Preliminary Note Regarding Forward-Looking Statements.

Certain matters discussed in this report contain forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those indicated by such forward-looking statements.

These forward-looking statements relate to, among other things, capital expenditures, liquidity, capital resources and competition and may be indicated by words or phrases such as "anticipate", "estimate", "plans", "projects", "continuing", "ongoing", "expects", "management believes", "the Company believes", "the Company intends" and similar words or phrases. The following factors and others discussed in the Company's periodic reports and filings with the Securities and Exchange Commission are among the principal factors that could cause actual results to differ materially from the forward-looking statements: freight demand for petroleum products including recessionary and terrorist impacts on travel in the Company's markets; levels of construction activity in the markets served by our mining properties; fuel costs and the Company's ability to recover fuel surcharges; accident severity and frequency; risk insurance markets; driver availability and cost; the impact of future regulations regarding the transportation industry; availability and terms of financing; competition in our markets; interest rates, inflation and general economic conditions; demand for flexible warehouse/office facilities in the Baltimore-Washington-Northern Virginia area; and ability to obtain zoning and entitlements necessary for property development. However, this list is not a complete statement of all potential risks or uncertainties.

These forward-looking statements are made as of the date hereof based on management's current expectations, and the Company does not undertake an obligation to update such statements, whether as a result of new information, future events or otherwise. Additional information regarding these and other risk factors may be found in the Company's other filings made from time to time with the Securities and Exchange Commission.

PATRIOT TRANSPORTATION HOLDING, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(Unaudited)

(1) **Basis of Presentation.** The accompanying consolidated financial statements include the accounts of Patriot Transportation Holding, Inc. and its subsidiaries (the "Company"). Investment in the 50% owned Brooksville Joint Venture is accounted for under the equity method of accounting. These statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the instructions to Form 10-Q and do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (primarily consisting of normal recurring accruals) considered necessary for a fair statement of the results for the interim periods have been included. Operating results for the nine months ended June 30, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2011. The accompanying consolidated financial statements and the information included under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" should be read in conjunction with the Company's consolidated financial statements and related notes included in the Company's Form 10-K for the year ended September 30, 2010.

In connection with the presentation adopted in March, 2010 of our real estate operations as two reportable segments, two properties in Washington, D.C. and two properties in Duval County, Florida were reclassified out of the Royalties and rent division and the division was renamed the Mining royalty land segment. Historical results have been reclassified to conform to the new segment presentation.

(2) **Stock Split.** On December 1, 2010, the board of directors declared a 3-for-1 stock split of the Company's common stock in the form of a stock dividend. The record date for the split was January 3, 2011 and the new shares were issued on January 17, 2011. The total authorized shares remained 25 million and par value of common stock remained unchanged at \$.10 per share. All share and per share information presented has been adjusted to reflect this stock split.

(3) **Business Segments.** The Company operates in three reportable business segments. The Company's operations are substantially in the Southeastern and Mid-Atlantic states. The transportation segment hauls petroleum and other liquids and dry bulk commodities by tank trailers. The Company's real estate operations consist of two reportable segments. The Mining royalty land segment owns real estate including construction aggregate royalty sites and parcels held for investment. The Developed property rentals segment acquires, constructs, and leases office/warehouse buildings primarily in the Baltimore/Northern Virginia/Washington area and holds real estate for

future development or related to its developments.

The Company's transportation and real estate groups operate independently and have minimal shared overhead except for corporate expenses. Corporate expenses are allocated in fixed quarterly amounts based upon budgeted and estimated proportionate cost by segment. Unallocated corporate expenses primarily include stock compensation and corporate aircraft expenses. Reclassifications to prior period amounts have been made to be comparable to the current presentation.

Operating results and certain other financial data for the Company's business segments are as follows (in thousands):

(4) **Long-Term debt.** Long-term debt is summarized as follows (in thousands):

	June 30, <u>2011</u>	September 30, <u>2010</u>
5.6% to 8.6% mortgage notes		
due in installments through 2027	68,448	71,860
Less portion due within one year	<u>4,822</u>	<u>4,588</u>
	<u>\$ 63,626</u>	<u>67,272</u>

The Company has a \$37,000,000 uncollateralized Revolving Credit Agreement with three banks, which matures on December 13, 2013. The Revolver bears interest at a rate of 1.00% over the selected LIBOR, which may change quarterly based on the Company's ratio of Consolidated Total Debt to Consolidated Total Capital, as defined. A commitment fee of 0.15% per annum is payable quarterly on the unused portion of the commitment. The commitment fee may also change quarterly based upon the ratio described above. The Revolver contains limitations on availability and restrictive covenants including limitations on paying cash dividends. Letters of credit in the amount of \$11,262,000 were issued under the Revolver. As of June 30, 2011, \$25,738,000 was available for borrowing and \$50,270,000 of consolidated retained earnings would be available for payment of dividends. The Company was in compliance with all covenants as of June 30, 2011.

The fair values of the Company's mortgage notes payable were estimated based on current rates available to the Company for debt of the same remaining maturities. At June 30, 2011, the carrying amount and fair value of such other long-term debt was \$68,448,000 and \$70,819,000, respectively.

(5) **Transactions with Vulcan Materials Company.** The Company previously may have been considered a related party to Vulcan Materials Company (Vulcan). One director of the Company was employed by Vulcan until September 17, 2010 and is related to two other Company directors. The Company, through its transportation subsidiaries, hauls commodities by tank trucks for Vulcan. Charges for these services are based on prevailing market prices. The real estate subsidiaries lease certain construction aggregates mining and other properties to Vulcan. Revenue from Vulcan for the first nine months of fiscal 2011 was \$4,942,000 compared to \$4,446,000 for the same period last year.

A subsidiary of the Company (FRP) has a Joint Venture Agreement with Vulcan Materials Company (formerly Florida Rock Industries, Inc.), Brooksville Quarry, LLC, to develop approximately 4,300 acres of land near Brooksville, Florida. Distributions will be made on a 50-50 basis except for royalties and depletion specifically allocated to FRP. Other income for the nine months ended June 30, 2011 and June 30, 2010 includes a loss of \$16,000 and \$2,000, respectively, representing the Company's equity in the loss of the joint venture.

(6) **Earnings per share.** The following details the computations of the basic and diluted earnings per common share (dollars in thousands, except per share amounts):

	THREE MONTHS ENDED JUNE 30,		NINE MONTHS ENDED JUNE 30,	
	<u>2011</u>	<u>2010</u>	<u>2011</u>	<u>2010</u>
Weighted average common shares outstanding during the period - shares used for basic earnings per common share	9,291	9,184	9,279	9,171
Common shares issuable under share based payment plans which are potentially dilutive	<u>152</u>	<u>242</u>	<u>174</u>	<u>250</u>
Common shares used for diluted earnings per common share	<u>9,443</u>	<u>9,426</u>	<u>9,453</u>	<u>9,421</u>
Net income	\$ <u>2,379</u>	<u>2,599</u>	<u>10,457</u>	<u>5,377</u>
Earnings per common share

Diluted	\$ <u>.25</u>	<u>.28</u>	<u>1.11</u>	<u>.57</u>

For the three and nine months ended June 30, 2011, 140,370 and 132,870 shares attributable to outstanding stock options were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive. For the three and nine months ended June 30 2010, 34,570 and 37,070 shares attributable to outstanding stock options were excluded from the calculation of diluted earnings per common share because their inclusion would have been anti-dilutive.

(7) **Stock-Based Compensation Plans.** As more fully described in Note 7 to the Company's notes to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended September 30, 2010, the Company's stock-based compensation plan permits the grant of stock options, stock appreciation rights, restricted stock awards, restricted stock units, and stock awards. The number of common shares available for future issuance was 644,250 at June 30, 2011.

The Company recorded the following stock compensation expense in its consolidated statements of income (in thousands):

	Three Months ended		Nine Months ended	
	June 30,		June 30,	
	<u>2011</u>	<u>2010</u>	<u>2011</u>	<u>2010</u>

The aggregate intrinsic value of exercisable in-the-money options was \$5,223,000 and the aggregate intrinsic value of all outstanding in-the-money options was \$5,223,000 based on the market closing price of \$22.37 on June 30, 2011 less exercise prices. Gains of \$869,000 were realized by option holders during the nine months ended June 30, 2011. The realized tax benefit from options exercised for the nine months ended June 30, 2011 was \$333,000. Total compensation cost of options granted but not yet vested as of June 30, 2011 was \$777,000, which is expected to be recognized over a weighted-average period of 2.5 years.

(8) **Contingent liabilities.** Certain of the Company's subsidiaries are involved in litigation on a number of matters and are subject to certain claims which arise in the normal course of business. The Company has retained certain self-insurance risks with respect to losses for third party liability and property damage. There is a reasonable possibility that the Company's estimate of vehicle and workers' compensation liability for the transportation group or discontinued operations may be understated or overstated but the possible range can not be estimated. The liability at any point in time depends upon the relative ages and amounts of the individual open claims. In the opinion of management none of these matters are expected to have a material adverse effect on the Company's consolidated financial condition, results of operations or cash flows.

(9) **Concentrations.** The transportation segment primarily serves customers in the industries in the Southeastern U.S. Significant economic disruption or downturn in this geographic region or these industries could have an adverse effect on our financial statements.

During the first nine months of fiscal 2011, the transportation segment's ten largest customers accounted for approximately 55.4% of the transportation segment's revenue. One of these customers accounted for 20.2% of the transportation segment's revenue. The loss of any one of these customers would have an adverse effect on the Company's revenues and income. Accounts receivable from the transportation segment's ten largest customers was \$3,364,000 and \$2,797,000 at June 30, 2011 and September 30, 2010 respectively.

The Company places its cash and cash equivalents with high credit quality institutions. At times such amounts may exceed FDIC limits.

(10) **Fair Value Measurements.** Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. Level 1 means the use of quoted prices in active markets for identical assets or liabilities. Level 2 means the use of values that are derived principally from or corroborated by observable market data. Level 3 means the use of inputs that are unobservable and significant to the overall fair value measurement.

As of June 30, 2011 the Company had no assets or liabilities measured at fair value on a recurring basis and only one asset recorded at fair value on a non-recurring basis as it was deemed to be other-than-temporarily impaired. The fair value of the corporate aircraft of \$1,550,000 is based on level 2 inputs for similar assets in the current market. The first quarter of fiscal 2011 includes \$300,000 for the impairment to estimated fair value of the corporate aircraft due to indications of a decrease in value versus the previous year end. The Company's decision to discontinue its regular use requires adjustment to the current estimated value as necessary.

The fair value of note receivable (see Note 11) approximates the unpaid principal balance based upon the interest rate and credit risk of the note. The fair value of all other financial instruments with the exception of mortgage notes (see Note 4) approximates the carrying value due to the short-term nature of such instruments.

(11) **Discontinued operations.** In August 2009 the Company sold its flatbed trucking company, SunBelt Transport, Inc. ("SunBelt"). Under the agreement, the Buyer purchased all of SunBelt's tractors and trailers, leased the SunBelt terminal facilities in Jacksonville, Florida for 36 months at a rental of \$5,000 per month and leased the terminal facilities in South Pittsburgh, Tennessee for 60 months at a rental of \$5,000 per month with an option to purchase the Tennessee

facilities at the end of the lease for payment of an additional \$100,000. The South Pittsburgh lease was recorded as a sale under bargain purchase accounting. The purchase price received for the tractors and trailers and inventories was a \$1 million cash payment and the delivery of a Promissory Note requiring 60 monthly payments of \$130,000 each including interest at 7%, secured by the assets of the business conveyed. Proceeds from the sale of equipment of \$923,000 and an extra payment of \$2,055,000 were partial prepayments to the note in fiscal 2011. The Company retained all pre-closing receivables and liabilities.

SunBelt has been accounted for as discontinued operations in accordance with ASC Topic 205-20 Presentation of Financial Statements - Discontinued Operations. All periods presented have been restated accordingly.

In December 2010, a subsidiary of the Company, Florida Rock Properties, Inc., sold approximately 1,777 acres of land in Caroline County, Virginia, to the Commonwealth of Virginia, Board of Game and Inland Fisheries. The purchase price for the property was \$5,200,000, subject to certain deductions. The Company also donated the \$5,402,000 value of minerals and aggregates and recognized a \$2,053,000 permanent tax benefit. The Company's book value of the property was \$276,000.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview - Patriot Transportation Holding, Inc. (the Company) is a holding company engaged in the transportation and real estate businesses.

The Company's transportation business, Florida Rock & Tank Lines, Inc. is engaged in hauling primarily petroleum and other liquids and dry bulk commodities in tank trailers.

The Company's real estate operations consist of two reportable segments. The Mining royalty land segment owns real estate including construction aggregate royalty sites and parcels held for investment. The Developed property rentals segment acquires, constructs, and leases office/warehouse buildings primarily in the Baltimore/Northern Virginia/Washington area and holds real estate for future development or related to its developments. Substantially all of the real estate operations are conducted within the Southeastern and Mid-Atlantic United States.

Prior to the quarter ending March 31, 2010 the Company's real estate operations were aggregated and reported as a single segment. The prior filings additionally included results by division. In connection with the new presentation of our real estate operations as two reportable segments, two properties in Washington, D.C. and two properties in Duval County, Florida were reclassified out of the Royalties and rent division and the division was renamed the Mining royalty land segment. Historical results have been reclassified to conform to the new segment presentation.

On December 1, 2010, the board of directors declared a 3-for-1 stock split of the Company's common stock in the form of a stock dividend. The record date for the split was January 3, 2011 and the new shares were issued on January 17, 2011. All share and per share information presented has been adjusted to reflect this stock split.

The Company's operations are influenced by a number of external and internal factors. External factors include levels of economic and industrial activity in the United States and the Southeast, driver availability and cost, regulations regarding driver qualifications and hours of service, petroleum product usage in the Southeast which is driven in part by tourism and commercial aviation, fuel costs, construction activity, aggregates sales by lessees from the Company's mining properties, interest rates, market conditions and attendant prices for casualty insurance, demand for commercial warehouse space in the Baltimore-Washington-Northern Virginia area, and ability to obtain zoning and entitlements necessary for property development. Internal factors include revenue mix, capacity utilization, auto and workers' compensation accident frequencies and severity, other operating factors, administrative costs, group health claims

experience, and construction costs of new projects. There is a reasonable possibility that the Company's estimate of vehicle and workers' compensation liability for the transportation group or discontinued operations may be understated or overstated but the possible range can not be estimated. The liability at any point in time depends upon the relative ages and amounts of the individual open claims. Financial results of the Company for any individual quarter are not necessarily indicative of results to be expected for the year.

Discontinued Operations. In August 2009 the Company sold its flatbed trucking company, SunBelt Transport, Inc. ("SunBelt"). Under the agreement, the buyer purchased all of SunBelt's tractors and trailers, leased the SunBelt terminal facilities in Jacksonville, Florida for 36 months at a rental of \$5,000 per month and leased the terminal facilities in South Pittsburgh, Tennessee for 60 months at a rental of \$5,000 per month with an option to purchase the Tennessee facilities at the end of the lease for payment of an additional \$100,000. The South Pittsburgh lease was recorded as a sale under bargain purchase accounting. The purchase price received for the tractors and trailers and inventories was a \$1 million cash payment and the delivery of a Promissory Note requiring 60 monthly payments of \$130,000 each including interest at 7%, secured by the assets of the business conveyed. Proceeds from the sale of equipment of \$923,000 and an extra payment of \$2,055,000 were partial prepayments to the note in fiscal 2011. The Company retained all pre-closing receivables and liabilities. SunBelt has been accounted for as discontinued operations in accordance with ASC Topic 205-20 Presentation of Financial Statements - Discontinued Operations. All periods presented have been restated accordingly.

In December 2010, a subsidiary of the Company, Florida Rock Properties, Inc., sold approximately 1,777 acres of land in Caroline County, Virginia, to the Commonwealth of Virginia, Board of Game and Inland Fisheries. The purchase price for the property was \$5,200,000 and expenses of the sale were \$259,000. The Company also donated the \$5,402,000 value of minerals and aggregates and recognized a \$2,053,000 permanent tax benefit. The Company's book value of the property was \$276,000. Caroline County has been accounted for as discontinued operations in accordance with ASC Topic 205-20 Presentation of Financial Statements - Discontinued Operations. All periods presented have been restated accordingly.

Comparative Results of Operations for the Three months ended June 30, 2011 and 2010

Consolidated Results - Net income for the third quarter of fiscal 2011 was \$2,379,000 compared to \$2,599,000 for the same period last year. Diluted earnings per common share for the third quarter of fiscal 2011 were \$.25 compared to \$.28 for the same quarter last year. Transportation segment results were lower due to a \$353,000 smaller reduction to the actuarial projections of risk insurance claims and lower gains on equipment sales partially offset by increased miles.

The mining royalty land segment's results were lower due to lower tons mined at most locations mostly offset by a shift of production from land held by other lessors to land held by the Company. The Developed property rentals segment's results were higher due to higher occupancy partially offset by increased unbillable maintenance costs.

Transportation segment revenues were \$26,182,000 in the third quarter of 2011, an increase of \$3,118,000 over the same quarter last year. Revenue miles in the current quarter were up 5.4% compared to the third quarter of fiscal 2010 due to business growth and a longer average haul length. Fuel surcharge revenue increased \$1,905,000. Excluding fuel surcharges, revenue per mile increased 0.9% over the same quarter last year. The average price paid per gallon of diesel fuel increased by \$.96 or 35.4% over the same quarter in fiscal 2010.

The Transportation segment's cost of operations was \$23,738,000 in the third quarter of 2011, an increase of \$3,389,000 over the same quarter last year. The Transportation segment's cost of operations in the third quarter of 2011 as a percentage of revenue was 91% compared to 88% in the third quarter of 2010. Compensation and benefits increased \$474,000 or 5.5% compared to the same quarter last year primarily due to the increase in miles driven. Fuel surcharge revenue increased \$1,905,000 while fuel cost increased by \$1,791,000 leaving a positive impact to operating profit of \$114,000. There is a time lag between changes in fuel prices and surcharges and often fuel costs change more rapidly than the market indexes used to determine fuel surcharges, particularly when the price falls. Insurance and losses increased \$405,000 compared to the same quarter last year primarily due to a smaller reduction to the actuarial projections of risk insurance claims. Depreciation expense increased \$55,000 due to more trucks in service. Other expense increased \$567,000 due to higher vehicle repair costs, increased tire prices, increased miles driven and lower gains on equipment sales. Selling general and administrative costs

increased \$54,000 or 2.9% compared to the same quarter last year. Allocated corporate expenses increased \$43,000.

Mining royalty land segment revenues for the third quarter of fiscal 2011 were \$1,180,000, a decrease of \$67,000 or 5.4% over the same quarter last year, due to lower tons mined at most locations mostly offset by a shift of production from land held by other lessors to land held by the Company.

The mining royalty land segment's cost of operations was \$334,000 in the third quarter of 2011, a decrease of \$34,000 over the same quarter last year due to reduced maintenance and professional fees.

Developed property rentals segment revenues for the third quarter of fiscal 2011 were \$4,585,000, an increase of \$538,000 or 13.3% due to higher occupancy.

Developed property segment's cost of operations was \$3,267,000 in the third quarter of 2011, an increase of \$245,000 or 8.1% over the same quarter last year. Property operating expenses increased \$213,000 due to higher occupancy and increased unbillable maintenance costs. Depreciation and amortization increased \$43,000 due to the purchase of

a building. Management Company indirect expenses (excluding internal allocations for lease related property management fees) decreased \$28,000. Allocated corporate expenses increased \$17,000.

Consolidated Results

Operating Profit - Consolidated operating profit was \$4,441,000 in the third quarter of fiscal 2011, a decrease of \$40,000 or 0.9% compared to \$4,481,000 in the same period last year. Operating profit in the transportation segment decreased \$271,000 or 10.0% primarily due to a \$353,000 smaller reduction to the actuarial projections of risk insurance claims and lower gains on equipment sales partially offset by increased miles. Operating profit in the mining royalty land segment decreased \$33,000 or 3.8% due to lower tons mined at most locations mostly offset by a shift of production from land held by other lessors to land held by the Company. Operating profit in the Developed property rentals segment increased \$293,000 or 28.6% due to higher occupancy partially offset by increased unbillable maintenance costs. Consolidated operating profit includes corporate expenses not allocated to any segment in the amount of \$167,000 in the third quarter of fiscal 2011, an increase of \$29,000 compared to the same period last year.

Interest expense - Interest expense decreased \$177,000 over the same quarter last year due to declining mortgage interest expense and higher capitalized interest.

Income taxes - Income tax expense increased \$228,000 over the same quarter last year of which \$34,000 was due to higher earnings and the balance due to smaller amounts of tax credits funded by legislative action related to fiscal 2008 and 2009 expenditures and a smaller reduction in uncertain tax positions related to the expiration of statutes of limitation than the same items in the prior year.

Income from continuing operations - Income from continuing operations was \$2,359,000 or \$.25 per diluted share in the third quarter of fiscal 2011, a decrease of 5.6% compared to \$2,500,000 or \$.27 per diluted share for the same period last year. The \$141,000 decrease was primarily due to the \$40,000 decrease in operating profits and \$177,000 reduction in interest expense offset by higher income taxes.

Discontinued operations - The after tax income from discontinued operations for the third quarter of fiscal 2011 was \$20,000 versus \$99,000 for the same period last year. Diluted earnings per share on discontinued operations for the third quarter of fiscal 2011 was \$.00 compared to \$.01 in the third quarter of fiscal 2010. Results in both periods were due to lower than expected retained liabilities and losses from prior year operations.

Net income - Net income for the third quarter of fiscal 2011 was \$2,379,000 compared to \$2,599,000 for the same period last year.

Diluted earnings per common share for the third quarter of fiscal 2011 were \$.25 compared to \$.28 for the same quarter last year. Transportation segment results were lower due to a \$353,000 smaller reduction to the actuarial projections of risk insurance claims and lower gains on equipment sales partially offset by increased miles. The mining royalty land segment's results were lower due to lower tons mined at most locations mostly offset by a shift of production from land held by other lessors to land held by the Company. The Developed property rentals segment's results were higher due to higher occupancy partially offset by increased unbillable maintenance costs.

Comparative Results of Operations for the Nine months ended June 30, 2011 and 2010

Consolidated Results - Net income for the first nine months of fiscal 2011 was \$10,457,000 compared to \$5,377,000 for the same period last year. Diluted earnings per common share for the first nine months of fiscal 2011 were \$1.11 compared to \$.57 in the first nine months of fiscal 2010. Income from discontinued operations favorably impacted net income due to an after tax gain of \$4,926,000 from the exchange of property included in the first nine months of fiscal 2011. Transportation segment results were higher due to reduced health benefit claims. The mining royalty land segment's results were slightly lower due to a shift of tons sold in northern Georgia to a quarry with a lower royalty. The Developed property rentals segment's results were higher due to higher occupancy offset by increased professional fees, maintenance costs, property taxes, and depreciation.

Developed property rentals segment revenues for the first nine months of fiscal 2011 were \$13,398,000, an increase of \$76,000 or 0.6% due to higher occupancy partially offset by reduced tenant reimbursements for snow removal.

Developed property segment's cost of operations was \$9,912,000 in the first nine months of 2011, an increase of \$38,000 or 0.4% over the same period last year. Property operating expenses decreased \$48,000 due to a \$505,000 reduction in snow removal costs offset by higher professional fees, unbillable maintenance costs, property taxes and utilities. Depreciation and amortization increased \$112,000 due to the purchase of a building. Management Company indirect expenses (excluding internal allocations for lease related property management fees) decreased \$75,000. Allocated corporate expenses increased \$49,000.

Consolidated Results

Operating Profit - Consolidated operating profit was \$10,813,000 in the first nine months of fiscal 2011, an increase of \$223,000 or 2.1% compared to \$10,590,000 in the same period last year. Operating profit in the transportation segment increased \$351,000 or 5.8% primarily due to lower health benefit claims. Operating profit in the mining royalty land segment decreased \$35,000. Operating profit in the Developed property rentals segment increased \$38,000 or 1.1% due to higher occupancy offset by increased professional fees, maintenance costs, property taxes, and depreciation. Consolidated operating profit includes corporate expenses not allocated to any segment in the amount of \$1,275,000 in the first nine months of fiscal 2011, an increase of \$131,000 compared to the same period last year due to adjustment to the fair value of the corporate aircraft of \$300,000 partially offset by lower stock compensation and professional fees.

Interest expense - Interest expense decreased \$455,000 over the same period last year due to declining mortgage interest expense and higher capitalized interest.

Income taxes - Income tax expense increased \$423,000 over the same period last year of which \$229,000 was due to higher earnings and the balance due to smaller amounts of tax credits funded by legislative action related to fiscal 2008 and 2009 expenditures and a smaller reduction in uncertain tax positions related to the expiration of statutes of limitation than the same items in the prior year.

Income from continuing operations - Income from continuing operations was \$5,332,000 or \$.56 per diluted share in the first nine months of fiscal 2011, an increase of 3.3% compared to \$5,160,000 or \$.55 per diluted share for the same period last year. The \$172,000 increase was primarily due to the \$223,000 increase in operating profits and \$455,000 reduction in interest expense offset by higher income taxes.

Discontinued operations - The after tax income from discontinued operations for the first nine months of fiscal 2011 was \$5,125,000 versus \$217,000 for the same period last year. Diluted earnings per share on discontinued operations for the first nine months of fiscal 2011 was \$.55 compared to \$.02 in the first nine months of fiscal 2010. The first nine months of 2011 included a book gain on the exchange of property of \$4,926,000 after tax or \$.52 per diluted share.

Net income - Net income for the first nine months of fiscal 2011 was \$10,457,000 compared to \$5,377,000 for the same period last year. Diluted earnings per common share for the first nine months of fiscal 2011 were \$1.11 compared to \$.57 in the first nine months of fiscal 2010. Income from discontinued operations favorably impacted net income due to an after tax gain of \$4,926,000 from the exchange of property included in the first nine months of fiscal 2011. Transportation segment results were higher due to reduced health benefit claims. The mining royalty land segment's results were slightly lower due to a shift of tons sold in northern Georgia to a quarry with a lower royalty. The Developed property rentals segment's results were higher due to higher occupancy offset by increased professional fees, maintenance costs, property taxes, and depreciation.

Liquidity and Capital Resources. For the first nine months of fiscal 2011, the Company used cash provided by operating activities of continuing operations of \$18,574,000, proceeds received on notes of \$3,947,000, proceeds from the sale of plant, property and equipment of \$528,000, proceeds from the exercise of employee stock options of \$538,000, excess tax benefits from the exercise of stock options of \$323,000 and cash balances to purchase \$4,660,000 in transportation equipment, to purchase Hollander 95 Business Park for \$1,222,000 (net of 1031 exchange of \$4,941,000), to expend \$7,143,000 in real estate development, to invest \$114,000 in the Brooksville Joint Venture, to make \$3,412,000 scheduled payments on long-term debt and to repurchase Company stock for \$1,145,000. Cash used in the operating activities of discontinued operations was \$605,000. Cash increased \$5,609,000.

In August 2009 the Company sold its flatbed trucking company, SunBelt Transport, Inc. ("SunBelt"). The purchase price received for the tractors and trailers and inventories was a \$1 million cash payment and the delivery of a Promissory Note requiring 60 monthly payments of \$130,000 each including 7% interest, secured by the assets of the business conveyed. Proceeds from the sale of equipment of \$923,000 and an extra payment of \$2,055,000 were partial prepayments to the note in fiscal 2011. The Company retained all pre-closing receivables and liabilities. SunBelt has been accounted for as discontinued operations. All periods presented have been restated accordingly.

In December 2010, a subsidiary of the Company, Florida Rock Properties, Inc., sold approximately 1,777 acres of land in Caroline County, Virginia, to the Commonwealth of Virginia, Board of Game and Inland Fisheries. The purchase price for the property was \$5,200,000 and expenses of the sale were \$259,000. The Company also donated the \$5,402,000 value of minerals and aggregates and recognized a \$2,053,000 permanent tax benefit. The \$2,053,000 permanent tax benefit was recorded to income taxes receivable for \$342,000 and offset to long-term deferred tax liabilities of \$1,711,000. Actual realization of the \$1,711,000 in deferred taxes will depend on taxable income, income tax rates, and income tax regulations over the 5 year carry forward period. The Company's book value of the property was \$276,000. The Caroline County property has been accounted for as a discontinued operation and all periods presented have been restated accordingly. The Company used all the proceeds in a 1031 exchange to purchase Hollander 95 Business Park in a foreclosure sale auction through a qualified intermediary. Hollander 95 Business Park, in Baltimore City, Maryland, closed on October 22, 2010 by a 1031 intermediary for a purchase price totaling \$5,750,000. This property consists of an existing 82,800 square foot warehouse building (46.9% occupied) with an additional 42 acres of partially developed land with a development capacity of 490,000 square feet (a mix of warehouse, office, hotel and flex buildings).

Cash flows from operating activities for the first nine months of fiscal 2011 were \$6,796,000 higher than the same period last year primarily due to large income tax payments last year related to the sale of SunBelt and lower insurance payments.

Cash flows used in investing activities for the first nine months of fiscal 2011 were \$592,000 higher primarily reflecting the purchase of Hollander 95 Business Park (net of 1031 exchange of \$4,941,000) offset by proceeds on notes receivable related to the sale of SunBelt and lower purchases of transportation equipment.

Cash flows used in financing activities for the first nine months of fiscal 2011 were \$760,000 higher than the same period last year due to repurchases of Company stock for \$1,145,000 partially offset by increased stock options exercised.

The Company has a \$37,000,000 uncollateralized Revolving Credit Agreement with three banks, which matures on December 13, 2013. The Revolver contains limitations on availability and restrictive covenants including limitations on paying cash dividends. Letters of credit in the amount of \$11,262,000 were issued under the Revolver. As of June 30, 2011, \$25,738,000 was available for borrowing and \$50,270,000 of consolidated retained earnings would be available for payment of dividends. The Company was in compliance with all covenants as of June 30, 2011.

The Company had \$11,262,000 of irrevocable letters of credit outstanding as of June 30, 2011. Most of the letters of credit are irrevocable for a period of one year and are automatically extended for additional one-year periods until notice of non-renewal is received from the issuing bank not less than thirty days before the expiration date. These were issued for insurance retentions and to guarantee certain obligations to state agencies related to real estate development. The Company issued replacement letters of credit through the Revolver to reduce fees.

The Board of Directors has authorized Management to repurchase shares of the Company's common stock from time to time as opportunities arise. During the first nine months of fiscal 2011 the Company repurchased 42,000 shares for \$1,145,000. As of June 30, 2011, \$4,480,000 was authorized for future repurchases of common stock. The Company does not currently pay any cash dividends on common stock.

The Company has committed to make additional capital contributions of up to \$41,000 over the next 12 months to Brooksville Quarry, LLC in connection with a joint venture with Vulcan.

While the Company is affected by environmental regulations, such regulations are not expected to have a major effect on the Company's capital expenditures or operating results.

Summary and Outlook. Transportation segment miles for this year were 4.7% higher than last year. The Company continues to succeed in replacing customers from the non-renewed contracts announced January 6, 2010 and has basically recovered from new customers substantially all the lost revenue miles, albeit at lower rates per mile for longer average hauls.

Operating profit from the leasing of developed buildings has been unfavorably impacted by three newer buildings brought into service since September 2008 along with two nearly vacant buildings in Delaware impacted by automobile plant closings and the residential housing downturn. Occupancy has increased from 72.0% to 82.2% (including 104,226 square feet or 3.6% for temporary storage under a less than full market lease rate) over last fiscal year end as the market for new tenants appears to have improved and traffic for vacant space has increased. The Company is not presently engaged in the construction of any new buildings.

In July 2008, a subsidiary of the Company, FRP Bird River, LLC, entered into an agreement to sell approximately 121 acres of land in Baltimore County, Maryland to Mackenzie Investment Group, LLC. The purchase price for the property is \$25,075,000, subject to certain potential purchase price adjustments. The agreement of sale is subject to certain contingencies including additional government approvals and closing is scheduled to occur in the first quarter of calendar 2012. The cost of the property of \$5,808,000 was transferred from Real estate held for investment to Real estate held for sale as of March 31, 2011 because of the expectation that the sale will be completed within one year. The Company may choose to have any proceeds from the sale placed into escrow in anticipation of utilizing the funds to purchase replacement property under IRC Section 1031. The purchaser has placed non-refundable deposits of \$1,000,000 under this contract in escrow including \$650,000 in March 2009. Preliminary approval for the development as originally contemplated under the agreement's pricing contingencies has now been received and the time for any appeals from that approval has expired.

On October 4, 2006, a subsidiary of the Company (FRP) entered into a Joint Venture Agreement with Vulcan Materials Company (formerly Florida Rock Industries, Inc.) to form Brooksville Quarry, LLC, a real estate joint venture to develop approximately 4,300 acres of land near Brooksville, Florida (the "Project"). In April 2011, the Florida Department of Community Affairs issued its Final Order approving the development of the Project. Prior to commencing development of the Project the property will need to be rezoned consistent with the approved entitlements.

In May 2008, the Company received approval from the Zoning Commission of the District of Columbia of its planned unit development application for the Company's 5.8 acre undeveloped waterfront site on the Anacostia River in Washington, D.C. This site is located adjacent to the recently opened Washington Nationals Baseball Park. The site currently is leased to Vulcan Materials Company on a month-to-month basis. The approved planned unit development permits the Company to develop a four building, mixed use project, containing approximately 545,800 square feet of office and retail space and approximately 569,600 square feet of additional space for residential and hotel uses. The approved development would include numerous publicly accessible open spaces and a waterfront esplanade along the Anacostia River. In November 2009, the Company received a two-year extension for commencement of this project, moving the construction commencement date to June 2013. The Company sought this extension because of negative current market indications.

In July 2011 the Company executed a Letter of Intent with MidAtlantic Realty Partners, LLC. ("MRP") for the formation of a Joint Venture to develop the first phase of the four-phase Master Development known as RiverFront on the Anacostia in Washington, D.C. adjacent to the Washington Nationals baseball stadium. Under the terms of the Letter of Intent the parties have agreed to seek a modification from the

District of Columbia authorities to the existing approved plan for the Master Development to change phase I from an office building to residential apartments. The Letter of Intent contemplates the parties will enter into a formal joint venture agreement wherein the Company will contribute the land comprising phase I to the joint venture in return for a seventy percent (70%) interest in the venture. MRP will contribute capital in the amount necessary for the venture to qualify for a nonrecourse loan for the balance of the estimated construction costs (this MRP contribution is currently estimated to be in the approximate amount of \$4,500,000). At this point the Letter of Intent contemplates commencement of construction in the spring of 2013 with lease up scheduled between September of 2014 and July of 2015. The Letter of Intent further contemplates additional incentive promotional returns to MRP but only after FRP and MRP have received a stipulated cumulative return on their contributed capital. The Letter of Intent contemplates no commitments or obligations between the parties with respect to Phases II, III and IV of the Master Development Plan.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

The Company is exposed to market risk from changes in interest rates. For its cash and cash equivalents, a change in interest rates affects the amount of interest income that can be earned. For its debt instruments with variable interest rates, changes in interest rates affect the amount of interest expense incurred. The Company prepared a sensitivity analysis of its cash and cash equivalents to determine the impact of hypothetical changes in interest rates on the Company's results of operations and cash flows. The interest-rate analysis assumed a 50 basis point adverse change in interest rates on all cash and cash equivalents. However, the interest-rate analysis did not consider the effects of the reduced level of economic activity that could exist in such an environment. Based on this analysis, management has concluded that a 50 basis point adverse move in interest rates on the Company's cash and cash equivalents would have an immaterial impact on the Company's results of operations and cash flows.

ITEM 4. CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Company's Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO"), and Chief Accounting Officer ("CAO"), as appropriate, to allow timely decisions regarding required disclosure.

The Company also maintains a system of internal accounting controls over financial reporting that are designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements.

All control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance of achieving the desired control objectives.

As of June 30, 2011, the Company, under the supervision and with the participation of the Company's management, including the CEO, CFO and CAO, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on this evaluation, the Company's CEO, CFO and CAO concluded that the Company's disclosure controls and procedures are effective in alerting them in a timely manner to material information required to be included in periodic SEC filings.

There have been no changes in the Company's internal controls over financial reporting during the first nine months that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended September 30, 2010, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
