Exhibit 13

Note 1 Summary of Significant Accounting Policies and Recent Accounting Pronouncements, page 49

1. With a view towards expanded policy disclosure, explain to us how you are accounting for the Battery Swap program. Please reference in your response the accounting literature that you are relying upon as a basis for your policy. Also, explain to us your consideration of accounting for the Battery Swap program as a product warranty or a loss contingency.

Goodwill and Licenses Impairment Assessment, page 53

2. We note when estimating the fair value of goodwill and FCC licenses, you discounted cash flows using rates of 11.5% and 10% respectively. Normally, we would anticipate that the discount rate used to estimate the value of a reporting unit would be lower than the discount rate on an individual intangible asset of that reporting unit. Please explain and provide to us any supporting calculations used to select the discount rates for the reporting unit and the FCC license including a weighted average cost of capital (WACC) calculation and a weighted average return on asset (WARA) calculation.

3. We note your disclosure in response to Item 402(s) of Regulation S-K. In your response letter, please describe the process undertaken to reach the conclusion that your compensation policies and practices are not reasonably likely to have a material adverse effect on the company.
