Reconciliation of Recurring Net Income to GAAP Net Income

(In Thousands of Dollars Except Per Share Data) (Unaudited)

For the Three Months Ended March 31.

	Ended March 31,					
	2003					
		\$	EPS		\$	EPS
Recurring net income (1)	\$	31,964	\$ 1.12	\$	31,759	\$ 1.12

Net income	\$	39,082	\$ 1.36	\$	29,610	\$ 1.04

- (1) Recurring net income is defined as net income before insurance recovery, gain on replacement of damaged assets, income (loss) on discontinued operations, net of income tax effect and share of loss from remediation costs at Harborside. Recurring net income is presented to assist investors and management in analyzing the performance of the Company. This information should not be considered as an alternative to any measure of performance as promulgated under accounting principles generally accepted in the United States, nor should it be considered as an indicator of the overall financial performance of the Company.
- (2) Insurance recovery represents a business interruption settlement related to the Hurricane Michelle claim. Gain on replacement of damaged assets represents insurance proceeds received in excess of the net book value of assets damaged during Hurricane Michelle.
- (3) The Company discontinued the operations of its online gaming subsidiary, Kerzner Interactive, in the quarter. The Company has recognized \$4.5 million of income related to an option agreement with Station Casinos, Inc. which was terminated during the quarter, which was partially reduced by net losses incurred while winding down the operations of the business, including the writedown of net assets in the quarter.
- (4) The Company recorded a loss for its share of remediation costs related to Harborside arising from damage incurred from Hurricane Michelle. This loss has not been reduced by any potential insurance recovery, but Harborside has filed a claim with its insurers, which is presently under negotiation.

Reconciliation of EBITDA to GAAP Income from Operations

Insurance recovery		2,819		-
Depreciation and amortization		(13,628)		(13,565)

Income from operations

(1) EBITDA is defined as income from operations before insurance recovery and depreciation and amortization. EBITDA is presented to assist investors and management in analyzing the performance of the Company and in measuring cash flows from operations from the Company before debt service that provides a relevant basis for comparison. This information should not be considered as an alternative to any measure of performance as promulgated under accounting principles generally accepted in the United States, nor should it be considered as an indicator of the overall financial performance of the Company. The Company's method of calculating EBITDA may be different from the calculation used by other companies and, therefore, comparability may be limited.
