This report is submitted for the general information of the shareholders of Ivy Funds. It is not authorized for distribution to prospective investors in the Funds unless preceded or accompanied by a current Ivy Funds prospectus, or summary prospectus, and current performance information, including current Lipper ranking information.

Henry J. Herrmann, CFA

#### Dear Shareholder:

In the six months since our last report to you, investors have witnessed a dramatic reversal in investor sentiment. When the period opened, stocks and bonds were rallying as many economic indicators pointed to continued recovery and increasing stability in the U.S. economy. Investor confidence was further bolstered by stabilization of global credit markets and stronger-than-expected first-quarter 2010 corporate profits. Optimism abruptly changed, however, with the emergence of the European debt crisis, which created fears of a double-dip recession. The European banking system was negatively impacted when investors began to question the credit quality of several sovereign governments and whether the eurozone would be able to move past political strife to gain monetary stability. That scenario, in conjunction with data reflecting slowing U.S. economic growth and escalating concern about China's ability to slow the pace of its economy, drove a sharp global correction. Investors dodged riskier assets and demonstrated a flight to quality, ultimately driving U.S. bond yields to historical lows and fueling fears that the global economy could slip back into recession. The tide seemed to turn in September, however, traditionally a negative month for equities, with slightly stronger economic data and optimism that mid-term elections may drive more investor-friendly changes in Washington. Stocks staged a dramatic four-week rally that restored some optimism, as did an announcement from the National Bureau of Economic Research that the 'Great Recession,' the longest-lasting since the Great Depression, officially ended in June of 2009.

The economy grew at a 1.7 percent annual rate in the second calendar quarter of 2010, and preliminary estimates for third-quarter growth appear positive. The S&P 500 Index declined 2.4 percent during the six months ended September 30, 2010, while international securities, as represented by the MSCI EAFE Index, declined 1.5 percent. Fixed-income markets, as measured by the Citigroup Broad Investment Grade Index, saw yields drop significantly.

Numerous imponderables remain, including persistent high unemployment and a housing sector that continues to struggle, particularly so after government stimulus was removed. Nonetheless, we are optimistic that better days are ahead. Interest rates are low, government policy remains accommodative, and companies are reporting more robust

activity. Acquisition activity, a sign that companies are growing more willing to loosen the purse strings and funnel money into growing their operations, appears to be picking up.

#### **Economic Snapshot**

	9/30/10	3/31/10
S&P 500 Index	1141.20	1169.43
MSCI EAFE Index	1561.01	1584.27
Citigroup Broad Investment Grade Index (annualized yield to maturity)	2.33%	3.26%
U.S. unemployment rate	9.6%	9.7%
30-year fixed mortgage rate	4.35%	4.99%
Oil price per barrel	\$79.97	\$83.76

Sources: Bloomberg, U.S. Department of Labor

All government statistics shown are subject to periodic revision. The S&P 500 Index is an unmanaged index that tracks the stocks of 500 primarily large-cap U.S. companies. MSCI EAFE Index is an unmanaged index comprised of securities that represent the securities markets in Europe, Australasia and the Far East. Citigroup Broad Investment Grade Index is an unmanaged index comprised of securities that represent the bond market. Annualized yield to maturity is the rate of return anticipated on a bond if it is held until the maturity date. It is not possible to invest directly in any of these indexes. Mortgage rates shown reflect the average rate on a conventional loan with a 60-day lender commitment. Oil prices reflect the market price of West Texas intermediate grade crude.

As always, we thank you for your continued trust in Ivy Funds, and encourage you to share in our optimism for the future.

Respectfully,

Henry J. Herrmann, CFA

Herry J. Herrman

President

The opinions expressed in this letter are those of the President of the Ivy Funds and are current only through the end of the period of the report, as stated on the cover. The President's views are subject to change at any time, based on market and other conditions, and no forecasts can be guaranteed.

Starwood Hotels & Resorts Worldwide, Inc.	United States	Consumer Discretionary
Halliburton Company	United States	Energy

See your advisor or www.ivyfunds.com for more information on the Fund's most recently published Top 10 Equity Holdings.

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, redemption fees and exchange fees; and (2) ongoing costs, including management fees, distribution and service fees, and other Fund expenses. The Illustration of Fund Expenses for each Fund is intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. Each example is based on an investment of \$1,000 invested at the beginning of the period and held for the six-month period ended September 30, 2010.

#### **Actual Expenses**

The first line for each share class in each table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period. There may be additional fees charged to holders of certain accounts that are not included in the expenses shown in the tables. These fees apply to Individual Retirement Accounts (IRAs), IRA Rollovers, Roth IRAs, Conversion Roth IRAs, Simplified Employee Pension (SEP), Simple IRAs, Tax-Sheltered Accounts (TSAs), Keogh Plans, Owner Only 401(k) (Exclusive K) Plans and Final Pay Plans. As of the close of the six months covered by the tables, a customer is charged an annual fee of \$15 within each plan type. This fee is waived for IRA Rollovers and Conversion Roth IRAs if the customer owns another type of IRA. Coverdell Education Savings Account plans are charged an annual fee of \$10 per customer. You should consider the additional fees that were charged to your Fund account over the six-month period when you estimate the total ongoing expenses paid over the period and the impact of these fees on your ending account value as such additional expenses are not reflected in the information provided in the expense tables. Additional fees have the effect of reducing investment returns.

#### Hypothetical Example for Comparison Purposes

The second line for each share class in each table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of five percent per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this five percent hypothetical example with the five percent hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the tables are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees or esxchange fees. Therefore, the second line of each share class in the tables is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

## **Ivy Asset Strategy Fund**

F vi C: 14 vi F   15 v   20 2020	Beginning Account Value	Ending Account Value	Annualized Expense Ratio Based on the	Expenses Paid During
For the Six Months Ended September 30, 2010  Based on Actual Fund Return <sup>(1)</sup>	3-31-10	9-30-10	Six-Month Period	Period*
Class A	\$1,000	\$1,016.10	1.03%	\$5.14

Class R	\$1,000	\$1,018.46	1.32%	\$6.66
Class Y	\$1,000	\$1,020.06	1.00%	\$5.05

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees.

See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Class Y	\$1,000	\$1,017.57	1.50%	\$ 7.57

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by the number of days in the period (150 days for the period Based on Actual Fund Return and 183 days for the period Based on 5% Return) ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees.

See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

## SCHEDULE OF INVESTMENTS Ivy Asset Strategy New Opportunities Fund (in thousands) SEPTEMBER 30, 2010 (UNAUDITED)

#### Notes to Schedule of Investments

The following forward foreign currency contracts were outstanding at September 30, 2010:

Туре	Currency	Counterparty	Principal Amount of Contract (Denominated in Indicated Currency)	Settlement Date	Unrealized Appreciation	Unrealized Depreciation
Sell	Japanese Yen	Morgan Stanley International	226,815	10-12-10	\$ —	\$ 155
Buy	South Korean Won	Morgan Stanley International	3,108,500	10-12-10	163	_
					\$163	\$155

(A)No dividends were paid during the preceding 12 months.

- (B)Listed on an exchange outside the United States.
- (C)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be liquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$752 or 0.7% of net assets.
- (D)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be illiquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$1,431 or 1.3% of net assets.
- (E)Rate shown is the yield to maturity at September 30, 2010.
- (F)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date that the variable rate resets.

The following acronyms are used throughout this schedule:

ADR = American Depositary Receipts

GDR = Global Depositary Receipts

PepsiCo, Inc.	Consumer Staples
Expeditors International of Washington, Inc.	Industrials
Manpower Inc.	Industrials

See your advisor or www.ivyfunds.com for more information on the Fund's most recently published Top 10 Equity Holdings.

For the Six Months Ended September 30, 2010	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Based on Actual Fund Return <sup>(1)</sup>				
Class A	\$1,000	\$1,000.90	1.32%	\$ 6.60
Class B	\$1,000	\$ 996.90	2.13%	\$10.68
Class C	\$1,000	\$ 997.60	1.93%	\$ 9.69
Class E**	\$1,000	\$1,001.60	1.11%	\$ 5.50
Class I	\$1,000	\$1,002.80	0.99%	\$ 5.01
Class Y	\$1,000	\$1,001.40	1.23%	\$ 6.20
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,018.43	1.32%	\$ 6.66
Class B	\$1,000	\$1,014.40	2.13%	\$10.78
Class C	\$1,000	\$1,015.41	1.93%	\$ 9.77
Class E**	\$1,000	\$1,019.52	1.11%	\$ 5.55
Class I	\$1,000	\$1,020.11	0.99%	\$ 5.05
Class Y	\$1,000	\$1,018.89	1.23%	\$ 6.26

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>\*\*</sup>Class closed to investment.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

#### Notes to Schedule of Investments

\*Not shown due to rounding.

(A)No dividends were paid during the preceding 12 months.

- (B)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be liquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$4,514 or 2.4% of net assets.
- (C)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be illiquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$2,507 or 1.4% of net assets.
- (D)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010.
- (E)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date that the variable rate resets.

The following acronyms are used throughout this schedule:

CMO = Collateralized Mortgage Obligation

REMIC = Real Estate Mortgage Investment Conduit

Class I	\$1,000	\$ 992.00	1.25%	\$ 6.27
Class Y	\$1,000	\$ 990.10	1.52%	\$ 7.56
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,017.04	1.60%	\$ 8.07
Class B	\$1,000	\$1,012.11	2.58%	\$13.08
Class C	\$1,000	\$1,013.21	2.37%	\$11.98
Class E**	\$1,000	\$1,018.25	1.36%	\$ 6.86
Class I	\$1,000	\$1,018.80	1.25%	\$ 6.36
Class Y	\$1,000	\$1,017.46	1.52%	\$ 7.67

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>\*\*</sup>Class closed to investment.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

(A)Listed on an exchange outside the United States.

Japanese Yen

Sell

(B)No dividends were paid during the preceding 12 months.

(C)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be illiquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$15,776 or 0.3% of net assets.

1,500,000

12-15-10

(D)Illiquid restricted securities. At September 30, 2010, the Fund owned the following restricted securities:

Toronto-Dominion Bank (The)

Security	Acquisition Date(s)	Shares	Cost	Market Value
Buried Hill Energy (Cyprus) Public Company Limited	5-1-07 to 4-17-08	3,630	\$ 6,183	\$ 7,260
Konarka Technologies, Inc., 8.0% Cumulative	8-31-07	3,500	10,850	12,565
			\$17,033	\$19,825

The total value of these securities represented 0.4% of net assets at September 30, 2010.

(E)Deemed to be an affiliate due to the Fund having at least 5% of the voting securities.

(F)Securities serve as collateral for the following open futures contracts at September 30, 2010:

Description	Туре	Expiration Date	Number of Contracts	Market Value	Unrealized Depreciation
S&P/Toronto Stock Exchange 60 Index	Short	12-16-10	1	\$ (138,556)	\$(1,577)
S&P 500 E-mini	Short	12-17-10	10	(568,350)	(4,203)
				\$ (706,906)	\$(5,780)

(G)Principal amounts are denominated in the indicated foreign currency, where applicable (BRL - Brazilian Real).

(H)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010.

(I)Rate shown is the yield to maturity at September 30, 2010.

(J)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date the variable rate resets.

The following acronyms are used throughout this schedule:

ADR = American Depositary Receipts

GDR = Global Depositary Receipts

Class R	\$1,000	\$1,083.40	1.71%	\$ 8.96
Class Y	\$1,000	\$1,085.00	1.40%	\$ 7.30
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,015.84	1.84%	\$ 9.27
Class B	\$1,000	\$1,009.53	3.10%	\$15.57
Class C	\$1,000	\$1,011.98	2.61%	\$13.18
Class E	\$1,000	\$1,016.71	1.67%	\$ 8.47
Class I	\$1,000	\$1,019.26	1.16%	\$ 5.86
Class R	\$1,000	\$1,016.51	1.71%	\$ 8.67
Class Y	\$1,000	\$1,018.07	1.40%	\$ 7.06

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees.

See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

## ILLUSTRATION OF FUND EXPENSES Ivy Science and Technology Fund

For the Six Months Ended September 30, 2010	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Based on Actual Fund Return <sup>(1)</sup>				
Class A	\$1,000	\$ 996.30	1.44%	\$ 7.19
Class B	\$1,000	\$ 991.40	2.34%	\$11.75
Class C	\$1,000	\$ 992.30	2.18%	\$10.96
Class E	\$1,000	\$ 996.30	1.43%	\$ 7.19
Class I	\$1,000	\$ 998.10	1.08%	\$ 5.39
Class R	\$1,000	\$ 995.20	1.62%	\$ 8.08
Class Y	\$1,000	\$ 996.70	1.33%	\$ 6.69
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,017.86	1.44%	\$ 7.26
Class B	\$1,000	\$1,013.32	2.34%	\$11.88
Class C	\$1,000	\$1,014.11	2.18%	\$11.08
Class E	\$1,000	\$1,017.90	1.43%	\$ 7.26
Class I	\$1,000	\$1,019.64	1.08%	\$ 5.45
Class R	\$1,000	\$1,016.96	1.62%	\$ 8.17
Class Y	\$1,000	\$1,018.42	1.33%	\$ 6.76

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees.

See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

#### Notes to Schedule of Investments

(A)No dividends were paid during the preceding 12 months.

(B)Listed on an exchange outside the United States.

(C)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be liquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$15,279 or 1.3% of net assets.

The following acronym is used throughout this schedule: ADR = American Depositary Receipts

<sup>(3)</sup>Total return calculated without taking into account the sales load deducted on an initial purchase.

<sup>(4)</sup>Annualized.

<sup>(5)</sup> For the period from April 3, 2006 (commencement of operations of the class) through March 31, 2007.

<sup>(6)</sup>Class is closed to investment.

<sup>(7)</sup>For the period from April 2, 2007 (commencement of operations of the class) through March 31, 2008.

<sup>(8)</sup> For the fiscal year ended March 31, 2008.

Siks		Net Asset Value, End of Period	Total Return	Net Assets, End of Period (in millions)	Ratio of Expenses to Average Net Assets Including Expense Waiver	Ratio of Net Investment Income (Loss) to Average Net Assets Including Expense Waiver	Ratio of Expenses to Average Net Assets Excluding Expense Waiver <sup>(1)</sup>	Ratio of Net Investment Loss to Average Net Assets Excluding Expense Waiver <sup>(1)</sup>	Portfolio Turnover Rate

### NOTES TO FINANCIAL STATEMENTS

## Ivy Funds (amounts in thousands)

SEPTEMBER 30, 2010 (UNAUDITED)

### 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

On April 1, 2010, each of the 33 series of Ivy Funds, a Delaware statutory trust (Trust), became the successor fund to corresponding series of a Maryland corporation and a Massachusetts business trust pursuant to a Plan of Reorganization and Termination that was approved by shareholders of each fund (each, a Reorganization and collectively, the Reorganizations). The Reorganizations were accomplished through tax-free exchanges of shares, which had no impact on net assets and number of shares outstanding. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. Ivy Asset Strategy Fund, Ivy Asset Strategy New Opportunities Fund, Ivy Balanced Fund, Ivy Energy Fund, Ivy Global Natural Resources Fund, Ivy Real Estate Securities Fund and Ivy Science and Technology Fund (each, a Fund) are series of the Trust and are the only series of the Trust included in these financial statements. The investment objective(s), policies and risk factors of each Fund are described more fully in the Funds' Prospectus and Statement of Additional Information. Each Fund's investment manager is Ivy Investment Management Company (IICO or the Manager).

Each Fund offers Class A, Class B, Class C, Class I and Class Y shares. Certain Funds may offer Class E and/or Class R shares. Class A and Class E shares are sold at their offering price, which is normally net asset value plus a front-end sales charge. Class B and Class C shares are sold without a front-end sales charge but may be subject to a contingent deferred sales charge (CDSC). Class I, Class R and Class Y shares are sold without either a front-end sales charge or a CDSC. All classes of shares have identical rights and voting privileges with respect to the Fund in general and exclusive voting rights on matters that affect that class alone. Net investment income, net assets and net asset value per share may differ due to each class having its own expenses, such as transfer agent and shareholder servicing fees, directly attributable to that class. Class A, B, C, E, R and Y have a distribution and service plan. Class I shares are not included in the plan. Class B shares will automatically convert to Class A shares 96 months after the date of purchase.

The following is a summary of significant accounting policies consistently followed by each Fund.

**Securities Valuation.** Each Fund's investments are reported at fair value. Each Fund calculates the net asset value of its shares as of the close of the New York Stock Exchange (the NYSE), normally 4:00 P.M. Eastern time, on each day the NYSE is open for trading.

Equity securities traded on U.S. or foreign securities exchanges or included in a national market system are valued at the official closing price at the close of each business day unless otherwise stated below. Over-the-counter equity securities and listed securities for which no price is readily available are valued at the average of the last bid and asked prices.

Security prices for fixed-income securities are typically based on quotes that are obtained from an independent pricing service authorized by the Board of Trustees. To determine values of fixed-income securities, the independent pricing service utilizes such factors as current quotations by broker/dealers, coupon, maturity, quality, type of issue, trading characteristics, and other yield and risk factors it deems relevant in determining valuations. Securities that cannot be valued by the independent pricing service may be valued using quotes obtained from dealers that make markets in the securities.

Precious metals are valued at the last traded spot price prior to the close of the NYSE.

Listed options are valued at the closing price by the independent pricing service unless the price is unavailable, in which case they are valued at either the mean between the last bid and asked price or using a valuation obtained from a dealer in that security. Over-the-counter options are valued at the price provided by a dealer in that security. Swaps are valued by the independent pricing service unless the price is unavailable, in which case they are valued at the price provided by a dealer in that security. Futures contracts traded on an exchange are generally valued at the settlement price. Mutual funds, including investment funds, typically are valued at the net asset value reported as of the valuation date.

Forward foreign currency contracts are valued daily based upon the closing prices of the forward currency rates determined at the close of the NYSE.

Senior loans are valued using a price or composite price from one or more brokers or dealers as obtained from an independent pricing service.

Short-term securities with maturities of 60 days or less are valued on the basis of amortized cost (which approximates market value), whereby a portfolio security is valued at its cost initially, and thereafter valued to reflect a constant amortization to maturity of any discount or premium.

Because many foreign markets close before the NYSE, events may occur between the close of the foreign market and the close of the NYSE that could have a material impact on the valuation of foreign securities. IICO, pursuant to procedures adopted by the Board of Trustees, evaluates the impact of these events and may adjust the valuation of foreign securities to reflect the fair value as of the close of the NYSE. In addition, all securities for which market values are not readily available or are deemed unreliable are appraised at fair value as determined in good faith under the supervision of the Board of Trustees.

Security Transactions and Related Investment Income. Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Realized gains and losses are calculated on the identified cost basis. Interest income is recorded on the accrual basis and includes paydown gain (loss) and accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date, except certain dividends from foreign securities where the ex-dividend date may have passed, which are recorded as soon as the Fund is informed of the ex-dividend date. Upon notification from issuers, some of the distributions received from a real estate investment trust or publicly traded partnership may be redesignated as a reduction of cost of the related investment and/or realized gain.

**Securities on a When-Issued or Delayed Delivery Basis.** Certain Funds may purchase securities on a "when-issued" basis, and may purchase or sell securities on a "delayed delivery" basis. "When-issued" or "delayed delivery" refers to securities whose terms and indenture are available and for which a market exists, but which are not available for immediate delivery. Delivery and payment for securities that have been purchased by a Fund on a when-issued basis normally take place within six months and possibly as long as two years or more after the trade date. During this period, such securities do not earn interest, are subject to market fluctuation and may increase or decrease in value prior to their delivery. The purchase of securities on a when-issued basis may increase the volatility of a Fund's net asset value to the extent the Fund executes such transactions while remaining substantially fully invested. When a Fund engages in when-issued or delayed delivery transactions, it relies on the buyer or seller, as the case may be, to complete the transaction. Their failure to do so may cause the Fund to lose the opportunity to obtain or dispose of the security at a price and yield IICO, or the Fund's investment subadvisor, as applicable, consider advantageous. The Fund maintains internally designated assets with a market value equal to or greater than the amount of its purchase commitments. The Fund may also sell securities that it purchased on a when-issued or delayed delivery basis prior to settlement of the original purchase.

**Senior Loans.** A Fund invests in senior secured corporate loans (senior loans) either as an original lender or as a purchaser of a loan assignment or a participation interest in a loan. Senior loans are generally made to U.S. and foreign borrowers that are corporations, partnerships, or other business entities. Senior loans are generally readily marketable, but some loans may be illiquid or may be subject to some restrictions on resale.

Certain senior loans contain provisions that obligate a Fund to fund future commitments at the borrower's discretion. At September 30, 2010, there were no such unfunded commitments.

Mortgage Dollar Roll Transactions. Certain Funds enter into dollar roll transactions on securities issued or to be issued by the Government National Mortgage Association, Federal National Mortgage Association and Federal Home Loan Mortgage Corporation, in which the Fund sells mortgage securities and simultaneously agrees to repurchase similar (same type, coupon and maturity) securities at a later date at an agreed upon price. During the period between the sale and repurchase, the Fund forgoes principal and interest paid on the mortgage securities sold. The Fund is compensated from negotiated fees paid by brokers offered as an inducement to the Fund to "roll over" their purchase commitments. These fees are recognized over the roll period and are included in "Interest and amortization" in the Statement of Operations.

**Interest Only Obligations.** These securities entitle the owner to receive only the interest portion from a bond, Treasury note or pool of mortgages. These securities are generally created by a third party separating a bond or pool of mortgages into distinct interest-only and principal-only securities. As the principal (par) amount of a bond or pool of mortgages is paid down, the amount of interest income earned by the owner will decline as well.

**Credit Risk.** Certain Funds may hold high yield and/or non-investment-grade bonds, which may be subject to a greater degree of credit risk. Credit risk relates to the ability of the issuer to meet interest or principal payments or both as they become due. The Funds may acquire securities in default, and are not obligated to dispose of securities whose issuers subsequently default.

**Foreign Currency Translation.** Each Fund's accounting records are maintained in U.S. dollars. All assets and liabilities denominated in foreign currencies are translated into U.S. dollars daily using foreign exchange rates obtained from an independent pricing service authorized by the Board of Trustees. Purchases and sales of investment securities and accruals of income and expenses are translated at the rate of exchange prevailing on the date of the transaction. For assets and liabilities other than investments in securities, net realized and unrealized gains and losses from foreign currency translation arise from changes in currency exchange rates. Each Fund combines fluctuations from currency exchange rates and fluctuations in market value when computing net realized gain (loss) and net change in unrealized appreciation (depreciation) on investments. Foreign exchange rates are valued as of the close of the NYSE, normally 4:00 P.M. Eastern time, on each day the NYSE is open for trading, primarily using an independent pricing service authorized by the Board of Trustees.

**Repurchase Agreements.** Each Fund may purchase securities subject to repurchase agreements, which are instruments under which the Fund purchases a security and the seller (normally a commercial bank or broker-dealer) agrees, at the time of purchase, that it will repurchase the security at a specified time and price. Repurchase agreements are collateralized by the value of the resold securities which, during the entire period of the agreement, generally remains at least equal to the value of the agreement, including accrued interest thereon. The collateral for the repurchase agreement is held by a custodian bank.

**Investments with Off-Balance Sheet Risk.** Certain Funds may enter into financial instrument transactions (such as swaps, futures, options and other derivatives) that may have off-balance sheet market risk. Off-balance sheet market risk exists when the maximum potential loss on a particular financial instrument is greater than the value of such financial instrument, as reflected in the Statement of Assets and Liabilities.

Segregation and Collateralization. In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC) require that a Fund either deliver collateral or segregate assets in connection with certain investments (e.g., dollar rolls, financial futures contracts, foreign currency exchange contracts, options written, securities with extended settlement periods and swaps), the Fund will segregate collateral or designate on its books and records cash or other liquid securities having a market value at least equal to the amount that is required to be physically segregated for the benefit of the counterparty. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each party has requirements to deliver/deposit cash or securities as collateral for certain investments.

**Allocation of Income, Expenses, Gains and Losses.** Income, expenses (other than those attributable to a specific class), gains and losses are allocated on a daily basis to each class of shares based upon the relative proportion of net assets represented by such class. Operating expenses directly attributable to a specific class are charged against the operations of that class.

**Income Taxes.** It is the policy of each Fund to distribute all of its taxable income and capital gains to its shareholders and otherwise qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. In addition, each Fund intends to pay distributions as required to avoid imposition of excise tax. Accordingly, no provision has been made for Federal income taxes. Management of the Trust periodically reviews all tax positions to assess that it is more likely than not that the position would be sustained upon examination by the relevant tax authority based on the technical merits of each position. As of and for the fiscal period ended September 30, 2010, management believes that under this standard no liability for unrecognized tax positions is required. The Funds are subject to examination by U.S. federal and state authorities for returns filed for tax years after 2006.

**Dividends and Distributions to Shareholders.** Dividends and distributions to shareholders are recorded by each Fund on the business day following record date. Net investment income dividends and capital gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America.

**Custodian Fees.** "Custodian fees" in the Statement of Operations may include interest expense incurred by a Fund on any cash overdrafts of its custodian account during the period. Such cash overdrafts may result from the effects of failed trades in portfolio securities and from cash outflows resulting from unanticipated shareholder redemption activity. A Fund pays interest to its custodian on such cash overdrafts, to the extent they are not offset by positive cash balances maintained by that Fund, at a rate equal to the custodian's prime rate less 150 basis points. The "Earnings credit" line item, if shown, represents earnings on cash balances maintained by that Fund during the period. Such interest expense and other custodian fees may be paid with these earnings.

**Trustees and Chief Compliance Officer Fees.** Fees paid to the Trustees can be paid in cash or deferred to a later date, at the election of the Trustee according to the Deferred Fee Agreement entered into between the Trust and the Trustee(s). Each Fund records its portion of the deferred fees as a liability on the Statement of Assets and Liabilities. All fees paid in cash plus any appreciation (depreciation) in the underlying deferred plan are shown on the Statement of Operations. Additionally, fees paid to the office of the Chief Compliance Officer of the Funds are shown on the Statement of Operations.

**Indemnifications.** The Trust's organizational documents provide current and former Trustees and Officers with a limited indemnification against liabilities arising in connection with the performance of their duties to the Trust. In the normal course of business, the Trust may also enter into contracts that provide general indemnifications. The Trust's maximum exposure under these arrangements is unknown and is dependent on future claims that may be made against the Trust. The risk of material loss from such claims is considered remote.

**Concentration of Risk.** Certain Funds may have a concentration of risk, which includes, but is not limited to, investing in international securities. International investing involves additional risks including, but not limited to, currency fluctuations, political or economic conditions affecting the foreign country and differences in accounting standards and foreign regulations.

Other. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. Management has performed a review for subsequent events through the date this report was issued.

#### 2. INVESTMENT MANAGEMENT AND PAYMENTS TO AFFILIATED PERSONS

Management Fees. IICO, a wholly owned subsidiary of Waddell & Reed Financial, Inc. (WDR), serves as each Fund's investment manager. The management fee is accrued daily by each Fund at the following annual rates:

Fund	Net Asset Breakpoints	Annual Rate
Ivy Asset Strategy Fund	Up to \$1 Billion	0.700%
	Over \$1 Billion up to \$2 Billion	0.650%
	Over \$2 Billion up to \$3 Billion	0.600%
	Over \$3 Billion	0.550%
Ivy Asset Strategy New Opportunities Fund	Up to \$500 Million	1.000%
	Over \$500 Million up to \$1 Billion	0.850%
	Over \$1 Billion up to \$2 Billion	0.830%
	Over \$2 Billion up to \$3 Billion	0.800%
	Over \$3 Billion	0.760%
Ivy Balanced Fund	Up to \$1 Billion	0.700%
	Over \$1 Billion up to \$2 Billion	0.650%
	Over \$2 Billion up to \$3 Billion	0.600%
	Over \$3 Billion	0.550%
Ivy Energy Fund	Up to \$1 Billion	0.850%
	Over \$1 Billion up to \$2 Billion	0.830%
	Over \$2 Billion up to \$3 Billion	0.800%
	Over \$3 Billion	0.760%
lvy Global Natural Resources Fund	Up to \$500 Million	1.000%
	Over \$500 Million up to \$1 Billion	0.850%
	Over \$1 Billion up to \$2 Billion	0.830%
	Over \$2 Billion up to \$3 Billion	0.800%
	Over \$3 Billion	0.760%
Ivy Real Estate Securities Fund	Up to \$1 Billion	0.900%
	Over \$1 Billion up to \$2 Billion	0.870%
	Over \$2 Billion up to \$3 Billion	0.840%
	Over \$3 Billion	0.800%
Ivy Science and Technology Fund	Up to \$1 Billion	0.850%
	Over \$1 Billion up to \$2 Billion	0.830%
	Over \$2 Billion up to \$3 Billion	0.800%
	Over \$3 Billion	0.760%
	· · · · · · · · · · · · · · · · · · ·	

For Funds managed solely by IICO, IICO has voluntarily agreed to waive a Fund's management fee on any day that the Fund's net assets are less than \$25 million, subject to IICO's right to change or modify this waiver. See Expense Reimbursements and/or Waivers below for amounts waived during the fiscal period ended September 30, 2010.

IICO has entered into Subadvisory Agreements with the following entities on behalf of certain Funds.

Under an agreement between IICO and Mackenzie Financial Corporation (Mackenzie), Mackenzie serves as subadvisor to Ivy Global Natural Resources Fund. Advantus Capital Management, Inc. serves as subadvisor to Ivy Real Estate Securities Fund. Each subadvisor makes investment decisions in accordance with the Fund's investment objectives, policies and restrictions under the supervision of IICO and the Board of Trustees. IICO pays all costs associated with retaining the subadvisors.

Accounting Services Fees. The Trust has an Accounting Services Agreement with Waddell & Reed Services Company, doing business as WI Services Company (WISC), an indirect subsidiary of WDR. Under the agreement, WISC acts as the agent in providing bookkeeping and accounting services and assistance to the Trust, including maintenance of Fund records, pricing of Fund shares and preparation of certain shareholder reports. For these services, each Fund pays WISC a monthly fee of one-twelfth of the annual fee shown in the following table:

#### Accounting Services Fee

Averag	je Net (in mil			Annual Fee Rate for Each Level	
From \$	0	to	\$	10	\$ 0
From \$	10	to	\$	25	\$ 11.5
From \$	25	to	\$	50	\$ 23.1
From \$	50	to	\$	100	\$ 35.5
From \$	100	to	\$	200	\$ 48.4
From \$	200	to	\$	350	\$ 63.2
From \$	350	to	\$	550	\$ 82.5
From \$	550	to	\$	750	\$ 96.3
From \$	750	to	\$1	,000	\$121.6
From \$1	,000	and	Ove	er	\$148.5

In addition, for each class of shares in excess of one, each Fund pays WISC a monthly per-class fee equal to 2.5% of the monthly accounting services base fee.

**Administrative Fee.** Each Fund also pays WISC a monthly fee at the annual rate of 0.01%, or one basis point, for the first \$1 billion of net assets with no fee charged for net assets in excess of \$1 billion. This fee is voluntarily waived by WISC until a Fund's net assets are at least \$10 million.

**Shareholder Servicing. General.** Under the Shareholder Servicing Agreement between the Trust and WISC, with respect to Class A, Class B, Class C and Class E shares, for each shareholder account that was in existence at any time during the prior month, each Fund pays a monthly fee that ranges from \$1.5042 to \$1.6958; however, WISC has agreed to reduce that fee if the number of total shareholder accounts within the Complex (Waddell & Reed Advisors Funds, Waddell & Reed InvestEd Portfolios and Ivy Funds) reaches certain levels. For Class R shares, each Fund pays a monthly fee equal to one-twelfth of 0.20 of 1% of the average daily net assets of the class for the preceding month. For Class I and Class Y shares, each Fund pays a monthly fee equal to one-twelfth of 0.15 of 1% of the average daily net assets of the class for the preceding month. Each Fund also reimburses WISC for certain out-of-pocket costs for all classes.

**Networked accounts.** For certain networked accounts (that is, those accounts whose Fund shares are purchased through certain financial intermediaries), WISC has agreed to reduce its per account fees charged to the Funds to \$0.50 per month per shareholder account. Additional fees may be paid by the Funds to those intermediaries. If the aggregate annual rate of the WISC transfer agent fee and the costs charged by the financial services companies exceeds \$18.00 per account for a Fund, WISC will reimburse the Fund the amount in excess of \$18.00.

**Broker accounts.** Certain broker-dealers that maintain shareholder accounts with each Fund through an omnibus account provide transfer agent and other shareholder-related services that would otherwise be provided by WISC if the individual accounts that comprise the omnibus account were opened by their beneficial owners directly. Each Fund may pay such broker-dealers a per account fee for each open account within the omnibus account, or a fixed rate fee, based on the average daily net asset value of the omnibus account (or a combination thereof).

**Distribution and Service Plan. Class A and Class E Shares.** Under a Distribution and Service Plan adopted by the Trust pursuant to Rule 12b–1 under the Investment Company Act of 1940 (the Distribution and Service Plan), each Fund may pay a distribution and/or service fee to Ivy Funds Distributors, Inc. (IFDI) for Class A and Class E shares in an amount not to exceed 0.25% of the Fund's average annual net assets. The fee is to be paid to compensate IFDI for amounts it expends in connection with the distribution of the Class A and Class E shares and/or provision of personal services to Fund shareholders and/or maintenance of shareholder accounts of that class.

**Class B and Class C Shares.** Under the Distribution and Service Plan, each Fund may pay IFDI a service fee not to exceed 0.25% and a distribution fee not to exceed 0.75% of the Fund's average annual net assets for Class B and Class C shares to compensate IFDI for its services in connection with the distribution of shares of that class and/or provision of personal services to Class B or Class C shareholders and/or maintenance of shareholder accounts of that class.

**Class Y Shares.** Under the Distribution and Service Plan, each Fund may pay IFDI a fee of up to 0.25%, on an annual basis, of the average daily net assets of the Fund's Class Y shares to compensate IFDI for, either directly or through third parties, distributing the Class Y shares of that Fund, providing personal services to Class Y shareholders and/or maintaining Class Y shareholder accounts.

**Class R Shares.** Under the Distribution and Service Plan, each Fund may pay IFDI a fee of up to 0.50%, on an annual basis, of the average daily net assets of the Fund's Class R shares to compensate IFDI for, either directly or through third parties, distributing the Class R shares of that Fund, providing personal services to Class R shareholders and/or maintaining Class R shareholder accounts.

**Sales Charges.** As principal underwriter for the Trust's shares, IFDI receives sales commissions (which are not an expense of the Trust) for sales of Class A and Class E shares. A contingent deferred sales charge (CDSC) may be assessed against a shareholder's redemption amount of Class B, Class C or certain Class A and Class E shares and is paid to IFDI. During the fiscal period ended September 30, 2010, IFDI received the following amounts in sales commissions and CDSCs:

	Gross Sales		CDSC					
	Commissions	Class A	Class B	Class C	Class E			
Ivy Asset Strategy Fund	\$ 2,582	\$ 42	\$610	\$758	\$ —			
Ivy Asset Strategy New Opportunities Fund	163	_	_	*	_			
lvy Balanced Fund	91	*	4	2	_			
Ivy Energy Fund	59	_	1	2	_			
Ivy Global Natural Resources Fund	1,170	8	158	99	_			
lvy Real Estate Securities Fund	195	*	2	*	_			
Ivy Science and Technology Fund	221	*	23	24	_			
*Not shown due to rounding.								

With respect to Class A, Class B, Class C and Class E shares, IFDI pays sales commissions and all expenses in connection with the sale of the Trust's shares, except for registration fees and related expenses. During the fiscal period ended September 30, 2010, the following amounts were paid by IFDI:

Ivy Asset Strategy Fund.	\$11,414
Ivy Asset Strategy New Opportunities Fund	221
lvy Balanced Fund	155
lvy Energy Fund	73
lvy Global Natural Resources Fund	1,588
lvy Real Estate Securities Fund	203
lvy Science and Technology Fund	445

**Expense Reimbursements and/or Waivers**. Fund and class expense limitations and related waivers/reimbursements for the fiscal period ended September 30, 2010 are as follows:

Any amounts due to the funds as a reimbursement but not paid as of September 30, 2010 are shown as a receivable from affiliates on the Statement of Assets and Liabilities.

### 3. INVESTMENT VALUATIONS

Fair value is defined as the price that each Fund would receive upon selling an asset or would pay upon satisfying a liability in an orderly transaction between market participants at the measurement date. Accounting standards establish a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the factors that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. An individual investment's fair value measurement is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1 – unadjusted quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments)

The following tables summarize the valuation of each Fund's investments by the above fair value hierarchy levels as of September 30, 2010. The Schedule of Investments provides additional details on each Fund's portfolio holdings.

Ending Balance 9–30–10	\$7,	260	\$12	2,565	\$		\$ 5	,833	\$	_	\$	
Net change in unrealized appreciation (depreciation) for all Level 3 investments still held as of 9–30–10	\$	_	\$	_	\$	_	\$(2	2,595)	\$	_	\$	_

Transfers from Level 2 to Level 3 occurred generally due to the lack of observable market data due to decreased market activity or information for these securities. Transfers from Level 3 to Level 2 occurred generally due to the increased availability of observable market data due to increased market activity or information. As shown above, transfers in and out of Level 3 represent the value at the later of the beginning of the fiscal period or the purchase date of the security.

Net realized gain (loss) and net unrealized appreciation (depreciation), shown on the reconciliation of Level 3 investments if applicable, are included on the Statement of Operations in net realized gain (loss) on investments in unaffiliated securities and in net change in unrealized appreciation (depreciation) on investments in unaffiliated securities, respectively. Additionally, the net change in unrealized appreciation for all Level 3 investments still held as of September 30, 2010, if applicable, is included on the Statement of Operations in net change in unrealized appreciation (depreciation) on investments in unaffiliated securities.

As shown above, the Funds may own different types of assets that are classified as Level 2 or Level 3. Assets classified as Level 2 can have a variety of observable inputs, including, but not limited to, benchmark yields, reported trades, broker quotes, benchmark securities, and bid/offer quotations. These observable inputs are collected and utilized, primarily by an independent pricing service, in different evaluated pricing approaches depending upon the specific asset to determine a value.

Securities' values included in the reconciliations above have been primarily determined through the use of a single quote (or multiple quotes) from dealer(s) in the securities using proprietary valuation models. These quotes involve significant unobservable inputs, and thus the related securities are classified as Level 3 investments.

#### 4. INVESTMENT SECURITIES TRANSACTIONS

For the fiscal period ended September 30, 2010, the cost of purchases and the proceeds from maturities and sales of investment securities, other than U.S. Government and short-term securities, were as follows:

	Purchases	Sales
lvy Asset Strategy Fund	\$7,639,645	\$8,679,839
Ivy Asset Strategy New Opportunities Fund	98,194	12,157
lvy Balanced Fund	53,327	42,690
Ivy Energy Fund	17,653	9,175
lvy Global Natural Resources Fund	2,242,380	2,706,364
lvy Real Estate Securities Fund	124,908	113,143
lvy Science and Technology Fund	226,243	191,159

Purchases of and proceeds from maturities and sales of U.S. Government securities were as follows:

	Pur	chases	Sales
Ivy Asset Strategy Fund	\$	_	\$ 448
lyy Balanced Fund		_	303

#### 5. FEDERAL INCOME TAX MATTERS

For Federal income tax purposes, cost of investments owned at September 30, 2010 and the related unrealized appreciation (depreciation) were as follows:

Fund	Cost of investments	Gross appreciation	Gross depreciation	Net unrealized appreciation
Ivy Asset Strategy Fund	\$18,039,556	\$4,991,407	\$158,196	\$4,833,211
Ivy Asset Strategy New Opportunities Fund	95,772	14,852	406	14,446
Ivy Balanced Fund	153,063	30,259	1,134	29,125
Ivy Energy Fund	74,913	16,355	1,776	14,579
lvy Global Natural Resources Fund	4,609,371	722,672	160,928	561,744
Ivy Real Estate Securities Fund	286,238	67,068	2,593	64,475
Ivy Science and Technology Fund	988,774	174,698	43,676	131,022

For Federal income tax purposes, the Funds' distributed and undistributed earnings and profit for the fiscal year ended March 31, 2010 and the related net capital losses and post-October activity updated with information available through the date of this report were as follows:

	lvy Asset Strategy Fund	lvy Balanced Fund	lvy Energy Fund	Global Resc	vy Natural ources und	lvy Real Estate Securities Fund	lvy Science and Technology Fund
Net ordinary income	\$ 85,403	\$ 1,976	\$ _	\$	_	\$ 4,044	\$21,014
Distributed ordinary income	54,493	1,954	_		_	4,165	5,334
Undistributed ordinary income	30,910	89	_		_	714	15,680
Realized long term capital gains	_	_	_		_	_	_
Distributed long term capital gains	_		_		_	_	_
Undistributed long term capital gains	_	_	_			_	_
Post-October losses deferred	4,599	_	_	14	1,246	5,124	4,280

Internal Revenue Code regulations permit each Fund to defer into its next fiscal year net capital losses or net long-term capital losses and currency losses incurred between each November 1 and the end of its fiscal year (post-October losses). Distributions shown above may be reported differently to individual shareholders.

Capital loss carryovers are available to offset future net realized gains incurred in the eight taxable years succeeding the loss year for Federal income tax purposes. The following tables show the totals by year in which the capital loss carryovers will expire if not utilized.

### 7. DERIVATIVE INSTRUMENTS

The following disclosures contain information on why and how the Funds use derivative instruments, the associated risks of investing in derivative instruments, and how derivative instruments affect the Funds' financial position and results of operations when presented by primary underlying risk exposure.

**Forward Foreign Currency Contracts.** Certain Funds may enter into forward foreign currency contracts (forward contracts) for the purchase or sale of a foreign currency at a negotiated rate at a future date. Forward contracts are reported on a schedule following the Schedule of Investments. Forward contracts will be valued daily based upon the closing prices of the forward currency rates determined at the close of the NYSE as provided by a bank, dealer or independent pricing service. The resulting unrealized appreciation and depreciation is reported in the Statement of Assets and Liabilities as a receivable or payable and in the Statement of Operations within the change in unrealized appreciation (depreciation). At contract close, the difference between the original cost of the contract and the value at the close date is recorded as a realized gain (loss) in the Statement of Operations.

Risks to a Fund related to the use of such contracts include both market and credit risk. Market risk is the risk that the value of the forward contract will depreciate due to unfavorable changes in the exchange rates. Credit risk arises from the possibility that the counterparty will default. If the counterparty defaults, a Fund's maximum loss will consist of the aggregate unrealized gain on appreciated contracts.

**Futures Contracts.** Certain Funds may engage in buying and selling futures contracts. Upon entering into a futures contract, the Fund is required to deposit, in a segregated account, an amount equal to a varying specified percentage of the contract amount. This amount is known as the initial margin. Subsequent payments (variation margins) are made or received by the Fund each day, dependent on the daily fluctuations in the value of the underlying debt security or index.

Futures contracts are reported on a schedule following the Schedule of Investments. Securities held in collateralized accounts to cover initial margin requirements on open futures contracts are identified in the Schedule of Investments. Cash held by the broker to cover initial margin requirements on open futures contracts and the receivable and/or payable for the daily mark to market for the variation margin are noted in the Statement of Assets and Liabilities. The net change in unrealized appreciation (depreciation) is reported in the Statement of Operations. Realized gains (losses) are reported in the Statement of Operations at the closing or expiration of futures contracts.

Risks of entering into futures contracts include the possibility of loss of securities or cash held as collateral, that there may be an illiquid market where the Fund is unable to close the contract or enter into an offsetting position and, if used for hedging purposes, the risk that the price of the contract will correlate imperfectly with the prices of the Fund's securities.

Swap Agreements. Certain Funds may invest in swap agreements.

Credit default swaps involve the exchange of a fixed rate premium for protection against the loss in value of an underlying security in the event of a defined credit event, such as payment default or bankruptcy. Under a credit default swap one party acts as a guarantor by receiving the fixed periodic payment in exchange for the commitment to purchase the underlying security at par if the defined credit event occurs. A Fund may enter into credit default swaps in which either it or its counterparty act as the guarantor.

Total return swaps involve a commitment to pay periodic interest payments in exchange for a market-linked return based on a security or a basket of securities representing a variety of securities or a particular index. To the extent the total return of the security, index or other financial measure underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Fund will receive a payment from or make a payment to the counterparty.

Variance swaps involve a contract in which two parties agree to exchange cash flows based on the measured variance of a specified underlying security or index during a certain time period. On the trade date, the two parties agree on the strike price of the contract (the reference level against which cash flows are exchanged), as well as the number of units in the transaction and the length of the contract. Like an option contract, the value of a variance swap is influenced by both realized and implied volatility, as well as the passage of time. A Fund may enter into variance swaps to manage volatility risk.

The creditworthiness of firms with which a Fund enters into a swap agreement is monitored by IICO. If a firm's creditworthiness declines, the value of the agreement would likely decline, potentially resulting in losses. If a default occurs by the counterparty to such a transaction, the Fund will have contractual remedies pursuant to the agreement related to the transaction. The maximum loss a Fund may incur consists of the aggregate gain on appreciated contracts.

**Option Contracts.** Options purchased by a Fund are accounted for in the same manner as marketable portfolio securities. The cost of portfolio securities acquired through the exercise of call options is increased by the premium paid to purchase the call. The proceeds from securities sold through the exercise of put options are decreased by the premium paid to purchase the put.

When a Fund writes (sells) an option, an amount equal to the premium received by the Fund is recorded as a liability. The amount of the liability is subsequently adjusted to reflect the current market value of the option written. The current market value of an option is the last sales price on the principal exchange on which the option is traded or, in the absence of transactions, the mean between the bid and asked prices or at a value supplied by a broker-dealer. When an option expires on its stipulated expiration date or a Fund enters into a closing purchase transaction, the Fund realizes a gain (or loss if the cost of a closing purchase transaction exceeds the

premium received when the call option was sold) and the liability related to such option is extinguished. When a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether a Fund has realized a gain or loss. For each Fund, when a written put is exercised, the cost basis of the securities purchased by a Fund is reduced by the amount of the premium received.

Investments in options, whether purchased or written, involve certain risks. Writing put options and purchasing call options may increase a Fund's exposure to the underlying security (or basket of securities). With written options, there may be times when a Fund will be required to purchase or sell securities to meet its obligation under the option contract where the required action is not beneficial to the Fund, due to unfavorable movement of the market price of the underlying security (or basket of securities). Additionally, to the extent a Fund enters into over-the-counter (OTC) option transactions with counterparties, the Fund will be exposed to the risk that counterparties to these OTC transactions will be unable to meet their obligations under the terms of the transaction.

**Collateral.** A Fund may mitigate counterparty risk through credit support annexes (CSA) included with an International Swaps and Derivatives Association, Inc. (ISDA) Master Agreement which is the standard contract governing most derivative transactions between the Fund and each of its counterparties. The CSA allows the Fund and its counterparty to offset certain derivative financial instruments' payables and/or receivables with collateral, which is generally held by the Fund's custodian. The amount of collateral moved to/from applicable counterparties is based upon minimum transfer amounts specified in the CSA. To the extent amounts due to the Fund from its counterparties are not fully collateralized contractually or otherwise, the Fund bears the risk of loss from counterparty non-performance. See Note 1 "Segregation and Collateralization" for additional information with respect to collateral practices.

### **Objectives and Strategies**

**Ivy Asset Strategy Fund.** The Fund's objectives in using derivatives during the period included hedging market risk on equity securities, increasing exposure to various equity markets, managing exposure to various foreign currencies, and hedging certain event risks on positions held by the Fund. To achieve the objective of hedging market risk and increasing exposure to equity markets, the Fund utilized futures and option contracts on foreign and domestic equity indices. To manage foreign currency exposure, the Fund utilized forward contracts and option contracts to either increase or decrease exposure to a given currency. To manage event risks, the Fund utilized short futures on foreign and domestic equity indices and option contracts, both written and purchased, on individual equity securities owned by the Fund.

Fair values of derivative instruments as of September 30, 2010:

Change in Unrealized

<sup>\*\*</sup>Purchased options are reported as investments in unaffiliated securities and are reflected in the accompanying Schedule of Investments.

During the fiscal period ended September 30, 2010, the Fund's average principal amount outstanding and market value outstanding for forward contracts and futures contracts, respectively, were as follows: short forward contracts – \$3,604,192, long forward contracts – \$3,588,942, short futures contracts – \$5,831,154. Additionally, the Fund's average number of purchased option contracts and written option contracts outstanding was 151 and 25, respectively.

**Ivy Asset Strategy New Opportunities Fund.** The Fund's objectives in using derivatives during the period included hedging market risk on equity securities, managing the exposure to various foreign currencies, and gaining exposure to certain individual or baskets of securities that are not readily available for direct purchase. To achieve the objective of hedging market risk, the Fund utilized futures contracts on foreign and domestic equity indices. To manage foreign currency exposure, the Fund utilized forward contracts to either increase or decrease exposure to a given currency. To gain exposure to certain individual or baskets of securities, the Fund utilized total return swaps.

Fair values of derivative instruments as of September 30, 2010:

During the fiscal period ended September 30, 2010, the Fund's average principal amount outstanding for forward contracts were as follows: short forward contracts – \$2,172, long forward contracts – \$2,104. Additionally, the Fund's average number of swap contracts outstanding was 145.

**Ivy Global Natural Resources Fund.** The Fund's objectives in using derivatives during the period were to hedge market risk on equity securities, increase exposure to specific sectors or companies, and manage exposure to various foreign currencies. To achieve the objective of hedging market risk and increasing exposure to equity markets, the Fund utilized futures on equity indices and purchased option contracts on individual equity securities. To manage foreign currency exposure, the Fund utilized forward contracts to either increase or decrease exposure to a given currency.

Fair values of derivative instruments as of September 30, 2010:

Total		\$(113,117)	\$(31,521)

During the fiscal period ended September 30, 2010, the Fund's average principal amount outstanding and market value outstanding for forward contracts and futures contracts, respectively, were as follows: short forward contracts – \$632,538, long forward contracts – \$627,049, short futures contracts – \$333,419. Additionally, the Fund's average number of purchased option contracts outstanding was 258

**Ivy Science and Technology Fund.** The Fund's objective in using derivatives during the period was to hedge market risk on securities in its portfolio. To achieve this objective, the Fund utilized options, both written and purchased, on individual equity securities owned by the Fund.

There were no open derivative instruments as of September 30, 2010.

The effect of derivative instruments on the Statement of Operations for the fiscal period ended September 30, 2010:

Type of Risk Exposure	Location of Gain (Loss) on Derivatives Recognized in the Statement of Operations	Realized Gain (Loss) on Derivatives Recognized in the Statement of Operations	Appreciation (Depreciation) on Derivatives Recognized in the Statement of Operations
Equity	Net realized gain (loss) on investments in unaffiliated securities and written options	\$4,555	\$0

During the fiscal period ended September 30, 2010, the Fund's average number of purchased option contracts and written option contracts outstanding was 84 and 198, respectively.

#### 8. COMMITMENTS

In connection with Ivy Asset Strategy Fund's investment in Vietnam Azalea Fund Limited (VAF), the Fund is contractually committed to provide additional capital of up to \$3,732 if and when VAF requests such contributions or draw downs. The total commitment is limited to \$11,000. At September 30, 2010, Ivy Asset Strategy Fund had made a total contribution of \$7,268. No public market currently exists for the shares of VAF nor are the shares listed on any securities exchange. VAF intends to become listed within one year after the final commitment has been drawn down. VAF's investment strategy is to make minority investments in future blue-chip Vietnamese companies that are already listed or intend to be listed in the next 24 months.

Outstanding at September 30, 2010		\$ —

<sup>\*</sup>Not shown due to rounding.

<sup>(2)</sup>Company was no longer an affiliate at September 30, 2010.

### RENEWAL OF INVESTMENT MANAGEMENT AGREEMENT <a href="https://linear.com/linear

At a meeting of the Board of Trustees of Ivy Funds (the "Trust") held on August 24 and 25, 2010, the Trustees, including all of the Trustees who are not "interested persons," as defined in Section 2(a)(19) of the 1940 Act, unanimously approved the continuance of the Investment Management Agreement between Ivy Investment Management Company ("IICO") and the Trust and the continuance of the Investment Subadvisory Agreements between IICO and:

- Advantus Capital Management, Inc. (with respect to Ivy Bond Fund, Ivy Mortgage Securities Fund and Ivy Real Estate Securities Fund)
- Mackenzie Financial Corporation (with respect to Ivy Global Natural Resources Fund and Ivy Cundill Global Value Fund)
- Wall Street Associates (with respect to Ivy Micro Cap Growth Fund)

(each such subadviser referred to herein as a "Subadviser").

The Board's Independent Trustees were assisted in their review by independent legal counsel, and met with such counsel separately from representatives of IICO. Independent legal counsel provided the Board with a memorandum that discussed the various factors that the Board should consider as part of its review of the various agreements, including, among other things, the nature and the quality of the services provided by IICO and the Subadvisers, profitability (including any fall-out benefits) from the relationships with each series of the Trust (each a "Fund," and together, the "Funds"), economies of scale, the role played by the Independent Trustees, and information on comparative fees and expenses. The Board also considered the written responses and supplementary materials produced by IICO and each Subadviser in response to a 15(c) due diligence request list submitted by the Independent Trustees' counsel prior to the meeting. Included in those responses, which had been provided to the Board prior to the meeting, was a Fund-by-Fund profitability analysis prepared by IICO, as well as an explanation of the methodology by which the profitability analysis was calculated. The Board also received extensive materials on performance, expenses and comparable fund information from Lipper, Inc., an independent mutual fund rating service. Finally, the Independent Trustees received and reviewed a considerable amount of information that their independent fee consultant had provided to them. The Independent Trustees previously had reviewed these materials during a telephonic meeting earlier in August. They further reviewed these materials extensively among themselves, with their independent legal counsel and independent fee consultant, and with the other Board members at the August 24th and 25th Board meeting, after which the Board considered various factors described below, none of which by itself was considered dispositive. However, the material factors and conclusions that formed the basis for the Board's determination to approve the agreements are discussed separately below.

### Nature, Extent and Quality of Services

The Board considered the nature, extent and quality of services provided to the Funds by IICO and each Subadviser, taking into account the large amount of materials produced by IICO and each Subadviser in response to the 15(c) due diligence request lists submitted on their behalf by counsel. They also considered the knowledge they had received from the regular meetings of the Board, including from the materials provided in connection with those meetings, such as the resources and key personnel of IICO and each Subadviser, as well as the other services provided to the Funds by IICO and each Subadviser (such as, managing the quality of execution of portfolio transactions and the selection of broker-dealers for those transactions, monitoring adherence to each Fund's investment restrictions, producing reports, providing support services for the Board and Board committees, communicating with shareholders and overseeing the activities of other service providers, including monitoring compliance with various Fund policies and procedures and with applicable securities laws and regulations). The Board concluded that the nature and extent of the services provided by IICO and each Subadviser were appropriate, that the quality of those services had been consistent with quality norms in the industry and that the Funds were likely to benefit from the continued provision of those services.

### Benefits from the Relationship with the Funds

The Board next discussed whether IICO or any Subadviser derives any other direct or indirect benefit from serving the Funds. The Board considered the benefits that accrue to each organization from its respective relationship with a Fund, including the fact that a variety of services are provided by affiliates of IICO, including distribution, shareholder servicing, administrative and fund accounting services. After full consideration of these and other factors, the Board concluded that none of IICO, any Subadviser or any of their affiliates receive any additional direct or indirect benefits that would preclude the Board from approving the continuation of an investment advisory agreement with IICO or any investment sub-advisory agreement with a Subadviser.

#### **Economies of Scale**

The Board discussed whether economies of scale are being realized by the Funds and whether fee levels reflect those economies of scale for the benefit of the Funds' shareholders. In that context, the Board discussed the current level of the Funds' advisory fee breakpoints and also considered the current and anticipated asset levels of the Funds and the potential for growth in each Fund. The Board concluded that the Funds' asset sizes and fee structures did not warrant the restructuring or reevaluation of the fee breakpoints for the Funds at the current time.

#### Performance of the Funds and Costs of Services Provided

The Board considered, on a Fund by Fund basis, the performance of each Fund and the costs of the services provided. The Board focused particularly on, among other Funds, the Ivy Asset Strategy Fund, Ivy Bond Fund, Ivy Capital Appreciation Fund, Ivy Cundill Global Value Fund, Ivy European Opportunities Fund, Ivy Global Bond Fund, Ivy Global Natural Resources Fund and Ivy Large Cap Growth Fund. In addition, the Board considered that IICO relatively recently had assumed the day-to-day portfolio management responsibilities for the Ivy European Opportunities Fund and the Ivy International Balanced Fund, replacing those Funds' subadvisers.

Specifically, the Board examined the investment performance of each Fund, including quartile ranking for short- and long-term time periods and each Fund's performance against its peers. The Board also examined the performance of each Fund against its respective Lipper index for the same periods. After extensively reviewing all of the performance information provided, the Board concluded that the Funds' performance in each asset class was acceptable. Although the performance of some of the focus Funds identified by the independent fee consultant lagged that of their peers or respective Lipper index, the Board recognized that IICO, or the applicable Subadviser, had taken, or was taking, steps to address that underperformance, and determined to continue to monitor closely the performance of those Funds.

The Board also considered the expenses of each Fund, the expense ratio of each Fund, and the expense limitation arrangements entered into by IICO in light of the services provided by IICO and each Subadviser. The Board also compared each Fund's expenses, including advisory, distribution and shareholder servicing fees, with the expenses and advisory fees of other investment advisers managing similarly situated funds, as well as the advisory fees that IICO (or an affiliate) charges for providing advisory services to separately managed accounts in the same asset class for certain Funds. In that regard, the Board noted that IICO performs significant additional services for the Funds as compared to such separately managed accounts. The Board also took into account the information on IICO's profitability in managing the Funds, including the methodology used to calculate profitability. The Board finally considered the amount of assets in each Fund, each Fund's average account size and how those factors affect the Funds' expense ratios, noting that, as the Funds' assets have increased over time, the expense ratios of the Funds generally have fallen. After completing this examination, the Board concluded that each Fund's expenses are appropriate at the current time.

### Independent Fee Consultant Review

During August of 2010, and as part of their regularly scheduled meetings, the Disinterested Trustees of Ivy Funds (collectively, the "Ivy Funds" and any separate series thereof an "Ivy Fund") reviewed significant information in connection with considering the continuation of existing investment management agreements currently in effect between Ivy Investment Management Company ("IICO") and the Ivy Funds. Pursuant to the Assurance of Discontinuance between Waddell & Reed, Inc., Waddell & Reed Services Company ("WRSCO"), and Waddell & Reed Investment Management Company (collectively, "Waddell") and the Office of the New York Attorney General dated July 10, 2006 ("Assurance of Discontinuance"), the Disinterested Trustees of the Ivy Funds engaged an independent fee consultant to assist them in evaluating the reasonableness of the management fees charged by IICO, an affiliate of Waddell, to the Ivy Funds. The independent fee consultant's review addressed the following fee-related factors:

- 1. The nature, extent and quality of IICO's services to the Ivy Funds, including performance
- 2. Management fees (including any components thereof) charged by other mutual fund companies for like services
- 3. Management fees (including any components thereof) charged to institutional and other clients of IICO for like services
- 4. Costs to IICO and its affiliates of supplying services pursuant to the management fee agreements, excluding any intra-corporate profit
- 5. Profit margins of IICO and its affiliates from supplying such services
- 6. Possible economies of scale as an Ivy Fund grows larger

The following summarizes the findings of the independent fee consultant retained by the Disinterested Trustees. <sup>1</sup>

### **Summary Findings**

The report stated that IICO delivered strong levels of performance and service to the Ivy Funds in relation to its management fees and relative to investment advisers of comparable mutual funds. For the 36 months ended March 31, 2010, when compared to their respective peer groups established by Lipper, Inc. ("Lipper"), approximately 54% of the Ivy Funds were in the top quintile of performance and 62% of the Ivy Funds were in the top two quintiles of performance. For the one-, and five-year periods ended March 31, 2010, the report stated that 33% and 64% of the Ivy Funds were in the top two quintiles of performance, respectively. The independent fee consultant noted that the Ivy Funds' performance appeared to be grounded in a number of institutional competitive advantages at IICO, including stock selection ability, ability to attract top talent, strategic vision, performance-focused culture, ability to manage smaller AUM funds, ability to serve small account sizes and an effective trading infrastructure.

The report stated that for the 12 months ended March 31, 2010, the asset-weighted average expense ratios of the Ivy Funds were 2% below the mean expense ratios of comparable Lipper Expense Group peers and 16% below asset-weighted average expense ratios of funds in the Lipper Expense Universe. The management fees for the Ivy Funds on average were approximately 9% below the mean management fees for their Lipper Expense Groups and approximately 17% below the mean for their Lipper Expense Universe. The independent fee consultant noted that the Ivy Funds' small average account size introduces certain biases in the Lipper analyses that works against Ivy Funds in Lipper expense comparisons and, as a result, the Lipper findings may be considered conservative in that regard. The independent fee consultant found that within the larger Lipper averages the management fees and total expenses of individual Ivy Funds and share classes are reasonable relative to their performance.

The report also stated that the management fees IICO charges to the Ivy Funds are reasonable in relation to the management fees it charges to its other institutional accounts. The report noted that these institutional accounts have different service and infrastructure needs and in addition, based on industry data, the average spread between management fees charged to the Ivy Funds and those it charges to institutional accounts is below the average fee spreads observed at other investment advisers in industry surveys.

The independent fee consultant found that the level of profit earned by IICO from managing the Ivy Funds does not appear to be unreasonable. The report noted that Waddell's overall profitability from managing the Ivy Funds and its other operations is below the mean profitability of other similarly-sized, publicly traded mutual fund managers, but appears sufficient to enable IICO to continue to provide quality support to the Ivy Funds and their shareholders.

The independent fee consultant undertook an economy of pricing analysis that showed that Ivy Funds incur lower fees and expenses with increasing fund AUM which the independent fee consultant believes should benefit Ivy Fund investors as the Ivy Funds mature.

<sup>1.</sup> The independent fee consultant's evaluation was based on information provided by IICO, Lipper, Inc., other information providers and other independent analyses. The term "management fees" refers to the actual annual advisory and administrative fees, net of any fee waivers, paid by an Ivy Fund, as a percentage of average net assets. The term "total expenses" refers to the total annual expenses, net of any fee waivers, paid by an Ivy Fund, as a percentage of average net assets. Where these terms are used in reference to groups of Ivy Funds, numbers expressed are usually on an asset-weighted basis. Fee and performance data used in screening methodologies are usually for the period ending March 31, 2010.

### Conclusions

The independent fee consultant concluded that the services provided by IICO and its affiliates and expenses incurred by the Ivy Funds over the year ending August 31, 2010 are reasonable and provide adequate justification for renewal of the Ivy Funds' existing advisory agreements.

### PROXY VOTING INFORMATION Ivy Funds

### **Proxy Voting Guidelines**

A description of the policies and procedures Ivy Funds uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling 1.800.777.6472 and (ii) on the Securities and Exchange Commission's (SEC) website at www.sec.gov.

### **Proxy Voting Records**

Information regarding how the Trust voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available on Form N-PX through the Ivy Funds' website at www.ivyfunds.com and on the SEC's website at www.sec.gov.

### QUARTERLY PORTFOLIO SCHEDULE INFORMATION Ivy Funds

Portfolio holdings can be found on the Trust's website at www.ivyfunds.com. Alternatively, a complete schedule of portfolio holdings of each Fund for the first and third quarters of each fiscal year is filed with the SEC and can be found on the Trust's Form N-Q. These holdings may be viewed in the following ways:

- On the SEC's website at www.sec.gov.
- For review and copy at the SEC's Public Reference Room in Washington, DC. Information on the operations of the Public Reference Room may be obtained by calling 1.800.SEC.0330.

### 

As required by law, we are hereby providing notice to you that income tax may be withheld automatically from any distribution or withdrawal from a traditional IRA. A Fund is generally required to withhold taxes unless you make a written election not to have taxes withheld. The election may be made on the distribution/withdrawal form provided by Waddell & Reed, Inc. which can be obtained from your Waddell & Reed representative or by submitting Internal Revenue Service Form W–4P. Once made, an election can be revoked by providing written notice to Waddell & Reed, Inc. If you elect not to have tax withheld you may be required to make payments of estimated tax. Penalties may be imposed by the IRS if withholding and estimated tax payments are not adequate.

This page is for your notes and calculations.

Henry J. Herrmann, CFA

#### Dear Shareholder:

In the six months since our last report to you, investors have witnessed a dramatic reversal in investor sentiment. When the period opened, stocks and bonds were rallying as many economic indicators pointed to continued recovery and increasing stability in the U.S. economy. Investor confidence was further bolstered by stabilization of global credit markets and stronger-than-expected first-quarter 2010 corporate profits. Optimism abruptly changed, however, with the emergence of the European debt crisis, which created fears of a double-dip recession. The European banking system was negatively impacted when investors began to question the credit quality of several sovereign governments and whether the eurozone would be able to move past political strife to gain monetary stability. That scenario, in conjunction with data reflecting slowing U.S. economic growth and escalating concern about China's ability to slow the pace of its economy, drove a sharp global correction. Investors dodged riskier assets and demonstrated a flight to quality, ultimately driving U.S. bond yields to historical lows and fueling fears that the global economy could slip back into recession. The tide seemed to turn in September, however, traditionally a negative month for equities, with slightly stronger economic data and optimism that mid-term elections may drive more investor-friendly changes in Washington. Stocks staged a dramatic four-week rally that restored some optimism, as did an announcement from the National Bureau of Economic Research that the 'Great Recession,' the longest-lasting since the Great Depression, officially ended in June of 2009.

The economy grew at a 1.7 percent annual rate in the second calendar quarter of 2010, and preliminary estimates for third-quarter growth appear positive. The S&P 500 Index declined 2.4 percent during the six months ended September 30, 2010, while international securities, as represented by the MSCI EAFE Index, declined 1.5 percent. Fixed-income markets, as measured by the Citigroup Broad Investment Grade Index, saw yields drop significantly.

Numerous imponderables remain, including persistent high unemployment and a housing sector that continues to struggle, particularly so after government stimulus was removed. Nonetheless, we are optimistic that better days are ahead. Interest rates are low, government policy remains accommodative, and companies are reporting more robust

activity. Acquisition activity, a sign that companies are growing more willing to loosen the purse strings and funnel money into growing their operations, appears to be picking up.

Sources: Bloomberg, U.S. Department of Labor

All government statistics shown are subject to periodic revision. The S&P 500 Index is an unmanaged index that tracks the stocks of 500 primarily large-cap U.S. companies. MSCI EAFE Index is an unmanaged index comprised of securities that represent the securities markets in Europe, Australasia and the Far East. Citigroup Broad Investment Grade Index is an unmanaged index comprised of securities that represent the bond market. Annualized yield to maturity is the rate of return anticipated on a bond if it is held until the maturity date. It is not possible to invest directly in any of these indexes. Mortgage rates shown reflect the average rate on a conventional loan with a 60-day lender commitment. Oil prices reflect the market price of West Texas intermediate grade crude.

As always, we thank you for your continued trust in Ivy Funds, and encourage you to share in our optimism for the future.

Respectfully,

Henry J. Herrmann, CFA

Henry J. Herrman

President

The opinions expressed in this letter are those of the President of the Ivy Funds and are current only through the end of the period of the report, as stated on the cover. The President's views are subject to change at any time, based on market and other conditions, and no forecasts can be guaranteed.

### PORTFOLIO HIGHLIGHTS Ivy Bond Fund

#### **Asset Allocation**

### Lipper Rankings

Category: Lipper Corporate Debt Funds A Rated	Rank	Percentile
l Year	35/137	26
3 Year	101/130	78
5 Year	102/122	83
10 Year	48/61	78

Past performance is no guarantee of future results. Rankings are for Class A shares and are based on average annual total returns, but do not consider sales charges. Rankings for other share classes may vary.

Certain U.S. government securities in which the Fund may invest, such as Treasury securities and securities issued by the Government National Mortgage Association (Ginnie Mae), are backed by the full faith and credit of the U.S. government. However, other U.S. government securities in which the Fund may invest, such as securities issued by the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac) and the Federal Home Loan Banks (FHLB) are not backed by the full faith and credit of the U.S. government, are not insured or guaranteed by the U.S. government and, instead, may be supported only by the right of the issuer to borrow from the U.S. Treasury or by the credit of the issuer.

Cash and Cash Equivalents and Equities	2.7%

Our preference is to always use ratings obtained from Standard & Poor's. For securities not rated by Standard & Poor's, ratings are obtained from Moody's.

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, redemption fees and exchange fees; and (2) ongoing costs, including management fees, distribution and service fees, and other Fund expenses. The Illustration of Fund Expenses for each Fund is intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. Each example is based on an investment of \$1,000 invested at the beginning of the period and held for the six-month period ended September 30, 2010.

### **Actual Expenses**

The first line for each share class in each table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period. There may be additional fees charged to holders of certain accounts that are not included in the expenses shown in the tables. These fees apply to Individual Retirement Accounts (IRAs), IRA Rollovers, Roth IRAs, Conversion Roth IRAs, Simplified Employee Pension (SEP), Simple IRAs, Tax-Sheltered Accounts (TSAs), Keogh Plans, Owner Only 401(k) (Exclusive K) Plans and Final Pay Plans. As of the close of the six months covered by the tables, a customer is charged an annual fee of \$15 within each plan type. This fee is waived for IRA Rollovers and Conversion Roth IRAs if the customer owns another type of IRA. Coverdell Education Savings Account plans are charged an annual fee of \$10 per customer. You should consider the additional fees that were charged to your Fund account over the six-month period when you estimate the total ongoing expenses paid over the period and the impact of these fees on your ending account value as such additional expenses are not reflected in the information provided in the expense tables. Additional fees have the effect of reducing investment returns.

### Hypothetical Example for Comparison Purposes

The second line for each share class in each table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of five percent per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this five percent hypothetical example with the five percent hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the tables are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees or exchange fees. Therefore, the second line of each share class in the tables is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

For the Six Months Ended September 30, 2010	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Based on Actual Fund Return <sup>(1)</sup>				
Class A	\$1,000	\$1,062.80	1.13%	\$ 5.88
Class B	\$1,000	\$1,057.20	2.19%	\$11.31
Class C	\$1,000	\$1,059.00	1.84%	\$ 9.47
Class E	\$1,000	\$1,062.40	1.21%	\$ 6.29
Class I	\$1,000	\$1,064.50	0.82%	\$ 4.23
Class Y	\$1,000	\$1,063.30	1.05%	\$ 5.47
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,019.40	1.13%	\$ 5.76
Class B	\$1,000	\$1,014.10	2.19%	\$11.08
Class C	\$1,000	\$1,015.82	1.84%	\$ 9.27
Class E	\$1,000	\$1,019.00	1.21%	\$ 6.16
Class I	\$1,000	\$1,020.98	0.82%	\$ 4.14
Class Y	\$1,000	\$1,019.79	1.05%	\$ 5.35

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

#### Notes to Schedule of Investments

(A)No dividends were paid during the preceding 12 months.

- (B) Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010.
- (C)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be illiquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$9,627 or 3.5% of net assets.
- (D)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be liquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$25,762 or 9.3% of net assets.
- (E)Amount shown as principal represents notional amount for computation of interest.
- (F)Security is fully guaranteed by the Federal Deposit Insurance Corporation for both interest and principal under the Debt Guarantee Program of the Temporary Liquidity Guarantee Program. The guarantee expires at the earlier of the security's maturity date or December 31, 2012.
- (G)The interest rate for this security is a stated rate, but the interest payments are determined by multiplying the inflation-adjusted principal by one half of the stated rate for each semiannual interest payment date.
- (H)Securities serve as collateral for the following open futures contracts at September 30, 2010:

Description	Type	Expiration Date	Number of Contracts	Market Value	Unrealized Depreciation
U.S. 30 Year Treasury Bond	Short	12-21-10	*	\$(8,023)	\$(173)

(I)Rate shown is the yield to maturity at September 30, 2010.

(J)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date that the variable rate resets.

The following acronyms are used throughout this schedule:

CMBS = Commercial Mortgage-Backed Security

CMO = Collateralized Mortgage Obligation REIT = Real Estate Investment Trust

REMIC = Real Estate Mortgage Investment Conduit

TBA = To Be Announced

See Accompanying Notes to Financial Statements.

Class Y	\$1,000	\$ 968.90	1.14%	\$ 5.61
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,018.70	1.27%	\$ 6.46
Class B	\$1,000	\$1,014.21	2.17%	\$10.98
Class C	\$1,000	\$1,015.29	1.95%	\$ 9.87
Class E	\$1,000	\$1,019.30	1.15%	\$ 5.86
Class I	\$1,000	\$1,020.60	0.89%	\$ 4.55
Class Y	\$1,000	\$1,019.37	1.14%	\$ 5.76

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Class Y	\$1,000	\$1,019.05	1.20%	\$ 6.06

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>\*\*</sup>Class closed to investment.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup> This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

#### Notes to Schedule of Investments

(A)Listed on an exchange outside the United States.

- (B)No dividends were paid during the preceding 12 months.
- (C)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be liquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$8,557 or 3.5% of net assets.
- (D)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be illiquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to less than 0.05% of net assets.
- (E)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date the variable rate resets.

Our preference is to always use ratings obtained from Standard & Poor's. For securities not rated by Standard & Poor's, ratings are obtained from Moody's.

Certain U.S. government securities in which the Fund may invest, such as Treasury securities and securities issued by the Government National Mortgage Association (Ginnie Mae), are backed by the full faith and credit of the U.S. government. However, other U.S. government securities in which the Fund may invest, such as securities issued by the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac) and the Federal Home Loan Banks (FHLB) are not backed by the full faith and credit of the U.S. government, are not insured or guaranteed by the U.S. government and, instead, may be supported only by the right of the issuer to borrow from the U.S. Treasury or by the credit of the issuer.

#### **Lipper Rankings**

Category: Lipper Global Income Funds	Rank	Percentile
l Year	93/173	54

Past performance is no guarantee of future results. Rankings are for Class A shares and are based on average annual total returns, but do not consider sales charges. Rankings for other share classes may vary.

For the Six Months Ended September 30, 2010	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Based on Actual Fund Return <sup>(1)</sup>				
Class A	\$1,000	\$1,031.20	0.99%	\$5.08
Class B	\$1,000	\$1,028.30	1.74%	\$8.82
Class C	\$1,000	\$1,028.30	1.74%	\$8.82
Class I	\$1,000	\$1,032.50	0.74%	\$3.76
Class Y	\$1,000	\$1,031.20	0.99%	\$5.08
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,020.11	0.99%	\$5.05
Class B	\$1,000	\$1,016.35	1.74%	\$8.77
Class C	\$1,000	\$1,016.35	1.74%	\$8.77
Class I	\$1,000	\$1,021.36	0.74%	\$3.74
Class Y	\$1,000	\$1,020.11	0.99%	\$5.05

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

- (A)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be liquid under quidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$18,480 or 9.2% of net assets.
- (B)Principal amounts are denominated in the indicated foreign currency, where applicable (BRL Brazilian Real, NOK Norwegian Krone and RUB -Russian Ruble).
- (C)This security currently pays the stated rate but this rate will increase in the future.
- (D)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be illiquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$10,710 or 5.3% of net assets.
- (E)Zero coupon bond.
- (F)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010.
- (G)Amount shown as principal represents notional amount for computation of interest.
- (H)Rate shown is the yield to maturity at September 30, 2010.
- (I)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date that the variable rate resets.

The following acronyms are used throughout this schedule: CMO = Collateralized Mortgage Obligation REMIC = Real Estate Mortgage Investment Conduit

Our preference is to always use ratings obtained from Standard & Poor's. For securities not rated by Standard & Poor's, ratings are obtained from Moody's.

For the Six Months Ended September 30, 2010 Based on Actual Fund Return <sup>(1)</sup>	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Class A	\$1,000	\$1,063.20	1.12%	\$5.78
Class B	\$1,000	\$1,059.00	1.92%	\$9.88
Class C	\$1,000	\$1,059.60	1.80%	\$9.27
Class E	\$1,000	\$1,061.80	1.36%	\$7.01
Class I	\$1,000	\$1,064.90	0.82%	\$4.23
Class Y	\$1,000	\$1,063.40	1.08%	\$5.57
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,019.47	1.12%	\$5.65
Class B	\$1,000	\$1,015.45	1.92%	\$9.67
Class C	\$1,000	\$1,016.03	1.80%	\$9.07
Class E	\$1,000	\$1,018.25	1.36%	\$6.86
Class I	\$1,000	\$1,020.97	0.82%	\$4.14
Class Y	\$1,000	\$1,019.66	1.08%	\$5.45

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

<sup>\*</sup>Not shown due to rounding.

- (A)No dividends were paid during the preceding 12 months.
- (B)Listed on an exchange outside the United States.
- (C)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be liquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$603,988 or 40.1% of net assets.
- (D)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be illiquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$18,218 or 1.2% of net assets.
- (E)Payment-in-kind bonds.
- (F)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010.
- (G)Zero coupon bond.
- (H)Non-income producing as the issuer has either missed its most recent interest payment or declared bankruptcy.
- (I)Principal amounts are denominated in the indicated foreign currency, where applicable (EUR Euro and GBP British Pound).
- (J)Rate shown is the yield to maturity at September 30, 2010.
- (K)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date that the variable rate resets.

### ILLUSTRATION OF FUND EXPENSES Ivy International Balanced Fund

For the Six Months Ended September 30, 2010 Based on Actual Fund Return <sup>(1)</sup>	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
	¢1,000	¢1.050.00	1 470/	<b>4.7.</b> (2)
Class A	\$1,000	\$1,058.90	1.47%	\$ 7.62
Class B	\$1,000	\$1,054.50	2.46%	\$12.64
Class C	\$1,000	\$1,055.70	2.15%	\$11.10
Class E	\$1,000	\$1,059.60	1.33%	\$ 6.90
Class I	\$1,000	\$1,061.50	1.00%	\$ 5.15
Class Y	\$1,000	\$1,060.20	1.26%	\$ 6.49
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,017.68	1.47%	\$ 7.47
Class B	\$1,000	\$1,012.75	2.46%	\$12.38
Class C	\$1,000	\$1,014.29	2.15%	\$10.88
Class E	\$1,000	\$1,018.41	1.33%	\$ 6.76
Class I	\$1,000	\$1,020.05	1.00%	\$ 5.05
Class Y	\$1,000	\$1,018.74	1.26%	\$ 6.36

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

See your advisor or www.ivyfunds.com for more information on the Fund's most recently published Top 10 Equity Holdings.

For the Six Months Ended September 30, 2010	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*	
Based on Actual Fund Return <sup>(1)</sup>					
Class A	\$1,000	\$1,035.70	1.50%	\$ 7.63	
Class B	\$1,000	\$1,030.90	2.39%	\$12.19	
Class C	\$1,000	\$1,033.10	2.17%	\$11.08	
Class E	\$1,000	\$1,036.20	1.53%	\$ 7.84	
Class I	\$1,000	\$1,038.30	1.10%	\$ 5.61	
Class Y	\$1,000	\$1,036.90	1.36%	\$ 6.93	
Based on 5% Return <sup>(2)</sup>					
Class A	\$1,000	\$1,017.55	1.50%	\$ 7.57	
Class B	\$1,000	\$1,013.09	2.39%	\$12.08	
Class C	\$1,000	\$1,014.19	2.17%	\$10.98	
Class E	\$1,000	\$1,017.40	1.53%	\$ 7.77	
Class I	\$1,000	\$1,019.56	1.10%	\$ 5.55	
Class Y	\$1,000	\$1,018.26	1.36%	\$ 6.86	

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>\*\*</sup>Class closed to investment.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

	· · · · · · · · · · · · · · · · · · ·			

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees.

See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

#### Notes to Schedule of Investments

(A)No dividends were paid during the preceding 12 months.

(B)Rate shown is the yield to maturity at September 30, 2010.

(C) Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date that the variable rate resets.

The following acronym is used throughout this schedule:

ADR = American Depositary Receipts

### PORTFOLIO HIGHLIGHTS Ivy Limited-Term Bond Fund

#### ALL DATA IS AS OF SEPTEMBER 30, 2010 (UNAUDITED)

#### **Asset Allocation**

Bonds	97.4%
United States Government and Government Agency Obligations	50.7%
Corporate Debt Securities	44.2%
Municipal Bonds – Taxable	2.5%
Cash and Cash Equivalents	2.6%

#### **Lipper Rankings**

Category: Lipper Short-Intermediate Investment Grade Debt Funds	Rank	Percentile
1 Year	135/143	94
3 Year	79/133	59
5 Year	83/123	67
10 Year	69/73	94

Past performance is no guarantee of future results. Rankings are for Class C shares and are based on average annual total returns, but do not consider sales charges. Rankings for other share classes may vary.

Certain U.S. government securities in which the Fund may invest, such as Treasury securities and securities issued by the Government National Mortgage Association (Ginnie Mae), are backed by the full faith and credit of the U.S. government. However, other U.S. government securities in which the Fund may invest, such as securities issued by the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac) and the Federal Home Loan Banks (FHLB) are not backed by the full faith and credit of the U.S. government, are not insured or guaranteed by the U.S. government and, instead, may be supported only by the right of the issuer to borrow from the U.S. Treasury or by the credit of the issuer.

#### **Quality Weightings**

Investment Grade	97.1%
AAA	53.7%
AA	7.9%
A	15.5%
BBB	20.0%
Non-Investment Grade	0.3%
ВВ	0.3%
Cash and Cash Equivalents	2.6%

Our preference is to always use ratings obtained from Standard & Poor's. For securities not rated by Standard & Poor's, ratings are obtained from Moody's.

#### Notes to Schedule of Investments

- (A)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be liquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$45,150 or 3.7% of net assets.
- (B)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be illiquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$18,423 or 1.5% of net assets.
- (C)Security is fully guaranteed by the Federal Deposit Insurance Corporation for both interest and principal under the Debt Guarantee Program of the Temporary Liquidity Guarantee Program. The guarantee expires at the earlier of the security's maturity date or December 31, 2012.
- (D)Rate shown is the yield to maturity at September 30, 2010.
- (E)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date that the variable rate resets.

The following acronyms are used throughout this schedule:

CMO = Collateralized Mortgage Obligation

REMIC = Real Estate Mortgage Investment Conduit

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the tables), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>\*\*</sup>Class closed to investment.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

### ILLUSTRATION OF FUND EXPENSES Ivy Mid Cap Growth Fund

F	Beginning Account Value	Ending Account Value	Annualized Expense Ratio Based on the	Expenses Paid During
For the Six Months Ended September 30, 2010  Based on Actual Fund Return <sup>(1)</sup>	3-31-10	9-30-10	Six-Month Period	Period*
Class A	\$1,000	\$1,066.00	1.57%	\$ 8.16
Class B	\$1,000	\$1,060.40	2.57%	\$13.29
Class C	\$1,000	\$1,062.10	2.23%	\$11.55
Class E	\$1,000	\$1,065.90	1.60%	\$ 8.26
Class I	\$1,000	\$1,068.70	1.12%	\$ 5.79
Class R	\$1,000	\$1,065.50	1.65%	\$ 8.57
Class Y	\$1,000	\$1,067.90	1.25%	\$ 6.41
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,017.19	1.57%	\$ 7.97
Class B	\$1,000	\$1,012.19	2.57%	\$12.98
Class C	\$1,000	\$1,013.90	2.23%	\$11.28
Class E	\$1,000	\$1,017.04	1.60%	\$ 8.07
Class I	\$1,000	\$1,019.46	1.12%	\$ 5.65
Class R	\$1,000	\$1,016.78	1.65%	\$ 8.37
Class Y	\$1,000	\$1,018.83	1.25%	\$ 6.26

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

#### Notes to Schedule of Investments

(A)No dividends were paid during the preceding 12 months.

(B)Securities serve as cover or collateral for the following written options outstanding at September 30, 2010:

Underlying Security	Counterparty	Contracts Subject to Call	Expiration Month	Exercise Price	Premium Received	Market Value
salesforce.com, inc.	Goldman, Sachs & Company	*	November 2010	\$135.00	\$ 57	\$ (37)
Whole Foods Market, Inc.	UBS Securities LLC	2	November 2010	43.00	96	(67)
					\$153	\$(104)

<sup>\*</sup>Not shown due to rounding.

(C)Rate shown is the yield to maturity at September 30, 2010.

(D)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date that the variable rate resets.

The following acronym is used throughout this schedule:

ADR = American Depositary Receipts

#### ALL DATA IS AS OF SEPTEMBER 30, 2010 (UNAUDITED)

# PORTFOLIO HIGHLIGHTS Ivy Money Market Fund

#### **Asset Allocation**

Corporate Obligations	60.8%
Commercial Paper	36.6%
Notes	14.5%
Commercial Paper (backed by irrevocable bank letter of credit)	7.5%
Notes (backed by irrevocable bank letter of credit)	2.2%
Municipal Obligations	35.7%
United States Government and Government Agency Obligations	3.3%
Cash and Other Assets, Net of Liabilities	0.2%

For the Six Months Ended September 30, 2010	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Based on Actual Fund Return <sup>(1)</sup>				
Class A	\$1,000	\$1,000.10	0.48%	\$2.40
Class B**	\$1,000	\$1,000.10	0.48%	\$2.40
Class C**	\$1,000	\$1,000.10	0.48%	\$2.40
Class E	\$1,000	\$1,000.10	0.48%	\$2.40
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,022.64	0.48%	\$2.43
Class B**	\$1,000	\$1,022.65	0.48%	\$2.43
Class C**	\$1,000	\$1,022.67	0.48%	\$2.43
Class E	\$1,000	\$1,022.65	0.48%	\$2.43

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees.

See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>\*\*</sup>These shares are not available for direct investments. However, they are available by exchange from Class B or Class C shares of another lvy Fund.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Past performance is no guarantee of future results. Rankings are for Class A shares and are based on average annual total returns, but do not consider sales charges. Rankings for other share classes may vary.

Certain U.S. government securities in which the Fund may invest, such as Treasury securities and securities issued by the Government National Mortgage Association (Ginnie Mae), are backed by the full faith and credit of the U.S. government. However, other U.S. government securities in which the Fund may invest, such as securities issued by the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac) and the Federal Home Loan Banks (FHLB) are not backed by the full faith and credit of the U.S. government, are not insured or guaranteed by the U.S. government and, instead, may be supported only by the right of the issuer to borrow from the U.S. Treasury or by the credit of the issuer.

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

## SCHEDULE OF INVESTMENTS Ivy Mortgage Securities Fund (in thousands)

SEPTEMBER 30, 2010 (UNAUDITED)

**TOTAL INVESTMENT SECURITIES – 116.3%** 

\$131,451

(Cost: \$151,365)

LIABILITIES, NET OF CASH AND OTHER ASSETS – (16.3%) (18,445)

**NET ASSETS - 100.0%** 

\$113,006

#### Notes to Schedule of Investments

\*Not shown due to rounding.

- (A)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be illiquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$7,613 or 6.7% of net assets.
- (B) Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010.
- (C)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be liquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$1,943 or 1.7% of net assets.
- (D)Amount shown as principal represents notional amount for computation of interest.
- (E)Zero coupon bond.
- (F)Securities serve as collateral for the following open futures contracts at September 30, 2010:

Description	Туре	Expiration Date	Number of Contracts	Market Value	Unrealized Appreciation (Depreciation)
U.S. 30 Year Treasury Bond	Short	12–21–10	*	\$(1,337)	\$ 1
U.S. 10 Year Treasury Note	Short	12-21-10	*	(7,185)	(102)
				\$(8,522)	\$(101)

(G)Rate shown is the yield to maturity at September 30, 2010.

(H)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date that the variable rate resets.

The following acronyms are used throughout this schedule:

CMBS = Commercial Mortgage-Backed Security

CMO = Collateralized Mortgage Obligation

REMIC = Real Estate Mortgage Investment Conduit

 $\mathsf{TBA} = \mathsf{To} \; \mathsf{Be} \; \mathsf{Announced}$ 

### **Asset Allocation**

Bonds	92.2%
Municipal Bonds	92.2%
Cash and Cash Equivalents	7.8%

### Lipper Rankings

Category: Lipper General Municipal Debt Funds	Rank	Percentile
1 Year	91/250	37
3 Year	91/217	42
5 Year	109/197	56
10 Year	106/159	67

Past performance is no guarantee of future results. Rankings are for Class C shares and are based on average annual total returns, but do not consider sales charges. Rankings for other share classes may vary.

## **Quality Weightings**

Investment Grade	84.6%
AAA	19.0%
AA	16.2%
A	27.0%
BBB	22.4%
Non-Investment Grade	7.6%
CCC	0.6%
Non-rated	7.0%
Cash and Cash Equivalents	7.8%

Our preference is to always use ratings obtained from Standard & Poor's. For securities not rated by Standard & Poor's, ratings are obtained from Moody's.

For the Six Months Ended September 30, 2010	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Based on Actual Fund Return <sup>(1)</sup>				
Class A	\$1,000	\$1,062.60	1.12%	\$5.78
Class B	\$1,000	\$1,058.50	1.90%	\$9.88
Class C	\$1,000	\$1,058.60	1.87%	\$9.68
Class I	\$1,000	\$1,063.70	0.91%	\$4.75
Class Y	\$1,000	\$1,062.60	1.12%	\$5.78
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,019.44	1.12%	\$5.65
Class B	\$1,000	\$1,015.52	1.90%	\$9.67
Class C	\$1,000	\$1,015.69	1.87%	\$9.47
Class I	\$1,000	\$1,020.51	0.91%	\$4.65
Class Y	\$1,000	\$1,019.44	1.12%	\$5.65

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Cash and Cash Equivalents	9.3%

### Lipper Rankings

Category: Lipper High Yield Municipal Debt Funds	Rank	Percentile
1 Year	3/113	3

Past performance is no guarantee of future results. Rankings are for Class A shares and are based on average annual total returns, but do not consider sales charges. Rankings for other share classes may vary.

## **Quality Weightings**

Investment Grade	48.1%
AAA	3.0%
AA	1.8%
A	12.0%
BBB	31.3%
Non-Investment Grade	42.6%
BB	3.1%
В	4.5%
CCC	1.8%
Non-rated	33.2%
Cash and Cash Equivalents	9.3%

Our preference is to always use ratings obtained from Standard & Poor's. For securities not rated by Standard & Poor's, ratings are obtained from Moody's.

For the Six Months Ended September 30, 2010	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Based on Actual Fund Return <sup>(1)</sup>				
Class A	\$1,000	\$1,072.60	0.95%	\$4.97
Class B	\$1,000	\$1,068.10	1.73%	\$8.89
Class C	\$1,000	\$1,067.90	1.72%	\$8.89
Class I	\$1,000	\$1,074.10	0.70%	\$3.63
Class Y	\$1,000	\$1,072.30	0.95%	\$4.87
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,020.31	0.95%	\$4.85
Class B	\$1,000	\$1,016.49	1.73%	\$8.67
Class C	\$1,000	\$1,016.44	1.72%	\$8.67
Class I	\$1,000	\$1,021.55	0.70%	\$3.54
Class Y	\$1,000	\$1,020.38	0.95%	\$4.75

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Class A	\$1,000	\$1,016.29	1.75%	\$ 8.87
Class B	\$1,000	\$1,010.78	2.85%	\$14.38
Class C	\$1,000	\$1,012.62	2.48%	\$12.58
Class E**	\$1,000	\$1,018.23	1.36%	\$ 6.86
Class I	\$1,000	\$1,018.81	1.25%	\$ 6.36
Class Y	\$1,000	\$1,017.51	1.51%	\$ 7.67

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>\*\*</sup>Class closed to investment.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

#### Notes to Schedule of Investments

The following forward foreign currency contracts were outstanding at September 30, 2010:

			Principal Amount of			
			Contract (Denominated	Settlement	Unrealized	Unrealized
Type	Currency	Counterparty	in Indicated Currency)	Date	<b>Appreciation</b>	Depreciation
Sell	Japanese Yen	Deutsche Bank AG	4,490,000	11–12–10	\$ —	\$1,467

(A)No dividends were paid during the preceding 12 months.

- (B)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be liquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$74,303 or 9.9% of net assets.
- (C)Listed on an exchange outside the United States.
- (D)Securities were purchased pursuant to Rule 144A under the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. These securities have been determined to be illiquid under guidelines established by the Board of Trustees. At September 30, 2010, the total value of these securities amounted to \$15,772 or 2.1% of net assets.
- (E)Illiquid restricted security. At September 30, 2010, the Fund owned the following restricted security:

Security	Acquisition Date(s)	Shares	Cost	Market Value
Vietnam Azalea Fund Limited	6-14-07 to 1-28-09	500	\$ 3,304	\$2,170

The total value of this security represented 0.3% of net assets at September 30, 2010.

- (F)Deemed to be an affiliate due to the Fund owning at least 5% of the voting securities. The Fund and other mutual funds managed by its investment manager, Ivy Investment Management Company, or other related parties together own 30% of the outstanding shares of this security at September 30, 2010.
- (G)Rate shown is the yield to maturity at September 30, 2010.

(H)Variable rate security. Interest rate disclosed is that which is in effect at September 30, 2010. Date shown represents the date the variable rate resets.

The following acronym is used throughout this schedule:

For the Six Months Ended September 30, 2010 Based on Actual Fund Return <sup>(1)</sup>	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Class A	\$1,000	\$ 984.00	1.71%	\$ 8.53
Class B	\$1,000	\$ 977.80	2.96%	\$14.73
Class C	\$1,000	\$ 979.60	2.48%	\$12.27
Class E**	\$1,000	\$ 986.20	1.25%	\$ 6.16
Class I	\$1,000	\$ 987.10	1.13%	\$ 5.66
Class Y	\$1,000	\$ 985.70	1.40%	\$ 6.95
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,016.49	1.71%	\$ 8.67
Class B	\$1,000	\$1,010.21	2.96%	\$14.98
Class C	\$1,000	\$1,012.64	2.48%	\$12.48
Class E**	\$1,000	\$1,018.82	1.25%	\$ 6.26
Class I	\$1,000	\$1,019.41	1.13%	\$ 5.76
Class Y	\$1,000	\$1,018.06	1.40%	\$ 7.06

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>\*\*</sup>Class closed to investment.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

<sup>(1)</sup>Data quoted is past performance and is based on deduction of the maximum applicable sales load for each of the periods. Current performance may be lower or higher. Past performance is no guarantee of future results. Investment return and principal value of an investment will fluctuate and shares, when redeemed, may be worth more or less than their original cost. Please visit www.ivyfunds.com for the Fund's most recent month-end performance. Class A shares carry a maximum front-end sales load of 5.75%. Class B and Class C shares carry a maximum contingent deferred sales charge (CDSC) of 5% and 1%, respectively. (Accordingly, the Class C shares reflect no CDSC since it only applies to Class C shares redeemed within twelve months after purchase.) Class I and Class Y shares are not subject to sales charges.

- (2)5–18–09 for Class A, Class B, Class C and Class Y shares (the date on which shares were first acquired by shareholders).
- (3)After-tax returns may be better than before-tax returns due to an assumed tax benefit from losses on a sale of the Fund's shares at the end of the period.
- (4)The return shown for Class Y is hypothetical because there were no shares or assets for the period from July 28, 2009 through October 7, 2009. Class A data has been substituted for Class Y data during that period.

The table above shows average annual returns on a before-tax and after-tax basis. Returns Before Taxes shows the actual change in the value of the Fund shares over the periods shown, but does not reflect the impact of taxes on Fund distributions or the sale of Fund shares. The two after-tax returns take into account taxes that may be associated with owning Fund shares. Returns After Taxes on Distributions is the Fund's actual performance, adjusted by the effect of taxes on distributions made by the Fund during the period shown. Returns After Taxes on Distributions and Sale of Fund Shares is further adjusted to reflect the tax impact on any change in the value of Fund shares as if they had been sold on the last day of the period.

After-tax returns are calculated using the historical highest individual Federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts, or to shares held by non-taxable entities.

The Class Y shares of Waddell & Reed Advisors Tax-Managed Equity Fund were reorganized as the Class I shares of Ivy Tax-Managed Equity Fund on May 18, 2009. The performance shown for periods prior to this date is that of the Class Y shares of Waddell & Reed Advisors Tax-Managed Equity Fund. Performance has not been restated to reflect the estimated annual operating expenses of the Ivy Tax-Managed Equity Fund. If those expenses were reflected, performance shown would differ.

For the Six Months Ended September 30, 2010	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Based on Actual Fund Return <sup>(1)</sup>

See your advisor or www.ivyfunds.com for more information on the Fund's most recently published Top 10 Equity Holdings.

For the Six Months Ended September 30, 2010	Beginning Account Value 3-31-10	Ending Account Value 9-30-10	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Based on Actual Fund Return <sup>(1)</sup>				
Class A	\$1,000	\$ 967.90	1.66%	\$ 8.17
Class B	\$1,000	\$ 960.30	3.24%	\$15.88
Class C	\$1,000	\$ 964.10	2.47%	\$12.18
Class E**	\$1,000	\$ 969.90	1.27%	\$ 6.30
Class I	\$1,000	\$ 970.50	1.20%	\$ 5.91
Class Y	\$1,000	\$ 969.20	1.44%	\$ 7.09
Based on 5% Return <sup>(2)</sup>				
Class A	\$1,000	\$1,016.75	1.66%	\$ 8.37
Class B	\$1,000	\$1,008.84	3.24%	\$16.27
Class C	\$1,000	\$1,012.68	2.47%	\$12.48
Class E**	\$1,000	\$1,018.69	1.27%	\$ 6.46
Class I	\$1,000	\$1,019.05	1.20%	\$ 6.06
Class Y	\$1,000	\$1,017.85	1.44%	\$ 7.26

<sup>\*</sup>Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended September 30, 2010, and divided by 365.

The above illustrations are based on ongoing costs only and do not include any transactional costs, such as sales loads, redemption fees or exchange fees. See "Disclosure of Expenses" on page 5 for further information on how expenses were calculated.

<sup>\*\*</sup>Class closed to investment.

<sup>(1)</sup>This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

<sup>(2)</sup>This section uses a hypothetical five percent annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

<sup>(1)</sup>Ratios excluding expense waivers are included only for periods in which the class had waived or reimbursed expenses.

<sup>(2)</sup>Based on average weekly shares outstanding.

<sup>(3)</sup>Total return calculated without taking into account the sales load deducted on an initial purchase.

<sup>(4)</sup>Annualized.

<sup>(5)</sup> For the period from May 18, 2009 (commencement of operations of the class) through March 31, 2010.

<sup>(6)</sup>The Ivy Municipal High Income Fund commenced operations on May 18, 2009 after the reorganization of the Class Y shares of Waddell & Reed Advisors Municipal High Income Fund into Class I shares of the Fund. The information shown is for a share outstanding during the fiscal period from May 18, 2009 through March 31, 2010 for Ivy Municipal High Income Fund.

<sup>(7)</sup> The information shown is for a share outstanding during the fiscal year or period ended for Class Y of the Waddell & Reed Advisors Municipal High Income Fund prior to the reorganization.

<sup>(8)</sup>The return shown for Class Y is hypothetical because there were no shares or assets for the period from July 28, 2009 through October 7, 2009. Class A data has been substituted for Class Y data during that period.

<sup>(1)</sup>Ratios excluding expense waivers are included only for periods in which the class had waived or reimbursed expenses.

<sup>(2)</sup>Based on average weekly shares outstanding.

<sup>(3)</sup>Total return calculated without taking into account the sales load deducted on an initial purchase.

<sup>(4)</sup>Annualized.

<sup>(5)</sup> For the period from May 18, 2009 (commencement of operations of the class) through March 31, 2010.

<sup>(6)</sup>The Ivy Tax-Managed Equity Fund commenced operations on May 18, 2009 after the reorganization of the Class Y shares of Waddell & Reed Advisors Tax-Managed Equity Fund into Class I shares of the Fund. The information shown is for a share outstanding during the fiscal period from May 18, 2009 through March 31, 2010 for Ivy Tax-Managed Equity Fund.

<sup>(7)</sup>The information shown is for a share outstanding during the fiscal year or period ended for Class Y of the Waddell & Reed Advisors Tax-Managed Equity Fund prior to the reorganization.

<sup>(8)</sup>The return shown for Class Y is hypothetical because there were no shares or assets for the period from July 28, 2009 through October 7, 2009. Class A data has been substituted for Class Y data during that period.

# NOTES TO FINANCIAL STATEMENTS

Ivy Funds (amounts in thousands)

SEPTEMBER 30, 2010 (UNAUDITED)

### 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

On April 1, 2010, each of the 33 series of Ivy Funds, a Delaware statutory trust (Trust), became the successor fund to corresponding series of a Maryland corporation and a Massachusetts business trust pursuant to a Plan of Reorganization and Termination that was approved by shareholders of each fund (each, a Reorganization and collectively, the Reorganizations). The Reorganizations were accomplished through tax-free exchanges of shares, which had no impact on net assets and number of shares outstanding. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. Ivy Bond Fund, Ivy Capital Appreciation Fund, Ivy Core Equity Fund, Ivy Cundill Global Value Fund, Ivy Dividend Opportunities Fund, Ivy European Opportunities Fund, Ivy Global Bond Fund, Ivy High Income Fund, Ivy International Balanced Fund, Ivy International Core Equity Fund, Ivy Managed European/Pacific Fund, Ivy Managed International Opportunities Fund, Ivy Micro Cap Growth Fund, Ivy Mid Cap Growth Fund, Ivy Money Market Fund, Ivy Mortgage Securities Fund, Ivy Municipal Bond Fund, Ivy Municipal High Income Fund, Ivy Pacific Opportunities Fund, Ivy Small Cap Growth Fund, Ivy Small Cap Value Fund, Ivy Tax-Managed Equity Fund and Ivy Value Fund (each, a Fund) are series of the Trust and are the only series of the Trust included in these financial statements. The investment objective(s), policies and risk factors of each Fund are described more fully in the Funds' Prospectus and Statement of Additional Information. Each Fund's investment manager is Ivy Investment Management Company (IICO or the Manager).

Each Fund offers Class A, Class B and Class C shares. Certain Funds may also offer Class E, Class I, Class R and/or Class Y shares. Class A and Class E shares are sold at their offering price, which is normally net asset value plus a front-end sales charge. Class B and Class C shares are sold without a front-end sales charge but may be subject to a contingent deferred sales charge (CDSC). Class I, Class R and Class Y shares are sold without either a front-end sales charge or a CDSC. All classes of shares have identical rights and voting privileges with respect to the Fund in general and exclusive voting rights on matters that affect that class alone. Net investment income, net assets and net asset value per share may differ due to each class having its own expenses, such as transfer agent and shareholder servicing fees, directly attributable to that class. Class A, B, C, E, R and Y have a distribution and service plan. Class I shares are not included in the plan. Class B shares will automatically convert to Class A shares 96 months after the date of purchase.

The following is a summary of significant accounting policies consistently followed by each Fund.

**Securities Valuation.** Each Fund's investments are reported at fair value. Each Fund calculates the net asset value of its shares as of the close of the New York Stock Exchange (the NYSE), normally 4:00 P.M. Eastern time, on each day the NYSE is open for trading.

Equity securities traded on U.S. or foreign securities exchanges or included in a national market system are valued at the official closing price at the close of each business day unless otherwise stated below. Over-the-counter equity securities and listed securities for which no price is readily available are valued at the average of the last bid and asked prices.

Security prices for fixed-income securities are typically based on quotes that are obtained from an independent pricing service authorized by the Board of Trustees. To determine values of fixed-income securities, the independent pricing service utilizes such factors as current quotations by broker/dealers, coupon, maturity, quality, type of issue, trading characteristics, and other yield and risk factors it deems relevant in determining valuations. Securities that cannot be valued by the independent pricing service may be valued using quotes obtained from dealers that make markets in the securities.

Listed options are valued at the closing price by the independent pricing service unless the price is unavailable, in which case they are valued at either the mean between the last bid and asked price or using a valuation obtained from a dealer in that security. Over-the-counter options are valued at the price provided by a dealer in that security. Swaps are valued by the independent pricing service unless the price is unavailable, in which case they are valued at the price provided by a dealer in that security. Futures contracts traded on an exchange are generally valued at the settlement price. Mutual funds, including investment funds, typically are valued at the net asset value reported as of the valuation date.

Forward foreign currency contracts are valued daily based upon the closing prices of the forward currency rates determined at the close of the NYSE.

Senior loans are valued using a price or composite price from one or more brokers or dealers as obtained from an independent pricing service.

Short-term securities with maturities of 60 days or less and all securities held by Ivy Money Market Fund are valued on the basis of amortized cost (which approximates market value), whereby a portfolio security is valued at its cost initially, and thereafter valued to reflect a constant amortization to maturity of any discount or premium.

Because many foreign markets close before the NYSE, events may occur between the close of the foreign market and the close of the NYSE that could have a material impact on the valuation of foreign securities. IICO, pursuant to procedures adopted by the Board of Trustees, evaluates the impact of these events and may adjust the valuation of foreign securities to reflect the fair value as of the close of the NYSE. In addition, all securities for which market values are not readily available or are deemed unreliable are appraised at fair value as determined in good faith under the supervision of the Board of Trustees.

**Security Transactions and Related Investment Income.** Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Realized gains and losses are calculated on the identified cost basis. Interest income is recorded on the accrual basis and includes paydown gain (loss) and accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date, except certain dividends from foreign securities where the ex-dividend date may have passed, which are recorded as soon as the Fund is informed of the ex-dividend date. Upon notification from issuers, some of the distributions received from a real estate investment trust or publicly traded partnership may be redesignated as a reduction of cost of the related investment and/or realized gain.

Securities on a When-Issued or Delayed Delivery Basis. Certain Funds may purchase securities on a "when-issued" basis, and may purchase or sell securities on a "delayed delivery" basis. "When-issued" or "delayed delivery" refers to securities whose terms and indenture are available and for which a market exists, but which are not available for immediate delivery. Delivery and payment for securities that have been purchased by a Fund on a when-issued basis normally take place within six months and possibly as long as two years or more after the trade date. During this period, such securities do not earn interest, are subject to market fluctuation and may increase or decrease in value prior to their delivery. The purchase of securities on a when-issued basis may increase the volatility of a Fund's net asset value to the extent the Fund executes such transactions while remaining substantially fully invested. When a Fund engages in when-issued or delayed delivery transactions, it relies on the buyer or seller, as the case may be, to complete the transaction. Their failure to do so may cause the Fund to lose the opportunity to obtain or dispose of the security at a price and yield IICO, or the Fund's investment subadvisor, as applicable, consider advantageous. The Fund maintains internally designated assets with a market value equal to or greater than the amount of its purchase commitments. The Fund may also sell securities that it purchased on a when-issued or delayed-delivery basis prior to settlement of the original purchase.

**Senior Loans.** A Fund invests in senior secured corporate loans (senior loans) either as an original lender or as a purchaser of a loan assignment or a participation interest in a loan. Senior loans are generally made to U.S. and foreign borrowers that are corporations, partnerships, or other business entities. Senior loans are generally readily marketable, but some loans may be illiquid or may be subject to some restrictions on resale.

Certain senior loans contain provisions that obligate a Fund to fund future commitments at the borrower's discretion. At September 30, 2010, there were no such unfunded commitments.

Mortgage Dollar Roll Transactions. Certain Funds enter into dollar roll transactions on securities issued or to be issued by the Government National Mortgage Association, Federal National Mortgage Association and Federal Home Loan Mortgage Corporation, in which the Fund sells mortgage securities and simultaneously agrees to repurchase similar (same type, coupon and maturity) securities at a later date at an agreed upon price. During the period between the sale and repurchase, the Fund forgoes principal and interest paid on the mortgage securities sold. The Fund is compensated from negotiated fees paid by brokers offered as an inducement to the Fund to "roll over" their purchase commitments. These fees are recognized over the roll period and are included in "Interest and amortization" in the Statement of Operations.

**Interest Only Obligations.** These securities entitle the owner to receive only the interest portion from a bond, Treasury note or pool of mortgages. These securities are generally created by a third party separating a bond or pool of mortgages into distinct interest-only and principal-only securities. As the principal (par) amount of a bond or pool of mortgages is paid down, the amount of interest income earned by the owner will decline as well.

**Credit Risk.** Certain Funds may hold high-yield and/or non-investment-grade bonds, which may be subject to a greater degree of credit risk. Credit risk relates to the ability of the issuer to meet interest or principal payments or both as they become due. The Fund may acquire securities in default, and is not obligated to dispose of securities whose issuers subsequently default. As of September 30, 2010, Ivy High Income Fund and Ivy Municipal High Income Fund held defaulted securities with an aggregate market value of \$615 and \$46, respectively, representing less than 0.05% of each Fund's net assets.

**Foreign Currency Translation.** Each Fund's accounting records are maintained in U.S. dollars. All assets and liabilities denominated in foreign currencies are translated into U.S. dollars daily, using foreign exchange rates obtained from an independent pricing service authorized by the Board of Trustees. Purchases and sales of investment securities and accruals of income and expenses are translated at the rate of exchange prevailing on the date of the transaction. For assets and liabilities other than investments in securities, net realized and unrealized gains and losses from foreign currency translation arise from changes in currency exchange rates. Each Fund combines fluctuations from currency exchange rates and fluctuations in market value when computing net realized gain (loss) and net change in

unrealized appreciation (depreciation) on investments. Foreign exchange rates are valued as of the close of the NYSE, normally 4:00 P.M. Eastern time, on each day the NYSE is open for trading, primarily using an independent pricing service authorized by the Board of Trustees.

**Repurchase Agreements.** Each Fund may purchase securities subject to repurchase agreements, which are instruments under which the Fund purchases a security and the seller (normally a commercial bank or broker-dealer) agrees, at the time of purchase, that it will repurchase the security at a specified time and price. Repurchase agreements are collateralized by the value of the resold securities which, during the entire period of the agreement, generally remains at least equal to the value of the agreement, including accrued interest thereon. The collateral for the repurchase agreement is held by a custodian bank.

**Investments with Off-Balance Sheet Risk.** Certain Funds may enter into financial instrument transactions (such as swaps, futures, options and other derivatives) that may have off-balance sheet market risk. Off-balance sheet market risk exists when the maximum potential loss on a particular financial instrument is greater than the value of such financial instrument, as reflected in the Statement of Assets and Liabilities.

**Segregation and Collateralization.** In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC) require that a Fund either deliver collateral or segregate assets in connection with certain investments (e.g., dollar rolls, financial futures contracts, foreign currency exchange contracts, options written, securities with extended settlement periods and swaps), the Fund will segregate collateral or designate on its books and records cash or other liquid securities having a market value at least equal to the amount that is required to be physically segregated for the benefit of the counterparty. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each party has requirements to deliver/deposit cash or securities as collateral for certain investments.

**Allocation of Income, Expenses, Gains and Losses.** Income, expenses (other than those attributable to a specific class), gains and losses are allocated on a daily basis to each class of shares based upon the relative proportion of net assets represented by such class. Operating expenses directly attributable to a specific class are charged against the operations of that class.

**Income Taxes.** It is the policy of each Fund to distribute all of its taxable income and capital gains to its shareholders and otherwise qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. In addition, each Fund intends to pay distributions as required to avoid imposition of excise tax. Accordingly, no provision has been made for Federal income taxes. Management of the Trust periodically reviews all tax positions to assess that it is more likely than not that the position would be sustained upon examination by the relevant tax authority based on the technical merits of each position. As of and for the fiscal period ended September 30, 2010, management believes that under this standard no liability for unrecognized tax positions is required. The Funds are subject to examination by U.S. federal and state authorities for returns filed for tax years after 2006.

**Dividends and Distributions to Shareholders.** Dividends and distributions to shareholders are recorded by each Fund on the business day following record date. Net investment income dividends and capital gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America.

**Custodian Fee.** "Custodian fees" in the Statement of Operations may include interest expense incurred by a Fund on any cash overdrafts of its custodian account during the period. Such cash overdrafts may result from the effects of failed trades in portfolio securities and from cash outflows resulting from unanticipated shareholder redemption activity. A Fund pays interest to its custodian on such cash overdrafts, to the extent they are not offset by positive cash balances maintained by that Fund, at a rate equal to the custodian's prime rate less 150 basis points. The "Earnings credit" line item, if shown, represents earnings on cash balances maintained by that Fund during the period. Such interest expense and other custodian fees may be paid with these earnings.

**Trustees and Chief Compliance Officer Fees.** Fees paid to the Trustees can be paid in cash or deferred to a later date, at the election of the Trustee according to the Deferred Fee Agreement entered into between the Trust and the Trustee(s). Each Fund records its portion of the deferred fees as a liability on the Statement of Assets and Liabilities. All fees paid in cash plus any appreciation (depreciation) in the underlying deferred plan are shown on the Statement of Operations. Additionally, fees paid to the office of the Chief Compliance Officer of the Funds are shown on the Statement of Operations.

**Indemnifications.** The Trust's organizational documents provide current and former Trustees and Officers with a limited indemnification against liabilities arising in connection with the performance of their duties to the Trust. In the normal course of business, the Trust may also enter into contracts that provide general indemnifications. The Trust's maximum exposure under these arrangements is unknown and is dependent on future claims that may be made against the Trust. The risk of material loss from such claims is considered remote.

**Concentration of Risk.** Certain Funds may have a concentration of risk, which includes, but is not limited to, investing in international securities. International investing involves additional risks including, but not limited to, currency fluctuations, political or economic conditions affecting the foreign country and differences in accounting standards and foreign regulations.

**Other.** The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. Management has performed a review for subsequent events through the date this report was issued.

# 2. INVESTMENT MANAGEMENT AND PAYMENTS TO AFFILIATED PERSONS

**Management Fees.** IICO, a wholly owned subsidiary of Waddell & Reed Financial, Inc. (WDR), serves as each Fund's investment manager. The management fee is accrued daily by each Fund at the following annual rates:

Fund	Net Asset Breakpoints	Annual Rate
lvy Bond Fund	Up to \$500 Million	0.525%

For the period from October 1, 2008 to July 31, 2010, IICO contractually agreed to reduce the management fee paid to 0.35%, on an annual basis, of net assets for any day that Ivy Limited-Term Bond Fund's net assets are below \$500 million.

For the period from May 18, 2009 to September 30, 2016, IICO voluntarily agreed to reduce the management fee paid to 0.485%, on an annual basis, of net assets for any day that Ivy Municipal High Income Fund's net assets are below \$500 million.

For Funds managed solely by IICO, IICO has voluntarily agreed to waive a Fund's management fee on any day that the Fund's net assets are less than \$25 million, subject to IICO's right to change or modify this waiver. See Expense Reimbursements and/or Waivers below for amounts waived during the fiscal period ended September 30, 2010.

IICO has entered into Subadvisory Agreements with the following entities on behalf of certain Funds.

Under an agreement between IICO and Mackenzie Financial Corporation (Mackenzie), Mackenzie serves as subadvisor to Ivy Cundill Global Value Fund. Wall Street Associates serves as subadvisor to Ivy Micro Cap Growth Fund. Advantus Capital Management, Inc. serves as subadvisor to Ivy Bond Fund and Ivy Mortgage Securities Fund. Each subadvisor makes investment decisions in accordance with the Fund's investment objectives, policies and restrictions under the supervision of IICO and the Board of Trustees. IICO pays all costs associated with retaining the subadvisors.

**Accounting Services Fees.** The Trust has an Accounting Services Agreement with Waddell & Reed Services Company, doing business as WI Services Company (WISC), an indirect subsidiary of WDR. Under the agreement, WISC acts as the agent in providing bookkeeping and accounting services and assistance to the Trust, including maintenance of Fund records, pricing of Fund shares and preparation of certain shareholder reports. For these services, each Fund, other than Ivy Managed European/Pacific Fund and Ivy Managed International Opportunities Fund (the Ivy Managed Funds), pays WISC a monthly fee of one-twelfth of the annual fee shown in the following table:

Accounting Services Fee									
Averag	je Net (in mil	Annual Fee Rate for Each Level							
From \$	0	to	\$	10	\$ 0				
From \$	10	to	\$	25	\$ 11.5				
From \$	25	to	\$	50	\$ 23.1				
From \$	50	to	\$	100	\$ 35.5				
From \$	100	to	\$	200	\$ 48.4				
From \$	200	to	\$	350	\$ 63.2				
From \$	350	to	\$	550	\$ 82.5				
From \$	550	to	\$	750	\$ 96.3				
From \$	750	to	\$1	,000	\$121.6				
From \$1	,000	\$148.5							

In addition, for each class of shares in excess of one, each Fund pays WISC a monthly per-class fee equal to 2.5% of the monthly accounting services base fee.

Under the Accounting and Administrative Services Agreement for the Ivy Managed Funds, each Fund pays WISC a monthly fee of one-twelfth of the annual fee shown in the following table for its services:

	Accounting Services Fee										
Averag	ge Net (in mil		Annual Fee Rate for Each Level								
From \$	0	to	\$	10	\$ 0						
From \$	10	to	\$	25	\$ 5.748						
From \$	25	to	\$	50	\$11.550						
From \$	50	to	\$	100	\$17.748						
From \$	100	to	\$	200	\$24.198						
From \$	200	to	\$	350	\$31.602						
From \$	350	to	\$	550	\$41.250						
From \$	550	to	\$	750	\$48.150						
From \$	750	to	\$1	,000	\$60.798						
From \$1	,000	and	Ove	er	\$74.250						

In addition, for each class of shares in excess of one, each of the Ivy Managed Funds pays WISC a monthly per-class fee equal to 1.25% of the monthly accounting services base fee.

**Administrative Fee.** Each Fund also pays WISC a monthly fee at the annual rate of 0.01%, or one basis point, for the first \$1 billion of net assets with no fee charged for net assets in excess of \$1 billion. This fee is voluntarily waived by WISC until a Fund's net assets are at least \$10 million.

**Shareholder Servicing. General.** Under the Shareholder Servicing Agreement between the Trust and WISC, with respect to Class A, Class B, Class C and Class E shares, for each shareholder account that was in existence at any time during the prior month, each Fund pays a monthly fee that ranges from \$1.5042 to \$1.6958; however, WISC has agreed to reduce that fee if the number of total shareholder accounts within the Complex (Waddell & Reed Advisors Funds, Waddell & Reed InvestEd Portfolios and Ivy Funds)

reaches certain levels. Ivy Money Market Fund pays a monthly fee of \$1.75 for each shareholder account that was in existence at any time during the prior month plus, for Class A shareholder accounts, \$0.75 for each shareholder check processed in the prior month. Ivy Limited-Term Bond Fund Class A, which also has check writing privileges, pays \$0.75 for each shareholder check processed in the prior month. For Class R shares, each Fund pays a monthly fee equal to one-twelfth of 0.20 of 1% of the average daily net assets of the class for the preceding month. For Class I and Class Y shares, each Fund pays a monthly fee equal to one-twelfth of 0.15 of 1% of the average daily net assets of the class for the preceding month. Each Fund also reimburses WISC for certain out-of-pocket costs for all classes.

**Networked accounts.** For certain networked accounts (that is, those accounts whose Fund shares are purchased through certain financial intermediaries), WISC has agreed to reduce its per account fees charged to the Funds to \$0.50 per month per shareholder account. Additional fees may be paid by the Funds to those intermediaries. If the aggregate annual rate of the WISC transfer agent fee and the costs charged by the financial services companies exceeds \$18.00 per account for a Fund, WISC will reimburse the Fund the amount in excess of \$18.00.

**Broker accounts.** Certain broker-dealers that maintain shareholder accounts with each Fund through an omnibus account provide transfer agent and other shareholder-related services that would otherwise be provided by WISC if the individual accounts that comprise the omnibus account were opened by their beneficial owners directly. Each Fund may pay such broker-dealers a per account fee for each open account within the omnibus account, or a fixed rate fee, based on the average daily net asset value of the omnibus account (or a combination thereof).

**Distribution and Service Plan. Class A and Class E Shares.** Under a Distribution and Service Plan adopted by the Trust pursuant to Rule 12b–1 under the Investment Company Act of 1940 (the Distribution and Service Plan), each Fund, other than Ivy Money Market Fund, may pay a distribution and/or service fee to Ivy Funds Distributors, Inc. (IFDI) for Class A and Class E shares in an amount not to exceed 0.25% of the Fund's average annual net assets. The fee is to be paid to compensate IFDI for amounts it expends in connection with the distribution of the Class A and Class E shares and/or provision of personal services to Fund shareholders and/or maintenance of shareholder accounts of that class.

**Class B and Class C Shares.** Under the Distribution and Service Plan, each Fund may pay IFDI a service fee not to exceed 0.25% and a distribution fee not to exceed 0.75% of the Fund's average annual net assets for Class B and Class C shares to compensate IFDI for its services in connection with the distribution of shares of that class and/or provision of personal services to Class B or Class C shareholders and/or maintenance of shareholder accounts of that class.

**Class R Shares.** Under the Distribution and Service Plan, each Fund may pay IFDI a fee of up to 0.50%, on an annual basis, of the average daily net assets of the Fund's Class R shares to compensate IFDI for, either directly or through third parties, distributing the Class R shares of that Fund, providing personal services to Class R shareholders and/or maintaining Class R shareholder accounts.

**Class Y Shares.** Under the Distribution and Service Plan, each Fund may pay IFDI a fee of up to 0.25%, on an annual basis, of the average daily net assets of the Fund's Class Y shares to compensate IFDI for, either directly or through third parties, distributing the Class Y shares of that Fund, providing personal services to Class Y shareholders and/or maintaining Class Y shareholder accounts.

**Sales Charges.** As principal underwriter for the Trust's shares, IFDI receives sales commissions (which are not an expense of the Trust) for Class A and Class E shares. A contingent deferred sales charge (CDSC) may be assessed against a shareholder's redemption amount of Class B, Class C or certain Class A and Class E shares and is paid to IFDI. During the fiscal period ended September 30, 2010, IFDI received the following amounts in sales commissions and CDSCs:

	Gross Sale	CDSC

(5)Due to Class I contractual expense limit, investment management fee and/or other common expenses were waived for all share classes.

Any amounts due to the Funds as a reimbursement but not paid as of September 30, 2010 are shown as a receivable from affiliates on the Statement of Assets and Liabilities.

#### 3. INVESTMENT VALUATIONS

Fair value is defined as the price that each Fund would receive upon selling an asset or would pay upon satisfying a liability in an orderly transaction between market participants at the measurement date. Accounting standards establish a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the factors that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. An individual investment's fair value measurement is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1 - unadjusted quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments)

The following tables summarize the valuation of each Fund's investments by the above fair value hierarchy levels as of September 30, 2010. The Schedule of Investments provides additional details on each Fund's portfolio holdings.

Transfers from Level 2 to Level 3 occurred generally due to the lack of observable market data due to decreased market activity or information for these securities. Transfers from Level 3 to Level 2 occurred generally due to the increased availability of observable market data due to increased market activity or information. As shown above, transfers in and out of Level 3 represent the value at the later of the beginning of the fiscal period or the purchase date of the security.

Net realized gain (loss) and net unrealized appreciation (depreciation), shown on the reconciliation of Level 3 investments if applicable, are included on the Statement of Operations in net realized gain (loss) on investments in unaffiliated securities and in net change in unrealized appreciation (depreciation) on investments in unaffiliated securities, respectively. Additionally, the net change in unrealized appreciation for all Level 3 investments still held as of September 30, 2010, if applicable, is included on the Statement of Operations in net change in unrealized appreciation (depreciation) on investments in unaffiliated securities.

As shown above, the Funds may own different types of assets that are classified as Level 2 or Level 3. Assets classified as Level 2 can have a variety of observable inputs, including, but not limited to, benchmark yields, reported trades, broker quotes, benchmark securities, and bid/offer quotations. These observable inputs are collected and utilized, primarily by an independent pricing service, in different evaluated pricing approaches depending upon the specific asset to determine a value.

Securities' values included in the reconciliations above have been primarily determined through the use of a single quote (or multiple quotes) from dealer(s) in the securities using proprietary valuation models. These quotes involve significant unobservable inputs, and thus the related securities are classified as Level 3 investments.

#### 4. INVESTMENT SECURITIES TRANSACTIONS

For the fiscal period ended September 30, 2010, the cost of purchases and the proceeds from maturities and sales of investment securities, other than U.S. Government and short-term securities, were as follows:

Fund	Purchases	Sales
lvy Bond Fund	\$ 109,237	\$ 87,439
lvy Capital Appreciation Fund	85,060	150,039
lvy Core Equity Fund	139,276	137,874

Internal Revenue Code regulations permit each Fund to defer into its next fiscal year net capital losses or net long-term capital losses and currency losses incurred between each November 1 and the end of its fiscal year (post-October losses). Distributions shown above may be reported differently to individual shareholders.

Capital loss carryovers are available to offset future net realized gains incurred in the eight taxable years succeeding the loss year for Federal income tax purposes. The following tables show the totals by year in which the capital loss carryovers will expire if not utilized.

#### 7. DERIVATIVE INSTRUMENTS

The following disclosures contain information on why and how the Funds use derivative instruments, the associated risks of investing in derivative instruments, and how derivative instruments affect the Funds' financial position and results of operations when presented by primary underlying risk exposure.

514

\$ 7,591

**Forward Foreign Currency Contracts.** Certain Funds may enter into forward foreign currency contracts (forward contracts) for the purchase or sale of a foreign currency at a negotiated rate at a future date. Forward contracts are reported on a schedule following the Schedule of Investments. Forward contracts will be valued daily based upon the closing prices of the forward currency rates determined at the close of the NYSE as provided by a bank, dealer or independent pricing service. The resulting unrealized appreciation and depreciation is reported in the Statement of Assets and Liabilities as a receivable or payable and in the Statement of Operations within the change in unrealized appreciation (depreciation). At contract close, the difference between the original cost of the contract and the value at the close date is recorded as a realized gain (loss) in the Statement of Operations.

318

\$ 4,894

Risks to a Fund related to the use of such contracts include both market and credit risk. Market risk is the risk that the value of the forward contract will depreciate due to unfavorable changes in the exchange rates. Credit risk arises from the possibility that the counterparty will default. If the counterparty defaults, a Fund's maximum loss will consist of the aggregate unrealized gain on appreciated contracts.

**Futures Contracts.** Certain Funds may engage in buying and selling futures contracts. Upon entering into a futures contract, the Fund is required to deposit, in a segregated account, an amount equal to a varying specified percentage of the contract amount. This amount is known as the initial margin. Subsequent payments (variation margins) are made or received by the Fund each day, dependent on the daily fluctuations in the value of the underlying debt security or index.

Futures contracts are reported on a schedule following the Schedule of Investments. Securities held in collateralized accounts to cover initial margin requirements on open futures contracts are identified in the Schedule of Investments. Cash held by the broker to cover initial margin requirements on open futures contracts and the receivable and/or payable for the daily mark to market for the variation margin are noted in the Statement of Assets and Liabilities. The net change in unrealized appreciation (depreciation) is reported in the Statement of Operations. Realized gains (losses) are reported in the Statement of Operations at the closing or expiration of futures contracts.

Risks of entering into futures contracts include the possibility of loss of securities or cash held as collateral, that there may be an illiquid market where the Fund is unable to close the contract or enter into an offsetting position and, if used for hedging purposes, the risk that the price of the contract will correlate imperfectly with the prices of the Fund's securities.

**Swap Agreements.** Certain Funds may invest in swap agreements.

Credit default swaps involve the exchange of a fixed rate premium for protection against the loss in value of an underlying security in the event of a defined credit event, such as payment default or bankruptcy. Under a credit default swap one party acts as a guarantor by receiving the fixed periodic payment in exchange for the commitment to purchase the underlying security at par if the defined credit event occurs. A Fund may enter into credit default swaps in which either it or its counterparty act as the guarantor.

Total return swaps involve a commitment to pay periodic interest payments in exchange for a market-linked return based on a security or a basket of securities representing a variety of securities or a particular index. To the extent the total return of the security, index or other financial measure underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Fund will receive a payment from or make a payment to the counterparty.

Variance swaps involve a contract in which two parties agree to exchange cash flows based on the measured variance of a specified underlying security or index during a certain time period. On the trade date, the two parties agree on the strike price of the contract (the reference level against which cash flows are exchanged), as well as the number of units in the transaction and the length of the contract. Like an option contract, the value of a variance swap is influenced by both realized and implied volatility, as well as the passage of time. A Fund may enter into variance swaps to manage volatility risk.

The creditworthiness of firms with which a Fund enters into a swap agreement is monitored by IICO. If a firm's creditworthiness declines, the value of the agreement would likely decline, potentially resulting in losses. If a default occurs by the counterparty to such a transaction, the Fund will have contractual remedies pursuant to the agreement related to the transaction. The maximum loss a Fund may incur consists of the aggregate unrealized gain on appreciated contracts.

**Option Contracts.** Options purchased by a Fund are accounted for in the same manner as marketable portfolio securities. The cost of portfolio securities acquired through the exercise of call options is increased by the premium paid to purchase the call. The proceeds from securities sold through the exercise of put options are decreased by the premium paid to purchase the put.

When a Fund writes (sells) an option, an amount equal to the premium received by the Fund is recorded as a liability. The amount of the liability is subsequently adjusted to reflect the current market value of the option written. The current market value of an option is the last sales price on the principal exchange on which the option is traded or, in the absence of transactions, the mean between the bid and asked prices or at a value supplied by a broker-dealer. When an option expires on its stipulated expiration date or a Fund enters into a closing purchase transaction, the Fund realizes a gain (or loss if the cost of a closing purchase transaction exceeds the premium received when the call option was sold) and the liability related to such option is extinguished. When a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether a Fund has realized a gain or loss. For each Fund, when a written put is exercised, the cost basis of the securities purchased by a Fund is reduced by the amount of the premium received.

Investments in options, whether purchased or written, involve certain risks. Writing put options and purchasing call options may increase a Fund's exposure to the underlying security (or basket of securities). With written options, there may be times when a Fund will be required to purchase or sell securities to meet its obligation under the option contract where the required action is not

beneficial to the Fund, due to unfavorable movement of the market price of the underlying security (or basket of securities). Additionally, to the extent a Fund enters into over-the-counter (OTC) option transactions with counterparties, the Fund will be exposed to the risk that counterparties to these OTC transactions will be unable to meet their obligations under the terms of the transaction.

**Collateral.** A Fund may mitigate counterparty risk through credit support annexes (CSA) included with an International Swaps and Derivatives Association, Inc. (ISDA) Master Agreement which is the standard contract governing most derivative transactions between the Fund and each of its counterparties. The CSA allows the Fund and its counterparty to offset certain derivative financial instruments' payables and/or receivables with collateral, which is generally held by the Fund's custodian. The amount of collateral moved to/from applicable counterparties is based upon minimum transfer amounts specified in the CSA. To the extent amounts due to the Fund from its counterparties are not fully collateralized contractually or otherwise, the Fund bears the risk of loss from counterparty non-performance. See Note 1 "Segregation and Collateralization" for additional information with respect to collateral practices.

### **Objectives and Strategies**

**lvy Bond Fund.** The Fund's objective in using derivatives during the period was to adjust the overall duration of the portfolio. To achieve this objective, the Fund primarily utilized Treasury futures contracts of varying lengths to either shorten or lengthen the duration of the Fund, as determined by the Fund's subadvisor.

Fair values of derivative instruments as of September 30, 2010:

	Asset Derivatives	Asset Derivatives		
Type of Risk Exposure	Statement of Assets and Liabilities Location	Fair Value	Statement of Assets and Liabilities Location	Fair Value
Interest rate	N/A	\$0	Unrealized depreciation on futures	\$173

<sup>\*</sup>The fair value presented includes cumulative gain (loss) on open futures contracts; however, the value reflected in the accompanying Statement of Assets and Liabilities is only the unsettled variation margin receivable (payable) as of September 30, 2010.

The effect of derivative instruments on the Statement of Operations for the fiscal period ended September 30, 2010:

Type of Risk Exposure	Location of Gain (Loss) on Derivatives Recognized in the Statement of Operations	Realized Gain (Loss) on Derivatives Recognized in the Statement of Operations	Appreciation (Depreciation) on Derivatives Recognized in the Statement of Operations
Interest rate	Net realized gain (loss) on futures contracts/ Net change in unrealized appreciation (depreciation) on futures contracts	\$(188)	\$(18)

During the fiscal period ended September 30, 2010, the Fund's average market value outstanding for short futures contracts and long futures contracts was \$4,845 and \$9,189, respectively.

**Ivy Capital Appreciation Fund.** The Fund's objective in using derivatives during the period was to enhance the performance of the Fund by adding premium income from written options. To achieve this objective, the Fund had written primarily deep out of the money calls and puts on individual domestic equity securities.

There were no open derivative instruments as of September 30, 2010.

The effect of derivative instruments on the Statement of Operations for the fiscal period ended September 30, 2010:

Type of Risk Exposure	Location of Gain (Loss) on Derivatives Recognized in the Statement of Operations	Realized Gain (Loss) on Derivatives Recognized in the Statement of Operations	Appreciation (Depreciation) on Derivatives Recognized in the Statement of Operations
Equity	Net realized gain (loss) on written options/Net change in unrealized appreciation (depreciation) on written options	\$(51)	\$421

During the fiscal period ended September 30, 2010, the Fund's average number of written option contracts outstanding was less than 1.

Change in Unrealized

Change in Harredized

**Ivy Cundill Global Value Fund.** The Fund's objective in using derivatives during the period was to hedge the exposure to foreign currencies of securities held in the Fund. To achieve this objective, the Fund utilized forward contracts.

Fair values of derivative instruments as of September 30, 2010:

	Asset Derivatives		Liability Derivatives	
Type of Risk Exposure Statement of Assets and Liabilities Location		Fair Value	Statement of Assets and Liabilities Location	Fair Value
Foreign currency	Unrealized appreciation on forward foreign currency contracts	\$293	Unrealized depreciation on forward foreign currency contracts	\$ 2,755

The effect of derivative instruments on the Statement of Operations for the fiscal period ended September 30, 2010:

Type of Risk Exposure	Location of Gain (Loss) on Derivatives Recognized in the Statement of Operations	Realized Gain (Loss) on Derivatives Recognized in the Statement of Operations	Change in Unrealized Appreciation (Depreciation) on Derivatives Recognized in the Statement of Operations
Foreign currency	Net realized gain (loss) on forward foreign currency contracts/Net change in unrealized appreciation (depreciation) on forward foreign currency contracts	\$5,832	\$(7,664)

During the fiscal period ended September 30, 2010, the Fund's average principal amount outstanding for short forward contracts and long forward contracts was \$104,991 and \$107,092, respectively.

**Ivy European Opportunities Fund.** The Fund's objective in using derivatives during the period was to manage the exposure to various foreign currencies and to hedge market risk on equity securities. To manage foreign currency exposure, the Fund utilized forward contracts to either increase or decrease exposure to a given currency. To achieve the objective of hedging market risk, the Fund utilized futures on foreign equity indices.

There were no open derivative instruments as of September 30, 2010.

The effect of derivative instruments on the Statement of Operations for the fiscal period ended September 30, 2010:

Type of Risk Exposure	Location of Gain (Loss) on Derivatives Recognized in the Statement of Operations	Realized Gain (Loss) on Derivatives Recognized in the Statement of Operations	Change in Unrealized Appreciation (Depreciation) on Derivatives Recognized in the Statement of Operations
Equity	Net realized gain (loss) on investments in futures contracts	\$ 668	\$ 0
Foreign currency	Net realized gain (loss) on forward foreign currency contracts/Net change in unrealized appreciation (depreciation) on forward foreign currency	4204	(100)
	contracts	4,396	(183)
Total		\$5,064	\$ (183)

During the fiscal period ended September 30, 2010, the Fund's average principal amount outstanding for short forward contracts and long forward contracts was \$29,148 and \$29,417, respectively. Additionally, the Fund's average market value outstanding for short futures contracts was \$4,507.

**lvy Global Bond Fund.** The Fund's objective in using derivatives during the period was to manage the exposure to various foreign currencies. To achieve this objective, the Fund utilized forward contracts to either hedge a position held by the Fund, to gain exposure to a currency where a foreign bond is not available, or to take a fundamental position long or short in a particular currency.

Fair values of derivative instruments as of September 30, 2010:

During the fiscal period ended September 30, 2010, the Fund's average market value outstanding for short futures contracts was \$1,610. Additionally, the Fund's average number of purchased option contracts and written option contracts outstanding was 1 and 1, respectively.

### 8. COMMITMENT

In connection with Ivy Pacific Opportunities Fund's investment in Vietnam Azalea Fund Limited (VAF), the Fund is contractually committed to provide additional capital of up to \$1,696 if and when VAF requests such contributions or draw downs. The total commitment is limited to \$5,000. At September 30, 2010, Ivy Pacific Opportunities Fund had made a total contribution of \$3,304. No public market currently exists for the shares of VAF nor are the shares listed on any securities exchange. VAF intends to become listed within one year after the final commitment has been drawn down. VAF's investment strategy is to make minority investments in future blue-chip Vietnamese companies that are already listed or intend to be listed in the next 24 months.

### 11. PENDING REORGANIZATION

A special meeting of shareholders of Ivy Mortgage Securities Fund is scheduled to be held on November 23, 2010. The proposal that will be considered and acted upon at the meeting is whether to approve an Agreement and Plan of Reorganization providing for the transfer of all of the assets of Ivy Mortgage Securities Fund to, and the assumption of all of the liabilities of the Ivy Mortgage Securities Fund by, Ivy Bond Fund in exchange for shares of the Ivy Bond Fund. Shareholders of record of Ivy Mortgage Securities Fund as of the close of business on August 30, 2010 are entitled to vote at the meeting.

# RENEWAL OF INVESTMENT MANAGEMENT AGREEMENT <a href="https://linear.com/linear

At a meeting of the Board of Trustees of Ivy Funds (the "Trust") held on August 24 and 25, 2010, the Trustees, including all of the Trustees who are not "interested persons," as defined in Section 2(a)(19) of the 1940 Act, unanimously approved the continuance of the Investment Management Agreement between Ivy Investment Management Company ("IICO") and the Trust and the continuance of the Investment Subadvisory Agreements between IICO and:

- Advantus Capital Management, Inc. (with respect to Ivy Bond Fund, Ivy Mortgage Securities Fund and Ivy Real Estate Securities Fund)
- Mackenzie Financial Corporation (with respect to Ivy Global Natural Resources Fund and Ivy Cundill Global Value Fund)
- Wall Street Associates (with respect to Ivy Micro Cap Growth Fund)

(each such subadviser referred to herein as a "Subadviser").

The Board's Independent Trustees were assisted in their review by independent legal counsel, and met with such counsel separately from representatives of IICO. Independent legal counsel provided the Board with a memorandum that discussed the various factors that the Board should consider as part of its review of the various agreements, including, among other things, the nature and the quality of the services provided by IICO and the Subadvisers, profitability (including any fall-out benefits) from the relationships with each series of the Trust (each a "Fund," and together, the "Funds"), economies of scale, the role played by the Independent Trustees, and information on comparative fees and expenses. The Board also considered the written responses and supplementary materials produced by IICO and each Subadviser in response to a 15(c) due diligence request list submitted by the Independent Trustees' counsel prior to the meeting. Included in those responses, which had been provided to the Board prior to the meeting, was a Fund-by-Fund profitability analysis prepared by IICO, as well as an explanation of the methodology by which the profitability analysis was calculated. The Board also received extensive materials on performance, expenses and comparable fund information from Lipper, Inc., an independent mutual fund rating service. Finally, the Independent Trustees received and reviewed a considerable amount of information that their independent fee consultant had provided to them. The Independent Trustees previously had reviewed these materials during a telephonic meeting earlier in August. They further reviewed these materials extensively among themselves, with their independent legal counsel and independent fee consultant, and with the other Board members at the August 24th and 25th Board meeting, after which the Board considered various factors described below, none of which by itself was considered dispositive. However, the material factors and conclusions that formed the basis for the Board's determination to approve the agreements are discussed separately below.

# Nature, Extent and Quality of Services

The Board considered the nature, extent and quality of services provided to the Funds by IICO and each Subadviser, taking into account the large amount of materials produced by IICO and each Subadviser in response to the 15(c) due diligence request lists submitted on their behalf by counsel. They also considered the knowledge they had received from the regular meetings of the Board, including from the materials provided in connection with those meetings, such as the resources and key personnel of IICO and each Subadviser, as well as the other services provided to the Funds by IICO and each Subadviser (such as, managing the quality of execution of portfolio transactions and the selection of broker-dealers for those transactions, monitoring adherence to each Fund's investment restrictions, producing reports, providing support services for the Board and Board committees, communicating with shareholders and overseeing the activities of other service providers, including monitoring compliance with various Fund policies and procedures and with applicable securities laws and regulations). The Board concluded that the nature and extent of the services provided by IICO and each Subadviser were appropriate, that the quality of those services had been consistent with quality norms in the industry and that the Funds were likely to benefit from the continued provision of those services.

# Benefits from the Relationship with the Funds

The Board next discussed whether IICO or any Subadviser derives any other direct or indirect benefit from serving the Funds. The Board considered the benefits that accrue to each organization from its respective relationship with a Fund, including the fact that a variety of services are provided by affiliates of IICO, including distribution, shareholder servicing, administrative and fund accounting services. After full consideration of these and other factors, the Board concluded that none of IICO, any Subadviser or any of their affiliates receive any additional direct or indirect benefits that would preclude the Board from approving the continuation of an investment advisory agreement with IICO or any investment sub-advisory agreement with a Subadviser.

### **Economies of Scale**

The Board discussed whether economies of scale are being realized by the Funds and whether fee levels reflect those economies of scale for the benefit of the Funds' shareholders. In that context, the Board discussed the current level of the Funds' advisory fee breakpoints and also considered the current and anticipated asset levels of the Funds and the potential for growth in each Fund. The Board concluded that the Funds' asset sizes and fee structures did not warrant the restructuring or reevaluation of the fee breakpoints for the Funds at the current time.

#### Performance of the Funds and Costs of Services Provided

The Board considered, on a Fund by Fund basis, the performance of each Fund and the costs of the services provided. The Board focused particularly on, among other Funds, the Ivy Asset Strategy Fund, Ivy Bond Fund, Ivy Capital Appreciation Fund, Ivy Cundill Global Value Fund, Ivy European Opportunities Fund, Ivy Global Bond Fund, Ivy Global Natural Resources Fund and Ivy Large Cap Growth Fund. In addition, the Board considered that IICO relatively recently had assumed the day-to-day portfolio management responsibilities for the Ivy European Opportunities Fund and the Ivy International Balanced Fund, replacing those Funds' subadvisers.

Specifically, the Board examined the investment performance of each Fund, including quartile ranking for short- and long-term time periods and each Fund's performance against its peers. The Board also examined the performance of each Fund against its respective Lipper index for the same periods. After extensively reviewing all of the performance information provided, the Board concluded that the Funds' performance in each asset class was acceptable. Although the performance of some of the focus Funds identified by the independent fee consultant lagged that of their peers or respective Lipper index, the Board recognized that IICO, or the applicable Subadviser, had taken, or was taking, steps to address that underperformance, and determined to continue to monitor closely the performance of those Funds.

The Board also considered the expenses of each Fund, the expense ratio of each Fund, and the expense limitation arrangements entered into by IICO in light of the services provided by IICO and each Subadviser. The Board also compared each Fund's expenses, including advisory, distribution and shareholder servicing fees, with the expenses and advisory fees of other investment advisers managing similarly situated funds, as well as the advisory fees that IICO (or an affiliate) charges for providing advisory services to separately managed accounts in the same asset class for certain Funds. In that regard, the Board noted that IICO performs significant additional services for the Funds as compared to such separately managed accounts. The Board also took into account the information on IICO's profitability in managing the Funds, including the methodology used to calculate profitability. The Board finally considered the amount of assets in each Fund, each Fund's average account size and how those factors affect the Funds' expense ratios, noting that, as the Funds' assets have increased over time, the expense ratios of the Funds generally have fallen. After completing this examination, the Board concluded that each Fund's expenses are appropriate at the current time.

### Independent Fee Consultant Review

During August of 2010, and as part of their regularly scheduled meetings, the Disinterested Trustees of Ivy Funds (collectively, the "Ivy Funds" and any separate series thereof an "Ivy Fund") reviewed significant information in connection with considering the continuation of existing investment management agreements currently in effect between Ivy Investment Management Company ("IICO") and the Ivy Funds. Pursuant to the Assurance of Discontinuance between Waddell & Reed, Inc., Waddell & Reed Services Company ("WRSCO"), and Waddell & Reed Investment Management Company (collectively, "Waddell") and the Office of the New York Attorney General dated July 10, 2006 ("Assurance of Discontinuance"), the Disinterested Trustees of the Ivy Funds engaged an independent fee consultant to assist them in evaluating the reasonableness of the management fees charged by IICO, an affiliate of Waddell, to the Ivy Funds. The independent fee consultant's review addressed the following fee-related factors:

- 1. The nature, extent and quality of IICO's services to the Ivy Funds, including performance
- 2. Management fees (including any components thereof) charged by other mutual fund companies for like services
- 3. Management fees (including any components thereof) charged to institutional and other clients of IICO for like services
- 4. Costs to IICO and its affiliates of supplying services pursuant to the management fee agreements, excluding any intra-corporate profit
- 5. Profit margins of IICO and its affiliates from supplying such services
- 6. Possible economies of scale as an Ivy Fund grows larger

The following summarizes the findings of the independent fee consultant retained by the Disinterested Trustees. <sup>1</sup>

### **Summary Findings**

The report stated that IICO delivered strong levels of performance and service to the Ivy Funds in relation to its management fees and relative to investment advisers of comparable mutual funds. For the 36 months ended March 31, 2010, when compared to their respective peer groups established by Lipper, Inc. ("Lipper"), approximately 54% of the Ivy Funds were in the top quintile of performance and 62% of the Ivy Funds were in the top two quintiles of performance. For the one-, and five-year periods ended March 31, 2010, the report stated that 33% and 64% of the Ivy Funds were in the top two quintiles of performance, respectively. The independent fee consultant noted that the Ivy Funds' performance appeared to be grounded in a number of institutional competitive advantages at IICO, including stock selection ability, ability to attract top talent, strategic vision, performance-focused culture, ability to manage smaller AUM funds, ability to serve small account sizes and an effective trading infrastructure.

The report stated that for the 12 months ended March 31, 2010, the asset-weighted average expense ratios of the Ivy Funds were 2% below the mean expense ratios of comparable Lipper Expense Group peers and 16% below asset-weighted average expense ratios of funds in the Lipper Expense Universe. The management fees for the Ivy Funds on average were approximately 9% below the mean management fees for their Lipper Expense Groups and approximately 17% below the mean for their Lipper Expense Universe. The independent fee consultant noted that the Ivy Funds' small average account size introduces certain biases in the Lipper analyses that works against Ivy Funds in Lipper expense comparisons and, as a result, the Lipper findings may be considered conservative in that regard. The independent fee consultant found that within the larger Lipper averages the management fees and total expenses of individual Ivy Funds and share classes are reasonable relative to their performance.

The report also stated that the management fees IICO charges to the Ivy Funds are reasonable in relation to the management fees it charges to its other institutional accounts. The report noted that these institutional accounts have different service and infrastructure needs and in addition, based on industry data, the average spread between management fees charged to the Ivy Funds and those it charges to institutional accounts is below the average fee spreads observed at other investment advisers in industry surveys.

The independent fee consultant found that the level of profit earned by IICO from managing the Ivy Funds does not appear to be unreasonable. The report noted that Waddell's overall profitability from managing the Ivy Funds and its other operations is below the mean profitability of other similarly-sized, publicly traded mutual fund managers, but appears sufficient to enable IICO to continue to provide quality support to the Ivy Funds and their shareholders.

The independent fee consultant undertook an economy of pricing analysis that showed that Ivy Funds incur lower fees and expenses with increasing fund AUM which the independent fee consultant believes should benefit Ivy Fund investors as the Ivy Funds mature.

<sup>1.</sup> The independent fee consultant's evaluation was based on information provided by IICO, Lipper, Inc., other information providers and other independent analyses. The term "management fees" refers to the actual annual advisory and administrative fees, net of any fee waivers, paid by an Ivy Fund, as a percentage of average net assets. The term "total expenses" refers to the total annual expenses, net of any fee waivers, paid by an Ivy Fund, as a percentage of average net assets. Where these terms are used in reference to groups of Ivy Funds, numbers expressed are usually on an asset-weighted basis. Fee and performance data used in screening methodologies are usually for the period ending March 31, 2010.

# Conclusions

The independent fee consultant concluded that the services provided by IICO and its affiliates and expenses incurred by the Ivy Funds over the year ending August 31, 2010 are reasonable and provide adequate justification for renewal of the Ivy Funds' existing advisory agreements.

# PROXY VOTING INFORMATION Ivy Funds

# **Proxy Voting Guidelines**

A description of the policies and procedures Ivy Funds uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling 800.777.6472 and (ii) on the Securities and Exchange Commission's (SEC) website at www.sec.gov.

# **Proxy Voting Records**

Information regarding how Ivy Funds voted proxies relating to portfolio securities during the most recent 12 month period ending June 30 is available on Form N-PX through the Ivy Funds' website at www.ivyfunds.com and on the SEC's website at www.sec.gov.

# QUARTERLY PORTFOLIO SCHEDULE INFORMATION Ivy Funds

Portfolio holdings can be found on the Trust's website at www.ivyfunds.com. Alternatively, a complete schedule of portfolio holdings of each Fund for the first and third quarters of each fiscal year is filed with the SEC and can be found on the Trust's Form N-Q. These holdings may be viewed in the following ways:

- On the SEC's website at www.sec.gov.
- For review and copy at the SEC's Public Reference Room in Washington, DC. Information on the operations of the Public Reference Room may be obtained by calling 1.800.SEC.0330.

# TO ALL TRADITIONAL IRA PLANHOLDERS: Ivy Funds

As required by law, we are hereby providing notice to you that income tax may be withheld automatically from any distribution or withdrawal from a traditional IRA. A Fund is generally required to withhold taxes unless you make a written election not to have taxes withheld. The election may be made on the distribution/withdrawal form provided by Waddell & Reed, Inc. which can be obtained from your Waddell & Reed representative or by submitting Internal Revenue Service Form W–4P. Once made, an election can be revoked by providing written notice to Waddell & Reed, Inc. If you elect not to have tax withheld you may be required to make payments of estimated tax. Penalties may be imposed by the IRS if withholding and estimated tax payments are not adequate.
