HST GLOBAL, INC. AND SUBSIDIARIES
(FORMERLY HEALTH SOURCE TECHNOLOGIES, INC.)
(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2010
(UNAUDITED)

NOTE 1 - BASIS OF PRESENTATION

The consolidated financial statements of HST Global, Inc. and subsidiaries (the "Company") have been prepared in accordance with generally accepted accounting principles for financial information and pursuant to the requirements for reporting on Form 10-Q. Accordingly they do not include all the information and footnotes required by accounting principles generally accepted in the United States of American for complete financial statements. However, such information reflects all adjustments (consisting of normal recurring adjustments), which are, in the opinion of management, necessary for the fair presentation of the consolidated financial position and the consolidated results of operations. Results shown for interim periods are not necessarily indicative of the results to be obtained for a full year. The consolidated balance sheet information as of March 31, 2010 was derived from the audited consolidated financial statements included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2009. These annual financial statements should be read in conjunction with that report.

The consolidated financial statements include the accounts of the Company and Health Source Technologies, Inc (a wholly owned subsidiary).

NOTE 2 - NATURE AND PURPOSE OF BUSINESS

HST Global, Inc. (the Company) was incorporated under the laws of the state of Nevada on August 6, 2007. The company is currently headquartered in Hampton, Virginia. HST Global, Inc. is an Integrated Health and Wellness company that is developing and / or acquiring a network of Wellness Centers worldwide that are primarily focused on the immunotherapy and alternative treatment of late stage cancer. NOTE 3 - NATURE OF SIGNIFICANT ACCOUNTING POLICIES

CASH AND CASH EQUIVALENTS

The company considers all highly liquid debt instruments purchased with maturity of three months or less to be cash equivalents.

REVENUE RECOGNITION

The company considers revenue to be recognized at the time the service is performed.

USE OF ESTIMATES

The preparation of the Company's financial statements required management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's short-term financial instruments consist of cash and cash equivalents and accounts payable. The carrying amounts of these financial instruments approximate fair value because of their short-term maturities. Financial instruments that potentially subject the Company to a concentration of credit risk consist principally of cash. During the year the Company did not maintain cash deposits at financial institution in excess of the $250,000 limit covered by the Federal Deposit Insurance Corporation. The Company does not hold or issue financial instruments for trading purposes nor does it hold or issue interest rate or leverage derivative financial instruments.

EARNINGS PER SHARE

Basic Earnings per Share ("EPS") is computed by dividing net income available to common stockholders by the weighted average number of common stock shares outstanding during the year. Diluted EPS is computed by dividing net income available to common stockholders by the weighted-average number of common stock shares outstanding during the year plus potential dilutive instruments such as stock options and warrants. The effect of stock options on diluted EPS is determined through the application of the treasury exercises that are hypothetically used to repurchase the Company's common stock at the average market price during the period. Loss per share is unchanged on a diluted basis since the assumed exercise of common stock equivalents would have an anti-dilutive effect.

INCOME TAXES

The Company uses the asset and liability method of accounting for income taxes as required by SFAS No. 109 "Accounting for Income Taxes". SFAS 109 requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax basis of certain assets and liabilities. Deferred income tax assets and liabilities are computed annually for the difference between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period, plus or minus the change during the period in deferred tax assets and liabilities. Deferred income taxes may arise from temporary differences resulting from income and expense items reported for financial accounting and tax purposes in different periods. Deferred taxes are classified as current or non-current, depending on the classification of the assets and liabilities to which they relate. Deferred taxes arising from temporary differences that are not related to an asset or liability are classified as current or non-current depending on the periods in which the temporary differences are expected to reverse. The Company had no significant deferred tax items arise during any of the period presented.

CONCENTRATION OF CREDIT RISK

The Company does not have any concentration of related financial credit risk.

RECENT ACCOUNTING PRONOUNCEMENTS

The Company does not expect that the adoption of other recent accounting pronouncements will have a material impact to its financial statements.

PRELIMINARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements within the meaning of the federal securities laws. These include statements about our expectations, beliefs, intentions or strategies for the future, which we indicate by words or phrases such as "anticipate," "expect," "intend," "plan," "will," "we believe," "HSTC believes," "management believes" and similar language. The forward-looking statements are based on the current expectations of HSTC and are subject to certain risks, uncertainties and assumptions, including those set forth in the discussion under "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this report. The actual results may differ materially from results anticipated in these forward-looking statements. We base the forward-looking statements on information currently available to us, and we assume no obligation to update them.

Investors are also advised to refer to the information in our filings with the Securities and Exchange Commission, especially on Forms 10-K, 10-Q and 8-K, in which we discuss in more detail various important factors that could cause actual results to differ from expected or historic results. It is not possible to foresee or identify all such factors. As such, investors should not consider any list of such factors to be an exhaustive statement of all risks and uncertainties or potentially inaccurate assumptions.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our financial statements and related public financial information are based on the application of accounting principles generally accepted in the United States ("US GAAP"). US GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenues and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

The Company incurred expenses of $224,249 for the quarter ended March 31, 2010 as compared to $324,113 for the quarter ended March 31, 2009. The expenses in the third quarter of 2010 were incurred to further the company’s Research and Development efforts and continue the company’s strategic plan of opening wellness clinics worldwide. Until the Company obtains capital required to develop any properties or businesses and obtains the revenues needed from its future operations to meet its obligations, the Company will be dependent upon sources other than operating revenues to meet its operating and capital needs. Operating revenues may never satisfy these needs.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

None.

ITEM 4. CONTROLS AND PROCEDURES.

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Our Chief Executive Officer and Chief Financial Officer (collectively the "Certifying Officers") maintain a system of disclosure controls and procedures that is designed to provide reasonable assurance that information, which is required to be disclosed, is accumulated and communicated to management timely. Under the supervision and with the participation of management, the Certifying Officers evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule [13a-14(c)/15d-14(c)] under the Exchange Act) within 45 days prior to the filing date of this report. Based upon that evaluation, the Certifying Officers concluded that our disclosure controls and procedures are not effective in timely alerting them to material information relative to our company required to be disclosed in our periodic filings with the SEC.

In addition to the material weaknesses reported in the Company's Annual Report on Form 10-K for the Fiscal Year ended December 31, 2009, the Certifying Officers have determined that a material weakness exists due to the delay in the Company's ability to have its Quarterly Financial Statements reviewed by its outside auditing firm. Until the Financial Statements can be so reviewed, they should not be relied upon by investors. The Financial Statements contained in this amendment have been reviewed by Madsen & Associates.

CHANGES IN INTERNAL CONTROLS

During the Quarter ended March 31, 2010, there were no changes made to our internal controls over financial reporting that are reasonably likely to affect the reliability of those controls, or the accuracy of our financial reporting.
