**GENERAL BINDING CORPORATION AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**(1) Basis of Presentation**

The condensed consolidated financial statements include the accounts of General Binding Corporation and its subsidiaries (“GBC” or the “Company”). These financial statements have been prepared by GBC, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. GBC believes that the disclosures included in these condensed consolidated financial statements are adequate to make the information presented not misleading. It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and the notes thereto included in GBC’s 2000 Annual Report on Form 10-K. In the opinion of management, all adjustments necessary to present fairly the financial position of GBC as of June 30, 2001 and December 31, 2000 and the results of their operations for the three and six months ended June 30, 2001 and 2000 have been included. Operating results for any interim period are not necessarily indicative of results that may be expected for the full year.

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of certain estimates by management in determining the entity’s assets, liabilities, revenues and expenses. Actual results could differ from those estimates.

Certain amounts for prior periods have been reclassified to conform to the 2001 presentation.

**(2) Borrowings**

A significant portion of GBC’s long-term funding has been provided through its Revolving Credit Facility. The Revolving Credit Facility has a maturity date of January 2002, and as such, borrowings under this facility as of June 30, 2001 are classified as current maturities of long-term debt. GBC expects to begin negotiations to refinance the Revolving Credit Facility during the third quarter of 2001. See Item 2. -- Management’s Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources -- for a further discussion of GBC’s credit facilities.

GBC’s borrowings consist of the following at June 30, 2001 and December 31, 2000; outstanding borrowings denominated in foreign currencies have been converted to U.S. dollars (000’s omitted):

	<u>June 30,</u> <u>2001</u>	<u>December 31,</u> <u>2000</u>

(1) Weighted average shares includes both Common Stock and Class B Common Stock.

(2) Amounts represent per share amounts for both Common Stock and Class B Common Stock.

#### (4) Restructuring and Other

On April 2, 2001, GBC announced, that as part of an effort to restructure its European operations, a distribution center and an administrative office in Germany will be closed. The operations currently performed at these locations will be absorbed into existing facilities within Europe. GBC recorded a restructuring charge of approximately \$2.4 million in the second quarter of 2001 to cover costs associated with these activities. The restructuring expenses primarily consist of severance and related benefit expenses, and costs related to the closure of this facility. Approximately 65 employees will be impacted by this restructuring.

During the first half of 2000, GBC recorded restructuring charges totaling \$0.8 million, representing the final charges related to restructuring activities initiated in 1999. GBC's restructuring activities have primarily focused on the consolidation of the Europe Group's distribution, logistics and accounting operations, streamlining the sales operations in the North American Document Finishing Group, and the closing/consolidation of several distribution centers. The restructuring charges primarily consisted of severance costs, early retirement benefits and other expenses.

The components of the restructuring are as follows (000's omitted):

	<u>Six months ended June 30,</u>	
	<u>2001</u>	<u>2000</u>
Severance and early retirement benefits	\$ 1,630	\$ 421
All other restructuring expenses	<u>794</u>	<u>427</u>
	<u>\$ 2,424</u>	<u>\$ 848</u>

GBC has completed substantially all of the restructuring activities initiated during 1999 and 2000. Management believes that the restructuring provisions recorded will be adequate to cover estimated restructuring costs that will be paid in future periods. The balance in the restructuring reserve at June 30, 2001 primarily represents severance, early retirement and other benefit expenses to be paid in the future periods. Changes in the restructuring reserve for the six months ended June 30, 2001 and 2000 were as follows (000's omitted):

	<u>Six months ended June 30.</u>	
	<u>2001</u>	<u>2000</u>
Balance – beginning of year	\$2,293	\$9,884
Provisions	2,424	848
Involuntary termination costs	(601)	(1,576)
Other cash restructuring charges	(192)	(1,823)
Non-cash restructuring charges	36	(1,783)
Other (1)	<u>(189)</u>	<u>(206)</u>
Balance - end of period	<u>\$3,771</u>	<u>\$5,344</u>

(1) Amounts primarily relate to the effects of foreign exchange rate changes.

During the first half of 2001, administrative expenses in the Corporate office were higher due to special charges of \$4.5 million, primarily related to contractual severance payments and other benefits to be paid to GBC's former CEO, transition expenses for GBC's new Chairman, and severance costs to be paid to the Company's former CFO. In the first half of 2000, GBC recorded \$1.3 million in expenses related to the supply chain initiatives in the Office Products Group.

## (5) **Business Segments**

In accordance with SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information," GBC has identified four reportable operating segments based on the amount of revenues and operating income of these segments. GBC's operating segments are based on the organization of GBC into business groups comprised of similar products and services. The Document Finishing Group's revenues are primarily derived from sales of binding and punching equipment and related supplies, custom binders and folders, and maintenance and repair services. The Films Group's revenues are primarily derived through sales of thermal and pressure sensitive films, mid-range and commercial high-speed laminators, large-format digital print laminators, and maintenance and repair services. The Document Finishing Group's and the Films Group's products and services are sold through direct channels to the general office markets, commercial reprographic centers, educational and training markets, commercial printers, and to government agencies. The Office Products Group's revenues are primarily derived from the sale of binding and laminating equipment and supplies, document shredders, visual communications products and desktop accessories through indirect channels including office product superstores, contract/commercial stationers, wholesalers, mail order companies and retail dealers. The Europe Group distributes the Office Products and Document Finishing Groups' products to customers in Europe.

Expenses incurred by the four reportable segments described above relate to costs incurred to manufacture or purchase products, as well as selling, general and administrative costs. The All Others category presented below primarily represents expenses of a corporate nature as well as revenues and expenses for certain entities not assigned to one of the other four reportable segments. For internal management purposes

and the presentation below, operating income is determined as income before taxes excluding interest expense, other income and expense, and restructuring expenses.

GBC does not separately identify interest income or expense, or income taxes for its operating segments. Sales between business groups are recorded at cost for domestic business units, and cost plus a normal profit margin for sales between domestic and international business units. GBC's business groups record expenses for certain services provided and expense allocations; however, the charges and allocations between business groups are not significant. Effective January 1, 2001, for internal reporting purposes, GBC has made changes to its business segments. As a result, several business units have been reclassified from the All Others category to the Films Group; however, these business units were not significant to either segment. In addition, beginning January 1, 2001, GBC allocates expenses related to the amortization of goodwill and related intangibles to the segments; previously these expense were reported in the All Others category. Prior periods have been restated for these reporting changes. Segment data is provided below for the three and six months ended June 30, 2001 and 2000.

GBC's products are sold primarily in North America, Latin America, Europe, Japan and Australia to office product resellers and directly to end-users in the business, education, commercial/professional and government markets. GBC has a large base of customers; however, the loss of, or major reduction in business from one or more of GBC's major customers, could have a material adverse effect on GBC's financial position or results of operations.

## (6) New Accounting Standards

In June 1998, the FASB issued SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," and in June 2000 issued SFAS No. 138 "Accounting for Certain Derivative Instruments and Certain Hedging Activities." These statements establish accounting and reporting standards for certain derivative financial instruments and hedging activities (including certain derivative instruments imbedded in other contracts) and require GBC to recognize all derivatives as either assets or liabilities on the balance sheet and measure them at fair market value.

GBC's existing derivative instruments are primarily designated as cash flow hedges, which were initiated to hedge cash flows related to future variable rate interest payments, cash flows in foreign currencies with respect to settlement of intercompany payables by GBC's foreign subsidiaries, and foreign currency cash flows related to the financing of GBC's foreign operations. GBC has implemented both SFAS No.'s 133 and 138 as of January 1, 2001. Hedge accounting has been applied to all of GBC's derivative

instruments except the foreign currency cash flow hedges related to intercompany loans between GBC's foreign and domestic subsidiaries. The adjustments to GBC's balance sheet and income statement as a result of adopting these standards were not significant.

GBC adopted the Emerging Issues Task Force ("EITF") 00-10 "Accounting for Shipping and Handling Fees and Cost" effective for the year ended December 31, 2000. This pronouncement requires shipping and handling fees to be classified as revenue in the income statement. Previously, GBC recorded shipping and handling fees as a reduction to selling, service and administration expenses. Prior periods have been restated for this change in accounting. The impact of this change in accounting resulted in an insignificant increase in GBC's revenue and had no impact on operating earnings.

**(7) Subsidiary Guarantor Information**

During 1998, GBC issued \$150 million of 9.375% Senior Subordinated Notes due 2008 to finance the acquisition of Ibico AG. Each of GBC's domestic restricted subsidiaries has jointly and severally, fully and unconditionally guaranteed the Senior Subordinated Notes. Rather than filing separate financial statements for each guarantor subsidiary with the Securities and Exchange Commission, GBC has elected to present the following condensed consolidating results of operations, financial position and cash flows of the Parent, Guarantors and Non-Guarantors (in each case carrying investments under the equity method) and the eliminations necessary to arrive at the information for GBC on a consolidated basis:

**Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

The following narrative discusses the results of operations, liquidity and capital resources for GBC on a consolidated basis. This section should be read in conjunction with GBC’s Annual Report on Form 10-K for the fiscal year ended December 31, 2000. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations” contained therein.

**Results of Operations – Quarter Ended June 30, 2001 compared to Quarter Ended June 30, 2000**

*Sales*

Net sales for the second quarter of 2001 decreased 11.4% to \$198.4 million, compared to the second quarter of 2000. Net sales by business segment are summarized below (000’s omitted):

	<u>Three months ended June 30,</u>	
	<u>2001</u>	<u>2000</u>
Document Finishing Group	\$ 51,012	\$ 50,915
Films Group	39,058	43,187
Office Products Group	72,071	90,307
Europe Group	25,643	27,056
Other	<u>10,602</u>	<u>12,425</u>
Net Sales	<u>\$198,386</u>	<u>\$223,890</u>

Document Finishing Group sales remained flat in the second quarter of 2001 when compared to the second quarter of 2000. The Films Group’s sales decreased by \$4.1 million or 9.6% in the second quarter of 2001 when compared to the second quarter of 2000. The decrease was primarily due to lower sales of commercial films in the U.S. as a result of weakness in the commercial printing markets. The Office Products Group’s sales decreased by \$18.2 million or 20.2% in the second quarter of 2001 compared to the second quarter of 2000, primarily due to lower sales of high-end visual communications products to commercial customers, along with expected declines resulting from the Group’s previously-announced decision to exit the sale of certain retail shredder products. Net sales in Europe decreased by \$1.4 million or 5.2% in the second quarter of 2001 when compared to the second quarter of 2000. However, excluding the impact of currency fluctuations, Europe’s sales increased by approximately 2.4%.

*Gross Margins, Costs and Expenses*

GBC’s overall gross profit margin in the second quarter of 2001 decreased by 1.3 percentage points to 43.9%, compared to 45.2% in the second quarter of 2000.

The Office Products Group experienced lower gross profit margins due to an unfavorable product mix and the adverse effect of lower volumes on manufacturing efficiency. The Films Group's lower gross profit margins were attributable to market pricing pressures related primarily to softness in the publishing industry, as well as increases in raw material costs and lower manufacturing volumes.

Selling, service and administrative expenses decreased \$10.0 million or 11.7% in the second quarter of 2001 compared to 2000. As a percentage of sales, expenses were 37.9% in the second quarter of 2001, compared to 38.0% in 2000. The Office Products Group was the major contributor to the decrease in expenses primarily from lower program costs and selling expenses resulting from the lower level of sales. Selling, service and administrative expenses in the other segments were also lower due to close management of operating expenses.

### *Operating Income*

Operating income for GBC's business segments is summarized below (000's omitted). This presentation of operating income excludes restructuring expenses, interest expense, and other income and expense.

	Operating Income	
	<u>Three months ended June 30,</u>	
	<u>2001</u>	<u>2000</u>
Document Finishing Group	\$ 6,297	\$ 6,607
Films Group	6,841	8,812
Office Products Group	3,349	6,677
Europe Group	(468)	(1,161)
Other (1)	<u>(8,582)</u>	<u>(8,121)</u>
Operating income	<u>\$ 7,437</u>	<u>\$12,814</u>

- (1) Other includes shared expenses not allocated to the specific segments, corporate expenses, and the results for certain entities not assigned to one of the other four segments.

Operating income for the second quarter of 2001 decreased 42.0% or \$5.4 million compared to the second quarter of 2000. Operating income in the Document Finishing Group for the second quarter of 2001 decreased 4.7% due to product mix issues. Operating income for the Films Group (in gross dollars and as a percentage of sales) decreased due to lower sales volumes, market pricing pressures related primarily to softness in the publishing industry, higher raw material costs, and lower manufacturing volumes. The Office Products Group experienced a \$3.3 million decrease in operating income during the second quarter of 2001 compared to 2000 due to lower sales volumes, unfavorable product mix, and the adverse effect of lower volumes on manufacturing efficiency. The Europe

Group's operating loss decreased by \$0.7 million compared to 2000 primarily due to lower operating expenses.

#### *Restructuring and Other*

During the second quarter of 2001, GBC recorded a \$2.0 million after-tax charge (\$2.4 million pre-tax), or \$.13 per share for restructuring expenses primarily related to the closure of warehouse and administrative facilities in Germany. See Note 4 to the Condensed Consolidated Financial Statements.

During the second quarter 2001, administrative expenses in the Corporate office were higher due to charges of approximately \$2.0 million, primarily related to transition expenses for the Company's new Chairman and CEO and severance costs to be paid to the Company's former CFO. In the second quarter of 2000, GBC recorded \$0.6 million in expenses related to the supply chain initiatives in the Office Products Group.

#### *Interest Expense*

Interest expense decreased by \$2.2 million to \$9.3 million in the second quarter of 2001. The reduction in interest expense resulted from lower outstanding debt balances combined with lower interest rates during the second quarter of 2001 compared to 2000.

#### *Income Taxes*

GBC's worldwide effective tax rate was a benefit of 1.1% for the second quarter of 2001 compared to an expense rate of 50.0% in 2000. The second quarter effective tax rate reflects the current estimate of GBC's overall effective tax rate for 2001. The change in rate from 2000 to 2001 is due to the jurisdictions in which GBC expects to generate earnings and losses during the current year. The rate is impacted by restructuring charges and the relatively low level of pre-tax earnings.

#### *Net (Loss) Income*

GBC incurred a net loss of \$4.3 million for the second quarter of 2001 (\$0.27 per share), compared to a net income of \$0.4 million in the second quarter of 2000 (\$0.02 per share). Excluding the restructuring and other charges recorded during the second quarter of 2001, earnings per share were \$0.00 and \$0.04 for the second quarter of 2001 and 2000, respectively. The change in net income before other charges is due to reduced operating income resulting from the lower level of sales, which was partially offset by lower interest expense.

## Six Months Ended June 30, 2001 compared to Six Months June 30, 2000

### *Sales*

Net sales for the first half of 2001 decreased 11.9% to \$409.1 million, compared to the first half of 2000. Net sales by business segment are summarized below (000's omitted):

	<u>Six months ended June 30,</u>	
	<u>2001</u>	<u>2000</u>
Document Finishing Group	\$101,851	\$105,423
Films Group	78,809	85,578
Office Products Group	150,691	188,748
Europe Group	55,920	60,176
Other	<u>21,805</u>	<u>24,388</u>
Net sales	<u>\$409,076</u>	<u>\$464,313</u>

Sales for the Document Finishing Group decreased by \$3.6 million or 3.4% during the first half of 2001 when compared to the first half of 2000. The decrease was primarily due to lower sales in the Group's binding operations division. The Films Group's sales decreased by \$6.8 million or 7.9% in the first half of 2001 when compared to the first half of 2000. The decrease was primarily due to lower sales in the Group's U.S. commercial films and digital print businesses due to overall industry softness, which was partially offset by higher commercial films sales in Europe. The Office Products Group's sales decreased by \$38.1 million or 20.2% in the first half of 2001 when compared to the first half of 2000, primarily due to lower sales of high-end visual communications products to commercial customers, along with expected declines resulting from the Group's previously-announced decision to exit the sale of certain retail shredder products. Net sales in Europe decreased by \$4.3 million or 7.1% in the first half of 2001 when compared to the first half of 2000, primarily due to lower sales of binding equipment.

### *Gross Margins, Costs and Expenses*

GBC's overall gross profit margin in the first half of 2001 decreased by 0.2 percentage points to 44.0% compared to the 44.2% gross profit margin for the first half of 2000. Improved gross margins in the Office Products Group were largely offset by weaker margins in the Films Group. The Office Products Group's gross profit margins improved in the first quarter of 2001 due to savings realized from supply chain initiatives and other cost management programs. Such gains were not achieved in the second quarter of 2001 due to an unfavorable product mix and the adverse effect of lower volumes on manufacturing efficiency. The Films Group's lower gross profit margins were attributable to market pricing

pressures related primarily to softness in the publishing industry, as well as increases in raw material costs, and lower manufacturing volumes.

Selling, service and administrative expenses decreased 10.8% in the first half of 2001 when compared to the first half of 2000. However, as a percentage of sales, selling, service and administrative expenses increased slightly in 2001 compared to 2000. Selling, service and administrative expenses decreased primarily due to lower program costs within the Office Products Group as a result of lower sales volumes. In addition, within the Office Products Group, selling expenses were down during the first half of 2001 compared to 2000 as many expenses were either adjusted to reflect the lower level of sales or are directly variable with sales.

### *Operating Income*

Operating income for GBC's business segments is summarized below (000's omitted). This presentation of operating income excludes restructuring expenses, interest expense, and other income and expense.

	Operating Income	
	Six months ended June 30,	
	2001	2000
Document Finishing Group	\$ 12,785	\$ 13,545
Films Group	12,742	16,683
Office Products Group	9,295	12,763
Europe Group	(294)	(1,439)
Other	<u>(18,602)</u>	<u>(16,059)</u>
Operating income	<u>\$ 15,926</u>	<u>\$25,493</u>

Operating income for the first half of 2001 decreased 39.1% or \$10.2 million compared to the first half of 2000. The Document Finishing Group experienced a decline in operating income due to a lower level of sales. As a percentage of sales, operating income for the Group was flat. Operating income for the Films Group, in both absolute dollars and as a percentage of sales, decreased due to the market pricing pressures, higher raw material costs, and lower manufacturing volumes discussed above. The Office Products Group experienced a \$4.1million decrease in operating income during the first half of 2001 compared to 2000 due to lower level of sales. The Europe Group's operating loss decreased by \$1.1 million compared to 2000 primarily due to lower operating expenses.

### *Restructuring and Other*

During the first half of 2001, GBC recorded a \$2.0 million after-tax charge (\$2.4 million pre-tax), or \$.13 per share for restructuring expenses primarily related to the closure of warehouse and administrative facilities in Germany. During the first half of 2000, GBC recorded an after-tax restructuring charge of \$0.4 (\$0.8 million

pre-tax), or \$0.03 per share for expenses for the restructuring of certain distribution operations in Europe (primarily employee severance costs). See Note 4 to the Condensed Consolidated Financial Statements.

During the first half of 2001, administrative expenses in the Corporate office were higher due to special charges of approximately \$4.5 million, primarily related to contractual severance payments and other benefits to be paid to GBC's former CEO, transition expenses for GBC's new Chairman and CEO, and severance costs to be paid to the Company's former CFO. In the first half of 2000, GBC recorded \$1.3 million in expenses related to the supply chain initiatives in the Office Products Group

#### *Interest Expense*

Interest expense decreased by \$3.3 million to \$19.8 million in the first half of 2001. The reduction in interest expense resulted from lower outstanding debt balances combined with lower interest rates during the first half of 2001 compared to 2000.

#### *Income Taxes*

GBC's worldwide effective tax rate was a benefit of 15.0% for the first half of 2001, compared to an expense rate of 50.0% in 2000. The 2001 effective tax rate reflects the current estimate of GBC's overall effective tax rate for the current year. The change in rate from 2000 to 2001 is due to the jurisdictions in which GBC expects to generate earnings and losses during the current year. The rate is impacted by restructuring charges and the relatively low level of pre-tax earnings.

#### *Net (Loss) Income*

GBC reported a net loss of \$5.4 million for the first half of 2001 (\$0.34 per diluted share) compared to net income of \$0.3 million (\$0.02 per diluted share) reported in the first half of 2000. The 2001 net loss was primarily a result of the restructuring and other charges recorded during 2001, as well as lower sales and gross profit achieved by certain business units.

### **Liquidity and Capital Resources**

Management assesses the Company's liquidity in terms of its overall debt capacity and ability to generate cash from operations to fund its operating and investing activities. Significant factors affecting liquidity are cash flows generated from operating activities, capital expenditures, customer financing requirements, adequate bank lines of credit and financial flexibility to attract long-term capital with satisfactory terms. GBC's primary sources of liquidity and capital resources

are internally-generated cash flows, borrowings under GBC's revolving credit facilities and short-term borrowings from banks.

GBC has access to various U.S. and international credit facilities, including a multicurrency revolving credit facility established on January 13, 1997 (the "Revolving Credit Facility") with a group of international banks which provides for up to \$410 million of revolving credit borrowings through January 2002. The Revolving Credit Facility was amended and restated on November 12, 1999 to provide GBC with additional financial flexibility. Management believes, but there can be no assurance, that the amended facility will provide GBC with the liquidity necessary to meet currently anticipated operating and capital requirements. During the third quarter of 2001, GBC will begin its efforts to renegotiate the Revolving Credit Facility. Management believes, but there can be no assurance, that the Company will be able to negotiate a new revolving credit facility that will provide it with satisfactory liquidity, and which will likely have a comparable or reduced line of credit, reasonable terms, and market interest rates. Outstanding borrowings under the Revolving Credit Facility totaled \$220.2 million at June 30, 2001.

Under the most restrictive covenant of the Revolving Credit Facility, GBC is required to meet specified leverage and interest coverage ratios for each fiscal quarter. The amendment and restatement also provided for more flexible covenants regarding net worth levels, the pledging of substantially all of the assets of General Binding Corporation and its domestic subsidiaries as collateral, and increases in interest rate spreads payable under the facility, which vary depending upon the financial performance of the Company. In addition, there are certain restrictions on dividend payments, additional indebtedness, investments and capital expenditures. GBC was in compliance with all covenants as of June 30, 2001.

Cash provided by operating activities was \$14.4 million for the six months ended June 30, 2001, compared to \$25.0 million for 2000. Included in the results of 2000 was an income tax refund of approximately \$17.0 million. The improvement in operating cash flows, excluding the tax refund, was primarily due to improvements in working capital management.

Net cash used in investing activities was \$7.3 million during 2001, as compared to \$8.6 million in 2000, primarily due to capital expenditures of \$7.3 and \$9.0 million in each period, respectively.

Net cash used in financing activities was \$14.7 million during 2001, as compared to \$22.6 million during 2000. During 2001, cash generated from operating activities was used to repay borrowings under GBC's Revolving Credit Facility of approximately \$14.2 million, as compared to \$22.5 million in 2000. Currently, GBC is restricted from paying dividends under the terms of its Revolving Credit

Facility, and therefore no dividends were paid during the six months ended June 30, 2001 and 2000.

### **New Accounting Standards**

In June 1998, the FASB issued Statement of Financial Accounting Standards ("SFAS") No.133, "Accounting for Derivative Instruments and Hedging Activities." This statement establishes accounting and reporting standards for certain derivative financial instruments and hedging activities (including certain derivative instruments imbedded in other contracts) and requires that GBC recognize all derivatives as either assets or liabilities on the balance sheet and measure them at fair market value. Gains and losses resulting from changes in fair value would be accounted for depending on the use of the derivative and whether it is designated as a hedge and qualifies for hedge accounting. GBC implemented SFAS No.133 during the first quarter of 2001.

In July 2000, the EITF reached a final consensus on Issue No. 00-14 "Accounting for Certain Sales Incentives." This consensus specifies when companies are required to record the cost of certain sales incentives and how the costs should be classified in the income statement. Currently GBC records the costs of certain sales incentives as selling expenses in its income statement. Such incentives include volume rebates, slotting fees, catalog placement fees, cooperative advertising arrangements and other programs. The impact of this change in accounting will result in a reduction in GBC's revenues and selling expenses. There would be no change to operating income, however, operating margins will increase. GBC will be required to implement EITF 00-14 during the first quarter of 2002. The amount of the reclassification has not been quantified

In May 2001, the EITF reached a final consensus on Issue No. 00-25, "Vendor Income Statement Characterization of Consideration from a Vendor to Retailer." The consensus specifies how payments from a vendor for certain programs (e.g., slotting fees, cooperative advertising arrangements, etc.) should be classified on the vendor's income statement. GBC currently accounts for incentives covered under Issue 00-25 as selling expenses. The impact of any change in accounting resulting from this Issue would be a reduction in GBC's revenues and selling expenses. There would be no change to operating income. The amount of any potential reclassification has not been quantified. GBC will be required to implement EITF 00-25 during the first quarter of 2002.

In July 2001, the FASB issued SFAS No.142, "Goodwill and Other Intangible Assets." With the adoption of SFAS No.142, goodwill is no longer subject to amortization over its useful life. Rather, goodwill will be subject to at least an annual assessment for impairment by applying a fair-value-based test. Under the new rules, an acquired intangible asset would be separately recognized if the benefit of the intangible asset is obtained through contractual or other legal rights,

or if the intangible asset can be sold, transferred, licensed, rented, or exchanged, regardless of the acquirer's intent to do so. GBC will be required to implement SFAS No. 142 starting in January 2002. Implementation of this standard will result in the elimination of approximately \$10.7 million annually of amortization expense of goodwill and related intangible assets. However, the amount of any potential impairment, if any, has not been quantified.

### **Forward Looking Statements**

Certain statements under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this Report constitute “forward looking statements” within the meaning of Section 21E(I) (1) of the Exchange Act. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results and performance of GBC to be materially different than anticipated future results and performance expressed or implied by such forward-looking statements. Such factors include, among other things, the following: competition within the office products, document finishing and lamination film products markets, the effects of economic conditions, the issues associated with the restructuring of certain of GBC’s operations, the ability of GBC’s distributors to successfully market and sell the Company’s products, the ability of GBC to obtain capital to finance anticipated operating and capital requirements, the availability and price of raw materials, dependence on certain suppliers of manufactured products, the effect of consolidation in the office products industry and other factors indicated in GBC’s registration statements and reports filed with the SEC. These important factors may also cause the forward-looking statements made by GBC in this Report, including but not limited to those contained under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” to be materially different from the actual results achieved by the Company. In light of these and other uncertainties, the inclusion of any forward-looking statements herein should not be regarded as a representation by GBC that the Company’s plans and objectives will be achieved.
