We remain financially strong and well positioned to capture value as global markets recover.”*

  - Agricultural Services operating profit decreased on weaker global demand for agricultural commodities and less favorable risk management results.
  - Other operating profit decreased due principally to investment and insurance losses.

## 2009 Strategic Investment Activities

In Fiscal 2009, the Company advanced its strategy to expand the size and global reach of its core model:

- ▶ The Company continued to build out its major projects, completing construction of a co-generation plant in Clinton, Iowa. It advanced construction on ethanol dry mills in Columbus, Neb.; and Cedar Rapids, Iowa; on a co-generation plant in Columbus, Neb.; on a cocoa processing facility in Hazleton, Pa.; and on plants to produce renewable plastic and propylene/ethylene glycol.
- ▶ The Company further enhanced its processing operations with capacity expansions and selective acquisitions. In North America, it grew its oilseeds processing, milling and cocoa processing capacity. In Europe, it acquired an oilseed processing facility and an industrial chocolate business. And in South America, it expanded its biodiesel production and fertilizer blending capacity, and it acquired an oil packaging facility.
- ▶ The Company expanded its global origination and transportation network, adding barges and silos in North and South America and acquiring oceangoing vessels.
- ▶ The Company formed strategic joint ventures. To enhance the value of its North American packaged oils business, it formed Stratas Foods, LLC, with Associated British Foods plc. In Brazil, it joined with Grupo Cabrera, adding sugarcane to its feedstock base and constructing two sugar and ethanol plants, the first of which is expected to begin production this fall.

## Discussion of Operations

Net sales and other operating income decreased 24 % to \$ 16.5 billion for the quarter and decreased 1 % to \$ 69.2 billion for the year. For the quarter, decreased average selling prices reduced net sales and other operating income by approximately \$ 5.8 billion and were partially offset by higher sales volumes. Average selling prices decreased in line with year-over-year declines in underlying commodity costs and foreign exchange translation impacts. For the year, a decrease in net sales and other operating income of approximately 3 % resulted from lower sales volumes and was partially offset by an increase related to higher average selling prices of approximately 2 %.

A summary of segment operating profit and net earnings is as follows:

	Quarter ended			Year ended

### Discussion of Operations (Continued)

Segment operating profit decreased \$ 569 million for the quarter and \$ 988 million for the year. Corporate results increased \$ 92 million for the quarter and \$ 898 million for the year. Income taxes decreased \$ 169 million for the quarter and increased \$ 5 million for the year. Income taxes include charges resulting from a holding company restructuring related to a portion of the Company's equity investment in Wilmar International Limited of \$ 61 million and \$ 158 million for the quarter and year, respectively. In addition, income taxes for the quarter and year were positively impacted by geographic mix of earnings, currency translation impacts in South America, and return to provision adjustments.

### Oilseeds Processing Operating Profit

	Quarter ended June 30			Year ended June 30		
	2009	2008	Change	2009	2008	Change
Crushing and origination	\$ 141	\$276	\$ (135)	\$ 767	\$ 727	\$ 40
Refining, packaging, biodiesel and other	21	34	(13)	265	181	84
Asia	65	65	–	248	132	116
Total Oilseeds Processing	<u>\$ 227</u>	<u>\$375</u>	<u>\$ (148)</u>	<u>\$ 1,280</u>	<u>\$1,040</u>	<u>\$ 240</u>

Oilseeds Processing operating profit decreased \$ 148 million for the quarter and increased \$ 240 million for the year. Crushing and origination results declined \$ 135 million for the quarter on lower North American crush volumes and cash margins, and decreased soy crush and grain origination volumes and margins in Europe. Crushing and origination results increased \$ 40 million for the year as global crushing margins improved. Year-over-year fertilizer sales volumes and margins decreased and North American crush volumes declined due to lower demand.

Refining, packaging, biodiesel and other operating profit decreased \$ 13 million for the quarter. Decreased European biodiesel margins and restructuring charges related to the Stratas JV negatively impacted results. Refining, packaging, biodiesel and other results increased \$ 84 million for the year due to increased biodiesel sales volumes in South America, increased average margins for value-added products and asset abandonment charges of \$ 27 million included in the prior year.

Oilseeds results in Asia were unchanged for the quarter and increased \$ 116 million for the year as the Company's investments, principally the equity interest in Wilmar International Limited, continued to perform well.

### Corn Processing Operating Profit

	Quarter ended June 30			Year ended June 30		
	2009	2008	Change	2009	2008	Change
Sweeteners and starches	\$ 149	\$ 139	\$ 10	\$ 500	\$557	\$ (57)
Bioproducts	(160)	123	(283)	(315)	404	(719)
Total Corn Processing	<u>\$ (11)</u>	<u>\$ 262</u>	<u>\$ (273)</u>	<u>\$ 185</u>	<u>\$961</u>	<u>\$ (776)</u>

Corn Processing operating profit decreased \$ 273 million for the quarter and \$ 776 million for the year. Sweeteners and starches operating profit increased \$ 10 million for the quarter on higher average sweetener selling prices and lower manufacturing costs partially offset by higher net corn costs and reduced sales volumes. For the year, sweeteners and starches operating profit decreased \$ 57 million due to the impacts of higher net corn costs partially offset by higher average sweetener selling prices.

Bioproducts operating profit decreased \$ 283 million for the quarter and decreased \$ 719 million for the year. Ethanol and lysine margins declined significantly due to higher net corn costs and lower average selling prices for the quarter and year, while manufacturing costs decreased for the quarter.

### Agricultural Services Operating Profit

	Quarter ended June 30			Year ended June 30		
	2009	2008	Change	2009	2008	Change
Merchandising and handling	\$ (29)	\$ 88	\$ (117)	\$ 832	\$ 873	\$ (41)
Transportation	12	18	(6)	162	144	18
Total Agricultural Services	<u>\$ (17)</u>	<u>\$106</u>	<u>\$ (123)</u>	<u>\$ 994</u>	<u>\$1,017</u>	<u>\$ (23)</u>

Agricultural Services operating profit decreased \$ 123 million for the quarter and \$ 23 million from last year's record level. Merchandising margins were weaker as demand for commodities slowed with the downturn in the global economy. Results were also negatively impacted by less favorable risk management results. For the year, merchandising and handling operating profit decreased \$ 41 million, primarily due to the decline in fourth-quarter results.

Transportation results increased \$ 18 million for the year mainly due to higher barge freight rates.

### Other Operating Profit

	Quarter ended June 30			Year ended June 30		
	2009	2008	Change	2009	2008	Change
Processing	\$ 20	\$12	\$ 8	\$ 51	\$217	\$ (166)
Financial	(11)	22	(33)	(57)	206	(263)
Total Other	<u>\$ 9</u>	<u>\$34</u>	<u>\$ (25)</u>	<u>\$ (6)</u>	<u>\$423</u>	<u>\$ (429)</u>

Other operating profit decreased \$ 25 million for the quarter and \$ 429 million for the year. Other processing operating profit increased \$ 8 million for the quarter. Improved global wheat milling margins and a gain related to the disposal of the Company's malting business were partially offset by a decline in cocoa processing sales volumes and Gruma S.A.B. de C.V. equity losses. Other processing operating profit decreased \$ 166 million for the year primarily due to equity losses from the Company's investment in Gruma, partially offset by improved cocoa processing and wheat processing margins.

Financial operating profit decreased \$ 33 million for the quarter and \$ 263 million for the year due to losses on managed fund investments, increased captive insurance loss provisions and decreased interest income of the Company's brokerage services business.
