Item 9. Regulation FD Disclosure

With the objective of enhancing the certainty of future revenues, from time to time EOG Resources, Inc. ("EOG") enters into NYMEX-related financial commodity price swap and collar contracts. Over and above these financial transactions, EOG occasionally enters into various physical commodity contracts. The revenues resulting from these various physical commodity contracts are included in natural gas revenues and impact the average realized natural gas prices. EOG plans to file a Current Report on Form 8-K at a later date to present estimates of the 2003 forecast which will reflect prices associated with these various physical commodity contracts.

Presented below is a summary of EOG's 2003 natural gas and crude oil financial price swap contracts and natural gas financial collar contracts as of February 3, 2003. EOG accounts for these price swap and collar contracts using the mark-to-market accounting method.
