1. We note your response to prior comment 1. Please tell us how you define sufficiently lower in determining the difference between the contractual and expected market rents. Also tell us how you determine that the exercise of a bargain renewal option is reasonably assured, including whether you consider historical experience in determining such exercises. Further, quantify for us the number of leases in your portfolio that have bargain renewal options. In your response, tell us the accounting literature relied upon and the basis for your conclusions.
