ANNUAL REPORT December 31, 2003

Letter to Shareholders

Dear Shareholders:

We welcome the opportunity to provide you with a summary of the trends and key events that affected the economy and the Goldman Sachs Trust-Financial Square FundsSM during the one-year reporting period that ended December 31, 2003.

The Economy in Review

After a tepid start, the economy gained momentum as the reporting period progressed. During the first quarter of 2003, gross domestic product ("GDP") was a lackluster 1.4%, the same growth rate as the last three months of 2002. However, second quarter GDP rose to 3.3%, due in part to a sharp increase in military spending, rising exports, and a stronger manufacturing sector. Third quarter GDP was a higher than anticipated 8.2%—its sharpest advance in two decades. Consumer spending, which has propelled the economy in recent years, continued to be robust. In addition, business spending, which has been relatively weak, surged to a multi-year high. The preliminary estimate for fourth quarter GDP was 4.0%, a solid gain, but somewhat lower than market expectations.

The Federal Reserve Board (the "Fed") held short-term interest rates steady for the first five months of 2003. However, given the lack of a pronounced economic "bounce" following the end of the major fighting in Iraq, the Fed cut the federal funds rate by a quarter of a percentage point to 1.0% in June 2003, its lowest level since 1958. Since then, the Fed has left rates unchanged. At its most recent meeting in early December, the Fed stated that "an accommodative stance of monetary policy, coupled with robust underlying growth in productivity, is providing important ongoing support to economic activity." It also stated that, given the modest rate of inflation, rates could remain low "for a considerable period."

Money Market Review

The past year was an extremely challenging one for money market funds overall. Money market fund assets were down 11% in 2003, and, while assets fell, the demand for commercial paper exceeded the supply from issuers. Yields reached a 40-year low in 2003 as the Fed kept the fed funds target rate of 1.0% after it eased 25 basis points in June. This brought on an even more challenging environment, as it was difficult for some money market funds to produce positive yield returns. As the economy began to show signs of improvement in the later half of the year, we took advantage of opportunities along the yield curve.

Strategy

Taxable—Taxable funds focused on the front end of the yield curve in the first half of the year with the threat of the Fed easing. Once the Fed eased 25 basis points in June and the economic picture started improving in the third quarter, the yield curve began to steepen. Given our forecast of no immediate Fed tightening, we shifted our focus to the one-year sector as we looked to maintain weighted average maturities ("WAMs") in the 45- to 50-day range. Coming into year end, as the job market began to disappoint and the yield curve became flat, our focus went back to the shorter end of the yield curve. We continue to look to maintain WAMs in the 45- to 50-day range.

Tax-Exempt—Tax-exempt money market funds experienced continued strong cash inflows in the first half of 2003 as tax-exempt funds continued to outperform their taxable counterparts on an after-tax basis. We focused on the one-year sector as issuance increased and provided opportunities for the Funds to extend WAMs to the mid- to upper-end of their ranges. Although the tax-exempt market experienced volatile cash flows in the fourth quarter, the Fund's assets continue to grow. We are looking to maintain WAMs

* Financial Square Funds offers six separate classes of shares (Institutional, Select, Preferred, Capital, Administration and Service), each of which is subject to different fees and expenses that affect performance and entitle shareholders to different services. The Select, Preferred, Capital, Administration and Service shares offer financial institutions the opportunity to receive a fee for providing administrative support. The Select shares pay 0.03%, Preferred shares pay 0.10%, Capital shares pay 0.15%, Administration shares pay 0.25%, and the Service shares pay 0.50% of the daily average net assets of each Fund. If these fees were reflected in the above performance, performance would have been reduced. From time to time Goldman Sachs Asset Management may voluntarily waive a portion of the existing service fees of the Funds. Past performance is no guarantee of future results. Yields will vary. An investment in any of the Financial Square Funds is neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Funds seek to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Funds. More complete information, including management fees and expenses, is included in the Financial Square FundsSM is a service mark of Goldman, Sachs, & Co.

In closing, we thank you for your continued support. As in the past, we will look for additional ways to improve our services while seeking to provide competitive performance.

Variable or floating rate security index is based on either federal funds or LIBOR lending rate.

^ At December 31, 2003, these agreements were fully collateralized by U.S. Treasury or Federal Agency obligations.

* Unless noted, all repurchase agreements were entered into on December 31, 2003.

† Insurance company issued short-term funding agreement.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the stated date on the security or the next interest reset date for floating rate securities.

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

The accompanying notes are an integral part of these financial statements.

Variable or floating rate security index is based on federal funds, LIBOR or Prime lending rate.

- ^ At December 31,2003, these agreements were fully collateralized by U.S. Treasury or Federal Agency obligations.
- * Unless noted, all repurchase agreements were entered into on December 31,2003.
- † Insurance company issued short-term funding agreement.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the stated date on the security or the next interest reset date for floating rate securities.

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

> Forward commitment.

Variable or floating rate security index is based on either U.S. Treasury Bill, LIBOR or Prime lending rate.

Interest rates represent either the stated coupon rate, annualized yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate, which is based upon current interest rate indices.

Maturity dates represent either the stated date on the security or the next interest reset date for floating rate securities.

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

Notes to Financial Statements

December 31, 2003

1. Organization

Goldman Sachs Trust (the "Trust") is a Delaware statutory trust registered under the Investment Company Act of 1940 (as amended) as an open-end, management investment company. The Trust includes the Financial Square Funds, collectively, "the Funds", or individually, a "Fund". Financial Square consists of seven diversified funds: Prime Obligations, Money Market, Treasury Obligations, Treasury Instruments, Government, Federal and Tax-Free Money Market. The Funds offer six classes of shares — FST Shares, FST Select Shares, FST Preferred Shares, FST Capital Shares, FST Administration Shares and FST Service Shares. The investment objective of the Funds is to maximize current income to the extent consistent with the preservation of capital and maintenance of liquidity by investing exclusively in high quality money market instruments.

2. Significant Accounting Policies

The following is a summary of significant accounting policies consistently followed by the Funds. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that may affect the reported amounts. Actual results could differ from those estimates.

A. Investment Valuation—

Each Fund uses the amortized-cost method for valuing portfolio securities, which approximates market value. Under this method, all investments purchased at a discount or premium are valued by amortizing the difference between the original purchase price and maturity value of the issue over the period to maturity.

B. Security Transactions and Interest Income_

Security transactions are recorded as of the trade date. Realized gains and losses on sales of portfolio securities are calculated using the identified cost basis. Interest income is recorded on the basis of interest accrued, premium amortized and discount accreted. Net investment income (other than class specific expenses) and realized gains or losses are allocated daily to each class of shares of the Fund based upon the relative proportion of net assets of each class.

C. Federal Taxes—

It is each Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute each year substantially all of its investment company taxable and tax-exempt income to its shareholders. Accordingly, no federal tax provisions are required. Income distributions to shareholders are recorded on the ex-dividend date, declared daily and paid monthly by the Funds.

The characterization of distributions to shareholders for financial reporting purposes is determined in accordance with Federal income tax rules. There were no significant book-to-tax differences. Each Fund has distributed substantially all of its current year income and realized gains. The tax character of distributions paid during 2003 and 2002 was from ordinary income for the Prime Obligations, Money Market, Treasury Obligations, Treasury Instruments, Government and Federal Funds and from tax-exempt income for Tax-Free Money Market Fund. At December 31, 2003 (tax year-end), the following Fund had a capital loss carryforward for U.S. federal tax purposes of approximately:

Fund	Amount	Year of Expiration
Tax-Free Money Market	\$187,000	2011

This amount is available to be carried forward to offset future net capital gains to the extent permitted by applicable laws or regulations.

The amortized cost for each Fund stated in the accompanying Statements of Assets and Liabilities also represents aggregate cost for U.S. federal income tax purposes.

D. Expenses—

Expenses incurred by the Trust that do not specifically relate to an individual Fund of the Trust are allocated to the Funds on a straight-line or pro-rata basis depending upon the nature of the expense. FST Select, FST Preferred, FST Capital, FST Administration and FST Service Shares bear all expenses and fees relating to their respective service plans.

E. Forward Commitment Transactions—

The Funds may enter into forward commitments. These transactions involve a commitment by the Funds to purchase or sell securities for a predetermined price or yield, with payment and delivery taking place beyond a customary settlement. As a result of entering into these transactions, the Funds are required to segregate liquid assets equal to or greater than the market value of the corresponding transactions.

F. Repurchase Agreements—

Repurchase agreements involve the purchase of securities subject to the seller's agreement to repurchase them at a mutually agreed upon date and price. During the term of a repurchase agreement, the value of the underlying securities held as collateral on behalf of the Funds, including accrued interest, is required to equal or exceed the value of the repurchase agreement, including accrued interest. The underlying securities for all repurchase agreements are held in safekeeping at the Funds' custodian or designated subcustodians under triparty repurchase agreements.

3. Agreements

Goldman Sachs Funds Management, L.P., a subsidiary of The Goldman Sachs Group, Inc., was renamed Goldman Sachs Asset Management, L.P. ("GSAM" or the "Adviser") effective at the end of April 2003 and assumed Goldman, Sachs & Co.'s ("Goldman Sachs") investment advisory responsibilities under its Investment Management Agreement (the "Agreement") with the Trust on behalf of the Funds. The fees payable under the Agreement, and the personnel who manage the Funds, did not change as a result of GSAM's assumption of responsibilities. GSAM is an affiliate of Goldman Sachs, and under the Agreement, manages the Funds, subject to the general supervision of the Trust's Board of Trustees.

As compensation for the services rendered pursuant to the Agreement, the assumption of the expenses related thereto and administering the Funds' business affairs, including providing facilities, GSAM is entitled to a fee ("Management Fee") computed daily and payable monthly, at an annual rate equal to .205% of each Fund's average daily net assets.

For the year ended December 31, 2003, GSAM has voluntarily agreed to waive a portion of its Management Fee equal annually to .035% of the average daily net assets of Prime Obligations, Money Market, Government and Tax-Free Money Market Funds and .015% of the average daily net assets of the Treasury Obligations, Treasury Instruments and Federal Funds.

Additionally, GSAM has voluntarily agreed to limit "Other Expenses" (excluding Management fees, service organization fees, taxes, interest, brokerage, litigation, indemnification, shareholder meeting and other extraordinary expenses) to the extent such expenses exceed, on an annual basis, .01% (rounded) of the average daily net assets of each Fund.

In addition, the Funds have entered into certain expense offset arrangements with the custodian resulting in a reduction in the Funds' expenses.

Notes to Financial Statements (continued)

December 31, 2003

For the year ended December 31, 2003, the expense reductions were as follows (in thousands):

Fund	Management Fees Waived	Expenses Reimbursed by Adviser	Custody Fee Reductions	Total
Prime Obligations	\$9,349	\$ —	\$ 1	\$9,350
Money Market	3,794	_	1	3,795

Freasury Instruments	170	377	2	549
Government	1,518	260	6	1,784
Federal	1,254	1	1	1,256
Tax-Free Money Market	2,307		345	2,652

Goldman Sachs serves as Transfer Agent and Distributor of shares of the Funds pursuant to Transfer Agent and Distribution Agreements and receives no separate fee.

At December 31, 2003, the amounts owed to affiliates were as follows (in thousands):

Fund	Management	Affiliated Dealers	Over Reimbursement of Expenses by Adviser	Total
Prime Obligations	\$3,941	\$ 1	\$ —	\$3,942
Money Market	1,512		_	1,512
Treasury Obligations	644		_	644

Government	533	1		534
Federal	1,217	1	14	1,232
Tax-Free Money Market	1,020		_	1,020

4. Select, Preferred, Capital, Administration and Service Plans

The Trust, on behalf of each Fund, has adopted Service Plans. These plans allow for FST Select, FST Preferred, FST Capital, FST Administration and FST Service Shares, respectively, to compensate service organizations for providing varying levels of account administration and shareholder liaison services to their customers who are beneficial owners of such shares. The Service Plans for FST Select, FST Preferred, FST Capital, FST Administration and FST Service Shares provide for compensation to the service organizations in an amount up to 0.03%, 0.10%, 0.15%, 0.25% and 0.50% (on an annual basis), respectively, of the average daily net asset value of the respective shares.

5. Line of Credit Facility

The Funds participate in a \$350,000,000 committed, unsecured revolving line of credit facility. Under the most restrictive arrangement, each Fund must own securities having a market value in excess of 400% of the total bank borrowings. This facility is to be used solely for temporary

or emergency purposes. The interest rate on borrowings is based on the federal funds rate. The committed facility also requires a fee to be paid by the Funds based on the amount of the commitment that has not been utilized. During the year ended December 31, 2003, the Funds did not have any borrowings under this facility.

6. Portfolio Concentrations

As a result of the Tax-Free Money Market Fund's ability to invest a large percentage of its assets in obligations of issuers within certain states, it is subject to possible concentration risks associated with economic, political or legal developments or industrial or regional matters specifically affecting such states.

7. Certain Reclassifications

In order to present the capital accounts on a tax basis, the Tax-Free Money Market Fund reclassified \$27,648 from accumulated net realized gain on investment transactions to paid-in capital. This reclassification has no impact on the net asset value of the Fund. This reclassification resulted from retained long term capital gains. All taxable Funds classified short term capital gain distributions as distributions from net investment income.

8. Joint Repurchase Agreement Accounts

The Funds, together with other registered investment companies having management agreements with GSAM or its affiliates, may transfer uninvested cash balances into joint accounts, the daily aggregate balances of which are invested in one or more repurchase agreements.

At December 31, 2003, the Prime Obligations, Money Market, Treasury Obligations and Government Funds had undivided interests in the following Joint Repurchase Agreement Account I, which equaled \$120,500,000, \$110,300,000, \$1,809,600,000 and \$60,500,000, in principal amount, respectively. At December 31, 2003, the following repurchase agreements held in this Joint Repurchase Agreement Account I were fully collateralized by U.S. Treasury obligations.

Ratios assuming no

(a) Calculated based on the average shares outstanding methodology.

(b) Assumes investment at the net asset value at the beginning of the period, reinvestment of all distributions and a complete redemption of the investment at the net asset value at the end of the period. Returns do not reflect the deduction of taxes that a shareholder would pay on fund distributions. Returns for periods less than a full year are not annualized.

Report of Independent Auditors

To the Board of Trustees of Goldman Sachs Trust and the Shareholders of Financial Square Funds:

In our opinion, the accompanying statements of assets and liabilities, including the statements of investments (excluding bond ratings), and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Prime Obligations Fund, Money Market Fund, Treasury Obligations Fund, Treasury Instruments Fund, Government Fund, Federal Fund and Tax-Free Money Market Fund (collectively, the "Financial Square Funds"), funds of Goldman Sachs Trust, at December 31, 2003, and the results of each of their operations and the changes in each of their net assets for each of the periods indicated and the financial highlights for each of the four periods then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Financial Square Funds' management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2003 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion. The financial highlights of the Financial Square Funds for the period ended prior to December 31, 2000 were audited by other independent auditors who have ceased operations. Those independent auditors expressed an unqualified opinion on the financial statements in their report dated February 14, 2000.

Item 4(e)(1) — Audit Committee Pre-Approval Policies and Procedures

<u>Pre-Approval of Audit and Non-Audit Services Provided to the Funds of the Goldman Sachs Trust.</u> The Audit and Non-Audit Services Pre-Approval Policy (the "Policy") adopted by the Audit Committee of Goldman Sachs Trust ("GST") sets forth the procedures and the conditions pursuant to which services performed by an independent auditor for GST may be pre-approved. Services may be pre-approved specifically by the Audit Committee as a whole or, in certain circumstances, by the Audit Committee Chairman or the person designated as the Audit Committee Financial Expert. In addition, subject to specified cost limitations, certain services may be pre-approved under the provisions of the Policy. The Policy provides that the Audit Committee will consider whether the services provided by an independent auditor are consistent with the Securities and Exchange Commission's rules on auditor independence. The Policy provides for periodic review and pre-approval by the Audit Committee of the services that may be provided by the independent auditor.

<u>De Minimis Waiver</u>. The pre-approval requirements of the Policy may be waived with respect to the provision of non-audit services that are permissible for an independent auditor to perform, provided (1) the aggregate amount of all such services provided constitutes no more than five percent of the total amount of revenues subject to pre-approval that was paid to the independent auditors during the fiscal year in which the services are provided; (2) such services were not recognized by GST at the time of the engagement to be non-audit services; and (3) such services are promptly brought to the attention of the Audit Committee and approved prior to the completion of the audit by the Audit Committee or by one or more members of the Audit Committee to whom authority to grant such approvals has been delegated by the Audit Committee, pursuant to the pre-approval provisions of the Policy.

<u>Pre-Approval of Non-Audit Services Provided to GST's Investment Advisers.</u> The Policy provides that, in addition to requiring preapproval of audit and non-audit services provided to GST, the Audit Committee will pre-approve those non-audit services provided to GST's investment advisers (and entities controlling, controlled by or under common control with the investment advisers that provide ongoing services to GST) where the engagement relates directly to the operations or financial reporting of GST.

Item 4(e)(2) – 0% of the audit-related fees, tax fees and other fees listed in Table 1 were approved by the Trust's audit committee pursuant to the "de minimis" exception of Rule 2-01(c)(7)(i)(C) of Regulation S-X. In addition, 0% of the non-audit services to the Goldman Sachs Trust's service affiliates listed in Table 2 were approved by the Trust's audit committee pursuant to the "de minimis" exception of Rule 2-01(c)(7)(i)(C) of Regulation S-X. In addition, 0% of the non-audit services to the Goldman Sachs Trust's (C) of Regulation S-X.

Item 4(f) – Not applicable.

Items 4(g) Aggregate Non-Audit Fees Disclosure

The aggregate non-audit fees billed to the Goldman Sachs Trust by PricewaterhouseCoopers LLP for the 12 months ended November 28, 2003 and November 29, 2002 were approximately \$304,400 and \$299,800, respectively. The aggregate non-audit fees billed to the Goldman Sachs Trust's adviser and service affiliates by PricewaterhouseCoopers LLP for non-audit services for the twelve months ended November 28, 2003 and November 29, 2002 were approximately \$5.5 million and \$8.4 million, respectively. The 2003 amount includes fees for non-audit services required to be pre-approved [see Table 2] and fees for non-audit services that did not require pre-approval since they did not directly relate to the Goldman Sachs Trust's operations or financial reporting.

The aggregate non-audit fees billed to the Goldman Sachs Trust by Ernst & Young LLP for the 12 months ended December 31, 2003 and December 31, 2002 were approximately \$75,650 and \$57,800, respectively. The aggregate non-audit fees billed to the Goldman Sachs Trust's adviser and service affiliates by Ernst & Young LLP for non-audit services for the twelve months ended December 31, 2003 and December 31, 2002 were approximately \$30.9 million and \$15.4 million, respectively. The 2003 amount includes fees for non-audit services required to be pre-approved [see Table 2] and fees for non-audit services that did not require pre-approval since they did not directly relate to the Goldman Sachs Trust's operations or financial reporting.

Items 4(h) — The Goldman Sachs Trust's audit committee has considered whether the provision of non-audit services to the Goldman Sachs Trust's investment advisor and service affiliates that did not require pre-approval pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the auditors' independence.
