UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

[X] QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended September 30, 2009

OR

[] TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ______ to _____

Commission File Number: 000-17573

REDWOOD MORTGAGE INVESTORS VII, a California Limited Partnership

(Exact name of registrant as specified in its charter)

California

(State or other jurisdiction of incorporation or organization)

94-3094928 (I.R.S. Employer Identification No.)

900 Veterans Blvd., Suite 500, Redwood City, CA (Address of principal executive offices) 94063-1743 (Zip Code)

(650) 365-5341

(Registrant's telephone number, including area code)

NOT APPLICABLE

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes XX No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

(Check one):

Large accelerated filer	[]	Accelerated filer	[]
Non-accelerated filer	[]	Smaller reporting company	[X]
(Do not check if a smaller reporting	company)		

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes _____ No ____XX____

The accompanying notes are an integral part of these financial statements.

NOTE 1 – GENERAL

In the opinion of the management of the partnership, the accompanying unaudited financial statements contain all adjustments, consisting of normal, recurring adjustments, necessary to present fairly the financial information included therein. These financial statements should be read in conjunction with the audited financial statements included in the partnership's Form 10-K for the fiscal year ended December 31, 2008 filed with the Securities and Exchange Commission. The results of operations for the nine month period ended September 30, 2009 are not necessarily indicative of the operating results to be expected for the full year.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents

The partnership places its cash and temporary cash investments with high credit quality institutions. Periodically, such investments may be in excess of federally insured limits.

Loans secured by deeds of trust

The partnership generally funds loans with a fixed interest rate and a five year term. Approximately half of all loans outstanding provide for monthly payments of interest, with the principal due in full at maturity. The other loans require monthly payments of principal and interest, typically calculated on a 30 year amortization, with the remaining principal balance due at maturity.

Loans generally are stated at their outstanding unpaid principal balance with interest thereon being accrued as earned.

If the probable ultimate recovery of the carrying amount of a loan, with due consideration for the fair value of collateral, is less than amounts due according to the contractual terms of the loan agreement, and the shortfall in the amounts due is significant, the carrying amount of the loan is reduced to the present value of future cash flows discounted at the loan's effective interest rate. If a loan is collateral dependent, it is valued at the estimated fair value of the related collateral.

At September 30, 2009 and December 31, 2008, the partnership had five and four loans respectively, past maturity or more than 90 days past due in interest payments or principal, with aggregate principal balances of \$1,458,168 and \$691,864, respectively. In addition, accrued interest, late charges and advances totaled \$111,415 and \$37,031, respectively. At September 30, 2009, four loans with an aggregate principal balance of \$1,243,177 with filed notices of default, were included in the more than 90 days past due totals. At December 31, 2008, there were two loans totaling \$323,865 with a filed notice of default.

From time to time, the partnership negotiates and enters into contractual workout agreements with borrowers. Under the terms of these workout agreements, the partnership is not obligated to make any additional monetary advances for the maintenance or repair of the collateral securing the loans. As of September 30, 2009 and December 31, 2008, there were four and one loans, respectively, in workout agreements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Loans secured by deeds of trust (continued)

If events or changes in circumstances cause management to have serious doubts about the collectibility of the contractual payments, a loan may be categorized as impaired and interest is no longer accrued for financial reporting purposes. Any subsequent payments on impaired loans are applied to reduce the outstanding loan balances, including accrued interest and advances. When loans are considered impaired the allowance for loan loss is updated to reflect the change in the valuation of collateral security. The tables below summarize the impaired loans and their activity for the periods ended September 30, 2009 and 2008:

	As of September 30,								
	Number		Total		Total		Impaired		
	of		Impaired		Investment		Loans		
	Impaired		Loan		Impaired		Loss		
	Loans		Balance		Loans		Reserve		
2009	1	\$	153,000	\$	158,546	\$	37,515		
2008	—	\$		\$	—	\$			

	 For the thre	e mo	nths ended Sep	otemb	ber 30,	 For the Nin	ne months ended September 30,			
	 Average				Interest	 Average				Interest
	Investment		Interest	Income		Investment		Interest		Income
	Impaired		Income	Received		Impaired		Income		Received
	 Loans		Accrued		In Cash	 Loans		Accrued		In Cash
2009	\$ 159,335	\$		\$	1,960	\$ 160,044	\$		\$	2,710
2008	\$ _	\$	_	\$		\$ 	\$		\$	

Loans unsecured by deeds of trust

The partnership had four and three unsecured loans, net of a discount, totaling \$237,463 and \$275,181 at September 30, 2009 and December 31, 2008, respectively. Interest is not being accrued as these loans are considered impaired; however, monthly payments are being received on each loan.

Allowance for loan losses

Loans and the related accrued interest, late fees and advances are analyzed on a periodic basis for recoverability. Delinquencies are identified and followed as part of the loan system. Delinquencies are determined in accordance with contractual terms of the loan agreements. The allowance is adjusted to an amount considered by management to be adequate, with due consideration to collateral values, to loans and receivables, including impaired loans, other loans, accrued interest, late fees and advances on loans and other accounts receivable (unsecured). The partnership charges off uncollectible loan principal and related receivables directly to the allowance account if it is determined the full amount is not collectible. For loans that proceed to foreclosure sale, or if the borrower surrenders the collateral to the partnership in full or partial settlement of the loan obligation, the allowance is charged for the amount, if any, by which the recorded balance of the loan and related receivables exceeds the amount at which the real estate owned is valued.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Allowance for loan losses (continued)

The composition of the allowance for loan losses and the percentage of unpaid principal balance for each property type, as of September 30, 2009 and December 31, 2008 were as follows:

		September 30, 2009			December 31, 2008			
	1	Amount	Percent		Amount	Percent		
Balance at end of period applicable to:								
Secured loans								
Single family	\$	102,962	62%	\$	90,876	59%		
Apartments		735	2		10,744	2		
Commercial		25,857	26		30,792	28		
Land		21,974	10		29,253	11		
Total	\$	151,528	100%	\$	161,665	100%		
Unsecured loans	\$	96,196	100%	\$	75,228	100%		
Allowance for loan losses	\$	247,724	100%	\$	236,893	100%		

Activity in the allowance for loan losses for the nine months ended September 30, 2009 and 2008 was as follows:

	2009			2008
Balance at beginning of year	\$	236,893	\$	386,658

Ratio of net charge-offs during the period to average secured loans outstanding during the period		0.07%		0.00%

<u>NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

Real estate owned

Real estate owned (REO) includes real property acquired by bid at foreclosure sales associated with the partnership's loans or through negotiation with borrowers in settlement of their loan(s), and in the judgment of management is not being held for investment. REO is stated at the lower of the recorded investment in the loan, plus any senior indebtedness, or at the property's estimated net realizable value (fair value, less estimated costs to sell). Costs relating to the development and improvement of real estate owned are capitalized, whereas costs relating to holding the property are expensed.

Real estate held for investment

The partnership periodically compares the net carrying value of real estate held for investment to expected future undiscounted cash flows for the purpose of assessing the recoverability of the recorded amounts. If the net carrying value exceeds future undiscounted cash flows, the assets are reduced to fair value.

Income taxes

No provision for federal and state income taxes (other than an \$800 state minimum tax) is made in the financial statements since income taxes are the obligation of the limited partners if and when income taxes apply.

Net income per \$1,000 invested

Amounts reflected in the statements of operations as net income per \$1,000 invested by limited partners for the entire period are amounts allocated to limited partners who held their investment throughout the period and have elected to either leave their earnings to compound or have elected to receive periodic distributions of their net income. Individual income is allocated each month based on the limited partners' pro rata share of partners' capital. Because the net income percentage varies from month to month, amounts per \$1,000 will vary for those individuals who made or withdrew investments during the period, or select other options.

Management estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions about the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities, at the dates of the financial statements and the reported amounts of revenues and expenses during the reported periods. Such estimates relate principally to the determination of the allowance for loan losses, including the valuation of impaired loans and the valuation of real estate held. Actual results could differ significantly from these estimates.

Reclassifications

Certain reclassifications, not affecting previously reported net income or total partners' capital, may have been made to the previously issued financial statements to conform to the current year classification.

<u>NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (continued)

Late fee revenue

Late fees are generally charged at 6% of the monthly installment payment past due.

Profits and losses

Profits and losses are allocated among the limited partners according to their respective capital accounts monthly after 1% of the profits and losses are allocated to the general partners.

Subsequent events

The partnership has evaluated subsequent events through November 16, 2009, the date of issuance of the financial statements.

Recently issued accounting pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) approved the FASB Accounting Standards Codification (Codification) as the single source of authoritative nongovernmental U.S. generally accepted accounting principles (GAAP). The Codification was issued on July 1, 2009 and will be effective for interim and annual periods ending after September 15, 2009. Upon the Codification issuance only one level of authoritative GAAP exists, other than guidance issued by the Securities and Exchange Commission. All other accounting literature excluded from the Codification is considered non-authoritative. All references to GAAP will now use the new Codification (ASC) numbering system. The Codification did not have a material impact on the company's accounting polices.

In October 2008, the FASB issued FSP FAS 157-3, *Determining the Fair Value of a Financial Asset When the Market for that Asset is Not Active*, with an immediate effective date. The purpose of this release was to provide further clarification regarding Level 3 inputs and the assumptions management may make when the market for the asset is not active. In April 2009, the FASB issued FSP FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*, with an effective date for interim and annual reporting periods ending after June 15, 2009, with early adoption being permitted. The purpose of this release was to provide additional guidance for estimating fair value in accordance with SFAS 157, when the volume and level of activity for the asset or liability have significantly decreased. This release also includes guidance on identifying circumstances that indicate a transaction is not orderly. The adoption of these releases did not have a material impact on the partnership's financial condition and results of operation. These releases, along with SFAS 157, FSP 157-1 and FSP 157-2 are now included in ASC 820.

In April 2009, the FASB issued FSP FAS 107-1 (ASC 825) and APB 28-1 (ASC 825), *Interim Disclosure about Fair Value of Financial Instruments*, with an effective date for interim and annual reporting periods ending after June 15, 2009, with early adoption being permitted if one also early adopts FSP FAS 157-4. The purpose of this release is to require disclosure about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements and to require those disclosures in summarized financial information at interim reporting periods. The adoption of this release did not have a material impact on the partnership's disclosures.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

<u>Recently issued accounting pronouncements</u> (continued)

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events* (ASC 855). This standard establishes general standards of accounting for and disclosure of events occurring after the balance sheet date but before financial statements are issued or available to be issued. This statement is effective for reporting periods beginning after June 15, 2009 and did not have a material impact on the partnership's accounting or disclosures.

NOTE 3 – GENERAL PARTNERS AND RELATED PARTIES

The following are commissions and fees that are paid to the general partners and affiliates.

Mortgage brokerage commissions

For fees in connection with the review, selection, evaluation, negotiation and extension of loans, Redwood Mortgage Corp., an affiliate of the general partners, may collect an amount equivalent to 12% of the loaned amount until 6 months after the termination date of the offering. Thereafter, loan brokerage commissions (points) will be limited to an amount not to exceed 4% of the total partnership assets per year. The loan brokerage commissions are paid by the borrowers, and thus, are not an expense of the partnership.

Mortgage servicing fees

Redwood Mortgage Corp., an affiliate of the general partners, receives monthly mortgage servicing fees of up to 1/8 of 1% (1.5% annual) of the unpaid principal balance of the loan portfolio, or such lesser amount as is reasonable and customary in the geographic area where the property securing the mortgage is located. Historically, Redwood Mortgage Corp. has charged 1.0% annually, and on occasion has waived additional amounts to enhance the partnership's earnings. Redwood Mortgage Corp. does not use any specific criteria in determining the exact amount of fees to be waived. Once a loan is categorized as impaired, mortgage servicing fees are no longer accrued. Additional servicing fees are recorded upon the receipt of any subsequent payments on impaired loans. The table below summarizes the mortgage servicing fees paid to Redwood Mortgage Corp. for the three and nine month periods ended September 30, 2009 and 2008.

	Three months ended September 30,			Nine mont Septeml		ed
	 2009 2008		2009	2008		
Maximum chargeable	\$ 20,393	\$	23,224	\$ 63,170	\$	69,372
Waived	(6,798)		(23,224)	(21,058)		(69,372)
Net charged	\$ 13,595	\$		\$ 42,112	\$	

<u>NOTE 3 – GENERAL PARTNERS AND RELATED PARTIES</u> (continued)

Asset management fee

The general partners receive monthly fees for managing the partnership's loan portfolio and operations of up to 1/32 of 1% of the "*net asset value*" (3/8 of 1% annually). At times, to enhance the earnings to the partnership, the general partners have charged less than the maximum allowable rate. The general partners do not use any specific criteria in determining the exact amount of fees to be waived. The table below summarizes the asset management fees paid to the general partners for the three and nine month periods ended September 30, 2009 and 2008.

	Three months ended			Nine mont	hs end	ed
	 September 30,			 Septemb	ber 30,	
	 2009 2008		 2009	2008		
Maximum chargeable	\$ 8,536	\$	8,654	\$ 25,759	\$	26,035
Waived	 (5,691)		(8,654)	 (17, 173)	_	(26,035)
Net charged	\$ 2,845	\$		\$ 8,586	\$	

Other fees

The partnership agreement provides for other fees such as reconveyance, mortgage assumption and mortgage extension fees. These fees are incurred by the borrowers and paid to the general partners or their affiliates.

Operating expenses

The general partners or their affiliate, Redwood Mortgage Corp., are reimbursed by the partnership for all operating expenses incurred by them on behalf of the partnership, including without limitation, out-of-pocket general and administration expenses of the partnership, accounting and audit fees, legal fees and expenses, postage and preparation of reports to limited partners.

NOTE 4 – REAL ESTATE OWNED

Management periodically reviews the status of REO properties to evaluate among other things, their value, marketability, potential for price appreciation, and periodically their asset classification. Properties are purchased or acquired through bids at foreclosure sales associated with the partnership's loans, through negotiation with borrowers in full or partial settlement of their loan obligations. Several factors are considered by management in determining the sale and/or investment strategy and the proper classification of owned properties as "real estate owned - held", "real estate owned - held for sale" or "real estate held for investment". These factors include, but are not limited to, real estate market conditions, status of any required permits, repair, improvement or development work to be completed, rental and lease income and the cash (and financing) available to and needed by the partnership. Real estate owned is classified as held for sale in the period in which the GAAP prescribed criteria are met. Real estate owned is re-classified to real estate held for investment when management determines to operate the property to maximize current income, thereby optimizing its value, ultimately leading to the best price at sale. As a property's status changes, reclassifications may occur.

<u>NOTE 4 – REAL ESTATE OWNED</u> (continued)

The following schedule for real estate held reflects the recorded values of the properties at acquisition, net of any subsequent adjustments to estimated net realizable values (fair value less estimated costs to sell) as of September 30, 2009 and December 31, 2008:

	Se	ptember 30,	De	cember 31,
Real Estate Held		2009	2008	
Land	\$	1,518,370	\$	1,308,681
Commercial				633,386
Total real estate held	\$	1,518,370	\$	1,942,067

In March 2009, the partnership acquired a parcel of land through foreclosure. The partnership's investment at the time of acquisition was \$212,603. Upon completion of the acquisition, the partnership's secured loans declined by \$212,435 and advances declined by \$168.

In 2008, the partnership acquired through foreclosure, a commercial-agricultural property encumbered by a first deed of trust (see Note 6). After several failed attempts to reach an agreement with the holder of the senior mortgage, considering the length of time and expense to hold the property until sale, management decided to allow the property to revert back to the senior lender, resulting in an impairment loss of \$124,756.

In 2004, the partnership acquired land through a deed in lieu of foreclosure. One of the parcels comprising the property was sold during 2006.

NOTE 5 – INVESTMENT IN LIMITED LIABILITY COMPANY

In 2005, the partnership acquired through foreclosure a multi-unit property located in an upscale neighborhood in San Francisco. At the time the partnership took ownership of the property, the partnership's investment totaled \$836,702 including accrued interest and advances. This property is jointly owned with three other affiliated partnerships. Upon acquisition the partnership transferred its interest (principally land and building) to Larkin Property Company, LLC ("Larkin"). The partnership owns 8% of the interests in Larkin and 92% is owned by three other affiliates of the partnership. The property has not been leased or occupied since its acquisition in 2005 and has not generated any revenues. The partnership and the other affiliated owners have made and are continuing to make additional improvements to the property in preparation for the planned sale of the property. As of September 30, 2009, the partnership has capitalized \$359,097 in costs, net of recovery in 2006 from the guarantors of the original loan, related to this property. At September 30, 2009, the partnership's investment in Larkin totaled \$1,195,799.

NOTE 6 – MORTGAGE PAYABLE

In 2008, the partnership obtained through foreclosure a property subject to an interest only first lien of \$500,000 with a 7.20% interest rate and a maturity date of April 1, 2011. In the third quarter of 2009, the partnership was released from its obligations under this mortgage by allowing the property to be foreclosed upon.

NOTE 7 – FAIR VALUE

GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The partnership determines the fair values of its assets and liabilities based on the fair value hierarchy established in GAAP. The standard describes three levels of inputs that may be used to measure fair value (Level 1, Level 2 and Level 3). Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the partnership has the ability to access at the measurement date. An active market is a market in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Level 2 inputs are inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs reflect the partnership's own assumptions about the assumptions market participants would use in pricing the asset or liability (including assumptions about risk). Unobservable inputs are developed based on the best information available in the circumstances and may include the partnership's own data.

The partnership does not record loans at fair value on a recurring basis.

The following table reflects assets and liabilities measured at fair value on a non-recurring basis as of September 30, 2009:

		Fair Value Measurement at Report Date Using							
	Quote	d Prices	Sig						
	in A	in Active		Other		ignificant		Total	
	Mark	Markets for		Observable		observable	as of		
	Identica	al Assets	Inputs			Inputs	September 30,		
Item	(Lev	/el 1)	(Level 2)		((Level 3)		2009	
Impaired secured loans	\$		\$	—	\$	121,031	\$	121,031	
Unsecured loans	\$		\$	—	\$	141,267	\$	141,267	
Real estate owned	\$	—	\$		\$	1,518,370	\$	1,518,370	

The following methods and assumptions were used to estimate the fair value:

- (a) Cash and cash equivalents The carrying amount equals fair value. All amounts, including interest bearing, are subject to immediate withdrawal.
- (b) Secured loans. The fair value of the non-impaired loans of \$5,446,385 and \$6,393,000 at September 30, 2009 and December 31, 2008, respectively, was estimated based upon projected cash flows discounted at the estimated current interest rates at which similar loans would be made. The applicable amount of the allowance for loan losses along with accrued interest and advances related thereto should also be considered in evaluating the fair value versus the carrying value. For loans in which a specific allowance is established based on the fair value of the collateral, the partnership records the loan as nonrecurring Level 2 if the fair value of the collateral is based on an observable market price or a current appraised value. If an appraised value is not available or the fair value of the collateral is considered impaired below the appraised value and there is no observable market price, the partnership records the loan as nonrecurring Level 3.

NOTE 7 – FAIR VALUE (continued)

- (c) Unsecured loans. The carrying amount equals fair value. Unsecured loans are valued at their principal less any discount or loss reserves established by management after taking into account the borrower's creditworthiness and ability to repay the loan.
- (d) Real estate owned. At the time of foreclosure, real estate owned is recorded at the lower of the recorded investment in the loan, plus any senior indebtedness, or at the property's estimated fair value, less estimated costs to sell, as applicable. The partnership periodically compares the carrying value of real estate to expected undiscounted future cash flows for the purpose of assessing the recoverability of the recorded amounts. If the carrying value exceeds future undiscounted cash flows, the assets are reduced to estimated fair value.

NOTE 8 – ASSET CONCENTRATIONS AND CHARACTERISTICS

At September 30, 2009 and December 31, 2008, the loans secured by recorded deeds of trust had the following characteristics:

	Se	ptember 30, 2009	December 31, 2008		
Number of secured loans outstanding		25		29	
Total secured loans outstanding	\$	5,490,028	\$	6,425,871	
Average secured loan outstanding	\$	219,601	\$	221,582	
Average secured loan as percent of total secured loans		4.00%		3.45%	
Average secured loan as percent of partners' capital		2.47%		2.41%	
Largest secured loan outstanding	\$	500,000	\$	500,000	
Largest secured loan as percent of total secured loans		9.11%		7.78%	
Largest secured loan as percent of partners' capital		5.63%		5.44%	
Largest secured loan as percent of total assets		5.56%		5.11%	
Number of counties where security is located (all California)		16		18	
Largest percentage of secured loans in one county		17.27%		15.73%	
Number of secured loans in foreclosure status Amounts of secured loans in foreclosure	\$	4 1,243,177	\$	2 323,865	

At times, a specific loan may increase above 10% of the secured loan portfolio or partnership assets as the loan portfolio and assets of the partnership decrease due to limited partner withdrawals and/or loan payoffs.

NOTE 8 – ASSET CONCENTRATIONS AND CHARACTERISTICS (continued)

The following categories of secured loans were held at September 30, 2009 and December 31, 2008:

	Ser	otember 30, 2009	D	ecember 31, 2008
First trust deeds	\$	4,470,389	\$	5,279,823
Second trust deeds		931,091		1,056,999
Third trust deeds		88,548		89,049
Total loans		5,490,028		6,425,871
Prior liens due other lenders at time of loan		1,566,711		1,666,711
Total debt	\$	7,056,739	\$	8,092,582
Appraised property value at time of loan	\$	12,141,561	\$	13,809,106
Total loans as percent of appraised value (1)		58.12%		58.60%
Loans by type of property				
Single family	\$	3,434,448	\$	3,811,235
Apartments		98,006		99,233
Commercial		1,430,219		1,793,846
Land		527,355		721,557
	\$	5,490,028	\$	6,425,871

(1) Based on appraised values and prior liens at the time of the closing on the loan. The loan to value computation does not take into account subsequent increases or decreases in security property values following consummation of the loan nor does it include changes through amortization of the senior mortgage, if any. Property values have likely changed, particularly over the last two years, and the portfolio's current loan to value ratio is likely higher than this historical ratio.

Scheduled maturity dates of secured loans as of September 30, 2009 are as follows:

Year Ending December 31,	
2009	\$ 443,528
2010	1,455,513
2011	865,016
2012	1,394,663
2013	429,281
Thereafter	 902,027
	\$ 5,490,028

One loan totaling \$214,992 was past maturity at September 30, 2009.

NOTE 9 – COMMITMENTS AND CONTINGENCIES

Workout agreements

The partnership occasionally enters into workout agreements with borrowers who are past maturity or delinquent in their regular payments. Typically, a workout agreement allows the borrower to extend the maturity date of the balloon payment and/or allows the borrower to make current monthly payments while deferring for periods of time, past due payments, or allows time to pay the loan in full. The partnership was not obligated to fund additional money on these loans as of September 30, 2009.

Legal proceedings

The partnership is involved in various legal actions arising in the normal course of business. In the opinion of management, such matters will not have a material effect upon the financial position of the partnership.

Part I – Item 2.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION OF THE PARTNERSHIP

Forward-Looking Statements.

Certain statements in this Report on Form 10-Q which are not historical facts may be considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding the partnership's expectations, hopes, intentions, beliefs and strategies regarding the future. Forward-looking statements include statements regarding future interest rates and economic conditions and their effect on the partnership and its assets, trends in the California real estate market, estimates as to the allowance for loan losses, estimates of future limited partner withdrawals, 2009 annualized yield estimates, additional foreclosures in 2009, expectations regarding the levels of loan delinquencies and loan repayments, expectations regarding the numbers of loan extensions, workouts and foreclosures, beliefs relating to the impact on the partnership from current economic conditions and trends in the financial and credit markets, beliefs regarding the partnership's ability to recover its investment in certain properties, expectations regarding the partnership's plans to hold or sell properties which it forecloses, beliefs regarding the effect of borrower foreclosures on liquidity, the use of excess cash flow and the intention not to sell the partnership's loan portfolio. Actual results may be materially different from what is projected by such forward-looking statements. Factors that might cause such a difference include unexpected changes in economic conditions and interest rates, the impact of competition and competitive pricing and downturns in the real estate markets in which the Company has made loans. All forward-looking statements and reasons why results may differ included in this Form 10-Q are made as of the date hereof, and we assume no obligation to update any such forward-looking statement or reason why actual results may differ.

Critical Accounting Policies.

In preparing the financial statements, management is required to make estimates based on the information available that affect the reported amounts of assets and liabilities as of the balance sheet dates and revenues and expenses for the reporting periods. Such estimates relate principally to the determination of (1) the allowance for loan losses (i.e. the amount of allowance established against loans receivable as an estimate of potential loan losses) including the accrued interest and advances that are estimated to be unrecoverable based on estimates of amounts to be collected plus estimates of the value of the property as collateral and (2) the valuation of real estate held. At September 30, 2009, the partnership owned three parcels of real property.

Loans and the related accrued interest, late fees and advances are analyzed on a periodic basis for recoverability. Delinquencies are identified and followed as part of the loan system. A provision is made for loan losses to adjust the allowance for loan losses to an amount considered by management to be adequate, with due consideration to collateral values, and to provide for unrecoverable loans and receivables, including impaired loans, other loans, accrued interest, late fees and advances on loans and other accounts receivable (unsecured). The partnership charges off uncollectible loans and related receivables directly to the allowance account once it is determined that the full amount is not collectible.

If the probable ultimate recovery of the carrying amount of a loan, with due consideration for the fair value of collateral, is less than amounts due according to the contractual terms of the loan agreement and the shortfall in the amounts due is not insignificant, the carrying amount of the investment will be reduced to the present value of future cash flows discounted at the loan's effective interest rate. If a loan is collateral dependent, it is valued at the estimated fair value of the related collateral. If events and or changes in circumstances cause management to have serious doubts about the further collectibility of the contractual payments, a loan may be categorized as impaired and interest is no longer accrued. Any subsequent payments on impaired loans are applied to reduce the outstanding loan balances including accrued interest and advances.

Recent trends in the economy, particularly the downward trend in real estate values, have been taken into consideration in the aforementioned process of arriving at the allowance for loan losses and the carrying values of real estate owned and investment in a limited liability company. Actual future results could vary from the aforementioned provisions for losses. Because the partnership is an asset based lender, the most significant economic trend that impacts its allowance for loan losses is the fair value of California real estate. During periods of declining real estate values, this trend will generally have a negative impact on the partnership's estimated allowance for loan losses. Conversely, during periods of appreciating real estate values, this trend will generally have a positive impact. During 2008 and 2009, residential real estate values declined from their 2007 levels. Consistent with this trend, the partnership's estimated allowance for loan losses increased in 2008 and has continued to increase in 2009.

Related Parties.

The general partners of the partnership are Gymno Corporation and Michael R. Burwell. Most partnership business is conducted through Redwood Mortgage Corp., an affiliate of the general partners, which arranges, services and maintains the loan portfolio for the benefit of the partnership. The fees received by the affiliate and the general partners are paid pursuant to the partnership agreement and are determined at the sole discretion of the general partners, subject to limitations imposed by the partnership agreement. In the past the general partners have elected not to take the maximum compensation. The following is a list of various partnership activities for which related parties are compensated.

- *Mortgage Brokerage Commissions* For fees in connection with the review, selection, evaluation, negotiation and extension of loans, Redwood Mortgage Corp. may collect an amount equivalent to 12% of the loaned amount until 6 months after the termination date of the offering. Thereafter, the loan brokerage commissions (points) will be limited to an amount not to exceed 4% of the total partnership assets per year. The loan brokerage commissions are paid by the borrowers, and thus, are not an expense of the partnership. Loan brokerage commissions paid by the borrowers were \$0 and \$0 for the three month periods and \$0 and \$18,305 for the nine month periods ended September 30, 2009 and 2008, respectively.
- *Mortgage Servicing Fees* Redwood Mortgage Corp. receives monthly mortgage servicing fees of up to 1/8 of 1% (1.5% on an annual basis) of the unpaid principal of the partnership's loans or such lesser amount as is reasonable and customary in the geographic area where the property securing the mortgage is located. Historically, Redwood Mortgage Corp. has charged 1.0% annually, and on occasion has waived additional amounts to enhance the partnership's earnings and thereby increase returns to the limited partners. Such fee waivers were not made for the purpose of providing the partnership with sufficient funds to satisfy withdrawal requests, nor were such waivers made in order to meet any required level of distributions, as the partnership has no such required level of distributions. Redwood Mortgage Corp. does not use any specific criteria when determining the exact amount of fees to be waived. The decision to waive fees and the amount, if any, to be waived, is made by Redwood Mortgage Corp. in its sole discretion. There is no assurance that Redwood Mortgage Corp. will waive fees at similar levels, or at all, in the future. The table below summarizes the mortgage servicing fees paid to Redwood Mortgage Corp. for the three and nine month periods ended September 30, 2009 and 2008.

	Three months ended				Nine months ended			
	 September 30,				September 30,			
	2009	2008		2009		2008		
Maximum chargeable	\$ 20,393	\$	23,224	\$	63,170	\$	69,372	
Waived	 (6,798)		(23,224)		(21,058)		(69,372)	
Net charged	\$ \$ 13,595			\$	42,112	\$		

• Asset Management Fees The general partners receive monthly fees for managing the partnership's portfolio and operations of up to 1/32 of 1% of the 'net asset value' (3/8 of 1% on an annual basis). At times, to enhance the earnings to the partnership, the general partners have charged less than the maximum allowable rate. Such fee waivers were not made with the purpose of providing the partnership with sufficient funds to satisfy withdrawal requests, nor to meet any required level of distributions, as the partnership has no such required level of distributions. The general partners do not use any specific criteria when determining the exact amount of fees to be waived. The decision to waive fees and the amount, if any, to be waived, is made by the general partners in their sole discretion. There is no assurance that the general partners will waive fees at similar levels, or at all, in the future. The table below summarizes the asset management fees paid to the general partners for the three and nine month periods ended September 30, 2009 and 2008.

	Three months ended September 30,			Nine mon Septem		hs ended ber 30,	
	 <u>2009</u> 2008			 2009	2008		
Maximum chargeable	\$ 8,536	\$	8,654	\$ 25,759	\$	26,035	
Waived	 (5,691)		(8,654)	 (17,173)		(26,035)	
Net charged	\$ \$ 2,845			\$ 8,586	\$		

- *Other Fees* The partnership agreement provides the general partners may receive other fees such as processing and escrow, reconveyance, mortgage assumption and mortgage extension fees. Such fees are incurred by the borrowers and are paid to the general partners. Such fees aggregated \$90 and \$105 for the three month periods, and \$105 and \$1,277 for the nine month periods, ended September 30, 2009 and 2008, respectively.
- *Income and Losses* All income and (losses) are credited or charged to partners in relation to their respective partnership interests. The allocation to the general partners (combined) is a total of 1%, which was (\$792) and \$1,095 for the three month periods and \$971 and \$3,496 for the nine month periods, ended September 30, 2009 and 2008, respectively.
- *Operating Expenses* An affiliate of the partnership, Redwood Mortgage Corp. is reimbursed by the partnership for all operating expenses actually incurred by it on behalf of the partnership, including without limitation, out-of-pocket general and administration expenses of the partnership, accounting and audit fees, legal fees and expenses, postage and preparation of reports to limited partners. Such reimbursement was \$3,025 and \$2,354 for the three month periods and \$9,130 and \$4,756 for the nine month periods, ended September 30, 2009 and 2008, respectively. For the first quarter of 2008, Redwood Mortgage Corp. waived \$3,052 of costs.
- *Contributed Capital* The general partners jointly and severally are required to contribute an amount equal to 1/10 of 1% in cash contributions as proceeds from the partnership's offering of units received from the limited partners. As of September 30, 1992, the date the offering closed, Gymno Corporation, a general partner, had contributed \$11,998 as capital in accordance with the partnership agreement. After adjusting for allocations of profits and losses, capital and earnings liquidations, the general partners' capital was \$10,494 and \$11,973 as of September 30, 2009 and December 31, 2008, respectively.

Results of Operations.

Changes in the partnership's operating results are tabulated for reference and discussed below:

	Changes during the three months ended September 30, 2009 versus 2008				Changes during the nine months ended September 30, 2009 versus 2008		
		Dollars	Percent		Dollars	Percent	
Revenue							
Interest on loans	\$	(20,959)	(15)%	\$	(34,847)	(8)%	
Other interest		(219)	(16)		(842)	(22)	
Late fees		(3,232)	(88)		(3,136)	(68)	
Other		1,593	333		1,113	38	
Total revenues	_	(22,817)	(15)	_	(37,712)	(8)	
Expenses							
Mortgage servicing fees		13,595			42,112

Total expenses		141,348	375		214,776	223	
Net income/(loss)	\$	(164,165)	(149)%	\$	(252,488)	(72)%	

Please refer to the above table throughout the discussions of Results of Operations

The decrease in interest on loans for the three and nine month periods ended September 30, 2009 as compared to the same period in 2008 was due to a decrease in the average loan portfolio balance and a decrease in the effective average interest rate primarily due to increased loan delinquencies. Each period includes income gained through amortization of discount on unsecured notes, which has been eliminated in the calculation of the average interest rate. The table below recaps these averages.

	Three Mont Septemb		Nine Months ended September 30,					
		Average	*	Average				
		Interest		Interest				
	Average	Rate	Average	Rate				
	Secured	Adjusted	Secured	Adjusted				
	Loan	For	Loan	For				
Year	Balance	Discount	Balance	Discount				
2008	\$ 5,907,765	9.52%	\$ 6,054,980	9.43%				
2009	\$ 5,737,650	8.27%	\$ 5,974,221	8.71%				

The decrease in other interest for the three and nine month periods ended September 30, 2009 as compared to 2008 was primarily due to lower average rates of interest earned. The table below summarizes the components in this area.

		Three Months ended September 30,				Nine Mont Septemb	
	A	Average				Average	
]	Interest	Average]	Interest	Average
]	Bearing	Interest		Bearing		Interest
Year	I	Balance	Rate		Balance		Rate
2008	\$	490,453	1.1	3%	\$	395,709	1.30%
2009	\$	464,094	1.0	0%	\$	396,420	1.02%

The decrease in late fees for the three and nine month periods ended September 30, 2009 as compared to the same period in 2008 is due to management's decision to not accrue late fees on the delinquent loans as the uncertainty for collection has increased.

The increase in other revenues for the three and nine month periods ended September 30, 2009 as compared to the same period in 2008 is due to the collection of \$1,396 of early withdrawal penalties in September 2009, compared to \$230 in September of 2008.

Mortgage servicing fees increased for the three and nine month periods ended September 30, 2009 as compared to the same period in 2008. For 2009, Redwood Mortgage Corp. waived one-third of these fees, and for 2008 had waived all of these fees.

The increase in clerical costs through Redwood Mortgage Corp. for the three and nine month period ended September 30, 2009 as compared to the same period in 2008 was due to Redwood Mortgage Corp. waiving \$3,052 of fees in the first quarter of 2008.

Asset management fees increased for the three and nine month periods ended September 30, 2009 as compared to the same period in 2008, due to Redwood Mortgage Corp. waiving 100% of the fees in 2008 and two-thirds of the fees in 2009.

The decrease in the provision for loan losses for the three month period and the increase for the nine month period ended September 30, 2009 as compared to the same periods in 2008 was due to management's decision to decrease and increase, respectively, the allowance for losses to reflect the current market conditions.

The increase in the impairment loss on real estate owned for the three and nine month periods ended September 30, 2009 as compared to the same periods in 2008 was due to anticipated costs to hold a property, extended times to sell such property, low demand for such property and the decline in and uncertain value related to such property, which management allowed to be foreclosed upon.

The increase in professional services for the three and nine month periods ended September 30, 2009 as compared to the same period in 2008, was due to general increases in professional costs for legal services, audits, tax return processing and the timing of billing.

The decrease in other expenses for the three month period ended September 30, 2009 as compared to the same period in 2008, was due to expenses related to an owned property. The increase in other expenses for the nine month period was due to expenses related to the two newest pieces of real estate held, which were not owned at this time in 2008.

Partnership capital decreased from \$9,185,575 at December 31, 2008 to \$8,876,487 at September 30, 2009. The decrease is attributable to the net loss incurred in the third quarter of 2009, and to capital liquidations exceeding earnings reinvested. The partnership's net income for the nine month periods ending September 30, 2009 and 2008 was \$97,138 and \$349,626, respectively. Distributions to compounding and distributing limited partners totaled \$242,630 and \$346,130, respectively. The partnership capital declined \$81,321 in 2008.

The partnership began funding loans in December 1989. The aggregate unpaid principal balance of the partnership's secured loans outstanding as of September 30, 2009 and December 31, 2008 were \$5,490,028 and \$6,425,871, respectively.

Delinquencies on partnership loans are within the normal historical range of the general partners' expectations, based upon their experience in managing similar partnerships over the last 28 years. Foreclosures are a normal aspect of partnership operations and the general partners anticipate they will not have a material effect on liquidity. As of September 30, 2009, there were four loans with a filed notice of default.

Cash is generated from borrower payments of interest, principal, loan payoffs and from the partnership's sale of real estate owned properties. Currently the credit and financial markets are facing a significant and prolonged disruption. As a result, loans are not readily available to borrowers or purchasers of real estate. These credit constraints may impact the partnership and our borrowers' ability to sell properties or refinance their loans in the event they have difficulty making loan payments or their loan matures. A slow down or reduction in loan repayments would likely reduce the partnership's cash flows and restrict the partnership's ability to invest in new loans or provide earnings and capital distributions. Excess cash flow is invested in new loan opportunities, when available, and used for other partnership business.

Allowance for Losses.

The general partners periodically review the loan portfolio, examining the status of delinquencies, the underlying collateral securing these loans, real estate held expenses, sales activities, and borrower's payment records and other data relating to the loan portfolio. Data on the local real estate market and on the national and local economy are studied. Based upon this and other information, the allowance for loan losses is increased or decreased. Borrower foreclosures are a normal aspect of partnership operations. The partnership is not a credit based lender and hence while it reviews the credit history and income of borrowers, and if applicable, the income from income producing properties, the general partners expect the partnership will on occasion take back real estate security.

At September 30, 2009, the partnership's loan portfolio had four loans 90 days or more past due in interest payments, with an aggregate unpaid principal balance of \$1,243,177 and a weighted average interest rate of 8.52%. Three of these loans are secured by a first deed of trust and one is secured by a second deed of trust. At such date, the partnership also had one loan past maturity with a principal balance of \$214,992 bearing an interest rate of 8.50%. This loan is secured by a second deed of trust. With respect to the loans that have matured or are past due in interest payments, the partnership will attempt to collect such amounts in full and, if collection is not successful, the partnership may consider entering into a workout agreement, restructuring the loan or foreclosing on the property as the general partners deem appropriate based on their evaluation of each individual loan.

The partnership had four filed notices of default totaling \$1,243,177, at September 30, 2009, which are the four delinquent loans noted above.

The partnership occasionally enters into workout agreements with borrowers who are past maturity or delinquent in their regular payments. Four of the partnership's loans totaling \$763,495 were subject to workout agreements as of September 30, 2009, one of which is included in the four delinquent loans noted above and also has a filed notice of default. Typically, a workout agreement allows the borrower to extend the maturity date of the balloon payment and/or allows the borrower to make current monthly payments while deferring for periods of time, past due payments, or allows time to pay the loan in full. By deferring maturity dates of balloon payments or deferring past due payments, workout agreements may adversely affect the partnership's cash flow.

Workout agreements and foreclosures generally exist within our loan portfolio to greater or lesser degrees, depending primarily on the health of the economy. The general partners expect the number of foreclosures and workout agreements will generally rise during economic downturns and conversely fall during good economic times. These workouts and delinquencies have been considered when the general partners arrive at an appropriate allowance for loan losses based on their experience, and are reflective of the partnership's loan marketplace segment. Because of the number of variables involved, the magnitude of possible swings and the general partners' inability to control many of these factors, actual results may and do sometimes differ significantly from estimates made by the general partners.

The partnership has three unsecured loans totaling \$237,463 net of a discount. These unsecured loans are considered impaired; however, regular payments are being received on all three loans.

The partnership made a provision of \$32,479 and \$13,377 to the loan loss reserve during the nine month periods ended September 30, 2009 and 2008, respectively. The allowance for loan losses of \$247,724 and \$236,893 as of September 30, 2009 and December 31, 2008, respectively, is considered to be adequate for the total net loan portfolio balances of \$5,928,680 and \$6,811,967, respectively.

PORTFOLIO REVIEW

Loan Portfolio

The partnership's loan portfolio consists primarily of short-term (one to five years), fixed rate loans secured by real estate. The majority of the real estate is located in the nine San Francisco Bay Area counties (San Mateo, Santa Clara, Alameda, San Francisco, Napa, Solano, Sonoma, Marin and Contra Costa).

As of September 30, 2009 and 2008, the partnership held 25 and 22 secured loans, respectively, in the following locations and categories:

	September 30,						
	2009)	2008	3			
	Dollars	Percent	Dollars	Percent			
Location							
San Francisco Bay Area	\$ 3,586,095	66%	\$ 3,571,892	71%			
Other Northern California counties	1,233,107	22	960,949	19			
Southern California counties	670,826	12	519,422	10			
Total	\$ 5,490,028	100%	\$ 5,052,263	100%			
Property type							
Single Family	\$ 3,434,448	62%	\$ 2,740,551	54%			
Apartments	98,006	2	99,622	2			
Commercial	1,430,219	26	1,794,111	36			
Land	527,355	10	417,979	8			
Total	\$ 5,490,028	100%	\$ 5,052,263	100%			

The following table sets forth the priorities, asset concentrations and maturities of the secured loans held by the partnership as of September 30, 2009:

	# of Loans	<u> </u>	Amount	Percent
First trust deeds	21	\$	4,470,389	81%
Second trust deeds	3		931,091	17%
Third trust deeds	1		88,548	2%
Total	25	\$	5,490,028	100%
Maturing prior to 12/31/09	2	\$	443,528	7%
Maturing during 2010	5		1,455,513	27%
Maturing during 2011	4		865,016	16%
Maturing after 12/31/11	14		2,725,971	50%
Total	25	\$	5,490,028	100%
Average loan		\$	219,601	4.00%
Largest loan			500,000	9.11%
Smallest loan			39,160	0.71%
Average loan-to-value, based upon appraisals				
and senior liens at date of inception of loan (1)				58.12%

(1) Based on appraised values and prior liens at the time of the closing on the loan. The loan to value computation does not take into account subsequent increases or decreases in security property values following consummation of the loan nor does it include changes through amortization of the senior mortgage, if any. Property values have likely changed, particularly over the last two years, and the portfolio's current loan to value ratio is likely higher than this historical ratio.

As of September 30, 2009, the partnership's largest loan in the principal amount of \$500,000 represented 9.11% of outstanding secured loans and 5.56% of partnership assets. At times, loans may increase above 10% of the secured loan portfolio or partnership assets as the loan portfolio and assets of the partnership decrease due to loan payoffs and/or limited partner withdrawals.

Liquidity and Capital Resources.

The partnership relies upon loan payoffs, borrowers' mortgage payments and the sale of real estate owned for the source of funds for loans. Recently, mortgage interest rates have decreased somewhat from those available at the inception of the partnership. If interest rates were to increase substantially, the yield of the partnership's loans may provide lower yields than other comparable debt-related investments. Additionally, since the partnership has made primarily fixed rate loans, if interest rates were to rise, the likely result would be a slower prepayment rate for the partnership. This could cause a lower degree of liquidity as well as a slowdown in the ability of the partnership to invest in loans at the then current interest rates. Conversely, in the event interest rates were to decline, the partnership could experience significant borrower prepayments, which, if the partnership can only obtain the then existing lower rates of interest may cause a dilution of the partnership's yield on loans, thereby lowering the partnership's overall yield to the limited partners. Cash is generated from borrower payments of interest, principal, loan payoffs and from the partnership's sale of real estate owned properties. Currently the credit and financial markets are facing a significant and prolonged disruption. As a result, loans are not readily available to borrowers or purchasers of real estate. These credit constraints may impact the partnership and our borrowers' ability to sell properties or refinance their loans in the event they have difficulty making loan payments or their loan matures. A slow down or reduction in loan repayments would likely reduce the partnership's cash flows and restrict the partnership's ability to invest in new loans or provide earnings and capital distributions. Excess cash flow is invested in new loan opportunities, when available, and used for other partnership business.

At the time of their subscription for units in the partnership, limited partners made a decision to either take distributions of earnings monthly, quarterly or annually or to compound earnings in their capital account. The table below summarizes these allocation elections. As of September 30, 2009 and 2008, limited partners electing to withdraw earnings represented 40% and 39%, respectively.

	Three months ended			Nine months ended				
	September 30,			September 30,			30,	
	 2009		2008		2009		2008	
Distributing	\$ 27,447	\$	41,351	\$	96,553	\$	133,268	
Compounding	\$ 40,673	\$	67,079	\$	146,077	\$	212,862	

The partnership also allows the limited partners to withdraw their capital account subject to certain limitations and penalties (see liquidation provisions of partnership agreement). These withdrawals are within the normally anticipated range the general partners would expect in their experience in this and other partnerships. The general partners expect a small percentage of limited partners will elect to liquidate their capital accounts over one year with a 10% and/or 8% early withdrawal penalty. In originally conceiving the partnership, the general partners wanted to provide limited partners needing their capital returned a degree of liquidity. Generally, limited partners electing to withdraw over one year need to liquidate investments to raise cash. The demand the partnership is experiencing in withdrawals by limited partners electing a one year liquidation program represents a small percentage of limited partners to commonly occur at these levels.

After a five year hold period has passed, limited partners may withdraw their capital account without penalty. To date, the partnership has satisfied all withdrawal requests by limited partners. The table below sets forth actual liquidations for the past three months:

		Three months ended				Nine months ended			
		September 30,			September 30,				
	2009		2008		2009		2008		
Capital liquidations-without penalty	\$	99,488	\$	73,441	\$	278,436	\$	250,888	
Capital liquidations-subject to penalty	\$	17,454	\$	2,872	\$	31,395	\$	26,145	

In some cases in order to satisfy broker-dealers and other reporting requirements, the general partners have valued the limited partners' interest in the partnership on a basis which utilizes a per Unit system of calculation, rather than based upon the investors' capital account. This information has been reported in this manner in order to allow the partnership to integrate with certain software used by the broker-dealers and other reporting entities

In those cases, the partnership will report to broker-dealers, trust companies and others a "reporting" number of Units based upon a \$1.00 per Unit calculation. The number of reporting Units provided will be calculated based upon the limited partner's capital account value divided by \$1.00. Each investor's capital account balance is set forth periodically on the partnership account statement provided to investors. The reporting Units are solely for broker-dealers requiring such information for their software programs and do not reflect actual Units owned by a limited partner or the limited partners' right or interest in cash flow or any other economic benefit in the partnership. Each investor's capital account balance is set forth periodically on the partnership account statement provided to investors. The amount of partnership earnings each investor is entitled to receive is determined by the ratio each investor's capital account bears to the total amount of all investor capital account statement in providing a per Unit estimated value of the client's investment in the partnership in accordance with NASD Rule 2340.

While the general partners have set an estimated value for the Units, such determination may not be representative of the ultimate price realized by an investor for such Units upon sale. No public trading market exists for the Units and none is likely to develop. Thus, there is no certainty the Units can be sold at a price equal to the stated value of the capital account. Furthermore, the ability of an investor to liquidate his or her investment is limited subject to certain liquidation rights provided by the partnership, which may include early withdrawal penalties (See the section of the Prospectus entitled "Risk Factors - Purchase of Units is a long term investment").

Current Economic Conditions.

The partnership makes mortgage loans primarily secured by deeds of trust on California real estate. The majority of its lending is concentrated in the San Francisco Bay Area and the outlying communities. The economic health of California and in particular, the San Francisco Bay Area, plays a significant role in the performance of the real estate industry, and property values which provide the underlying collateral for our loans. In December 2007, California along with the rest of the United States began to experience what has turned out to be the most severe and prolonged economic recession in more than 50 years. The downward trend in economic productivity and the depth of the recession accelerated significantly in the fourth quarter of 2008 when the national gross domestic product declined at an annual rate of 5.4% and continued to decline in the first and second quarters of 2009; at an annual rate of 6.4% and 1.0%, respectively, before slightly recovering in the third quarter of 2009 with an increase at an annual rate of 3.5% (from the second quarter of 2009), according to the "advance" estimate released by the Bureau of Economic Analysis..

During this recession many events have buffeted the United States economy, particularly the financial system and the business sector. These events include, among others: the failure of brokerage firm Lehman Brothers; the forced merger of the brokerage firm Bear Stearns; the governmental bailout of insurance giant AIG; the government takeover of both Fannie Mae and Freddie Mac (the largest holders of residential mortgages in the United States); the merger of Bank of America with Countrywide (the third largest holder of residential mortgages in the United States); the forced merger of Wachovia Bank; the takeovers of over 120 banks by the FDIC in 2009; governmental financial assistance provided to United States automakers; the bankruptcies of Chrysler Corporation and General Motors; and historic write downs of mortgages held by banks. These factors have exposed the financial system to increased risks and decreased consumer confidence.

In response to the turmoil in the financial markets and to help bolster the financial system and the economy, the United States government, through the Federal Reserve and Treasury, has adopted many measures. These measures include among others, two financial stimulus packages, enactment of the Troubled Asset Relief Program (TARP) to provide capital to financial institutions, reduction of the Federal Funds Rate to a range of 0.00% to 0.25%, and enactment of the Emergency Economic Stabilization Act. The impact of these actions and future actions will take time to produce positive results.

In response to the reduced economic activity businesses have made significant reductions in their workforces, which have caused an increase in unemployment. Since January of 2008, the national unemployment rate has risen dramatically from 4.9% to 9.8% as of September 2009. Likewise, California's unemployment rate has increased from 6.1% in January 2008 to 12.2% as of September 2009. The escalation of unemployment has caused borrowers losing jobs to have a difficult time meeting their financial obligations and caused concerns among workers regarding their job security. Both of these factors have lowered overall confidence, particularly as it relates to one's own financial circumstances.

The rise in residential real estate values to all-time highs from 2003 to 2006, and the subsequent steep value declines in many residential real estate markets, have furthered the downturn in consumer confidence and has been a leading cause of the current recession. As residential real estate values declined, borrowers that had obtained subprime and high loan-to-value mortgages began to default in high percentages on their mortgage obligations. These defaults were due to a variety of reasons, including borrowers' inability to manage their mortgage payments, dramatic increases in mortgage payments from adjustable rate mortgage loans, rising unemployment and reduced or negative equity. As borrowers defaulted upon their loans in record numbers and property values fell, real estate lenders have sought to minimize risk and became more cautious in their real estate lending activities.

In California, loan defaults and the subsequent filings of notices of default to enforce lenders' remedies against defaulted borrowers rose throughout most of 2007 and 2008. However in the third quarter of 2009, the number of notices of default filed decreased by 10.3% from the second quarter of 2009, but was 18.5% higher than the third quarter of 2008. Likewise, trustee's deeds issued at the foreclosure sale of a property decreased in San Francisco County from 192 during the third quarter of 2008 to 179 during the third quarter of 2009. That number also decreased in Los Angeles County from 11,690 during the third quarter 2008 to 7,927 during the third quarter of 2009.

Increased defaults, declining real estate values and losses on some loans have led to more restrictive loan to value requirements, more stringent underwriting standards and the elimination of a wide variety of lending programs, which in turn has significantly reduced the number of potential buyers and borrowers for both residential and commercial property. Lenders' aversion to real estate secured lending has left FHA, Fannie Mae and Freddie Mac, and large, well-capitalized portfolio lenders as the primary sources of capital, and even these sources are tightening their lending guidelines. Fannie Mae and Freddie Mac have created two types of maximum loan amounts they are willing to purchase. For most single family properties there are "Conforming" loans, which are loans up to \$417,000 and in some of the higher-priced regions of California, such as the San Francisco Bay Area, "High Cost" loans which are up to \$729,750. Many of the properties the partnership has lent upon have loans exceeding these amounts and would not be eligible for purchase by these lenders. In all respects, money available for real estate lending has been greatly curtailed. Access to borrowed monies is the lifeblood to a functioning real estate market and the recent restrictions and reductions have led to an overall reduction in real estate activity.

Mortgage interest rates are a key factor in the affordability of real estate. The higher the interest rate, the less affordable real estate becomes. Interest rates are currently near historic lows. Freddie Mac reports for September 2009, the 30-year fixed-rate mortgage interest rate averaged 4.95% with an average cost of 0.7 points. Last year at this time, the interest rate on the same loan averaged 6.04% and cost 0.7 points. The lower interest rates have helped homeowners qualify for mortgages and provided those seeking to purchase residential property with lower payment rates and increased affordability. This improved affordability is one likely reason why residential real estate sales volumes have been increasing since July 2008. In September 2009, California sales volumes of new and resale houses and condominiums rose 2.1% from September 2008.

Median home prices have declined from their highs in 2005 and 2006. The median sales price of an existing California home, as reported by Dataquick, was \$251,000 in September 2009, a 2.0% increase from June (which increased 10.0% from March 2009) but an 11.3% drop from \$283,000 in September 2008. These value declines from 2008 have caused great difficulties for residential owners and their lenders. Owners desiring to sell property often must face the prospect of selling at prices less than their acquisition cost, resulting in a loss to the owner. Lenders on secured properties often find the decline in values has tightened their lendable equity or in some instances resulted in their loan being larger than the collateral property is worth. In the current environment, borrowers owning residential properties may find it difficult to refinance or sell their properties. This situation may cause or even force borrowers to hold their existing financing longer than they normally would choose or originally anticipated due to the lack of other financing alternatives or the inability to sell the property and pay off the existing debt through property sale.

Should a borrower encounter difficulty in making their mortgage payments or paying off a loan at its maturity, the lender must decide whether to work with the borrowers to assist them through a period of financial difficulty or proceed with remedies provided in the loan documents, often resulting in a foreclosure of the property. Slow and longer sales periods and often lower property values, coupled with a general lack of financing alternatives and stringent underwriting standards have forced many borrowers and lenders to make these difficult choices.

In light of the current economic conditions, the partnership has been increasing the allowance for loan losses, and has taken other actions to protect the partnership's investment in the loans and the capital of its investors. Nevertheless, the partnership is experiencing increased loan delinquencies, lower levels of loan repayments, increased numbers of loan extensions, workouts and foreclosures as some borrowers are unable to meet their financial obligations. In some instances, the partnership anticipates realizing losses should it take back the real estate securing these loans and choose to immediately sell the property. The partnership may also consider accepting less than the amount owed on a mortgage to facilitate the sale of real estate at its current market value, commonly known as a short sale. The partnership believes it may be beneficial, in some cases to hold a property as an investment if the property has the potential to generate rental income or the value of the property can be enhanced through improvements. Given the difficult economic environment, the partnership anticipates holding many of the properties it forecloses upon for periods of time rather than immediately selling the properties. In the interim, this will result in the partnership being a holder of both debt on and equity in California real estate.

Part I – Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Under the reporting requirements, the partnership has elected not to report on this item.

Part I – Item 4T. CONTROLS AND PROCEDURES

As of September 30, 2009, the partnership carried out an evaluation, under the supervision and with the participation of the general partners of the effectiveness of the design and operation of the partnership's disclosure controls and procedures as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended. Based upon that evaluation, the general partners concluded as of the end of the period covered by this report, that the partnership's disclosure controls and procedures are effective to ensure that information required to be disclosed by the partnership in the reports that it files or submits under that Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and is accumulated and communicated to the general partners as appropriate to allow timely decisions regarding required disclosure.

There was no change in the partnership's internal control over financial reporting during the three months ended September 30, 2009 that has materially affected, or is reasonably likely to materially affect, the partnership's internal control over financial reporting.

Part II - OTHER INFORMATION

Item 1. Legal Proceedings

In the normal course of business, the partnership may become involved in various types of legal proceedings such as assignment of rents, bankruptcy proceedings, appointment of receivers, unlawful detainers, judicial foreclosure, etc., to enforce the provisions of the deeds of trust, collect the debt owed under the promissory notes, or to protect, or recoup its investment from the real property secured by the deeds of trust and resolve disputes between borrowers, lenders, lien holders and mechanics. None of these actions would typically be of any material importance. As of the date hereof, the partnership is not involved in any legal proceedings other than those that would be considered part of the normal course of business. In the opinion of management, such matters will not have a material effect upon the financial position of the partnership.

Pursuant to the requirements of the Securities Exchange Act of 1934 the registrant has duly caused this report to be signed on its behalf by the undersigned, thereto duly authorized on the 16th day of November, 2009.

REDWOOD MORTGAGE INVESTORS VII, A CALIFORNIA LIMITED PARTNERSHIP

By: /S/ Michael R. Burwell Michael R. Burwell, General Partner

By: **Gymno Corporation, General Partner**

By: /S/ Michael R. Burwell Michael R. Burwell, President, Secretary/Treasurer & Chief Financial Officer

GENERAL PARTNER CERTIFICATION

I, Michael R. Burwell, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Redwood Mortgage Investors VII, a California Limited Partnership (the "Registrant");
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
- 4. The Registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15-d-15(f)) for the Registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's forth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
- 5. The Registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

PRESIDENT AND CHIEF FINANCIAL OFFICER CERTIFICATION

I, Michael R. Burwell, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Redwood Mortgage Investors VII, a California Limited Partnership (the "Registrant");
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
- 4. The Registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15-d-15(f)) for the Registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's forth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
- 5. The Registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.
