Philip J. Sanders, CFA

Dear Shareholder,

Across the six months since our last report, investors endured concerns about global economic growth, the level of interest rates, fluctuation in oil prices and political surprises in select countries across the globe. As we began 2017, domestic equity markets rose sharply, with the trend continuing through mid-2017. See the table for a comparison of some common market metrics over the last six months.

Many investors may be unsettled by the prospect that continued change — in leadership of key countries around the world, in government policy, in interest rate levels — will contribute to market volatility and general uncertainty. While that may be true at times, we believe it is important to stay focused on the fundamentals and merits of sectors, industries and companies when making investment decisions. Those fundamentals historically have tended to outweigh external factors such as government policies and regulations. While government policies can affect every business and investor, we think the innovation and management skill within individual companies ultimately drive long-term stock prices.

By the end of June 2017, the U.S. economy remained fundamentally sound, supported primarily by the U.S. consumer, who is benefitting from lower energy prices, lower inflation in general and an improved labor market. Overall, the global economy has improved over the past six months. In particular, economic growth in the eurozone has accelerated, benefitting from domestic policy stimulus and improving external demand.

The U.S. Federal Reserve (Fed) raised interest rates slightly in December 2016 and then again in March and June of this year. The Fed has indicated the potential for more rate increases as we move through 2017 and hinted towards decreasing the size of its balance sheet. We believe job growth and inflation will be the most important determinants in the direction of long-term central bank policy. Overseas, a better economic outlook has caused the European Central Bank to consider adjusting its policies.

While challenges remain, we do see potential catalysts for growth in several areas and industries and our team continues to seek investment opportunities around the globe.

Economic Snapshot

	6/30/2017	12/31/2016
S&P 500 Index	2,423.41	2,238.83
MSCI EAFE Index	1,883.19	1,684.00
10-Year Treasury Yield	2.31%	2.45%
U.S. unemployment rate	4.4%	4.7%
30-year fixed mortgage rate	3.88%	4.32%
Oil price per barrel	\$46.04	\$53.72

Sources: Bloomberg, U.S. Department of Labor, MBA, CME

All government statistics shown are subject to periodic revision. The S&P 500 Index is an unmanaged index that tracks the stocks of 500 primarily large-cap U.S. companies. MSCI EAFE Index is an unmanaged index comprised of securities that represent the securities markets in Europe, Australasia and the Far East. It is not possible to invest directly in any of these indexes. Mortgage rates are from BankRate and reflect the overnight national average rate on a conventional 30-year fixed loan. Oil prices reflect the market price of West Texas intermediate grade crude.

Respectfully,

Philip J. Sanders, CFA President

The opinions expressed in this letter are those of the President of the Ivy Variable Insurance Portfolios and are current only through the end of the period of the report, as stated on the cover. The President's views are subject to change at any time, based on market and other conditions, and no forecasts can be guaranteed.

(UNAUDITED)

Expense Example

As a shareholder of a Portfolio, you incur ongoing costs, including management fees, distribution and service fees, and other Portfolio expenses. The following table is intended to help you understand your ongoing costs (in dollars) of investing in a Portfolio and to compare these costs with the ongoing costs of investing in other mutual funds. As a shareholder in the underlying Ivy VIP Portfolios. the Pathfinder Aggressive, Conservative, Pathfinder Moderate, Pathfinder Moderately Aggressive and Pathfinder Moderately Conservative Portfolios (collectively, the "Pathfinder Portfolios") and the Pathfinder Moderate - Managed Volatility, Pathfinder Moderately Aggressive - Managed Volatility and Pathfinder Moderately Conservative — Managed Volatility Portfolios (collectively, the "Managed Volatility Portfolios") will indirectly bear their pro rata share of the expenses incurred by the underlying funds. These expenses are not included in the Pathfinder Portfolios or Managed Volatility Portfolios annualized expense ratios or the expenses paid during the period. These expenses are, however, included in the effective expenses paid during the period. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the six-month period ended June 30, 2017.

Actual Expenses

The first section in the following table provides information about actual investment values and actual expenses for each share class. You may use the information in this section, together with your initial investment in Portfolio shares, to estimate the expenses that you paid over the period. Simply divide the value of that investment by \$1,000 (for example, a \$7,500 initial investment divided by \$1,000 = 7.5), then multiply the result by the number in the first section under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your investment during this period. In addition, there are fees and expenses imposed under the variable annuity or variable life insurance contract through which shares of the Portfolio are held. Additional fees have the effect of reducing investment returns.

Hypothetical Example for Comparison Purposes

The second section in the following table provides information about hypothetical investment values and hypothetical expenses for each share class based on the Portfolio's actual expense ratio and an assumed rate of return of five percent per year before expenses, which is not the Portfolio's actual return. The hypothetical investment values and expenses may not be used to estimate the actual investment value at the end of the period or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Portfolio and other funds. To do so, compare this five percent hypothetical example with the five percent hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs as a shareholder of the Portfolio and do not reflect any fees and expenses imposed under the variable annuity or variable life insurance contract through which shares of the Portfolio are held.

Expenses paid may be impacted by expense reduction arrangements. If those arrangements had not been in place, expenses paid would have been higher. See Note 7 to the Financial Statements for further information.

^{*}Each Portfolio offers Class II shares. Asset Strategy, Energy, High Income, Micro Cap Growth, Mid Cap Growth and Science and Technology also offer Class I shares. All classes of shares have identical rights and voting privileges with respect to the Portfolio in general and exclusive voting rights on matters that affect that class alone.

The above illustrations are based on ongoing costs only.

^{**}Portfolio expenses are equal to the Portfolio's annualized expense ratio (provided in the table), multiplied by the average account value over the period, multiplied by 181 days in the six-month period ended June 30, 2017, and divided by 365.

^{***}Portfolio expenses for the share class are equal to the Portfolio's annualized expense ratio for the share class (provided in table), multiplied by the average account value over the period, multiplied by 64 days in the six-month period ended June 30, 2017, and divided by 365. Actual inception date of the share class is 4-28-17 (the date on which shares were first acquired by shareholders).

⁽¹⁾This section uses the Portfolio's actual total return and actual Portfolio expenses. It is a guide to the actual expenses paid by the Portfolio in the period. The "Ending Account Value" shown is computed using the Portfolio's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Portfolio. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column of this section.

⁽²⁾This section uses a hypothetical five percent annual return and actual Portfolio expenses. It helps to compare the Portfolio's ongoing costs with other mutual funds. A shareholder can compare the Portfolio's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other Portfolios.

Notes to Consolidated Schedule of Investments

*Not shown due to rounding.

(A)Listed on an exchange outside the United States.

(B)No dividends were paid during the preceding 12 months.

(C)Restricted securities. At June 30, 2017, the Portfolio owned the following restricted securities:

Security	Acquisition Date(s)	Shares	Cost	Market Value
Liberty Media Corp., Class C	1-23-17	222	\$ 5,765	\$ 7,308
Media Group Holdings LLC, Series H	8-29-13 to 10-31-13	32	22,374	150
Media Group Holdings LLC, Series T	7-2-13 to 1-23-15	4	8,413	756
		Principal		
Delta Topco Ltd. (2.000% Cash or 2.000% PIK), 2.000%, 07-23-19	1-23-17	\$4,344	4,947	6,414
			\$41,499	\$14,628

The total value of these securities represented 1.6% of net assets at June 30, 2017.

(D)Investment is owned by an entity that is treated as a corporation for U.S. tax purposes and is owned by the Portfolio and consolidated as described in Note 6 of the Notes to Financial Statements.

(E)Securities whose value was determined using significant unobservable inputs.

(F)Zero coupon bond.

(G)Payment-in-kind bond which may pay interest in additional par and/or in cash. Rates shown are the current rate and possible payment rates.

(H)Other Government Securities may include emerging markets sovereign, quasi-sovereign, corporate and supranational agency and organization debt securities.

(I)Principal amount and exercise prices are denominated in the indicated foreign currency, where applicable (BRL – Brazilian Real and MXN – Mexican Peso).

(J)Rate shown is the yield to maturity at June 30, 2017.

(K)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.

The following total return swap agreements were outstanding at June 30, 2017:

Counterparty	Number of Shares	Underlying Security	Termination Date	Notional Amount	Financing Fee ⁽¹⁾⁽²⁾	Unrealized Depreciation
Morgan Stanley International	127,772	Euro STOXX Bank Index	12/08/2017	\$19,141	3-Month Euribor plus 40 bps	\$(116)

(1)The Portfolio pays the financing fee multiplied by the notional amount each month.

(2)At the termination date, a net cash flow is exchanged where the market-linked total return is equivalent to the return of the underlying security less a financing rate, if any. As the payer, a Portfolio would owe payments on any net positive total return, and would receive payments in the event of a negative total return.

The following table is a summary of the valuation of the Portfolio's investments by the fair value hierarchy levels as of June 30, 2017. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3
Assets			
Investments in Securities			
Common Stocks			
Consumer Discretionary	\$ 89,865	\$—	\$8,214
Consumer Staples	75,151	_	_

Financials	113,089	_	_
Health Care	62,457	_	_
Industrials	89,595	_	_
Information Technology	122,839	_	_
Materials	18,805	_	_
Telecommunication Services	9,174	_	_
Total Common Stocks	\$653,232	\$—	\$8,214

	Level 1	Level 2	Level 3
Corporate Debt Securities	\$ -	\$ 4,672	\$ 6,414
Other Government Securities	_	58,429	_
United States Government Obligations	_	29,626	_
Bullion	43,686	_	_
Short-Term Securities		104,921	
Total	\$696,918	\$197,648	\$14,628
Liabilities			
Total Return Swaps	\$	\$ 116	\$ _

During the period ended June 30, 2017, there were no transfers between any levels.

The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	Common Stocks	Corporate Debt Securities
Beginning Balance 1-1-17	\$ 5,728	\$ 57,563
Net realized gain (loss)	(18,087)	(490)
Net change in unrealized appreciation (depreciation)	21,525	1,957
Purchases	16,080	4,947
Sales	(17,032)	(57,563)
Amortization/Accretion of premium/discount	_	_
Transfers into Level 3 during the period	_	_
Transfers out of Level 3 during the period		
Ending Balance 6-30-17	\$ 8,214	\$ 6,414
Net change in unrealized appreciation (depreciation) for all Level 3 investments still held as of 6-30-17	\$ 17,247	\$ 1,467

Information about Level 3 fair value measurements:

	Fair Value at 6-30-17	Valuation Technique(s)	Unobservable Input(s)	Input Value(s)
Assets				
Common Stocks	\$ 756	Discounted cash flows model	Long-term growth rate	2.50%
			Weighted average cost of capital	17.34%
			Illiquidity discount	10%
	150	Discounted book value	Discount Factor	77%
			Illiquidity Discount	10%
	7,308	Discounted closing exchange price	Illiquidity Discount	10%
Corporate Debt Securities	6,414	Discounted closing exchange price	Illiquidity discount	10%

Significant increases (decreases) in long-term growth rate inputs could result in a higher (lower) fair value measurement. However, significant increases (decreases) in weighted average cost of capital, discount factors, or illiquidity discount inputs could result in a higher (lower) fair value measurement.

During the period ended June 30, 2017, securities totaling \$293 changed valuation techniques from a blended methodology of discounted cash flows model and a discounted bookvalue approach to a discounted book value approach. The change in valuation techniques is primarily due to the discounted book value approach more closely reflecting current market participant assumptions.

The following acronyms are used throughout this schedule:

ADR = American Depositary Receipts BVAL = Bloomberg Valuation Municipal AAA Benchmark FHLMC = Federal Home Loan Mortgage Association FNMA = Federal National Mortgage Association GTD = Guaranteed LIBOR = London Interbank Offered Rate PIK = Payment-in-Kind

Notes to Schedule of Investments

(A)No dividends were paid during the preceding 12 months.

- (B)Securities were purchased pursuant to an exemption from registration available under Rule 144A under the Securities Act of 1933 and may only be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2017 the total value of these securities amounted to \$20,234 or 5.6% of net assets.
- (C)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Description of the reference rate and spread, if applicable, are included in the security description.
- (D)Securities whose value was determined using significant unobservable inputs.
- (E)Rate shown is the yield to maturity at June 30, 2017.
- (F)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.

The following table is a summary of the valuation of the Portfolio's investments by the fair value hierarchy levels as of June 30, 2017. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3
Assets			
Investments in Securities

and Equities	4.1%

Our preference is to always use ratings obtained from Standard & Poor's. For securities not rated by Standard & Poor's, ratings are obtained from Moody's. We do not evaluate these ratings, but simply assign them to the appropriate credit quality category as determined by the rating agency.

⁺Cash equivalents are defined as highly liquid securities with maturities of less than three months. Cash equivalents may include U.S. Government Treasury bills, bank certificates of deposit, bankers' acceptances, corporate commercial paper and other money market instruments.

Notes to Schedule of Investments

- (A)Securities were purchased pursuant to an exemption from registration available under Rule 144A under the Securities Act of 1933 and may only be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2017 the total value of these securities amounted to \$105,346 or 24.4% of net assets.
- (B)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Description of the reference rate and spread, if applicable, are included in the security description.
- (C)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.
- (D)Other Government Securities may include emerging markets sovereign, quasi-sovereign, corporate and supranational agency and organization debt securities.
- (E)Interest-only security. Amount shown as principal represents notional amount for computation of interest.
- (F)Rate shown is the yield to maturity at June 30, 2017.

^{*}Not shown due to rounding.

SCHEDULE OF INVESTMENTS

JUNE 30, 2017 (UNAUDITED)

Notes to Schedule of Investments

(A)Listed on an exchange outside the United States.

(B)No dividends were paid during the preceding 12 months.

(C)Securities were purchased pursuant to an exemption from registration available under Rule 144A under the Securities Act of 1933 and may only be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2017 the total value of these securities amounted to \$393 or 0.3% of net assets.

(D)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.

The following table is a summary of the valuation of the Portfolio's investments by the fair value hierarchy levels as of June 30, 2017. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3
Assets			
Investments in Securities			
Common Stocks	\$146,508	\$ -	\$—
Short-Term Securities	_	2,872	_
Total	\$146,508	\$2,872	\$-

During the period ended June 30, 2017, there were no transfers between Level 1 and 2.

The following acronym is used throughout this schedule:

LIBOR = London Interbank Offered Rate

Notes to Schedule of Investments

- *Not shown due to rounding.
- (A)Securities were purchased pursuant to an exemption from registration available under Rule 144A under the Securities Act of 1933 and may only be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2017 the total value of these securities amounted to \$10,486 or 45.5% of net assets.
- (B)Non-income producing as the issuer has either missed its most recent interest payment or declared bankruptcy.
- (C)Principal amounts are denominated in the indicated foreign currency, where applicable (COP—Columbian Peso and RUB—Russian Ruble).
- (D) Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Description of the reference rate and spread, if applicable, are included in the security description.
- (E)Other Government Securities may include emerging markets sovereign, quasi-sovereign, corporate and supranational agency and organization debt securities.
- (F)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.

The following forward foreign currency contracts were outstanding at June 30, 2017:

	Currency to be Delivered		Currency to be Received	Settlement Date	Counterparty	Unrealized Appreciation	Unrealized Depreciation
British Pound	101	U.S. Dollar	128	7-24-17	Barclays Capital, Inc.	\$—	\$4

The following table is a summary of the valuation of the Portfolio's investments by the fair value hierarchy levels as of June 30, 2017. See Note 3 to the Financial Statements for further information regarding fair value measurement.

SCHEDULE OF INVESTMENTS

GROWTH (in thousands)

JUNE 30, 2017 (UNAUDITED)

Notes to Schedule of Investments

(A)No dividends were paid during the preceding 12 months.

(B)Rate shown is the yield to maturity at June 30, 2017.

(C)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.

The following table is a summary of the valuation of the Portfolio's investments by the fair value hierarchy levels as of June 30, 2017. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3
Assets			
Investments in Securities			
Common Stocks	\$849,472	\$ -	\$—
Short-Term Securities	_	4,086	_
Total	\$849,472	\$4,086	\$—

During the period ended June 30, 2017, there were no transfers between Level 1 and 2.

The following acronyms are used throughout this schedule:

ADR = American Depositary Receipts LIBOR = London Interbank Offered Rate

Asset Allocation	
Stocks	0.7%

Non-rated	3.9%

Cash and Other Assets (Net of Liabilities), Cash Equivalents+
and Equities

14.6%

Our preference is to always use ratings obtained from Standard & Poor's. For securities not rated by Standard & Poor's, ratings are obtained from Moody's. We do not evaluate these ratings, but simply assign them to the appropriate credit quality category as determined by the rating agency.

⁺Cash equivalents are defined as highly liquid securities with maturities of less than three months. Cash equivalents may include U.S. Government Treasury bills, bank certificates of deposit, bankers' acceptances, corporate commercial paper and other money market instruments.

Notes to Schedule of Investments

*Not shown due to rounding.

(A)No dividends were paid during the preceding 12 months.

(B)Listed on an exchange outside the United States.

(C)Securities were purchased pursuant to an exemption from registration available under Rule 144A under the Securities Act of 1933 and may only be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2017 the total value of these securities amounted to \$509,108 or 50.3% of net assets.

(D)Securities whose value was determined using significant unobservable inputs.

(E)Restricted securities. At June 30, 2017, the Portfolio owned the following restricted securities:

Security	Acquisition Date(s)	Shares	Cost	Market Value
Larchmont Resources LLC	12-8-16	1	\$ 340	\$ 360
New Cotai Participation Corp., Class B	4-12-13	_*	62	53
Pinnacle Agriculture Enterprises LLC	3-10-17	4,583	2,083	3,547
Sabine Oil & Gas Corp.	12-7-16	_*	12	11
Sabine Oil & Gas Corp., expires 12-29-29	12-7-16	1	7	6
			\$2,504	\$3,977

The total value of these securities represented 0.4% of net assets at June 30, 2017.

(F)Deemed to be an affiliate due to the Portfolio owning at least 5% of the voting securities.

(G)Warrants entitle the Portfolio to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date, if any.

(H)Principal amounts are denominated in the indicated foreign currency, where applicable (EUR—Euro).

(I)Zero coupon bond.

(J)Payment-in-kind bond which may pay interest in additional par and/or in cash. Rates shown are the current rate and possible payment rates.

(K)Step bond that pays an initial coupon rate for the first period and then a higher or lower coupon rate for the following periods. Interest rate disclosed is that which is in effect at June 30, 2017.

(L)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.

(M)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Description of the reference rate and spread, if applicable, are included in the security description.

(N)All or a portion of this position has not settled. Full contract rates do not take effect until settlement date.

(O)Rate shown is the yield to maturity at June 30, 2017.

The following forward foreign currency contracts were outstanding at June 30, 2017:

	Currency to be Delivered		Currency to be Received	Settlement Date	Counterparty	Unrealized Appreciation	Unrealized Depreciation
Canadian Dollar	3,694	U.S. Dollar	2,779	7-24-17	Morgan Stanley International	\$—	\$ 71
Euro	2,215	U.S. Dollar	2,473	7-24-17	Morgan Stanley International	_	60
						\$—	\$131

The following table is a summary of the valuation of the Portfolio's investments by the fair value hierarchy levels as of June 30, 2017. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Le	vel 2	Le	vel 3
Assets					
Investments in Securities					
Common Stocks					
Consumer Discretionary	\$1,790	\$	_	\$	53
Energy	1,227		371		
Total Common Stocks	\$3,017	\$	371	\$	53
Preferred Stocks	637		3,547		_
Warrants	_		6		_
Corporate Debt Securities	_	70	3,154		_
Loans	_	14	40,717	20),449

	Level 1	Level 2	Level 3
Short-Term Securities	\$ -	\$ 141,671	\$ _
Total	\$3,654	\$989,466	\$20,502
Liabilities Forward Foreign Currency Contracts	\$ -	\$ 131	\$

The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	Common Stocks	Loans
Beginning Balance 1-1-17	\$ 393	\$26,340
Net realized gain (loss)	_	(216)
Net change in unrealized appreciation (depreciation)	_	661
Purchases	_	4,053
Sales	_	(6,218)
Amortization/Accretion of premium/discount	_	19
Transfers into Level 3 during the period	_	5,794
Transfers out of Level 3 during the period	(340)	(9,984)
Ending Balance 6-30-17	\$ 53	\$20,449
Net change in unrealized appreciation (depreciation) for all Level 3 investments still held as of 6-30-17	\$ -	\$ 328

Transfers from Level 2 to Level 3 occurred primarily due to the lack of observable market data due to decreased market activity or information for these securities. Transfers from Level 3 to Level 2 occurred primarily due to the increased availability of observable market data due to increased market activity or information. As shown above, transfers in and out of Level 3 represent the values as of the beginning of the reporting period. During the period ended June 30, 2017, there were no transfers between Levels 1 and 2.

Information about Level 3 fair value measurements:

	Fair Value at 6-30-17	Valuation Technique(s)	Unobservable Input(s)

Notes to Schedule of Investments

(A)No dividends were paid during the preceding 12 months.

(B)Rate shown is the yield to maturity at June 30, 2017.

(C)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.

The following forward foreign currency contracts were outstanding at June 30, 2017:

	Currency to be		Currency to be	Settlement		Unrealized	Unrealized
	Delivered		Received	Date	Counterparty	Appreciation	Depreciation
U.S. Dollar	37,721	Australian Dollar	49,980	7-24-17	Deutsche Bank AG	\$683	\$—

The following table is a summary of the valuation of the Portfolio's investments by the fair value hierarchy levels as of June 30, 2017. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3
Assets			
Investments in Securities			
Common Stocks	\$ 767,818	\$ -	\$—
Rights	241	_	_
Short-Term Securities		17,008	_
Total	\$768,059	\$17,008	\$—
Forward Foreign Currency Contracts	\$ -	\$ 683	\$-

During the period ended June 30, 2017, there were no transfers between Level 1 and 2.

The following acronyms are used throughout this schedule:

ADR = American Depositary Receipts

BVAL = Bloomberg Valuation Municipal AAA Benchmark

GTD = Guaranteed

LIBOR = London Interbank Offered Rate

Our preference is to always use ratings obtained from Standard & Poor's. For securities not rated by Standard & Poor's, ratings are obtained from Moody's. We do not evaluate these ratings, but simply assign them to the appropriate credit quality category as determined by the rating agency.

⁺Cash equivalents are defined as highly liquid securities with maturities of less than three months. Cash equivalents may include U.S. Government Treasury bills, bank certificates of deposit, bankers' acceptances, corporate commercial paper and other money market instruments.

SCHEDULE OF INVESTMENTS

JUNE 30, 2017 (UNAUDITED)

Notes to Schedule of Investments

- (A)Securities were purchased pursuant to an exemption from registration available under Rule 144A under the Securities Act of 1933 and may only be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2017 the total value of these securities amounted to \$80,292 or 18.8% of net assets.
- (B)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Description of the reference rate and spread, if applicable, are included in the security description.
- (C)Step bond that pays an initial coupon rate for the first period and then a higher or lower coupon rate for the following periods. Interest rate disclosed is that which is in effect at June 30, 2017.
- (D)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.
- (E)Rate shown is the yield to maturity at June 30, 2017.

The following table is a summary of the valuation of the Portfolio's investments by the fair value hierarchy levels as of June 30, 2017. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3
Assets			
Investments in Securities

SCHEDULE OF INVESTMENTS

MICRO CAP GROWTH (in thousands)

JUNE 30, 2017 (UNAUDITED)

Notes to Schedule of Investments

(A)No dividends were paid during the preceding 12 months.

(B)Securities were purchased pursuant to an exemption from registration available under Rule 144A under the Securities Act of 1933 and may only be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2017 the total value of these securities amounted to \$116 or 0.2% of net assets.

(C)Rate shown is the yield to maturity at June 30, 2017.

(D)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.

The following table is a summary of the valuation of the Portfolio's investments by the fair value hierarchy levels as of June 30, 2017. See Note 3 to the Financial Statements for further information regarding fair value measurement.

Notes to Schedule of Investments

(A)No dividends were paid during the preceding 12 months.

(B)All or a portion of securities with an aggregate value of \$264 are held in collateralized accounts for OTC written options contracts collateral.

NET ASSETS - 100.0%

(C)Listed on an exchange outside the United States.

(D)Restricted securities. At June 30, 2017, the Portfolio owned the following restricted securities:

Security	Acquisition Date(s)	Principal	Cost	Market Value
Marrone Bio Innovations, Inc., 8.000%, 08-20-20	8-20-15	\$2,300	\$2,300	\$2,311
Marrone Bio Innovations, Inc., expires 8-20-23	8-20-15	230	\$ -	\$ _*
			\$2,300	\$2,311

\$579,735

The total value of these securities represented 0.4% of net assets at June 30, 2017.

(E)Warrants entitle the Portfolio to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date, if any.

(F)Rate shown is the yield to maturity at June 30, 2017.

(G)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.

The following written options were outstanding at June 30, 2017 (contracts and exercise prices unrounded):

	0 1 1 1 10 0 0 0	_	Number of	Expiration	Exercise	Premium

Notes to Schedule of Investments

(A)No dividends were paid during the preceding 12 months.

(B)Rate shown is the yield to maturity at June 30, 2017.

(C)Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2017. Date shown represents the date that the variable rate resets. Description of the reference rate and spread, if applicable, are included in the security description.

The following total return swap agreements were outstanding at June 30, 2017:

Counterparty	Number of Shares	Underlying Security	Termination Date	Notional Amount	Financing Fee ⁽¹⁾⁽²⁾	Unrealized Appreciation
JPMorgan Chase Bank N.A.	115,425	Biotech Custom Index	01/09/2018	\$14,643	1-Month LIBOR less 50 bps	\$1,168

(1) The Portfolio pays the financing fee multiplied by the notional amount each month.

(2)At the termination date, a net cash flow is exchanged where the market-linked total return is equivalent to the return of the underlying security less a financing rate, if any. As the payer, a Portfolio would receive payments on any net positive total return, and would make payments in the event of a negative total return.

The following table is a summary of the valuation of the Portfolio's investments by the fair value hierarchy levels as of June 30, 2017. See Note 3 to the Financial Statements for further information regarding fair value measurement.

	Level 1	Level 2	Level 3

(1)Based on average weekly shares outstanding.

⁽²⁾ Based on net asset value. Total returns do not reflect a sales charge or contingent deferred sales charge, if applicable. Total returns for periods less than one year are not annualized.

⁽³⁾ For the period from August 1, 2013 (commencement of operations of the Portfolio) through December 31, 2013.

⁽⁴⁾ Annualized.

⁽⁵⁾ Ratios of expenses to average net assets excluding offering cost was 0.26%.

⁽⁶⁾ Ratios of expenses to average net assets excluding offering cost was 0.29%.

⁽⁷⁾ Ratios of expenses to average net assets excluding offering cost was 0.33%.

⁽⁸⁾ Ratios of expenses to average net assets excluding offering cost was 0.36%.

⁽⁹⁾ Ratios of expenses to average net assets excluding offering cost was 0.35%.

⁽¹⁰⁾ Portfolio turnover is calculated at the portfolio level. Percentage indicated was calculated for the period ended December 31, 2013.

^{*} Not shown due to rounding.

⁽¹⁾Based on average weekly shares outstanding.

⁽²⁾ Based on net asset value. Total returns do not reflect a sales charge or contingent deferred sales charge, if applicable. Total returns for periods less than one year are not annualized.

⁽³⁾ Ratios excluding expense waivers are included only for periods in which the class had waived or reimbursed expenses.

⁽⁴⁾ Annualizea

⁽⁵⁾ For the period from April 28, 2017 (commencement of operations of the class) through June 30, 2017.

⁽⁶⁾ Portfolio turnover is calculated at the Portfolio level. Percentage indicated was calculated for the period ended June 30, 2017.

	Net Asset Value, End of Period	Total Return ⁽²⁾	Net Assets, End of Period (in millions)	Ratio of Expenses to Average Net Assets Including Expense Waiver	Ratio of Net Investment Income to Average Net Assets Including Expense Waiver	Ratio of Expenses to Average Net Assets Excluding Expense Waiver ⁽³⁾	Ratio of Net Investment Income (Loss) to Average Net Assets Excluding Expense Waiver ⁽³⁾	Portfolio Turnover Rate

JUNE 30, 2017 (UNAUDITED)

1. ORGANIZATION

Ivy Variable Insurance Portfolios, a Delaware statutory trust (the "Trust"), is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust is divided into 29 series (each a "Portfolio"). Effective April 28, 2017, Global Natural Resources, Real Estate Securities and Small Cap Value changed names to Natural Resources, Advantus Real Estate Securities and Small Cap Core, respectively. The assets belonging to each Portfolio, except Pathfinder Aggressive, Pathfinder Conservative, Pathfinder Moderate, Pathfinder Moderately Aggressive and Pathfinder Moderately Conservative (collectively, the "Pathfinder Portfolios") and Pathfinder Moderately Conservative — Managed Volatility, Pathfinder Moderately Conservative — Managed Volatility (collectively, the "Managed Volatility Portfolios"), are held separately by the custodian. The assets belonging to each Pathfinder Portfolio and Managed Volatility Portfolio are held separately by the transfer agent for the underlying funds and the custodian. The investment objective, policies and risk factors of each Portfolio are described more fully in the Prospectus and Statement of Additional Information ("SAI"). Each Portfolio's investment adviser is Ivy Investment Management Company ("IICO").

Each Portfolio offers Class II shares. Asset Strategy, Energy, High Income, Micro Cap Growth, Mid Cap Growth and Science and Technology also offer Class I shares. All classes of shares have identical rights and voting privileges with respect to the Portfolio in general and exclusive voting rights on matters that affect that class alone. Net investment income, net assets and net asset value per share ("NAV") may differ due to each class having its own expenses, such as transfer agent and shareholder servicing fees, directly attributable to that class. Class II shares have a distribution and service plan. Class I shares are not included in the plan.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by each Portfolio.

Security Transactions and Related Investment Income. Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Realized gains and losses are calculated on the identified cost basis. Interest income is recorded on the accrual basis and includes paydown gain (loss) and accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date, except certain dividends from foreign securities where the ex-dividend date may have passed, which are recorded as soon as the Portfolio is informed of the ex-dividend date. All or a portion of the distributions received from a real estate investment trust or publicly traded partnership may be designated as a reduction of cost of the related investment or realized gain.

Foreign Currency Translation. Each Portfolio's accounting records are maintained in U.S. dollars. All assets and liabilities denominated in foreign currencies are translated into U.S. dollars daily, using foreign exchange rates obtained from an independent pricing service approved by the Board of Trustees of the Trust (the "Board"). Purchases and sales of investment securities and accruals of income and expenses are translated at the rate of exchange prevailing on the date of the transaction. For assets and liabilities other than investments in securities, net realized and unrealized gains and losses from foreign currency translation arise from changes in currency exchange rates. Each Portfolio combines fluctuations from currency exchange rates and fluctuations in value when computing net realized gain (loss) and net change in unrealized appreciation (depreciation) on investments. Foreign exchange rates are typically valued as of the close of the New York Stock Exchange ("NYSE"), normally 4:00 P.M. Eastern time, on each day the NYSE is open for trading.

Allocation of Income, Expenses, Gains and Losses. Income, expenses (other than those attributable to a specific class), gains and losses are allocated on a daily basis to each class of shares based upon the relative proportion of net assets represented by such class. Operating expenses directly attributable to a specific class are charged against the operations of that class.

Dividends and Distributions to Shareholders. Dividends and distributions to shareholders are recorded by each Portfolio on the business day following record date. Net investment income dividends and capital gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America ("U.S. GAAP"). If the total dividends and distributions made in any tax year exceeds net investment income and accumulated realized capital gains, a portion of the total distribution may be treated as a tax return of capital.

Income Taxes. It is the policy of each Portfolio to distribute all of its taxable income and capital gains to its shareholders and to otherwise qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. In addition, each Portfolio intends to pay distributions as required to avoid imposition of excise tax. Accordingly, no provision has been made for Federal income taxes. The Portfolios file income tax returns in U.S. federal and applicable state jurisdictions. The Portfolios' tax returns are subject to examination by the relevant taxing authority until expiration of the applicable statute of limitations, which is generally three years after the filing of the tax returns. Management of the Trust periodically reviews all tax positions to assess whether it is more likely than not that the position would be sustained upon examination by the

relevant tax authority based on the technical merits of each position. As of the date of these financial statements, management believes that no liability for unrecognized tax positions is required.

Segregation and Collateralization. In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission ("SEC"), the Dodd Frank Wall Street Reform and Consumer Protection Act, or the interpretive rules and regulations of the U.S. Commodities Futures Trading Commission require that a Portfolio either deliver collateral or segregate assets in connection with certain investments (e.g., dollar rolls, financial futures contracts, foreign currency exchange contracts, options written, securities with extended settlement periods, and swaps), the Portfolio will segregate collateral or designate on its books and records, cash or other liquid securities having a value at least equal to the amount that is required to be physically segregated for the benefit of the counterparty. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each party has requirements to deliver/deposit cash or securities as collateral for certain investments. Certain countries require that cash reserves be held while investing in companies incorporated in that country. These cash reserves and cash collateral that has been pledged to cover obligations of the Portfolios under derivative contracts, if any, will be reported separately on the Statement of Assets and Liabilities as "Restricted cash". Securities collateral pledged for the same purpose, if any, is noted on the Schedule of Investments.

Concentration of Market and Credit Risk. In the normal course of business, the Portfolios invest in securities and enter into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (issuer credit risk). The value of securities held by the Portfolios may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Portfolios; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to issuer credit risk, the Portfolios may be exposed to counterparty credit risk, or the risk that an entity with which the Portfolios have unsettled or open transactions may fail to or be unable to perform on its commitments. The Portfolios manage counterparty credit risk by entering into transactions only with counterparties that they believe have the financial resources to honor their obligations and by monitoring the financial stability of those counterparties. Financial assets, which potentially expose the Portfolios to market, issuer and counterparty credit risks, consist principally of financial instruments and receivables due from counterparties. The extent of the Portfolios' exposure to market, issuer and counterparty credit risks with respect to these financial assets is generally approximated by their value recorded on the Portfolios' Statement of Assets and Liabilities, less any collateral held by the Portfolios.

Certain Portfolios may hold high-yield or non-investment-grade bonds, that may be subject to a greater degree of credit risk. Credit risk relates to the ability of the issuer to meet interest or principal payments or both as they become due. The Portfolios may acquire securities in default and are not obligated to dispose of securities whose issuers subsequently default.

Certain Portfolios may enter into financial instrument transactions (such as swaps, futures, options and other derivatives) that may have off-balance sheet market risk. Off-balance sheet market risk exists when the maximum potential loss on a particular financial instrument is greater than the value of such financial instrument, as reflected on the Statement of Assets and Liabilities.

If a Portfolio invests directly in foreign currencies or in securities that trade in, and receive revenues in, foreign currencies, or in financial derivatives that provide exposure to foreign currencies, it will be subject to the risk that those currencies will decline in value relative to the base currency of the Portfolio, or, in the case of hedging positions, that the Portfolio's base currency will decline in value relative to the currency being hedged. Currency rates in foreign countries may fluctuate significantly over short periods of time for a number of reasons, including changes in interest rates, intervention (or the failure to intervene) by U.S. or foreign governments, central banks or supranational entities such as the International Monetary Fund, or by the imposition of currency controls or other political developments in the United States or abroad.

Inflation-Indexed Bonds. Certain Portfolios may invest in inflation-indexed bonds. Inflation-indexed bonds are fixed-income securities whose principal value is periodically adjusted to the rate of inflation. The interest rate on these bonds is generally fixed at issuance at a rate lower than typical bonds. Over the life of an inflation-indexed bond, however, interest will be paid based on a principal value, which is adjusted for inflation. Any increase or decrease in the principal amount of an inflation-indexed bond will be included as interest income on the Statement of Operations, even though investors do not receive their principal until maturity.

Interest Only Obligations. These securities entitle the owner to receive only the interest portion from a bond, Treasury note or pool of mortgages. These securities are generally created by a third party separating a bond or pool of mortgages into distinct interest-only and principal-only securities. As the principal (par) amount of a bond or pool of mortgages is paid down, the amount of interest income earned by the owner will decline as well.

Loans. Certain Portfolios may invest in loans, the interest rates of which float or adjust periodically based upon a specified adjustment schedule, benchmark indicator, or prevailing interest rates, the debtor of which may be a domestic or foreign corporation, partnership or other entity ("Borrower"). Loans generally pay interest at rates which are periodically redetermined by reference to a base lending rate plus a premium. These base lending rates generally include prime rates of

one or more major U.S. banks, the London Interbank Offered Rate ("LIBOR") or certificates of deposit rates. Loans often require prepayments from excess cash flow or permit the Borrower to repay at its election. The degree to which Borrowers repay cannot be predicted with accuracy. As a result, the actual maturity may be substantially less than the stated maturities. Loans are exempt from registration under the Securities Act of 1933, as amended, may contain certain restrictions on resale, and cannot be sold publicly. A Portfolio's investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties.

When a Portfolio purchases assignments, it acquires all the rights and obligations under the loan agreement of the assigning lender. Assignments may, however, be arranged through private negotiations between potential assignees and potential assignors, and the rights and obligations acquired by the purchaser of an assignment may differ from, and be more limited than those held by the assigning lender. When a Portfolio purchases a participation of a loan interest, the Portfolio typically enters into a contractual agreement with the lender or other third party selling the participation. A participation interest in loans includes the right to receive payments of principal, interest and any fees to which it is entitled from the lender and only upon receipt by the lender of payments from the Borrower, but not from the Borrower directly. When investing in a participation interest, if a Borrower is unable to meet its obligations under a loan agreement, a Portfolio generally has no direct right to enforce compliance with the terms of the loan agreement. As a result, the Portfolio assumes the credit risk of the Borrower, the selling participant, and any other persons that are interpositioned between the Portfolio and the Borrower. If the lead lender in a typical lending syndicate becomes insolvent, enters Federal Deposit Insurance Corporation ("FDIC") receivership or, if not FDIC insured, enters into bankruptcy, the Portfolio may incur certain costs and delays in receiving payment or may suffer a loss of principal and interest.

Payment In-Kind Securities. Certain Portfolios may invest in payment in-kind securities ("PIKs"). PIKs give the issuer the option at each interest payment date of making interest payments in cash or in additional debt securities. Those additional debt securities usually have the same terms, including maturity dates and interest rates, and associated risks as the original bonds. The daily market quotations of the original bonds may include the accrued interest (referred to as a dirty price) and require a pro-rata adjustment from the unrealized appreciation or depreciation on investments to interest receivable on the Statement of Assets and Liabilities.

Securities on a When-Issued or Delayed Delivery Basis. Certain Portfolios may purchase securities on a "when-issued" basis, and may purchase or sell securities on a "delayed delivery" basis. "When-issued" or "delayed delivery" refers to securities whose terms and indenture are available and for which a market exists, but which are not available for immediate delivery. Delivery and payment for securities that have been purchased by a Portfolio on a when-issued basis normally take place within six months and possibly as long as two years or more after the trade date. During this period, such securities do not earn interest, are subject to market fluctuation and may increase or decrease in value prior to their delivery. The purchase of securities on a when-issued basis may increase the volatility of a Portfolio's NAV to the extent the Portfolio executes such transactions while remaining substantially fully invested. When a Portfolio engages in when-issued or delayed delivery transactions, it relies on the buyer or seller, as the case may be, to complete the transaction. Their failure to do so may cause the Portfolio to lose the opportunity to obtain or dispose of the security at a price and yield IICO, or the Portfolio's investment subadviser, as applicable, consider advantageous. The Portfolio maintains internally designated assets with a value equal to or greater than the amount of its purchase commitments. The Portfolio may also sell securities that it purchased on a when-issued or delayed delivery basis prior to settlement of the original purchase.

Custodian Fees. "Custodian fees" on the Statement of Operations may include interest expense incurred by a Portfolio on any cash overdrafts of its custodian account during the period. Such cash overdrafts may result from the effects of failed trades in portfolio securities and from cash outflows resulting from unanticipated shareholder redemption activity. A Portfolio pays interest to its custodian on such cash overdrafts, to the extent they are not offset by positive cash balances maintained by that Portfolio. The "Earnings credit" line item, if shown, represents earnings on cash balances maintained by that Portfolio during the period. Such interest expense and other custodian fees may be paid with these earnings.

Indemnification. The Trust's organizational documents provide current and former Trustees and Officers with a limited indemnification against liabilities arising in connection with the performance of their duties to the Trust. In the normal course of business, the Trust may also enter into contracts that provide general indemnification. The Trust's maximum exposure under these arrangements is unknown and is dependent on future claims that may be made against the Trust. The risk of material loss from such claims is considered remote.

Basis of Preparation. Each Portfolio is an investment company and follows accounting and reporting guidance in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 ("ASC 946"). The accompanying financial statements were prepared in accordance with U.S. GAAP, including but not limited to ASC 946. U.S. GAAP requires the use of estimates made by management. Management believes that estimates and valuations are appropriate; however, actual results may differ from those estimates, and the valuations reflected in the accompanying financial statements may differ from the value ultimately realized upon sale or maturity.

Subsequent Events. Management has performed a review for subsequent events through the date this report was issued.

3. INVESTMENT VALUATION AND FAIR VALUE MEASUREMENTS

Each Portfolio's investments are reported at fair value. Fair value is defined as the price that each Portfolio would receive upon selling an asset or would pay upon satisfying a liability in an orderly transaction between market participants at the measurement date. Each Portfolio calculates the NAV of its shares as of the close of the NYSE, normally 4:00 P.M. Eastern time, on each day the NYSE is open for trading.

For purposes of calculating the NAV, the portfolio securities and financial instruments are valued on each business day using pricing and valuation methods as adopted by the Board. Where market quotes are readily available, fair value is generally determined on the basis of the last reported sales price, or if no sales are reported, based on quotes obtained from a quotation reporting system, established market makers, or pricing services.

Prices for fixed-income securities are typically based on quotes that are obtained from an independent pricing service approved by the Board. To determine values of fixed-income securities, the independent pricing service utilizes such factors as current quotations by broker/dealers, coupon, maturity, quality, type of issue, trading characteristics, and other yield and risk factors it deems relevant in determining valuations. Securities that cannot be valued by the independent pricing service may be valued using quotes obtained from dealers that make markets in the securities.

Investments in Government Money Market are valued on the basis of amortized cost (which approximates value), whereby a portfolio security is valued at its cost initially, and thereafter valued to reflect a constant amortization to maturity of any discount or premium. Short-term securities with maturities of 60 days or less held in all Portfolios (with the exception of Government Money Market) are valued based on quotes that are obtained from an independent pricing service approved by the Board as described in the preceding paragraph above.

Because many foreign markets close before the NYSE, events may occur between the close of the foreign market and the close of the NYSE that could have a material impact on the valuation of foreign securities. Waddell & Reed Services Company ("WRSCO"), pursuant to procedures adopted by the Board, evaluates the impact of these events and may adjust the valuation of foreign securities to reflect the fair value as of the close of the NYSE. In addition, all securities for which values are not readily available or are deemed unreliable are appraised at fair value as determined in good faith under the supervision of the Board.

Where market quotes are not readily available, portfolio securities or financial instruments are valued at fair value, as determined in good faith by the Board or Valuation Committee pursuant to procedures approved by the Board.

Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information or broker quotes), including where events occur after the close of the relevant market, but prior to the NYSE close, that materially affect the values of a Portfolio's securities or financial instruments. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, the exchanges or markets on which the securities trade do not open for trading for the entire day and no other market prices are available.

The Board has delegated to WRSCO the responsibility for monitoring significant events that may materially affect the values of a Portfolio's securities or financial instruments and for determining whether the value of the applicable securities or financial instruments should be re-evaluated in light of such significant events. The Board has established a Valuation Committee to administer and oversee the valuation process, including the use of third party pricing vendors.

The Board has adopted methods for valuing securities and financial instruments in circumstances where market quotes are not readily available. For instances in which daily market quotes are not readily available, investments may be valued, pursuant to procedures established by the Board, with reference to other securities or indices. In the event that the security or financial instrument cannot be valued pursuant to one of the valuation methods established by the Board, the value of the security or financial instrument will be determined in good faith by the Valuation Committee in accordance with the procedures adopted by the Board.

When a Portfolio uses these fair valuation methods applied by WRSCO that use significant unobservable inputs to determine its NAV, securities will be priced by a method that the Board or persons acting at its direction believe accurately reflects fair value and are categorized as Level 3 of the fair value hierarchy. These methods may require subjective determinations about the value of a security. The prices used by a Portfolio may differ from the value that will ultimately be realized at the time the securities are sold.

WRSCO is responsible for monitoring the implementation of the pricing and valuation policies through a series of activities to provide reasonable comfort of the accuracy of prices including: 1) periodic vendor due diligence meetings to review methodologies, new developments, and process at vendors, 2) daily and monthly multi-source pricing comparisons reviewed and submitted to the Valuation Committee, and 3) daily review of unpriced, stale, and variance reports with exceptions reviewed by management and the Valuation Committee.

Accounting standards establish a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or

unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the factors that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

An individual investment's fair value measurement is assigned a level based upon the observability of the inputs which are significant to the overall valuation.

The three-tier hierarchy of inputs is summarized as follows:

- Level 1 Observable input such as quoted prices, available in active markets, for identical assets or liabilities.
- Level 2 Significant other observable inputs, which may include, but are not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market corroborated inputs.
- Level 3 Significant unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available, which may include assumptions made by the Board or persons acting at its direction that are used in determining the fair value of investments.

A description of the valuation techniques applied to the Portfolios' major classes of assets and liabilities measured at fair value on a recurring basis follows:

Asset-Backed Securities and Mortgage-Backed Securities. The fair value of asset-backed securities and mortgage-backed securities are estimated using recently executed transactions and based on models that consider the estimated cash flows of each debt tranche of the issuer, establish a benchmark yield, and develop an estimated tranche specific spread to the benchmark yield based on the unique attributes of the tranche including, but not limited to, the prepayment speed assumptions and attributes of the collateral. To the extent the inputs are observable and timely, the values would be categorized in Level 2 of the fair value hierarchy, and otherwise they would be categorized as Level 3.

Bullion. The fair value of bullion is at the last settlement price at the end of each day on the board of trade or exchange upon which they are traded and are categorized in Level 1 of the fair value hierarchy.

Corporate Bonds. The fair value of corporate bonds, as obtained from an independent pricing service, is estimated using various techniques, which consider recently executed transactions in securities of the issuer or comparable issuers, market price quotations (where observable), bond spreads, fundamental data relating to the issuer, and credit default swap spreads adjusted for any basis difference between cash and derivative instruments. While most corporate bonds are categorized in Level 2 of the fair value hierarchy, in instances where lower relative weight is placed on transaction prices, quotations, or similar observable inputs, they are categorized in Level 3 of the fair value hierarchy.

Derivative Instruments. Forward foreign currency contracts are valued based upon the closing prices of the forward currency rates determined at the close of the NYSE, are provided by an independent pricing service. Swaps derive their value from underlying asset prices, indices, reference rates and other inputs or a combination of these factors. Swaps are valued by an independent pricing service unless the price is unavailable, in which case they are valued at the price provided by a dealer in that security. Futures contracts traded on an exchange are generally valued at the settlement price. Listed options are ordinarily valued at the mean of the last bid and ask price provided by an independent pricing service unless the price is unavailable, in which case they are valued at a quotation obtained from a broker-dealer. Over the counter ("OTC") options are ordinarily valued at the mean of the last bid and ask price provided by an independent pricing service for a comparable listed option unless such a price is unavailable, in which case they are valued at a quotation obtained from a broker-dealer. If no comparable listed option exists from which to obtain a price from an independent pricing service and a quotation cannot be obtained from a broker-dealer, the OTC option will be valued using a model reasonably designed to provide a current market price.

Listed derivatives that are actively traded are valued based on quoted prices from the exchange and are categorized in Level 1 of the fair value hierarchy. OTC derivative contracts include forward foreign currency contracts, swap agreements, and option contracts related to interest rates, foreign currencies, credit standing of reference entities, equity prices, or commodity prices. Depending on the product and the terms of the transaction, the fair value of the OTC derivative products are modeled taking into account the counterparties' creditworthiness and using a series of techniques, including simulation models. Many pricing models do not entail material subjectivity because the methodologies employed do not necessitate significant judgments and the pricing inputs are observed from actively quoted markets, as is the case with interest rate swap and option contracts. OTC derivative products valued using pricing models with significant observable inputs are categorized within Level 2 of the fair value hierarchy.

Equity Securities. Equity securities traded on U.S. or foreign securities exchanges or included in a national market system are valued at the official closing price at the close of each business day unless otherwise stated below. OTC equity securities and listed securities for which no price is readily available are valued at the average of the last bid and ask prices.

Mutual funds, including investment funds, typically are valued at the NAV reported as of the valuation date.

Securities that are stated at the last reported sales price or closing price on the day of valuation taken from the primary exchange where the security is principally traded and to the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

Foreign securities, for which the primary trading market closes at the same time or after the NYSE, are valued based on quotations from the primary market in which they are traded and categorized in Level 1. Because many foreign securities markets and exchanges close prior to the close of the NYSE, closing prices for foreign securities in those markets or on those exchanges do not reflect the events that occur after that close. Certain foreign securities may be fair valued using a pricing service that considers the correlation of the trading patterns of the foreign security to the intra-day trading in the U.S. markets for investments such as American Depositary Receipts, financial futures, exchange-traded funds, and the movement of certain indices of securities based on a statistical analysis of their historical relationship; such valuations generally are categorized in Level 2.

Preferred stock, repurchase agreements, and other equities traded on inactive markets or valued by reference to similar instruments are also generally categorized in Level 2.

Loans. Loans are valued using a price or composite price from one or more brokers or dealers as obtained from an independent pricing service. The fair value of loans is estimated using recently executed transactions, market price quotations, credit/market events, and cross-asset pricing. Inputs are generally observable market inputs obtained from independent sources. Loans are generally categorized in Level 2 of the fair value hierarchy, unless key inputs are unobservable in which case they would be categorized as Level 3.

Municipal Bonds. Municipal bonds are fair valued based on pricing models used by and obtained from an independent pricing service that take into account, among other factors, information received from market makers and broker-dealers, current trades, bid-wants lists, offerings, market movements, the callability of the bond, state of issuance, benchmark yield curves, and bond insurance. To the extent that these inputs are observable and timely, the fair values of municipal bonds would be categorized as Level 2; otherwise the fair values would be categorized as Level 3.

Overdraft due to custodian. Due to the short-term nature of overdraft due to custodian, the carrying value approximates fair value and the liability is categorized as Level 2 in the fair value hierarchy.

Restricted Securities. Restricted securities that are deemed to be Rule 144A securities and illiquid, as well as restricted securities held in non-public entities, are included in Level 3 of the fair value hierarchy to the extent that significant inputs to valuation are unobservable, because they trade infrequently, if at all and, therefore, the inputs are unobservable. Restricted securities that are valued at a discount to similar publicly traded securities may be categorized as Level 2 of the fair value hierarchy to the extent that the discount is considered to be insignificant to the fair value measurement in its entirety; otherwise they may be categorized as Level 3.

U.S. Government and Agency Securities. U.S. government and agency securities are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, quoted market prices, and reference data. Accordingly, U.S. government and agency securities are normally categorized in Level 2 of the fair value hierarchy depending on the liquidity and transparency of the market.

Transfers from Level 2 to Level 3 occurred primarily due to the lack of observable market data due to decreased market activity or information for these securities. Transfers from Level 3 to Level 2 occurred primarily due to the increased availability of observable market data due to increased market activity or information. Transfers between levels represent the values as of the beginning of the reporting period.

For fair valuations using unobservable inputs, U.S. GAAP requires a reconciliation of the beginning to ending balances for reported fair values that presents changes attributable to total realized and unrealized gains or losses, purchases and sales, and transfers in or out of the Level 3 category during the period. In accordance with the requirements of U.S. GAAP, a fair value hierarchy and Level 3 reconciliation, if any, have been included in the Notes to the Schedule of Investments for each respective Portfolio.

Net realized gain (loss) and net unrealized appreciation (depreciation), shown on the reconciliation of Level 3 investments, if applicable, are included on the Statement of Operations in net realized gain (loss) on investments in unaffiliated and/or affiliated securities and in net change in unrealized appreciation (depreciation) on investments in unaffiliated and/or affiliated securities, respectively. Additionally, the net change in unrealized appreciation (depreciation) for all Level 3 investments still held as of June 30, 2017, if applicable, is included on the Statement of Operations in net change in unrealized appreciation (depreciation) on investments in unaffiliated and/or affiliated securities.

4. **DERIVATIVE INSTRUMENTS** (\$ amounts in thousands unless indicated otherwise)

The following disclosures contain information on why and how the Portfolios use derivative instruments, the associated risks of investing in derivative instruments, and how derivative instruments affect the Portfolios' financial positions and results of operations when presented by primary underlying risk exposure.

Forward Foreign Currency Contracts. Each Portfolio, other than Government Money Market and the Pathfinder Portfolios, may enter into forward foreign currency contracts ("forward contracts") for the purchase or sale of a foreign currency at a negotiated rate at a future date. Forward contracts are reported on a schedule following the Schedule of Investments. Forward contracts will be valued daily based upon the closing prices of the forward currency rates provided by an independent pricing service determined at the close of the NYSE as provided by a bank, dealer or independent pricing service. The resulting unrealized appreciation and depreciation is reported on the Statement of Assets and Liabilities as a receivable or payable and on the Statement of Operations within the change in unrealized appreciation (depreciation). At contract close, the difference between the original cost of the contract and the value at the close date is recorded as a realized gain (loss) on the Statement of Operations.

Risks to a Portfolio related to the use of such contracts include both market and credit risk. Market risk is the risk that the value of the forward contract will depreciate due to unfavorable changes in the exchange rates. Credit risk arises from the possibility that the counterparty will default. If the counterparty defaults, a Portfolio's maximum loss will consist of the aggregate unrealized gain on appreciated contracts that is not collateralized.

Asset Strategy, Global Bond, High Income, International Core Equity and Natural Resources enter into forward foreign currency exchange contracts as an economic hedge against either specific transactions or portfolio instruments or to obtain exposure to, or hedge exposure away from foreign currencies (foreign currency exchange rate risk).

Futures Contracts. Each Portfolio, other than Government Money Market and the Pathfinder Portfolios, may engage in buying and selling futures contracts. Upon entering into a futures contract, the Portfolio is required to deposit, in a segregated account, an amount equal to a varying specified percentage of the contract amount. This amount is known as the initial margin. Subsequent payments (variation margins) are made or received by the Portfolio each day, dependent on the daily fluctuations in the value of the underlying debt security or index.

Futures contracts are reported on a schedule following the Schedule of Investments. Securities held in collateralized accounts to cover initial margin requirements on open futures contracts are identified on the Schedule of Investments. Cash held by the broker to cover initial margin requirements on open futures contracts and the receivable and/or payable for the daily mark to market for the variation margin are noted on the Statement of Assets and Liabilities. The net change in unrealized appreciation (depreciation) is reported on the Statement of Operations. Realized gains (losses) are reported on the Statement of Operations at the closing or expiration of futures contracts.

Risks of entering into futures contracts include the possibility of loss of securities or cash held as collateral, that there may be an illiquid market where the Portfolio is unable to close the contract or enter into an offsetting position and, if used for hedging purposes, the risk that the price of the contract will correlate imperfectly with the prices of the Portfolio's securities.

Pathfinder Moderate — Managed Volatility, Pathfinder Moderately Aggressive — Managed Volatility and Pathfinder Moderately Conservative — Managed Volatility invest in long and/or short positions in futures contracts to gain exposure to, or economically hedge against, changes in interest rates (interest rate risk), changes in the value of equity securities (equity risk) or foreign currencies (foreign currency exchange rate risk).

Option Contracts. Options purchased by a Portfolio are accounted for in the same manner as portfolio securities. The cost of instruments acquired through the exercise of call options is increased by the premium paid to purchase the call. The proceeds from instruments sold through the exercise of put options are decreased by the premium paid to purchase the put.

When a Portfolio writes (sells) an option, an amount equal to the premium received by the Portfolio is recorded as a liability. The amount of the liability is subsequently adjusted to reflect the current value of the option written. When an option expires on its stipulated expiration date or a Portfolio enters into a closing purchase transaction, the Portfolio realizes a gain (or loss if the cost of a closing purchase transaction exceeds the premium received when the call option was sold), and the liability related to such option is extinguished. When a written call option is exercised, the premium is added to the proceeds from the sale of the underlying instrument in determining whether a Portfolio has realized a gain or loss. When a written put is exercised, the cost basis of the instruments purchased by a Portfolio is reduced by the amount of the premium received.

Investments in options, whether purchased or written, involve certain risks. Writing put options and purchasing call options may increase a Portfolio's exposure to the underlying instrument. With written options, there may be times when a Portfolio will be required to purchase or sell instruments to meet its obligation under the option contract where the required action is not beneficial to the Portfolio, due to unfavorable movement of the market price of the underlying instrument.

Additionally, to the extent a Portfolio enters into OTC option transactions with counterparties, the Portfolio will be exposed to the risk that counterparties to these OTC transactions will be unable to meet their obligations under the terms of the transaction.

Mid Cap Growth, Science and Technology, Small Cap Growth and Value purchase and write call and put options to increase or decrease hedging exposure to underlying instruments (which include credit risk, equity risk, foreign currency exchange rate risk, event risk and/or interest rate risk), increase exposure to various equity markets or certain sectors, gain exposure to or facilitate trading in certain securities and/or, in the case of options written, to generate returns from options premiums.

Swap Agreements. Each Portfolio, other than Government Money Market and the Pathfinder Portfolios, may invest in swap agreements. Swaps are marked to market daily and changes in value are recorded as unrealized appreciation (depreciation) on the Statement of Operations. Payments received or made by the Portfolio are recorded as realized gain or loss on the Statement of Operations. Any upfront premiums paid are recorded as assets and any upfront fees received are recorded as liabilities and are shown as swap premiums paid and swap premiums received, respectively, if any, on the Statement of Assets and Liabilities and amortized over the term of the swap. A liquidation payment received or made at the termination or maturity of the swap is recorded as realized gain or loss on the Statement of Operations.

Total return swaps involve a commitment to pay or receive periodic interest payments in exchange for a market-linked return based on a security or a basket of securities including a variety of securities or representing a particular index. To the extent the total return of the security, index or other financial measure underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Portfolio will receive a payment from or make a payment to the counterparty.

Asset Strategy and Small Cap Growth enter into total return swaps to hedge exposure to a security or market.

The creditworthiness of the counterparty with which a Portfolio enters into a swap agreement is monitored by IICO. If a firm's creditworthiness declines, the value of the agreement would likely decline, potentially resulting in losses. If a default occurs by the counterparty to such a transaction, the Portfolio will have contractual remedies pursuant to the agreement related to the transaction. The maximum loss a Portfolio may incur consists of the aggregate unrealized gain on appreciated contracts that is not collateralized.

Collateral and rights of offset. A Portfolio may mitigate credit risk with respect to OTC derivative counterparties through credit support annexes ("CSA") included with an International Swaps and Derivatives Association, Inc. ("ISDA") Master Agreement which is the standard contract governing most derivative transactions between the Portfolio and each of its counterparties. The CSA allows the Portfolio and its counterparty to offset certain derivative financial instruments' payables and/or receivables against each other with collateral, which is generally held by the Portfolio's custodian or broker. The amount of collateral moved to/from applicable counterparties is based upon minimum transfer amounts specified in the CSA. To the extent amounts due to the Portfolio from its counterparties are not fully collateralized contractually or otherwise, the Portfolio bears the risk of loss from counterparty non-performance. See Note 2 "Segregation and Collateralization" for additional information with respect to collateral practices.

Offsetting of Assets and Liabilities. The following tables present financial instruments that are either (1) offset or (2) subject to an enforceable master netting arrangement or similar agreement as of June 30, 2017:

Assets

Portfolio				Statement of Assets and Liabilities						
	Gross Amounts of Recognized Assets	Gross Amounts Offset on the Statement of Assets and Liabilities	Net Amounts of Assets Presented on the Statement of Assets and Liabilities	Financial Instruments and Derivatives Available for Offset	Non-Cash Collateral Received	Cash Collateral Received	Net Amount Receivable

6. BASIS FOR CONSOLIDATION OF THE ASSET STRATEGY PORTFOLIO

Ivy VIP ASF II, Ltd. (the "Subsidiary"), a Cayman Islands exempted company, was incorporated as a wholly owned subsidiary acting as an investment vehicle for Ivy VIP Asset Strategy Portfolio (referred to as "the Portfolio" in this subsection). VIP ASF III (SBP), LLC (the "Company"), a Delaware limited liability company, was incorporated as a wholly owned company acting as an investment vehicle for the Portfolio. The Subsidiary and the Company act as an investment vehicle for the Portfolio, in order to effect certain investments for the Portfolio consistent with the Portfolio's investment objectives and policies as specified in its prospectus and SAI.

The Portfolio's investment portfolio has been consolidated and includes the portfolio holdings of the Portfolio, its Subsidiary and the Company. The consolidated financial statements include the accounts of the Portfolio, its Subsidiary and the Company. All inter-company transactions and balances have been eliminated. A subscription agreement was entered into between the Portfolio and its Subsidiary and the Company comprising the entire issued share capital of the Subsidiary and the Company with the intent that the Portfolio will remain the sole shareholder and retain all rights. Under the Articles of Association, shares issued by the Subsidiary and the Company confer upon a shareholder the right to receive notice of, to attend and to vote at general meetings of the Subsidiary and the Company and shall confer upon the shareholder rights in a winding-up or repayment of capital and the right to participate in the profits or assets of the Subsidiary and the Company.

See the table below for details regarding the structure, incorporation and relationship as of June 30, 2017 of the Subsidiary and the Company to the Portfolio (amounts in thousands).

Subsidiary/Company	Date of Incorporation		Portfolio Net Assets	Company	
Ivy VIP ASF II, Ltd. VIP ASF III (SBP), LLC		4-10-13 4-23-13	\$922,543 922,543	\$44,051 999	4.77% 0.11

7. INVESTMENT MANAGEMENT AND PAYMENTS TO AFFILIATED PERSONS (\$ amounts in thousands unless indicated otherwise)

Management Fees. IICO, a wholly owned subsidiary of Waddell & Reed, Inc. ("W&R"), serves as each Portfolio's investment adviser. The management fee is accrued daily by each Portfolio, except the Pathfinder Portfolios, at the following annual rates as a percentage of average daily net assets:

Portfolio (M – Millions)	\$0 to \$500M	\$500 to \$1,000M	\$1,000 to \$1,500M	\$1,500 to \$2,000M	\$2,000 to \$3,000M	Over \$3,000M
Advantus Real Estate Securities	0.900%	0.900%	0.870%	0.870%	0.840%	0.800%
Asset Strategy	0.700	0.700	0.650	0.650	0.600	0.550
Balanced	0.700	0.700	0.650	0.650	0.600	0.550
Bond	0.525	0.500	0.450	0.400	0.400	0.400
Core Equity	0.700	0.700	0.650	0.650	0.600	0.550

(1)Management fee annual rates effective April 28, 2017. Prior to April 28, 2017, Government Money Market paid a management fee at the annual rate of 0.400% on all net assets.

Each Managed Volatility Portfolio pays a management fee to IICO for providing investment advice and supervising its investments at the following annual rates as a percentage of average daily net assets:

Portfolio (M – Millions)		\$500 to \$1,000M	Over \$1,000M
Pathfinder Moderate — Managed Volatility	0.200%	0.170%	0.150%
Pathfinder Moderately Aggressive — Managed Volatility	0.200	0.170	0.150
Pathfinder Moderately Conservative — Managed Volatility	0.200	0.170	0.150

IICO uses all of the management fee it receives from the Managed Volatility Portfolios to pay Advantus Capital Management Inc. ("Advantus Capital"). Accordingly, Advantus Capital receives a fee based on the average daily net assets of the Managed Volatility Portfolios.

The Pathfinder Portfolios pay no management fees; however, IICO receives management fees from the underlying funds.

IICO has agreed to waive a Portfolio's investment management fee on any Portfolio, except the Pathfinder Portfolios and Managed Volatility Portfolios, that is not subadvised on any day that the Portfolio's net assets are less than \$25 million, subject to IICO's right to change or modify this waiver. See Expense Reimbursements and/or Waivers for more information.

IICO has entered into Subadvisory Agreements with the following entities on behalf of certain Portfolios:

Advantus Capital serves as subadvisor to Advantus Real Estate Securities and the Managed Volatility Portfolios. The subadvisor makes investment decisions in accordance with the Portfolio's investment objectives, policies and restrictions under the supervision of IICO and the Board of Trustees. IICO pays all applicable costs of the subadvisor.

Independent Trustees and Chief Compliance Officer Fees. Fees paid to the Independent Trustees can be paid in cash or deferred to a later date, at the election of the Trustees according to the Deferred Fee Agreement entered into between the Trust and the Trustee(s). Each Portfolio records its portion of the deferred fees as a liability on the Statement of Assets and Liabilities. All fees paid in cash plus any appreciation (depreciation) in the underlying deferred plan are shown on the Statement of Operations. Additionally, fees paid to the Chief Compliance Officer of the Portfolios are shown on the Statement of Operations.

Accounting Services Fees. The Trust has an Accounting and Administrative Services Agreement with Waddell & Reed Services Company ("WRSCO"), doing business as WI Services Company ("WISC"), an affiliate of W&R. Under the agreement, WISC acts as the agent in providing bookkeeping and accounting services and assistance to the Trust, including maintenance of Portfolio records, pricing of Portfolio shares and preparation of certain shareholder reports. For these services, each Portfolio (excluding Pathfinder Portfolios and Managed Volatility Portfolios) pays WISC a monthly fee of one-twelfth of the annual fee based on the average net asset levels shown in the following table:

(M – Millions)									\$750 to \$1,000M	
Annual Fee Rate	\$0.00	\$11.50	\$23.10	\$35.50	\$48.40	\$63.20	\$82.50	\$96.30	\$121.60	\$148.50

Under the Accounting Services Agreement, each Pathfinder Portfolio and Managed Volatility Portfolio pays WISC a monthly fee of one-twelfth of the annual fee shown in the following table:

(M – Millions)									\$750 to \$1,000M	
Annual Fee Rate	\$0.00	\$5.75	\$11.55	\$17.75	\$24.20	\$31.60	\$41.25	\$48.15	\$60.80	\$74.25

Each Portfolio also pays WISC a monthly administrative fee at the annual rate of 0.01%, or one basis point, for the first \$1 billion of net assets with no fee charged for net assets in excess of \$1 billion. This fee is voluntarily waived by WISC until a Portfolio's net assets are at least \$10 million and is included in "Accounting services fee" on the Statement of Operations.

Shareholder Servicing. Under the Transfer Agency Agreement between the Trust and WISC, each Portfolio reimburses WISC for certain out-of-pocket costs.

Service Plan. Class II. Under a Service Plan adopted by the Trust pursuant to Rule 12b–1 under the 1940 Act, each Portfolio, except Government Money Market, the Pathfinder Portfolios and the Managed Volatility Portfolios, may pay a service fee to W&R for Class II shares in an amount not to exceed 0.25% of the Portfolio's average annual net assets. The fee is to be paid to compensate W&R for amounts it expends in connection with the provision of personal services to Policyowners and/or maintenance of Policyowner accounts.

Expense Reimbursements and/or Waivers. Effective October 14, 2016, IICO has voluntarily agreed to reimburse sufficient expenses of Government Money Market to maintain a minimum annualized yield of 0.01%. For the period from January 28, 2010 through October 14, 2016, IICO voluntarily agreed to reimburse sufficient expenses of Government Money Market to maintain a minimum annualized yield of 0.02%. For the period ended June 30, 2017, expenses in the amount of \$51 were reimbursed.

Effective May 1, 2012, IICO and/or Ivy Distributors, Inc. ("IDI") have voluntarily agreed to reimburse sufficient expenses of Mid Cap Growth to cap the expenses for Class II shares at 1.10%. For the period ended June 30, 2017, expenses in the amount of \$141 were reimbursed. This reimbursement serves to reduce 12b-1 fees and/or shareholder servicing fees. Effective April 28, 2017, IICO and/or IDI have voluntarily agreed to reimburse sufficient expenses of Mid Cap Growth to cap the expenses for Class I shares at 0.85%. For the period ended June 30, 2017, expenses in the amount of \$18 were reimbursed. This reimbursement serves to reduce shareholder servicing fees.

Effective December 3, 2012, IICO has contractually agreed to reduce the management fee computed and paid by Advantus Real Estate Securities Portfolio each day on NAV by 0.09% on an annualized basis. For the period ended June 30, 2017, expenses in the amount of \$21 were reimbursed.

Effective October 1, 2016, IICO and/or IDI have contractually agreed to reimburse sufficient expenses of Core Equity to cap the expenses for the Portfolio at 0.95%. For the period ended June 30, 2017, expenses in the amount of \$118 were reimbursed. This reimbursement serves to reduce 12b-1 fees and/or shareholder servicing fees.

Effective October 1, 2016, IICO and/or IDI have contractually agreed to reimburse sufficient expenses of Global Growth to cap the expenses for the Portfolio at 1.13%. For the period ended June 30, 2017, expenses in the amount of \$83 were reimbursed. This reimbursement serves to reduce 12b-1 fees and/or shareholder servicing fees.

Effective October 1, 2016, IICO and/or IDI have contractually agreed to reimburse sufficient expenses of Small Cap Growth to cap the expenses for the Portfolio at 1.14%. For the period ended June 30, 2017, expenses in the amount of \$43 were reimbursed. This reimbursement serves to reduce 12b-1 fees and/or shareholder servicing fees.

Any amounts due to the Portfolios as a reimbursement but not paid as of June 30, 2017 are shown as a receivable from affiliates on the Statement of Assets and Liabilities.

8. RELATED PARTY TRANSACTIONS

Certain Portfolios are permitted to purchase or sell securities from or to certain affiliated funds under specified conditions outlined in procedures adopted by the Board. The procedures have been designed to ensure that any purchase or sale of securities by the Portfolios from or to another fund or portfolio that are, or could be, considered an affiliate by virtue of having a common investment adviser (or affiliated investment advisers), common Trustees or common officers, complies with Rule 17a-7 under the Act. Further, as defined under such procedures, each transaction is effected at the current market price. During the period ended June 30, 2017, the Portfolios below engaged in purchases and sales of securities pursuant to Rule 17a-7 under the Act (amounts in thousands):

Portfolio	Purchases	Sales
Bond	\$ -	\$4,088
High Income		1,108
International Core Equity	_	3,008
Limited-Term Bond	2,796	_
Small Cap Growth		5,356

9. INTERFUND LENDING PROGRAM

Pursuant to an exemptive order issued by the SEC ("Order"), the Trust and the Advisors Fund Complex (Waddell & Reed Advisors Funds, Ivy Funds and InvestEd Portfolios; referred to with the Funds for purposes of this section as Funds) have the ability to lend money to, and borrow money from, each other pursuant to a master interfund lending agreement ("Interfund Lending Program"). Under the Interfund Lending Program, the Funds may lend or borrow money for temporary purposes directly to or from one another (each an "Interfund Loan"), subject to meeting the conditions of the Order. The interest rate to be charged on an Interfund Loan is the average of the overnight repurchase agreement rate and the short-term bank loan rate. The Funds made no Interfund Loans under the Interfund Lending Program during the period ended June 30, 2017.

10. AFFILIATED COMPANY TRANSACTIONS (All amounts in thousands)

13. COMMITMENTS (\$ amounts in thousands)

Bridge loan commitments may obligate a Portfolio to furnish temporary financing to a borrower until permanent financing can be arranged. At period ended June 30, 2017, High Income had outstanding bridge loan commitments of \$8,813. In connection with these commitments, the Portfolio earns a commitment fee, typically set as a percentage of the commitment amount. Such fee income is included in interest income on the Statements of Operations.

14. NEW AND AMENDED FINANCIAL REPORTING RULES AND FORMS

On October 13, 2016, the SEC adopted new rules and forms, and amended existing rules and forms. The new and amended rules and forms are intended to modernize the reporting of information provided by portfolios and to improve the quality and type of information that portfolios provide to the SEC and investors. In part, the new and amended rules and forms

amend Regulation S-X and require standardized, enhanced disclosure about derivatives in a Portfolio's financial statements, as well as other amendments. The compliance date for the amendments of Regulation S-X is for reporting periods ending after August 1, 2017 while the compliance date for the new form types and other rule amendments is on or after June 1, 2018. Management is evaluating the new and amended rules and forms to determine the impact to the Portfolios.

15. FEDERAL INCOME TAX MATTERS (\$ amounts in thousands)

For Federal income tax purposes, cost of investments owned at June 30, 2017 and the related unrealized appreciation (depreciation) were as follows:

Portfolio	Cost of Investments	Gross Appreciation	Gross Depreciation	Net Unrealized Appreciation (Depreciation)

Internal Revenue Code regulations permit each Portfolio to elect to defer into its next fiscal year capital losses and certain specified ordinary items incurred between each November 1 and the end of its fiscal year. Each Portfolio is also permitted to defer into its next fiscal certain ordinary losses that generated between each January 1 and the end of its fiscal year.

The tax character of dividends and distributions paid during the two fiscal years ended December 31, 2016 and 2015 were as follows:

	Decemb	er 31, 2016	December 31, 2015

(1)Includes short-term capital gains distributed, if any.

Dividends from net investment income and short-term capital gains are treated as ordinary income dividends for federal income tax purposes.

Accumulated capital losses represent net capital loss carryovers as of December 31, 2016 that may be available to offset future realized capital gains and thereby reduce future capital gains distributions. Under the Regulated Investment Company Modernization Act of 2010 (the "Modernization Act"), the Portfolio is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. Any losses incurred during those future taxable years will be required to be utilized prior to any losses incurred in pre-enactment taxable years which have only an eight year carryforward period. As a result of this ordering rule, pre-enactment capital loss carryovers may expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under the previous law. The Portfolio's first fiscal year end subject to the Modernization Act was December 31, 2011. The following table shows the expiration dates for capital loss carryovers from pre-enactment taxable years and the amounts of capital loss carryovers, if any, by each of the applicable portfolios electing to be taxed as a regulated investment company during the period end December 31, 2016:

16. REGULATORY AND LITIGATION MATTERS

On July 24, 2006, WRIMCO, W&R and WRSCO (collectively, "Waddell & Reed") reached a settlement with the SEC to resolve proceedings brought in connection with its investigation of frequent trading and market timing in certain Waddell & Reed Advisors Funds.

Under the terms of the SEC's cease-and desist order (the "SEC Order"), pursuant to which Waddell & Reed neither admitted nor denied any of the findings contained therein, among other provisions Waddell & Reed agreed to pay \$40 million in disgorgement and \$10 million in civil money penalties.

Pursuant to the terms of the SEC order, the \$50 million in disgorgement and civil penalties, plus accrued interest (the "Fair Fund"), must be distributed in accordance with a distribution plan developed by an independent distribution consultant, in consultation with W&R and as approved by the SEC, using a distribution methodology acceptable to the Funds' Disinterested Trustees. The SEC Order also required that the independent distribution consultant develop the distribution methodology pursuant to which Fund shareholders shall receive their proportionate share of losses, if any, suffered by the Funds due to market timing. On July 15, 2014, the SEC ordered that the Fair Fund be distributed to investors as provided for in the distribution plan.

The foregoing is only a summary of the SEC Order. A copy of the SEC Order and the distribution plan are available on the SEC's website at www.sec.gov.

Proxy Voting Guidelines

A description of the policies and procedures Ivy Variable Insurance Portfolios uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling 1.888.WADDELL and (ii) on the Securities and Exchange Commission's ("SEC") website at www.sec.gov.

Proxy Voting Records

Information regarding how the Portfolio voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available on Form N-PX through Waddell & Reed's website at www.waddell.com and on the SEC's website at www.sec.gov.

QUARTERLY PORTFOLIO SCHEDULE INFORMATION

IVY VIP

Portfolio holdings can be found on the Trust's website at www.waddell.com. Alternatively, a complete schedule of portfolio holdings of each Portfolio for the first and third quarters of each fiscal year is filed with the SEC and can be found on the Trust's Form N-Q. These holdings may be viewed in the following ways:

- On the SEC's website at www.sec.gov.
- For review and copy at the SEC's Public Reference Room in Washington, DC. Information on the operations of the Public Reference Room may be obtained by calling 1.800.SEC.0330.
