Q&A with Chairperson of Our Board

Ben Johnson has served as Chairperson since 2014 and as a non-executive director of our company since 2009.

How does the Board approach director recruitment?

Shareholders are rightly interested in the composition and effectiveness of the Board. The Board remains committed to ensuring that it is composed of a highly capable group of directors who are well-equipped to oversee the challenges the company will encounter and effectively represent the interests of shareholders. Providing our Board with the appropriate balance of expertise, experience, continuity, as well as new perspectives is an important component to a well-functioning board. Nomination criteria are adjusted as needed to ensure that our Board as a whole continues to reflect the appropriate mix of skills and experience. We encourage you to review the qualifications, skills and experience that we have identified as important attributes for directors of our company and how they match up to our directors.

How does the Board evaluate its effectiveness?

It has always been the aim of the Board to operate in the most effective and efficient manner possible. Therefore, each year the Board, with the assistance of an external advisor specializing in corporate governance, conducts an evaluation of the performance of our Board and each of its committees. Directors participate in one-on-one interviews with the advisor and receive in-person feedback from the advisor based on these confidential and private interviews. The directors then determine if the Board needs to modify its activities to further enhance the operations of the Board and its committees. In addition to the interviews of each director, interviews are also conducted with those members of executive management who work with and observe the operation of the Board on a regular basis.

Can you discuss the Board's role in shareholder engagement?

As we conduct the activities of the Board, a key priority is ensuring robust outreach and engagement with you, the owners of the company. Partnering with management, we receive feedback from shareholders throughout the year on a variety of topics, including environmental, social and governance (“ESG”) topics and executive compensation. We listen and carefully consider your perspectives in our decision-making process and make enhancements to our governance and executive compensation programs, from time-to-time, based on your input.

How does the company's executive compensation program align with its shareholders' interest?

To support our multi-year strategic objectives, the Board's compensation committee has structured our compensation programs for our executives, investment professionals and other employees to align individual rewards with client and shareholder success. Engagement with shareholders in the fall and winter of 2017 reaffirmed our belief that our compensation programs are sound and appropriately aligned with the long-term interests of our clients and shareholders. Furthermore, our shareholders positively acknowledged our recent enhancements to our compensation programs that more effectively link the programs with the company's progress against its strategic objectives, annual operating plan and long-term shareholder value creation.

How do I communicate with the Board?

The Board is committed to continuing to engage with shareholders and encourages an open dialogue. Please continue to share your thoughts with us as we value your input, investment and support. Communications with the Board can be addressed to the Board of Directors in care of the Office of the Company Secretary, Invesco Ltd., 1555 Peachtree Street NE, Atlanta, Georgia 30309 or by e-mail to company.secretary@invesco.com.

Proxy Statement Summary

Our 2017 highlights

Invesco continued to make progress against our multi-year strategic objectives (outlined below), which enabled us to deliver strong, long-term investment performance to clients, further advance our competitive position and deliver solid returns to shareholders. We achieved nine consecutive years of positive, long-term net flows and record adjusted diluted earnings-per-share. We also took advantage of opportunities in the market and further invested in our capabilities, our global platform and our people in ways that strengthened our business and further differentiated us in the marketplace to help ensure our long-term success.

After a review of the company's financial performance, our Compensation Committee determined that the company-wide incentive pool should be slightly increased for 2017. After reviewing key outcomes in the context of our multi-year strategic objectives and annual operating plan, the committee, as part of its rigorous and judicious executive compensation decision-making, determined that our chief executive officer's total incentive compensation should be increased by approximately 2.5%.

We continued to successfully execute our strategic objectives for the benefit of clients and shareholders

We focus on four key multi-year strategic objectives set forth in the table below that are designed to maintain our focus on meeting client needs and strengthen our business over time for the benefit of shareholders. As described below, in 2017 we made significant progress against our strategic objectives and enhanced our ability to deliver strong outcomes to clients while further positioning the firm for long-term success.

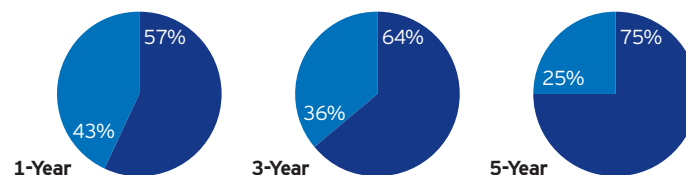

Our strategic objectives

- Further strengthened our investment culture, which enabled us to deliver strong, long-term investment performance to our clients across the globe: 64% and 75% of measured actively managed ranked assets in the top half of peer groups on a three- and five-year basis, respectively.

Our strategic objectives	2017 Achievements (continued)
Achieve strong investment performance (continued)	<ul style="list-style-type: none"> - A number of our investment teams were recognized by leading financial publications and the industry, including one publication that named Invesco Perpetual "Fund Manager of the Year" for the third straight year. - Our International Growth team in the US celebrated 25 years of out-performance. The fund has consistently outperformed its benchmark 100% of the time over all 80 quarterly five-year rolling periods since inception.
Be instrumental to our clients' success	<ul style="list-style-type: none"> - Continued to build our comprehensive range of active, passive and alternative capabilities while strengthening our scale and relevance in key capabilities: <ul style="list-style-type: none"> - Completed the acquisition of a leading independent specialist provider of exchange-traded funds (ETFs) based in Europe; and - Announced our intention to acquire Guggenheim Investments' ETF business, which includes 76 ETFs that will strengthen the depth, breadth and diversity of Invesco's traditional and smart beta ETFs. - Continued to expand our Invesco Solutions team, which brings together the full capabilities of the firm to provide outcomes that help clients meet their investment objectives.

Continued to drive savings through our business optimization program, which delivered more than \$40 million in annualized run-rate expense savings as of the end of 2017. The savings will be reinvested in initiatives that enhance our ability to meet client needs and key growth initiatives for future years (e.g., factor-based investing, institutional and our expansion in China).
Perpetuate a high-performance organization	<ul style="list-style-type: none"> - Further strengthened our investment and distribution teams through new hires and our efforts to attract, develop, motivate and retain the best talent in the industry. - Conducted our bi-annual employee opinion survey, in which Invesco's employee engagement scores have exceeded other global financial services firm norms every survey since the inception of the survey in 2006. Key drivers of Invesco's employee engagement are (1) empowerment/involvement, (2) ethics and values of the firm and (3) the firm's strategy and direction.

Enhancements to our executive compensation program

During 2017, we again sought feedback on our executive compensation programs from our largest shareholders. The shareholders who recently provided feedback did not voice any material concerns and positively acknowledged enhancements made in 2016. In response to shareholder feedback and the committee's review, the committee made the following enhancements to its executive compensation program:

Performance-based equity	<p>Increased amount of equity subject to performance-vesting commencing with equity awarded for 2017. The committee has determined that 50% of the combined value of all short- and long-term equity awards to our executive officers will be performance-based. We believe this enhancement further strengthens the alignment of our executive officers' compensation with client and shareholder success.</p>
\$10 Million Cap on CEO Cash Bonus	<p>Placed a \$10 million maximum on the CEO's cash bonus for 2018. This cap is in addition to the previously established cap on the CEO's total compensation of \$25 million, with actual pay expected to be below that level.</p>

Proxy Statement

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Invesco Ltd. ("Board" or "Board of Directors") for the Annual General Meeting to be held on Thursday, May 10, 2018, at 1:00 p.m. eastern time. Proposal

1

Election of Directors

You are being asked to cast votes for nine directors: Sarah E. Beshar, Joseph R. Canion, Martin L. Flanagan, C. Robert Henrikson, Ben F. Johnson III, Denis Kessler, Sir Nigel Sheinwald, G. Richard Wagoner, Jr. and Phoebe A. Wood.

A director holds office until such director's successor has been duly elected and qualified or until such director's death, resignation or removal from office under our Bye-Laws. Each director is elected for a one-year term ending at the 2019 Annual General Meeting.

All nominees are current directors of the company. Further information regarding the nominees is shown on the following pages. Each nominee has indicated to the company that he or she would serve if elected. We do not anticipate that any director nominee will be unable to stand for election, but if that were to happen, the Board may reduce the size of the Board, designate a substitute or leave a vacancy unfilled. If a substitute is designated, proxies voting on the original director nominee will be cast for the substituted candidate.

Under our Bye-Laws, at any general meeting held for the purpose of electing directors at which a quorum is present, each director nominee receiving a majority of the votes cast at the meeting will be elected as a director. If a nominee for director who is an incumbent director is not elected and no successor has been elected at the meeting, the director is required under our Bye-Laws to submit his or her resignation as a director. Our Nomination and Corporate Governance Committee would then make a recommendation to the full Board on whether to accept or reject the resignation. If the resignation is not accepted by the Board, the director will continue to serve until the next annual general meeting and until his or her successor is duly elected, or his or her earlier resignation or removal. If the director's resignation is accepted by the Board, then the Board may fill the vacancy. However, if the number of nominees exceeds the number of positions available for the election of directors, the directors so elected shall be those nominees who have received the greatest number of affirmative votes cast in person or by proxy.

Recommendation of the board

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE ELECTION TO THE BOARD OF EACH OF THE DIRECTOR NOMINEES.

This proposal requires the affirmative vote of a majority of votes cast at the Annual General Meeting.

Mr. Kessler's unique perspective, fueled by his experience as an economist, his diverse international business experience and current position with a major global reinsurance company, significantly enhances the skill set of our Board of Directors by providing, among other things, valuable insight into both the investment management industry's macro-economic positioning over the long term across multi-geographies as well as our company's particular challenges within that industry. Director independence

For a director to be considered independent, the Board must affirmatively determine that the director does not have any material relationship with the company either directly or as a partner, shareholder or officer of an organization that has a relationship with the company. Such determinations are made and disclosed according to applicable rules established by the New York Stock Exchange ("NYSE") or other applicable rules. As part of its independence determinations, the Board considers any direct or indirect relationship between a director (or an immediate family member of such director) and the company or any third party involved with the company. As part of its independence determinations with respect to director Sarah E. Beshar, the Board considered (i) a real estate lease by the company of certain office space located in New York, New York from Marsh & McLennan ("MMC") which employs Ms. Beshar's spouse as an executive officer (Executive Vice President and General Counsel); and (ii) various human resources-related transactional and administration services (e.g., third-party benefits administration and benchmarking market data) which are non-professional and nonadvisory in nature provided by subsidiaries of MMC. The total amount paid to MMC in 2017 for all such items was less than one percent (1%) of MMC's 2017 publicly reported revenue. In accordance with the rules of the NYSE, the Board has affirmatively determined that it is currently composed of a majority of independent directors, and that the following current directors are independent and do not have a material relationship with the company: Sarah E. Beshar, Joseph R. Canion, C. Robert Henrikson, Ben F. Johnson III, Denis Kessler, Sir Nigel Sheinwald, G. Richard Wagoner, Jr. and Phoebe A. Wood.

Board evaluation process

1 Annual board and committee evaluations	The Board engages an independent external advisor specializing in corporate governance to coordinate the Board's self assessment by its members. The advisor has each director complete a questionnaire and then performs one-on-one confidential interviews with directors. In addition to the questionnaires and interviews of each director, interviews are also conducted with those members of executive management who attend Board meetings on a regular basis.
2 Report to board	The advisor prepares and presents in person a report to the Board, which discusses the findings of the advisor based upon its reviews. The report also discusses governance trends which the Board may want to take into consideration.
3 Board and committee review	The Board then discusses the evaluation to determine what action, if any, could further enhance the operations of the Board and its committees.

Director recruitment

The Nomination and Corporate Governance Committee identifies and adds new directors using the following process:

1 Determine candidate pool	The Nomination and Corporate Governance Committee reviews and updates its criteria for prospective directors based on succession planning for directors, to fill gaps in skill sets among current directors and to address new or evolving needs of the company. The company utilizes each of the following to aid in this process: <ul style="list-style-type: none">- Independent directors- Independent search firms
2 Review recommendations	Candidates meet with members of the Nomination and Corporate Governance Committee, the Board Chair and the other Board members who assess candidates based on several factors, including whether the nominee has skills that will meet the needs of the company's long-term strategic objectives and will bring diversity of thought, global perspective, experience and background to our Board. While the Committee routinely considers diversity as a part of its deliberations, it has no formal policy regarding diversity.
3 Make recommendations to the board	Due diligence is conducted, including soliciting feedback on potential candidates from persons outside the Company. Qualified candidates are presented to the Board of Directors.
4 Outcome	Three new directors since 2013 adding the following skills and traits to our Board: <ul style="list-style-type: none">- Gender Diversity- Public Company CEO- Global business leadership- Government experience- Financial and accounting expertise- Industry experience- Non-U.S. Directors- Legal Experience- Executive leadership

The Nomination and Corporate Governance Committee believes there are certain minimum qualifications that each director nominee must satisfy in order to be suitable for a position on the Board, including that such nominee:

- be an individual of the highest integrity and have an inquiring mind, a willingness to ask hard questions and the ability to work well with others;
- be free of any conflict of interest that would violate any applicable law or regulation or interfere with the proper performance of the responsibilities of a director;
- be willing and able to devote sufficient time to the affairs of the company and be diligent in fulfilling the responsibilities of a director and Board committee member; and
- have the capacity and desire to represent the best interests of the shareholders as a whole.

Shareholder Engagement

Why we engage

One of our key priorities is ensuring robust outreach and engagement with shareholders, the owners of the company in order to:

- Provide transparency into our business, governance practices and compensation programs
- Determine which issues are important to our shareholders and share our views on those issues
- Identify emerging issues that may impact our business and influence our practices

How we engage

1 Investor relations and senior management	We provide institutional investors with many opportunities to provide feedback to senior management by participating in conferences, one-on-one and group meetings throughout the year.
2 Shareholders	We also engage with representatives of our major shareholders through conference calls that occur outside of proxy season. These exchanges cover our executive compensation program, risk management, ESG, strategic planning processes and emerging governance practices generally and specifically with respect to Invesco.
3 Board involvement	Our Chairperson of the Board and members of our compensation committee have participated in certain shareholder meetings and management provides feedback to our directors based on its shareholder meetings where directors were not present.
4 Outcomes from investor feedback	<ul style="list-style-type: none"> - Adopted proxy access - Declassified Board - Added performance vesting criteria to our equity awards and increased the amount of such equity subject to performance vesting - Increased the required performance period from 1 to 3 years for our performance-based equity awards - Added a cash bonus cap to our chief executive officer pay - Enhanced our proxy disclosures regarding risk management, ESG and strategic planning - Highlighted our Corporate Social Responsibility Report, which is posted on our website

Corporate Governance

Corporate governance guidelines

The Board has adopted Corporate Governance Guidelines (“Guidelines”) and Terms of Reference for our Chairperson and for our Chief Executive Officer, each of which is available in the corporate governance section of the company’s website. The Guidelines set forth the practices the Board follows with respect to, among other matters, the composition of the Board, director responsibilities, Board committees, director access to officers, employees and independent advisors, director compensation and performance evaluation of the Board.

Board leadership structure

As described in the Guidelines, the company’s business is conducted day-to-day by its officers, managers and employees, under the direction of the Chief Executive Officer and the oversight of the Board, to serve the interest of our clients and enhance the long-term value of the company for its shareholders. The Board is elected by the shareholders to oversee our management team and to seek to assure that the long-term interests of the shareholders are being served. In light of these differences in the fundamental roles of the Board and management, the company has chosen to separate the Chief Executive Officer and Board Chairperson positions. The Board believes separation of these roles: (i) allows the Board more effectively to monitor and evaluate objectively the performance of the Chief Executive Officer, such that the Chief Executive Officer is more likely to be held accountable for his performance; (ii) allows the non-executive Chairperson to control the Board’s agenda and information flow; and (iii) creates an atmosphere in which other directors are more likely to challenge the Chief Executive Officer and other members of our senior management team. For these reasons, the company believes that this board leadership structure is currently the most appropriate structure for the company. Nevertheless, the Board may reassess the appropriateness of the existing structure at any time, including following changes in board composition, in management or in the character of the company’s business and operations.

Code of conduct and directors’ code of conduct

As part of our ethics and compliance program, our Board has approved a code of ethics (the “Code of Conduct”) that applies to our principal executive officer, principal financial officer, principal accounting officer and persons performing similar functions, as well as to our other officers and employees. The Code of Conduct is posted on the company’s website. In addition, we have adopted a separate Directors’ Code of Conduct that applies to all members of the Board. We intend to satisfy the disclosure requirement regarding any amendment to, or a waiver of, a provision of the Code of Conduct for our directors and executive officers by posting such information on the company’s website. The company maintains a compliance reporting line, where employees and individuals outside the company can anonymously submit a complaint or concern regarding compliance with applicable laws, rules or regulations, the Code of Conduct, as well as accounting, auditing, ethical or other concerns.

Board’s role in risk oversight

The Board has principal responsibility for oversight of the company’s risk management processes and for understanding the overall risk profile of the company. Though Board committees routinely address specific risks and risk processes within their purview, the Board has not delegated primary risk oversight responsibility to a committee.

Risk management is embedded in our daily operating activities, our day-to-day decision making as well as our strategic planning process. Our risk management framework provides the basis for consistent and meaningful risk dialogue up, down and across the company. Our Global Performance and Risk Committee assesses core investment risks. Our Corporate Risk Management Committee assesses strategic, operational and all other business risks. A network of business unit,

specific and geographic risk management committees, under the auspices of the Corporate Risk Management Committee, maintains an ongoing risk assessment, management and monitoring process that provides a bottom-up perspective on the specific risk areas existing in various domains of our business.

At each Board meeting, the Board reviews and discusses with senior management information pertaining to risk provided by the Global Performance Measurement and Risk Group and the Corporate Risk Management Committee. In these sessions senior management reviews and discusses with the Board the most significant risks facing the company. The Board has also reviewed and approved the company's risk appetite statement and crisis management framework. By receiving these regular reports, the Board maintains a practical understanding of the risk philosophy and risk appetite of the company. In addition, Board and committee agenda items on various topics regarding our business include discussion on risks inherent in our business as well as those introduced by new business developments. Through this regular and consistent risk communication, the Board has reasonable assurance that all material risks of the company are being addressed and that the company is propagating a risk-aware culture in which effective risk management is built into the fabric of the business.

In addition, the Compensation Committee annually assesses the risks of our compensation policies and practices for all employees. The Compensation Committee has concluded our policies and practices do not create risks that are reasonably likely to have a material adverse effect on the company. In reaching this conclusion, the Compensation Committee considered the input of a working group comprised of representatives from our human resources and finance departments that reviewed each of Invesco's compensation plans.

Invesco's compensation programs are designed to reward success over the long-term, promote a longer term view of risk and return in decision making and protect against incentives for inappropriate risk taking. Examples of risk mitigation in our compensation program design include:

- The Compensation Committee considers multiple performance metrics in establishing the company-wide annual incentive pool each year, so no one metric creates an undue reward that might encourage excessive risk taking. The Committee does not attempt to rank or assign relative weight to any factor, but instead applies its judgment in considering them in their entirety;
- The vast majority of investment professional bonus plans have multi-year measurement periods, caps on earnings and discretionary components;
- Sales and commission plans generally contain multiple performance measures and discretionary elements; and
- Executives receive a substantial portion of compensation in the form of long-term equity that vests over multi-year periods. Time-based equity awards vest ratably over a four-year period. Performance-based equity awards are subject to a three-year performance period and three-year cliff vesting. As in the past, the achievement of financial performance for the performance-based equity awards must be certified by the Compensation Committee and the awards are subject to a clawback. Executives are also subject to our stock ownership policy.

The Audit Committee routinely receives reports from the control functions of finance, legal, compliance and internal audit. The Global Head of Internal Audit reports to the Chairperson of the Audit Committee. The Audit Committee oversees the internal audit function's planning and resource allocation in a manner designed to ensure testing of controls and other internal audit activities are appropriately prioritized in a risk-based manner. The Audit Committee also seeks to assure that appropriate risk-based inputs from management and internal audit are communicated to the company's independent public auditors.

Investment and corporate stewardship - environmental, social and governance responsibility

As a global investment management organization, Invesco is committed to adopting and implementing responsible investment principles in a manner that is consistent with our fiduciary responsibilities to clients. Invesco recognizes the importance of considering environmental, social and governance ("ESG") issues as part of a robust investment process. Additionally, Invesco's corporate stewardship programs focus on human capital development and our responsibility to help sustain a healthy, clean environment for future generations. We are committed to fostering greater transparency and continuous improvement with regard to responsible investment and corporate stewardship within our business. Below are some of the actions Invesco is taking to meet these commitments.

- In June 2013, Invesco became a signatory to the United Nations Principles for Responsible Investment ("PRI"), which is the leading global responsible investment network of investment managers. Invesco's most recent annual rating from PRI on Strategy and Governance is an "A+", representing a score of 95% or higher. In all eight categories tracked by PRI, Invesco matched or outperformed its peer group, reflecting our commitment and success in this area. Invesco's PRI transparency report is publicly available at www.unpri.org. Invesco is also a signatory to the UK Stewardship Code and Japan Stewardship Code, which, like PRI, promote active engagement in corporate governance. Additional information about Invesco's commitment to Principles for Responsible Investment is available under the About Us tab on the company's website.
- Invesco believes the voting of proxies should be managed with the same care as all other elements of the investment process. The proxy voting process at Invesco, which is driven by investment professionals, focuses on maximizing long-term value for our clients, protecting clients' rights and promoting governance structures and practices that reinforce the accountability of corporate management and boards of directors to shareholders. Invesco's Investment Stewardship and Proxy Voting Annual Report is also available under the About Us tab on the company's website.
- The Invesco Corporate Responsibility Committee ("CRC"), which includes executive management sponsorship and representation, oversees and drives the company's global corporate and investment stewardship programs and policy. The committee, working in coordination with global workstreams, drives the strategy, oversight and governance of our internal programs and demonstrates Invesco's broad executive leadership commitment to responsible investment. The CRC provides direction to Invesco's investment and corporate stewardship leaders on core ESG topics, participation in industry advocacy and policy efforts and participation in charitable and community organizations to enhance our impact in sustainable global efforts.
- Our company is a constituent of the FTSE4Good Index Series, which seeks to help investors identify organizations with good track records of corporate social responsibility.
- Invesco has also made significant progress in reducing our impact on the environment at a number of our global locations. Our Atlanta, Dublin, Frankfurt, Henley, Houston, Hyderabad, London, New York, Prince Edward Island and Toronto locations, which comprise approximately 80% of Invesco's employees around the world, are ISO 14001 registered - a certification that Invesco has the framework in place to effectively manage its environmental responsibilities.
- Invesco has received certification in the Leadership in Energy and Environmental Design (LEED) program. Our Hyderabad office achieved the highest platinum standard, while our New York office achieved the gold standard and our Atlanta

headquarters and Houston office achieved the silver standard. LEED certification is globally recognized as the premier mark of achievement in green building.

- Invesco participates in the Carbon Disclosure Project, reporting on carbon emissions and reduction management processes and our commitment to sound environmental practices is summarized in our Global Carbon Emissions and Environmental Corporate Policy Statement found under the About Us tab on the company's website.
- Our company provides equal opportunity in its employment and promotion practices and encourages employees to play active roles in the growth and development of the communities in which they live and work. Invesco conducts regular employee surveys to monitor employee satisfaction with results showing consistently high levels of employee engagement driven by many positive factors including employees' perspectives regarding ethics and values at the company, the company's strategy and direction, and opportunity for personal development.

2 Morningstar Sustainability ratings 280 of 620 as of January 31, 2018

We believe in the power of diversity

Invesco is an independent global investment management firm dedicated to delivering an investment experience that helps people get more out of life.

Our aspiration is for our workforce to continually reflect the diversity of people and perspectives in today's evolving society, which we believe is fundamental to our efforts to help our clients and employees get more out of life.

Our business success relies on engaging a highly diverse team of people across the globe who are client-focused, think differently and draw on a range of backgrounds and experiences to contribute their unique perspective. Ensuring a broad range of different experiences and backgrounds helps us create the diversity of thought needed to deliver a compelling investment experience for clients and ensure an engaging work environment for our people. This approach is a core attribute of our firm's culture, which actively encourages our people to collaborate to find the best ideas and solutions for clients, leveraging the tremendous diversity of thought that exists across our global organization.

At Invesco, we're committed to improving diversity at all levels and in all functions across our global business. Although diversity is very country and culturally specific, gender diversity is a constant across the globe, which is why we are focusing on this at the enterprise level. Today we have a diverse, talented pool of women across our global firm, but we aspire to have more women at senior levels and across all functions within our firm.

The CEO and Senior Managing Directors (SMDs) of Invesco - that is, the most senior leaders for key parts of our business - have adopted several principles for achieving our gender diversity targets. To demonstrate our commitment to senior-level accountability globally, the firm has adopted a four-point pledge (modelled on the UK Women in Finance charter). Specifically, the CEO and SMDs have pledged that:

- We are supportive of this initiative and will apply this to Invesco globally with the CEO and each SMD as the senior executives responsible and accountable for gender diversity and inclusion;
- Globally, we've set a target for female representation of senior managers¹ to be between 30% - 40% by 2020 (currently 26%);
- We will share high-level diversity and inclusion activities that will aid our achievement of the target and support having greater diversity across the globe; and
- Goals on gender diversity will be included for Senior Managers, defined as the CEO and the SMDs, as part of their overall performance goals, and to be in support of gender diversity and inclusion activities.

In support of our aspirations, we are implementing a variety of activities focused on engaging, developing and retaining the many talented women who work for Invesco, while attracting new talent to help address any gaps. These initiatives include programs focused on developing the next generation of women leaders, training efforts intended to strengthen our inclusive culture and more robust recruitment practices to attract additional women into the firm. In addition to the overall regional targets highlighted above, each of the SMDs also has a number of specific activity-based goals.

All of these efforts are sponsored by the SMDs, supported by our senior leaders across the business, and incorporated into the firm's business plans and leadership objectives. Across the globe, we continue to build our Invesco Women's Network, which aims to:

- Provide development and mentorship opportunities;
- Encourage leadership and participation by women on committees, initiatives and key activities across the firm;
- Provide greater networking activities for women and men;
- Strengthen the firm's focus on gender-specific topics; and
- Create awareness among client firms and the broader financial services community of Invesco's commitment to engaging and developing women.

We are also active members in a number of local or regional public or industry initiatives such as the UK Diversity Project.

Invesco's overall employee engagement score of 89% exceeds the "global high performing organizations" norm, a relevant benchmark provided by our employee survey provider, Willis Towers Watson.

Invesco values our employees and their diverse perspectives. Our company provides equal opportunities in its employment and promotion practices, and encourages employees to play an active role in the growth and development of the communities in which they live and work.

¹ Senior Managers are defined as members of the regional group(s) leadership team(s) and their direct reports.

To measure our progress in a number of areas and provide input that helps us further strengthen our culture, Invesco conducts regular internal surveys to measure and monitor employee engagement. The most recent results showed continued high levels of employee engagement. In 2017, the drivers of engagement included employees' perspectives regarding ethics and values at the company, the company's strategy and direction, and the degree to which employees feel empowered and involved in decisions.

Cyber Security

At a time when cyber threats are some of the most significant risk facing financial institutions, we continue to invest in our security capabilities to keep clients, employees, and critical assets safe, while enabling a secure and resilient business. We have designated a Global Chief Security Officer and have a global security program that combines physical and information (including cyber) security under a single umbrella supported by an intelligence function that provides timely threat information.

Our information security program, led by our Chief Information Security Officer (who reports to our Global Security Officer), is designed to oversee and maintain all aspects of information security risk to ensure the confidentiality, integrity and availability of information assets. This includes the implementation of controls aligned with industry guidelines and applicable statutes and regulations to identify threats, detect attacks and protect these information assets. We have an incident response program that includes periodic testing and is designed to restore business operations as quickly and as orderly as possible in the event of a breach.

Director compensation

Directors who are Invesco employees do not receive compensation for their services as directors. The Compensation Committee annually reviews and determines the compensation paid to non-executive directors. The committee considers, among other things, the following policies and principles:

- that compensation should fairly pay the non-executive directors for the work, time commitment and efforts required by directors of an organization of the company's size and scope of business activities, including service on Board committees;
- that a component of the compensation should be designed to align the non-executive directors' interests with the long-term interests of the company's shareholders; and
- that non-executive directors' independence may be compromised or impaired if director compensation exceeds customary levels.

As a part of its annual review, the committee engaged Johnson Associates, Inc. ("Johnson Associates") as a third-party consultant to report on comparable non-executive director compensation practices and levels. This report includes a review of director compensation at the same peer companies the committee considers for executive compensation practices. See page 38 for a list of our peers. Following the review of current market practices for directors of peer public companies, the Compensation Committee determined in December 2016 that the compensation for non-executives directors would remain the same for 2017. The compensation for non-executive directors for 2017 was as follows, with each fee component paid in quarterly installments in arrears:

Basic cash fee	Non-executive directors (other than the Chairperson of the Board) received an annual basic fee paid in cash in the amount of \$120,000.
Chairperson fee	In lieu of the above basic cash fee, the Chairperson of the Board received an annual cash fee of \$400,000.
Basic shares fee	Non-executive directors also received an annual award of shares in the aggregate amount of \$145,000.
Audit Committee Chairperson fee	The Chairperson of the Audit Committee received an additional annual cash fee of \$50,000.
Compensation and Nomination and Corporate Governance Committee Chairperson's fee	The Chairperson of the Compensation Committee and the Chairperson of the Nomination and Corporate Governance Committee each received an additional annual cash fee of \$15,000.

We also reimburse each of our non-executive directors for their travel expenses incurred in connection with attendance at Board of Directors and committee meetings. Directors do not receive any meeting or attendance fees. Following its annual review of current market practices for directors of peer public companies in December 2017, the Compensation Committee determined that the compensation for non-executive directors will remain the same for 2018.

Stock ownership policy for non-executive directors – All shares granted to our non-executive directors are subject to the Non-Executive Director Stock Ownership Policy. The policy generally requires each non-executive director to achieve and thereafter maintain an ownership level of at least 18,000 shares within seven years of such director’s first appointment as a non-executive director. Until such ownership level is achieved, each non-executive director is generally required to continue to retain at least 50% of all shares received as compensation from the company.

The following table shows the status of our non-executive directors meeting the requirements of the policy as of December 31, 2017.

¹ Based on current compensation levels, it is anticipated that Sir Nigel and Ms. Beshar will each attain the share ownership goal within the period required by the policy.

² Includes deferred shares awarded under our legacy Deferred Fees Share Plan.

Executive Compensation

Compensation discussion and analysis

This section presents a discussion and analysis of the philosophy and objectives of our Board's Compensation Committee (the "committee") in designing and implementing compensation programs for our executive officers.

The presentation has two main sections - an executive summary and an in-depth discussion. The executive summary discusses enhancements to our executive compensation program, followed by a brief discussion of the compensation of our chief executive officer in the context of our 2017 financial performance and achievements against our multi-year strategic objectives.

The balance of the presentation has four components. We provide a more in-depth discussion of our compensation philosophy, design and process. We provide a flowchart of our 2017 compensation decision-making process and discuss each element of the flowchart in-depth. We next present a detailed review of the 2017 accomplishments and compensation determinations of our chief executive officer, chief financial officer and the next three most highly compensated executive officers (our "named executive officers" or "NEOs"). Lastly, we set forth our other compensation policies and practices.

Executive Summary

Our 2017 highlights

Invesco continued to make progress against our multi-year strategic objectives (outlined below), which enabled us to deliver strong, long-term investment performance to clients, further advance our competitive position and deliver solid returns to shareholders. We achieved nine consecutive years of positive, long-term net flows and record adjusted diluted earnings-per-share. We also took advantage of opportunities in the market and further invested in our capabilities, our global platform and our people in ways that strengthened our business and further differentiated us in the marketplace to help ensure our long-term success.

After a review of the company's financial performance, our Compensation Committee determined that the company-wide incentive pool should be slightly increased for 2017. After reviewing key outcomes in the context of our multi-year strategic objectives and annual operating plan, the committee, as part of its rigorous and judicious executive compensation decision-making, determined that our chief executive officer's total incentive compensation should be increased by approximately 2.5%.

2017 Financial performance (year-over-year change)

Annual adjusted operating income¹

Annual adjusted operating margin¹

¹ The adjusted financial measures are all non-GAAP financial measures. See the information in Appendix B of this Proxy Statement regarding Non-GAAP financial measures.

We continued to successfully execute our strategic objectives for the benefit of clients and shareholders

We focus on four key multi-year strategic objectives that are designed to maintain our focus on meeting client needs and strengthen our business over time for the benefit of shareholders. In 2017 we made significant progress against our strategic objectives and enhanced our ability to deliver strong outcomes to clients while further positioning the firm for long-term success.

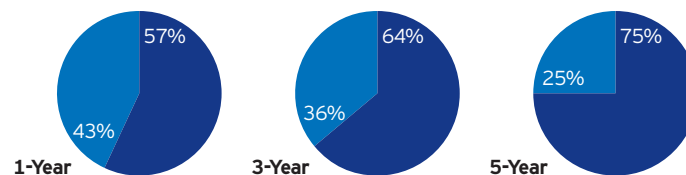

Our strategic objectives

Achieve strong investment performance

Percent of our actively managed assets in the top half of our peer group. See Appendix A for important disclosures regarding AUM ranking.

■ Assets top half of peer group ■ Assets bottom half of peer group

- Further strengthened our investment culture, which enabled us to deliver strong, long-term investment performance to our clients across the globe: 64% and 75% of measured actively managed ranked assets in the top half of peer groups on a three- and five-year basis, respectively.

Our strategic objectives	2017 Achievements (continued)
Achieve strong investment performance (continued)	<ul style="list-style-type: none"> - A number of our investment teams were recognized by leading financial publications and the industry, including one publication that named Invesco Perpetual "Fund Manager of the Year" for the third straight year. - Our International Growth team in the US celebrated 25 years of out-performance. The fund has consistently outperformed its benchmark 100% of the time over all 80 quarterly five-year rolling periods since inception.
Be instrumental to our clients' success	<ul style="list-style-type: none"> - Continued to build our comprehensive range of active, passive and alternative capabilities while strengthening our scale and relevance in key capabilities: <ul style="list-style-type: none"> - Completed the acquisition of a leading independent specialist provider of exchange-traded funds (ETFs) based in Europe; and - Announced our intention to acquire Guggenheim Investments' ETF business, which includes 76 ETFs that will strengthen the depth, breadth and diversity of Invesco's traditional and smart beta ETFs. - Continued to expand our Invesco Solutions team, which brings together the full capabilities of the firm to provide outcomes that help clients meet their investment objectives.
Harness the power of our global platform	<ul style="list-style-type: none"> - Further expanded and enhanced our ability to help our advisor clients engage with their clients and improve their investment experience through Jemstep, our advisor-focused technology solution. Announced partnerships with a number of large enterprises using our Jemstep digital advice capability. Continued to drive savings through our business optimization program, which delivered more than \$40 million in annualized run-rate expense savings as of the end of 2017. The savings will be reinvested in initiatives that enhance our ability to meet client needs and key growth initiatives for future years (e.g., factor-based investing, institutional and our expansion in China).
Perpetuate a high-performance organization	<ul style="list-style-type: none"> - Further strengthened our investment and distribution teams through new hires and our efforts to attract, develop, motivate and retain the best talent in the industry. - Conducted our bi-annual employee opinion survey, in which Invesco's employee engagement scores have exceeded other global financial services firm norms every survey since the inception of the survey in 2006. Key drivers of Invesco's employee engagement are (1) empowerment/involvement, (2) ethics and values of the firm and (3) the firm's strategy and direction.

Enhancements to our executive compensation program

During 2017, we again sought feedback on our executive compensation programs from our largest shareholders. The shareholders who recently provided feedback did not voice any material concerns and positively acknowledged enhancements made in 2016. In response to shareholder feedback and the committee's review, the committee made the following enhancements to its executive compensation program:

Performance-based equity	<p>Increased amount of equity subject to performance-vesting commencing with equity awarded for 2017. The committee has determined that 50% of the combined value of all short- and long-term equity awards to our executive officers will be performance-based. We believe this enhancement further strengthens the alignment of our executive officers' compensation with client and shareholder success.</p>
\$10 Million Cap on CEO Cash Bonus	<p>Placed a \$10 million maximum on the CEO's cash bonus for 2018. This cap is in addition to the previously established cap on the CEO's total compensation of \$25 million, with actual pay expected to be below that level.</p>

Our chief executive officer's 2017 compensation

Based on our financial performance, our Compensation Committee determined that Mr. Flanagan's total incentive compensation should be increased approximately 2.5% as part of the committee's rigorous and judicious executive compensation decision making process.

The changes to each component of Mr. Flanagan's compensation are detailed in the table below.

Mr. Flanagan's total incentive compensation was increased by approximately 2.5%.

		63% of total compensation is awarded in equity, of which 50% is comprised of performance shares	
Base Salary	Annual Cash Bonus	Annual Stock Deferral	Long-Term Equity Award
6% of pay	31% of pay	13% of pay	50% of pay
\$790,000	\$4,268,003	\$1,766,861	\$6,948,000
y-o-y change 0%	y-o-y change +6%	y-o-y change +6%	y-o-y change 0%
		94% of total compensation is incentive based ¹	

See note on page 43 regarding differences from the summary compensation table.

1 Incentive based compensation consists of annual cash bonus, annual stock deferral award and long-term equity award.

Our Compensation Practices

What we do

- Tie pay to performance
- Emphasize deferred compensation with long vesting periods
- 50% of equity awards are performance based
- Link incentive compensation to company's performance
- Maintain a clawback policy
- Require directors and executive offices to maintain an ownership level of our stock
- Maintain a cap on CEO cash bonus and total compensation
- Utilize "double triggers" for vesting of equity awards in the event of a change in control
- Compensation committee retains an independent compensation consultant
- Limit perquisites
- Monitor level of risk to the company created by compensation program

What we don't do

- No current payment of dividends or dividend equivalents on unvested performance-based awards
- No tax gross ups
- No short selling, hedging or pledging by insiders allowed in company stock
- No share recycling on stock options and stock appreciation rights

Compensation Philosophy, Design and Process

Our compensation philosophy

To support our strategic objectives, we have structured our compensation programs at every level to achieve the following objectives:

- align individual awards with client and shareholder success;
- reinforce our commercial viability by closely linking rewards to results at every level;
- reinforce our meritocracy by differentially rewarding high-performers; and
- recognize and retain top talent by ensuring a meaningful mix of cash and deferred compensation.

The committee has, among other duties, responsibility for determining the components and amounts of compensation paid to our executive officers.

Role of the compensation committee

The committee's responsibilities include: (i) reviewing and making recommendations to the Board about the company's overall compensation philosophy; (ii) approving the aggregate compensation pool; (iii) evaluating the performance of, and setting the compensation for, the Chief Executive Officer; and (iv) overseeing management's annual process for evaluating the performance of, and approving the compensation for, all other executive officers.

In making these determinations, the committee considers our performance against our multi-year strategic objectives, year-over-year operating results and operating results versus peers.

Components of executive compensation and their purpose

We utilize a variety of compensation components to achieve our objectives. The compensation program for our executive officers, including the NEOs, consists of base salary and variable incentive compensation. The committee believes the majority of our executive officers' pay should be incentive compensation - a combination of annual cash bonuses, annual stock deferral awards and long-term equity awards. The following table further describes each pay component, as well as its purpose and key measures.

		Pay element	What it does	Key measures
Compensation components	Fixed	Base salary	<ul style="list-style-type: none"> - Provides competitive fixed pay - Reasonable base compensation for day-to-day performance of job responsibilities - Evaluated annually, generally remains static unless promotion or adjustment due to economic trends in industry 	<ul style="list-style-type: none"> - Experience, duties and scope of responsibility - Internal and external market factors
	Variable	Annual cash bonus	<ul style="list-style-type: none"> - Provides a competitive annual cash incentive opportunity 	<ul style="list-style-type: none"> - Based upon annual financial results and performance against long-term strategic objectives
Annual stock deferral award (time-based vesting)		<ul style="list-style-type: none"> - Along with annual cash bonus, provides a competitive annual incentive opportunity - Aligns executive with client and shareholder interests - Encourages retention by vesting in equal annual increments over four years 	<ul style="list-style-type: none"> - Based upon annual financial results and performance against long-term strategic objectives 	
Long-term equity awards (time-based vesting)		<ul style="list-style-type: none"> - Recognizes long-term potential for future contributions to company's long-term strategic objectives - Aligns executive with client and shareholder interests - Encourages retention by vesting in equal annual increments over four years 	<ul style="list-style-type: none"> - Based upon financial results and performance against long-term strategic objectives 	
		Performance-based equity awards	<ul style="list-style-type: none"> - 50% of the combined value of the annual stock deferral and long-term equity awards is performance-based - Aligns executive with client and shareholder interests - Encourages retention by vesting at the end of a 3-year performance period 	<ul style="list-style-type: none"> - Performance-based vesting tied to adjusted operating margin - 3-year performance period

Our variable incentive compensation

Each executive officer's variable compensation is a combination of an annual cash bonus, an annual stock deferral award and a long-term equity award. Our executive officers' incentive awards are funded from the company-wide incentive pool established annually by the compensation committee after a review of the company's progress on multiple operating measures, the company's progress toward achieving its strategic objectives and other factors. The committee does not attempt to rank or assign relative weight to any factor, but rather applies its judgment in considering them in their entirety. Approximately 53-63% of our NEOs' compensation is deferred. For additional detail on the annual company-wide incentive pool, see **Determining the 2017 Compensation of Our Executive Officers** below.

Our executive officers' annual variable compensation is comprised of cash and stock deferral awards.

Our annual awards

We use our annual awards, which consist of cash and annual stock deferral awards, to recognize current year performance and closely align employees' interests with those of clients and shareholders, differentially reward high performers and link compensation to financial results. We grant awards denominated in our product fund offerings in lieu of annual stock deferral awards when required by local regulatory requirements. Our annual stock deferral awards generally vest over four years in 25% increments each year.

Our long-term equity awards

The committee believes long-term equity awards should align employee and shareholder interests and a portion of awards should be paid only upon achievement of targeted financial results. In particular, the committee believes that the design of the long-term equity awards should:

- focus our management on preserving value for our shareholders;
- hold our executives accountable for the sound management of the company; and
- tie a specific portion of our executive officers' compensation to a measure that management can most directly influence that will ultimately lead to shareholder value.

Time-based awards

Long-term equity awards are time-based and generally vest ratably in 25% increments each year.

Performance-based equity awards have a three-year performance period and three-year cliff vesting.

Performance-based awards

Fifty percent of the combined value of the annual deferral award and the long-term equity awards is performance based and tied to the achievement of adjusted operating margin over a three-year period. The committee believes tying the vesting to the achievement of adjusted operating margin over a multi-year period achieves its goals with respect to performance-based awards as follows:

- focuses discipline in corporate investments, initiatives and capital allocation;
- is consistent with the way we manage the business;
- is an important measure of overall strength of an asset manager;
- is a primary measure of focus of industry analysts;
- is improved through effective management over the long term; and
- more effectively avoids conflicts of interest with clients.

The financial performance thresholds of the performance-based equity awards are set forth in the chart below. The rigor of the thresholds, as well as the partial vesting of awards for failure to meet the target range and an upside opportunity for performance beyond the target range, align with the committee's above-described philosophy regarding performance-based awards.

Adjusted operating margin (%)	≤28	29	30	31	32	33	34	35	36-44	45	46	47	48	49	50	51	52	53	≥54

Performance-based award features are summarized below.

Performance-based award components	
Performance period	Three years
Performance metric	Adjusted operating margin
Performance vesting range	Vesting ranges from 0% - 150%; straight line interpolation to be used for actual result
Vesting	3-year cliff
Dividends	Deferred and paid only to the extent an award vests
Settlement	Award settled in shares
Clawback	Award subject to clawback policy in the event of fraudulent or willful misconduct

Our performance measures and the impact of GAAP

We specifically do not rely heavily on measures of Return on Equity (“ROE”) or Return on Assets (“ROA”) as these are not as relevant in the success of a pure asset manager like Invesco. Generally speaking, asset managers do not rely on balance sheet assets to generate operating income and earnings. Our business relies on client assets under management (or AUM), which are held in custody by third parties and are not owned by the company, to generate revenue. We believe that AUM along with adjusted operating income, adjusted operating margin, adjusted EPS and long-term organic growth are more reflective of the company’s performance. Furthermore, US GAAP rules on consolidation require the company to consolidate certain investment product assets and liabilities which significantly distort our balance sheet and the associated financial metrics of ROE and ROA. As a result, several of our key indicators of our performance are non-GAAP measures. See Appendix B for additional information regarding Non-GAAP financial measures.

The majority of executive officer incentive compensation is deferred and tied to financial and strategic performance in order to align individual rewards with long-term client and shareholder success.

Our compensation mix

To align our executive officers’ awards with client and shareholder success, the committee has designed our executive officers’ compensation so that executive officers receive a significant portion of their compensation in the form of deferred incentives. The committee believes this appropriately aligns our executive officers’ interests with our shareholders as it focuses on long-term shareholder value creation. The committee has no pre-established policy or target on the allocation between pay elements in order to be able to adjust practices to best meet the interest of our shareholders.

Review of peer compensation

In determining executive compensation, the committee reviews the executive compensation practice and levels of our industry peer companies, as well as other comparable investment management companies. Our industry peers consist of the 16 companies listed below.

US Focused 7 peers	<ul style="list-style-type: none"> - Affiliated Managers Group - Ameriprise Financial - Charles Schwab - Eaton Vance 	<ul style="list-style-type: none"> - Federated Investors - TD Ameritrade - T. Rowe Price
Global 6 peers	<ul style="list-style-type: none"> - AB - BlackRock - Franklin Resources 	<ul style="list-style-type: none"> - Legg Mason - Lazard - Principal Financial Group
Custody and Trust Bank 3 peers	<ul style="list-style-type: none"> - Bank of New York Mellon - Northern Trust 	<ul style="list-style-type: none"> - State Street

The committee's compensation consultant assists the committee in its analysis of our executive compensation programs.

Role of the independent compensation consultant

The committee has engaged Johnson Associates, an independent consulting firm, to advise it on director and executive compensation matters. Johnson Associates:

- assists the committee throughout the year in its analysis and evaluation of our overall executive compensation programs, including compensation paid to our directors and executive officers;
- attends certain meetings of the committee and periodically meets with the committee without members of management present;
- provides the committee with certain market data and analysis that compares executive compensation paid by the company with that paid by other firms in the financial services industry and certain investment management firms which we consider generally comparable to us; and
- provides commentary regarding market conditions, market impressions and compensation trends.

The committee uses such data as reference material to assist it in gaining a general awareness of industry compensation standards and trends. The market data, including performance and pay practices of the peer group and broader investment management firms, is used to inform the committee's compensation determinations for our executive officers, including our named executive officers. The committee does not target a particular percentile of market or the peer group with respect to total pay packages or any individual components thereof.

Under the terms of its engagement with the committee, Johnson Associates does not provide any other services to the company unless the committee has approved such services. No such other services were provided in 2017.

The committee has considered various factors as required by NYSE rules as to whether the work of Johnson Associates with respect to director and executive compensation-related matters raised any conflict of interest. The committee has determined no conflict of interest was raised by the engagement of Johnson Associates.

Role of executive officers in determining executive compensation

Our Chief Executive Officer meets with the non-executive directors throughout the year to discuss executive performance and compensation matters, including proposals on compensation for individual executive officers (other than himself). Our Chief Executive Officer and Head of Human Resources work with the committee to implement our compensation philosophy. They also provide to the committee information regarding financial and investment performance of the company as well as our progress toward our long-term strategic objectives. Our Chief Financial Officer assists as needed in explaining specific aspects of the company's financial performance.

Our multi-year strategic objectives and annual operating plan

Our purpose is to deliver an investment experience that helps people get more out of life. Our strategic objectives and our purpose guide our planning process, which sharply focuses our organization on delivering better outcomes for clients while achieving strong results for shareholders over the long term. Management, with guidance and input from the Board of Directors, annually reviews our multi-year strategic objectives in the context of global trends and macro themes impacting the asset management industry, our position in key markets and the financial implications of our decisions. The outcome of the review is the establishment of an annual operating plan comprising, in part, our business priorities and related projected financial outcomes. Throughout the year, the Board of Directors reviews with management the firm's performance against the annual operating plan.

Our Board and management review performance against our strategic objectives and annual operating plan based on a number of factors, including those set forth below. Achievements in respect to these measures drive strong outcomes for our clients and shareholders.

Each year, the committee establishes a company-wide incentive pool that is a percentage of pre-cash bonus operating income. All 2017 awards, including NEO awards, were paid out of this pool.

Linking the aggregate incentive compensation pool to a defined range of our PCBOI ensures incentive compensation is paid only when the company is generating operating income.

For 2017, the increase in incentives is consistent with an increased PCBOI.

Our executive officers' compensation is highly correlated to our clients' and shareholders' success and closely links rewards to results.

Determination of company-wide annual incentive pool based upon progress against strategic objectives and annual operating plan

The committee examines the company's performance on multiple operating measures, including those shown above, the company's performance toward achieving its multi-year strategic objectives and other factors. While each of these items is considered by the committee, the committee does not attempt to rank or assign relative weight to any factor but rather applies its judgment in considering them in their entirety. The committee is focused on the totality of organizational success without tying compensation decisions to a specific formula.

The committee established parameters, used consistently for many years, to guide the end-of-year decision-making process regarding the company-wide incentive pool size to ensure that compensation is aligned with the financial and strategic results discussed above. These parameters are expressed as a percentage of pre-cash bonus operating income ("PCBOI"). The committee uses a range of 34-48 % of PCBOI, in the aggregate, in setting the company-wide incentive pool, though it maintains the flexibility to go outside the range in circumstances that it deems exceptional. The range includes the cash bonus, deferred and equity compensation pools, as well as the amounts paid under sales commission plans (in which our NEOs do not participate). The range was determined based on historical data concerning the practices of asset management and other similar financial services firms as analyzed by Johnson Associates, our independent compensation consultant, and based on data obtained from the McLagan and CaseyQuirk Performance Intelligence Study.

Utilizing its judgment, and applying discretion based upon the company's financial results and progress against multi-year strategic objectives during 2017, the committee set the company-wide incentive pool for 2017 at approximately 40.2% of PCBOI (compared to 41.0% of PCBOI for 2016).

The committee increased the size of the incentive pools consistent with the increase in PCBOI in respect to 2017. As a result:

- the cash bonus pool increased; and
- annual deferral awards were increased on an average per person basis; and
- long-term equity awards generally were unchanged on an average per person basis to continue to tie the interests of our employees to the long-term interests of our shareholders.

Review of 2017 NEO performance and compensation outcomes

Incentive compensation for our named executive officers is paid from the annual company-wide incentive compensation pool described above. The committee considers a number of factors in setting the compensation levels of our executive officers, including the following:

- the company's achievements in respect of our multi-year strategic objectives and annual operating plan as described above (including investment performance and flows, organizational health, efficiency and effectiveness, operating results and financial strength and shareholder returns);
- the competitive environment by reviewing performance against peers across numerous financial factors; and
- each executive officer's individual performance.

The committee makes its compensation decisions based upon the totality of the results without tying compensation decisions to a specific formula. The committee believes that this holistic approach, which incorporates fact-based qualitative judgments, is more effective than purely mechanical formula criteria.

Set forth below is a summary of the 2017 material accomplishments of the CEO and each of the other named executive officers that the committee considered in determining each such officer's compensation for 2017.

Note: The graphs and tables below depict how the committee viewed its compensation decisions for our NEOs in respects of 2017, but they differ substantially from the Summary Compensation Table ("SCT") on page 52 required by SEC rules and are not a substitute for the information presented in the SCT. There are two principal differences between the SCT and the presentations below:

- The company grants both cash and deferred incentive compensation after our earnings for the year have been announced. In both the presentations below and the SCT, cash incentive compensation granted in 2018 for 2017 performance is shown as 2017 compensation. Our presentation below treats deferred incentive compensation similarly, so that equity awards granted in 2018 are shown as 2017 compensation. The SCT does not follow this treatment. Instead the SCT reports the value of equity awards in the year in which they are granted, rather than the year in which they were earned. As a result, the SCT reports for 2017 the value of equity awards granted in 2017 in respect of 2016 performance.
- The SCT reports "All Other Compensation." These amounts are not part of the committee's compensation determinations.

Chief executive officer 2017 compensation

Mr. Flanagan's accomplishments are reviewed in the context of the totality of the company's achievement of its annual operating plan and performance toward achieving its multi-year strategic objectives.

Specifically, in 2017, under Mr. Flanagan's leadership Invesco's achievements included:

- Further strengthened our investment culture, which enabled us to deliver strong, long-term investment performance to our clients across the globe: 64% and 75% of measured actively managed ranked assets in the top half of peer groups on a three- and five-year basis, respectively.
- Continued to build our comprehensive range of active, passive and alternative capabilities while strengthening our scale and relevance in key capabilities.
- Led the acquisition of Source, a leading, independent diversified, at-scale exchange-traded fund (ETF) provider in Europe. Since the acquisition, this business has grown from \$26 billion in AUM (including \$7 billion in externally managed AUM) at close to \$27.9 billion in AUM at the close of 2017. Mr. Flanagan also led the planned acquisition of Guggenheim Investments' ETF business, which is expected to close in the second quarter of 2018. By expanding the depth, breadth and diversity of Invesco's traditional and smart beta ETFs, the planned Guggenheim Investments' ETF business acquisition will significantly enhance our ability to deliver meaningful solutions to institutional and retail clients across the globe.
- Expanded our Invesco Solutions team, which brings together the full capabilities of the firm to provide outcomes that help clients meet their investment objectives.
- Enhanced and expanded our ability to help our advisor clients engage with their clients and improve their investment experience through Jemstep, our advisor-focused technology solution. Announced partnerships with a number of large enterprises using our Jemstep digital advice capabilities.
- Continued to drive savings through our business optimization program, which delivered more than \$40 million in annualized run-rate expense savings as of the end of 2017. The savings will be reinvested in initiatives that enhance our ability to meet client needs and key growth initiatives for future years (e.g., factor-based investing, institutional and our expansion in China).
- Employee engagement scores continue to exceed other global financial services firm norms. Key drivers of Invesco's employee engagement are (i) empowerment/involvement; (ii) ethics and values of the firm; and (iii) the firm's strategy and direction.

Benefits and perquisites

All executive officers are entitled to receive medical, life and disability insurance coverage and other corporate benefits available to most of the company's employees. Executive officers are also eligible to participate in the Employee Stock Purchase Plan on terms similar to the company's other employees. In addition, all of the executive officers may participate in the 401(k) Plan or similar plans in the executive officer's home country.

The company provides certain limited perquisites to its executive officers which it believes aid the executives in their execution of company business. The committee believes the value of perquisites and other benefits are reasonable in amount and consistent with its overall compensation plan. For additional information on perquisites and other benefits, see the **Summary Compensation Table** below.

Award maximums for named executive officers

Under the Tax Cuts and Jobs Act, the exception under Section 162(m) of the Internal Revenue Code pertaining to the deductibility of performance-based senior executive compensation was eliminated in late 2017. As a result, the committee will no longer set award maximums for tax purposes for its executive officers.

With respect to outstanding awards that are subject to the provisions of Section 162(m), the committee will continue to monitor these awards in order to maintain deductibility, to the extent permitted, under Section 162(m).

2 For share awards granted in 2017, includes (i) time-based equity awards that generally vest in four equal annual installments on each anniversary of the date of grant; and (ii) performance-based awards, which are subject to a three-year performance period (2017-2019) and vest on February 28, 2020; except that, with respect to Mr. Taylor, the performance-based equity award is subject to a 33-month performance period (January 1, 2017 - September 30, 2019) and vests on December 15, 2019. The value of performance-based awards is based on the grant date value and reflects the probable outcome of such conditions and represents the target level (100%) of achievement. See **Grants of plan-based share awards for 2017** below for information about the number of shares underlying each of the time-based equity awards.

Grant date fair values were calculated in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 718 "Compensation – Stock Compensation" ("ASC 718"). The grant date fair value was calculated by multiplying the target number of shares granted by the closing price of the company's common shares on the date of grant. The amounts disclosed do not reflect the value actually realized by the named executive officers. For additional information, please see Note 11 – "Share-Based Compensation" to the financial statements in our 2017 Annual Report on Form 10-K.

3 Reflects annual cash bonus award earned for the fiscal year by the named executive officers under the Executive Incentive Bonus Plan and paid in February of the following year.

2 Perquisites include the following:

With respect to Mr. Flanagan, includes \$87,905 for his personal use of company-provided aircraft. The company leases an airplane for which it pays direct operating expenses and monthly lease payments and management fees. We calculate the aggregate incremental cost to the company for personal use based on the average variable costs of operating the airplanes. Variable costs include fuel, repairs, travel expenses for the flight crews and other miscellaneous expenses. This methodology excludes fixed costs that do not change based on usage, such as depreciation, maintenance, taxes and insurance. Mr. Flanagan's total also includes certain amounts for technology support and fees paid by the company for his and his spouse's recreational activities in conjunction with a company-sponsored off-site business meeting.

Grants of plan-based share awards for 2017

The Compensation Committee granted equity awards to each of the named executive officers during 2017. Equity awards are subject to transfer restrictions and are generally subject to forfeiture prior to vesting upon a recipient's termination of employment. All equity awards immediately become vested upon the recipient's termination of employment during the 24-month period following a change in control (i) by the company other than for cause or unsatisfactory performance, or (ii) by the recipient for good reason.

The following table presents information concerning plan-based awards granted to each of the named executive officers during 2017.

1 Time-based equity awards and performance-based awards were granted under the 2016 Global Equity Incentive Plan.

2 **Time-based equity awards.** For each of the named executive officers other than Mr. Taylor, time-based equity awards are four-year awards that vest 25% each year on the anniversary of the date of grant. With respect to Mr. Taylor, time-based equity awards are comprised of (i) a 3-year award that vests ratably on the first and second anniversary of the grant date and on December 15 of the second calendar year after the grant date and (ii) a 4-year award that vests 100% on the fourth anniversary of the date of grant.

Performance-based equity awards. For each of the named executive officers other than Mr. Taylor, performance-based equity awards subject to a three-year performance period (2017-2019) and vests on February 28, 2020. With respect to Mr. Taylor, the performance-based equity award is subject to a 33-month performance period (January 1, 2017 - September 30, 2019) and vests on December 15, 2019.

3 Performance-based equity awards are tied to the achievement of specified levels of adjusted operating margin. Vesting ranges from 0 to 150%, with straight line interpolation to be used for actual results. Dividend equivalents are deferred for such performance-based equity awards and will be paid at the same rate as on our shares if and to the extent an award vests. The threshold, target and maximum financial measures for the performance-based equity awards granted in 2017 are illustrated below.

Adjusted operating margin	Vesting Name	Vesting %
Equal to or less than 28%	Threshold	0%
Between 36-44%	Target	100%
Equal to or greater than 54%	Maximum	150%

4 Dividends and dividend equivalents on unvested time-based equity awards are paid at the same time and rate as on our shares.

5 The grant date fair value is the total amount that the company will recognize as expense under applicable accounting requirements if the share awards fully vest. This amount is included in our Summary Compensation Table each year. Grant date fair values were calculated in accordance with ASC 718. The grant date fair value is calculated by multiplying the number of shares granted by the closing price of our common shares on the day the award was granted. With respect to the performance-based equity awards, the grant date fair value also represents the probable outcome of such performance conditions and represents the target level (100%) of achievement.

In accordance with SEC regulations, this analysis assumes that the named executive officer's date of termination is December 31, 2017, and the price per share of our common shares on the date of termination is the closing price of our common shares on the NYSE on that date, which was \$36.54.

CEO Pay Ratio

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 402(u) of Regulation S-K of the Exchange Act, we are providing the following information about the relationship of the annual total compensation of Mr. Martin L. Flanagan, our Chief Executive Officer (our "CEO"), and our employees (other than our CEO):

For 2017, our last completed fiscal year:

- the annual total compensation of our median employee (other than our CEO), was \$97,775; and
- the annual total compensation of our CEO was \$13,805,195.

For 2017, the ratio of the annual total compensation of our CEO to the annual total compensation of our median employee (other than our CEO) was 141 to 1.

Our CEO to median employee pay ratio is calculated in accordance with the SEC requirements. As of October 1, 2017, we identified the median employee by examining 2016 total compensation for all individuals, excluding our CEO. We included all employees who were employed by us during all of 2016 (our prior fiscal year) and included base salary, cash bonus, commissions, overtime, performance fees and deferred incentive compensation. We did not make any assumptions, adjustments or estimates with respect to compensation, and we did not annualize the compensation for any employees.

After identifying the median employee, we calculated 2017 annual total compensation for such employee and the CEO using the same methodology we use for our named executive officers as set forth in the 2017 Summary Compensation table in this proxy statement.

Compensation Committee Interlocks and Insider Participation

During fiscal year 2017, the following directors served as members of the Compensation Committee: C. Robert Henrikson (Chairperson), Sarah E. Beshar, Edward P. Lawrence, Ben F. Johnson III, Denis Kessler, Sir Nigel Sheinwald, G. Richard Wagoner, Jr. and Phoebe A. Wood. No member of the Compensation Committee was an officer or employee of the company or any of its subsidiaries during 2017, and no member of the Compensation Committee was formerly an officer of the company or any of its subsidiaries or was a party to any disclosable related person transaction involving the company. During 2017, none of the executive officers of the company has served on the board of directors or on the compensation committee of any other entity that has or had executive officers serving as a member of the Board of Directors or Compensation Committee of the company.

Certain Relationships and Related Transactions

Share repurchases

In order to pay withholding or other similar taxes due in connection with the vesting of equity awards granted under our incentive plans, employee participants, including our executive officers, may elect the “net shares” method whereby the company purchases from the participant shares equal in value to an approximation of the tax withholding liability in connection with vesting equity awards. Under the “net shares” method, the price per share paid by the company for repurchases is the closing price of the company’s common shares on the NYSE on the vesting date. During 2017, the company repurchased common shares from the executive officers for the aggregate consideration shown in the following table.

Name and title	Number of shares repurchased (#)	Aggregate consideration (\$)
Kevin M. Carome Senior Managing Director and General Counsel	23,323	1,576,698

Interests in or alongside certain Invesco-sponsored private funds

Some of our employees, including our executive officers, their spouses, related charitable foundations or entities they own or control are provided the opportunity to invest in or alongside certain Invesco-sponsored private funds that we offer to independent investors. We generally limit such investments to employees that meet certain accreditation requirements. Employees who make such investments usually do not pay management or performance fees charged to independent investors. In addition, certain of our employees, including some of our executive officers, receive the right to share in performance fees earned by Invesco in connection with our

management of Invesco-sponsored private funds. Messrs. Flanagan, Carome, Lo and Starr have made investments in or alongside Invesco-sponsored private funds. There were no distributions (consisting of profits, other income, return of capital and performance fees) exceeding \$120,000 from Invesco-sponsored private funds during the fiscal year ended December 31, 2017 to our executive officers (or persons or entities affiliated with them).

Other

A relative of Mr. Flanagan is an employee in our US business and earned \$307,636 in total compensation in 2017. His compensation was established in accordance with the company's employment and compensation practices applicable to employees with equivalent qualifications and responsibilities and holding similar positions.

Related Person Transaction Policy

Management is required to present for the approval or ratification of the Audit Committee all material information regarding an actual or potential related person transaction.

The Board of Directors has adopted written Policies and Procedures with Respect to Related Person Transactions to address the review, approval, disapproval or ratification of related person transactions. "Related persons" include the company's executive officers, directors, director nominees, holders of more than five percent (5%) of the company's voting securities, immediate family members of the foregoing persons and any entity in which any of the foregoing persons is employed, is a partner or is in a similar position, or in which such person has a 5% or greater ownership interest. A "related person transaction" means a transaction or series of transactions in which the company participates, the amount involved exceeds \$120,000 and a related person has a direct or indirect interest (with certain exceptions permitted by SEC rules).

Management is required to present for the approval or ratification of the Audit Committee all material information regarding an actual or potential related person transaction. The policy requires that, after reviewing such information, the disinterested members of the Audit Committee will approve or disapprove the transaction. Approval will be given only if the Audit Committee determines that such transaction is in, or is not inconsistent with, the best interests of the company and its shareholders. The policy further requires that in the event management becomes aware of a related person transaction that has not been previously approved or ratified, it must be submitted to the Audit Committee promptly.

Section 16(a) Beneficial Ownership Reporting Compliance

The company believes that all Section 16(a) filing requirements were complied with during fiscal year 2017.

The reporting officers, directors and 10% shareholders are also required by SEC rules to furnish the company with copies of all Section 16(a) reports they file. Based solely on its review of copies of such reports, the company believes that all Section 16(a) filing requirements applicable to its directors, reporting officers and 10% shareholders were complied with during 2017.

Advisory Vote to Approve the Company's Executive Compensation

General

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd Frank Act") enables our shareholders to vote to approve, on an advisory (nonbinding) basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with the SEC's rules. This proposal, commonly known as a "say-on-pay" proposal, gives our shareholders the opportunity to express their views on our named executive officer compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this proxy statement.

We are asking our shareholders to vote "FOR" the following resolution at the Annual General Meeting:

"RESOLVED, that the Company's shareholders approve, on an advisory (non-binding) basis, the compensation of the named executive officers, as disclosed in the Company's Proxy Statement for the 2018 Annual General Meeting of Shareholders pursuant to the Securities and Exchange Commission's compensation disclosure rules, including the Compensation Discussion and Analysis, the compensation tables and related narrative discussion."

Invesco's compensation programs, particularly our annual incentive pools, are tied to the achievement of our multi-year strategic objectives and financial results and our success in serving our clients' and shareholders' interests, as further described in **Executive Compensation** above. In considering their vote, we urge shareholders to review the information included in this proxy statement in **Executive Compensation**. The extent there is any significant vote against the named executive officer compensation as disclosed in this proxy statement, we will consider our shareholders' concerns, and the Compensation Committee will evaluate whether any actions are necessary to address those concerns. Under the Board's current policy, shareholders are given an opportunity to cast an advisory vote on this topic annually.

Recommendation of the board

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS, AS DISCLOSED IN THIS PROXY STATEMENT PURSUANT TO THE COMPENSATION DISCLOSURE RULES OF THE SEC. This proposal requires the affirmative vote of a majority of votes cast at the Annual General Meeting.

Appointment of Independent Registered Public Accounting Firm

General

The Audit Committee of the Board has proposed the appointment of PricewaterhouseCoopers LLP (“PwC”) as the independent registered public accounting firm to audit the company’s consolidated financial statements for the fiscal year ending December 31, 2018 and to audit the company’s internal control over financial reporting as of December 31, 2018. During and for the fiscal year ended December 31, 2017, PwC audited and rendered opinions on the financial statements of the company and certain of its subsidiaries. PwC also rendered an opinion on the company’s internal control over financial reporting as of December 31, 2017. In addition, PwC provides the company with tax consulting and compliance services, accounting and financial reporting advice on transactions and regulatory filings and certain other services not prohibited by applicable auditor independence requirements. See **Fees Paid to Independent Registered Public Accounting Firm** below. Representatives of PwC are expected to be present at the Annual General Meeting and will have the opportunity to make a statement if they desire to do so. It is also expected that they will be available to respond to appropriate questions.

Recommendation of the board

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” THE APPOINTMENT OF PWC AS THE COMPANY’S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2018. This proposal requires the affirmative vote of a majority of votes cast at the Annual General Meeting. If the appointment is not approved, the Audit Committee will reconsider the selection of PwC as the company’s independent registered public accounting firm.

Fees Paid to Independent Registered Public Accounting Firm

The Audit Committee of the Board, with the approval of the shareholders, engaged PwC to perform an annual audit of the company's consolidated financial statements for fiscal year 2017. The following table sets forth the approximate aggregate fees billed or expected to be billed to the company by PwC for fiscal year 2017 and 2016, for the audit of the company's annual consolidated financial statements and for other services rendered by PwC in 2017 and 2016.

	Fiscal year (\$ in millions) ⁵	
	2017	2016
Audit fees ¹	5.0	4.6
Audit-related fees ²	1.7	1.6
Tax fees ³	1.4	1.2
All other fees ⁴	1.1	3.4
Total fees	9.2	10.8

1 The 2017 audit fees amount includes approximately \$3.2 million (2016: \$2.95 million) for audits of the company's consolidated financial statements and \$1.8 million (2016: \$1.7 million) for statutory audits of subsidiaries.

2 Audit-related fees consist of attest services not required by statute or regulation, audits of employee benefit plans and accounting consultations in connection with new accounting pronouncements and acquisitions.

3 Tax fees consist of compliance and advisory services.

4 In 2017, all other fees relate primarily to professional consulting services. In 2016, all other fees related to the identification of structured and organizational alternatives for certain of our administrative functions.

5 These amounts do not include fees paid to PwC associated with audits conducted on certain of our affiliated investment companies, unit trusts and partnerships.

Pre-Approval Process and Policy

All audit and non-audit services provided to the company and its subsidiaries by PwC during fiscal years 2017 and 2016 were either specifically approved or pre-approved under the audit and non-audit services pre-approval policy.

The Audit Committee has adopted policies and procedures for pre-approving all audit and non-audit services provided by our independent auditors. The policy is designed to ensure that the auditor's independence is not impaired. The policy sets forth the Audit Committee's views on audit, audit-related, tax and other services. It provides that, before the company engages the independent auditor to render any service, the engagement must either be specifically approved by the Audit Committee or fall into one of the defined categories that have been pre-approved. The policy defines the services and the estimated range of fees for such services that the committee has pre-approved. The term of any such categorical approval is 12 months, unless the committee specifically provides otherwise, and the policy requires the related fee levels to be set annually. Where actual invoices in respect of any service are materially in excess of the estimated range, the committee must approve such excess amount prior to payment. The policy also prohibits the company from engaging the auditors to provide certain defined non-audit services that are prohibited under SEC rules. Under the policy, the Audit Committee may delegate pre-approval authority to one or more of its members, but may not delegate such authority to the company's management. Under the policy, our management must inform the Audit Committee of each service performed by our independent auditor pursuant to the policy. This requirement normally is satisfied by a report issued to the Audit Committee from the independent auditor. Requests to the Audit Committee for separate approval must be submitted by both the independent auditor and our chief financial officer and the request must include a joint statement as to whether it is deemed consistent with the SEC's and Public Company Accounting Oversight Board's rules on auditor independence.

Report of the Audit Committee

Membership and role of the Audit Committee

The Audit Committee of the Board consists of Phoebe A. Wood (Chairperson), Sarah E. Beshar, C. Robert Henrikson, Ben F. Johnson III, Denis Kessler, Sir Nigel Sheinwald and G. Richard Wagoner, Jr. Each of the members of the Audit Committee is independent as such term is defined under the NYSE listing standards and applicable law. The primary purpose of the Audit Committee is to assist the Board of Directors in fulfilling its responsibility to oversee (i) the company's financial reporting, auditing and internal control activities, including the integrity of the company's financial statements, (ii) the independent auditor's qualifications and independence, (iii) the performance of the company's internal audit function and independent auditor, and (iv) the company's compliance with legal and regulatory requirements. The Audit Committee's function is more fully described in its written charter, which is available on the company's website.

Review of the company's audited consolidated financial statements for the fiscal year ended December 31, 2017

The Audit Committee has reviewed and discussed the audited financial statements of the company for the fiscal year ended December 31, 2017 with the company's management. The Audit Committee has also performed the other reviews and duties set forth in its charter. The Audit Committee has discussed with PricewaterhouseCoopers LLP ("PwC"), the company's independent registered public accounting firm, the matters required to be discussed by professional auditing standards. The Audit Committee has also received the written disclosures and the letter from PwC required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditor's communications with the Audit Committee concerning independence, and has discussed the independence of PwC with that firm. Based on the Audit Committee's review and discussions noted above, the Audit Committee recommended to the Board of Directors that the company's audited consolidated financial statements be included in the company's Annual Report for filing with the SEC.

Respectfully submitted by the Audit Committee:

Phoebe A. Wood (Chairperson)
Sarah E. Beshar

Shareholder Proposal Regarding the Elimination of Voting Standards of Greater than a Majority of the Votes Cast in the Company's Charter and Bye-Laws

General

We received the proposal below from a shareholder, James McRitchie, and have been advised that he intends to have his representative present the proposal for action at our annual meeting. As of December 1, 2017, this shareholder states that he owns 100 shares of the company's common stock. Mr. McRitchie's address is 9295 Yorkship Court, Elk Grove, California 95758. The text of the shareholder proposal and supporting statement below appear exactly as received by the company. All statements contained in the shareholder proposal and supporting statement are the sole responsibility of the shareholder. Neither the company nor the Board accepts responsibility for the content of the proposal or supporting statement, which are included here in accordance with applicable proxy rules and regulations.

"RESOLVED, Invesco Ltd shareholders request that our board take each step necessary so that each voting requirement in our charter and bylaws that calls for a greater than simple majority vote be eliminated, and replaced by a requirement for a majority of the votes cast for and against applicable proposals, or a simple majority in compliance with applicable laws. This means the closest standard to a majority of the votes cast for and against such proposals consistent with applicable laws. It is important that our company take each step necessary to adopt this proposal topic. It is also important that our company take each step necessary to avoid a failed vote on this proposal topic.

Supporting statement:

Shareowners are willing to pay a premium for shares of companies that have excellent corporate governance. Supermajority voting requirements have been found to be one of six entrenching mechanisms that are negatively related to company performance according to "What Matters in Corporate Governance" by Lucien Bebchuk, Alma Cohen and Allen Ferrell of the Harvard Law School (https://papers.ssrn.com/sol3/papers.cfm?abstract_id=593423).

Supermajority requirements are used to block initiatives supported by most shareowners but opposed by a status quo management. The majority of S&P 500 and S&P 1500 companies have no supermajority voting requirements.

This proposal topic won from 74% to 99% support at Weyerhaeuser, Alcoa, Waste Management, Goldman Sachs, FirstEnergy, McGraw-Hill, Macy's, Ferro Arconic, and Cognizant Technology Solutions. Currently a 1%-minority can frustrate the will of our 66%-shareholder majority. In other words a 1%-minority could have the power to prevent shareholders from improving our corporate governance.

Please vote to enhance shareholder value:"

Recommendation of the board

THE BOARD OF DIRECTORS TAKES NO POSITION AND MAKES NO RECOMMENDATION ON THIS PROPOSAL. Our Nomination and Corporate Governance Committee and Board will consider the voting results on this proposal in their future deliberations regarding the appropriate voting standards within the company's Charter and Bye-Laws. This proposal requires the affirmative vote of a majority of votes cast at the Annual General Meeting.

General Information Regarding the Annual General Meeting

Questions and answers about voting your common shares

Q. Why did I receive this Proxy Statement?

You have received these proxy materials because Invesco's Board of Directors is soliciting your proxy to vote your shares at the Annual General Meeting on May 10, 2018. This proxy statement includes information that is designed to assist you in voting your shares and information that we are required to provide to you under SEC rules.

Q. What is a proxy?

A "proxy" is a written authorization from you to another person that allows such person (the "proxy holder") to vote your shares on your behalf. The Board of Directors is asking you to allow any of the following persons to vote your shares at the Annual General Meeting: Ben F. Johnson III, Chairperson of the Board of Directors; Martin L. Flanagan, President and Chief Executive Officer; Loren M. Starr, Senior Managing Director and Chief Financial Officer; Colin D. Meadows, Senior Managing Director and Chief Administrative Officer and Kevin M. Carome, Senior Managing Director and General Counsel.

Q. Why did I not receive my proxy materials in the mail?

As permitted by rules of the SEC, Invesco is making this Proxy Statement and its Annual Report on Form 10-K for the fiscal year ended December 31, 2017 ("Annual Report") available to its shareholders electronically via the Internet. The "e-proxy" process expedites shareholders' receipt of proxy materials and lowers the costs and reduces the environmental impact of our Annual General Meeting.

On March 27, 2018, we mailed to shareholders of record as of the close of business on March 12, 2018 ("Record Date") a Notice of Internet Availability of Proxy Materials ("Notice") containing instructions on how to access this Proxy Statement, our Annual Report and other soliciting materials via the Internet. If you received a Notice by mail, you will not receive a printed copy of the proxy materials in the mail. Instead, the Notice instructs you on how to access and review all of the important information contained in the Proxy Statement and Annual Report. The Notice also instructs you on how you may submit your proxy. If you received a Notice by mail and would like to receive a printed copy of our proxy materials, you should follow the instructions included in the Notice to request such materials.

Q. Who is entitled to vote?

Each holder of record of Invesco common shares on the Record Date for the Annual General Meeting is entitled to attend and vote at the Annual General Meeting.

Q. What is the difference between holding shares as a "shareholder of record" and as a "beneficial owner"?

- **Shareholders of record.** You are a shareholder of record if at the close of business on the Record Date your shares were registered directly in your name with Computershare, our transfer agent.
- **Beneficial owner.** You are a beneficial owner if at the close of business on the Record Date your shares were held by a brokerage firm or other nominee and not in your name. Being a beneficial owner means that, like most of our shareholders, your shares are held in "street name." As the beneficial owner, you have the right to direct your broker or nominee how to vote your shares by following the voting instructions your broker or nominee provides. If you do not provide your broker or nominee with instructions on how to vote your shares, your broker or nominee will be able to vote your shares with respect to some of the proposals, but not all. Please see "What if I return a signed proxy or voting instruction card, but do not specify how my shares are to be voted?" below for additional information.

- Invesco has requested banks, brokerage firms and other nominees who hold Invesco common shares on behalf of beneficial owners of the common shares as of the close of business on the Record Date to forward the Notice to those beneficial owners. Invesco has agreed to pay the reasonable expenses of the banks, brokerage firms and other nominees for forwarding these materials.

Q. How many votes do I have?

Every holder of a common share on the Record Date will be entitled to one vote per share for each Director to be elected at the Annual General Meeting and to one vote per share on each other matter presented at the Annual General Meeting. On the Record Date there were 410,815,046 common shares outstanding and entitled to vote at the Annual General Meeting.

Q. What proposals are being presented at the Annual General Meeting?

Invesco intends to present proposals numbered one through three for shareholder consideration and voting at the Annual General Meeting. These proposals are for:

- 1 Election of nine (9) members of the Board of Directors;
- 2 Advisory vote to approve the company's executive compensation; and
- 3 Appointment of PricewaterhouseCoopers LLP as the company's independent registered public accounting firm.

In addition, Proposal No. 4, a shareholder proposal, is also expected to be presented.

Other than the matters set forth in this Proxy Statement and matters incident to the conduct of the Annual General Meeting, Invesco does not know of any business or proposals to be considered at the Annual General Meeting. If any other business is proposed and properly presented at the Annual General Meeting, the proxies received from our shareholders give the proxy holders the authority to vote on such matter in their discretion.

Q. How does the Board of Directors recommend that I vote?

The Board of Directors recommends that you vote:

- FOR the election of the nine (9) directors nominated by our Board and named in this proxy statement;
- FOR the approval, on an advisory basis, of the compensation of our named executive officers; and
- FOR appointment of PricewaterhouseCoopers LLP as the company's independent registered public accounting firm.

The Board of Directors takes no position and makes no recommendation on the shareholder proposal.

Q. How do I attend the Annual General Meeting?

All shareholders are invited to attend the Annual General Meeting. An admission ticket (or other proof of share ownership) and some form of government-issued photo identification (such as a valid driver's license or passport) will be required for admission to the Annual General Meeting. Only shareholders who own Invesco common shares as of the close of business on the Record Date and invited guests will be entitled to attend the meeting. An admission ticket will serve as verification of your ownership. Registration will begin at 12:00 p.m. eastern time and the Annual General Meeting will begin at 1:00 p.m. eastern time.

- If your Invesco shares are registered in your name and you received or accessed your proxy materials electronically via the Internet, click the appropriate box on the electronic proxy card or follow the telephone instructions when prompted and an admission ticket will be held for you at the check-in area at the Annual General Meeting.
- If you received your proxy materials by mail and voted by completing your proxy card and checked the box indicating that you plan to attend the meeting, an admission ticket will be held for you at the check-in area at the Annual General Meeting.
- If your Invesco shares are held in a bank or brokerage account, contact your bank or broker to obtain a written legal proxy in order to vote your shares at the meeting. If you do not obtain a legal proxy from your bank or broker, you will

not be entitled to vote your shares, but you can still attend the Annual General Meeting if you bring a recent bank or brokerage statement showing that you owned Invesco common shares on March 12, 2018. You should report to the check-in area for admission to the Annual General Meeting.

Q. How do I vote and what are the voting deadlines?

You may vote your shares in person at the Annual General Meeting or by proxy. There are three ways to vote by proxy:

- **Via the internet:** You can submit a proxy via the Internet until 11:59 p.m. eastern time on May 9, 2018, by accessing the web site at <http://www.envisonreports.com/IVZ> and following the instructions you will find on the web site. Internet proxy submission is available 24 hours a day. You will be given the opportunity to confirm that your instructions have been properly recorded.
- **By telephone:** You can submit a proxy by telephone until 11:59 p.m. eastern time on May 9, 2018, by calling toll-free 1-800-652-VOTE (8683) (from the U.S. and Canada) and following the instructions.
- **By mail:** If you have received your proxy materials by mail, you can vote by marking, dating and signing your proxy card and returning it by mail in the enclosed postage-paid envelope. If you hold your common shares in an account with a bank or broker (i.e., in “street name”), you can vote by following the instructions on the voting instruction card provided to you by your bank or broker. Proxy cards returned by mail must be received no later than the close of business on May 9, 2018.

Even if you plan to be present at the Annual General Meeting, we encourage you to vote your common shares by proxy using one of the methods described above. Invesco shareholders of record who attend the meeting may vote their common shares in person, even though they have sent in proxies.

Q. What if I hold restricted shares?

For participants in the 2016 Global Equity Incentive Plan and the 2011 Global Equity Incentive Plan who hold restricted share awards through the company’s stock plan administrator, your restricted shares will be voted as you instruct the custodian for such shares, Invesco Ltd. (the “Custodian”). There are three ways to vote: via the Internet, by telephone or by returning your voting instruction card. Please follow the instructions included on your voting instruction card on how to vote using one of the three methods. Your vote will serve as voting instructions to the Custodian for your restricted shares. If you do not provide instructions regarding your restricted shares, the Custodian will not vote them. You cannot vote your restricted shares in person at the meeting. **To allow sufficient time for voting by the Custodian, the Custodian must receive your vote by no later than 11:59 p.m. eastern time on May 4, 2018.**

Q. May I change or revoke my vote?

Yes. You may change your vote in one of several ways at any time before it is cast prior to the applicable deadline for voting:

- Grant a subsequent proxy via the Internet or telephone;
- Submit another proxy card (or voting instruction card) with a date later than your previously delivered proxy;
- Notify our Company Secretary in writing before the Annual General Meeting that you are revoking your proxy or, if you hold your shares in “street name,” follow the instructions on the voting instruction card; or
- If you are a shareholder of record, or a beneficial owner with a proxy from the shareholder of record, vote in person at the Annual General Meeting.

Q. What will happen if I do not vote my shares?

- **Shareholders of record.** If you are the shareholder of record and you do not vote in person at the Annual General Meeting, or by proxy via the Internet, by telephone, or by mail, your shares will not be voted at the Annual General Meeting.
- **Beneficial owners.** If you are the beneficial owner of your shares, your broker or nominee may vote your shares only on those proposals on which it has discretion to vote. Under NYSE rules, your broker or nominee has discretion to vote your shares on routine matters, such as Proposal No. 3, but does not have discretion

to vote your shares on non-routine matters, such as Proposals No. 1, 2 or 4. Therefore, if you do not instruct your broker as to how to vote your shares on Proposals No. 1, 2 or 4, this would be a “broker non-vote,” and your shares would not be counted as having been voted on the applicable proposal. **We therefore strongly encourage you to instruct your broker or nominee on how you wish to vote your shares.**

Q. What is the effect of a broker non-vote or abstention?

Under NYSE rules, brokers or other nominees who hold shares for a beneficial owner have the discretion to vote on a limited number of routine proposals when they have not received voting instructions from the beneficial owner at least ten days prior to the Annual General Meeting. A “broker non-vote” occurs when a broker or other nominee does not receive such voting instructions and does not have the discretion to vote the shares. Pursuant to Bermuda law, broker non-votes and abstentions are not included in the determination of the common shares voting on such matter, but are counted for quorum purposes.

Q. What if I return a signed proxy or voting instruction card, but do not specify how my shares are to be voted?

- **Shareholders of record.** If you are a shareholder of record and you submit a proxy, but you do not provide voting instructions, all of your shares will be voted FOR Proposals No. 1, 2 and 3 and ABSTAIN on Proposal 4.
- **Beneficial owners.** If you are a beneficial owner and you do not provide the broker or other nominee that holds your shares with voting instructions, the broker or other nominee will determine if it has the discretionary authority to vote on the particular matter. Under NYSE rules, brokers and other nominees have the discretion to vote on routine matters, such as Proposal No. 3, but do not have discretion to vote on non-routine matters, such as Proposals No. 1, 2 and 4. Therefore, if you do not provide voting instructions to your broker or other nominee, your broker or other nominee may only vote your shares on Proposal No. 3 and any other routine matters properly presented for a vote at the Annual General Meeting.

Q. What does it mean if I receive more than one Notice of Internet Availability of Proxy Materials?

It means you own Invesco common shares in more than one account, such as individually and jointly with your spouse. **Please vote all of your common shares.** Please see “Householding of Proxy Materials” below for information on how you may elect to receive only one Notice.

Q. What is a quorum?

A quorum is necessary to hold a valid meeting. The presence, in person, of two or more persons representing, in person or by proxy, more than 50% of the issued and outstanding common shares entitled to vote at the meeting as of the Record Date constitutes a quorum for the conduct of business.

Q. What vote is required in order to approve each proposal?

For each proposal, the affirmative vote of a majority of the votes cast on such proposal at the Annual General Meeting is required. Under our Bye-Laws, a majority of the votes cast means the number of shares voted “for” a proposal must exceed 50% of the votes cast with respect to such proposal. Votes “cast” include only votes cast with respect to shares present in person or represented by proxy and excludes abstentions.

Q. How will voting on any other business be conducted?

Other than the matters set forth in this Proxy Statement and matters incident to the conduct of the Annual General Meeting, we do not know of any business or proposals to be considered at the Annual General Meeting. If any other business is proposed and properly presented at the Annual General Meeting, the persons named as proxies will vote on the matter in their discretion.

Q. What happens if the Annual General Meeting is adjourned or postponed?

Your proxy will still be effective and will be voted at the rescheduled Annual General Meeting. You will still be able to change or revoke your proxy until it is voted.

Q. Who will count the votes?

A representative of Computershare, our transfer agent, will act as the inspector of election and will tabulate the votes.

Q. How can I find the results of the Annual General Meeting?

Preliminary results will be announced at the Annual General Meeting. Final results will be published in a Current Report on Form 8-K that we will file with the SEC within four business days after the Annual General Meeting.

Important additional information

Costs of solicitation

The cost of solicitation of proxies will be paid by Invesco. We have retained Alliance Advisors LLC to solicit proxies for a fee of approximately \$18,000 plus a reasonable amount to cover expenses. Proxies may also be solicited in person, by telephone or electronically by Invesco personnel who will not receive additional compensation for such solicitation. Copies of proxy materials and our Annual Report will be supplied to brokers and other nominees for the purpose of soliciting proxies from beneficial owners, and we will reimburse such brokers or other nominees for their reasonable expenses.

Presentation of financial statements

In accordance with Section 84 of the Companies Act 1981 of Bermuda, Invesco's audited consolidated financial statements for the fiscal year ended December 31, 2017 will be presented at the Annual General Meeting. These statements have been approved by the Board. There is no requirement under Bermuda law that these statements be approved by shareholders, and no such approval will be sought at the Annual General Meeting.

Registered and principal executive offices

The registered office of Invesco is located at Canon's Court, 22 Victoria Street, Hamilton HM12, Bermuda. The principal executive office of Invesco is located at 1555 Peachtree Street N.E., Atlanta, Georgia 30309, and the telephone number there is 1-404-892-0896.

Shareholder proposals for the 2019 annual general meeting

In accordance with the rules established by the SEC, any shareholder proposal submitted pursuant to Rule 14a-8 under the Exchange Act intended for inclusion in the proxy statement for next year's annual general meeting of shareholders must be received by Invesco no later than 120 days before the anniversary of the date of this proxy statement (e.g., not later than November 27, 2018). Such proposals should be sent to our Company Secretary in writing to Invesco Ltd., Attn: Office of the Company Secretary, 1555 Peachtree Street N.E., Atlanta, Georgia 30309, or by email to company.secretary@invesco.com. To be included in the Proxy Statement, the proposal must comply with the requirements as to form and substance established by the SEC and our Bye-Laws, and must be a proper subject for shareholder action under Bermuda law.

The company implemented "proxy access" in 2017. Proxy access allows eligible shareholders to include their director nominees in the company's proxy materials for an annual general meeting of shareholders, along with the candidates nominated by the Board as long as certain criteria are met and such request to include a shareholder-nominated candidate is received not less than 90 nor more than 120 days prior to the first anniversary of the preceding year's annual general meeting (e.g. from January 10, 2019 to February 9, 2019). Subject to the terms and conditions set forth in our Bye-Laws, generally, eligible shareholders who have continuously maintained qualifying ownership of at least 3% of the company's

outstanding shares for at least the previous three years are generally permitted to use the company's proxy statement to nominate, at the company's annual general meeting of shareholders, a number of eligible director candidates equal to the greater of two and the largest whole number that does not exceed 20% of the number of directors in office as of the last day on which a proxy access notice may be delivered.

A shareholder may otherwise propose business for consideration or nominate persons for election to the Board in compliance with SEC proxy rules, Bermuda law, our Bye-Laws and other legal requirements, without seeking to have the proposal included in Invesco's proxy statement pursuant to Rule 14a-8 under the Exchange Act. Under our Bye-Laws, notice of such a proposal must generally be provided to our Company Secretary not less than 90 nor more than 120 days prior to the first anniversary of the preceding year's annual general meeting. The period under our Bye-Laws for receipt of such proposals for next year's meeting is thus from January 10, 2019 to February 9, 2019. (However, if the date of the annual general meeting is more than 30 days before or more than 60 days after such anniversary date, any notice by a shareholder of business or the nomination of directors for election or reelection to be brought before the annual general meeting to be timely must be delivered (i) not earlier than the close of business on the 120th day prior to such annual general meeting; and (ii) not later than the close of business on the later of (A) the 90th day prior to such annual general meeting and (B) the 10th day following the day on which public announcement of the date of such meeting is first made.) SEC rules permit proxy holders to vote proxies in their discretion in certain cases if the shareholder does not comply with these deadlines, and in certain other cases notwithstanding compliance with these deadlines.

In addition, Sections 79-80 of the Bermuda Companies Act allows shareholders holding at least 5% of the total voting rights or totaling 100 record holders (provided that they advance to the company all expenses involved and comply with certain deadlines) to require Invesco (i) to give notice of any resolution that such shareholders can properly propose at the next annual general meeting; and/or (ii) to circulate a statement regarding any proposed resolution or business to be conducted at a general meeting.

United States Securities and Exchange Commission reports

A copy of the company's Annual Report on Form 10-K ("Annual Report"), including financial statements, for the fiscal year ended December 31, 2017, is being furnished concurrently herewith to all shareholders holding shares as of the Record Date. Please read it carefully.

Shareholders may obtain a copy of the Annual Report, without charge, by visiting the company's web site at www.invesco.com or by submitting a request to our Company Secretary at: company.secretary@invesco.com or by writing Invesco Ltd., Attn: Office of the Company Secretary, 1555 Peachtree Street N.E., Atlanta, Georgia 30309. Upon request to our Company Secretary, the exhibits set forth on the exhibit index of the Annual Report may be made available at a reasonable charge (which will be limited to our reasonable expenses in furnishing such exhibits).

Householding of proxy materials

The SEC has adopted rules that permit companies and intermediaries (such as banks and brokers) to satisfy the delivery requirements for Proxy Statements and Annual Reports with respect to two or more shareholders sharing the same address by delivering a single Proxy Statement and Annual Report to those shareholders. This process, which is commonly referred to as "householding," potentially means extra convenience for shareholders and cost savings for companies.

A number of banks and brokers with account holders who are beneficial holders of the company's common shares will be householding the company's proxy materials or the Notice. Accordingly, a single copy of the proxy materials or Notice will be delivered to multiple shareholders sharing an address unless contrary instructions have been received from the affected shareholders. Once you have received notice from your bank or broker that it will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive separate proxy materials or copies of the Notice, please notify your bank or broker, or contact our Company Secretary at: company.secretary@invesco.com, or by mail to Invesco Ltd., Attn: Office of the Company Secretary, 1555 Peachtree Street N.E., Atlanta, Georgia 30309, or by telephone to 404-892-0896. The company undertakes, upon oral or written request to the address or telephone number above, to deliver promptly a separate copy of the company's proxy materials or the Notice to a shareholder at a shared address to which a single copy of the applicable document was delivered. Shareholders who currently receive multiple copies of the proxy materials or the Notice at their address and would like to request householding of their communications should contact their bank or broker or the Company Secretary at the contact address and telephone number provided above.

AUM ranking disclosure

Our AUM ranking data excludes passive products, closed-end funds, private equity limited partnerships, non-discretionary funds, unit investment trusts, fund of funds with component funds managed by Invesco, stable value building block funds and consolidated debt obligations. Certain funds and products were excluded from the analysis because of limited benchmark or peer group data. Had these been available, results may have been different. These results are preliminary and subject to revision.

Data is as of December 31, 2017. AUM measured in the one-, three- and five-year peer group rankings represents 56%, 56% and 53% of total Invesco AUM, respectively.

Peer group rankings are sourced from a widely-used third party ranking agency in each fund's market (Lipper, Morningstar, IA, Russell, Mercer, eVestment Alliance, SITCA, Value Research) and asset-weighted in U.S. dollars. Rankings are as of prior quarter-end for most institutional products and prior month-end for Australian retail funds due to their late release by third parties. Rankings for the most representative fund in each global investment performance standards ("GIPS") composite are applied to all products within each GIPS composite. Performance assumes the reinvestment of dividends. Past performance is not indicative of future results and may not reflect an investor's experience.

Appendix B

U.S. GAAP rules on consolidation require the company to consolidate certain investment product assets and liabilities which significantly distort our balance sheet and associated financial metrics.

Non-GAAP reconciliations

We utilize the following non-GAAP performance measures: net revenue (and by calculation, net revenue yield on AUM), adjusted operating income, adjusted operating margin, adjusted net income attributable to Invesco Ltd. and adjusted diluted earnings per share (EPS). The company believes the adjusted measures provide valuable insight into the company's ongoing operational performance and assist in comparisons to its competitors. These measures also assist the company's management with the establishment of operational budgets and forecasts and assist the Board of Directors and management of the company in determining incentive compensation decisions. The most directly comparable U.S. GAAP measures are operating revenues (and by calculation, gross revenue yield on AUM), operating income, operating margin, net income attributable to Invesco Ltd. and diluted EPS.

The following are reconciliations of operating revenues, operating income (and by calculation, operating margin), and net income attributable to Invesco Ltd. (and by calculation, diluted EPS) on a U.S. GAAP basis to a non-GAAP basis of net revenues, adjusted operating income (and by calculation, adjusted operating margin), and adjusted net income attributable to Invesco Ltd. (and by calculation, adjusted diluted EPS). These non-GAAP measures should not be considered as substitutes for any U.S. GAAP measures and may not be comparable to other similarly titled measures of other companies. The tax effect of the reconciling items is based on the tax jurisdiction attributable to the transactions. Notes to the reconciliations follow the tables and further details are available in the company's Annual Report on Form 10-K.

Adjusted diluted EPS ¹⁰	\$2.70	\$2.23	\$2.44	\$2.51	\$2.13

1 Proportional share of net revenues and operating income from joint venture investments: This reconciling item relates to the proportional share of net revenue and operating income of the company's two joint venture investments in China. The company continues to enhance its operations in China to improve its competitive position over time and believes that it is appropriate to evaluate the contribution of these joint ventures to the operations of the business through the company's proportional share of revenues and related expenses. It is also consistent with the presentation of AUM and net flows (where our proportional share of the ending balances and related activity are reflected) and provides a more meaningful calculation of net revenue yield on AUM.

2 Third-party distribution, service and advisory expenses: Third-party distribution, service and advisory expenses include renewal commissions, management fee rebates and distribution costs (12b-1 and marketing support) paid to brokers and independent financial advisors and other service and administrative fees paid to third parties. Management believes that the deduction of third-party distribution, service and advisory expenses from operating revenues appropriately reflects these expenses as being passed through to external parties who perform functions on behalf of, and distribute, the company's managed funds. Further, these expenses vary extensively by geography due to the differences in distribution channels. The net presentation of these expenses assists in identifying the revenue contribution generated by the business, removing distortions caused by the differing distribution channel fees and allowing for a fair comparison of the company with U.S. peer investment managers and within Invesco's own investment units.

3 CIP: These non-GAAP measures add back the management and performance fees earned by Invesco from the consolidated products and remove the income and expenses recorded by the consolidated products that have been included in the U.S. GAAP Consolidated Statements of Income. The company believes that the consolidation of investment products may impact a reader's analysis of the underlying results of operations and could result in confusion with investors, analysts, or external credit rating agencies with respect to the financial condition of the company.

4 Business combination related adjustments: Business combination related adjustments represent transaction and integration charges, the reversal of business combination-related deferred tax liabilities recorded under U.S. GAAP and other acquisition/disposition related adjustments. These adjustments are useful to investors and other users of the Consolidated Financial Statements as they help comparability with peer companies that may not have similar income or charges.

5 Market movement on deferred compensation plan liabilities: Certain deferred compensation plan awards are linked to the appreciation (depreciation) of specified investments typically managed by the company. Invesco hedges economically the exposure to market movements by holding these investments on its balance sheet and through a total return swap. Since these plans are hedged economically, the company believes it is useful to reflect the offset ultimately achieved from hedging the investment market exposure in the calculation of adjusted operating income (and by calculation, adjusted operating margin) and adjusted net income attributable to Invesco Ltd. (and by calculation, adjusted diluted EPS), to produce results that will be more comparable period to period.

6 Other reconciling items: Other reconciling items include costs associated with the company's business optimization efforts, employee benefit plan termination charges, regulatory charges which include the revaluation of deferred tax assets and liabilities following the Tax Cuts and Job Act enacted in the United States in 2017, and other costs that have been adjusted due to the unique character and magnitude of the reconciling items, or because the item represents a continuation of a reconciling item adjusted from U.S. GAAP in a prior period.

⁷ Operating margin is equal to operating income divided by operating revenues.

⁸ Adjusted operating margin is equal to adjusted operating income divided by net revenues.

⁹ The effective tax rate on adjusted net income attributable to Invesco Ltd. is 27.0% (2016: 26.8%; 2015: 27.1%; 2014: 26.6%; 2013: 26.3%).

¹⁰ Adjusted diluted EPS is equal to adjusted net income attributable to Invesco Ltd. divided by the weighted average number of common and restricted shares outstanding. There is no difference between the calculated earnings per share amounts presented above and the calculated earnings per share amounts under the two class method.
