MAXIM INTEGRATED REPORTS RESULTS FOR THE SECOND QUARTER OF FISCAL 2016

Revenue: \$511 million

• Gross Margin: 57.2% GAAP (60.5% excluding special items)

• EPS: \$0.23 GAAP profit (\$0.32 profit excluding special items)

Cash, cash equivalents, and short term investments: \$1.77 billion

• Fiscal third quarter revenue outlook: \$535 million to \$575 million

SAN JOSE, CA - January 21, 2016 - Maxim Integrated Products, Inc. (NASDAQ:MXIM) reported net revenue of \$511 million for its second quarter of fiscal 2016 ended December 26, 2015, a 9% decrease from the \$563 million revenue recorded in the prior quarter, and a 10% decrease from the same quarter of last year.

Tunc Doluca, President and Chief Executive Officer, commented, "Our second quarter financial performance was in line with our expectations, and we achieved several milestones in our \$180 million cost reduction plan." Mr. Doluca continued, "In our March quarter, we expect continued growth in Automotive, a sequential increase in our Communications & Data Center and Consumer businesses and a seasonal uptick in Industrial. Long term, Maxim's strong technology franchise in power management positions us well for growth."

Fiscal Year 2016 Second Quarter Results

Based on Generally Accepted Accounting Principles (GAAP), diluted earnings per share in the December quarter was a \$0.23 profit. The results were affected by pre-tax special items which primarily consisted of \$18 million in charges related to acquisitions and \$13 million in charges related to restructuring activities. GAAP earnings per share, excluding special items was \$0.32. An analysis of GAAP versus GAAP excluding special items is provided in the last table of this press release.

Cash Flow Items

At the end of the second quarter of fiscal 2016, total cash, cash equivalents and short term investments were

\$1.77 billion, an increase of \$165 million from the prior quarter. Notable items included:

Cash flow from operations: \$182 million

Capital expenditures: \$14 million

Proceeds from asset sales: \$50 million

Dividends: \$86 million (\$0.30 per share)

Stock repurchases: \$23 million

Business Outlook

The Company's 90-day backlog at the beginning of the third fiscal quarter of 2016 was \$329 million. Based

on the beginning backlog and expected turns, results for the March 2016 quarter are expected to be as follows:

• Revenue: \$535 million to \$575 million

Gross Margin: 57% to 60% GAAP (60% to 63% excluding special items)

EPS: \$0.35 to \$0.41 GAAP (\$0.38 to \$0.44 excluding special items)

Maxim Integrated's business outlook does not include the potential impact of any special items related to

restructuring activity, acquisitions, or other business combinations that may be completed during the quarter.

Dividend

A cash dividend of \$0.30 per share will be paid on March 3, 2016, to stockholders of record on February 18,

2016.

Conference Call

Maxim Integrated has scheduled a conference call on January 21st, at 2:00 p.m. Pacific Time to discuss its

financial results for the second quarter of fiscal 2016 and its business outlook. To listen via telephone, dial

(866) 802-4305 (toll free) or (703) 639-1317. This call will be webcast by Shareholder.com and can be

accessed at the Company's website at www.maximintegrated.com/company/investor.

A presentation summarizing financial information to be discussed on the conference call is posted at

www.maximintegrated.com/company/investor.

⁽¹⁾ Building and equipment accelerated depreciation related to San Jose and Dallas manufacturing facilities.

⁽²⁾Includes impairment charges related to the San Antonio wafer manufacturing facility, MEMS wafer manufacturing equipment, end of line test equipment and certain research and development equipment.

⁽³⁾ Includes impairment of goodwill and write-off of in-process research and development related to MEMS business unit.

- (4) Includes severance charges associated with several reorganizations, primarily various business units and manufacturing operations.
- (5) Includes tax effect of pre-tax special items and miscellaneous tax adjustments.
- (6) Shares used in diluted earnings per share excluding special items differs from GAAP loss per share due to net income on a non-GAAP basis.

Non-GAAP Measures

To supplement the consolidated financial results prepared under GAAP, Maxim Integrated uses non-GAAP measures which are adjusted from the most directly comparable GAAP results to exclude special items related to intangible asset amortization; accelerated depreciation; impairment of long-lived assets; impairment of goodwill and intangible assets; severance and restructuring; and other operating expenses (income), net; and fiscal year 2015 & 2014 research & development tax credit. Management uses these non-GAAP measures internally to make strategic decisions, forecast future results and evaluate Maxim Integrated's current performance. Many analysts covering Maxim Integrated use the non-GAAP measures as well. Given management's use of these non-GAAP measures, Maxim Integrated believes these measures are important to investors in understanding Maxim Integrated's current and future operating results as seen through the eyes of management. In addition, management believes these non-GAAP measures are useful to investors in enabling them to better assess changes in Maxim Integrated's core business across different time periods. These non-GAAP measures are not in accordance with or an alternative to GAAP financial data and may be different from non-GAAP measures used by other companies. Because non-GAAP financial measures are not standardized it may not be possible to compare these financial measures with other companies' non-GAAP financial measures, even if they have similar names. The non-GAAP measures displayed in the table above include the following:

GAAP Gross Profit Excluding Special Items

The use of GAAP gross profit excluding special items allows management to evaluate the gross margin of the Company's core businesses and trends across different reporting periods on a consistent basis, independent of special items including intangible asset amortization, and accelerated depreciation. In addition, it is an important component of management's internal performance measurement and reward process as it is used to assess the current and historical financial results of the business, for strategic decision making, preparing budgets and forecasting future results. Management presents GAAP gross profit excluding special items to enable investors and analysts to evaluate our revenue generation performance relative to the direct costs of revenue of Maxim Integrated's core businesses.

GAAP Operating Expenses Excluding Special Items

The use of GAAP operating expenses excluding special items allows management to evaluate the operating expenses of the Company's core businesses and trends across different reporting periods on a consistent basis, independent of special items including intangible asset amortization; impairment of long-lived assets; impairment of goodwill and intangible assets; severance and restructuring, and other operating expenses (income), net. In addition, it is an important component of management's internal performance measurement

and reward process as it is used to assess the current and historical financial results of the business, for strategic decision making, preparing budgets and forecasting future results. Management presents GAAP operating expenses excluding special items to enable investors and analysts to evaluate our core business and its direct operating expenses.

GAAP Provision for Income Taxes Excluding Special Items

The use of a GAAP provision for income taxes excluding special items allows management to evaluate the provision for income taxes across different reporting periods on a consistent basis, independent of special items including the tax provision impact of pre-tax special items. In fiscal year 2016, we began using a long-term tax rate to compute the GAAP provision for income taxes excluding special items. This long-term tax rate considers the income tax impact of pre-tax special items; assumes the Federal research tax credit remains in effect throughout the entire year, and eliminates the effects of significant non-recurring and period specific tax items which vary in size and frequency. We are using a long-term tax rate of 18%, which is the weighted average of our normalized fiscal year GAAP tax rate excluding special items over a four year period that includes the past three fiscal years plus the current fiscal year. We will review the long-term tax rate on an annual basis and whenever events occur that may materially affect the long-term tax rate such as tax law changes; significant changes in our geographic earnings mix; or changes our corporate structure.

GAAP Net Income and GAAP Net Income per Share Excluding Special Items

The use of GAAP net income and GAAP net income per share excluding special items allow management to evaluate the operating results of Maxim Integrated's core businesses and trends across different reporting periods on a consistent basis, independent of special items including intangible asset amortization; accelerated depreciation; impairment of long-lived assets; impairment of goodwill and intangible assets; severance and restructuring; and other operating expenses (income), net; and fiscal year 2015 & 2014 research & development tax credit; tax effect of pre-tax special items and miscellaneous tax adjustments. In addition, they are important components of management's internal performance measurement and reward process as it is used to assess the current and historical financial results of the business, for strategic decision making, preparing budgets and forecasting future results. Management presents GAAP net income and GAAP net income per share excluding special items to enable investors and analysts to understand the results of operations of Maxim Integrated's core businesses and to compare our results of operations on a more consistent basis against that of other companies in our industry.

"Safe Harbor" Statement

This press release contains forward-looking statements within the meaning of Section 27A of the Securities

Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These

statements include the Company's business outlook and financial projections for its third quarter of fiscal

2016 ending in March 2016, which includes revenue, gross margin and earnings per share, as well as the

Company's expectation that it expects continued growth in Automotive, a sequential increase in

Communications & Data Center and Consumer businesses and a seasonal uptick in Industrial in its third

quarter of fiscal 2016. Long term, the Company believes its strong technology franchise in power management

positions it well for growth. These statements involve risk and uncertainty. Actual results could differ

materially from those forecasted, based upon, among other things, general market and economic conditions,

market developments that could adversely affect the growth of the mixed-signal analog market, product mix

shifts, the loss of all or a substantial portion of our sales to one of our large customers, customer cancellations

and price competition, as well as other risks described in the Company's Annual Report on Form 10-K for

the fiscal year ended June 27, 2015 (the "10-K") and Quarterly Reports on Form 10-Q filed after the 10-K.

All forward-looking statements included in this news release are made as of the date hereof, based on the

information available to the Company as of the date hereof, and the Company assumes no obligation to

update any forward-looking statement except as required by law.

About Maxim Integrated

Maxim is bringing new levels of analog integration to automotive, cloud data center, mobile consumer, and

industrial applications. We're making technology smaller, smarter, and more energy efficient, so that our

customers can meet the demands of an integrated world. Learn more at http://www.maximintegrated.com.
