Management's Discussion and Analysis..., Page 16

1. We note your response that the VPO and VPC metrics are not used to manage the execution side of your business and are not key performance indicators. However, we note the statement that you "utilize" two proprietary techniques to magnify these measures, which "creates growth never before thought possible." We also note the statement in your press release furnished May 8, 2017 that an "impressive VPO calculator that was reflected on the cover of our fiscal year 2015 Proxy is flashing solid green numbers as we bring FY2017 to a close." Please provide an expanded response that explains the VPO and VPC metrics and reconciles the statements above with the statement that VPO and VPC are not utilized to manage your business and are not key performance indicators.
