Policy on Audit Committee Pre-Approval of Audit and Non-Audit Services of Independent Auditor

In accordance with the requirements of SOA, FPL Group Audit Committee's pre-approval policy for services performed by the independent auditor, and the Charter of the Audit Committee, effective May 1, 2003, all services performed by Deloitte & Touche LLP are approved in advance by the Audit Committee. Audit and audit-related services specifically identified in an appendix to the pre-approval policy are pre-approved by the Audit Committee each year. This pre-approval allows management to request the specified audit and audit-related services on an as-needed basis during the year, provided any such services are reviewed with the Audit Committee at its next regularly scheduled meeting. Any audit or audit-related service for which the fee is expected to exceed \$250,000, or that involves a service not listed on the pre-approval list, must be specifically approved by the Audit Committee prior to commencement of such work. In addition, the Audit Committee approves all services other than audit and audit-related services performed by Deloitte & Touche LLP in advance of the commencement of such work or, in cases which meet the de minimus exception in SOA, prior to completion of the audit. The Audit Committee has delegated to the chairman of the committee the right to approve audit, audit-related, tax and other services, within certain limitations, between meetings of the Audit Committee, provided any such decision is presented to the Audit Committee at its next regularly scheduled meeting. The Audit Committee reviews on a quarterly basis a schedule of all services for which Deloitte & Touche LLP has been engaged and the estimated fees for those services. In fiscal year 2003, no fees paid to Deloitte & Touche LLP under the categories Audit-Related, Tax and All Other Fees described above were approved by the Audit Committee after services were rendered pursuant to the de minimus exception established by the SOA.

The Audit Committee has determined that the non-audit services provided by Deloitte & Touche during 2003 and 2002 were compatible with maintaining that firm's independence.

The performance share awards in the preceding table are, under normal circumstances, payable at the end of the performance period indicated. The amount of the payout is determined by multiplying the participant's target number of shares by his average level of attainment, expressed as a percentage, which may not exceed 160%, of his targeted awards under the Annual Incentive Plans for each of the years encompassed by the award period. Under those plans, annual incentive compensation is based on the attainment of net income goals for FPL and FPL Group, which are established by the Compensation Committee of FPL Group's Board of Directors (the Committee) at the beginning of the year, and adjusted for specified items including any changes in accounting principles, any changes in the mark-to-market value of non-qualifying hedges, and certain charges or gains (adjusted net income). The amounts earned on the basis of this performance measure are subject to reduction based on the degree of achievement of other corporate and business unit performance measures, and at the discretion of the Committee. Mr. Hay's annual incentive compensation for 2003 was based on the achievement of FPL Group's adjusted net income goals, and the following performance measures for FPL (weighted 75%) and the non-utility and/or new businesses (weighted 25%) and upon certain qualitative factors. For FPL, the incentive performance measures were financial indicators (weighted 50%) and operating indicators (weighted 50%). The financial indicators were operations and maintenance costs, capital expenditure levels, adjusted net income, regulatory return on equity and operating cash flow. The operating indicators were service reliability as measured by the frequency and duration of service interruptions and service unavailability; system performance as measured by availability factors for the fossil power plants and an industry index for the nuclear power plants; employee safety; number of significant environmental violations; customer satisfaction survey results; load management installed capability; and conservation programs' annual installed capacity. For the non-utility and/or new businesses, the performance measures included total combined return on equity; non-utility adjusted net income and return on equity; corporate and other net income; employee safety; number of significant environmental violations; project-level and corporate budget targets; and level of hedged margin. The qualitative factors included measures to position FPL Group for increased competition and initiating other actions that significantly strengthen FPL Group and enhance shareholder value. The performance share award payouts for the performance period ending December 31, 2003 are included in the Summary Compensation Table herein in the column entitled "LTIP Payouts."

Armando J. Olivera	25,000	1.6%	55.12	2/13/2013	210,000

^(a) Options granted are non-qualified stock options. All stock options will become exercisable one-third per year and be fully exercisable after three years. All options were granted at an exercise price per share of 100% of the fair market value of FPL Group common stock on the date of grant.

^(b) The hypothetical values shown were calculated using the Black-Scholes option pricing model, based on the following assumptions. For all options, the volatility rate is equal to 19.98% and the dividend yield (representing the current per-share annualized dividends divided by the annualized fair market value of the common stock) is equal to 3.96%. The risk-free interest rate is equal to 3.64%, based on the interest rate on a U.S. Treasury zero-coupon bond on the date of grant with a maturity corresponding to the estimated time until exercise of seven years. The values do not take into account risk factors such as non-transferability or risk of forfeiture.

The preceding table sets forth information concerning individual grants of common stock options during fiscal year 2003 to the executive officers named in the Summary Compensation Table. Such awards are also listed in the Summary Compensation Table herein in the column entitled "Securities Underlying Options."

The preceding table sets forth information, with respect to the named officers, concerning the exercise of stock options during the fiscal year and unexercised options held at the end of the fiscal year. The named officers did not exercise any stock options during 2003. All the exercisable and unexercisable options shown in the preceding table were granted in 2001, 2002 and 2003. At December 31, 2003, the fair market value of the underlying securities (based on the closing share price of FPL Group common stock reported on the New York Stock Exchange) was \$65.42 per share, and exceeded the exercise price of all of the exercisable and unexercisable options.

Retirement Plans

FPL Group maintains a non-contributory defined benefit pension plan and a supplemental executive retirement plan (SERP). The FPL Group Employee Pension Plan and SERP were amended to a cash balance style plan effective April 1, 1997. Employees who were SERP participants on that date were not affected by the change, however. The following table shows the estimated annual benefits to employees not affected by the change, which includes two of the executive officers named in the Summary Compensation Table, Messrs. Coyle and Olivera. Benefits are calculated on a straight-line annuity basis, payable assuming retirement in 2003 at age 65 after the indicated years of service.

1,000,000	198,365	396,718	495,083	520,856	523,244

^(a) The maximum eligible average annual compensation shown in the table is based on 120% of the 2003 pensionable earnings (which includes annual salary and bonus as shown on the Summary Compensation Table) for the highest compensated named officer covered by the non-contributory defined benefit pension plan and SERP and not affected by the change to a cash balance style plan, who is Mr. Coyle.

The compensation covered by the plans includes the 2003 annual salaries and bonus of Messrs. Coyle and Olivera, but no other amounts shown in the Summary Compensation Table. Estimated credited years of service for Mr. Coyle is 14 years and Mr. Olivera is 31 years. Amounts shown in the pension plan table reflect deductions to partially cover employer contributions to social security. A supplemental retirement plan for Mr. Coyle provides for benefits based on two times his credited years of service.

Under the cash balance benefit formula, credits are accumulated in an employee's account and are determined as a percentage of the employee's monthly covered earnings in accordance with the following formula:

<u>Years of Service</u>	<u>Percent of Compensation</u>
0-5	4.5%
5 or more	6.0%

In addition, the employee's account is credited quarterly with interest at an annual rate that is based upon the yield on one-year Treasury Constant Maturities. A higher rate can be provided in the Company's discretion and was so provided in 2003. Benefits under the cash balance benefit formula are not reduced for employer contributions to social security or other offset amounts.

Messrs. Hay, Robo, and Dewhurst are the only named executive officers covered by the cash balance style plan. Benefits under the plan are based upon annual salary and awards under the annual incentive plan (which for 2003 is included in the "Bonus" column of the Summary Compensation Table). The estimated age 65 annual retirement benefit payable under that plan, based upon total covered compensation from FPL Group and subsidiaries, which was included in their 2003 taxable income (expressed as a joint and 50% survivor benefit) is \$414,163 for Mr. Hay, \$289,892 for Mr. Robo, and \$153,735 for Mr. Dewhurst. This estimate assumes their 2003 pensionable earnings increase annually (salary by 3.5% per year, and annual incentive awards equal to 120% of salary for Mr. Hay, 106% of salary for Mr. Robo, and 91% of salary for Mr. Dewhurst) until age 65 (year 2020 for Messrs. Hay and Dewhurst, and 2027 for Mr. Robo) and a cash balance interest crediting rate of 5.0%. The estimated age 65 cash balance account was converted to an annuity based on a 5.31% discount rate and 1994 GAR unisex mortality.

A supplemental retirement plan for Mr. Hay provides a benefit equal to 65% of Mr. Hay's highest average annual compensation (annual salary plus annual incentive award) for the three consecutive calendar year periods out of the four consecutive calendar year period ending with the calendar year in which he retires (final average pay), reduced by the then annual amount of a joint and 50% survivor benefit (which is the actuarial equivalent of the benefits to which he is entitled under the non-contributory defined benefit pension plan and the SERP). If Mr. Hay terminates his employment prior to age 65, the benefit will be reduced on a pro rata basis if he fails to complete at least fifteen years of service with FPL Group or its subsidiaries, and it will be further reduced on an actuarial basis as a result of its early distribution. The plan provides a minimum annual joint and 50% survivor benefit (50% of final average pay) payable to Mr. Hay and his surviving spouse upon his termination of employment with FPL Group and its subsidiaries on his normal retirement age (age 65), reduced on an actuarial basis if he terminates before that age. Under the supplemental plan, Mr. Hay's estimated age 65 annual retirement benefit (expressed as a joint and 50% survivor benefit, and calculated based on the same covered compensation and the same assumed increases in pensionable earnings as described in the preceding paragraph) would be increased, over the estimate described above for the cash balance style plan and SERP benefits, by approximately \$2,015,971.

The Company sponsors a split-dollar life insurance plan for certain of its officers, including the executive officers named in the Summary Compensation Table except Mr. Dewhurst. Benefits under the split-dollar plan are provided by universal life insurance policies purchased by the Company. If the officer dies prior to retirement (defined to include age plus years of service), or for Mr. Olivera during employment or after retirement but prior to age 65, the officer's beneficiaries generally receive two and one-half times the officer's annual salary at the time of death. If the officer dies after retirement, or for Mr. Olivera on or after age 65, but before termination of his split-dollar agreement, the officer's beneficiaries receive a percentage of the officer's final annual salary (100% to 180% depending upon age at time of death for Mr. Olivera and 50% for the other named executive officers who participate in the plan). Upon termination of the agreement after 10 years, at age 65 or termination of employment which qualifies as retirement, whichever is later, the life insurance policies will be assigned to the officer or his beneficiary. For 2003, each participating executive officer was taxable on the insurance carrier's one-year term rate for his life insurance coverage.

Employment Agreements

2000 Agreements On December 15, 2000, when the Company's shareholders approved a proposed merger with Entergy, previously-existing employment agreements between the Company and certain officers, including Messrs. Hay, Olivera and Coyle, became effective (the 2000 Agreements). Mr. Olivera's 2000 Agreement expired November 30, 2003. The remaining 2000 Agreements provide that the officer shall be employed by the Company or its affiliates for a period of four years in a position at least commensurate with his position with the Company and/or its affiliates in December 2000. During the employment period, the officer shall be paid an annual base salary at least equal to his annual base salary for 2000, with annual increases consistent with those awarded to other peer officers of the Company, but not less than the increases in the consumer price index; shall be paid an annual bonus at least equal to the highest bonus paid to him for any of the three years immediately preceding 2000; be given the opportunity to earn long-term incentive compensation at least as favorable as such opportunities given to other peer officers of the Company during 2000 or thereafter; and shall be entitled to participate in employee benefit plans providing benefits at least as favorable as those provided to other peer officers of the Company during 2000 or thereafter.

In the event that during the employment period the officer's employment is terminated by the Company (except for death, disability, or cause) or if the officer terminates his employment for good reason, as defined in the 2000 Agreement, the officer is entitled to severance benefits in the form of a lump-sum payment equal to the compensation due for the remainder of the employment period or for two years, whichever is longer. Such benefits would be based on the officer's then base salary plus an annual bonus at least equal to the bonus for the year 2000. The officer is also entitled to the maximum amount payable under all long-term incentive compensation grants outstanding, continued coverage under all employee benefit plans, supplemental retirement benefits and a full gross-up in respect of any excise tax incurred as a result of the benefits received pursuant to the 2000 Agreement.

Amendments to 2000 Agreements In February 2002, each of Messrs. Hay, Olivera and Coyle agreed to amend his 2000 Agreement, and, at the same time, enter into a new executive retention employment agreement with the Company (the 2002 Agreements). The definition of good reason contained in each 2000 Agreement was amended to provide the Company with greater flexibility to assign different duties and responsibilities to the named executive officers without triggering the officer's rights to terminate employment and be entitled to severance and other benefits. In order to avoid duplication of benefits, each 2000 Agreement was also amended to provide that if a change of control, as defined in the named executive officer's 2002 Agreement, occurs prior to the expiration of the 2000 Agreement, the 2000 Agreement will terminate and the 2002 Agreement will become effective.

2002 Agreements Each of the individuals named in the Summary Compensation Table is a party to a 2002 Agreement with the Company. In the case of Messrs. Hay and Coyle, if a change of control does not occur prior to the expiration of his amended 2000 Agreement, his 2002 Agreement will not become effective until the expiration of his amended 2000 Agreement and the subsequent occurrence of a potential change of control or a change of control, each as defined in the 2002 Agreement.

Change of control is defined in the 2002 Agreements as (i) the acquisition by any individual, entity, or group of 20% or more of either the Company's common stock or the combined voting power of the Company other than directly from the Company or pursuant to a merger or other business combination which does not itself constitute a change of control, (ii) the incumbent directors of the Company ceasing, for any reason, to constitute a majority of the Board of Directors, unless each director who was not an incumbent director was elected, or nominated for election, by a majority of the incumbent directors and directors subsequently so elected or appointed (excluding those elected as a result of an actual or threatened election contest or other solicitation of proxies), (iii) approval by shareholders or, if specified by the Board of Directors in the exercise of its discretion, consummation of a merger, sale of assets, *reorganization* or other business combination of the Company or any subsidiary with respect to which (x) the voting securities of the Company outstanding immediately prior to the transaction do not, immediately following the transaction, represent more than 60% of the common stock and the voting power of all voting securities of the resulting ultimate parent entity or (y) members of the Board of Directors of the Company constitute less than a majority of the members of the Board of Directors of the resulting ultimate parent entity, or there is no reasonable assurance that they, or their nominees, will constitute at least a majority of that Board of Directors for at least two years, or (iv) the shareholders approve the liquidation or dissolution of the Company. A potential change of control is defined as (i) announcement of an intention to take or consider taking actions which, if consummated or approved by shareholders, would constitute a change of control, or (ii) the acquisition by any individual, entity, or group of 15% or more of either the Common Stock or the combined voting power of the Company other than directly from the Company or pursuant to a merger or other business combination which does not itself constitute a change of control.

Once effective, each named executive officer's 2002 Agreement provides that he shall be employed by the Company for a period of three years in a position at least commensurate with his position with the Company in the ninety day period immediately preceding the effective date of the 2002 Agreement. During this three year employment period, each named executive officer shall be (i) paid an annual base salary at least equal to his annual base as in effect on the effective date, with annual increases

consistent with those awarded to other peer officers of the Company, but not less than the increases in the consumer price index; (ii) paid an annual bonus (expressed as a percentage of his annual base salary) consistent with those of peer executives at the Company, but at least equal to the higher of (x) his targeted annual bonus for the then current fiscal year divided by his then current annual base salary or (y) the average percentage of his annual base salary (as in effect for the applicable years) that was paid or payable as an annual bonus for each of the three fiscal years preceding the fiscal year in which the effective date occurs (or, if higher, for each of the three fiscal years immediately preceding the fiscal year in which a change of control occurs, if a change of control occurs after the effective date); (iii) given the opportunity to earn long-term incentive compensation no less favorable than such opportunities given to him at any time during the 90 days preceding the effective date or, if more favorable, those provided at any time after the effective date to peer officers of the Company (but without duplication of awards granted in connection with the shareholder approval of the proposed merger with Entergy); and (iv) entitled to participate in savings, retirement and other employee benefit plans providing benefits no less favorable than those provided to him at any time during the 90 days preceding the effective date or, if more favorable, those provided at any time after the effective date to peer officers of the Company.

In the event of a change of control, each 2002 Agreement provides that (i) 50% of a named executive officer's outstanding performance stock-based awards (for example, performance share awards and shareholder value awards) shall be vested and earned at an achievement level equal to the higher of (x) the targeted level of performance of each such award or (y) the average level (expressed as a percentage of target) of achievement in respect of similar awards maturing over the three fiscal years immediately prior to the year in which the change of control occurred; (ii) all other outstanding performance stock-based awards granted to the named executive officer shall be fully vested and earned; (iii) all options and other exercisable rights granted to the named executive officer shall become exercisable and vested; and (iv) the restrictions, deferral limitations and forfeiture conditions applicable to all outstanding awards granted to the named executive officer shall lapse and such awards shall be deemed fully vested. However, no awards which were granted in connection with the shareholder approval of the proposed merger with Entergy shall become vested, earned or exercisable under the 2002 Agreements as a result of a change of control.

A named executive officer will receive the remaining 50% of the outstanding performance stock-based awards (calculated in the same manner as described above) on the first anniversary of the change of control if he has remained employed by the Company or an affiliate through such date or upon an earlier termination of employment by the Company (except for death, disability or cause) or by the named executive officer for good reason (defined in the same manner as in the amended 2000 Agreement). Upon such a termination of employment following a change of control and during the employment period, the named executive officer is entitled to, among other things, a lump sum severance payment equal to three times the sum of his annual base salary plus his annual bonus; a payment in respect of three years of foregone supplemental retirement benefits; continued coverage under all employee benefit plans, and certain other benefits and perquisites, for three years; and a full gross-up in respect of any excise tax incurred as a result of the benefits received pursuant to the 2002 Agreement. Such amounts and benefits would also be provided if such a termination of a named executive officer occurs following a potential change of control and prior to an actual change of control, and during the employment period, except that 100% of the outstanding performance stock-based awards (calculated as described above) would be vested and earned, excluding any such awards granted in connection with the shareholder approval of the proposed merger with Entergy. In addition, each named executive officer will also receive a pro rata portion (based upon deemed employment until the end of the three year employment period) of each long-term incentive compensation award granted to him on or after the date of the change of control; provided that he will not be eligible to receive any payment with respect to any non-vested portion of an award which was granted in connection with the shareholder approval of the proposed merger with Entergy.
