreements in accordance with federal and state requirements.

The gross gains and gross losses realized by Peoples from sales of available-for-sale for the three and six months ended June 30 were as follows:

<i>(Dollars in thousands)</i>	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Gross gains realized	\$ 275	\$ 142	\$ 601	\$ 697
Gross losses realized	13	191	13	453
Net gain (loss) realized	\$ 262	\$ (49)	\$ 588	\$ 244

The cost of investment securities sold, and any resulting gain or loss, was based on the specific identification method and recognized as of the trade date.

The following table presents a summary of available-for-sale investment securities that had an unrealized loss:

<i>(Dollars in thousands)</i>	Less than 12 Months		12 Months or More		Total	
	Unrealized		Unrealized		Unrealized

The unrealized losses at both June 30, 2009 and December 31, 2008, were attributable to changes in market interest rates since the securities were purchased. Management systematically evaluates investment securities for other-than-temporary declines in fair value on a quarterly basis. This analysis requires management to consider various factors, which include (1) duration and magnitude of the decline in value, (2) the financial condition of the issuer or issuers, (3) structure of the security and (4) Peoples' intent to sell the security or whether its more likely than not that Peoples would be required to sell the security before its anticipated recovery in market value. At June 30, 2009, management performed its quarterly analysis of all securities with an unrealized loss and concluded no material individual securities were other-than-temporarily impaired.

The following table presents the amortized costs, fair value and weighted-average yield of securities by contractual maturity at June 30, 2009. The average yields are based on the amortized cost. In some cases, the issuers may have the

right to call or prepay obligations without call or prepayment penalties prior to the contractual maturity date. Rates are calculated on a fully tax-equivalent basis using a 35% Federal income tax rate.

<i>(Dollars in thousands)</i>	Within 1			Over 10

Peoples' other investment securities on the Consolidated Balance Sheets consist solely of restricted equity securities of the Federal Home Loan Bank ("FHLB") of Cincinnati and the Federal Reserve Bank of Cleveland. These securities are carried at cost since they do not have readily determinable fair values due to their restricted nature and Peoples does not exercise significant influence.

Note 4. Stockholders' Equity

The following table details the progression in shares of Peoples' preferred, common and treasury stock during the period presented:

	Preferred Stock	Common Stock	Treasury Stock
Shares at December 31, 2008	–	10,975,364	641,480
Issuance of preferred shares	39,000		
Changes related to stock-based compensation awards:			
Release of restricted common shares		2,125	
Purchase of treasury stock			8,583
Common shares issued under dividend reinvestment plan		31,426	
Shares at June 30, 2009	39,000	11,008,915	650,063

Under its Amended Articles of Incorporation, Peoples is authorized to issue up to 50,000 preferred shares, in one or more series, having such voting powers, designations, preferences, rights, qualifications, limitations and restrictions as

determined by the Board of Directors. On January 28, 2009, Peoples' Board of Directors created a series of preferred shares designated as Peoples' Fixed Rate Cumulative Perpetual Preferred Shares, Series A, each without par value and having a liquidation preference of \$1,000 per share, and fixed 39,000 shares as the authorized number of such shares (the "Series A Preferred Shares").

On January 30, 2009, Peoples issued and sold to the United States Department of the Treasury (the "U.S. Treasury") (i) 39,000 of Peoples' Series A Preferred Shares, and (ii) a ten-year warrant (the "Warrant") to purchase 313,505 Peoples common shares, at an exercise price of \$18.66 per share (subject to certain anti-dilution and other adjustments), for an aggregate purchase price of \$39 million in cash.

The Series A Preferred Shares accrue cumulative quarterly dividends at a rate of 5% per annum from January 30, 2009 to, but excluding February 15, 2014, and 9% per annum thereafter. These dividends will be paid only if, as and when declared by Peoples' Board of Directors. The Series A Preferred Shares have no maturity date and rank senior to the common shares with respect to the payment of dividends and distributions and amounts payable upon liquidation, dissolution and winding up of Peoples. Peoples has the option to redeem the Series A Preferred Shares at 100% of their liquidation preference plus accrued and unpaid dividends, subject to the approval of the Board of Governors of the Federal Reserve System and the Office of the Comptroller of Currency. The Series A Preferred Shares are generally non-voting.

The U.S. Treasury may not transfer a portion or portions of the Warrant with respect to, and/or exercise the Warrant for more than one-half of, the 313,505 common shares issuable upon exercise of the Warrant, in the aggregate, until the earlier of (i) the date on which Peoples has received aggregate gross proceeds of not less than \$39 million from one or more Qualified Equity Offerings and (ii) December 31, 2009. However, if Peoples were to redeem all of the Series A Preferred Shares as permitted by and in accordance with the provisions of the American Recovery and Reinvestment Act and the documents required to consummate the redemption, Peoples has the option to repurchase the Warrant from the U.S. Treasury. If Peoples declines to repurchase the Warrant, the U.S. Treasury will be permitted, subject to compliance with applicable securities laws, to transfer all or a portion of the Warrant with respect to, and/or exercise the Warrant for, all or a portion of the number of common shares issuable thereunder, at any time and without limitation. In the event Peoples completes one or more Qualified Equity Offerings on or prior to December 31, 2009, that result in Peoples receiving aggregate gross proceeds of not less than \$39 million, the number of the common shares underlying the portion of the Warrant then held by the U.S. Treasury will be reduced by one-half of the common shares originally covered by the Warrant. The U.S. Treasury has agreed not to exercise voting power with respect to any common shares issued to it upon exercise of the Warrant. Any common shares issued by Peoples upon exercise of the Warrant will be issued from common shares held in treasury to the extent available. If no treasury shares are available, common shares will be issued from authorized but unissued common shares. At June 30, 2009, there had been no changes to the number of common shares covered by the Warrant nor had the U.S. Treasury exercised any portion of the Warrant.

The proceeds received from the U.S. Treasury were allocated to the Series A Preferred Stock and the Warrant based on relative fair value. The fair value of the Series A Preferred Stock was determined through a discounted future cash flow model at a discount rate of 14%. The fair value of the Warrant was calculated using a binomial option pricing model, which includes assumptions regarding Peoples' dividend yield, stock price volatility, and the risk-free interest rate. The relative fair value of the Series A Preferred Stock and the Warrant on January 30, 2009, was \$38.5 million and \$0.5 million, respectively.

Peoples calculated a discount on the Series A Preferred Shares in the amount of \$0.5 million, which is being amortized over a 5-year period. The effective yield on the amortization of the Series A Preferred Stock is approximately 5.32%. In determining net income available to common shareholders, the periodic amortization and the cash dividend on the preferred stock are subtracted from net income. For the six months ended June 30, 2009, Peoples accrued dividends and recorded amortization on Series A Preferred Stock for \$812,000 and \$40,000, respectively.

Note 5. Comprehensive Income (Loss)

The following details the change in the components of Peoples' accumulated other comprehensive loss for the six months ended June 30, 2009:

<i>(Dollars in thousands)</i>	Unrealized (Loss) Gain on Securities	Unrecognized Net Pension and Postretirement Costs	Accumulated Comprehensive (Loss)
Balance, December 31, 2008	\$ (7,863)	\$ (4,425)	\$ (12,288)
Current period change, net of tax	10,917	55	10,972
Adjustment to initially apply FASB FSP 115-2	(304)	-	(304)
Balance, June 30, 2009	\$ 2,750	\$ (4,370)	\$ (1,620)

The components of other comprehensive income (loss) for the three and six months ended June 30 were as follows:

<i>(Dollars in thousands)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Net income	\$ 2,846	\$ 1,953	\$ 7,041	\$ 7,601
Other comprehensive income (loss):				
<u>Available-for-sale investment securities:</u>

Related tax (expense) benefit	(4,369)	3,245	(6,085)	2,624
Less: reclassification adjustment for net gain (loss) included in net income	262	(308)	588	(15)
Related tax (expense) benefit	(92)	108	(206)	5
Net effect on other comprehensive income (loss)	7,942	(5,826)	10,917	(4,863)
<u>Defined benefit plans:</u>				
Amortization of unrecognized loss and service cost on pension plan	52	-	84	-
Related tax expense	(18)	-	(29)	-
Net effect on other comprehensive income (loss)	34	-	55	-
Total other comprehensive income (loss), net of tax	7,976	(5,826)	10,972	(4,863)
Total comprehensive income (loss)	\$ 10,822	\$ (3,873)	\$ 18,013	\$ 2,738

Note 6. Employee Benefit Plans

Peoples sponsors a noncontributory defined benefit pension plan that covers substantially all employees. The plan provides retirement benefits based on an employee's years of service and compensation. In 2003, Peoples changed the methodology used to determine the retirement benefits for employees hired on or after January 1, 2003, which has lowered accumulated benefit obligation and net costs. Peoples also has a contributory postretirement benefit plan for former employees who were retired as of December 31, 1992. The plan provides health and life insurance benefits. Peoples' policy is to fund the cost of the benefits as they are incurred. The following table details the components of the net periodic benefit cost for the plans:

Pension Benefits:

<i>(Dollars in thousands)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Service cost	\$ 199	\$ 190	\$ 399	\$ 381
Interest cost	196	196	393	391
Expected return on plan assets	(299)	(301)	(597)	(601)
Amortization of prior service cost	1	1	2	2
Amortization of net loss	31	2	72	5
Net periodic benefit cost	\$ 128	\$ 88	\$ 269	\$ 178

Postretirement Benefits:

<i>(Dollars in thousands)</i>	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Interest cost	4	3	8	7
Amortization of prior service cost	–	–	(1)	(1)
Amortization of net gain	–	(1)	(1)	(2)
Net periodic benefit cost	\$ 4	\$ 2	\$ 6	\$ 4

Employer Contributions

Through June 30, 2009, Peoples contributed \$1.2 million to its pension plan upon the recommendation of and approval by the Board of Directors, which were designated for the 2008 plan year.

Note 7. Regulatory Capital

Peoples and Peoples Bank's actual capital amounts and ratios are presented in the following table:

<i>(Dollars in thousands)</i>	June 30, 2009		December 31, 2008

(1) Ratio represents total capital to net risk-weighted assets

(2) Ratio represents Tier 1 capital to net risk-weighted assets

(3) Ratio represents Tier 1 capital to average assets

Note 8. Stock-Based Compensation

Under the Peoples Bancorp Inc. Amended and Restated 2006 Equity Plan (the "2006 Equity Plan"), Peoples may grant, among other awards, nonqualified stock options, incentive stock options, restricted stock awards, stock appreciation rights or any combination thereof covering up to 500,000 common shares to employees and non-employee directors. Prior to 2007, Peoples granted nonqualified and incentive stock options to employees and nonqualified stock options to non-employee directors under the 2006 Equity Plan and predecessor plans. Since February 2007, Peoples has granted a combination of restricted common shares and stock appreciation rights ("SARs") to be settled in common shares to employees and restricted common shares to non-employee directors subject to the terms and conditions prescribed by the 2006 Equity Plan. During the six month period ending June 30, 2009, Peoples did not grant any stock-based compensation awards to employees and non-employee directors and no outstanding stock options or SARs were exercised.

In general, common shares issued in connection with stock-based awards are issued from treasury shares to the extent available. If no treasury shares are available, common shares are issued from authorized but unissued common shares.

Peoples recognized stock-based compensation expense, which is included as a component of Peoples' salaries and employee benefits costs, based on the estimated fair value of the awards on the grant date. The following summarizes the amount of stock-based compensation expense and related tax benefit recognized for the period ended June 30:

<i>(Dollars in thousands)</i>	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Total stock-based compensation	\$ 35	\$ 107	\$ 78	\$ 359
Recognized tax benefit	(12)	(37)	(27)	(126)
Net expense recognized	\$ 23	\$ 70	\$ 51	\$ 233

Total unrecognized stock-based compensation expense related to unvested awards was \$135,000 at June 30, 2009, which will be recognized over a weighted-average period of 1.2 years.

Note 9. Earnings Per Share

Basic earnings per common share are computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding. Diluted earnings per common share is computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding adjusted to include the effect of potentially dilutive common shares. Potentially dilutive common shares include incremental shares issuable upon exercise of outstanding stock options, SARs and non-vested restricted common shares using the treasury stock method. As disclosed in Note 4, Peoples had a warrant to purchase 313,505 common shares outstanding at June 30, 2009. This warrant was excluded from the calculation of diluted earnings per common share since it was anti-dilutive. The calculation of basic and diluted earnings per common share was as follows:

<i>(Dollars in thousands, except per share data)</i>	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Net income	\$ 2,846	\$ 1,953	\$ 7,041	\$ 7,601
Preferred dividends	511	-	852	-
Net income available to common shareholders	2,335	1,953	6,189	7,601
Weighted-average common shares outstanding	10,360,590	10,304,666	10,352,769	10,303,690
Effect of potentially dilutive common shares	16,515	47,469	11,852	44,030
Total weighted-average diluted common shares outstanding	10,377,105	10,352,135	10,364,621	10,347,720
Earnings per common share:				
Basic	\$ 0.23	\$ 0.19	\$ 0.60	\$ 0.74
Diluted	\$ 0.23	\$ 0.19	\$ 0.60	\$ 0.73

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

SELECTED FINANCIAL DATA

The following data should be read in conjunction with the Unaudited Consolidated Financial Statements and Management's Discussion and Analysis that follows:

	At or For the Three Months		At or For the Six Months	
	Ended June 30,		Ended June 30,	
	2009	2008	2009	2008
SIGNIFICANT RATIOS

Weighted-average common shares outstanding – Diluted	10,377,105	10,352,135	10,364,621	10,347,720
Common shares outstanding at end of period	10,358,852	10,304,597	10,358,852	10,304,597

- (a) Non-interest expense (less intangible asset amortization) as a percentage of fully tax-equivalent net interest income plus non-interest income (excluding gains or losses on investment securities and asset disposals).
- (b) Nonperforming loans include loans 90 days past due and accruing, renegotiated loans and nonaccrual loans. Nonperforming assets include nonperforming loans and other real estate owned.
- (c) Data presented as of the end of the period indicated.
- (d) Total assets less goodwill and other intangible assets of \$66,093 at June 30, 2009 and \$67,217 at June 30, 2008.
- (e) Total stockholders' equity less goodwill and other intangible assets of \$66,093 at June 30, 2009 and \$67,217 at June 30, 2008.
- (f) Tangible equity less preferred stock of \$38,494 at June 30, 2009 and \$0 at June 30, 2008.
- (g) Tangible equity divided by total common shares outstanding at end of period.

Forward-Looking Statements

Certain statements in this Form 10-Q which are not historical fact are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Words such as “anticipate”, “estimates”, “may”, “feels”, “expects”, “believes”, “plans”, “will”, “would”, “should”, “could” and similar expressions are intended to identify these forward-looking statements but are not the exclusive means of identifying such statements. Forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially. Factors that might cause such a difference include, but are not limited to:

- (1) continued deterioration in the credit quality of Peoples’ loan portfolio could occur due to a number of factors, such as adverse changes in economic conditions that impair the ability of borrowers to repay their loans, the underlying value of the collateral could prove less valuable than otherwise assumed and assumed cash flows may be less favorable than expected, which may adversely impact the provision for loan losses;
- (2) competitive pressures among financial institutions or from non-financial institutions, which may increase significantly;
- (3) changes in the interest rate environment, which may adversely impact interest margins;
- (4) changes in prepayment speeds, loan originations and charge-offs, which may be less favorable than expected and adversely impact the amount of interest income generated;
- (5) general economic conditions and weakening in the economy, specifically the real estate market, either national or in the states in which Peoples does business, which may be less favorable than expected and impact the ability to generate quality loans;
- (6) political developments, wars or other hostilities, which may disrupt or increase volatility in securities markets or other economic conditions;
- (7) legislative or regulatory changes or actions, which may adversely affect the business of Peoples;
- (8) adverse changes in the conditions and trends in the financial markets, which may adversely affect the fair value of securities within Peoples’ investment portfolio;
- (9) a delayed or incomplete resolution of regulatory issues that could arise;
- (10) Peoples’ ability to receive dividends from its subsidiaries;
- (11) the impact of larger or similar financial institutions encountering problems, which may adversely affect the banking industry and/or Peoples;
- (12) changes in accounting standards, policies, estimates or procedures, which may impact Peoples’ reported financial condition or results of operations;
- (13) Peoples’ ability to maintain required capital levels and adequate sources of funding and liquidity;
- (14) the impact of reputational risk created by these developments on such matters as business generation and retention, funding and liquidity;
- (15) the costs and effects of regulatory and legal developments, including the outcome of regulatory or other governmental inquiries and legal proceedings and results of regulatory examinations; and
- (16) other risk factors relating to the banking industry or Peoples as detailed from time to time in Peoples’ reports filed with the Securities and Exchange Commission (“SEC”), including those risk factors included in the disclosure under the heading “ITEM 1A. RISK FACTORS” of this Form 10-Q and Part I of Peoples’ 2008 Form 10-K.

All forward-looking statements speak only as of the execution date of this Form 10-Q and are expressly qualified in their entirety by the cautionary statements. Although management believes the expectations in these forward-looking statements are based on reasonable assumptions within the bounds of management’s knowledge of Peoples’ business and operations, it is possible that actual results may differ materially from these projections. Additionally, Peoples undertakes no obligation to update these forward-looking statements to reflect events or circumstances after the date of this Form 10-Q or to reflect the occurrence of unanticipated events except as may be required by applicable legal requirements. Copies of documents filed with the SEC are available free of charge at the SEC’s website at www.sec.gov and/or from Peoples Bancorp Inc.’s website – www.peoplesbancorp.com under the “Investor Relations” section.

This discussion and analysis should be read in conjunction with the audited Consolidated Financial Statements, and notes thereto, contained in Peoples’ 2008 Form 10-K, as well as the Unaudited Consolidated Financial Statements, ratios, statistics and discussions contained elsewhere in this Form 10-Q.

Business Overview

The following discussion and analysis of Peoples’ Unaudited Consolidated Financial Statements is presented to provide insight into management’s assessment of the financial condition and results of operations.

Peoples offers diversified financial products and services through 47 financial service locations and 39 ATMs in southeastern Ohio, northwestern West Virginia and northeastern Kentucky through its financial service units – Peoples

Bank, National Association (“Peoples Bank”), Peoples Financial Advisors (a division of Peoples Bank) and Peoples Insurance Agency, Inc, a subsidiary of Peoples Bank. Peoples Bank is a member of the Federal Reserve System and subject to regulation, supervision and examination by the Office of the Comptroller of the Currency.

Peoples’ products and services include traditional banking products, such as deposit accounts, lending products and trust services. Peoples also offers a complete array of insurance products and makes available custom-tailored fiduciary and wealth management services. Peoples provides services through traditional offices, ATMs and telephone and internet-based banking. Brokerage services are offered exclusively through an unaffiliated registered broker-dealer located at Peoples’ offices.

Critical Accounting Policies

The accounting and reporting policies of Peoples conform to US GAAP and to general practices within the financial services industry. The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could materially differ from those estimates. Management has identified the accounting policies that, due to the judgments, estimates and assumptions inherent in those policies, are critical to an understanding of Peoples’ Consolidated Financial Statements and Management’s Discussion and Analysis at June 30, 2009, which were unchanged from the policies disclosed in Peoples’ 2008 Form 10-K.

Fair Value Measurements

As a financial services company, the carrying value of certain financial assets and liabilities of Peoples is impacted by the application of fair value measurements, either directly or indirectly. Given the inherent volatility, the use of fair value measurements may have a significant impact on the carrying value of assets or liabilities, or result in material changes to the consolidated financial statements, from period to period. There were no material changes to the accounting practices and valuation methodologies employed by Peoples related to fair value measurements from those disclosed in Peoples’ 2008 Form 10-K.

Summary of Recent Transactions and Events

The following is a summary of recent transactions that have impacted or are expected to impact Peoples’ results of operations or financial condition:

- On May 22, 2009, the Board of Directors of the Federal Deposit Insurance Corporation (“FDIC”) adopted a final rule imposing a special assessment on all FDIC-insured depository institutions equal to five basis points on each institution’s assets, minus its Tier 1 capital, as of June 30, 2009. This special assessment will be collected on September 30, 2009. On February 27, 2009, the FDIC adopted a final rule that changed the way its assessment system differentiates risk and increased base assessment rates beginning April 1, 2009. Both of these actions were part of the FDIC’s efforts to rebuild the Deposit Insurance Fund, which has been reduced substantially by the higher rate of bank failures in 2008 and 2009 compared to recent years. As a result of the FDIC’s actions, Peoples recorded FDIC insurance expense of \$1.6 million for the second quarter of 2009, with \$930,000 (\$605,000 or \$0.06 per diluted common share after-tax) related to the special assessment, versus \$0.5 million for the first quarter of 2009.
- During the second quarter of 2009, Peoples Bank opened its first full-service office in Zanesville, Ohio and combined operations in Nelsonville, Ohio into a single facility. Peoples Bank also closed its Rutland, Ohio and Lower Salem, Ohio banking offices and consolidated those offices into existing nearby offices effective June 30, 2009. These actions were consistent with management’s ongoing strategic focus of improving operating efficiencies by directing resources to areas with greater business development potential.
- As described in “ITEM 1. BUSINESS-Recent Corporate Developments” of Peoples’ 2008 Form 10-K, on January 30, 2009, Peoples received \$39 million of new equity capital from the U.S. Treasury’s TARP Capital Purchase Program. The investment was in the form of newly-issued non-voting Fixed Rate Cumulative Perpetual Preferred Shares, Series A (the “Series A Preferred Shares”) and a related 10-year warrant sold by Peoples to the U.S. Treasury (the “TARP Capital Investment”).
- Between August 2007 and December 2008, the Federal Reserve’s Open Market Committee reduced the target Federal Funds rate 500 basis points and the Discount Rate 575 basis points. These actions caused a corresponding downward shift in short-term interest rates, while longer-term rates have not decreased to the same extent. This

steepening of the yield curve has provided Peoples with opportunities to improve net interest income and margin by taking advantage of lower-cost funding available in the market place and reducing certain deposit costs.

- Since early 2008, Peoples' loan quality has been impacted by contraction within the commercial real estate market and economy as a whole, which has caused declines in commercial real estate values and deterioration in financial condition of various commercial borrowers. These conditions led to Peoples downgrading the loan quality ratings on various commercial real estate loans through its normal loan review process. In addition, several impaired loans became under-collateralized due to reductions in the estimated net realizable fair value of the underlying collateral. As a result, Peoples' provision for loan losses, net charge-offs and nonperforming loans in recent quarters have been higher than historical levels.
- During 2008, Peoples systematically sold the preferred stocks issued by the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corporation ("Freddie Mac") held in its investment portfolio, due to the uncertainty surrounding these entities. These securities had a total recorded value of \$12.1 million at December 31, 2007. In July 2008, Peoples sold its remaining Fannie Mae preferred stocks, which completely eliminated all equity holdings in Fannie Mae and Freddie Mac. As a result of the sales, Peoples recognized total pre-tax losses of \$199,000 and \$450,000 in the first and second quarters of 2008, respectively.
- Also during 2008 and continuing in the first half of 2009, Peoples sold selected lower yielding, longer-term investment securities, primarily obligations of U.S. government-sponsored enterprises, U.S. agency mortgage-backed securities and tax-exempt municipal bonds, as well as several small-lot mortgage-backed securities. The proceeds from these sales were reinvested into similar securities with less price risk volatility. These actions were intended to reposition the investment portfolio to reduce interest rate exposures and resulted in Peoples recognizing pre-tax gains of \$262,000 and \$588,000 for the three and six months ended June 30, 2009, respectively, versus \$142,000 and \$500,000 for the same periods in 2008, respectively.
- During the fourth quarter of 2008, Peoples Bank sold its merchant credit card payment processing services to First Data Merchant Services Corporation ("First Data"). Peoples Bank continues to serve the credit card processing needs of its commercial customers through a referral program with First Data.

The impact of these transactions, where material, is discussed in the applicable sections of this Management's Discussion and Analysis.

EXECUTIVE SUMMARY

In the second quarter 2009, both net income available to common shareholders and diluted earnings per common share were lower than first quarter of 2009 (or "linked quarter"), due mostly to higher FDIC insurance expense. Other significant contributing factors included a modest increase in provision for loan losses and a full quarter's impact of preferred dividends related to the TARP Capital Investment. Compared to the prior year, second quarter 2009 net income available to shareholders was up 20%, while diluted earnings per common share increased 21%. Stronger net interest income and higher mortgage banking income were key drivers of these increases, while increased non-interest expense was mostly offset by a lower provision for loan losses. On a year-to-date basis, net income available to common shareholders was \$6.2 million through June 30, 2009 versus \$7.6 million a year ago, while diluted earnings per common share were \$0.60 and \$0.73, respectively. The combination of higher FDIC insurance expense and preferred dividends accounted for much of these decreases, as increased net interest income and non-interest income more than offset a modest increase in provision for loan losses and other non-interest expenses.

Peoples recorded a provision for loan losses of \$4.7 million in the second quarter of 2009, compared to \$4.1 million in the first quarter of 2009 and \$6.8 million in the second quarter of 2008. These provisions reflect the amounts needed to maintain the adequacy of the allowance for loan losses based on management's formal quarterly analysis. The higher provision for loan losses in the second quarter of 2008 was largely attributable to a single \$12.6 million commercial real estate loan becoming impaired during the quarter.

In the second quarter of 2009, net interest income totaled \$15.4 million, consistent with the linked quarter and up 4% over the second quarter of 2008. Interest income was lower in the second quarter of 2009 compared to the linked quarter and second quarter of 2008, due mostly to a reduction in loan yields from refinancing activity and downward repricing of variable rate loans, coupled with a higher level of nonaccrual loans. Second quarter 2009 interest expense benefited from opportunities to reduce overall funding costs provided by maturing deposits and long-term borrowings and lower short-term interest market rates in response to the Federal Reserve's actions. In the second quarter of 2009, net interest margin compressed slightly from Peoples continuing to maintain a higher volume of short-term assets, consisting of excess cash reserves held at the Federal Reserve Bank.

Non-interest income, which excludes gains and losses on securities and asset disposals, remained strong in the first quarter of 2009, as a seasonal decline in insurance income was offset by increases in other non-interest revenues. Compared to the second quarter of 2008, non-interest income increased 5%, due largely to the higher mortgage banking income. On a year-to-date basis, higher mortgage banking revenue and increased deposit account service charges were mostly offset by reductions in trust and investment revenues and bank owned life insurance income, resulting in a modest 2% increase in total non-interest income.

Second quarter 2009 non-interest expense was impacted by higher FDIC insurance expense, while other operating costs were consistent with first quarter 2009 levels. Year-over-year growth in total non-interest expense occurred for both the three and six months ended June 30, 2009, due mostly to the additional FDIC insurance expense. Other significant contributing factors included increased employee benefit costs and higher loan-related expenses, primarily external legal and valuation services associated with problem loans.

During the second quarter of 2009, total assets decreased \$16.7 million, to \$2.04 billion at June 30, 2009, as excess cash reserves held at the Federal Reserve Bank were used to reduce non-core deposits and borrowed funds. Total assets were \$36.9 million higher than year-end 2008, as substantial year-to-date deposit growth has produced a higher level of cash and cash equivalents. Gross portfolio loan balances decreased \$6.7 million in the second quarter and \$9.9 million through the first six months of 2009, to \$1.09 billion at June 30, 2009. These declines were primarily a result of residential real estate loan production being sold to the secondary market. At June 30, 2009, total investment securities, although comparable to prior quarter-end, were up \$9.4 million since December 31, 2008, due to an increase in fair value of the portfolio that more than offset the impact of maturities, calls and pay downs.

Total liabilities were \$1.80 billion at June 30, 2009, down \$24.8 million compared to March 31, 2009 and down \$14.9 million compared to December 31, 2008. Total deposit balances decreased \$14.0 million during the second quarter to \$1.41 billion at quarter-end, due largely to a planned reduction in non-core deposits. As a result, retail balances were down \$34.9 million in the second quarter of 2009. However, retail deposits remained \$39.5 million higher than year-end 2008, due to strong growth in low-cost and non-interest-bearing retail deposits through six months of 2009. Total borrowed funds were \$373.5 million at June 30, 2009, versus \$385.5 million at March 31, 2009, with repayment of long-term borrowings accounting for nearly all of the decrease. In the first half of 2009, the combination of retail deposit growth and funds generated from the TARP Capital Investment enabled Peoples to reduce total borrowed funds \$56.1 million, or 13%. The reduction in borrowings included the elimination of overnight wholesale borrowings, which totaled \$44.4 million at December 31, 2008.

Total stockholders' equity increased \$8.1 million and \$51.8 million for the three and six months ended June 30, 2009, respectively. The key driver of the linked quarter increase was a \$7.9 million increase in fair value of Peoples' available-for-sale investment portfolio, net of deferred tax. The TARP Capital Investment accounted for most of the year-to-date growth, while the fair value of the available-for-sale investment portfolio increased \$10.9 million, net of deferred tax, further contributing to higher stockholders' equity at June 30, 2009.

RESULTS OF OPERATIONS

Net Interest Income

Net interest income, the amount by which interest income exceeds interest expense, remains Peoples' largest source of revenue. The amount of net interest income earned by Peoples each quarter is affected by various factors, including changes in market interest rates due to the Federal Reserve Board's monetary policy, the level and degree of pricing competition for both loans and deposits in Peoples' markets, and the amount and composition of Peoples' earning assets and interest-bearing liabilities.

The following table details Peoples' average balance sheets for the periods presented:

<i>(Dollars in thousands)</i>	For the Three Months Ended								
	June 30, 2009			March 31, 2009			June 30, 2008		
	Average Balance	Income/Expense	Yield/Rate	Average Balance	Income/Expense	Yield/Rate	Average Balance	Income/Expense	Yield/Rate

(1) Average balances are based on carrying value.

(2) Interest income and yields are presented on a fully tax-equivalent basis using a 35% Federal statutory tax rate.

- (3) Nonaccrual and impaired loans are included in the average loan balances. Related interest income earned on nonaccrual loans prior to the loan being placed on nonaccrual is included in loan interest income. Loan fees included in interest income were immaterial for all periods presented.
- (4) Loans held for sale are included in the average loan balance listed. Related interest income on loans originated for sale prior to the loan being sold is included in loan interest income.

Net interest margin, which is calculated by dividing fully tax-equivalent (“FTE”) net interest income by average interest-earning assets, serves as an important measurement of the net revenue stream generated by the volume, mix and pricing of earning assets and interest-bearing liabilities. FTE net interest income is calculated by increasing interest income to convert tax-exempt income earned on obligations of states and political subdivisions to the pre-tax equivalent of taxable income using a 35% Federal statutory tax rate. The following table details the calculation of FTE net interest income:

	Three Months Ended			Six Months Ended	
	June 30, 2009	March 31, 2009	June 30, 2008	June 30, 2009	June 30, 2008
<i>(Dollars in thousands)</i>					
Net interest income, as reported	\$ 15,430	\$ 15,527	\$ 14,874	\$ 30,957	\$ 29,160
Taxable equivalent adjustments	410	424	414	835	836
Fully tax-equivalent net interest income	\$ 15,840	\$ 15,951	\$ 15,288	\$ 31,792	\$ 29,996

The following table provides an analysis of the changes in FTE net interest income:

<i>(Dollars in thousands)</i>	Three Months Ended June 30, 2009 Compared to						Six Months Ended

- (1) The change in interest due to both rate and volume has been allocated to rate and volume changes in proportion to the relationship of the dollar amounts of the change in each.
- (2) Presented on a fully tax-equivalent basis.

Peoples continued to maintain a higher volume of short-term assets in the second quarter compared to recent periods, due to limited opportunities for attractive long-term asset investments. These assets, which consist of excess cash reserves held at the Federal Reserve Bank, caused some net interest margin compression on a linked quarter basis.

Throughout 2008, Peoples increased its holdings of investment securities in order to maintain interest income levels, which resulted in a higher average balance of investment securities in the first half of 2009. The FTE yield on investment securities has benefited from the active management and repositioning of the investment portfolio during 2008 and the first half of 2009, which has negated much of the downward pressure from lower short-term interest rates.

Average loan balances continue to be impacted by a reduction in residential real estate loans from loans sold to the secondary market. Average commercial loan balances were slightly higher than the prior quarter average but remain lower than 2008 levels due mostly to charge-offs over the last twelve months. The year-over-year decrease in average commercial loan balances has been mostly offset by higher average consumer loans, which have experienced steady growth. Loan yields also declined from increased refinancing and downward repricing of variable rate loans in response to the Federal Reserve's actions to reduce short-term market interest rates.

A key component of management's funding strategy has been to grow core retail deposit balances, primarily low-cost and non-interest-bearing deposits, to reduce the amount of, and reliance on, wholesale funding sources that typically carry higher market rates of interest. In addition, management has been adjusting the mix of wholesale funding by repaying higher-costing funds using other lower-cost borrowings and short-term assets. These efforts, coupled with lower short-term interest rates, produced a lower overall cost of funds in the first half of 2009.

Detailed information regarding changes in the Consolidated Balance Sheets can be found under appropriate captions of the "FINANCIAL CONDITION" section of this discussion. Additional information regarding Peoples' interest rate risk and the potential impact of interest rate changes on Peoples' results of operations and financial condition can be found later in this discussion under the caption "Interest Rate Sensitivity and Liquidity".

Provision for Loan Losses

The following table details Peoples' provision for loan losses:

	Three Months Ended			Six Months Ended	
	June 30, 2009	March 31, 2009	June 30, 2008	June 30, 2009	June 30, 2008
<i>(Dollars in thousands)</i>					
Provision for checking account overdrafts	\$ 234	\$ 63	\$ 160	\$ 297	\$ 197
Provision for other loan losses	4,500	4,000	6,605	8,500	8,005
Total provision for loan losses	\$ 4,734	\$ 4,063	\$ 6,765	\$ 8,797	\$ 8,202
As a percentage of average gross loans	0.43%	0.37%	0.61%	0.79%	0.74%

These provisions for loan losses reflect amounts needed to maintain the adequacy of the allowance for loan losses based on management's formal quarterly analysis of the loan portfolio and procedural methodology that estimates the amount of probable credit losses. This process considers various factors that affect losses, such as changes in Peoples' loan quality, historical loss experience and current economic conditions.

Additional information regarding changes in the allowance for loan losses and loan credit quality can be found later in this discussion under the caption "Allowance for Loan Losses".

Non-Interest Income

Deposit account service charges represented the largest source of second quarter non-interest income. The following table details Peoples' deposit account service charges:

	Three Months Ended			Six Months Ended	
	June 30, 2009	March 31, 2009	June 30, 2008	June 30, 2009	June 30, 2008
<i>(Dollars in thousands)</i>					
Overdraft fees	\$ 2,029	\$ 1,694	\$ 1,704	\$ 3,722	\$ 3,208
Non-sufficient funds fees	369	316	436	686	838
Other fees and charges	218	389	235	607	624
Total deposit account service charges	\$ 2,616	\$ 2,399	\$ 2,375	\$ 5,015	\$ 4,670

The amount of deposit account service charges, particularly overdraft and non-sufficient funds fees, is largely dependent on the timing and volume of customer activity. As a result, the amount ultimately recognized by Peoples can fluctuate each quarter. Peoples experiences some seasonal changes in overdraft and non-sufficient funds fees, primarily in the first and fourth quarters, attributable to income tax refunds and the holiday shopping season, respectively.

Insurance income continues to comprise a significant portion of Peoples' non-interest income. The following table details Peoples' insurance income:

	Three Months Ended			Six Months Ended	
	June 30, 2009	March 31, 2009	June 30, 2008	June 30, 2009	June 30, 2008
<i>(Dollars in thousands)</i>					
Property and casualty insurance commissions	\$ 2,131	\$ 1,737	\$ 1,995	\$ 3,868	\$ 3,912
Life and health insurance commissions	173	181	163	354	308
Credit life and A&H insurance commissions	39	23	51	62	84
Performance based commissions	47	768	16	815	851
Other fees and charges	15	36	71	51	108
Total insurance income	\$ 2,405	\$ 2,745	\$ 2,296	\$ 5,150	\$ 5,263

Second quarter 2009 property and casualty insurance commissions were higher than the first quarter of 2009, largely reflecting the seasonality of normal annual policy renewals. The year-over-year increase in second quarter property and casualty insurance commissions was the result of increased sales productions that more than offset the effects of a contracting economy on commercial insurance needs and lower pricing margins caused by competition within the insurance industry. The bulk of the performance based commission income is received annually by Peoples during the first quarter and is based on a combination of factors, including loss experience of insurance policies sold, production volumes and overall financial performance of the insurance industry during the preceding year.

The following tables detail Peoples' trust and investment income and related assets under management:

	Three Months Ended			Six Months Ended	
	June 30, 2009	March 31, 2009	June 30, 2008	June 30, 2009	June 30, 2008
<i>(Dollars in thousands)</i>					
Fiduciary	\$ 989	\$ 846	\$ 1,162	\$ 1,835	\$ 2,149
Brokerage	248	212	241	460	500
Total trust and investment income	\$ 1,237	\$ 1,058	\$ 1,403	\$ 2,295	\$ 2,649

	June 30, 2009	March 31, 2009	December 31, 2008	June 30, 2008
	<i>(Dollars in thousands)</i>			
Trust assets under management	\$ 692,823	\$ 664,784	\$ 685,705	\$ 770,714
Brokerage assets under management	183,968	169,268	184,301	216,930
Total managed assets	\$ 876,791	\$ 834,052	\$ 870,006	\$ 987,644

Peoples' fiduciary and brokerage revenues both are based in part on the value of assets under management. The increase in managed assets values during the second quarter of 2009 primarily reflects the modest recovery experienced within the financial markets. However, asset values remain below prior-year levels due to the downturn experienced in the second half of 2008 and first quarter of 2009.

Mortgage banking income remained higher than historical levels in the second quarter of 2009, due mostly to customers taking advantage of opportunities offered by the secondary market to refinance existing loans. Compared to the first quarter of 2009, residential mortgage refinancing activity moderated, as long-term mortgage rates rose slightly during the second quarter. Through six months of 2009, Peoples' secondary market loan production has been stronger than the same period in 2008, with over \$65 million of residential real estate loans sold to the secondary market, compared to \$21 million during the same period in 2008.

Electronic banking income is comprised mostly of revenue generated from customers using debit cards. During the second quarter of 2009, Peoples' customers used their debit cards to complete \$71 million of transactions versus \$68 million in the first quarter of 2009 and \$70 million in the second quarter of 2008. On a year-to-date basis, debit card transactions totaled \$139 million through June 30, 2009, up 4% over the \$133 million completed in the first half of 2008. At June 30, 2009, Peoples had 41,149 deposit relationships with debit cards, or 58% of all eligible deposit accounts, compared to 39,279 relationships, or 57% of eligible accounts, at year-end 2008 and 40,761 relationships, or 59% of eligible accounts at June 30, 2008.

Non-Interest Expense

Salaries and employee benefit costs remain Peoples' largest non-interest expense, accounting for approximately 50% of total non-interest expense. The following table details Peoples' salaries and employee benefit costs:

<i>(Dollars in thousands)</i>	Three Months Ended			Six Months Ended	
	June 30, 2009	March 31, 2009	June 30, 2008	June 30, 2009	June 30, 2008
Base salaries and wages	\$ 5,106	\$ 5,061	\$ 5,062	\$ 10,167	\$ 10,086
Sales-based and incentive compensation	1,066	922	823	1,988	2,046
Employee benefits	1,216	1,240	1,024	2,456	2,021
Stock-based compensation	35	43	107	78	359
Deferred personnel costs	(439)	(339)	(609)	(778)	(1,130)
Payroll taxes and other employment costs	515	597	499	1,112	1,084
Total salaries and employee benefit costs	\$ 7,499	\$ 7,524	\$ 6,906	\$ 15,023	\$ 14,466

Full-time equivalent employees:

Actual at end of period	548	547	554	548	554
Average during the period	545	546	556	545	556

Second quarter 2009 base salaries and wages remained comparable to prior periods, largely attributable to Peoples limiting management salary increases in 2009. Sales-based and incentive compensation increased on a linked quarter basis due mostly to higher insurance sales, while the year-over-year increase for the three months ended June 30, 2009, was largely attributable to accruals associated with Peoples' annual incentive award plan, which is tied, in part, to corporate results. Employee benefit costs, although slightly lower than the first quarter of 2009, remained higher than the prior year periods from the continued increases in employee medical benefit costs, coupled with modestly higher pension expense.

Stock-based compensation is generally recognized over the vesting period, typically ranging from 6 months to 3 years, although Peoples must immediately recognize the entire expense for awards to employees who are eligible for retirement at the grant date. The majority of Peoples' stock-based compensation expense is attributable to annual equity-based incentive awards to employees, which are awarded in the first quarter and based upon the company achieving certain performance goals during the prior year. Through June 30, 2009, Peoples did not grant any equity-based awards to employees and non-employee directors. As a result, the stock-based compensation expense recognized through six months of 2009 was attributable to equity-based awards granted in prior years. In comparison, stock-based compensation for the first six months of 2008 included \$127,000 of additional expense for annual incentive awards made in February 2008 to employees who were eligible for retirement on the grant date.

Deferred personnel costs represent the portion of current period salaries and employee benefit costs considered direct loan origination costs. These costs are recognized over the life of the loan through interest income as a yield adjustment. During 2009, slower commercial loan originations as a result of recessionary economic conditions have resulted in lower deferred costs compared to the same periods in 2008.

Second quarter 2009 FDIC insurance expense was higher than prior periods, due largely to the impact of the special assessment imposed on all banks. The remainder of the linked quarter increase was attributed to higher base assessment rates, while second quarter 2008 FDIC insurance expense was reduced by the utilization of a one-time credit received in 2007. This credit was fully consumed in the fourth quarter of 2008. For the final two quarters of 2009, management expects the base amount of Peoples' quarterly FDIC insurance expense to be approximately \$0.7 million per quarter. The FDIC has indicated the possibility of imposing additional special assessments on all insured institutions similar to the one levied in the second quarter of 2009. Such special assessments, if imposed, could materially increase the total FDIC insurance expense recognized.

Peoples' net occupancy and equipment expense was comprised of the following:

<i>(Dollars in thousands)</i>	Three Months Ended			Six Months Ended	
	June 30, 2009	March 31, 2009	June 30, 2008	June 30, 2009	June 30, 2008
Depreciation	\$ 534	\$ 516	\$ 550	\$ 1,050	\$ 1,076
Repairs and maintenance costs	390	390	360	780	732
Net rent expense	194	200	157	394	332
Property taxes, utilities and other costs	378	366	332	744	685
Total net occupancy and equipment expense	\$ 1,496	\$ 1,472	\$ 1,399	\$ 2,968	\$ 2,825

Professional fees expense for the three and six months ended June 30, 2009 were substantially higher than amounts for the same periods in 2008, due mainly to increased utilization of external legal services attributable to higher levels of under performing loans. Contributing to the year-to-date increase were legal and consulting fees incurred in the first quarter of 2009 associated with the TARP Capital Investment and preparation of proxy materials for the Special Meeting of Shareholders and Annual Meeting of Shareholders.

Electronic banking expense decreased in the second quarter of 2009, compared to both the prior quarter and second quarter of 2008. A major driver of these declines was a reduction in bankcard processing costs, due to a one-time discount from Peoples changing its card network membership. Electronic banking expense increased 12% on a year-to-date basis, due to a combination of a higher level of losses from fraudulent bankcard activity and costs associated with Peoples' internet banking services.

Income Tax Expense

For the six months ended June 30, 2009, Peoples' effective tax rate was 23.0%, which represents management's current estimate for the full year 2009 and a decrease from 26.0% through six months of 2008. The lower pre-tax income in the first half of 2009 versus a year ago was the key driver of the reduction in Peoples' effective tax rate.

FINANCIAL CONDITION

Cash and Cash Equivalents

Total cash and cash equivalents decreased \$21.9 million in the second quarter of 2009, to \$75.5 million at June 30, 2009. The decrease was the result of a planned reduction in non-core deposit balances and repayment of wholesale borrowings using short-term assets. In the first half of 2009, Peoples held excess cash reserves at the Federal Reserve Bank rather than Federal Funds sold due to more favorable current short-term interest rates. These excess reserves, included in interest-bearing deposits in other banks on the Consolidated Balance Sheets, totaled \$39.5 million and \$45.0 million at June 30 and March 31, 2009, respectively. No excess reserves were maintained in prior periods.

Through six months of 2009, total cash and cash equivalents increased \$39.9 million. Peoples' financing activities provided net cash of \$19.0 million, as management used \$80.2 million of funds generated from net deposit growth and the TARP Capital Investment to reduce short-term borrowings by \$50.4 million. Cash flow from investing activities totaled \$10.1 million, comprised of proceeds from sales, maturities, calls and principal payments on investment securities that exceeded purchases of new investment securities during the quarter, while operating activities generated net cash of \$10.7 million for the six months ended June 30, 2009.

In comparison, cash and cash equivalents increased \$1.3 million during the first six months of 2008. Financing activities provided \$19.0 million and operating activities provided net cash of \$17.9 million, of which \$35.5 million was used in investing activities. Cash from financing activities was due mostly to additional long-term borrowings, as net deposit growth of \$94.6 million allowed Peoples to reduce short-term borrowings by \$93.2 million. Purchases of new investment securities during the six months ended June 30, 2008, exceeded the cash flows from sales, maturities, calls and principal payments during the same period and accounted for most of the cash used in investing activities.

Further information regarding the management of Peoples' liquidity position can be found later in this discussion under "Interest Rate Sensitivity and Liquidity."

Investment Securities

The following table details Peoples' available-for-sale investment portfolio, at fair value:

<i>(Dollars in thousands)</i>	June 30, 2009	March 31, 2009	December 31, 2008	June 30, 2008
Available-for-sale investment securities, at fair value:				
Obligations of U.S. Treasury and government agencies	\$ 86	\$ 171	\$ 176	\$ 191
Obligations of U.S. government sponsored agencies	8,143	8,339	8,442	34,815
Obligations of states and political subdivisions	65,953	70,092	68,930	65,389
Residential mortgage-backed securities	506,939	499,210	507,666	411,852
Commercial mortgage-backed securities	35,303	30,037	25,952	9,558
U.S. government-backed student loan pools	55,657	53,887	48,520	20,650
Bank-issued trust preferred securities	16,229	15,206	17,888	22,232
Collateralized debt obligations	1,863	2,810	4,422	8,035
Equity securities	3,599	2,064	2,761	3,485
Total available-for-sale investment securities	\$ 693,772	\$ 681,816	\$ 684,757	\$ 576,207
Total amortized cost	\$ 689,540	\$ 689,337	\$ 696,855	\$ 577,436
Net unrealized gain (loss)	\$ 4,232	\$ (7,521)	\$ (12,098)	\$ (1,229)

Overall, the size and composition of the investment portfolio remained fairly consistent with year-end 2008. However, throughout 2008, management grew the investment portfolio to manage interest income and liquidity levels in response to lower loan balances caused by commercial loan payoffs and charge-offs, and significant deposit growth. Management also took action to reduce credit and interest rate exposures in Peoples' investment portfolio, which accounted for much of the change in the investment portfolio composition since June 30, 2008.

A significant portion of Peoples' residential and commercial mortgage-backed securities are comprised of securities either guaranteed by the U.S. government or issued by U.S. government-sponsored agencies, such as Fannie Mae and Freddie Mac. The remaining portion of Peoples' mortgage-backed securities consists of securities issued by other entities, including other financial institutions, which are not guaranteed by the U.S. government. The amount of these "non-agency" securities included in the residential and commercial mortgage-backed securities totals above were as follows:

<i>(Dollars in thousands)</i>	June 30, 2009	March 31, 2009	December 31, 2008	June 30, 2008
Residential	\$ 178,545	\$ 196,452	\$ 192,133	\$ 123,512
Commercial	35,303	30,037	25,952	9,558
Total fair value	\$ 213,848	\$ 226,489	\$ 218,085	\$ 133,070
Total amortized cost	\$ 220,535	\$ 237,007	\$ 231,153	\$ 138,596
Net unrealized loss	\$ (6,687)	\$ (10,518)	\$ (13,068)	\$ (5,526)

The non-agency portfolio consists entirely of first lien residential and commercial mortgages and all securities are rated AAA or equivalent by Moody's, Standard & Poor's or Fitch. Approximately 96% of the portfolio was 2003 or earlier originations and 99% of the portfolio consists of underlying fixed-rate mortgages.

Over the last twelve months, the fair value of the available-for-sale investment portfolio has fluctuated as the result of conditions in the financial markets. Management performed its quarterly evaluation of all investment securities with an unrealized loss at June 30, 2009, and concluded no material individual securities were other-than-temporarily impaired.

Loans

The following table details total outstanding loans:

<i>(Dollars in thousands)</i>	June 30, 2009	March 31, 2009	December 31, 2008	June 30, 2008
Loan balances:				
Commercial, mortgage	\$ 504,826	\$ 498,395	\$ 478,298	\$ 499,043
Commercial, other	173,136	174,660	178,834	186,346
Real estate, mortgage	216,280	224,843	231,778	234,870
Real estate, construction	54,446	62,887	77,917	53,170
Home equity lines of credit	48,301	47,454	47,635	44,595
Consumer	95,161	90,741	87,902	83,605
Deposit account overdrafts	2,016	1,930	1,668	3,223
Total loans	\$ 1,094,166	\$ 1,100,910	\$ 1,104,032	\$ 1,104,852
Percent of loans to total loans:				
Commercial, mortgage	46.1%	45.3%	43.3%	45.2%
Commercial, other	15.8%	15.9%	16.2%	16.9%
Real estate, mortgage	19.8%	20.4%	21.0%	21.3%
Real estate, construction	5.0%	5.7%	7.1%	4.8%
Home equity lines of credit	4.4%	4.3%	4.3%	4.0%
Consumer	8.7%	8.2%	7.9%	7.5%
Deposit account overdrafts	0.2%	0.2%	0.2%	0.3%
Total percentage	100.0%	100.0%	100.0%	100.0%

During the second quarter of 2009, new loan production was slightly higher than a year ago, although total loan balances continue to be impacted by write-downs on impaired loans and declines in residential real estate loans as more loans were sold to the secondary market. Depressed conditions in the commercial real estate market and general economy continued to impact commercial lending activity. Much of the increase in commercial real estate loan balances during the first half of 2009 was attributable to construction loans being converted to permanent mortgage financing upon the completion of construction projects.

Peoples also experienced additional consumer loan growth during the second quarter of 2009, due mainly to the efforts in its indirect lending area. Residential real estate loan balances continue to be impacted by customer demand for long-term, fixed-rate mortgages, which Peoples generally sells to the secondary market with the servicing rights retained. Peoples' serviced real estate loan portfolio totaled \$213.3 million at June 30, 2009, compared to \$199.6 million at March 31, 2009 and \$181.4 million at year-end 2008.

Loan Concentration

Peoples' largest industrial concentration of loans consists of credits to borrowers in the lodging and lodging related industry, with total outstanding balances of \$66.4 million at June 30, 2009 and \$60.5 million at December 31, 2008. Loans to borrowers in the assisted living facilities and nursing home industry also represent a significant portion of Peoples' commercial real estate loans. Total outstanding balances of these loans were \$53.9 million at June 30, 2009 and \$54.9 million at December 31, 2008. These credits were subjected to Peoples' normal commercial underwriting standards, which include an evaluation of the financial strength, industry expertise and experience of the borrowers and principals in these business relationships.

Peoples' commercial lending activities continue to focus on lending opportunities inside its primary market areas, with loans outside Peoples' primary market areas comprising approximately 10% of total outstanding loan balances, at both June 30, 2009 and December 31, 2008. The majority of those out-of-market loans are located in Ohio, West Virginia and Kentucky, with total outstanding balances of \$84.5 million and \$76.6 million at June 30, 2009 and year-end 2008, respectively. In all other states, the aggregate outstanding balance in the state was less than \$5 million, except Arizona and Florida, which had outstanding balances of \$7.4 million and \$7.1 million, respectively, at June 30, 2009. The Arizona and Florida loans were generated primarily through existing central Ohio-based client relationships.

Allowance for Loan Losses

The amount of the allowance for loan losses for the various loan types represents management's estimate of expected losses from existing loans. These estimates are based upon the formal quarterly analysis of the loan portfolio. While allocations are made to specific loans and pools of loans, the allowance is available for all loan losses. The following details the allocation of the allowance for loan losses:

<i>(Dollars in thousands)</i>	June 30, 2009	March 31, 2009	December 31, 2008	June 30, 2008
Commercial	\$ 20,087	\$ 20,913	\$ 19,757	\$ 12,415
Real estate	1,281	1,428	1,414	1,339
Consumer	1,465	1,389	1,315	1,229
Overdrafts	318	346	445	246
Total allowance for loan losses	\$ 23,151	\$ 24,076	\$ 22,931	\$ 15,229
As a percentage of total loans	2.12%	2.19%	2.08%	1.38%

The significant allocation of the allowance to commercial loans reflects the higher credit risk associated with this type of lending and the size of this loan category in relationship to the entire loan portfolio. The elevated level of charge-offs in recent quarters, coupled with the continued distressed economic conditions, were major drivers of the higher commercial loan allocation since June 30, 2008. The allowance allocated to the real estate and consumer loan categories is based upon Peoples' allowance methodology for homogeneous pools of loans. The fluctuations in these allocations have been directionally consistent with the changes in loan quality, loss experience and changes in loan balances in each category.

The following table presents changes in Peoples' allowance for loan losses:

<i>(Dollars in thousands)</i>	Three Months Ended			Six Months Ended	
	June 30, 2009	March 31, 2009	June 30, 2008	June 30, 2009	June 30, 2008
Allowance for loan losses:					
Allowance for loan losses, beginning of period	\$ 24,076	\$ 22,931	\$ 15,953	\$ 22,931	\$ 15,718
Gross charge-offs:					
Commercial	5,892	2,549	6,989	8,441	8,007
Real estate	355	234	316	590	494
Consumer	410	214	212	623	445
Overdrafts	329	301	203	630	412
Total gross charge-offs	6,986	3,298	7,720	10,284	9,358
Recoveries:					
Commercial	1,015	81	89	1,096	245
Real estate	84	48	22	132	40
Consumer	160	112	65	273	205
Overdrafts	68	139	55	206	177
Total recoveries	1,327	380	231	1,707	667
Net charge-offs:					
Commercial	4,877	2,468	6,900	7,345	7,762
Real estate	271	186	294	458	454
Consumer	250	102	147	350	240
Overdrafts	261	162	148	424	235
Total net charge-offs	5,659	2,918	7,489	8,577	8,691
Provision for loan losses	4,734	4,063	6,765	8,797	8,202
Allowance for loan losses, end of period	\$ 23,151	\$ 24,076	\$ 15,229	\$ 23,151	\$ 15,229
Ratio of net charge-offs to average loans:					
Commercial	1.77%	0.90%	2.49%	1.34%	1.40%
Real estate	0.10%	0.07%	0.11%	0.08%	0.08%
Consumer	0.09%	0.04%	0.05%	0.06%	0.05%
Overdrafts	0.09%	0.06%	0.05%	0.08%	0.04%
Total ratio of net charge-offs to average loans	2.05%	1.07%	2.70%	1.56%	1.57%

Second quarter 2009 gross charge-offs were impacted by losses totaling approximately \$3.4 million on four relationships, the majority of which were specifically reserved for in prior quarters through the allowance for loan losses.

In addition, costs associated with the workout of three impaired commercial relationships resulted in charge-offs of \$2.0 million from the loans being written down to the estimated net realizable value of the collateral. These losses were partially offset by a \$1.0 million recovery on a single impaired commercial relationship. In comparison, second quarter 2008 charge-offs included a \$6.4 million charge-down of a single \$12.6 million impaired commercial real estate loan identified during the quarter.

The combination of increased unemployment and depressed commercial real estate values in certain markets continue to adversely affect Peoples' asset quality, as reflected by a modest 5% increase in nonperforming assets in the second quarter of 2009. However, total nonperforming assets were lower than prior-year end. The following table details Peoples' nonperforming assets:

<i>(Dollars in thousands)</i>	June 30, 2009	March 31, 2009	December 31, 2008	June 30, 2008
Loans 90+ days past due and accruing	\$ 242	\$ 41	\$ –	\$ 290
Nonaccrual loans	40,460	38,535	41,320	20,910
Total nonperforming loans	40,702	38,576	41,320	21,200
Other real estate owned	163	265	525	411
Total nonperforming assets	\$ 40,865	\$ 38,841	\$ 41,845	\$ 21,611
Nonperforming loans as a percent of total loans	3.72%	3.50%	3.74%	1.92%
Nonperforming assets as a percent of total assets	2.00%	1.89%	2.09%	1.13%
Allowance for loan losses as a percent of nonperforming loans	56.9%	62.4%	55.5%	71.8%

Peoples' nonaccrual loans continue to be comprised almost entirely of commercial real estate loans, primarily non-owner occupied commercial properties and real estate development projects. During the second quarter of 2009, Peoples placed commercial real estate loans to four unrelated borrowers on nonaccrual status, with loan balances totaling \$6.8 million at June 30, 2009. These loans are all secured by non-owner occupied commercial properties, with \$4.5 million located in Ohio and the remaining \$2.3 million located in Arizona. This increase in nonaccrual loans in the second quarter of 2009 was tempered by charge-downs and payments on other nonaccrual loans during the quarter. Several of the nonperforming loans have been charged down to the estimated net realizable fair value of the underlying collateral, resulting in a lower allowance for loan losses to nonperforming loans ratios compared to historical levels.

Certain nonaccrual loans are not considered impaired and evaluated individually by Peoples. These loans consist primarily of smaller balance homogenous consumer and residential real estate loans that are collectively evaluated for impairment. These loans totaled \$1.5 million at June 30, 2009, \$1.8 million at December 31, 2008, and \$2.1 million at June 30, 2008. The following tables summarize loans classified as impaired:

<i>(Dollars in thousands)</i>	June 30, 2009	March 31, 2009	December 31, 2008	June 30, 2008
Impaired loans with an allocated allowance for loan losses	\$ 6,714	\$ 10,518	\$ 11,504	\$ 10,867
Impaired loans with no allocated allowance for loan losses	32,579	28,166	28,146	11,383
Total impaired loans	\$ 39,293	\$ 38,684	\$ 39,650	\$ 22,250
Allowance for loan losses allocated to impaired loans	\$ 2,600	\$ 4,365	\$ 4,340	\$ 1,591

<i>(Dollars in thousands)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Average investment in impaired loans	\$ 38,988	\$ 20,938	\$ 39,209	\$ 18,262
Interest income recognized on impaired loans	\$ 2	\$ 227	\$ 19	\$ 317

Peoples has not allocated a portion of the allowance for loan losses to certain impaired loans because those loans either have been written-down previously to the amount expected to be collected or possess characteristics indicative of Peoples' ability to collect the remaining outstanding principal from the sale of collateral and/or enforcement of guarantees by the principals.

Overall, management believes the allowance for loan losses was adequate at June 30, 2009, based on all significant information currently available. Still, there can be no assurance that the allowance for loan losses will be adequate to cover future losses or that the amount of nonperforming loans will remain at current levels, especially considering the current economic uncertainty that exists and the concentration of commercial loans in Peoples' loan portfolio.

Deposits

The following table details Peoples' deposit balances:

<i>(Dollars in thousands)</i>	June 30, 2009	March 31, 2009	December 31, 2008	June 30, 2008
Retail certificates of deposit	\$ 596,713	\$ 637,125	\$ 626,195	\$ 557,406
Money market deposit accounts	228,963	227,840	213,498	172,048
Interest-bearing demand accounts	206,866	214,922	187,100	202,063
Savings accounts	129,614	125,985	115,419	116,485
Total retail interest-bearing deposits	1,162,156	1,205,872	1,142,212	1,048,002
Brokered certificates of deposits	45,862	24,965	44,116	39,781
Total interest-bearing deposits	1,208,018	1,230,837	1,186,328	1,087,783
Non-interest-bearing deposits	199,572	190,754	180,040	193,265
Total deposit balances	\$ 1,407,590	\$ 1,421,591	\$ 1,366,368	\$ 1,281,048

During 2008, Peoples attracted nearly \$108 million of retail certificates of deposits ("CDs") from customers outside Peoples' primary market areas, as an alternative to brokered deposits and other high-cost wholesale funding. Considering the continued growth in low-cost and non-interest-bearing core deposits, management decided to reduce the amount of these higher-cost, non-core deposits during the second quarter of 2009. This action accounted for \$31.3 million of the \$40.4 million decrease in retail CDs since March 31, 2009. Savings and money market balances experienced additional growth in the second quarter of 2009, largely attributable to customer preference. Non-interest-bearing deposits increased 5% during the second quarter and 11% on a year-to-date basis, primarily reflecting higher commercial balances.

Growth in retail deposit balances during the first quarter of 2009 allowed Peoples to reduce brokered deposits. However, in the second quarter of 2009, management issued additional brokered deposits to extend duration at favorable long-term interest rates. Management may utilize brokered deposits in the future instead of other wholesale funding sources, especially those sources that require Peoples to pledge assets as collateral, depending on funding needs.

Borrowed Funds

The following details Peoples' short-term and long-term borrowings:

<i>(Dollars in thousands)</i>	June 30, 2009	March 31, 2009	December 31, 2008	June 30, 2008
Short-term borrowings:				
FHLB advances	\$ -	\$ -	\$ 30,000	\$ 102,500
Retail repurchase agreements	48,464	50,027	54,452	26,870
Other short-term borrowings	-	-	14,400	-
Total short-term borrowings	48,464	50,027	98,852	129,370
Long-term borrowings:				
FHLB advances	142,533	152,932	148,297	103,885
National market repurchase agreements	160,000	160,000	160,000	150,000
Total long-term borrowings	302,533	312,932	308,297	253,885
Subordinated notes held by subsidiary trust	22,513	22,504	22,495	22,478
Total borrowed funds	\$ 373,510	\$ 385,463	\$ 429,644	\$ 405,733

In the first half of 2009, funds generated from retail deposit growth and the TARP Capital Investment allowed Peoples to reduce wholesale borrowings, including the elimination of overnight wholesale borrowings, which totaled \$44.4 million at December 31, 2008. The amount of retail repurchase agreements has increased since June 30, 2008, due primarily to a single commercial customer moving funds from money market deposits to an overnight repurchase agreement late in the third quarter of 2008, while management's interest rate management strategies have resulted in a higher level of long-term borrowings compared to June 30, 2008. The level and composition of borrowed funds may change in future quarters, as management will continue to use a combination of short-term and long-term borrowings to manage the interest rate risk of the balance sheet.

Capital/Stockholders' Equity

During the second quarter of 2009, Peoples declared a cash dividend of \$0.23 per common share, consistent with recent quarters. Peoples' ability to maintain its current dividend rate reflects actions taken to preserve the strong capital positions of Peoples and Peoples Bank, which remained substantially above amounts needed to be considered well-capitalized by banking regulations. Through six months of 2009, Peoples' dividend payout ratio was 77.6% versus 61.5% for the first six months of 2008, due to lower earnings in the first half of 2009.

Peoples' ability to increase its quarterly common dividend in future periods, from its current rate of \$0.23 per share, is restricted as the result of participating in the TARP Capital Purchase Program. In addition, Peoples' ability to pay dividends, even when sufficient cash is available, is subject to the restrictions and limitations disclosed in Peoples' 2008 Form 10-K.

At June 30, 2009, Peoples' tangible capital ratio, defined as tangible equity as a percentage of tangible assets, was 8.74%, versus 8.24% at March 31, 2009 and 6.21% at year-end 2008, while tangible common equity to tangible assets was 6.78%, 6.31% and 6.21%, respectively. The higher tangible capital ratio since year-end 2008 reflects the impact of the TARP Capital Investment, while the increase in both ratios during the second quarter of 2009 was largely attributed to the increase in equity from improvement in fair value of investment securities. In addition, the regulatory capital ratios for both Peoples and Peoples Bank improved from already healthy levels, due to the TARP Capital Investment, and remain well above the minimum ratios required by banking regulations to be considered well-capitalized institutions.

Interest Rate Sensitivity and Liquidity

While Peoples is exposed to various business risks, the risks relating to interest rate sensitivity and liquidity are major risks that can materially impact future results of operations and financial condition due to their complexity and dynamic nature. The objective of Peoples' asset/liability management ("ALM") function is to measure and manage these risks in order to optimize net interest income within the constraints of prudent capital adequacy, liquidity and safety. This objective requires Peoples to focus on interest rate risk exposure and adequate liquidity through its management of the mix of assets and liabilities, their related cash flows and the rates earned and paid on those assets and liabilities. Ultimately, the ALM function is intended to guide management in the acquisition and disposition of earning assets and selection of appropriate funding sources.

Interest Rate Risk

Interest rate risk ("IRR") is one of the most significant risks arising in the normal course of business of financial services companies like Peoples. IRR is the potential for economic loss due to future interest rate changes that can impact both the earnings stream as well as market values of financial assets and liabilities. Peoples' exposure to IRR is due primarily to differences in the maturity or repricing of earning assets and interest-bearing liabilities. In addition, other factors, such as prepayments of loans and investment securities or early withdrawal of deposits, can expose Peoples to IRR and increase interest costs or reduce revenue streams.

Peoples has assigned overall management of IRR to its Asset-Liability Committee (the "ALCO"), which has established an IRR management policy that sets minimum requirements and guidelines for monitoring and managing the level and amount of IRR. There have been no material changes to the policies or methods used by the ALCO to assess IRR from those disclosed in Peoples' 2008 Form 10-K.

The following table illustrates the estimated impact of an immediate and sustained change in interest rates (dollars in thousands):

Increase in Interest Rate (in Basis Points)	Estimated Increase (Decrease) in Net Interest Income				Estimated Increase (Decrease) in Economic Value of Equity			
	June 30, 2009		December 31, 2008		June 30, 2009		December 31, 2008	
300	\$ 3,388	5.5 %	\$ (1,713)	(2.9)%	\$ 10,257	3.7 %	\$ (5,386)	(2.4)%
200	1,666	2.7 %	(418)	(0.7)%	9,292	3.3 %	(1,048)	(0.5)%
100	391	0.6 %	84	0.1 %	6,040	2.2 %	2,946	1.3 %

This table uses a standard, parallel shock analysis for assessing the IRR to net interest income and the economic value of equity. A parallel shock means all points on the yield curve (one year, two year, three year, etc.) are directionally shocked the same amount of basis points (100 basis points equal to 1%). While management regularly assesses the impact of both increasing and decreasing interest rates, the table above only reflects the impact of upward shocks due the fact a downward parallel shock of 100 basis points or more is not possible given that some short-term rates are currently less than 1%. Although a parallel shock table can give insight into the current direction and

magnitude of IRR inherent in the balance sheet, interest rates do not always move in a complete parallel manner during interest rate cycles. These nonparallel movements in interest rates, commonly called yield curve steepening or flattening movements, tend to occur during the beginning and end of an interest rate cycle. As a result, management conducts more advanced interest rate shock scenarios to gain a better understanding of Peoples' exposure to nonparallel rate shifts.

During the second quarter of 2009, management maintained the asset sensitive position of the balance sheet that existed in the first quarter of 2009. The short duration of the investment portfolio held constant as management selectively extended maturities on the liability side of the balance sheet by issuing brokered CDs with maturities of five years or longer. The ALCO will continue to monitor Peoples' overall IRR position and take appropriate actions, when necessary, to preserve the current balance sheet risk position and minimize the impact of changes in interest rates on future earnings.

Liquidity

In addition to IRR management, a major objective of the ALCO is to maintain a sufficient level of liquidity. The ALCO defines liquidity as the ability to meet anticipated and unanticipated operating cash needs, loan demand and deposit withdrawals, without incurring a sustained negative impact on profitability. The ALCO's liquidity management policy sets limits on the net liquidity position and the concentration of non-core funding sources, both wholesale funding and brokered deposits.

Typically, the main source of liquidity for Peoples is deposit growth. Liquidity is also provided by cash generated from earning assets such as maturities, calls, principal payments and interest income from loans and investment securities. Peoples also uses various wholesale funding sources to supplement funding from customer deposits. These external sources also provide Peoples with the ability to obtain large quantities of funds in a relatively short time period in the event of unanticipated cash needs.

At June 30, 2009, Peoples had available borrowing capacity through its wholesale funding sources and unpledged investment securities totaling approximately \$158 million that can be used to satisfy liquidity needs, up from \$124 million at year-end 2008. This liquidity position excludes the \$39 million excess cash reserves being held at the Federal Reserve Bank and the impact of Peoples' ability to obtain additional funding by either offering higher rates on retail deposits or issuing additional brokered deposits. Management believes the current balance of cash and cash equivalents and anticipated cash flows from the investment portfolio, along with the availability of other funding sources, will allow Peoples to meet anticipated cash obligations, as well as special needs and off-balance sheet commitments.

Off-Balance Sheet Activities and Contractual Obligations

Peoples routinely engages in activities that involve, to varying degrees, elements of risk that are not reflected in whole or in part in the Consolidated Financial Statements. These activities are part of Peoples' normal course of business and include traditional off-balance sheet credit-related financial instruments, interest rate contracts and commitments to make additional capital contributions in low-income housing tax credit investments. Traditional off-balance sheet credit-related financial instruments continue to represent the most significant off-balance sheet exposure. The following table details the total contractual amount of loan commitments and standby letters of credit:

<i>(Dollars in thousands)</i>	June 30, 2009	March 31, 2009	December 31, 2008	June 30, 2008
Home equity lines of credit	\$ 42,046	\$ 42,282	\$ 40,909	\$ 40,332
Unadvanced construction loans	25,412	33,049	49,615	74,672
Other loan commitments	98,532	101,565	110,670	138,485
Loan commitments	165,990	176,896	201,194	253,489
Standby letters of credit	\$ 46,762	\$ 46,758	\$ 46,788	\$ 45,526

Management does not anticipate Peoples' current off-balance sheet activities will have a material impact on future results of operations and financial condition based on historical experience and recent trends.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information called for by this Item 3 is provided under the caption "Interest Rate Sensitivity and Liquidity" under "ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL

CONDITION” in this Form 10-Q, and is incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Peoples’ management, with the participation of Peoples’ President and Chief Executive Officer and Peoples’ Executive Vice President, Chief Financial Officer and Treasurer, has evaluated the effectiveness of Peoples’ disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) (the “Exchange Act”) as of June 30, 2009. Based upon that evaluation, Peoples’ President and Chief Executive Officer and Peoples’ Executive Vice President, Chief Financial Officer and Treasurer have concluded that:

- (a) information required to be disclosed by Peoples in this Quarterly Report on Form 10-Q and other reports Peoples files or submits under the Exchange Act would be accumulated and communicated to Peoples’ management, including its President and Chief Executive Officer and its Executive Vice President, Chief Financial Officer and Treasurer, as appropriate to allow timely decisions regarding required disclosure;
- (b) information required to be disclosed by Peoples in this Quarterly Report on Form 10-Q and other reports Peoples files or submits under the Exchange Act would be recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms; and
- (c) Peoples’ disclosure controls and procedures were effective as of the end of the fiscal quarter covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control Over Financial Reporting

There were no changes in Peoples’ internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during Peoples’ fiscal quarter ended June 30, 2009, that have materially affected, or are reasonably likely to materially affect, Peoples’ internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In the ordinary course of their respective businesses or operations, Peoples or one of its subsidiaries may be named as a plaintiff, a defendant, or a party to a legal proceeding or any of their respective properties may be subject to various pending and threatened legal proceedings and various actual and potential claims. In view of the inherent difficulty of predicting the outcome of such matters, Peoples cannot state what the eventual outcome of any such matters will be; however, based on current knowledge and after consultation with legal counsel, management believes that these proceedings will not have a material adverse effect on the consolidated financial position, results of operations or liquidity of Peoples.

ITEM 1A. RISK FACTORS

In addition to the risk factors previously disclosed in “ITEM 1A. RISK FACTORS” of Part I of Peoples’ 2008 Form 10-K, Peoples has identified the risk factor below as one that could materially affect Peoples’ business, financial condition or future operating results. These risk factors are not the only risks Peoples faces. Additional risks and uncertainties not currently known to management or that management currently deems to be immaterial also may materially adversely affect Peoples’ business, financial condition and/or operating results.

Increases in FDIC Insurance Premiums May Have a Material Adverse Affect on Peoples’ Earnings.

During 2008 and continuing in 2009, higher levels of bank failures have dramatically increased resolution costs of the Federal Deposit Insurance Corporation (“FDIC”) and depleted the Deposit Insurance Fund. In addition, the FDIC instituted two temporary programs in 2008 to further insure customer deposits at FDIC-member banks through December 31, 2009: deposit accounts are now insured up to \$250,000 per customer (up from \$100,000) and non-interest bearing transactional accounts are fully insured (unlimited coverage). These programs have placed additional stress on the Deposit Insurance Fund. On May 20, 2009, the FDIC extended the \$250,000 per customer insurance limit through December 31, 2013. On January 1, 2014, the standard insurance amount will return to \$100,000 per depositor for all accounts except for certain retirement accounts which will remain insured up to \$250,000 per depositor.

In order to maintain a strong funding position and restore reserve ratios of the Deposit Insurance Fund, the FDIC increased assessment rates of insured institutions uniformly by 7 cents for every \$100 of deposits beginning with the first quarter of 2009, with additional changes beginning April 1, 2009, which require riskier institutions to pay a larger share of premiums by factoring in rate adjustments based on secured liabilities and unsecured debt levels.

On May 22, 2009, the FDIC Board of Directors adopted a final rule that imposed a special assessment on all insured depository institutions, which will be collected on September 30, 2009. The final rule also permits the FDIC to impose additional special assessments after June 30, 2009, if necessary to maintain public confidence in federal deposit insurance. The latest possible date for imposing additional special assessments under the final rule would be December 31, 2009, with collection on March 30, 2010.

Peoples is generally unable to control the amount of premiums that it is required to pay for FDIC insurance. If there are additional bank or financial institution failures, Peoples may be required to pay even higher FDIC premiums than the recently increased levels. These announced increases and any future increases in FDIC insurance premiums may materially adversely affect Peoples’ results of operations, financial condition and ability to continue to pay dividends on its common shares at the current rate or at all.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table details repurchases by Peoples and purchases by “affiliated purchasers” as defined in Rule 10b-18(a)(3) of the Securities Exchange Act of 1934, as amended, of Peoples’ common shares during the three months ended June 30, 2009:

Period	(a) Total Number of Common Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Common Shares Purchased as Part of Publicly Announced Plans or Programs (1)	(d) Maximum Number of Common Shares that May Yet Be Purchased Under the Plans or Programs (1)
April 1 – 30, 2009	4,086 ⁽²⁾	\$ 14.46 ⁽²⁾	–	–
May 1 – 31, 2009	572 ⁽²⁾	\$ 15.71 ⁽²⁾	–	–
June 1 – 30, 2009	1,064 ⁽²⁾	\$ 15.77 ⁽²⁾	–	–
Total	5,722	\$ 14.83	–	–

⁽¹⁾ Peoples' Board of Directors has not authorized any stock repurchase plans or programs for 2009, due in part to the restrictions on stock repurchases imposed by the terms of the TARP Capital Investment.

⁽²⁾ Information reflects solely common shares purchased in open market transactions by Peoples Bank under the Rabbi Trust Agreement establishing a rabbi trust holding assets to provide funds for the payment of the benefits under the Peoples Bancorp Inc. Second Amended and Restated Deferred Compensation Plan for Directors of Peoples Bancorp Inc. and Subsidiaries.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

ITEM 5. OTHER INFORMATION

Peoples is a participant in the Capital Purchase Program (the "CPP"). The CPP is a component program of the Troubled Assets Relief Program (the "TARP") established by the United States Department of the Treasury (the "Treasury") pursuant to the Emergency Economic Stabilization Act of 2008 (the "EESA"). The EESA required that Peoples establish and comply with certain compensation standards applicable to its Senior Executive Officers (as defined in the Securities Purchase Agreement – Standard Terms attached to the Letter Agreement, dated January 30, 2009, between Peoples and the Treasury). Each of Mark F. Bradley, Peoples' President and Chief Executive Officer; Edward G. Sloane, Peoples' Executive Vice President, Chief Financial Officer and Treasurer; Deborah K. Hill, Peoples' Executive Vice President, Consumer and Business Financial Services; Carol A. Schneeberger, Peoples' Executive Vice President, Operations; David T. Wesel, Peoples' Executive Vice President, Investment and Insurance Services; and Joseph S. Yazombek, Peoples' Executive Vice President, Chief Lending Officer -- Peoples' Senior Executive Officers as well as its executive officers -- entered into a letter agreement under dates during the period from January 22, 2009 through January 25, 2009, which became effective with the January 30, 2009 closing of the transactions pursuant to which Peoples became a participant in the CPP (the "Prior SEO Agreements"). The Prior SEO Agreements were included as Exhibits 10.2(a), 10.2(b), 10.2(c), 10.2(d), 10.2(e) and 10.2(f) to Peoples' Current Report on Form 8-K dated and filed on February 2, 2009.

The American Recovery and Reinvestment Act of 2009 (the "ARRA") amended and replaced the executive compensation standards contained in the EESA in their entirety and directed the Secretary of the Treasury to establish additional executive compensation and corporate governance standards applicable to TARP recipients, including Peoples, and makes these standards applicable to both Senior Executive Officers and certain Most Highly-Compensated Employees (as defined in the Interim Final Rule (defined below)). On June 15, 2009, the Secretary of the Treasury established these standards by promulgating an Interim Final Rule under 31 C.F.R. Part 30 (the "Interim Final Rule"). The EESA executive compensation standards, as amended and replaced by the ARRA, and the Interim Final Rule are collectively referred to as the "TARP Compensation Standards."

Each of Mark F. Bradley, Edward G. Sloane, Deborah K. Hill, Carol A. Schneeberger, David T. Wesel and Joseph S. Yazombek has entered into a Letter Agreement, dated July 22, 2009 (each, a "New SEO Agreement") with Peoples evidencing his or her intent to comply with the TARP Compensation Standards. Each New SEO Agreement supersedes and replaces the Prior SEO Agreement between the relevant individual and Peoples.

If during any fiscal year of Peoples that is a TARP Period (as defined below), an individual party to a New SEO Agreement is among Peoples' five Most Highly-Compensated Employees (as determined under the TARP Compensation Standards), the aggregate amount to which such individual is entitled under Peoples' annual and/or long-term incentive plans or, if less, one-third of the individual's Annual Compensation (as defined in the TARP Compensation Standards), for such fiscal year will be granted in the form of Long-Term Restricted Stock (as defined in the TARP Compensation Standards) granted pursuant to Peoples' Amended and Restated 2006 Equity Plan (the "Plan"), subject to the terms of the Plan. Any Long-Term Restricted Stock granted in accordance with the terms of a New SEO Agreement will be subject to the applicable TARP Compensation Standards, valued in accordance with the TARP Compensation Standards and subject to such other terms and conditions as Peoples may impose as set forth in the associated award agreement that are not inconsistent with the TARP Compensation Standards.

Nothing in the New SEO Agreements is intended to be construed as prohibiting Peoples from making any Bonus Payment (as defined in the TARP Compensation Standards) to the extent not inconsistent with the TARP Compensation Standards.

Each New SEO Agreement will remain in effect for the period during which any obligation arising from financial assistance received by Peoples under the TARP remains outstanding, except any period during which the Treasury only holds warrants to purchase Peoples common shares (the "TARP Period").

The New SEO Agreements are included as Exhibits 10.1, 10.2, 10.3, 10.4, 10.5 and 10.6 to this Quarterly Report on Form 10-Q and are incorporated herein by this reference. The foregoing summary of the New SEO Agreements is qualified in its entirety by reference thereto.

ITEM 6. EXHIBITS

The exhibits required to be filed with this Form 10-Q are attached hereto or incorporated herein by reference. For a list of such exhibits, see "Exhibit Index" beginning at page 40.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

CERTIFICATIONS

I, Mark F. Bradley, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2009, of Peoples Bancorp Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO SECTION 1350
OF CHAPTER 63 OF TITLE 18 OF THE UNITED STATES CODE***

In connection with the Quarterly Report of Peoples Bancorp Inc. (“Peoples Bancorp”) on Form 10-Q for the quarterly period ended June 30, 2009, as filed with the Securities and Exchange Commission on the date hereof (the “Report”), I, Mark F. Bradley, President and Chief Executive Officer of Peoples Bancorp, and I, Edward G. Sloane, Executive Vice President, Chief Financial Officer and Treasurer of Peoples Bancorp, certify, pursuant to Section 1350 of Chapter 63 of Title 18 of the United States Code, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and
- (2) The information contained in the Report fairly presents, in all material respects, the consolidated financial condition and results of operations of Peoples Bancorp and its subsidiaries.
