

Filed Pursuant to Rule 433
 Registration No. 333-180289
 March 30, 2012
FREE WRITING PROSPECTUS
 (To Prospectus dated March 22, 2012,
 Prospectus Supplement dated March 22, 2012 and
 Equity Index Underlying Supplement dated March 22, 2012)

HSBC USA Inc. Performance Notes Linked to the S&P 500 Low Volatility Index[®]

- ▶ Performance Notes linked to the S&P 500 Low Volatility Index[®]
- ▶ The S&P 500 Low Volatility Index[®] measures the performance of the 100 least volatile stocks in the S&P 500 Index[®]
- ▶ Exposure to any positive return in the reference asset
- ▶ Return of principal at maturity, subject to the credit risk of HSBC USA Inc.

The Performance Notes (each a "Note" and collectively the "Notes") offered hereunder will not be listed on any U.S. securities exchange or automated quotation system. The Notes will not bear interest.

Neither the U.S. Securities and Exchange Commission (the "SEC") nor any state securities commission has approved or disapproved of the Notes or passed upon the accuracy or the adequacy of this document, the accompanying underlying supplement, prospectus or prospectus supplement. Any representation to the contrary is a criminal offense. We have appointed HSBC Securities (USA) Inc., an affiliate of ours, as the agent for the sale of the Notes. HSBC Securities (USA) Inc. will purchase the Notes from us for distribution to other registered broker-dealers or will offer the Notes directly to investors. In addition, HSBC Securities (USA) Inc. or another of its affiliates or agents may use the pricing supplement to which to this free writing prospectus relates in market-making transactions in any Notes after their initial sale. Unless we or our agent informs you otherwise in the confirmation of sale, the pricing supplement to which this free writing prospectus relates is being used in a market-making transaction. See "Supplemental Plan of Distribution (Conflicts of Interest)" on page FWP-12 of this free writing prospectus.

Investment in the Notes involves certain risks. You should refer to "Risk Factors" beginning on page FWP-7 of this document, page S-3 of the accompanying prospectus supplement, and page S-1 of the accompanying Equity Index Underlying Supplement.

	Price to Public	Fees and Commissions ¹	Proceeds to Issuer
Per Note	\$1,000		
Total			

¹ HSBC USA Inc. or one of our affiliates may pay varying discounts of up to 4.00% per \$1,000 Principal Amount of Notes in connection with the distribution of the Notes to other registered broker-dealers. See "Supplemental Plan of Distribution (Conflicts of Interest)" on page FWP-12 of this free writing prospectus.

HSBC USA Inc.

Performance Notes Linked to the S&P 500 Low Volatility Index[®]

Indicative Terms*

Principal Amount	\$1,000 per Note
Term	Approximately 6 years
Reference Asset	The S&P 500 Low Volatility Index [®] (Ticker: SP5LVI)

If the Reference Return is greater than zero, you will receive:

Payment at Maturity per Note \$1,000 + (\$1,000 × Reference Return).

If the Reference Return is less than or equal to zero, you will receive the \$1,000 Principal Amount.

Reference Return	$\frac{\text{Final Level} - \text{Initial Level}}{\text{Initial Level}}$
Initial Level	See page FWP-4
Final Level	See page FWP-4
Pricing Date	March 30, 2012
Trade Date	March 30, 2012
Settlement Date	April 5, 2012
Final Valuation Date [†]	March 30, 2018
Maturity Date [†]	April 5, 2018
CUSIP	4042K1D59

* As more fully described on page FWP-4.

† Subject to adjustment as described under "Additional Terms of the Notes" in the accompanying underlying supplement.

The Notes

The Performance Notes are designed for investors who believe the Reference Asset will appreciate over the term of the Notes. If the level of the Reference Asset decreases, the Notes provide no downside exposure to such decline because of the minimum payment of \$1,000 per \$1,000 Principal Amount at maturity, subject to the credit risk of HSBC.

The S&P 500 Low Volatility Index

The S&P 500 Low Volatility Index (the "Index") comprises the 100 least-volatile stocks over the previous year in the S&P 500[®] Index.

There are two steps in the creation of the Index:

Constituent selection: The volatilities of all S&P 500[®] Index constituents are calculated using daily standard deviation data for approximately the past year. Constituents are ranked in order of their realized volatility. The Index comprises the 100 least volatile stocks.

Constituent weighting: At each rebalancing, the weight for each Index constituent is set inversely proportional to its volatility (higher weightings are assigned to the least volatile stocks). The Index is rebalanced in February, May, August and November of each year.

The offering period for the Notes is through **March 30, 2012**

Payoff Example

The table at right shows the hypothetical payout profile of an investment in the Notes reflecting the minimum payment of \$1,000 per \$1,000 Principal Amount of Notes (subject to the credit risk of HSBC).

The Notes are designed to, at maturity, provide upside exposure to the Reference Asset, while also providing no exposure to downside risk.

Reference Return	Participation in Reference Return	Securities Return
50%	Upside exposure	50%
25%		25%
10%		10%
-10%	Minimum payment of \$1,000 per \$1,000 Principal Amount of Notes (subject to the credit risk of HSBC)	0%
-20%		0%
-30%		0%

Information about the Reference Asset

S&P 500 Low Volatility Index

The SP5LVI measures the performance of the 100 least volatile stocks over the previous year in the S&P 500[®] Index. It is designed to serve as a benchmark for low volatility strategies in the U.S. stock market.

As of the February 2012 rebalancing, the sector weightings in the Index were as follows: Consumer Discretionary: 9.23%, Consumer Staples: 29.54%, Energy: 1.71%, Financials: 0.82%, Healthcare: 13.05%, Industrials: 5.34%, Information Technology: 4.42%, Materials: 1.73%, Telecommunication Services: 4.03% and Utilities: 30.13%.

The graph above sets forth the hypothetical back-tested performance of the Reference Asset from March 27, 2007 through April 19, 2011 and the historical performance of the Reference Asset from April 20, 2011 to March 26, 2012. The Reference Asset has only been calculated since April 20, 2011. The hypothetical back-tested performance of the Index set forth in the graph above was calculated using the same selection criteria and methodology employed to calculate the Reference Asset since its inception on April 20, 2011. Accordingly, while the hypothetical graph set forth above is based on the selection criteria and methodology described herein, the Reference Asset was not actually calculated and published prior to April 20, 2011. The graph above also reflects the actual closing levels from April 20, 2011 to March 26, 2012 that we obtained from Bloomberg Professional[®] service. The hypothetical and actual historical performance is not necessarily an indication of future results. For further information on the Reference Asset please see "The S&P 500 Low Volatility Index" on page FWP-11 and in the accompanying Equity Index Underlying Supplement. We have derived all disclosure regarding the Reference Asset from publicly available information. Neither HSBC USA Inc. or any of its affiliates assumes any responsibilities for the adequacy or accuracy of information about the Reference Asset.

For more information about SP5LVI, please refer to the fact sheet: http://www.sec.gov/Archives/edgar/data/83246/000114420412016831/v306941_fwp.htm.

The tables below are a comparison of the 1997 through 2011 annual returns and the 1,3,5,10,15 and 20 year annualized returns and standard deviations for the S&P 500 Low Volatility Index and the S&P 500[®] Index. The SP5LVI has only been calculated since April 20, 2011. Accordingly, while the hypothetical tables set forth below are based on the selection criteria and methodology described herein, the SP5LVI was not actually calculated and published prior to April 20, 2011. The hypothetical and actual historical performance is not necessarily an indication of future results.

Annual Returns

	S&P 500 Low Volatility Index	S&P 500 [®] Index
1997	26.27%	31.01%
1998	4.80%	26.67%
1999	-10.72%	19.53%
2000	20.68%	-10.14%
2001	1.54%	-13.04%
2002	-9.83%	-23.37%
2003	19.43%	26.38%
2004	14.38%	8.99%
2005	-0.67%	3.00%
2006	16.49%	13.62%
2007	-2.16%	3.53%
2008	-23.61%	-38.49%
2009	15.52%	23.45%
2010	9.79%	12.78%
2011	10.88%	0.00%

Annualized Price Return Data as of December 31, 2011

	S&P 500 Low Volatility Index	S&P 500 [®] Index
1 Yr.	10.88%	0.00%
3 Yrs.	12.04%	11.66%
5 Yrs.	1.00%	-2.38%
10 Yrs.	4.12%	0.92%
15 Yrs.	5.30%	3.59%
20 Yrs.	6.36%	5.67%

Annualized Standard Deviation

	S&P 500 Low Volatility Index	S&P 500 [®] Index
1 Yr.	8.78%	15.97%
3 Yrs.	11.88%	19.00%
5 Yrs.	12.87%	18.91%
10 Yrs.	10.77%	15.93%
15 Yrs.	12.14%	16.59%
20 Yrs.	11.33%	15.01%

Standard deviation is a statistical measure of the distance a quantity is likely to lie from its average value. In finance, standard deviation is applied to the annual rate of return of an investment, to measure the investment's volatility, or "risk".

Linked to the S&P 500 Low Volatility Index[®]

The offering of Notes will have the terms described in this free writing prospectus and the accompanying Equity Index Underlying Supplement, prospectus supplement and prospectus. If the terms of the Notes offered hereby are inconsistent with those described in the accompanying Equity Index Underlying Supplement, prospectus supplement or prospectus, the terms described in this free writing prospectus shall control. **You should be willing to forgo interest and dividend payments during the term of the Notes.**

This free writing prospectus relates to an offering of Notes linked to the performance of the S&P 500 Low Volatility Index (the "Reference Asset"). The purchaser of a Note will acquire a senior unsecured debt security of HSBC USA Inc. linked to the Reference Asset as described below. The following key terms relate to the offering of Notes:

Issuer:	HSBC USA Inc.
Issuer Rating:	A+ (S&P), A1 (Moody's), AA (Fitch) [†]
Principal Amount:	\$1,000 per Note
Reference Asset:	The S&P 500 Low Volatility Index (Ticker: SP5LVI)
Trade Date:	March 30, 2012
Pricing Date:	March 30, 2012
Original Issue Date:	April 5, 2012
Final Valuation Date:	March 30, 2018. The Final Valuation Date is subject to adjustment as described under "Valuation Dates" in the accompanying Equity Index Underlying Supplement.
Maturity Date:	April 5, 2018, which is 4 business days after the Final Valuation Date. The Maturity Date is subject to adjustment as described under "Coupon Payment Dates, Call Payment Dates and Maturity Date" in the accompanying Equity Index Underlying Supplement.
Payment at Maturity:	On the Maturity Date, for each Note, we will pay you the Final Settlement Value.
Final Settlement Value:	<i>If the Reference Return is greater than zero</i> , you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount of Notes, equal to: \$1,000 + (\$1,000 × Reference Return). <i>If the Reference Return is less than or equal to zero</i> , you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount of Notes, equal to the \$1,000 Principal Amount.
Reference Return:	The quotient, expressed as a percentage, calculated as follows: $\frac{\text{Final Level} - \text{Initial Level}}{\text{Initial Level}}$
Initial Level:	The Official Closing Level of the Reference Asset on the Pricing Date.
Final Level:	The Official Closing Level of the Reference Asset on the Final Valuation Date.
Official Closing Level:	The closing level of the Reference Asset on any scheduled trading day as determined by the calculation agent based upon the level displayed on Bloomberg Professional [®] service page "SP5LVI <INDEX>", or on any successor page on Bloomberg Professional [®] service or any successor service, as applicable.
Form of Notes:	Book-Entry
Listing:	The Notes will not be listed on any U.S. securities exchange or quotation system.
CUSIP / ISIN:	4042K1D59 /

[†] A credit rating reflects the creditworthiness of HSBC USA Inc. and is not a recommendation to buy, sell or hold Notes, and it may be subject to revision or withdrawal at any time by the assigning rating organization. The Notes themselves have not been independently rated. Each rating should be evaluated independently of any other rating.

GENERAL

This free writing prospectus relates to an offering of Notes linked to the Reference Asset. The purchaser of a Note will acquire a senior unsecured debt security of HSBC USA Inc. linked to the Reference Asset. We reserve the right to withdraw, cancel or modify any offering and to reject orders in whole or in part. Although the offering of Notes relates to the Reference Asset, you should not construe that fact as a recommendation as to the merits of acquiring an investment linked to the Reference Asset or any component security included in the Reference Asset or as to the suitability of an investment in the Notes.

You should read this document together with the prospectus dated March 22, 2012, the prospectus supplement dated March 22, 2012 and the Equity Index Underlying Supplement dated March 22, 2012. If the terms of the Notes offered hereby are inconsistent with those described in the accompanying Equity Index Underlying Supplement, prospectus supplement or prospectus, the terms described in this free writing prospectus shall control. You should carefully consider, among other things, the matters set forth in "Risk Factors" beginning on page FWP-7 of this free writing prospectus, page S-3 of the prospectus supplement and page S-1 of Equity Index Underlying Supplement, as the Notes involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisors before you invest in the Notes. As used herein, references to the "Issuer", "HSBC", "we", "us" and "our" are to HSBC USA Inc.

HSBC has filed a registration statement (including a prospectus, a prospectus supplement and Equity Index Underlying Supplement) with the SEC for the offering to which this free writing prospectus relates. Before you invest, you should read the prospectus, prospectus supplement and Equity Index Underlying Supplement in that registration statement and other documents HSBC has filed with the SEC for more complete information about HSBC and this offering. You may get these documents for free by visiting EDGAR on the SEC's web site at www.sec.gov. Alternatively, HSBC Securities (USA) Inc. or any dealer participating in this offering will arrange to send you the prospectus, prospectus supplement and underlying supplement if you request them by calling toll-free 1-866-811-8049.

You may also obtain:

- ▶ The Equity Index Underlying Supplement at: www.sec.gov/Archives/edgar/data/83246/000114420412016693/v306691_424b2.htm
- ▶ The prospectus supplement at: www.sec.gov/Archives/edgar/data/83246/000104746912003151/a2208335z424b2.htm
- ▶ The prospectus at: www.sec.gov/Archives/edgar/data/83246/000104746912003148/a2208395z424b2.htm

We are using this free writing prospectus to solicit from you an offer to purchase the Notes. You may revoke your offer to purchase the Notes at any time prior to the time at which we accept your offer by notifying HSBC Securities (USA) Inc. We reserve the right to change the terms of, or reject any offer to purchase, the Notes prior to their issuance. In the event of any material changes to the terms of the Notes, we will notify you.

PAYMENT AT MATURITY

On the Maturity Date, for each Note you hold, we will pay you the Final Settlement Value, which is an amount in cash, as described below:

If the Reference Return is greater than zero, you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount of Notes, equal to:

$$\$1,000 + (\$1,000 \times \text{Reference Return}).$$

If the Reference Return is less than or equal to zero, you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount of Notes, equal to the \$1,000 Principal Amount.

Any payments on the Notes are subject to the credit risk of HSBC.

Interest

The Notes will not pay interest.

Calculation Agent

We or one of our affiliates will act as calculation agent with respect to the Notes.

Reference Sponsor

Standard and Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies is the reference sponsor.

INVESTOR SUITABILITY

The Notes may be suitable for you if:

- ▶ You seek an investment with a return linked to the potential positive performance of the Reference Asset and you believe the level of the Reference Asset will increase over the term of the Notes.
- ▶ You are willing to make an investment based on a minimum payment of \$1,000 per \$1,000 Principal Amount of Notes at maturity.
- ▶ You are willing to forgo dividends or other distributions paid to holders of stocks comprising the Reference Asset.
- ▶ You do not seek current income from your investment.
- ▶ You do not seek an investment for which there is an active secondary market.
- ▶ You are willing to hold the Notes to maturity.
- ▶ You are comfortable with the creditworthiness of HSBC, as Issuer of the Notes.

The Notes may not be suitable for you if:

- ▶ You believe the Reference Return will be negative or that the Reference Return will not be sufficiently positive to provide you with your desired return.
- ▶ You are unwilling to make an investment based on a minimum payment of \$1,000 per \$1,000 Principal Amount of Notes at maturity.
- ▶ You prefer the lower risk, and therefore accept the potentially lower returns, of conventional debt securities with comparable maturities issued by HSBC or another issuer with a similar credit rating.
- ▶ You prefer to receive the dividends or other distributions paid on any stocks comprising the Reference Asset.
- ▶ You seek current income from your investment.
- ▶ You seek an investment for which there will be an active secondary market.
- ▶ You are unable or unwilling to hold the Notes to maturity.
- ▶ You are not willing or are unable to assume the credit risk associated with HSBC, as Issuer of the Notes.

RISK FACTORS

We urge you to read the section “Risk Factors” on page S-3 in the accompanying prospectus supplement and on page S-1 of the accompanying Equity Index Underlying Supplement. Investing in the Notes is not equivalent to investing directly in any of the stocks comprising the Reference Asset. You should understand the risks of investing in the Notes and should reach an investment decision only after careful consideration, with your advisors, of the suitability of the Notes in light of your particular financial circumstances and the information set forth in this free writing prospectus and the accompanying underlying supplement, prospectus supplement and prospectus.

In addition to the risks discussed below, you should review “Risk Factors” in the accompanying prospectus supplement and underlying supplement including the explanation of risks relating to the Notes described in the following sections:

- ▶ “— Risks Relating to All Note Issuances” in the prospectus supplement;
- ▶ “— General risks related to Indices” in the Equity Index Underlying Supplement; and
- ▶ “— If the Reference Asset is or includes the S&P 500 Low Volatility Index or otherwise includes an Index that tracks a low volatility index” in the Equity Index Underlying Supplement.

You will be subject to significant risks not associated with conventional fixed-rate or floating-rate debt securities.

Credit risk of HSBC USA Inc.

The Notes are senior unsecured debt obligations of the Issuer, HSBC, and are not, either directly or indirectly, an obligation of any third party. As further described in the accompanying prospectus supplement and prospectus, the Notes will rank on par with all of the other unsecured and unsubordinated debt obligations of HSBC, except such obligations as may be preferred by operation of law. Any payment to be made on the Notes, including the return of principal at maturity, depends on the ability of HSBC to satisfy its obligations as they come due. As a result, the actual and perceived creditworthiness of HSBC may affect the market value of the Notes and, in the event HSBC were to default on its obligations, you may not receive the amounts owed to you under the terms of the Notes.

The Notes will not bear interest.

As a holder of the Notes, you will not receive interest payments.

Changes that affect the Reference Asset will affect the market value of the Notes and the amount you will receive at maturity.

The policies of the reference sponsor concerning additions, deletions and substitutions of the constituents comprising the Reference Asset and the manner in which the reference sponsor takes account of certain changes affecting those constituents included in the Reference Asset may affect the level of the Reference Asset. The policies of the reference sponsor with respect to the calculation of the Reference Asset could also affect the level of the Reference Asset. The reference sponsor may discontinue or suspend calculation or dissemination of the Reference Asset. Any such actions could affect the value of the Notes.

The Notes are not insured by any governmental agency of the United States or any other jurisdiction.

The Notes are not deposit liabilities or other obligations of a bank and are not insured by the Federal Deposit Insurance Corporation or any other governmental agency or program of the United States or any other jurisdiction. An investment in the Notes is subject to the credit risk of HSBC, and in the event that HSBC is unable to pay its obligations as they become due, you may not receive the full Payment at Maturity of the Notes.

Certain built-in costs are likely to adversely affect the value of the Notes prior to maturity.

While the Payment at Maturity described in this free writing prospectus is based on the full Principal Amount of your Notes, the original issue price of the Notes includes the placement agent’s commission and the estimated cost of HSBC hedging its obligations under the Notes. As a result, the price, if any, at which HSBC Securities (USA) Inc. will be willing to purchase Notes from you in secondary market transactions, if at all, will likely be lower than the original issue price, and any sale prior to the Maturity Date could result in a substantial loss to you. The Notes are not designed to be short-term trading instruments. Accordingly, you should be able and willing to hold your Notes to maturity.

The Notes lack liquidity.

The Notes will not be listed on any securities exchange. HSBC Securities (USA) Inc. is not required to offer to purchase the Notes in the secondary market, if any exists. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Notes easily. Because other dealers are not likely to make a secondary market for the Notes, the price at which you may be able to trade your Notes is likely to depend on the price, if any, at which HSBC Securities (USA) Inc. is willing to buy the Notes.

Potential conflicts.

HSBC and its affiliates play a variety of roles in connection with the issuance of the Notes, including acting as calculation agent and hedging our obligations under the Notes. In performing these duties, the economic interests of the calculation agent and other affiliates of ours are potentially adverse to your interests as an investor in the Notes. We will not have any obligation to consider your interests as a holder of the Notes in taking any action that might affect the value of your Notes.

Tax treatment.

For a discussion of the U.S. federal income tax consequences of your investment in a Note, please see the discussion under "U.S. Federal Income Tax Considerations" herein and the discussion under "U.S. Federal Income Tax Considerations" in the accompanying prospectus supplement.

ILLUSTRATIVE EXAMPLES

The following table and examples are provided for illustrative purposes only and are hypothetical. They do not purport to be representative of every possible scenario concerning increases or decreases in the level of the Reference Asset relative to its Initial Level. We cannot predict the actual Final Level. The assumptions we have made in connection with the illustrations set forth below may not reflect actual events, and the hypothetical Initial Level used in the table and examples below is not the actual Initial Level. You should not take this illustration or these examples as an indication or assurance of the expected performance of the Reference Asset or the return on your Notes. With respect to the Notes, the Final Settlement Value may be less than the amount that you would have received from a conventional debt security with the same stated maturity, including those issued by HSBC. The numbers appearing in the table below and following examples have been rounded for ease of analysis.

The table below illustrates the Payment at Maturity on a \$1,000 investment in Notes for a hypothetical range of performance for the Reference Return from -100% to +100%. The following results are based solely on the assumptions outlined below. The "Hypothetical Return on the Note" as used below is the number, expressed as a percentage, that results from comparing the Payment at Maturity per \$1,000 Principal Amount of Notes to \$1,000. The potential returns described here assume that your Notes are held to maturity. You should consider carefully whether the Notes are suitable to your investment goals. The following table and examples assume the following:

- ▶ Principal Amount: \$1,000
- ▶ Hypothetical Initial Level: 4,000
- ▶ Minimum payment: \$1,000

The actual Initial Level will be determined on the Pricing Date.

Hypothetical Final Level	Hypothetical Reference Return	Hypothetical Payment at Maturity	Hypothetical Return on the Note
8,000	100.00%	\$2,000	100.00%
7,200	80.00%	\$1,800	80.00%
6,400	60.00%	\$1,600	60.00%
5,600	40.00%	\$1,400	40.00%
5,200	30.00%	\$1,300	30.00%
4,800	20.00%	\$1,200	20.00%
4,600	15.00%	\$1,150	15.00%
4,400	10.00%	\$1,100	10.00%
4,200	5.00%	\$1,050	5.00%
4,080	2.00%	\$1,020	2.00%
4,040	1.00%	\$1,010	1.00%
4,000	0.00%	\$1,000	0.00%
3,960	-1.00%	\$1,000	-0.00%
3,920	-2.00%	\$1,000	-0.00%
3,800	-5.00%	\$1,000	-0.00%
3,400	-15.00%	\$1,000	-0.00%
3,200	-20.00%	\$1,000	-0.00%
2,800	-30.00%	\$1,000	-0.00%
2,400	-40.00%	\$1,000	-0.00%
1,600	-60.00%	\$1,000	-0.00%
800	-80.00%	\$1,000	-0.00%
0	-100.00%	\$1,000	-0.00%

The following examples indicate how the Final Settlement Value would be calculated with respect to a hypothetical \$1,000 investment in the Notes.

Example 1: The level of the Reference Asset increases from the Initial Level of 4,000 to a Final Level of 5,600.

Reference Return:	40%
Final Settlement Value:	\$1,400

Because the Reference Return is positive, the Final Settlement Value would be \$1,400 per \$1,000 Principal Amount of Notes, calculated as follows:

$$\begin{aligned}
 & \$1,000 + (\$1,000 \times \text{Reference Return}) \\
 & = \$1,000 + (\$1,000 \times 40\%) \\
 & = \$1,400
 \end{aligned}$$

Example 1 shows that you will receive the return of your principal investment plus a return equal to the Reference Return when such Reference Return is positive.

Example 2: The level of the Reference Asset decreases from the Initial Level of 4,000 to a Final Level of 2,400.

Reference Return:	-40%
Final Settlement Value:	\$1,000

Because the Reference Return is less than zero, the Final Settlement Value would be \$1,000 per \$1,000 Principal Amount of Notes, the minimum payment on the Notes.

THE S&P 500 LOW VOLATILITY INDEX (“SP5LVI”)

Description of the Reference Asset

The SP5LVI measures the performance of the 100 least volatile stocks over the previous year in the S&P 500[®] Index. It is designed to serve as a benchmark for low volatility strategies in the U.S. stock market.

As of the February 2012 rebalancing, the sector weightings in the Index were as follows: Consumer Discretionary: 9.23%, Consumer Staples: 29.54%, Energy: 1.71%, Financials: 0.82%, Healthcare: 13.05%, Industrials: 5.34%, Information Technology: 4.42%, Materials: 1.73%, Telecommunication Services: 4.03% and Utilities: 30.13%.

For more information about the SP5LVI, see “The S&P 500 Low Volatility Index” on page S-18 of the accompanying Equity Index Underlying Supplement.

Hypothetical and Actual Historical Performance of the SP5LVI

The following graph sets forth the hypothetical back-tested performance of the SP5LVI from March 27, 2007 through April 19, 2011 and the historical performance of the SP5LVI from April 20, 2011 to March 26, 2012. The SP5LVI has only been calculated since April 20, 2011. The hypothetical back-tested performance of the SP5LVI set forth in the following graph was calculated using the selection criteria and methodology employed to calculate the SP5LVI since its inception on April 20, 2011. Accordingly, while the hypothetical graph set forth below is based on the selection criteria and methodology described herein, the SP5LVI was not actually calculated and published prior to April 20, 2011. The graph below also reflects the actual closing levels from April 20, 2011 to March 26, 2012 that we obtained from Bloomberg Professional[®] service. We make no representation or warranty as to the accuracy or completeness of the information obtained from Bloomberg Professional[®] service. The closing level for the SP5LVI on March 26, 2012 was 4,302.44. The hypothetical and actual performance is not necessarily an indication of future results.

The hypothetical and actual historical levels of the SP5LVI should not be taken as an indication of future performance, and no assurance can be given as to the Official Closing Level of the SP5LVI on the Final Valuation Date.

The tables below are a comparison of the 1997 through 2011 annual returns and the 1,3,5,10,15 and 20 year annualized returns and standard deviations for the S&P 500 Low Volatility Index and the S&P 500[®] Index. The SP5LVI has only been calculated since April 20, 2011. Accordingly, while the hypothetical tables set forth below are based on the selection criteria and methodology described herein, the SP5LVI was not actually calculated and published prior to April 20, 2011. The hypothetical and actual historical performance is not necessarily an indication of future results.

Annual Returns		
	S&P 500 Low Volatility Index	S&P 500 [®] Index
1997	26.27%	31.01%

Sector Weightings

The table below shows the current weight, average weight and maximum weight of each industry sector included in the S&P 500 Low Volatility Index. The SP5LVI has only been calculated since April 20, 2011. Accordingly, while the hypothetical tables set forth below are based on the selection criteria and methodology described herein, the SP5LVI was not actually calculated and published prior to April 20, 2011. No assurance can be given that these weightings will not change.

	Energy	Materials	Industrials	Consumer Discretionary	Consumer Staples	Healthcare	Financials	Information Technology	Telecomm	Utilities
Current Weight*	1.71%	1.73%	5.34%	9.23%	29.54%	13.05%	0.82%	4.42%	4.03%	30.13%
Average Weight**	5.64%	4.81%	11.82%	8.59%	17.67%	6.47%	15.22%	1.83%	2.68%	25.27%
Maximum Weight (as of date)**	12.04% (7/31/01)	12.11% (4/30/97)	18.72% (10/31/00)	16.14% (7/31/91)	31.36% (7/31/09)	27.11% (4/30/09)	35.04% (7/31/02)	10.05% (4/30/10)	10.00% (10/31/92)	43.19% (7/31/99)

*as of the February 2012 rebalancing

**since 10/31/90

The hypothetical back-tested weights of the SP5LVI set forth above were calculated using the selection criteria and methodology employed to calculate the SP5LVI since its inception on April 20, 2011.

SUPPLEMENTAL PLAN OF DISTRIBUTION (CONFLICTS OF INTEREST)

We have appointed HSBC Securities (USA) Inc., an affiliate of HSBC, as the agent for the sale of the Notes. Pursuant to the terms of a distribution agreement, HSBC Securities (USA) Inc. will purchase the Notes from HSBC for distribution to other registered broker-dealers or will offer the Notes directly to investors. HSBC Securities (USA) Inc. proposes to offer the Notes at the offering price set forth on the cover page of this free writing prospectus. HSBC USA Inc. or one of our affiliates may pay varying discounts of up to 4.00% per \$1,000 Principal Amount of Notes in connection with the distribution of the Notes to other registered broker-dealers.

An affiliate of HSBC has paid or may pay in the future an amount to broker-dealers in connection with the costs of the continuing implementation of systems to support these Notes.

In addition, HSBC Securities (USA) Inc. or another of its affiliates or agents may use the pricing supplement to which this free writing prospectus relates in market-making transactions after the initial sale of the Notes, but is under no obligation to do so and may discontinue any market-making activities at any time without notice.

See "Supplemental Plan of Distribution (Conflicts of Interest)" on page S-49 in the prospectus supplement.

We expect that delivery of the Notes will be made against payment for the Notes on or about the Original Issue Date set forth on page FWP-4 of this document, which is expected to be the fourth business day following the Trade Date of the securities. Under Rule 15c6-1 under the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days, unless the parties to that trade expressly agree otherwise. Accordingly, purchasers who wish to trade Notes on the Trade Date will be required to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisors.

U.S. FEDERAL INCOME TAX CONSIDERATIONS

You should carefully consider the matters set forth in “U.S. Federal Income Tax Considerations” in the accompanying prospectus supplement. The following discussion summarizes the U.S. federal income tax consequences of the purchase, beneficial ownership, and disposition of the Notes. This summary supplements the section “U.S. Federal Income Tax Considerations” in the accompanying prospectus supplement and supersedes it to the extent inconsistent therewith.

There are no statutory provisions, regulations, published rulings or judicial decisions addressing the characterization for U.S. federal income tax purposes of Notes with terms that are substantially the same as those of the Notes. We intend to treat the Notes as contingent payment debt instruments for U.S. federal income tax purposes. Pursuant to the terms of the Notes, you agree to treat the Notes as contingent payment debt instruments for all U.S. federal income tax purposes and, in the opinion of Sidley Austin LLP, special U.S. tax counsel to us, it is reasonable to treat the Notes as contingent payment debt instruments. Assuming the Notes are treated as contingent payment debt instruments, a U.S. holder will be required to include original issue discount (“OID”) in gross income each year, even though no payments will be made on the Notes until maturity.

Based on the factors described in the section, “U.S. Federal Income Tax Considerations — U.S. Federal Income Tax Treatment of the Notes as Indebtedness for U.S. Federal Income Tax Purposes — Contingent Payment Debt Instruments”, in order to illustrate the application of the noncontingent bond method to the Notes, we have estimated that the comparable yield of the Notes, solely for U.S. federal income tax purposes, will be 3.53% per annum (compounded annually). Further, based upon the method described in the section, “U.S. Federal Income Tax Considerations — U.S. Federal Income Tax Treatment of the Notes as Indebtedness for U.S. Federal Income Tax Purposes — Contingent Payment Debt Instruments” and based upon the estimate of the comparable yield, we have estimated that the projected payment schedule for Notes that have a Principal Amount of \$1,000 and an issue price of \$1,000 consists of a single payment of \$1,231.60 at maturity.

Based upon the estimate of the comparable yield, a U.S. holder that pays taxes on a calendar year basis, buys a Note for \$1,000, and holds the Note until maturity will be required to pay taxes on the following amounts of ordinary income in respect of the Notes in each year assuming that the term of the Notes is exactly six years:

Year	OID
2012	\$26.10
2013	\$36.21
2014	\$37.49
2015	\$38.81
2016	\$40.18
2017	\$41.60
2018	\$11.21

However, the ordinary income reported in the taxable year the Notes mature will be adjusted to reflect the actual payment received at maturity. U.S. holders may obtain the actual comparable yield and projected payment schedule as determined by us by submitting a written request to: Structured Equity Derivatives – Structuring HSBC Bank USA, National Association, 452 Fifth Avenue, 3rd Floor, New York, NY 10018. A U.S. holder is generally bound by the comparable yield and the projected payment schedule established by us for the Notes. However, if a U.S. holder believes that the projected payment schedule is unreasonable, a U.S. holder must determine its own projected payment schedule and explicitly disclose the use of such schedule and the reason the holder believes the projected payment schedule is unreasonable on its timely filed U.S. federal income tax return for the taxable year in which it acquires the Notes.

The comparable yield and projected payment schedule are not provided for any purpose other than the determination of a U.S. holder’s interest accruals for U.S. federal income tax purposes and do not constitute a projection or representation by us regarding the actual yield on a Note. We do not make any representation as to what such actual yield will be.

Because there are no statutory provisions, regulations, published rulings or judicial decisions addressing the characterization for U.S. federal income tax purposes of Notes with terms that are substantially the same as those of the Notes, other characterizations and treatments are possible. As a result, the timing and character of income in respect of the Notes might differ from the treatment described above. You should carefully consider the discussion of all potential tax consequences as set forth in “U.S. Federal Income Tax Considerations” in the accompanying prospectus supplement.

PROSPECTIVE PURCHASERS OF NOTES SHOULD CONSULT THEIR TAX ADVISORS AS TO THE FEDERAL, STATE, LOCAL, AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES.
