1.) Item 8A. Control and Procedures, page 17
Evaluation of Disclosure and Procedures

ITEM 8A. CONTROLS AND PROCEDURES.

Controls and Procedures.

Evaluation of Disclosure Controls and Procedures.

As of the end of the period covered by this report, the Registrant carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended ("Exchange Act"). This evaluation was done under the supervision and with the participation of the Registrant's president. Based upon that evaluation, he concluded that the Registrant's disclosure controls and procedures are lacking in gathering, analyzing and disclosing information needed to satisfy the Registrant's disclosure obligations under the Exchange Act. During the period ended September 30, 2007, the Registrant experienced a breakdown in cash receipts controls that caused cash to be deposited in a non Registrant bank account that was to have been deposited in a Registrant bank account. The error was noted and immediately corrected. As of the end of the year it was determined that the controls and procedures were ineffective.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
Inzon Corporation
Delray Beach, Florida

We have audited the accompanying consolidated balance sheet of Inzon Corporation and its subsidiaries as of September 30, 2007, and the consolidated statements of operations, stockholders' deficit and cash flows for the years ended September 30, 2007 and 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Inzon Corporation and its subsidiaries as of September 30, 2007, and the results of its operations and cash flows for the years ended September 30, 2007 and 2006 in conformity with generally accepted accounting principles in the United States.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 4 to the consolidated financial statements, the Company has an accumulated deficit and incurred continuing net losses from operations which all raise substantial doubt about its ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments that may result from the outcome of this uncertainty.
