

HSBC USA Inc. Accelerated Market Participation Securities™ (“AMPS”)

- ▶ AMPS™ linked to the MSCI World Index
- ▶ Maturity of approximately 2.5 years
- ▶ 1.5x exposure to any positive return of the reference asset, subject to a maximum return of at least 45% (to be determined on the pricing date)
- ▶ One-for-one downside exposure to any negative return of the reference asset
- ▶ All payments on the securities are subject to the credit risk of HSBC USA Inc.

The Accelerated Market Participation Securities™ (“AMPS” or, each a “security” and collectively the “securities”) offered hereunder will not be listed on any U.S. securities exchange or automated quotation system. The securities will not bear interest.

Neither the U.S. Securities and Exchange Commission (the “SEC”) nor any state securities commission has approved or disapproved of the securities or passed upon the accuracy or the adequacy of this document, the accompanying prospectus, prospectus supplement or Equity Index Underlying Supplement. Any representation to the contrary is a criminal offense. We have appointed HSBC Securities (USA) Inc., an affiliate of ours, as the agent for the sale of the securities. HSBC Securities (USA) Inc. will purchase the securities from us for distribution to other registered broker-dealers or will offer the securities directly to investors. In addition, HSBC Securities (USA) Inc. or another of its affiliates or agents may use the pricing supplement to which this free writing prospectus relates in market-making transactions in any securities after their initial sale. Unless we or our agent informs you otherwise in the confirmation of sale, the pricing supplement to which this free writing prospectus relates is being used in a market-making transaction. See “Supplemental Plan of Distribution (Conflicts of Interest)” on page FWP-18 of this free writing prospectus.

Investment in the securities involves certain risks. You should refer to “Risk Factors” beginning on page FWP-8 of this document, page S-3 of the accompanying prospectus supplement and page S-1 of the accompanying Equity Index Underlying Supplement.

The Estimated Initial Value of the securities on the Pricing Date is expected to be between \$955 and \$980 per security, which will be less than the price to public. The market value of the securities at any time will reflect many factors and cannot be predicted with accuracy. See “Estimated Initial Value” on page FWP-5 and “Risk Factors” beginning on page FWP-8 of this document for additional information.

	Price to Public	Underwriting Discount ¹	Proceeds to Issuer
Per security / Total	\$1,000 /		

¹HSBC USA Inc. or one of our affiliates may pay varying underwriting discounts of up to 2.00% in connection with the distribution of the securities to other registered broker-dealers. See “Supplemental Plan of Distribution (Conflicts of Interest)” on page FWP-18 of this free writing prospectus.

HSBC USA Inc.

Accelerated Market Participation Securities™ (AMPS) Linked to the MSCI World Index

Indicative Terms*

Principal Amount	\$1,000 per security
Reference Asset	The MSCI World Index (Bloomberg symbol: MXWO)
Term	Approximately 2.5 years
Upside Participation Rate	150% (1.5x) exposure to any positive Reference Return, subject to the Maximum Cap
Payment at Maturity per Security	<p>If the Reference Return is greater than or equal to zero, you will receive the lesser of:</p> <p>a) \$1,000 + (\$1,000 × Reference Return × Upside Participation Rate); and</p> <p>b) \$1,000 + (\$1,000 × Maximum Cap).</p> <p>If the Reference Return is less than zero:</p> <p>\$1,000 + (\$1,000 × Reference Return).</p> <p>For example, if the Reference Return is -30%, you will suffer a 30% loss and receive 70% of the Principal Amount, subject to the credit risk of HSBC. If the Reference Return is negative, you will lose up to 100% of your investment.</p>
Reference Return	$\frac{\text{Final Level} - \text{Initial Level}}{\text{Initial Level}}$
Maximum Cap	At least 45% (to be determined on the Pricing Date)
Initial Level	The Official Closing Level of the Reference Asset on the Pricing Date.
Final Level	The Official Closing Level of the Reference Asset on the Final Valuation Date.
Pricing Date	January 23, 2015
Trade Date	January 23, 2015
Original Issue Date	January 28, 2015
Final Valuation Date†	July 25, 2017
Maturity Date†	July 28, 2017
CUSIP/ISIN	40433BYC6/US40433BYC61

* As more fully described beginning on page FWP-4.

† Subject to adjustment as described under "Additional Terms of the Notes" in the accompanying Equity Index Underlying Supplement.

The AMPS™

For investors who seek exposure to the Reference Asset and who believe the Reference Asset will appreciate over the term of the AMPS, the AMPS provide an opportunity for accelerated returns (subject to a Maximum Cap). If the Reference Return is negative, then the AMPS are subject to 1:1 exposure to any potential decline in the level of the Reference Asset.

If the Reference Asset appreciates over the term of the securities, you will realize 150% (1.5x) of the Reference Asset appreciation up to the Maximum Cap. If the Reference Asset declines, you will lose 1% of your investment for every 1% decline in the level of the Reference Asset.

The offering period for the AMPS is through **January 23, 2015**

Payoff Example

The table at right shows the hypothetical payout profile of an investment in the securities reflecting the 150% (1.5x) Upside Participation Rate and assuming a 45% Maximum Cap. The actual Maximum Cap will be determined on the Pricing Date.

Reference Return	Participation in Reference Return	AMPS Return
60.00%	1.5x upside exposure, subject to Maximum Cap	45.00%
30.00%		45.00%
3.00%		4.50%
2.00%		3.00%
-5.00%	1x loss below zero	-5.00%
-10.00%		-10.00%

Information about the Reference Asset

MSCI World Index

The MXWO is a free float-adjusted market capitalization index that is designed to measure the equity market performance of developed markets, including Canada and the United States.

As of December 31, 2014, the MXWO consists of the following 23 developed market country indices: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom and the United States.

The graph above illustrates the performance of the Reference Asset from January 1, 2008 through January 8, 2015. The closing levels in the graph above were obtained from the Bloomberg Professional® Service. Past performance is not necessarily an indication of future results. For further information on the Reference Asset, please see "Information Relating to the Reference Asset" beginning on page FWP-14. We have derived all disclosure regarding the Reference Asset from publicly available information. Neither HSBC USA Inc. nor any of its affiliates have undertaken any independent review of, or made any due diligence inquiry with respect to, the publicly available information about the Reference Asset.

HSBC USA Inc.

Accelerated Market Participation Securities™ (AMPS) Linked to the MSCI World Index

This free writing prospectus relates to an offering of Accelerated Market Participation Securities. The securities will have the terms described in this free writing prospectus and the accompanying prospectus supplement, prospectus and Equity Index Underlying Supplement. If the terms of the securities offered hereby are inconsistent with those described in the accompanying prospectus supplement, prospectus or Equity Index Underlying Supplement, the terms described in this free writing prospectus shall control. **You should be willing to forgo interest and dividend payments during the term of the securities and, if the Reference Return is negative, lose up to 100% of your principal.**

This free writing prospectus relates to an offering of securities linked to the performance of the MSCI World Index. The purchaser of a security will acquire a senior unsecured debt security of HSBC USA Inc. linked to the Reference Asset, as described below. The following key terms relate to the offering of securities:

Issuer:	HSBC USA Inc.
Principal Amount:	\$1,000 per security
Reference Asset:	The MSCI World Index (Bloomberg symbol: MXWO) (the "MXWO")
Trade Date:	January 23, 2015
Pricing Date:	January 23, 2015
Original Issue Date:	January 28, 2015
Final Valuation Date:	July 25, 2017, subject to adjustment as described under "Additional Terms of the Notes—Valuation Dates" in the accompanying Equity Index Underlying Supplement.
Maturity Date:	3 business days after the Final Valuation Date, and expected to be July 28, 2017. The Maturity Date is subject to adjustment as described under "Additional Terms of the Notes—Coupon Payment Dates, Call Payment Dates and Maturity Date" in the accompanying Equity Index Underlying Supplement.
Upside Participation Rate:	150%
Maximum Cap:	At least 45%. The actual Maximum Cap will be determined on the Pricing Date.
Payment at Maturity:	On the Maturity Date, for each security, we will pay you the Final Settlement Value.
Reference Return:	The quotient, expressed as a percentage, calculated as follows: $\frac{\text{Final Level} - \text{Initial Level}}{\text{Initial Level}}$
Final Settlement Value:	<p>If the Reference Return is greater than or equal to zero, you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount, equal to the lesser of:</p> <p>(a) \$1,000 + (\$1,000 × Reference Return × Upside Participation Rate); and</p> <p>(b) \$1,000 + (\$1,000 × Maximum Cap).</p> <p>If the Reference Return is less than zero, you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount, calculated as follows:</p> <p>\$1,000 + (\$1,000 × Reference Return).</p> <p>Under these circumstances, you will lose 1% of the Principal Amount of your securities for each percentage point that the Reference Return is negative. For example, if the Reference Return is -30%, you will suffer a 30% loss and receive 70% of the Principal Amount, subject to the credit risk of HSBC. If the Reference Return is less than zero, you will lose up to 100% of your investment.</p>
Initial Level:	The Official Closing Level of the Reference Asset on the Pricing Date.
Final Level:	The Official Closing Level of the Reference Asset on the Final Valuation Date.
Official Closing Level:	The closing level of the Reference Asset on any scheduled trading day as determined by the calculation agent based upon the level displayed on the Bloomberg Professional® service page "MXWO <INDEX>", any successor page on the Bloomberg Professional® service or any successor service, as applicable.
Form of Securities:	Book-Entry
Listing:	The securities will not be listed on any U.S. securities exchange or quotation system.
CUSIP/ISIN:	40433BYC6/US40433BYC61

Estimated Initial Value: The Estimated Initial Value of the securities will be less than the price you pay to purchase the securities. The Estimated Initial Value does not represent a minimum price at which we or any of our affiliates would be willing to purchase your securities in the secondary market, if any, at any time. The Estimated Initial Value will be calculated on the Pricing Date and will be set forth in the pricing supplement to which this free writing prospectus relates. See "Risk Factors — The Estimated Initial Value of the securities, which will be determined by us on the Pricing Date, will be less than the price to public and may differ from the market value of the securities in the secondary market, if any."

The Trade Date, the Pricing Date and the other dates set forth above are subject to change, and will be set forth in the final pricing supplement relating to the securities.

GENERAL

This free writing prospectus relates to a single offering of securities linked to the Reference Asset. The purchaser of a security will acquire a senior unsecured debt security of HSBC USA Inc. We reserve the right to withdraw, cancel or modify this offering and to reject orders in whole or in part. Although the offering of securities relates to the Reference Asset, you should not construe that fact as a recommendation as to the merits of acquiring an investment linked to the Reference Asset or any component security included in the Reference Asset or as to the suitability of an investment in the securities.

You should read this document together with the prospectus dated March 22, 2012, the prospectus supplement dated March 22, 2012 and the Equity Index Underlying Supplement dated March 22, 2012. If the terms of the securities offered hereby are inconsistent with those described in the accompanying prospectus supplement, prospectus, or Equity Index Underlying Supplement, the terms described in this free writing prospectus shall control. You should carefully consider, among other things, the matters set forth in "Risk Factors" beginning on page FWP-8 of this free writing prospectus, page S-3 of the prospectus supplement and page S-1 of the Equity Index Underlying Supplement, as the securities involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisors before you invest in the securities. As used herein, references to the "Issuer", "HSBC", "we", "us" and "our" are to HSBC USA Inc.

HSBC has filed a registration statement (including a prospectus, a prospectus supplement and Equity Index Underlying Supplement) with the SEC for the offering to which this free writing prospectus relates. Before you invest, you should read the prospectus, prospectus supplement and Equity Index Underlying Supplement in that registration statement and other documents HSBC has filed with the SEC for more complete information about HSBC and this offering. You may get these documents for free by visiting EDGAR on the SEC's web site at www.sec.gov. Alternatively, HSBC Securities (USA) Inc. or any dealer participating in this offering will arrange to send you the prospectus, prospectus supplement and Equity Index Underlying Supplement if you request them by calling toll-free 1-866-811-8049. You may also obtain:

- ▶ The Equity Index Underlying Supplement at: http://www.sec.gov/Archives/edgar/data/83246/000114420412016693/v306691_424b2.htm
- ▶ The prospectus supplement at: <http://www.sec.gov/Archives/edgar/data/83246/000104746912003151/a2208335z424b2.htm>
- ▶ The prospectus at: <http://www.sec.gov/Archives/edgar/data/83246/000104746912003148/a2208395z424b2.htm>

We are using this free writing prospectus to solicit from you an offer to purchase the securities. You may revoke your offer to purchase the securities at any time prior to the time at which we accept your offer by notifying HSBC Securities (USA) Inc. We reserve the right to change the terms of, or reject any offer to purchase, the securities prior to their issuance. In the event of any material changes to the terms of the securities, we will notify you.

PAYMENT AT MATURITY

On the Maturity Date, for each security you hold, we will pay you the Final Settlement Value, which is an amount in cash, as described below:

If the Reference Return is greater than or equal to zero, you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount, equal to the lesser of:

- (a) $\$1,000 + (\$1,000 \times \text{Reference Return} \times \text{Upside Participation Rate})$; and
- (b) $\$1,000 + (\$1,000 \times \text{Maximum Cap})$.

If the Reference Return is less than zero, you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount, calculated as follows:

$$\$1,000 + (\$1,000 \times \text{Reference Return}).$$

Under these circumstances, you will lose 1% of the Principal Amount of your securities for each percentage point that the Reference Return is negative. For example, if the Reference Return is -30%, you will suffer a 30% loss and receive 70% of the Principal Amount, subject to the credit risk of HSBC. **You should be aware that if the Reference Return is less than zero, you will lose up to 100% of your investment.**

Interest

The securities will not pay interest.

Business Day

A "business day" means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation to close in the City of New York.

Payment When Offices or Settlement Systems Are Closed

If any payment is due on the securities on a day that would otherwise be a "business day" but is a day on which the office of a paying agent or a settlement system is closed, we will make the payment on the next business day when that paying agent or system is open. Any such payment will be deemed to have been made on the original due date, and no additional payment will be made on account of the delay.

Calculation Agent

We or one of our affiliates will act as calculation agent with respect to the securities.

Reference Sponsor

MSCI Inc. is the reference sponsor.

INVESTOR SUITABILITY

The securities may be suitable for you if:

- ▶ You seek an investment with an enhanced return linked to the potential positive performance of the Reference Asset and you believe the level of the Reference Asset will increase over the term of the securities.
- ▶ You are willing to invest in the securities based on the Maximum Cap indicated herein, which may limit your return at maturity. The actual Maximum Cap will be determined on the Pricing Date.
- ▶ You are willing to make an investment that is exposed to the negative Reference Return on a 1-to-1 basis for each percentage point that the Reference Return is less than zero.
- ▶ You are willing to accept the risk and return profile of the securities versus a conventional debt security with a comparable maturity issued by HSBC or another issuer with a similar credit rating.
- ▶ You are willing to forgo dividends or other distributions paid to holders of the stocks comprising the Reference Asset.
- ▶ You do not seek current income from your investment.
- ▶ You do not seek an investment for which there is an active secondary market.
- ▶ You are willing to hold the securities to maturity.
- ▶ You are comfortable with the creditworthiness of HSBC, as Issuer of the securities.

The securities may not be suitable for you if:

- ▶ You believe the Reference Return will be negative on the Final Valuation Date or that the Reference Return will not be sufficiently positive to provide you with your desired return.
- ▶ You are unwilling to invest in the securities based on the Maximum Cap indicated herein, which may limit your return at maturity. The actual Maximum Cap will be determined on the Pricing Date.
- ▶ You are unwilling to make an investment that is exposed to the negative Reference Return on a 1-to-1 basis for each percentage point that the Reference Return is less than zero.
- ▶ You seek an investment that provides full return of principal.
- ▶ You prefer the lower risk, and therefore accept the potentially lower returns, of conventional debt securities with comparable maturities issued by HSBC or another issuer with a similar credit rating.
- ▶ You prefer to receive the dividends or other distributions paid on the stocks comprising the Reference Asset.
- ▶ You seek current income from your investment.
- ▶ You seek an investment for which there will be an active secondary market.
- ▶ You are unable or unwilling to hold the securities to maturity.
- ▶ You are not willing or are unable to assume the credit risk associated with HSBC, as Issuer of the securities.

RISK FACTORS

We urge you to read the section “Risk Factors” beginning on page S-3 in the accompanying prospectus supplement and page S-1 of the Equity Index Underlying Supplement. Investing in the securities is not equivalent to investing directly in any of the stocks comprising the Reference Asset. You should understand the risks of investing in the securities and should reach an investment decision only after careful consideration, with your advisors, of the suitability of the securities in light of your particular financial circumstances and the information set forth in this free writing prospectus and the accompanying prospectus supplement, prospectus and Equity Index Underlying Supplement.

In addition to the risks discussed below, you should review “Risk Factors” in the accompanying prospectus supplement and Equity Index Underlying Supplement including the explanation of risks relating to the securities described in the following sections:

- ▶ “— Risks Relating to All Note Issuances” in the prospectus supplement; and
- ▶ “— General Risks Related to Indices” in the Equity Index Underlying Supplement.

You will be subject to significant risks not associated with conventional fixed-rate or floating-rate debt securities.

Your investment in the securities may result in a loss.

The securities do not guarantee any return of principal. You will be exposed to the decline in the Final Level from the Initial Level. Accordingly, if the Reference Return is less than 0%, your Payment at Maturity will be less than the Principal Amount of your securities. You will lose up to 100% of your investment at maturity if the Reference Return is negative.

The appreciation on the securities is limited by the Maximum Cap.

You will not participate in any appreciation in the level of the Reference Asset (as multiplied by the Upside Participation Rate) beyond the Maximum Cap of at least 45% (to be determined on the Pricing Date). You will not receive a return on the securities greater than the Maximum Cap.

Credit risk of HSBC USA Inc.

The securities are senior unsecured debt obligations of the Issuer, HSBC, and are not, either directly or indirectly, an obligation of any third party. As further described in the accompanying prospectus supplement and prospectus, the securities will rank on par with all of the other unsecured and unsubordinated debt obligations of HSBC, except such obligations as may be preferred by operation of law. Any payment to be made on the securities, including any return of principal at maturity, depends on the ability of HSBC to satisfy its obligations as they come due. As a result, the actual and perceived creditworthiness of HSBC may affect the market value of the securities and, in the event HSBC were to default on its obligations, you may not receive the amounts owed to you under the terms of the securities.

The securities will not bear interest.

As a holder of the securities, you will not receive interest payments.

Changes that affect the Reference Asset will affect the market value of the securities and the amount you will receive at maturity.

The policies of the reference sponsor of the Reference Asset concerning additions, deletions and substitutions of the constituents comprising the Reference Asset and the manner in which the reference sponsor takes account of certain changes affecting those constituents included in the Reference Asset may affect the level of the Reference Asset. The policies of the reference sponsor with respect to the calculation of the Reference Asset could also affect the level of the Reference Asset. The reference sponsor may discontinue or suspend calculation or dissemination of the Reference Asset. Any such actions could affect the value of the securities.

The securities are not insured or guaranteed by any governmental agency of the United States or any other jurisdiction.

The securities are not deposit liabilities or other obligations of a bank and are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency or program of the United States or any other jurisdiction. An investment in the securities is subject to the credit risk of HSBC, and in the event that HSBC is unable to pay its obligations as they become due, you may not receive the full Payment at Maturity of the securities.

The Estimated Initial Value of the securities, which will be determined by us on the Pricing Date, will be less than the price to public and may differ from the market value of the securities in the secondary market, if any.

The Estimated Initial Value of the securities will be calculated by us on the Pricing Date and will be less than the price to public. The Estimated Initial Value will reflect our internal funding rate, which is the borrowing rate we use to issue market-linked securities, as well as the mid-market value of the embedded derivatives in the securities. This internal funding rate is typically lower than the rate we would use when we issue conventional fixed or floating rate debt securities. As a result of the difference between our internal funding rate and the rate we would use when we issue conventional fixed or floating rate debt securities, the Estimated Initial Value of the securities may be lower if it were based on the levels at which our fixed or floating rate debt securities trade in the secondary market. In addition, if we were to use the rate we use for our conventional fixed or floating rate debt issuances, we would expect the economic terms of the securities to be more favorable to you. We will determine the value of the embedded derivatives in the securities by reference to our or our affiliates' internal pricing models. These pricing models consider certain assumptions and variables, which can include volatility and interest rates. Different pricing models and assumptions could provide valuations for the securities that are different from our Estimated Initial Value. These pricing models rely in part on certain forecasts about future events, which may prove to be incorrect. The Estimated Initial Value does not represent a minimum price at which we or any of our affiliates would be willing to purchase your securities in the secondary market (if any exists) at any time.

The price of your securities in the secondary market, if any, immediately after the Pricing Date will be less than the price to public.

The price to public takes into account certain costs. These costs, which will be used or retained by us or one of our affiliates, include the underwriting discount, our affiliates' projected hedging profits (which may or may not be realized) for assuming risks inherent in hedging our obligations under the securities and the costs associated with structuring and hedging our obligations under the securities. If you were to sell your securities in the secondary market, if any, the price you would receive for your securities may be less than the price you paid for them because secondary market prices will not take into account these costs. The price of your securities in the secondary market, if any, at any time after issuance will vary based on many factors, including the level of the Reference Asset and changes in market conditions, and cannot be predicted with accuracy. The securities are not designed to be short-term trading instruments, and you should, therefore, be able and willing to hold the securities to maturity. Any sale of the securities prior to maturity could result in a loss to you.

If we were to repurchase your securities immediately after the Original Issue Date, the price you receive may be higher than the Estimated Initial Value of the securities.

Assuming that all relevant factors remain constant after the Original Issue Date, the price at which HSBC Securities (USA) Inc. may initially buy or sell the securities in the secondary market, if any, and the value that we may initially use for customer account statements, if we provide any customer account statements at all, may exceed the Estimated Initial Value on the Pricing Date for a temporary period expected to be approximately six months after the Original Issue Date. This temporary price difference may exist because, in our discretion, we may elect to effectively reimburse to investors a portion of the estimated cost of hedging our obligations under the securities and other costs in connection with the securities that we will no longer expect to incur over the term of the securities. We will make such discretionary election and determine this temporary reimbursement period on the basis of a number of factors, including the tenor of the securities and any agreement we may have with the distributors of the securities. The amount of our estimated costs which we effectively reimburse to investors in this way may not be allocated ratably throughout the reimbursement period, and we may discontinue such reimbursement at any time or revise the duration of the reimbursement period after the Original Issue Date of the securities based on changes in market conditions and other factors that cannot be predicted.

The securities lack liquidity.

The securities will not be listed on any securities exchange. HSBC Securities (USA) Inc. is not required to offer to purchase the securities in the secondary market, if any exists. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the securities easily. Because other dealers are not likely to make a secondary market for the securities, the price at which you may be able to trade your securities is likely to depend on the price, if any, at which HSBC Securities (USA) Inc. is willing to buy the securities.

Potential conflicts of interest may exist.

HSBC and its affiliates play a variety of roles in connection with the issuance of the securities, including acting as calculation agent and hedging our obligations under the securities. In performing these duties, the economic interests of the calculation agent and other affiliates of ours are potentially adverse to your interests as an investor in the securities. We will not have any obligation to consider your interests as a holder of the securities in taking any action that might affect the value of your securities.

The amount payable on the securities is not linked to the level of the Reference Asset at any time other than on the Final Valuation Date.

The Final Level will be based on the Official Closing Level of the Reference Asset on the Final Valuation Date, subject to postponement for non-trading days and certain market disruption events. Even if the level of the Reference Asset appreciates prior to the Final Valuation Date but then decreases on the Final Valuation Date to a level that is below the Initial Level, the Payment at Maturity will be less, and may be significantly less, than it would have been had the Payment at Maturity been linked to the level of the Reference Asset prior to such decrease. Although the actual level of the Reference Asset on the Maturity Date or at other times during the term of the securities may be higher than the Final Level, the Payment at Maturity will be based solely on the Official Closing Level of the Reference Asset on the Final Valuation Date.

Uncertain tax treatment.

For a discussion of the U.S. federal income tax consequences of your investment in a security, please see the discussion under "U.S. Federal Income Tax Considerations" herein and the discussion under "U.S. Federal Income Tax Considerations" in the accompanying prospectus supplement.

Risks associated with non-U.S. companies.

The MXWO includes securities issued by foreign companies. Holders should be aware that investments in the notes will involve particular risks related to foreign securities. The foreign securities may have less liquidity and could be more volatile than many of the securities traded in the U.S. or other longer-established securities markets. Direct or indirect government intervention to stabilize the relevant foreign securities markets, as well as cross shareholdings in foreign companies, may affect levels or prices and volumes in those markets. Also, there is generally less publicly available information about foreign companies than about U.S. companies that are subject to the reporting requirements of the Securities and Exchange Commission, and foreign companies often are subject to accounting, auditing and financial reporting standards and requirements that differ from those applicable to U.S. reporting companies. The other special risks associated with foreign securities may include, but are not necessarily limited to: less liquidity and smaller market capitalizations; less rigorous regulation of securities markets; governmental interference; currency fluctuations; higher inflation; and social, economic and political uncertainties. These factors may adversely affect the performance of the MXWO and, as a result, the value of the securities.

The securities will be subject to currency exchange risk.

The prices of the securities included in the MXWO are converted into U.S. dollars for purposes of calculating the level of the MXWO. As a result, your securities will be exposed to currency exchange rate risk with respect to each of the currencies in which the equity securities included in the MXWO trade. Your net exposure will depend on the extent to which such currencies strengthen or weaken against the U.S. dollar and the relative weight of the equity securities included in the MXWO denominated in each such currency. If, taking into account such weighting, the U.S. dollar strengthens against such currencies, the level of the MXWO will be adversely affected and, depending on the terms of your securities, the return on the securities, if any, may be reduced.

ILLUSTRATIVE EXAMPLES

The following table and examples are provided for illustrative purposes only and are hypothetical. They do not purport to be representative of every possible scenario concerning increases or decreases in the level of the Reference Asset relative to its Initial Level. We cannot predict the Final Level of the Reference Asset. The assumptions we have made in connection with the illustrations set forth below may not reflect actual events. You should not take this illustration or these examples as an indication or assurance of the expected performance of the Reference Asset or the return on your securities. The Final Settlement Value may be less than the amount that you would have received from a conventional debt security with the same stated maturity, including those issued by HSBC. The numbers appearing in the table below and following examples have been rounded for ease of analysis.

The table below illustrates the Payment at Maturity on a \$1,000 investment in the securities for a hypothetical range of Reference Returns from -100% to +100%. The following results are based solely on the assumptions outlined below. The "Hypothetical Return on the Securities" as used below is the number, expressed as a percentage, that results from comparing the Payment at Maturity per \$1,000 Principal Amount to \$1,000. The potential returns described here assume that your securities are held to maturity. You should consider carefully whether the securities are suitable to your investment goals. The following table and examples assume the following:

- ▶ Principal Amount: \$1,000
- ▶ Upside Participation Rate: 150%
- ▶ Hypothetical Maximum Cap: 45% (the actual Maximum Cap will be determined on the Pricing Date)

Hypothetical Reference Return	Hypothetical Payment at Maturity	Hypothetical Return on the Securities
100.00%	\$1,450.00	45.00%
80.00%	\$1,450.00	45.00%
60.00%	\$1,450.00	45.00%
40.00%	\$1,450.00	45.00%
30.00%	\$1,450.00	45.00%
20.00%	\$1,300.00	30.00%
10.00%	\$1,150.00	15.00%
5.00%	\$1,075.00	7.50%
0.00%	\$1,000.00	0.00%
-1.00%	\$990.00	-1.00%
-2.00%	\$980.00	-2.00%
-5.00%	\$950.00	-5.00%
-10.00%	\$900.00	-10.00%
-15.00%	\$850.00	-15.00%
-20.00%	\$800.00	-20.00%
-30.00%	\$700.00	-30.00%
-40.00%	\$600.00	-40.00%
-60.00%	\$400.00	-60.00%
-80.00%	\$200.00	-80.00%
-100.00%	\$0.00	-100.00%

The following examples indicate how the Final Settlement Value would be calculated with respect to a hypothetical \$1,000 investment in the securities.

Example 1: The Reference Return is 5.00%.

Reference Return:	5.00%
Final Settlement Value:	\$1,075.00

Because the Reference Return is positive, and the Reference Return multiplied by the Upside Participation Rate is less than the hypothetical Maximum Cap, the Final Settlement Value would be \$1,075.00 per \$1,000 Principal Amount, calculated as follows:

$$\begin{aligned} & \$1,000 + (\$1,000 \times \text{Reference Return} \times \text{Upside Participation Rate}) \\ &= \$1,000 + (\$1,000 \times 5.00\% \times 150\%) \\ &= \$1,075.00 \end{aligned}$$

Example 1 shows that you will receive the return of your principal investment plus a return equal to the Reference Return multiplied by 150% when the Reference Return is positive and, as multiplied by the Upside Participation Rate, equal to or less than the Maximum Cap.

Example 2: The Reference Return is 60.00%.

Reference Return:	60.00%
Final Settlement Value:	\$1,450.00

Because the Reference Return is positive, and the Reference Return multiplied by the Upside Participation Rate is greater than the hypothetical Maximum Cap, the Final Settlement Value would be \$1,450.00 per \$1,000 Principal Amount, calculated as follows:

$$\begin{aligned} & \$1,000 + (\$1,000 \times \text{Maximum Cap}) \\ &= \$1,000 + (\$1,000 \times 45\%) \\ &= \$1,450.00 \end{aligned}$$

Example 2 shows that you will receive the return of your principal investment plus a return equal to the hypothetical Maximum Cap when the Reference Return is positive and the Reference Return multiplied by 150% exceeds the hypothetical Maximum Cap.

Example 3: The Reference Return is -30.00%.

Reference Return:	-30.00%
Final Settlement Value:	\$700.00

Because the Reference Return is negative, the Final Settlement Value would be \$700.00 per \$1,000 Principal Amount, calculated as follows:

$$\begin{aligned} & \$1,000 + (\$1,000 \times \text{Reference Return}) \\ &= \$1,000 + (\$1,000 \times -30.00\%) \\ &= \$700.00 \end{aligned}$$

Example 3 shows that you are exposed on a 1-to-1 basis to declines in the level of the Reference Asset below zero. YOU MAY LOSE UP TO 100% OF THE PRINCIPAL AMOUNT OF YOUR SECURITIES.

INFORMATION RELATING TO THE REFERENCE ASSET

We have derived all information contained in this document regarding the MSCI World Index (the “MXWO”), including, without limitation, its make-up, method of calculation and changes in its components, from publicly available information. Such information reflects the policies of, and is subject to change by, MSCI Inc. (“MSCI”). Neither we nor any of our affiliates has undertaken any independent review or due diligence of such information. The MXWO is calculated, maintained and published by MSCI. MSCI has no obligation to continue to publish, and may discontinue publication of, the MXWO at any time.

General

The MXWO is a free float-adjusted market capitalization index that is designed to measure the equity market performance of developed markets, including Canada and the United States. As of December 31, 2014, the MXWO consists of the following 23 developed market country indices: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom and the United States.

The MXWO is based on the MSCI global investable market indices methodology, which emphasizes index liquidity, investability and replicability. The MXWO was launched on March 31, 1986, with a base date of December 31, 1969 and an initial value of 100. The MXWO is calculated daily in U.S. dollars and published in real time every 15 seconds during market trading hours. The MXWO is reported by Bloomberg under the ticker symbol “MXWO.”

The MXWO is part of the MSCI Regional Equity Indices series and is an MSCI Global Investable Market Index, which is a family within the MSCI Global Equity Indices (the “MSCI Indices”).

The Country Indices

Each developed country’s index included in the MXWO is referred to as a “Country Index.” Under the MSCI methodology, each Country Index is an “MSCI Global Standard Index.” The components of each Country Index used to be selected by MSCI from among the universe of eligible securities so as to target an 85% free float-adjusted market representation level within each of a number of industry groups, subject to adjustments to (i) provide for sufficient liquidity, (ii) reflect foreign investment restrictions (only those securities that can be held by non-residents of the country corresponding to the relevant Country Index are included) and (iii) meet certain other investability criteria. Following a change in MSCI’s methodology implemented in May 2008, the 85% target is now measured at the level of the country universe of eligible securities rather than the industry group level—so each Country Index will seek to include the securities that represent 85% of the free float-adjusted market capitalization of all securities eligible for inclusion — but will still be subject to liquidity, foreign investment restrictions and other investability adjustments. MSCI defines “free float” as total shares excluding shares held by strategic investors such as governments, corporations, controlling shareholders and management, and shares subject to foreign ownership restrictions.

Calculation of the Country Indices

Each Country Index is a free float-adjusted market capitalization index that is designed to measure the market performance, including price performance, of the equity securities in that country (each, an “Index Component” and collectively, the “Index Components”). Each Country Index is calculated in the relevant local currency as well as in U.S. dollars, with price, gross and net returns. MSCI’s “price indices” measure market performance, including price performance, whereas MSCI’s “total return indices” measure market performance, including price performance, as well as income from dividend payments.

Each Index Component is included in the relevant Country Index at a weight that reflects the ratio of its free float-adjusted market capitalization (*i.e.*, free public float multiplied by price) to the free float-adjusted market capitalization of all the Index Components in that Country Index.

The performance of the MXWO on any given day represents the weighted performance of all of the Index Components included in all of the Country Indices included in the MXWO. Each Index Component in the MXWO is included at a weight that reflects the ratio of its free float-adjusted market capitalization to the free float-adjusted market capitalization of all the Index Components included in all of the Country Indices included in the MXWO.

Maintenance of and Changes to the MSCI Indices

MSCI maintains the MSCI Indices with the objective of reflecting, on a timely basis, the evolution of the underlying equity markets and segments. In maintaining the MSCI Indices, emphasis is also placed on continuity, continuous investability of constituents, replicability, index stability and low turnover.

As part of the changes to MSCI's methodology which became effective in May 2008, maintenance of the indices falls into three broad categories:

- semi-annual reviews, which will occur each May and November and will involve a comprehensive reevaluation of the market, the universe of eligible securities and other factors involved in composing the indices;
- quarterly reviews, which will occur each February and August and will focus on significant changes in the market since the last semi-annual review and on including significant new eligible securities (such as IPOs, which were not eligible for earlier inclusion in the indices); and
- ongoing event-related changes, which will generally be reflected in the indices at the time of the event and will include significantly large initial public offerings and changes resulting from mergers, acquisitions, spin-offs, bankruptcies, reorganizations, issuances and other extraordinary transactions, corporate actions and events.

Based on these reviews, additional components may be added, and current components may be removed, at any time. MSCI generally announces all changes resulting from semi-annual reviews, quarterly reviews and ongoing events in advance of their implementation, although in exceptional cases they may be announced during market hours for same or next day implementation.

Prices and Exchange Rates

Prices

The prices used to calculate the MSCI Indices are the official exchange closing prices or those figures accepted as such.

MSCI reserves the right to use an alternative pricing source on any given day.

Exchange Rates

MSCI uses the foreign exchange rates published by WM / Reuters at 4:00 p.m., London time. MSCI uses WM / Reuters rates for all developed and emerging markets. In case WM/Reuters does not provide rates for specific markets on given days (for example Christmas Day and New Year's Day), the previous business day's rates are normally used. MSCI continues to monitor exchange rates independently and may, under exceptional circumstances, elect to use an alternative exchange rate if the WM / Reuters rates are not available, or if MSCI determines that the WM / Reuters rates are not reflective of market circumstances for a given currency on a particular day. In such circumstances, an announcement would be sent to clients with the related information. If appropriate, MSCI may conduct a consultation with the investment community to gather feedback on the most relevant exchange rate.

License Agreement with MSCI

HSBC or one of its affiliates has entered into a non-exclusive license agreement with MSCI whereby HSBC and certain of its affiliates, in exchange for a fee, are permitted to use the MSCI Indices in connection with certain securities, including the securities. HSBC is not affiliated with MSCI, the only relationship between MSCI and HSBC is any licensing of the use of MSCI's indices and trademarks relating to them.

The license agreement provides that the following language must be set forth herein:

THE SECURITIES ARE NOT SPONSORED, ENDORSED, SOLD OR PROMOTED BY MSCI, ANY AFFILIATE OF MSCI OR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX. THE MSCI INDICES ARE THE EXCLUSIVE PROPERTY OF MSCI. MSCI AND THE MSCI INDEX NAMES ARE SERVICE MARK(S) OF MSCI OR ITS AFFILIATES AND HAVE BEEN LICENSED FOR USE FOR CERTAIN PURPOSES BY HSBC. NEITHER MSCI, ANY OF ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX MAKES ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, TO THE HOLDERS OF THE SECURITIES OR ANY MEMBER OF THE PUBLIC REGARDING THE ADVISABILITY OF INVESTING IN SECURITIES GENERALLY OR IN THE SECURITIES PARTICULARLY OR THE ABILITY OF ANY MSCI INDEX TO TRACK CORRESPONDING STOCK MARKET PERFORMANCE. MSCI OR ITS AFFILIATES ARE THE

LICENSORS OF CERTAIN TRADEMARKS, SERVICE MARKS AND TRADE NAMES AND OF THE MSCI INDICES WHICH ARE DETERMINED, COMPOSED AND CALCULATED BY MSCI WITHOUT REGARD TO THE SECURITIES OR HSBC OR HOLDERS OF THE SECURITIES. NEITHER MSCI, ANY OF ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX HAS ANY OBLIGATION TO TAKE THE NEEDS OF HSBC OR HOLDERS OF THE SECURITIES INTO CONSIDERATION IN DETERMINING, COMPOSING OR CALCULATING THE MSCI INDICES. NEITHER MSCI, ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX IS RESPONSIBLE FOR OR HAS PARTICIPATED IN THE DETERMINATION OF THE TIMING OF, PRICES AT, OR QUANTITIES OF THE SECURITIES TO BE ISSUED OR IN THE DETERMINATION OR CALCULATION OF THE EQUATION BY WHICH THE SECURITIES ARE REDEEMABLE FOR CASH. NEITHER MSCI, ANY OF ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, THE MAKING OR COMPILING ANY MSCI INDEX HAS ANY OBLIGATION OR LIABILITY TO THE HOLDERS OF THE SECURITIES IN CONNECTION WITH THE ADMINISTRATION, MARKETING OR OFFERING OF THE SECURITIES.

ALTHOUGH MSCI SHALL OBTAIN INFORMATION FOR INCLUSION IN OR FOR USE IN THE CALCULATION OF THE MSCI INDICES FROM SOURCES WHICH MSCI CONSIDERS RELIABLE, NEITHER MSCI, ANY OF ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO MAKING OR COMPILING ANY MSCI INDEX WARRANTS OR GUARANTEES THE ORIGINALITY, ACCURACY AND/OR THE COMPLETENESS OF ANY MSCI INDEX OR ANY DATA INCLUDED THEREIN. NEITHER MSCI, ANY OF ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX MAKES ANY WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY LICENSEE, LICENSEE'S CUSTOMERS OR COUNTERPARTIES, ISSUER OF THE SECURITIES, HOLDERS OF THE SECURITIES, OR ANY OTHER PERSON OR ENTITY, FROM THE USE OF ANY MSCI INDEX OR ANY DATA INCLUDED THEREIN IN CONNECTION WITH THE RIGHTS LICENSED HEREUNDER OR FOR ANY OTHER USE. NEITHER MSCI, ANY OF ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX SHALL HAVE ANY LIABILITY FOR ANY ERRORS, OMISSIONS OR INTERRUPTIONS OF OR IN CONNECTION WITH ANY MSCI INDEX OR ANY DATA INCLUDED THEREIN. FURTHER, NEITHER MSCI, ANY OF ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX MAKES ANY EXPRESS OR IMPLIED WARRANTIES OF ANY KIND, AND MSCI, ANY OF ITS AFFILIATES AND ANY OTHER PARTY INVOLVED IN, OR RELATED TO MAKING OR COMPILING ANY MSCI INDEX HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO ANY MSCI INDEX AND ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL MSCI, ANY OF ITS AFFILIATES OR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, SPECIAL, PUNITIVE, CONSEQUENTIAL OR ANY OTHER DAMAGES (INCLUDING LOST PROFITS) EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

No purchaser, seller or holder of the securities, or any other person or entity, should use or refer to any MSCI trade name, trademark or service mark to sponsor, endorse, market or promote the securities without first contacting MSCI to determine whether MSCI's permission is required. Under no circumstances may any person or entity claim any affiliation with MSCI without the prior written permission of MSCI.

Historical Performance of the MXWO

The following graph sets forth the historical performance of the MXWO based on the daily historical closing levels from January 1, 2008 through January 8, 2015. The closing level for the MXWO on January 8, 2015 was 1,694.17. We obtained the closing levels below from the Bloomberg Professional[®] service. We have not undertaken any independent review of, or made any due diligence inquiry with respect to, the information obtained from the Bloomberg Professional[®] service.

The historical levels of the MXWO should not be taken as an indication of future performance, and no assurance can be given as to the Official Closing Level of the MXWO on the Final Valuation Date.

EVENTS OF DEFAULT AND ACCELERATION

If the securities have become immediately due and payable following an Event of Default (as defined in the accompanying prospectus) with respect to the securities, the calculation agent will determine the accelerated payment due and payable at maturity in the same general manner as described in “Payment at Maturity” in this free writing prospectus. In that case, the scheduled trading day immediately preceding the date of acceleration will be used as the Final Valuation Date for purposes of determining the Reference Return, and the accelerated maturity date will be three business days after the accelerated Final Valuation Date. If a Market Disruption Event exists with respect to the Reference Asset on that scheduled trading day, then the accelerated Final Valuation Date for the Reference Asset will be postponed for up to five scheduled trading days (in the same manner used for postponing the originally scheduled Final Valuation Date). The accelerated maturity date will also be postponed by an equal number of business days.

If the securities have become immediately due and payable following an Event of Default, you will not be entitled to any additional payments with respect to the securities. For more information, see “Description of Debt Securities — Senior Debt Securities — Events of Default” in the accompanying prospectus.

SUPPLEMENTAL PLAN OF DISTRIBUTION (CONFLICTS OF INTEREST)

We have appointed HSBC Securities (USA) Inc., an affiliate of HSBC, as the agent for the sale of the securities. Pursuant to the terms of a distribution agreement, HSBC Securities (USA) Inc. will purchase the securities from HSBC at the price to public less the underwriting discount set forth on the cover page of the pricing supplement to which this free writing prospectus relates, for distribution to other registered broker-dealers, or will offer the securities directly to investors. HSBC Securities (USA) Inc. proposes to offer the securities at the price to public set forth on the cover page of this free writing prospectus. HSBC USA Inc. or one of our affiliates may pay varying underwriting discounts of up to 2.00% per \$1,000 Principal Amount in connection with the distribution of the securities to other registered broker-dealers.

An affiliate of HSBC has paid or may pay in the future an amount to broker-dealers in connection with the costs of the continuing implementation of systems to support the securities.

In addition, HSBC Securities (USA) Inc. or another of its affiliates or agents may use the pricing supplement to which this free writing prospectus relates in market-making transactions after the initial sale of the securities, but is under no obligation to do so and may discontinue any market-making activities at any time without notice.

See “Supplemental Plan of Distribution (Conflicts of Interest)” on page S-49 in the prospectus supplement.

U.S. FEDERAL INCOME TAX CONSIDERATIONS

There is no direct legal authority as to the proper tax treatment of the securities, and therefore significant aspects of the tax treatment of the securities are uncertain as to both the timing and character of any inclusion in income in respect of the securities. Under one approach, a security should be treated as a pre-paid executory contract with respect to the Reference Asset. We intend to treat the securities consistent with this approach. Pursuant to the terms of the securities, you agree to treat the securities under this approach for all U.S. federal income tax purposes. Subject to the limitations described therein, and based on certain factual representations received from us, in the opinion of our special U.S. tax counsel, Morrison & Foerster LLP, it is reasonable to treat a security as a pre-paid executory contract with respect to the Reference Asset. Pursuant to this approach, we do not intend to report any income or gain with respect to the securities prior to their maturity or an earlier sale or exchange and we intend to treat any gain or loss upon maturity or an earlier sale or exchange as long-term capital gain or loss, provided that you have held the security for more than one year at such time for U.S. federal income tax purposes.

We will not attempt to ascertain whether any of the entities whose stock is included in, or owned by, the Reference Asset, as the case may be, would be treated as a passive foreign investment company ("PFIC") or United States real property holding corporation ("USRPHC"), both as defined for U.S. federal income tax purposes. If one or more of the entities whose stock is included in, or owned by, the Reference Asset, as the case may be, were so treated, certain adverse U.S. federal income tax consequences might apply. You should refer to information filed with the SEC and other authorities by the entities whose stock is included in, or owned by, the Reference Asset, as the case may be, and consult your tax advisor regarding the possible consequences to you if one or more of the entities whose stock is included in, or owned by, the Reference Asset, as the case may be, is or becomes a PFIC or a USRPHC.

Withholding and reporting requirements under the legislation enacted on March 18, 2010 (as discussed beginning on page S-48 of the prospectus supplement) generally apply to payments made after June 30, 2014. Additionally, withholding due to any payment being treated as a "dividend equivalent" (as discussed beginning on page S-47 of the prospectus supplement) will begin no earlier than January 1, 2016. However, the U.S. Treasury Department and Internal Revenue Service have announced that they intend to limit this withholding to equity-linked instruments issued on or after the date that is 90 days after the date of publication in the U.S. Federal Register of final regulations addressing dividend equivalent withholding. Holders are urged to consult with their own tax advisors regarding the possible implications of this legislation on their investment in the securities.

For a discussion of the U.S. federal income tax consequences of your investment in a security, please see the discussion under "U.S. Federal Income Tax Considerations" in the accompanying prospectus supplement.
