PART I

Item 1. Business

The Registrant, American Republic Realty Fund I, (the "Partnership"), is a limited partnership organized under the Wisconsin Uniform Limited Partnership Act pursuant to a Certificate of Limited Partnership dated December 22, 1982. As of December 31, 2003, the Partnership consisted of an individual general partner, Mr. Robert J. Werra, (the "General Partner") and 698 limited partners owning 11,000 limited partnership interests at \$1,000 per interest. The distribution of limited partnership interests commenced May 2, 1983 and ended April 17, 1984, pursuant to a Registration Statement on Form S-11 under the Securities Act of 1933 (Registration #0-11578) as amended.

The Partnership was organized to acquire a diversified portfolio of income-producing real properties, primarily apartments, as well as office buildings, industrial buildings, and other similar properties.

During 1983 and 1984, the Partnership acquired four properties: Kenwood Gardens Apartments, a 104 unit apartment community located in Fort Myers, Florida (acquired on September 1, 1983, subsequently disposed of by sale during 1988), Jupiter Plaza Office/Showroom, a 131,440 rentable square foot commercial building located in Garland, Texas (acquired on September 29, 1983, subsequently disposed of in foreclosure during 1988), Four Winds Apartments, a 154 unit apartment community located in Orange Park, Florida (Phase I acquired September 12, 1983 and Phase II acquired May 1, 1984) and Forestwood Apartments (formerly Oak Creek) a 263 unit apartment community located in Bedford, Texas (acquired December 20, 1983). No additional properties were purchased by the Partnership and the Partnership will not acquire additional properties in the future. The properties remaining are described more fully in this report at "Item 2. Properties".

Univesco, Inc. ("Univesco"), a Texas corporation, eighty three percent owned by Robert J. Werra ("Univesco") manages the affairs of the Partnership. Univesco acts as the managing agent with respect to the Partnership's properties. Univesco may also engage other on-site property managers and other agents to the extent the management considers appropriate. The General Partner has ultimate authority regarding property management decisions.

The Partnership competes in the residential rental markets. Univesco prepared marketing analyses for all property areas and determined that these areas contain other like properties which are considered competitive on the basis of location, amenities and rental rates. It is realistic to assume that additional properties similar to the foregoing will be constructed within their various market areas.

No material expenditure has been made or is anticipated for either Partnership-sponsored or consumer research and development activities relating to the development or improvement of facilities or services provided by the Partnership. There neither has been, nor are any anticipated, material expenditures required to comply with any federal, state, or local environmental provisions which would materially affect the earnings or competitive position of the Partnership.

The Partnership is engaged solely in the business of real estate investments. Its business is believed by management to fall entirely within a single industry segment. Management does not anticipate that there will be any material seasonal effects upon the operation of the Partnership.

Competition and Other Factors

The majority of the Properties' leases are six to twelve month terms. Accordingly, operating income is highly susceptible to changing market conditions. Occupancy and local market rents are driven by general market conditions which include job creation, new construction of single and multi-family projects, and demolition and other reduction in net supply of apartment units.

Rents have generally been increasing in recent years due to the generally positive relationship between apartment unit supply and demand in the Partnership's markets. However, the properties are subject to substantial competition from similar and often newer properties in the vicinity in which they are located. In addition, operating expenses and capitalized expenditures have increased as units are updated and made more competitive in the market place. (See Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations".)

Item 2. Properties

At December 31, 2004 the Partnership owned two properties with approximately 416,623 net rentable square feet. Both properties are apartment communities.

<u>Name and Location</u>	<u>General Description of the Property</u>
Forestwood Apartments	A fee simple interest in a 263-unit apartment community located in Bedford, Texas, purchased in 1983 containing 244,407 net rentable square feet on approximately 14 acres of land.
Four Winds Apartments Phase I	A fee simple interest in a 100-unit community, located in Orange Park, Florida, purchased in 1983, containing approximately 110,716 net rentable square feet on 10 acres of land.
Four Winds Apartments Phase II	A fee simple interest in a 54-unit apartment community located in Orange Park, Florida, adjacent to four Winds Apartments I, purchased in 1984 and containing approximately 61,500 net rentable square feet on 3.73 acres of land.

The Properties are encumbered by non-recourse mortgages payable. For information regarding the encumbrances to which the properties are subject and the status of the related mortgage loans, see "Management's Discussion and Analysis of Financial Condition and Results of Operating – Liquidity and Capital Resources" contained in Item 7 hereof and Note B to the Financial Statements contained in Item 8.

Item 3. Legal Proceedings

None.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of the unit holders of the Partnership during the fourth quarter of 2004.

By virtue of its organization as a limited partnership, the Partnership has outstanding no securities possessing traditional voting rights. However, as provided and qualified in the Limited Partnership Agreement, limited partners have voting rights for, among other things, the removal of the General Partner and dissolution of the Partnership.

PART II

Item 5. Market for the Partnership's Securities and Related Unit Holder Matters

The Partnership's outstanding securities are in the form of Limited Partnership Interests ("Interests"). The distribution period for the sale of the Interests began May 2, 1983, and closed April 17, 1984. As of December 31, 2004 there were approximately 659 limited partners owning 11,000 limited partnership interests at \$1,000 per interest. A public market for trading Interests has not developed and none is expected to develop. In addition, transfer of an Interest is restricted pursuant to the Limited Partnership Agreement.

Although a public market for trading Interests has not developed, MP Value Fund 5, LLC acquired 1,444.5 units, approximately 13.1%, of the outstanding Interests of the partnership during 1999. During 2003 MP Value Fund 5, LLC transferred these units to Branzan Alternative Investment Fund LLLC. On October 25, 2004 these units were transferred to Everest Management who now own 2,762 units or 25.1% of the outstanding Interests of the partnership. During 2002 and 2003 Equity Resources acquired 617.5 units or 5.6% of the fund. The registrant knows of no other activity involving the sale or acquisition of Interest.

The General Partner continues to review the Partnership's ability to make distributions on a quarter-by-quarter basis, however, no such distributions have been made and none are anticipated in the immediate future due to the debt service requirements of the Partnership.

An analysis of taxable income or (loss) allocated, and cash distributed to Investors per \$1,000 unit is as follows:

Interest income decreased \$882 due to a decrease in available funds for investment during 2004. The decrease in other revenues of \$1,098 were principally caused by a decrease in fees from tenants. The following table illustrates the increases:

	<u>Increase/ (Decrease)</u>
Rental income	\$(217,205)

Administrative service fees are paid to an affiliate of the general partner and represent reimbursements for accounting and bookkeeping costs. Property management fees are paid to an affiliated entity and represent approximately 5% of gross revenues (see Note C to the Financial Statements and Schedule Index contained in Item 8). The following table illustrates the increases or (decreases):

Interest income decreased \$2,722 due to a decrease in available funds for investment during 2003. The increase in other revenues of \$3,608 were principally caused by a increase in fees from tenants. The following table illustrates the increases:

Liquidity and Capital Resources

While it is the General Partner's primary intention to operate and manage the existing real estate investments, the General Partner also continually evaluates this investment in light of current economic conditions and trends to determine if these assets should be considered for disposal. At this time, there is no plan to dispose of either Property.

As of December 31, 2004, the Partnership had \$353,871 in cash and cash equivalents as compared to \$435,304 as of December 31, 2003. The decrease \$81,433 of cash on hand reflects the cash flow from operations. See Note C to the Financial Statements contained in Item 8 for information regarding related party transactions.

The properties are encumbered by two non-recourse mortgage notes as of December 31, 2004. These mortgages payable have a carrying value of \$9,918,658 at December 31, 2004. The mortgage notes were entered into during 1997 to refinance certain mortgage notes.

For the foreseeable future, the Partnership anticipates that mortgage principal payments (excluding any balloon mortgage payments), improvements and capital expenditures will be funded by net cash from operations. The primary source of capital to fund balloon mortgage payments will be proceeds from the sale, financing or refinancing of the Properties.

The Partnership's required principal payments due under the stated terms of the Partnership's mortgage notes payable and notes payable to affiliates are \$164,442, \$177,870, and 9,576,346 for each of the next three years.

Item 7a – Quantitative and Qualitative Disclosure about Market Risk Market Risk

The Partnership is exposed to interest rate changes primarily as a result of its real estate mortgages. The Partnerships interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower it's overall borrowing costs. To achieve its objectives, the partnership borrows primarily at fixed rates. The partnership does not enter into derivative or interest rate transactions for any purpose.

The Partnerships' activities do not contain material risk due to changes in general market conditions. The partnership invests only in fully insured bank certificates of deposits, and mutual funds investing in United States treasury obligations.

Report of Independent Registered Public Accounting Firm

To the General Partner and Limited Partners of
American Republic Realty Fund I

We have audited the accompanying combined balance sheets of American Republic Realty Fund I and subsidiary, a Wisconsin limited partnership (the "Partnership") as of December 31, 2004 and 2003, and the related combined statements of operations, partners' equity (deficit), and cash flows for the years ended December 31, 2004, 2003 and 2002. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the public company accounting oversight board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of American Republic Realty Fund I as of December 31, 2004 and 2003, and the results of its operations and its cash flows for the years ended December 31, 2004, 2003 and 2002 in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. Schedule III for the year ended December 31, 2004 is presented for the purpose of complying with the Securities and Exchange Commission's rules and is not a required part of the basic financial statements. This schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, fairly states, in all material respects, the financial data required to be set forth therein in relation to the basic financial statements taken as a whole.

AMERICAN REPUBLIC REALTY FUND I
NOTES TO COMBINED FINANCIAL STATEMENTS
December 31, 2004 and 2003

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

American Republic Realty Fund I (the “Partnership”), a Wisconsin limited partnership, was formed on December 22, 1982, under the laws of the state of Wisconsin, for the purpose of acquiring, maintaining, developing, operating, and selling buildings and improvements. The Partnership operates rental apartments in Texas and Florida. The Partnership will be terminated by December 31, 2012, although this date can be extended if certain events occur. The general partner is Mr. Robert J. Werra.

An aggregate of 20,000 units is authorized, of which 11,000 were outstanding for each of the three years ended December 31, 2004. Under the terms of the offering, no additional units will be offered.

Allocation of Net Income (Loss) and Cash

Net operating income and loss are allocated 1% to general partners and 99% to limited partners. Net operating cash flow, as defined in the partnership agreement, shall be distributed to the limited and general partners first to the limited partners in an amount equal to a variable distribution preference on capital contributions for the current year and then to the extent the preference has not been satisfied for all preceding years, and, thereafter, 10% to the general partner and 90% to the limited partners.

Net income from the sale of property is allocated first, to the extent there are cumulative net losses, 1% to the general partner and 99% to the limited partners; second, to the limited partners in an amount equal to their distribution preference; and, thereafter, 15% to the general partner and 85% to the limited partners.

Cash proceeds from the sale of property or refinancing are allocated first to the limited partners to the extent of their capital contributions and their distribution preference and, thereafter, 15% to the general partner and 85% to the limited partners.

Basis of Accounting

The Partnership maintains its books on the basis of accounting used for federal income tax reporting purposes. Memorandum entries have been made to present the accompanying financial statements in accordance with U.S. generally accepted accounting principles.

Investments in Real Estate and Depreciation

Buildings, improvements, and furniture and fixtures are recorded at cost and depreciated using the straight-line method over the estimated useful lives of the assets ranging from 5 to 27.5 years.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Income Taxes

No provision for income taxes has been made since the partners report their respective share of the results of operations on their individual income tax return.

Revenue Recognition

The Partnership has leased substantially all of its rental apartments under cancelable leases for periods generally less than one year. Rental revenue is recognized on a monthly basis as earned.

Deferred Financing Costs

Costs incurred to obtain mortgage financing are being amortized over the life of the mortgage using the straight-line method.

Combination

The financial statements include the accounts of the Partnership and a wholly owned entity. All intercompany amounts have been eliminated.

Cash and Cash Equivalents

The Partnership considers all highly liquid instruments with a maturity of three months or less to be cash equivalents.

Long-Lived Assets

In accordance with Statement of Financial Accounting Standards (“SFAS”) No. 121, “Accounting For the Impairment of Long-Lived Assets and For Long-Lived Assets to be Disposed Of”, the Partnership records impairment losses on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets’ carrying amount. SFAS No. 121 also addresses the accounting for long-lived assets that are expected to be disposed of. Based on current estimates, management does not believe impairment of operating properties is present.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Computation of Earnings Per Unit

The Partnership has adopted Statement of Financial Accounting Standards (“SFAS”) No.128, “Earnings per Share”. Basic earnings per unit is computed by dividing net income (loss) attributable to the limited partners’ interests by the weighted average number of units outstanding. Earnings per unit assuming dilution would be computed by dividing net income (loss) attributable to the limited partners’ interests by the weighted average number of units and equivalent units outstanding. The Partnership has no equivalent units outstanding for any period presented.

Concentration of Credit Risk

Financial instruments which potentially subject the Partnership to concentrations of credit risk consist primarily of cash. The Partnership places its cash with various financial institutions. The Partnership’s exposure to loss should any of these financial institutions fail would be limited to any amount in excess of the amount insured by the Federal Deposit Insurance Corporation or Securities Investor Protection Corporation, where applicable. Management does not believe significant credit risk exists at December 31, 2004.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during that reporting period. Actual results could differ from those estimates.

Environmental Remediation Costs

The Partnership accrues for losses associated with environmental remediation obligations when such losses are probable and reasonably estimable. Accruals for estimated losses from environmental remediation obligations generally are recognized no later than completion of the remedial feasibility study. Such accruals are adjusted as further information develops or circumstances change. Costs of future expenditures for environmental remediation obligations are not discounted to their present value. Recoveries of environmental remediation costs from other parties are recorded as assets when their receipt is deemed probable. Project management is not aware of any environmental remediation obligations that would materially affect the operations, financial position or cash flows of the Project.

NOTE E – COMMITMENTS

The Partnership will pay a real estate commission to the general partner or his affiliates in an amount not exceeding the lesser of 50% of the amounts customarily charged by others rendering similar services or 3% of the gross sales price of a property sold by the Partnership, provided that the limited partners have received their original capital plus preferential interest, as defined.

NOTE F – RECONCILIATION OF BOOK TO TAX LOSS (UNAUDITED)

If the accompanying financial statements had been prepared in accordance with the accrual income tax basis of accounting rather than generally accepted accounting principals (“GAAP”), the excess of revenues over expenses for 2004 would have been as follows:

Net loss per accompanying financial statements	\$ (485,920)
Add – book basis depreciation using straight-line method	642,015
Deduct – income tax basis depreciation expense using ACRS method	(125,692)

Excess of revenues over expenses, accrual income tax basis	\$ 30,403

NOTE G – ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS

The following estimated fair value amounts have been determined using available market information or other appropriate valuation methodologies that require considerable judgement in interpreting market data and developing estimates. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Partnership could realize in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

The fair value of financial instruments that are short-term or reprice frequently and have a history of negligible credit losses is considered to approximate their carrying value. These include cash and cash equivalents, accounts payable and other liabilities.

Management has reviewed the carrying values of its mortgages payable in connection with interest rates currently available to the Partnership for borrowings with similar characteristics and maturities and has determined that their estimated fair value would approximate their carrying value as of December 31, 2004 and 2003.

AMERICAN REPUBLIC REALTY FUND I
NOTES TO COMBINED FINANCIAL STATEMENTS
December 31, 2004 and 2003

NOTE G – ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS

(CONTINUED)

The fair value information presented herein is based on pertinent information available to management. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date, and therefore, current estimates of fair value may differ significantly from the amounts presented herein.

NOTE H - COMMITMENTS AND CONTINGENCIES

The Company is a party to various claims, legal actions and complaints arising in the ordinary course of business. In the opinion of management, all such matters are adequately covered by insurance or involve such amounts that unfavorable disposition would not have a material effect on the Company's consolidated financial position.
