Forward-Looking Statements

The following constitutes a “Safe Harbor” statement under the Private Securities Litigation Reform Act of 1995: This presentation contains forward-looking statements that involve a number of risks and uncertainties, including forward-looking statements about our expected future financial and operating performance, demand for our products, and economic and industry outlook. Our actual results may differ materially from these forward-looking statements as a result of various important factors, including those set forth under the heading "Risk Factors" in Kadant’s quarterly report on Form 10-Q for the period ended June 28, 2014. These include risks and uncertainties relating to our dependence on process industries; significance of sales and operation of manufacturing facilities in China; oriented strand board market and levels of residential construction activity; commodity and component price increases or shortages; dependence on certain suppliers; international sales and operations; our acquisition strategy; our internal growth strategy; fluctuations in currency exchange rates; competition; soundness of suppliers and customers; our effective tax rate; future restructurings; soundness of financial institutions; our debt obligations; restrictions in our credit agreement; reliance on third-party research; protection of patents and proprietary rights; failure of our information systems or breaches of data security; fluctuations in our share price; and anti-takeover provisions. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events, or otherwise.

Use of Non-GAAP Financial Measures

In addition to the financial measures prepared in accordance with generally accepted accounting principles (GAAP), we use certain non-GAAP financial measures, including increases or decreases in revenues excluding the effect of acquisitions and foreign currency translation, adjusted operating income, adjusted net income, adjusted diluted EPS, and adjusted earnings before interest, taxes, depreciation, and amortization.

A reconciliation of those numbers to the most directly comparable U.S. GAAP financial measures is shown in our 2014 third quarter earnings press release issued October 27, 2014, which is available in the Investors section of our website at www.kadant.com under the heading Recent News.
