Liquidity and Capital Resources, page 44

1. You indicate on page 44 that cash provided by operating activities was affected by a net increase of \$55.8 million in inventory balances. Further, Note 6 to the condensed consolidated financial statements indicates increases in raw materials by \$60.7 million, work in process by \$28 million and finished goods by \$31.8 million during the nine months ended September 30, 2013. Please provide us proposed disclosure to be included in future periodic reports explaining the reasons for these increases.
