Washington Trust Reports Third Quarter Earnings

Westerly, Rhode Island...Washington Trust Bancorp, Inc. (NASDAQ Global Market; symbol: WASH), parent company of The Washington Trust Company, today announced third quarter 2006 net income of \$6.6 million, up 13.0 percent from the \$5.8 million reported for the third quarter of 2005. On a per diluted share basis, net income was 48 cents, up 5 cents, or 11.6 percent, from the 43 cents earned for the same quarter in 2005. For the nine months ended September 30, 2006, net income was \$18.8 million compared to \$16.9 million reported for the same period a year ago. On a per diluted share basis, net income was \$1.37 for the nine months ended September 30, 2006, up 13 cents from the \$1.24 reported for the comparable period in 2005.

Certain non-core items affected the computation of earnings in accordance with generally accepted accounting principles ("GAAP") in both 2005 and 2006. The following items are included (net of tax) in the Corporation's reported GAAP earnings. Share impact is on a diluted share basis.

- The Corporation received an additional quarterly dividend of approximately \$305 thousand (2 cents per share) in the third quarter of 2006 from the Federal Home Loan Bank of Boston ("FHLBB"), following the decision by the FHLBB to delay its normal second quarter dividend on its stock.
- The Corporation recorded \$247 thousand (2 cents per share) in net realized losses on sales of securities in the third quarter of 2006 in connection with securities portfolio deleveraging and other portfolio transactions.
- Acquisition-related costs of \$440 thousand (3 cents per share) were recognized in the third quarter of 2005.

All references in this release to adjusted results reflect the exclusion of the impact of the various items noted above. Reconciliations of the items excluded from the Corporation's adjusted earnings for the three and nine month periods ended September 30, 2006 and 2005 are presented in the financial tables which accompany this release under the heading "Reconciliation Tables - Non-GAAP Financial Information".

Washington Trust Page Two, October 23, 2006

Excluding these non-core items, adjusted net income for the quarter and nine month periods ended September 30, 2006 were \$6.5 million and \$18.8 million, respectively, up 4.1% and 8.5% from the same periods in 2005. On a per diluted share basis, adjusted earnings per share for the quarter and nine month periods ended September 30, 2006 were \$.48 and \$1.37, respectively, an increase of \$.02, or 4.4%, and \$.10, or 7.9%, respectively, from the same periods last year.

"The third quarter earnings represent a continuation of the strong financial results we have experienced in 2006," stated John C. Warren, Washington Trust Chairman and Chief Executive Officer. "More recently however, loan demand has been weak, competition for loans and deposits has intensified and the inverted yield curve continues to apply pressure to our margins. While these conditions may continue to create a difficult banking environment, we will remain focused on managing our company to enhance the long term value of our shareholders."

Net interest income totaled \$15.9 million for the third quarter of 2006, up \$506 thousand from the third quarter a year ago. Included in net interest income is a catch-up for the delayed second quarter dividend on the Corporation's investment in FHLBB stock of approximately \$450 thousand. Adjusted net interest income, excluding the impact of the additional FHLBB dividend, was \$15.4 million, essentially unchanged from the same period in 2005. The net interest margin (annualized tax-equivalent net interest income as a percentage of average earning assets) for the third quarter of 2006 amounted to 2.86%. The additional FHLBB dividend represented approximately 8 basis points of the third quarter 2006 net interest margin. Excluding the effect of the delay of the second quarter FHLBB dividend until the third quarter, the net interest margin was unchanged from the third quarter of 2005 and down by 5 basis points from the second quarter of 2006. The continued rise in short-term rates in 2006 has caused deposit costs to rise, while yields on loans and securities have remained relatively flat. The Corporation expects that this negative trend will continue.

Excluding net realized gains and losses on securities, noninterest income amounted to \$11.1 million for the third quarter of 2006, an increase of 33 percent from the same quarter of 2005. This increase is primarily attributable to higher revenues from wealth management and trust services, mainly due to the acquisition of Weston Financial Group, Inc. ("Weston Financial"), which was completed on August 31, 2005.

Washington Trust Page Three, October 23, 2006

Wealth management and trust services revenues were \$6.0 million for the third quarter of 2006, up \$2.0 million, or 49 percent, from the third quarter of 2005. As previously stated, this increase was primarily attributable to the acquisition of Weston Financial in the third quarter of 2005. Assets under administration totaled \$3.551 billion at September 30, 2006, up \$126 million in the third quarter of 2006 and up \$279 million, or 9 percent, from \$3.272 billion at December 31, 2005. The increase is due to financial market appreciation and business development efforts.

Noninterest expenses amounted to \$16.6 million for the quarter ended September 30, 2006, an increase of \$1.8 million, or 12 percent, over the comparable quarter a year ago. Approximately \$1.2 million, or 69 percent, of this increase was attributable to the operating expenses of Weston Financial. Included in noninterest expenses in the third quarter of 2005 were direct acquisition and acquisition related costs amounting to \$605 thousand and debt prepayment penalty expense of \$129 thousand.

The returns on average equity and average assets for the quarter ended September 30, 2006 were 15.62% and 1.09%, respectively, compared to 14.75% and 0.98%, respectively, for the comparable quarter in 2005. The returns on average equity and average assets for the nine months ended September 30, 2006 were 15.33% and 1.04%, respectively, compared to 14.51% and 0.96%, respectively, for the comparable period in 2005.

Total assets were \$2.403 billion at September 30, 2006, up \$1.3 million from December 31, 2005. The Corporation has experienced relatively modest loan demand during 2006 and has also reduced its investment securities portfolio.

During the first nine months of 2006 total loans increased by \$26.6 million, or 1.9 percent. Consumer loans rose by \$15.3 million, or 5.8 percent, led by growth in home equity loans. Total commercial and commercial real estate loans rose by \$6.6 million, or 1.2 percent. Residential mortgages increased by \$4.7 million, or 0.8 percent, for the nine months ended September 30, 2006.

The investment securities portfolio has declined by \$42.6 million since December 31, 2005, primarily resulting from deleveraging transactions in response to the flat to inverted yield curve shape in effect during most of this period. Net realized losses on securities of \$365 thousand were recognized in the third quarter of 2006 including sales of mortgage-backed and other debt securities totaling \$56.5 million with a realized loss of \$2.4 million and sales of equity securities with a realized gain of \$2.0 million. For the nine month period in 2006, net realized gains on securities sales amounted to \$78 thousand, excluding a realized gain of

Washington Trust Page Four, October 23, 2006

\$381 thousand recognized in the second quarter in connection with the charitable donation of appreciated equity securities. Realized gains and losses on securities sales during the same three and nine month periods in 2005 were insignificant. Proceeds from these sales transactions amounting to \$56.8 million during the third quarter were primarily used to reduce advances from the FHLBB, which have declined by \$79.4 million and \$81.2 million during the three and nine month periods ended September 30, 2006, respectively.

Deposits totaled \$1.700 billion at September 30, 2006, up \$60.9 million, or 3.7 percent, from December 31, 2005. Excluding a \$13.9 million decrease in brokered certificates of deposit, in-market deposits were up \$74.9 million, or 5.2 percent, for the nine months ended September 30, 2006. Due to increases in short-term interest rates, the Corporation has continued to experience a shift in the mix of deposits away from savings accounts and into higher cost money market accounts and certificates of deposit.

During the third quarter of 2006, the Corporation recognized a liability of \$4.6 million, with a corresponding increase in goodwill, related to the contingent payment terms of its August 2005 acquisition of Weston Financial. This amount represents the 2006 payment for the three-year earn-out period ending December 31, 2008.

Asset quality continues to remain strong, with nonperforming assets (nonaccrual loans and property acquired through foreclosure) amounting to \$2.6 million, or 0.11% of total assets, at September 30, 2006, compared to \$2.4 million, or 0.10% of total assets at December 31, 2005. Net charge-offs amounted to \$173 thousand for the nine months ended September 30, 2006, compared to net loan recoveries of \$193 thousand for the same period a year ago.

The allowance for loan losses was \$18.6 million, or 1.31% of total loans, at September 30, 2006, compared to \$17.6 million, or 1.26% of total loans, at September 30, 2005. The Corporation's loan loss provision charged to earnings amounted to \$300 and \$900 thousand, respectively, for the three and nine months ended September 30, 2006, unchanged from the amounts recorded for the same periods in 2005.

Total shareholders' equity amounted to \$172.4 million at September 30, 2006, compared to \$158.4 million at December 31, 2005. Book value per share as of September 30, 2006 and December 31, 2005 amounted to \$12.82 and \$11.86, respectively.
