President's Letter

September 30, 2008

DEAR SHAREHOLDER:

Not since the founding of our organization more than 70 years ago have investors faced so many challenges in such a short period of time. In a single calendar quarter, this country's largest savings and loan, its largest insurance company, its two largest mortgage providers, its largest brokerage firm and a leading commercial bank were the subject of a takeover, bailout or failure. On top of that, some money market funds in the industry have been unable to maintain a \$1 a share net asset value. A severe credit crunch has taken hold.

Confidence has been shaken in bond and stock markets around the globe, and mutual fund returns of the past year reflect the emotional insecurity that comes with hard times. Enclosed is our report on your Ivy Funds' operations for the first six months of the current fiscal year. For the six months ended Sept. 30, 2008, the S&P 500 Index fell 11.3 percent, with most of the drop occurring in September. September was also the worst month for U.S. corporate bonds in more than two decades.

Can we learn from history?

While unusual in modern times, a rapidly unfolding financial panic is nothing new in American history. In fact, prior to the creation of the Federal Reserve bank system in 1912, the U.S. experienced seven major financial crises between 1819 and 1907. In some

respects, some of the same issues that plague us today – fallout from excessive commodity and property speculation, war-related debt and populist dislike of government bailouts – parallel the challenges that generations past have had to deal with. Our leaders met these problems successfully, though very often not promptly.

For example, history judged President Martin Van Buren harshly for failing to take timely steps to limit economic damage from the Panic of 1837, which occurred just five weeks after he took office. The ensuing depression lasted for six years, and out of 850 banks in the United States at the time, 343 closed entirely and 62 failed partially. We hope Washington can learn from the many lessons of history and take appropriate and rapid action to revive credit markets and restore investor faith.

A need for global leadership

We believe that today's U.S. government safety nets and financial safeguards – including the Fed, deposit insurance on bank accounts, unemployment insurance, municipal bond default insurance and social security – are likely to help cushion the effects of the economic downturn that our country appears to face in the coming months. However, the scope of the current financial crisis is global, and this is a new phenomenon. It is one that we think may

require coordinated central bank and fiscal policy action from Brussels to Beijing to resolve. It will likely test whether we are

The U.S. Consumer Price Index is the government's measure of the change in the retail cost of goods and services. Gross domestic product measures year-over-year changes in the output of goods and services. Mortgage rates shown reflect the average rate on a conventional loan with a 60-day lender commitment. Oil prices reflect the market price of West Texas intermediate grade crude.

Respectfully,

Henry J. Herrmann, CFA President

Herry J. Herrinan

becoming one world that can act together for the common good, or one where national trade supremacy, resource hoarding and/or parochial political interests take precedence.

For many people it is more difficult to buy a home or expand a consumer-focused business than it was just a year ago. As shown in the Economic Snapshot table to the left, the U.S. economy at Sept.30, 2008 is not in as good a shape as it was six months earlier. The unemployment rate is higher. The economy has contracted.

We believe that the investing and economic climate will get better in time, although not right away. With perseverance, initiative and ingenuity, we believe the strengths of our nation's character will surface and prosperity will be restored. In this uncertain environment, we believe a very strong effort to manage risk is paramount. With that approach in mind, we will strive to earn your continued confidence for many years to come.

The opinions expressed in this letter are those of the President of Ivy Funds and are current only through the end of the period of the report, as stated on the cover. The President's views are subject to change at any time, based on market and other conditions, and no forecasts can be guaranteed.

Illustration of Fund Expenses

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, redemption fees and exchange fees; and (2) ongoing costs, including management fees, distribution and service fees, and other Fund expenses. The following tables are intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the six-month period ended September 30, 2008.

Actual Expenses

The first line for each share class in the following tables provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period. There may be additional fees charged to holders of certain accounts that are not included in the expenses shown in the tables. These fees apply to Individual Retirement Accounts (IRAs), IRA Rollovers, Roth IRAs, Conversion Roth IRAs, Simplified Employee Pension (SEP), Simple IRAs, Tax-Sheltered Accounts (TSAs), Keogh Plans, Owner Only 401(k) (Exclusive K) Plans and Final Pay Plans. As of the close of the six months covered by the tables, a customer is charged an annual fee of \$15 within each plan type. This fee is waived for IRA Rollovers and Conversion Roth IRAs if the customer owns another type of IRA. Coverdell Education Savings Account plans are charged an annual fee of \$10 per customer. You should consider the additional fees that were charged to your Fund account over the six-month period when you estimate the total ongoing expenses paid over the period and the impact of these fees on your ending account value as such additional expenses are not reflected in the information provided in the expense tables. Additional fees have the effect of reducing investment returns.

Hypothetical Example for Comparison Purposes

The second line for each share class of the following tables provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of five percent per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this five percent hypothetical example with the five percent hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the tables are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees or exchange fees. Therefore, the second line of each share class in the tables is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

^{*}Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the tables), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2008, and divided by 365.

- (1)This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.
- (2)This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees.

⁽¹⁾Total return calculated without taking into account the sales load deducted on an initial purchase.

See Accompanying Notes to Financial Statements.

⁽²⁾Advantus Capital reimbursed the Fund for losses related to certain investment trades. With reimbursed losses, the total return for Class A, for the year ended September 30, 2003, would have been 17.26%. (3)Annualized.

⁽⁴⁾In connection with the reorganization plan effected December 8, 2003, Class B and Class C shares of the predecessor Advantus Fund were exchanged into Class A shares at the time of the merger. The ratios shown above reflect a blended rate that includes the effect of income and expenses for those Class B and Class C shares from October 1, 2003 up to the time of the merger. Actual expenses that applied to Class A shareholders were lower than shown above.

⁽⁵⁾ There was no waiver of expenses during the period.

On September 30, 2008, the breakdown of bonds (by ratings) held by the Fund was as follows:

Ratings reflected in the wheel are taken from Standard & Poor's.

Certain U.S. government securities in which the Fund may invest, such as Treasury securities and securities issued by the Government National Mortgage Association (Ginnie Mae), are backed by the full faith and credit of the U.S. government. However, other U.S. government securities in which the Fund may invest, such as securities issued by the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac) and the Federal Home Loan Banks (FHLB) are not backed by the full faith and credit of the U.S. government, are not insured or guaranteed by the U.S. government and, instead, may be supported only by the right of the issuer to borrow from the U.S. Treasury or by the credit of the issuer.

On Sept. 7 2008, the Federal Housing Finance Agency (FHFA), an agency of the U.S. government, placed Fannie Mae and Freddie Mac into conservatorship, a statutory process with the objective of returning the entities to normal business operations. FHFA will act as the conservator to operate Fannie Mae and Freddie Mac until they are stabilized. It is unclear what effect this conservatorship will have on the securities issued or guaranteed by Fannie Mae or Freddie Mac.

10.93%	United States Government and Government Agency Obligations
6.54%	Domestic Corporate Debt Securities
0.63%	Senior Loans

Sector Weightings

As a shareholder of the Fund, for every \$100 you had invested on September 30, 2008, your Fund owned:

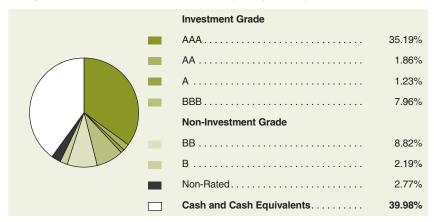

(1)Includes \$1.25 Consumer Discretionary Bonds, \$1.28 Energy Bonds and \$1.87 Utilities Bonds.

Certain U.S. government securities in which the Fund may invest, such as Treasury securities and securities issued by the Government National Mortgage Association (Ginnie Mae), are backed by the full faith and credit of the U.S. government. However, other U.S. government securities in which the Fund may invest, such as securities issued by the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac) and the Federal Home Loan Banks (FHLB) are not backed by the full faith and credit of the U.S. government, are not insured or guaranteed by the U.S. government and, instead, may be supported only by the right of the issuer to borrow from the U.S. Treasury or by the credit of the issuer.

On Sept. 7, 2008, the Federal Housing Finance Agency (FHFA), an agency of the U.S. government, placed Fannie Mae and Freddie Mac into conservatorship, a statutory process with the objective of returning the entities to normal business operations. FHFA will act as the conservator to operate Fannie Mae and Freddie Mac until they are stabilized. It is unclear what effect this conservatorship will have on the securities issued or guaranteed by Fannie Mae or Freddie Mac.

Quality Weightings

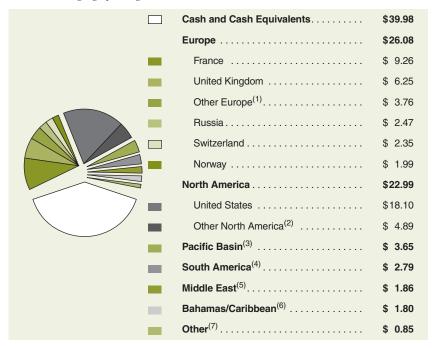

On September 30, 2008, the breakdown of bonds (by ratings) held by the Fund was as follows:

Ratings reflected in the wheel are taken from Standard & Poor's and Moody's.

SHAREHOLDER SUMMARY OF IVY MORTGAGE SECURITIES FUND

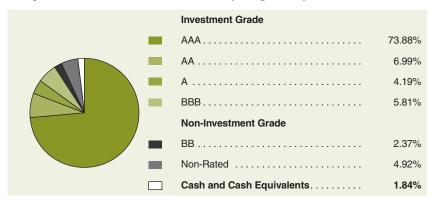

Portfolio Highlights

On September 30, 2008, Ivy Mortgage Securities Fund had net assets totaling \$234,157 (in thousands) invested in a diversified portfolio of:

50.18%	Corporate Bonds
47.98%	United States Government and Government Agency Obligations
1.84%	Cash and Cash Equivalents

Quality Weightings

On September 30, 2008, the breakdown of bonds (by ratings) held by the Fund was as follows:

Ratings reflected in the wheel are taken from Standard & Poor's and Moody's.

Certain U.S. government securities in which the Fund may invest, such as Treasury securities and securities issued by the Government National Mortgage Association (Ginnie Mae), are backed by the full faith and credit of the U.S. government. However, other U.S. government securities in which the Fund may invest, such as securities issued by the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac) and the Federal Home Loan Banks (FHLB) are not backed by the full faith and credit of the U.S. government, are not insured or guaranteed by the U.S. government and, instead, may be supported only by the right of the issuer to borrow from the U.S. Treasury or by the credit of the issuer.

On Sept. 7, 2008, the Federal Housing Finance Agency (FHFA), an agency of the U.S. government, placed Fannie Mae and Freddie Mac into conservatorship, a statutory process with the objective of returning the entities to normal business operations. FHFA will act as the conservator to operate Fannie Mae and Freddie Mac until they are stabilized. It is unclear what effect this conservatorship will have on the securities issued or guaranteed by Fannie Mae or Freddie Mac

⁽¹⁾ Total return calculated without taking into account the sales load deducted on an initial purchase.

⁽²⁾Advantus Capital reimbursed the Fund for losses related to certain investment trades. With reimbursed losses, the total return for Class A, for the year ended September 30, 2003, would have been 4.28%.

⁽⁴⁾In connection with the reorganization plan effected December 8, 2003, Class B and Class C shares of the predecessor Advantus Fund were exchanged into Class A shares at the time of the merger. The ratios shown reflect a blended rate that includes income and expenses for those Class B and Class C shares before October 1, 2003 up to the time of merger. Expenses for Class A shares before and after the merger were limited to 0.95% of average net assets.

⁽⁵⁾There was no waiver of expenses during the period.

Notes to Financial Statements

September 30, 2008 (In Thousands, Except Where Otherwise Noted) (Unaudited)

NOTE 1 – Significant Accounting Policies

Ivy Funds (the Trust) is organized as a Massachusetts business trust under a Declaration of Trust dated December 21, 1983, as amended, and is registered under the Investment Company Act of 1940 as a diversified, open-end management investment company. The Trust issues seventeen series of capital shares; each series represents ownership of a separate mutual fund (Fund). The assets belonging to each Fund are held separately by the custodian. The capital shares of each Fund represent a pro rata beneficial interest in the principal, net income and realized and unrealized capital gains or losses of its respective investments and other assets. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

- **A.** Security valuation Each stock and convertible bond is valued at the latest sale price thereof on each business day of the fiscal period as reported by the principal securities exchange on which the issue is traded or, if no sale is reported for a stock, the average of the latest bid and asked prices. Bonds, other than convertible bonds, are valued using a pricing system provided by a pricing service or dealer in bonds. Convertible bonds are valued using this pricing system only on days when there is no sale reported. Stocks which are traded over-the-counter are priced using the Nasdaq Stock Market, which provides information on bid and asked prices quoted by major dealers in such stocks. Securities for which quotations are not readily available or are deemed not to be reliable because of significant events or circumstances identified between the closing of their principal markets and the closing of the New York Stock Exchange are valued at fair value as determined in good faith under procedures established by and under the general supervision of the Trust's Board of Trustees. Management's valuation committee makes fair value determinations for the Trust, subject to the supervision of the Board of Trustees. Short-term debt securities, purchased with less than 60 days to maturity, are valued at amortized cost, which approximates market value. Shortterm debt securities denominated in foreign currencies are valued at amortized cost in that currency, prior to translation.
- B. Security transactions and related investment income Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Securities gains and losses are calculated on the identified cost basis. Premium and discount on the purchase of bonds are amortized for both financial and tax reporting purposes over the remaining lives of the bonds. Dividend income is recorded on the ex-dividend date, except certain dividends from foreign securities where the ex-dividend date may have passed, which are recorded as soon as the Fund is informed of the ex-dividend date. Interest income is recorded on the accrual basis. See Note 4 – Investment Securities Transactions.
- **C.** Foreign currency translations All assets and liabilities denominated in foreign currencies are translated into United States dollars daily. Purchases and sales of investment securities and accruals of income and expenses are translated at the rate of exchange prevailing on the date of the transaction. For assets and liabilities other than investments in securities, net realized and unrealized gains and losses from foreign currency translation arise from changes in currency exchange rates. The Trust combines fluctuations from currency exchange rates and fluctuations in market value when computing net realized and unrealized gain or loss from investments

- D. Forward foreign currency exchange contracts A forward foreign currency exchange contract (Forward Contract) is an obligation to purchase or sell a specific currency at a future date at a fixed price. Forward Contracts are marked-to-market daily at the applicable translation rates and the resulting unrealized gains or losses are reflected in the Trust's financial statements. Gains or losses are realized by the Trust at the time the Forward Contract is extinguished. Contracts may be extinguished either by entry into a closing transaction or by delivery of the currency. Risks may arise from the possibility that the other party will not complete the obligations of the contract and from unanticipated movements in the value of the foreign currency relative to the United States dollar. The Trust uses Forward Contracts to attempt to reduce the overall risk of its investments.
- **E. Federal income taxes** It is the Trust's policy to distribute all of its taxable income and capital gains to its shareholders and otherwise continue to qualify as a regulated investment company under the Internal Revenue Code. Accordingly, provision has not been made for Federal income taxes. Management of the Trust periodically reviews all tax positions to assess that it is more likely than not that the position would be sustained upon examination by the relevant tax authority based on the technical merits of each position. As of September 30, 2008, management believes that under this standard no liability for unrecognized tax positions is required. The Trust is subject to examination by U.S. federal and state authorities for returns filed for years after 2004. See Note 5 Federal Income Tax Matters.
- **F. Dividends and distributions** Dividends and distributions to shareholders are recorded by each Fund on the business day following record date. Net investment income dividends and capital gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are due to differing treatments for items such as deferral of wash sales and post-October losses, foreign currency transactions, net operating losses and expiring capital loss carryovers.
- **G. Repurchase agreements** Repurchase agreements are collateralized by the value of the resold securities which, during the entire period of the agreement, remains at least equal to the value of the loan, including accrued interest thereon. The collateral for the repurchase agreement is held by the custodian bank.
- H. Concentration of risk For Ivy Managed European/Pacific Fund, Ivy Managed International Opportunities Fund, Ivy Cundill Global Value Fund, Ivy European Opportunities Fund, Ivy International Balanced Fund, Ivy International Core Equity Fund, Ivy International Growth Fund, Ivy Pacific Opportunities Fund, Ivy Global Natural Resources Fund and Ivy Global Bond Fund, a Fund may have a significant investment in international securities. International investing involves additional risks, including currency fluctuations, political or economic conditions affecting the foreign country, investment and repatriation restrictions, and limited and less reliable investor information.
- I. New accounting pronouncements In March 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133" (SFAS 161). SFAS 161 amends and expands disclosures about derivative instruments and hedging activities. SFAS 161 requires qualitative disclosures about the objectives and strategies of derivative instruments, quantitative disclosures about the fair value amounts of and gains and losses on derivative instruments, and disclosures of credit-risk-related contingent features in hedging activities. SFAS 161 is effective for fiscal years beginning after November 15, 2008. The Trust will institute SFAS 161 during the fiscal year ending March 31, 2010 and its potential impact, if any, on its financial statements is currently being assessed by management.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

NOTE 2 – Investment Management and Payments to Affiliated Persons

Ivy Investment Management Company (IICO), a wholly owned subsidiary of Waddell & Reed Financial, Inc. (WDR), serves as the investment manager for each Fund. IICO provides advice and supervises investments for which services it is paid a fee. The fee is payable by each Fund at the following annual rates:

These fees are accrued daily and are paid monthly. However, IICO has voluntarily agreed to waive its management fee for Ivy Dividend Opportunities Fund, Ivy Global Bond, Ivy Managed European/Pacific Fund and Ivy Managed International Opportunities Fund on any day that the Fund's net assets are less than \$25 million, subject to IICO's right to change or modify this waiver. During the six-month period ended September 30, 2008, IICO voluntarily waived its fee as shown in the following table:

Ivy Global Bond Fund. \$56

Mackenzie Financial Corporation (MFC) serves as subadvisor to Ivy Global Natural Resources Fund under an agreement with IICO and receives a fee as follows:

Ivy International Balanced Fund	On the first \$100 Million	0.50%
	All net assets exceeding \$100 Million	0.40%

Pursuant to a Master Fund Accounting Services Agreement, IICO provides certain accounting and pricing services for each Fund. As of March 18, 2003, IICO assigned its responsibilities under the Accounting Services Agreement to Waddell & Reed Services Company (WRSCO), an indirect subsidiary of WDR. For these services, each Fund, other than Ivy Managed European/Pacific Fund and Ivy Managed International Opportunities Fund (the Ivy Managed Funds), pays WRSCO a monthly fee of one-twelfth of the annual fee shown in the following table:

Accounting Services Fee

Average Net Asset Level (in millions)					Annual Fee Rate for Each Level

In addition, for each class of shares in excess of one, each Fund pays WRSCO a monthly per-class fee equal to 2.5% of the monthly accounting services base fee.

Under the Accounting and Administrative Services Agreement for the Ivy Managed Funds, each Fund pays WRSCO, for its services, a monthly fee of one-twelfth of the annual fee shown in the following table:

Accounting and Administrative Services Fee

From	\$	750	to	\$1	,000	\$60,798
	\$1	,000 a	and (Ove	r	\$74,250

In addition, for each class of shares in excess of one, each of the Ivy Managed Funds pays WRSCO a monthly per-class fee equal to 1.25% of the monthly accounting services base fee.

Under the Shareholder Servicing Agreement, except for the Ivy Managed Funds, with respect to Class A, Class B, Class C, Class E and Advisor Class, for each shareholder account that was in existence at any time during the prior month: Ivy Balanced Fund, Ivy Dividend Opportunities Fund, Ivy International Balanced Fund, Ivy Real Estate Securities Fund, Ivy Small Cap Value Fund and Ivy Value Fund pay WRSCO a monthly fee of \$1.5792; Ivy Bond Fund, Ivy Global Bond Fund and Ivy Mortgage Securities Fund pay WRSCO a monthly fee of \$1.6958; and Ivy Cundill Global Value Fund, Ivy European Opportunities Fund, Ivy Global Natural Resources Fund, Ivy International Growth Fund, Ivy International Core Equity Fund and Ivy Pacific Opportunities Fund each pay WRSCO a monthly fee of \$1.5042. For Class I and Class Y shares, each Fund pays WRSCO a monthly fee at an annual rate of 0.15% of the average daily net assets of the class for the preceding month. For Class R shares, each Fund pays WRSCO a monthly fee at an annual rate of 0.20% of the average daily net assets of the class for the preceding month. Effective September 1, 2006, the Shareholder Servicing Agreement with respect to Class A, Class B and Class C shares has been revised so that each Fund pays WRSCO an annual fee (payable monthly) for each account of the Fund that is non-networked and is as shown above; however, WRSCO has agreed

to reduce that fee if the number of total shareholders accounts within the Complex (Waddell & Reed Advisors Funds, Waddell & Reed InvestEd Portfolios, Inc., Ivy Funds and Ivy Funds, Inc.) reaches certain levels. For certain networked accounts (that is, those accounts whose Fund shares are purchased through certain intermediaries), WRSCO has agreed to reduce its per account fees charged to the Funds to \$0.50 per month per shareholder account. Additional fees may be paid by the Funds to those intermediaries, not to exceed \$1.50 per shareholder account per month. Each Fund also reimburses WRSCO for certain out-of-pocket costs for all classes. Certain broker-dealers that maintain shareholder accounts with each Fund through an omnibus account provide transfer agent and other shareholder-related services that would otherwise be provided by WRSCO if the individual accounts that comprise the omnibus account were opened by their beneficial owners directly. WRSCO pays such broker-dealers a per account fee for each open account within the omnibus account, or a fixed rate (e.g., 0.10%) fee, based on the average daily net asset value of the omnibus account (or a combination thereof).

Under the Shareholder Servicing Agreement for the Ivy Managed Funds, no fee is charged to the Ivy Managed Funds as compensation for services rendered under this Shareholder Servicing Agreement. The Ivy Managed Funds do, however, reimburse any out-of-pocket expenses incurred by WRSCO in the performance of its duties under this Agreement, including long distance telephone communications costs; microfilm and storage costs for certain documents; forms, printing and mailing costs; charges of any sub-agent used by WRSCO in performing services under the Shareholder Servicing Agreement; and costs of legal and special services not provided by Ivy Funds Distributor, Inc. (IFDI), IICO or WRSCO.

Pursuant to an Administrative Services Agreement, IICO provides certain administrative services to each Fund. The administrative fee for each Fund is a monthly fee at the annual rate of 0.01% of each Fund's average daily net assets.

As principal underwriter for the Trust's shares, IFDI receives sales commissions (which are not an expense of the Trust) for Class A and Class E shares. A contingent deferred sales charge (CDSC) may be assessed against a shareholder's redemption amount of Class B, Class C or certain Class A and Class E shares and is paid to IFDI. During the six-month period ended September 30, 2008, IFDI received the following amounts in sales commissions and CDSC:

Under a Distribution and Service Plan for Class A, Class B, Class C, Class E, Class R and Class Y shares adopted by the Trust on behalf of each Fund (other than the Ivy Managed Funds) and a Distribution and Service Plan for Class A, Class B, Class C, Class E and Class Y shares adopted by the Trust on behalf of the Ivy Managed Funds, each Fund may pay certain amounts pursuant to Rule 12b–1 under the Investment Company Act of 1940. For Class A shares, each Fund may pay a distribution and/or service fee to IFDI in an amount not to exceed 0.25% of the Fund's average annual net assets attributable to that class. The fee is to be paid to reimburse IFDI (or compensate IFDI with respect to Ivy Managed Funds) for amounts it expends in connection with the distribution of the Class A shares and/or provision of personal services to Fund shareholders and/or maintenance of shareholder accounts.

For Class B shares and Class C shares, each Fund may pay IFDI a service fee in an amount not to exceed 0.25% of the Fund's average annual net assets attributable to that class. The fee is to be paid to reimburse IFDI (or compensate IFDI with respect to the Ivy Managed Funds) for amounts it expends in connection with the provision of personal services to Fund shareholders and/or maintenance of shareholder accounts.

For Class B shares and Class C shares, each Fund may pay IFDI a distribution fee not to exceed 0.75% of the Fund's average annual net assets attributable to that class to compensate IFDI for its services in connection with the distribution of shares of that class. The Class B Plan and the Class C Plan each permit IFDI to receive compensation, through the distribution fee, for its distribution activities for that class.

For Class E shares, each Fund may pay IFDI, the principal underwriter for the Fund, a fee up to 0.25% of the Fund's average annual net assets attributable to Class E shares, paid daily, to compensate IFDI for its costs and expenses in connection with, either directly or through others, the distribution of the Class E shares, the provision of personal services to Class E shareholders and/or maintenance of Class E shareholder accounts. The Class E Plan permits IFDI to be compensated for these Class E-related distribution activities through the distribution fee, subject to the limit contained in the Plan. The Class E Plan also permits IFDI to be compensated for amounts it expends: in compensating, training and supporting registered financial advisors, sales manager and/or other appropriate personnel in providing personal services to Class E shareholders of the funds and/or maintaining Class E shareholder accounts; increasing services provided to Class E shareholders of the Funds by office personnel located at field sales offices; engaging in other activities useful in providing personal service to Class E shareholders of the Funds and/or maintenance of Class E shareholder accounts; and in compensating broker-dealers and other third parties who may regularly sell Class E shares of the Funds, and may regularly provide shareholder services and/or maintain shareholder accounts with respect to Class E shares.

For Class R shares of Ivy Global Natural Resources Fund and Ivy Real Estate Securities Fund, each Fund may pay IFDI a fee of up to 0.50%, on an annual basis, of the average daily net assets attributable to that class to compensate IFDI for, either directly or through third parties, distributing the Class R shares of that Fund, providing personal service to Class R shareholders and/or maintenance of Class R shareholder accounts.

For Class Y shares, each Fund may pay IFDI a fee of up to 0.25%, on an annual basis, of the average daily net assets attributable to that class to compensate IFDI for, either directly or through third parties, distributing the Class Y shares of that Fund, providing personal service to Class Y shareholders and/or maintenance of Class Y shareholder accounts.

For Ivy Cundill Global Value Fund, Ivy Global Natural Resources Fund, Ivy International Core Equity Fund and Ivy Pacific Opportunities Fund, IICO has contractually agreed to reimburse a Fund's expenses, for the calendar year ended December 31, 2006, and for the following five years, to the extent necessary to ensure that the Fund's annual operating expenses, when calculated at the Fund level, do not exceed 2.50% of the Fund's average net assets (excluding 12b-1 fees and certain other expenses). During the six-month period ended September 30, 2008, IICO did not reimburse any expenses under this agreement.

In addition, IFDI and WRSCO have voluntarily agreed to waive sufficient Fund expenses to ensure that the total annual fund operating expenses do not exceed the following levels for the specified funds/classes:

The Funds have adopted an Expense Reimbursement Plan regarding the Service Fees paid by Class A, Class B and Class C. The Plan allows for the current payment of expenses from prior years that were not paid at that time due to the respective Class at the 0.25% limit for reimbursement. In future years, should a Class have Service Fees below the 0.25% limit, IFDI could at that time request payment of some or all of the amounts disclosed below, still subject to the 0.25% limit:

During the six-month period ended September 30, 2008, the Funds paid Trustees' regular compensation of \$133, which is included in other expenses.

NOTE 3 – Investment Valuations

The Trust has instituted Financial Accounting Standards Board Statement of Financial Accounting Standards No.157, Fair Value Measurements (FAS 157). In accordance with FAS 157, fair value is defined as the price that each Fund would receive upon selling an asset or paying to transfer a liability in an orderly transaction between market participants at the measurement date. FAS 157 also establishes a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. An individual investment's fair value measurement is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments)

The following tables summarize the valuation of each Fund's investments by the above FAS 157 fair value hierarchy levels as of September 30, 2008:

NOTE 6 – Multiclass Operations

Each Fund within the Trust offers five classes of shares, Class A, Class B, Class C, Class I and Class Y, and all Funds except Ivy Small Cap Value Fund, Ivy Value Fund, Ivy Managed European/ Pacific Fund, Ivy Managed International Opportunities Fund, Ivy European Opportunities Fund, Ivy International Growth Fund, Ivy Pacific Opportunities Fund, Ivy Balanced Fund and Ivy Global Bond Fund offer Class E shares to the public. Each share class has equal rights as to assets and voting privileges. In addition, Ivy Global Natural Resources Fund and Ivy Real Estate Securities Fund offer Class R shares, which also have equal rights as to assets and voting privileges. Ivy Cundill Global Value Fund, Ivy European Opportunities Fund, Ivy Pacific Opportunities Fund and Ivy Global Natural Resources Fund also offered Advisor Class shares. Advisor Class shares are no longer available for investment. A comprehensive discussion of the terms under which shares of each class are offered is contained in the Prospectuses and the Statement of Additional Information for the Trust.

Income, non-class specific expenses, and realized and unrealized gains and losses are allocated daily to each class of shares based on the value of their relative net assets as of the beginning of each day adjusted for the prior day's capital share activity.

NOTE 7 – Options

Options purchased by a Fund are accounted for in the same manner as marketable portfolio securities. The cost of portfolio securities acquired through the exercise of call options is increased by the premium paid to purchase the call. The proceeds from securities sold through the exercise of put options are decreased by the premium paid to purchase the put.

When a Fund writes (sells) an option, an amount equal to the premium received by the Fund is recorded as a liability. The amount of the liability is subsequently adjusted to reflect the current market value of the option written. The current market value of an option is the last sales price on the principal exchange on which the option is traded or, in the absence of transactions, the mean between the bid and asked prices or at a value supplied by a broker-dealer. When an option expires on its stipulated expiration date or a Fund enters into a closing purchase transaction, the Fund realizes a gain (or loss if the cost of a closing purchase transaction exceeds the premium received when the call option was sold) and the liability related to such option is extinguished. When a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Fund has realized a gain or loss. For each Fund, when a written put is exercised, the cost basis of the securities purchased by the Fund is reduced by the amount of the premium received. Investments in options, whether purchased or written, involve certain risks. Writing put options and purchasing call options may increase the Fund's exposure to the underlying security (or basket of securities). Purchasing put options and writing call options may decrease the Fund's exposure to the underlying security (or basket of securities). With written options, there may be times when the Fund will be required to purchase or sell

securities to meet its obligation under the option contract where the required action is not beneficial to the Fund, due to unfavorable movement of the market price of the underlying security (or basket of securities). Additionally, to the extent the Fund enters into over-the-counter (OTC) option transactions with counterparties, the Fund will be exposed to the risk that counterparties to these OTC transactions, for whatever reason, will be unable to meet their obligations under the terms of the transaction.

For Ivy Value Fund, transactions in written call options were as follows:

	Number of Contracts	Premiums Received
Outstanding at March 31, 2008	_*	\$ 3
Options written	2	283
Options terminated in closing purchase transactions	(1)	(180)
Options exercised	(—)	(—)

NOTE 8 - Futures

No price is paid upon entering into a futures contract. Instead, upon entering into a futures contract, a Fund is required to deposit, in a segregated account, an amount of cash of liquid securities equal to a varying specified percentage of the contract amount. This amount is known as the initial margin. Subsequent payments (variation margins) are made or received by the Fund each day, dependent on the daily fluctuations in the value of the underlying debt security or index. These changes in the variation margins are recorded by the Fund as unrealized gains or losses. Upon the closing of the contracts, the cumulative net change in the variation margin is recorded as realized gain or loss. A Fund uses futures to attempt to reduce the overall risk of its investments or to enhance returns. The risks of futures contracts include the possibility there may be an illiquid secondary market, that a change in the value of the contract may not correlate with the changes in the value of the underlying securities or index, and/or the possible inability of the counterparty to fulfill its obligations under the agreement.

NOTE 9 - Commitment

In connection with Ivy Pacific Opportunities Fund's investment in Vietnam Azalea Fund Limited (VAF), the Fund is contractually committed to provide additional capital of up to \$2,100 if and when VAF requests such contributions or draw downs. The total commitment is limited to \$5,000. At September 30, 2008, Ivy Pacific Opportunities Fund had made a total contribution of \$2,900. No public market currently exists for the shares of VAF nor are the shares listed on any securities exchange. VAF intends to become listed within one year after the final commitment has been drawn down.

NOTE 10 – Affiliated Company Transactions

The Ivy Managed Funds make investments in funds within the Ivy Funds family, which funds may be deemed to be under common control because the Funds share the same Board of Trustees. A summary of the transactions in each underlying fund during the six-month period ended September 30, 2008 follows:

NOTE 11 – Name Changes

On June 2, 2008, Ivy Dividend Income Fund changed its name to Ivy Dividend Opportunities Fund and changed its investment objective to the provision of total return. In addition, Ivy Global Strategic Income Fund changed its name to Ivy Global Bond Fund on the same date.

NOTE 12 - Senior Loans

Ivy Global Bond Fund invests in senior secured corporate loans either as an original lender or as a purchaser of a loan assignment or a participation interest in a loan. Senior Loans are generally made to U.S. and foreign borrowers that are corporations, partnerships, or other business entities. Senior Loans are generally readily marketable, but some loans may be illiquid or be subject to some restrictions on resale. These loans are valued using a composite price from more than one broker or dealer as obtained from a pricing service. As of September 30, 2008, Ivy Global Bond Fund owned Senior Loans with an aggregate market value of \$245 representing 0.63% of the Fund's net assets.

Renewal of Investment Management Agreements for the Ivy Funds

At a meeting of the Board of Trustees the Trust held on August 26 and 27, 2008, the Trustees, including all of the Trustees who are not "interested persons" as defined in Section 2(a)(19) of the Investment Company Act of 1940 (the "Independent Trustees"), unanimously approved the continuance of the existing management agreements between IICO and the Trust. The existing management agreements considered were (i) the Master Business Management and Investment Advisory Agreement and all current supplements thereto between the Trust and IICO (with respect to the Ivy Cundill Global Value Fund, Ivy European Opportunities Fund, Ivy International Growth Fund, Ivy International Core Equity Fund and the Ivy Pacific Opportunities Fund); (ii) the Investment Management Agreement between the Trust and IICO (with respect to the Ivy Dividend Opportunities Fund, Ivy Global Bond Fund, Ivy Managed European/Pacific Fund and Ivy Managed International Opportunities Fund); (iii) the Investment Management Agreement between the Trust and IICO (with respect to the Ivy Balanced Fund, Ivy Bond Fund, Ivy Global Natural Resources Fund, Ivy International Balanced Fund, Ivy Mortgage Securities Fund, Ivy Real Estate Securities Fund, Ivy Small Cap Value Fund and the Ivy Value Fund); and (iv) the Subadvisory Agreements between IICO and:

- Henderson Investment Management Limited and Henderson Global Investors (North America) Inc. (Ivy European Opportunities Fund)
- Advantus Capital Management, Inc. (Ivy Bond Fund, Ivy Mortgage Securities Fund, Ivy Real Estate Securities Fund)
- Templeton Investment Counsel, LLC (Ivy International Balanced Fund)
- Mackenzie Financial Corporation (Ivy Cundill Global Value Fund and Ivy Global Natural Resources Fund).

(each such subadviser referred to herein as a "Subadviser").

The Independent Trustees were assisted in their review by independent legal counsel, and met with such counsel separately from representatives of IICO. Independent legal counsel provided the Board with a memorandum that discussed the various factors that the Board should consider as part of its review of the various agreements, including, among other things, the nature and the quality of the services provided by IICO, profitability (including any fall-out benefits) from the relationships with the Funds, economies of scale, the role played by the Independent Trustees, and information on comparative fees and expenses. The Board also considered the written responses and supplementary materials produced by IICO and each Subadviser in response to a 15(c) due diligence request list submitted by the Independent Trustees' counsel prior to the meeting. Included in those responses, which had been provided to the Board prior to the meeting, was a Fund-by-Fund profitability analysis prepared by IICO, as well as an explanation of the methodology by which the profitability analysis was calculated. The Board also received extensive materials on performance, expenses and comparable fund information from Lipper, Inc., an independent mutual fund rating service. Finally, the Independent Trustees received and reviewed a considerable amount of information that their independent fee consultant had provided to them. The Independent Trustees previously had reviewed these materials during a telephonic meeting earlier in August. They further reviewed these materials extensively among themselves, with their independent legal counsel and independent fee consultant, and with the other Board members at the August 26th and 27th Board meeting, after which the Board considered various factors described below, none of which by itself was considered dispositive. However, the material factors and conclusions that formed the basis for the Board's determination to approve the agreements are discussed separately below.

Nature, Extent and Quality of Services

The Board considered the nature, extent and quality of services provided to all the Funds by IICO and each Subadviser, taking into account the vast amount of materials produced by IICO and each Subadviser in response to the 15(c) due diligence request list submitted on their behalf by counsel and which they had discussed during a teleconference earlier in the month. They also considered the knowledge they had received from the regular meetings of the Board, including from the materials provided in connection with those meetings, such as the resources and key personnel of IICO and each Subadviser, as well as the other services provided to the Funds by IICO and each Subadviser (such as, managing the quality of execution of portfolio transactions and the selection of broker-dealers for those transactions, monitoring adherence to each Fund's investment restrictions, producing reports, providing support services for the Board and Board committees, communicating with shareholders and overseeing the activities of other service providers, including monitoring compliance with various Fund policies and procedures and with applicable securities laws and regulations). The Board also noted the accolades that the Funds had received during the year from the financial media, including Barrons. The Board concluded that the nature and extent of the services provided by IICO and each Subadviser were appropriate, that the quality of those services had been consistent with quality norms in the industry and that the Funds were likely to benefit from the continued provision of those services.

Benefits from the Relationship with the Funds

The Board next discussed whether IICO or any Subadviser derives any other direct or indirect benefit from serving the Funds. The Board considered benefits that accrue to each organization from its respective relationship with a Fund, including the fact that a variety of services are provided by affiliates of IICO, including distribution, shareholder servicing and transfer agency services. After full consideration of these and other factors, the Board concluded that none of IICO, any Subadviser or any of their affiliates receive any additional direct or indirect benefits that would preclude the Board from approving the continuation of the investment advisory contract with IICO or the investment sub-advisory agreements.

Economies of Scale

The Board discussed whether economies of scale are being realized by the Funds and whether fee levels reflect those economies of scale for the benefit of the Funds' shareholders. In that context, the Board discussed the current level of the Funds' advisory fee breakpoints and also considered the current and anticipated asset levels of the Funds and the potential for growth in each Fund. The Board also noted that as the assets of the Funds continue to increase, the Funds' expense ratios generally continue to fall. The Board concluded that the Funds' asset size and fee structures did not warrant the restructuring or reevaluation of the fee breakpoints for the Funds at the current time.

Performance of the Funds and Costs of Services Provided

The Board considered, on a Fund by Fund basis, the performance of each Fund and the costs of the services provided. The Board focused particularly on the Ivy Bond Fund, Ivy Cundill Global Value Fund, Ivy European Opportunities Fund and the Ivy Real Estate Securities Fund. In addition, the Board considered that IICO had recently commenced direct portfolio management responsibilities for the Ivy Small Cap Value Fund, replacing the Fund's Subadviser.

Specifically, the Board examined the investment performance of each Fund, including quintile ranking for short- and long-term time periods and each Fund's performance against its peers. The Board also examined the performance of each Fund against its respective Lipper index for the same periods. After extensively reviewing all of the performance information provided, the Board concluded that the Funds' performance in each asset class was acceptable. Although the performance of some of the focus Funds identified by the independent fee consultant lagged that of their peers or respective Lipper index, the Board recognized that IICO or the applicable Subadviser had taken, or was taking, steps to address that underperformance, and determined to continue to monitor closely the performance of those Funds.

The Board also considered the expenses of each Fund, the expense ratio of each Fund, and the expense limitation arrangements entered into (and with respect to Class E and Class Y shares of certain Funds, the expense limitation agreements proposed to be entered into) by IICO in light of the services provided by IICO and each Subadviser. The Board also compared each Fund's expenses, including advisory, distribution and shareholder servicing fees, with the expenses and advisory fees of other investment advisers managing similarly situated funds, as well as the advisory fees that IICO (or an affiliate) charges for providing advisory services to separately managed accounts in the same asset class for certain Funds. In that regard, the Board noted that IICO performs significant additional services for those Funds. The Board also took into account the information on IICO's profitability in managing the Funds, including the methodology used to calculate profitability. The Board finally considered the amount of assets in each Fund, each Fund's average account size and how those factors affect the Funds' expense ratios. After completing this examination, the Independent Directors concluded that each Fund's expenses are appropriate at the current time.

Independent Fee Consultant Review

The Disinterested Directors/Trustees for each of the mutual funds has appointed an independent fee consultant. Posted below is a summary of the written fee evaluation of such consultant for the most recent year.

During August of 2008, and as part of their regularly scheduled meetings, the Disinterested Trustees of Ivy Funds and the Disinterested Directors of Ivy Funds, Inc. (collectively, the "Ivy Funds" and any separate series thereof an "Ivy Fund") reviewed significant information in connection with considering the continuation of existing investment management agreements currently in effect between Ivy Investment Management Company ("IICO") and the Ivy Funds. Pursuant to the Assurance of Discontinuance between Waddell & Reed, Inc., Waddell & Reed Services Company ("WRSCO"), and Waddell & Reed Investment Management Company (collectively, "Waddell") and the Office of the New York Attorney General dated July 10, 2006 ("Assurance of Discontinuance"), the Disinterested Trustees/Directors of the Ivy Funds engaged an independent fee consultant to assist them in evaluating the reasonableness of the management fees charged by IICO, an affiliate of Waddell, to the Ivy Funds. The independent fee consultant's review addressed the following fee-related factors:

- 1. The nature and quality of IICO's services to the Ivy Funds, including performance
- Management fees (including any components thereof) charged by other mutual fund companies for like services
- Management fees (including any components thereof) charged to institutional and other clients of IICO for like services
- 4. Costs to IICO and its affiliates of supplying services pursuant to the management fee agreements, excluding any intra-corporate profit
- 5. Profit margins of IICO and its affiliates from supplying such services
- 6. Possible economies of scale as a fund grows larger

The following summarizes the findings of the independent fee consultant retained by the Disinterested Trustees/Directors.

Summary Findings

The report stated that IICO delivered strong levels of performance and service to the Ivy Funds in relation to its management fees and relative to investment advisers of comparable mutual funds. For the 36 months ended March 31, 2008, when compared to their respective peer groups established by Lipper, Inc. ("Lipper"), approximately 36% of the Ivy Funds were in the top quartile of performance and 60% of the Ivy Funds were in the top two quartiles. The independent fee consultant noted that the Ivy Funds' performance appeared to be grounded in a number of institutional competitive advantages at IICO, including stock selection ability, ability to attract top talent, strategic vision, performance-focused culture, ability to manage smaller AUM funds, ability to serve small account sizes and an effective trading infrastructure.

The report stated that for the 12 months ended March 31, 2008, the total expenses of the Ivy Funds on average were 1% above the mean total expenses of their respective Lipper Expense Group peers and 9% below the mean total expenses for their Lipper Expense Universes. The management fees for the Ivy Funds on average were 0.1% above the mean management fees for their Lipper Expense Groups and 2% above the means for their Lipper Expense Universes. The independent fee consultant noted that the Ivy Funds' small average account size and small fund AUM introduces certain biases in the Lipper analyses that work against Ivy Funds in Lipper expense comparisons and, as a result, the Lipper findings may be considered conservative in that regard. The independent fee consultant found that within the larger Lipper averages the management fees and total expenses of individual Ivy Funds and share classes are reasonable relative to their performance.

The report stated that the management fees IICO charges to the Ivy Funds also are reasonable in relation to the management fees it charges to its other institutional accounts. The report noted that these institutional accounts have different service and infrastructure needs and in addition that, based on industry data, the average spread between management fees charged to the Ivy Funds and those charged to institutional accounts is below the average fee spreads observed at other investment advisers.

The independent fee consultant found that the level of profit earned by IICO from managing the Ivy Funds does not appear to be unreasonable. The report noted that Waddell's overall profitability from managing the Ivy Funds and its other operations is below the mean profitability of other publicly traded peers, but appears adequate to enable IICO to continue to provide quality support to the Ivy Funds and their shareholders.

The report stated that an economy of pricing analysis was undertaken by the independent fee consultant that showed that Ivy Funds incur lower fees and expenses with increasing fund AUM and with increasing average account size which the independent fee consultant believes should benefit Ivy Fund investors as the Ivy Funds mature.

Conclusions

The independent fee consultant concluded that the services provided by IICO and its affiliates and expenses incurred by the Ivy Funds over the year ending August 31, 2008 are reasonable and provide adequate justification for renewal of the Ivy Funds' existing advisory agreements.
