PART A INFORMATION REQUIRED IN A PROSPECTUS

## ING CORPORATE ADVANTAGE VUL

#### A FLEXIBLE PREMIUM VARIABLE UNIVERSAL LIFE INSURANCE POLICY

issued by

#### Security Life of Denver Insurance Company and its Security Life Separate Account L1

#### The Policy

- Is issued by Security Life of Denver Company.
- Is returnable by you during the free look period if you are not satisfied.

#### **Premium Payments**

- Are flexible, so the premium amount and frequency may vary.
- Are allocated to the variable account and the fixed account, based on your instructions.
- Are subject to specified fees and charges.

#### The Policy Value

- Is the sum of your holdings in the fixed account, the variable account and the loan account.
- Has no guaranteed minimum value under the variable account. The value varies with the value of the subaccounts you select.
- Has a minimum guaranteed rate of return for amounts in the fixed account.
- Is subject to specified fees and charges, including possible surrender charges. **Death Benefit Proceeds**

- Are paid if your policy is in force when the insured person dies.
- Are calculated under your choice of options:
  - > Option 1 the base death benefit is the greater of (1) the amount of base insurance coverage and Term Insurance Rider coverage you have selected, or (2) your policy value plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor described in Appendix A; or
  - > Option 2 the total death benefit is the greater of (1) the amount of base insurance coverage and Term Insurance Rider coverage you have selected plus your policy value, or (2) you policy value plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A; or
  - > Option 3 the total death benefit is the greater of (1) the amount of base insurance coverage and Term Insurance Rider coverage you have selected plus premiums paid minus withdrawals taken and partial withdrawal fees assessed, or (2) your policy value plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A.
- Are equal to the base death benefit plus any rider benefits minus any outstanding policy loans, accrued loan interest and unpaid fees and charges.
- Are generally not subject to federal income tax if your policy continues to meet the federal income tax definition of life insurance.

#### **Sales Compensation**

• We pay compensation to broker/dealers whose registered representatives sell the policy. See Distribution of the Policies, page 60, for further information about the amount of compensation we may pay.

This prospectus describes what you should know before purchasing the ING Corporate Advantage variable universal life insurance policy. Please read it carefully and keep it for future reference.

Neither the Securities and Exchange Commission ("SEC") nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

The policy described in this prospectus is not a deposit with, obligation of or guaranteed or endorsed by any bank, nor is it insured or guaranteed by the FDIC, the Federal Reserve Board or any other government agency.

The date of this prospectus is April 28, 2006.

"Security Life," "we," "us," "our" and the "company" refer to Security Life of Denver Insurance Company. "You" and "your" refer to the policy owner. The owner is the individual, entity, partnership, representative or party who may exercise all rights over the policy and receive the policy benefits during the insured person's lifetime.

**State Variations** - State variations are covered in a special policy form used in that state. This prospectus provides a general description of the policy. Your actual policy and any riders are the controlling documents. If you would like to review a copy of the policy and riders, contact our Customer Service Center or your agent/registered representative.

You may contact us about the policy at our:

Customer Service Center P.O. Box 724927 Atlanta, GA 30119 1-866-790-1988

## POLICY SUMMARY

This summary highlights the features and benefits of the policy, the risks that you should consider before purchasing a policy and the fees and charges associated with the policy and its benefits. More detailed information is included in the other sections of this prospectus which should be read carefully before you purchase the policy.

Temporary	• If you apply and qualify, we may issue temporary insurance equal to the total amount	
Insurance	of insurance coverage for which you applied.	
insul ance	• The maximum amount of temporary insurance is \$4.5 million per insured person,	
С <b>Т</b> .	which includes other in-force coverage you have with us.	
See <i>Temporary</i>	• Temporary insurance may not be available in all states.	
Insurance, page 23.		
Free Look Period	• During the free look period, you have the right to examine your policy and return it for a refund if you are not activitied for any reason	
	for a refund if you are not satisfied for any reason.	
See Free Look Period,	• The free look period is generally ten days from your receipt of the policy, although	
page 22.	certain states may allow more than ten days.	
	• Generally, there are two types of free look refunds:	
	> Some states require a return of all premium we have received; and	
	> Other states require that we return your policy value plus a refund of all fees and charges deducted.	
	• The length of the free look period and the free look refund that applies in your state will be stated in your policy.	
	• During the free look period, your net premium will be allocated among the investment options you have selected unless your state requires a return of premium as the free look refund. In these states your net premium directed to the subaccounts will be allocated to the ING Liquid Assets Portfolio until after the free look period ends.	
Premium	• You choose when to pay and how much to pay.	
Payments	• You will need to pay sufficient premiums to keep the policy in force. Failure to pay sufficient premiums may cause your policy to lapse.	
See Premium	• You cannot pay additional premiums after age 100.	
Payments, page 21.	• We may refuse any premium that would disqualify your policy as life insurance under Section 7702 of the Internal Revenue Code.	
	• We deduct a premium expense charge from each premium payment and credit the remaining premium (the "net premium") to the variable account or the fixed account according to your instructions.	
Investment	• You may allocate your net premiums to the subaccounts of the Security Life Separate	
Options	Account L1 (the "variable account") and to our fixed account.	
options	• The variable account is one of our separate accounts and consists of subaccounts	
See The Lowertow and	which invest in corresponding funds. When you allocate premiums to a subaccount,	
See The Investment	we invest any net premiums in shares of the corresponding fund.	
Options, page 15.	• Your variable account value will vary with the investment performance of the funds underlying the subaccounts and the charges we deduct from your variable account value.	
	<ul> <li>The fixed account is part of our general account which consists of all of our assets</li> </ul>	
	other than those in our separate accounts (including the variable account).	
	• We credit interest of at least 3.00% per year on amounts allocated to the fixed	

## The Policy's Features and Benefits

Death Benefits	• Death benefits are paid if your policy is in force when the insured person dies.
	• Until age 100, the amount of the death benefit will depend on which death benefit
See Death Benefits,	option is in effect when the insured person dies.
page 29.	• There are three death benefit options available under your policy:
	<ul> <li>&gt; Option 1 - the total death benefit is the greater of (1) the amount of base insurance coverage and Term Insurance Rider coverage you have selected, or (2) your policy value plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A;</li> <li>&gt; Option 2 - the total death benefit is the greater of (1) the amount of base insurance coverage and Term Insurance Rider coverage you have selected plus your policy value, or (2) your policy value plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A;</li> <li>&gt; Option 3 - the total death benefit is the greater of (1) the amount of base insurance coverage and Term Insurance Rider coverage you have selected plus premiums paid minus withdrawals taken and partial withdrawal fees assessed, or (2) your policy value plus the refund of premium expense and base policy value plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor from the definition of life insurance Rider coverage you have selected plus premiums paid minus withdrawals taken and partial withdrawal fees assessed, or (2) your policy value plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A.</li> <li>After age 100 the death benefit will equal 100% of the policy value, regardless of which death benefit option is in effect.</li> <li>We will reduce the death benefit proceeds payable under any death benefit option by</li> </ul>
	<ul> <li>any outstanding loans, accrued loan interest and unpaid fees and charges.</li> <li>The death benefit is generally not subject to federal income tax if your policy continues to meet the federal income tax definition of life insurance.</li> </ul>
Transfers	• You currently may make an unlimited number of transfers between the subaccounts
	and to the fixed account each policy year. Transfers are, however, subject to any
See Transfers, page 39.	limits, conditions and restrictions that we or the funds whose shares are involved may
See Transfers, page 57.	impose.
	• There are certain restrictions on transfers from the fixed account.
	• We do not charge for transfers.
Asset Allocation	• Dollar cost averaging is a systematic program of transferring policy values to selected
Programs	subaccounts of the variable account. It is intended to help reduce the risk of investing too much when the price of a fund's shares is high. It also helps to reduce the risk of investing too little when the price of a fund's shares in law.
See Dollar Cost	investing too little when the price of a fund's shares is low.
Averaging, page 40.	<ul> <li>Automatic rebalancing is a systematic program through which your variable and fixed account values are periodically reallocated among your selected investment options to</li> </ul>
See Automatic	maintain the allocation percentages you have chosen.
Rebalancing,	• There is no charge to participate in these asset allocation programs. There are,
page 41.	however, certain conditions on participation in these asset allocation programs.
Labe it.	• Neither of these asset allocation programs assures a profit nor do they protect
	you against a loss in a declining market.

Loans	<ul> <li>After the first policy month, you may take loans against the value of your policy.</li> <li>A loan is generally limited to your policy value minus any outstanding loan amount</li> </ul>
See Loans, page 38.	and accrued loan interest (the "net policy value") less the periodic fees and charges and loan interest on any existing loan amount to your next policy anniversary.
	• When you take a loan we transfer an amount equal to your loan to the loan account as collateral for your loan. The loan account is part of our general account.
	• We credit amounts held in the loan account with interest at an annual rate no less than 3.00%.
	• We also charge interest on loans. Interest is due in arrears on each policy anniversary and accrues daily at a current annual rate of 3.75% in policy years 1-10, 3.25% in policy years 11-20 and 3.00% in all years thereafter. The annual interest rate charged may change at any time but is guaranteed not to exceed 3.75% in policy years 1-10, 3.50% in policy years 11-20 and 3.25% in all years thereafter.
	<ul> <li>Loans reduce your policy's death benefit and may cause your policy to lapse.</li> <li>Loans may have tax consequences, and you should consult with a qualified tax adviser before taking a loan against your policy's value.</li> </ul>
Partial	<ul> <li>A partial withdrawal must be at least \$500.</li> </ul>
Withdrawals	<ul> <li>We currently charge a fee of \$10 for each partial withdrawal.</li> </ul>
	<ul> <li>Partial withdrawals reduce your policy's death benefit and policy value and may cause your policy to lapse.</li> </ul>
See Partial Withdrawals, page 43.	• Partial withdrawals may also have tax consequences, and you should consult with a qualified tax adviser before taking a partial withdrawal from your policy.
Surrenders	• You may surrender your policy for its surrender value at any time before the death of the insured person.
See <i>Surrender</i> , page 44.	• Your surrender value is your policy value plus any refund of premium expense and base policy acquisition charges due minus any outstanding loan amount and accrued loan interest.
	• All insurance coverage ends on the date we receive your surrender request.
	• If you surrender your policy it cannot be reinstated.
	• Surrendering the policy may have tax consequences, and you should consult with a qualified tax adviser before surrendering your policy.
Reinstatement	• Reinstatement means putting a lapsed policy back in force.
See <i>Reinstatement</i> , page 46.	• You may reinstate your policy and riders within five years of the beginning date of the grace period if you still own the policy and did not surrender it and the insured person is still insurable.
page 40.	• You will need to pay the required reinstatement premium.
	• If you had an outstanding loan when coverage lapsed, we will reinstate it with
	accrued loan interest to the date of the lapse.
	• A policy that is reinstated more than 90 days after lapsing may be considered a modified endowment contract for tax purposes.
	<ul> <li>Reinstating your policy may have tax consequences, and you should consult with a</li> </ul>
	qualified tax adviser before reinstating your policy.
Term Insurance	• You may add the optional Term Insurance Rider benefit to your policy.
Rider	<ul><li>We deduct additional monthly charges for this rider benefit.</li><li>This rider may not be available under your policy or in your state.</li></ul>
See Optional Term Insurance Rider	
<i>Benefit</i> , page 34.	

## Factors You Should Consider Before Purchasing a Policy

The decision to purchase a policy should be discussed with your agent/registered representative. Make sure you understand the policy's investment options, its other features and benefits, its risks and the fees and charges you will incur when, together with your agent/representative, you consider an investment in the policy.

T · P T	The relievie not a chart term continue with the data to the sector 1 - 1 - 10		
Life Insurance Coverage	• The policy is not a short-term savings vehicle and should be purchased only if you need life insurance coverage. Evaluate your need for life insurance coverage before purchasing a policy.		
	<ul> <li>You should purchase a policy only if you intend and have the financial capability to keep the policy in force for a substantial period of time.</li> </ul>		
Fees and Charges	• The policy's fees and charges reflect the costs associated with its features and benefits, the services we render, the expenses we expect to incur and the risks we		
See <i>Fees and Charges</i> , page 23.	<ul> <li>we believe that the policy's fees and charges, in the aggregate, are reasonable, but before purchasing a policy you should compare the value that the policy's various features and benefits and the available services have to you, given your particular circumstances, with the fees and charges associated with those features, benefits and services.</li> </ul>		
Lapse	• Your policy may lapse and your insurance coverage under the policy may terminate if on any monthly processing date your net policy value is not enough to pay the periodic fees and charges when due.		
See <i>Lapse</i> , page 45.	• If you meet this condition, we will send you notice and give you a 61 day grace period to make a sufficient premium payment.		
	• If you do not make a sufficient premium payment by the end of the 61 day grace period, your life insurance coverage will terminate and your policy will lapse without value.		
	• Partial withdrawals and loans have an adverse impact on your net policy value. Before taking a partial withdrawal or loan consider its effect on your ability to keep your policy from lapsing.		
Exchanges	• Replacing your existing life insurance policy(ies) and/or annuity contract(s) with the policy described in this prospectus may not be beneficial to you.		
See <i>Purchasing a Policy</i> , page 20.	<ul> <li>Before purchasing a policy, determine whether your existing policy(ies) and/or contract(s) will be subject to fees or penalties upon surrender or cancellation.</li> <li>Also compare the fees, charges, coverage provisions and limitations, if any, of your existing policy(ies) and/or contract(s) with those of the policy described in this</li> </ul>		
Investment Risk	<ul> <li>prospectus.</li> <li>You should evaluate the policy's long-term investment potential and risks before purchasing a policy.</li> </ul>		
	<ul> <li>For amounts you allocate to the subaccounts of the variable account:</li> </ul>		
See The Variable Account, page 15.	<ul> <li>Your values will fluctuate with the markets, interest rates and the performance of the underlying funds;</li> </ul>		
	> You assume the risk that your values may decline or may not perform to your expectations;		
	> Your policy could lapse without value or you may be required to pay additional premium because of poor fund performance;		
	<ul> <li>Each fund has various investment risks, and some funds are riskier than others;</li> <li>You should read each fund's prospectus and understand the risks associated with the fund before allocating your premiums to its corresponding subaccount; and</li> <li>There is no assurance that any fund will achieve its stated investment objective.</li> </ul>		
	• For amounts you allocate to the fixed account:		
	> Interest rates we declare will change over time; and		
	> You assume the risk that interest rates may decline, although never below the guaranteed minimum annual rate of 3.00%.		

Taxation See TAX CONSIDERATIONS, page 46.	<ul> <li>Under current federal income tax law, death benefits of life insurance policies generally are not subject to income tax. In order for this treatment to apply, the policy must qualify as a life insurance contract. We believe it is reasonable to conclude that the policy will qualify as a life insurance contract.</li> <li>Assuming the policy qualifies as a life insurance contract under current federal income tax law, your policy earnings are generally not subject to income tax as long as they remain within your policy. Depending on your circumstances, however, the following events may have tax consequences for you:</li> <li>Reduction in the amount of your insurance coverage;</li> <li>Partial withdrawals;</li> <li>Loans;</li> <li>Surrender;</li> <li>Lapse; and</li> <li>Reinstatement.</li> <li>In addition, if your policy is a modified endowment contract, a partial withdrawal, surrender or a loan against or secured by the policy will cause income taxation to the extent of any gain in the policy. A penalty tax may be imposed on a distribution from a modified endowment contract as well.</li> <li>There is always the possibility that the tax treatment of the policy could be changed by legislation or otherwise. You should consult a qualified tax adviser with respect to legislative developments and their effect on the policy.</li> <li>Consult with a qualified legal or tax adviser before you purchase a policy.</li> </ul>
Sales Compensation	• We pay compensation to broker/dealers whose registered representatives sell the policy, but this compensation will not affect the fees and charges you will pay for
See Distribution of the Policies, page 60.	<ul> <li>the policy.</li> <li>We generally pay more compensation on premiums paid for base insurance coverage than we do on premiums paid for coverage under the Term Insurance Rider. Talk to your agent/registered representative about the right blend of base and Term Insurance Rider coverage for you.</li> </ul>
Other Products	<ul> <li>We and our affiliates offer other insurance products which may have different features, benefits, fees and charges. These other products may better match your needs.</li> <li>Contact your agent/registered representative if you would like information about these other products.</li> </ul>

## Fees and Charges

The following tables describe the fees and charges you will pay when buying, owning and surrendering the policy.

**Transaction Fees and Charges** The following table describes the fees and charges deducted at the time you make a premium payment, make a partial withdrawal or request an excess illustration. **See Transaction Fees and Charges, page 24.** 

Charge	When Deducted	Amount Deducted
Premium Expense Charge	• Deducted when you make a premium payment.	<ul> <li>Tax Charge</li> <li>4.00% of each premium payment.</li> <li>Sales Charge         <ul> <li>7.00% of each premium payment - guaranteed.</li> <li>7.00% of each premium payment during policy years 1-10, and 1.00% of each premium payment thereafter - current.</li> </ul> </li> </ul>
Partial Withdrawal Fee	• Deducted when you take a partial withdrawal.	• \$10.
Excess Illustration Fee	• Deducted each time you request an illustration after the first each policy year.	<ul> <li>\$25 - maximum.</li> <li>\$0 - current.</li> </ul>

**Periodic Fees and Charges** The following table describes the fees and charges deducted each month on the monthly processing date, not including fund fees and expenses. **See Periodic Fees and Charges, page 24.** 

Charge	When Deducted	Amount Deducted
Cost of Insurance Charge <sup>1</sup>	On the monthly processing date.	<ul> <li>Minimum Rates per \$1,000 of base insurance coverage - <ul> <li>\$0.09 - guaranteed.</li> <li>\$0.02 - current.</li> </ul> </li> <li>Maximum Rates per \$1,000 of base insurance coverage - <ul> <li>\$5.51 - guaranteed.</li> <li>\$2.72 - current.</li> </ul> </li> <li>Rates for a representative insured person per \$1,000 of base insurance coverage - <ul> <li>\$0.56 - guaranteed.</li> <li>\$0.13 - current.</li> </ul> </li> <li>The representative insured person is a male, age 50 in the standard nontobacco risk class with guaranteed issue underwriting.</li> </ul>

<sup>&</sup>lt;sup>1</sup> The minimum and maximum rates shown are for an insured person in the standard risk class. The cost of insurance rates shown are for the first policy year. Guaranteed rates are for policies with guaranteed issue underwriting and current rates are for policies that are fully underwritten. The rates have been rounded to the nearest penny. Consequently, the actual rates are either more or less than these rounded rates. The rates that apply to you depend on the amount of your base insurance coverage, the type of underwriting used to issue the policy and the insured person's age, gender, policy duration and risk class and generally increase each year after the first policy year. The rates for the representative insured person listed above may be more or less than you will pay, and you should contact your agent/registered representative for information about the rates that apply to you. The guaranteed maximum cost of insurance rates for an insured person in the substandard risk class is \$83.33 per \$1,000 of base insurance coverage.

Charge	When Deducted	Amount Deducted
Base Policy Acquisition Charge <sup>2</sup>	On the monthly processing date.	<ul> <li>Minimum Rates per \$1,000 of initial base insurance coverage - &gt; \$0.24 - guaranteed and current.</li> <li>Maximum Rates per \$1,000 of initial base insurance coverage - \$1.19 - guaranteed and current.</li> <li>Rates for a representative insured person per \$1,000 of initial base insurance coverage - \$0.53 - guaranteed and current.</li> <li>The representative insured person is age 50.</li> </ul>
Mortality & Expense Risk Charge <sup>3</sup>	• On the monthly processing date.	<ul> <li>Percentage of policy value invested in the variable account -</li> <li>&gt; 0.03% (0.35% annually) - guaranteed.</li> <li>&gt; 0.01% (0.10% annually) - current.</li> </ul>
Policy Charge	• On the monthly processing date.	• \$10.
Loan Interest Charge	• Accrues daily but is due in arrears on each policy anniversary.	• 3.75% (guaranteed and current) per annum of the loan amount in policy years 1-10, and lower thereafter.

### Periodic Fees and Charges, continued

<sup>&</sup>lt;sup>2</sup> The base policy acquisition charge rates shown currently apply only in policy years 1-10, but they may apply in all policy years. The rates have been rounded to the nearest penny. Consequently, the actual rates are either more or less than these rounded rates. The rates that apply to you depend on the amount of your initial base insurance coverage and the insured person's age. The rates for the representative insured person listed above may be more or less than you will pay, and you should contact your agent/registered representative for information about the rates that apply to you.

<sup>&</sup>lt;sup>3</sup> The monthly mortality and expense risk charge rate has been rounded up to the nearest one hundredth of one percent. See Mortality and Expense Risk Charge, page 26, for the monthly rate without rounding.

**Optional Term Insurance Rider Charges** The following table describes the charges deducted if you elect the optional Term Insurance Rider benefit. **See Optional Term Insurance Rider Charges, page 27.** 

Charge	When Deducted	Amount Deducted
Term Rider Cost of	• On the monthly processing	• Minimum Rates per \$1,000 of rider benefit -
Insurance Charge <sup>4</sup>	date.	> \$0.09 - guaranteed.
		> \$0.02 - current.
		• Maximum Rates per \$1,000 of rider benefit -
		> \$5.51 - guaranteed.
		> \$2.72 - current.
		• Rates for a representative insured person per \$1,000 of rider benefit -
		> \$0.56 - guaranteed.
		> \$0.13 - current.
		> The representative insured person is a male,
		age 50 in the standard nontobacco risk class.
Term Rider	• On the monthly processing	• Minimum Rates per \$1,000 of rider benefit -
Acquisition Charge <sup>5</sup>	date.	> \$0.27 - guaranteed.
		> \$0.00 - current.
		• Maximum Rates per \$1,000 of rider benefit -
		> \$1.31 - guaranteed.
		> \$0.00 - current.
		• Rates for a representative insured person per
		\$1,000 of rider benefit -
		> \$0.59 - guaranteed.
		> \$0.00 - current.
		> The representative insured person is a male, age 50 in the standard nontobacco risk class.

<sup>&</sup>lt;sup>4</sup> The Term Rider cost of insurance rates shown are for the first policy year for policies with guaranteed issue underwriting. The rates have been rounded to the nearest penny. Consequently, the actual rates are either more or less than these rounded rates. The rates that apply to you depend on the amount of your Term Insurance Rider coverage, the type of underwriting used to issue the policy and the insured person's age, gender, policy duration and risk class and generally increase each year after the first policy year. The rates for the representative insured person listed above may be more or less than you will pay, and you should contact your agent/registered representative for information about the rates that apply to you.

<sup>&</sup>lt;sup>5</sup> We currently do not assess the Term Rider acquisition charge, however, we reserve the right to assess this charge on future policies. The guaranteed rates have been rounded to the nearest penny. Consequently, the actual guaranteed rates are either more or less than these rounded rates. The rates that apply to you depend on the initial amount of your Term Insurance Rider coverage and the insured person's age. The guaranteed rates for the representative insured person listed above may be more or less than you would pay, and you should contact your agent/registered representative for information about the guaranteed rates that would apply to you.

**Fund Fees and Expenses.** The following table shows the minimum and maximum fund fees and expenses that you may pay during the time you own the policy. These may change from year to year. You should review the fund prospectuses for details about the fees and charges specific to a particular fund.

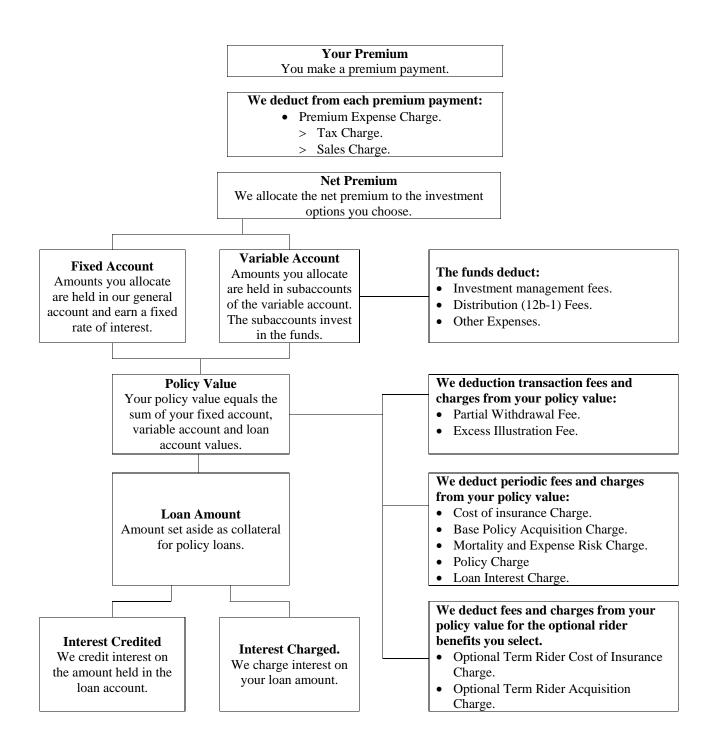

#### Annual Total Fund Expenses (expenses deducted from fund assets)

	<u>Minimum</u>	Maximum
Total Gross Annual Fund Expenses <sup>7</sup>	0.27%	1.34%
Total Net Annual Fund Expenses <sup>8</sup>	0.27%	1.30%

<sup>&</sup>lt;sup>7</sup> Total Gross Annual Fund Expenses include management fees, distribution (12b-1) fees and other expenses.

<sup>&</sup>lt;sup>8</sup> The Total Net Annual Fund Expense figures include management fees, distribution (12b-1) fees and other expenses but also take into account contractual arrangements that require reimbursement or waiver of certain fund fees and expenses at least through May 1, 2007. Out of all funds available through the policy, 22 have contractual arrangements to reimburse or waive certain fees and expenses through this period. Generally, these arrangements provide that fees and expenses will be reimbursed or waived above a certain level for a specific period of time. The minimum and maximum Total Net Annual Fund Expenses shown take into account all of the available funds, not just those with contractual arrangements.

## How the Policy Works

## THE COMPANY, THE VARIABLE ACCOUNT AND THE FIXED ACCOUNT

## Security Life of Denver Insurance Company

We are a stock life insurance company organized in 1929 and incorporated under the laws of the State of Colorado. We are admitted to do business in the District of Columbia and all states except New York. Our headquarters is at 1290 Broadway, Denver, Colorado 80203-5699.

We are a wholly owned indirect subsidiary of ING Groep N.V., a global financial institution active in the fields of insurance, banking and asset management. ING Groep N.V. is headquartered in Amsterdam, The Netherlands. Although we are a subsidiary of ING Groep N.V., ING Groep N.V. is not responsible for the obligations under the policy. The obligations under the policy are solely the responsibility of Security Life of Denver Insurance Company.

We are also a charter member of the Insurance Marketplace Standards Association ("IMSA"). Companies that belong to IMSA subscribe to a rigorous set of standards that cover the various aspects of sales and service for individually sold life insurance and annuities. IMSA members have adopted policies and procedures that demonstrate a commitment to honesty, fairness and integrity in all customer contacts involving sales and service of individual life insurance and annuity products.

#### **Regulatory Developments -- The Company and the Industry**

As with many financial services companies, Security Life and its affiliates have received informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the financial services industry. In each case, the company and its affiliates have been and are providing full cooperation.

**Investment Product Regulatory Issues.** Since 2002, there has been increased governmental and regulatory activity relating to mutual funds and variable insurance products. This activity has primarily focused on inappropriate trading of fund shares; revenue sharing and directed brokerage; compensation; sales practices, suitability and supervision; arrangements with service providers; pricing; compliance and controls; adequacy of disclosure; and document retention.

In addition to responding to governmental and regulatory requests on fund trading issues, ING management, on its own initiative, conducted, through special counsel and a national accounting firm, an extensive internal review of mutual fund trading in ING insurance, retirement and mutual fund products. The goal of this review was to identify any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel. The internal review identified several isolated arrangements allowing third parties to engage in frequent trading of mutual funds within the variable insurance and mutual fund products of ING, and identified other circumstances where frequent trading occurred despite measures taken by ING intended to combat market timing. Each of the arrangements has been terminated and disclosed to regulators, to the independent trustees of ING Funds (U.S.) and in company reports previously filed with the SEC pursuant to the Securities Exchange Act of 1934, as amended.

In September, 2005, an affiliate of the company, ING Funds Distributors, LLC ("IFD") and one of its registered persons settled an administrative proceeding with the National Association of Securities Dealers, Inc. ("NASD"). in connection with frequent trading arrangements. IFD neither admitted nor denied the allegations or findings and consented to certain monetary and non-monetary sanctions. IFD's settlement of this administrative proceeding is not material to the company.

Other regulators, including the SEC and the New York Attorney General, are also likely to take some action with respect to the company or certain affiliates before concluding their investigation relating to fund trading. The potential outcome of such action is difficult to predict but could subject the company or certain affiliates to adverse consequences, including, but not limited to, settlement payments, penalties and other financial liability. It is not currently anticipated, however, that the actual outcome of such action will have a material adverse effect on ING or ING's U.S.-based operations, including the company.

ING has agreed to indemnify and hold harmless the ING Funds from all damages resulting from wrongful conduct by ING or its employees or from ING's internal investigation, any investigations conducted by any governmental or self-regulatory agencies, litigation or other formal proceedings, including any proceedings by the SEC. Management reported to the ING Funds Board that ING management believes that the total amount of any indemnification obligations will not be material to ING or ING's U.S.-based operations, including the company.

**Insurance and Other Regulatory Matters.** The New York Attorney General and other federal and state regulators are also conducting broad inquiries and investigations involving the insurance industry. These initiatives currently focus on, among other things, compensation and other sales incentives; potential conflicts of interest; potential anti-competitive activity; reinsurance; marketing practices; specific product types (including group annuities and indexed annuities); and disclosure. It is likely that the scope of these industry investigations will further broaden before they conclude. The company and certain of its U.S. affiliates of ING have received formal and informal requests in connection with such investigations, and are cooperating fully with each request for information.

These initiatives may result in new legislation and regulation that could significantly affect the financial services industry, including businesses in which the company is engaged.

In light of these and other developments, U.S. affiliates of ING, including the company, periodically review whether modifications to their business practices are appropriate.

## The Investment Options

You may allocate your premium payments to any of the available investment options. These options include the subaccounts of the variable account and the fixed account. The investment performance of a policy depends on the performance of the investment options you choose.

#### The Variable Account

We established Security Life Separate Account L1 (the "variable account") on November 3, 1993, as one of our separate accounts under the laws of the State of Colorado. It is a unit investment trust, registered with the SEC under the Investment Company Act of 1940, as amended ("1940 Act").

We own all of the assets of the variable account and are obligated to pay all amounts due under a policy according to the terms of the policy. Income, gains and losses credited to, or charged against, the variable account reflect the investment experience of the variable account and not the investment experience of our other assets. Additionally, Colorado law provides that we cannot charge the variable account with liabilities arising out of any other business we may conduct. This means that if we ever became insolvent, the variable account assets will be used first to pay variable account policy claims. Only if variable account assets remain after these claims have been satisfied can these assets be used to pay owners of other policies and creditors.

The variable account is divided into subaccounts. Each subaccount invests in a corresponding fund. When you allocate premium payments to a subaccount, you acquire accumulation units of that subaccount. You do not invest directly in or hold shares of the funds when you allocate premium payments to the subaccounts of the variable account.

**Funds Available Through the Variable Account.** The following chart lists the funds that are available through the variable account. For additional information about each fund's investment adviser/subadviser and investment objective, see Appendix B to this prospectus. More detailed information about each fund can be found in each fund's current prospectus.

- American Growth Fund (Class 2)
- American Growth-Income Fund (Class 2)
- American International Fund (Class 2)

- ING VP SmallCap Opportunities Portfolio (Class I)
- Neuberger Berman AMT Socially Responsive Portfolio<sup>®</sup> (Class I)

<sup>\*</sup> Prior to April 28, 2006, the S Class shares of this fund were available through the variable account. Effective April 28, 2006, the I Class of fund shares replaced the S Class of fund shares. I Class shares have 0.25% lower total fund expenses than the S Class shares, and the effect of this transaction is to give policy owners an investment in the same fund managed by the same investment adviser at a lower cost.

See Appendix B to this prospectus for more information about the funds available through the variable account, including information about each fund's investment adviser/subadviser and investment objective. Please read and retain the fund prospectuses for more information about each fund's investment objective and policies and the risks associated with investing in the fund.

A fund available through the variable account is not the same as a retail mutual fund with the same or similar name. Accordingly, the management, expenses and performance of a fund is likely to differ from a similarly named retail mutual fund.

**Voting Privileges.** We invest each subaccount's assets in shares of a corresponding fund. We are the legal owner of the fund shares held in the variable account, and we have the right to vote on certain issues. Among other things, we may vote on issues described in the fund's current prospectus or issues requiring a vote by shareholders under the 1940 Act.

Even though we own the shares, we give you the opportunity to tell us how to vote the number of shares attributable to your policy. We count fractional shares. If you have a voting interest, we send you proxy material and a form on which to give us your voting instructions.

Each fund share has the right to one vote. The votes of all fund shares are cast together on a collective basis, except on issues for which the interests of the funds differ. In these cases, voting is on a fund-by-fund basis.

Examples of issues that require a fund-by-fund vote are changes in the fundamental investment policy of a particular fund or approval of an investment advisory agreement.

We vote the shares in accordance with your instructions at meetings of the fund's shareholders. We vote any fund shares that are not attributable to policies and any fund shares for which the owner does not give us instructions in the same proportion as we vote the shares for which we did receive voting instructions.

We reserve the right to vote fund shares without getting instructions from policy owners if the federal securities laws, regulations or their interpretations change to allow this.

You may instruct us only on matters relating to the funds corresponding to those subaccounts in which you have invested assets as of the record date set by the fund's Board for the shareholders meeting. We determine the number of fund shares in each subaccount of your policy by dividing your variable account value in that subaccount by the net asset value of one share of the matching fund.

**Right to Change the Variable Account.** Subject to state and federal law and the rules and regulations thereunder, we may, from time to time, make any of the following changes to our variable account with respect to some or all classes of policies:

- Change the investment objective;
- Offer additional subaccounts which will invest in funds we find appropriate for policies we issue;
- Eliminate subaccounts;
- Close subaccounts or combine two or more subaccounts. If we close or combine a subaccount, unless you provide us with alternative allocation instructions, all future premiums directed to the subaccount that was closed or combined may be automatically allocated among the other subaccounts in which your policy value is allocated, on a proportionate basis. You may give us alternative allocation instructions at any time by contacting our Customer Service Center. See also the **Transfers** section of this prospectus, page 39, for information about making subaccount allocation changes;
- Substitute a new fund for a fund in which a subaccount currently invests. A substitution may become necessary if, in our judgment:
  - > A fund no longer suits the purposes of your policy;
  - > There is a change in laws or regulations;
  - > There is a change in the fund's investment objectives or restrictions;
  - > The fund is no longer available for investment; or
  - > Another reason we deem a substitution is appropriate.
- In the case of a substitution, the new fund may have different fees and charges than the fund it replaced;
- Transfer assets related to your policy class to another separate account;
- Withdraw the variable account from registration under the 1940 Act;
- Operate the variable account as a management investment company under the 1940 Act;
- Cause one or more subaccounts to invest in a fund other than, or in addition to, the funds currently available;
- Stop selling the policy;
- End any employer or plan trustee agreement with us under the agreement's terms;
- Limit or eliminate any voting rights for the variable account;
- Make any changes required by the1940 Act or its rules or regulations; or
- Close a subaccount to new investments.

We will not make a change until it is effective with the SEC and approved by the appropriate state insurance departments, if necessary. We will notify you of changes. If you wish to transfer the amount you have in the affected subaccount to another subaccount or to the fixed account, you may do so free of charge. Just notify us at our Customer Service Center.

#### **The Fixed Account**

You may allocate all or a part of your net premium and transfer your net policy value into the fixed account. We declare the interest rate that applies to all amounts in the fixed account. Although the interest rate will change over time, the interest rate will never be less than 3.00%. Interest compounds daily at an effective annual rate that equals the declared rate. We credit interest to the fixed account on a daily basis. We pay interest regardless of the actual investment performance of our general account. We bear all of the investment risk for the fixed account.

Your fixed account value equals the net premium you allocate to the fixed account, plus interest earned, minus amounts you transfer out or withdraw. It may be reduced by fees and charges assessed against your policy value.

The fixed account guarantees principal and is part of our general account. The general account supports our non-variable insurance and annuity obligations. We have not registered interests in the fixed account under the Securities Act of 1933, as amended ("1933 Act"). Also, we have not registered the fixed account or the general account as an investment company under the 1940 Act (because of exemptive and exclusionary provisions). This means that the general account, the fixed account and interests in it are generally not subject to regulation under these Acts.

The SEC staff has not reviewed the disclosures in this prospectus relating to the general account and the fixed account. These disclosures, however, may be subject to certain requirements of the federal securities law regarding accuracy and completeness of statements made.

# DETAILED INFORMATION ABOUT THE POLICY

This prospectus describes our standard ING Corporate Advantage variable universal life insurance policy. The policy provides death benefits, policy values and other features of traditional life insurance contracts. There may be variations in policy features, benefits and charges because of requirements of the state where we issue your policy. We describe all such differences in your policy.

If you would like to know about state variations, please ask your agent/registered representative. We can provide him/her with the list of variations that will apply to your policy.

We and our affiliates offer various other products with different features and terms than the policy offered through this prospectus, and that may offer some or all of the same funds. These products have different benefits, fees and charges, and may or may not better match your needs. Please note that some of the company's management personnel and certain other employees may receive a portion of their employment compensation based on the amount of policy values allocated to funds affiliated with ING. You should be aware that there may be alternative options available, and, if you are interested in learning more about these other products, contact our Customer Service Center or your agent/registered representative.

## **Purchasing a Policy**

To purchase a policy you must submit an application to us. On that application you will, among other things, select:

- The amount of your base insurance coverage (which generally must be at least \$50,000);
- Your initial death benefit option;
- The death benefit qualification test to apply to your policy; and
- Whether to include coverage under the optional Term Insurance Rider.

Additionally, on the application you will provide us with certain health and other necessary information. Upon receipt of an application, we will follow our underwriting procedures to determine whether the proposed insured person is insurable by us. Before we can make this determination, we may need to request and review medical examinations of and other information about the proposed insured person. Through our underwriting process, we also determine the risk class for the insured person if the application is accepted. Risk class is based on such factors as age, gender, health and occupation of the insured person. Risk class will impact the cost of insurance rates you will pay and may also affect premiums and other policy fees, charges and benefits.

We reserve the right to reject an application for any reason permitted by law. If an application is rejected, any premium received will be returned without interest.

On the date coverage under the policy begins (the "policy date"), the person on whose life we issue the policy (the "insured person") generally can be no younger than age 20 and no older than age 75. "Age" under the policy means the insured person's age on the birthday nearest to the policy date.

You may request that we back-date the policy up to six months to allow the insured person to give proof of a younger age for the purposes of your policy. Except for cash on delivery policies, we generally will not reissue a policy to change the policy date.

**Important Information About the Term Insurance Rider.** It may be to your economic advantage to include all or part of your insurance coverage under the Term Insurance Rider. Working with your agent, consider the following factors described in the *Optional Term Insurance Rider Benefit* section of this prospectus, page 34, when deciding whether to include coverage under the Term Insurance Rider and in what proportion to the total amount of coverage under your policy.

#### **Premium Payments**

Premium payments are flexible and you may choose the amount and frequency of premium payments, within limits, including:

- You cannot pay additional premiums after age 100;
- We may refuse any premium that would disqualify your policy as life insurance under Section 7702 of the Internal Revenue Code;
- We may refuse any premium that would cause your policy to become a modified endowment contract under Section 7702A of the Internal Revenue Code without your prior written acknowledgement accepting your policy as a modified endowment contract;
- We may require proof that the insured person is still insurable before accepting any premium payment that would cause the net amount at risk to increase; and
- We may refuse to accept any premium that does not comply with our anti-money laundering program. See Anti-Money Laundering, page 55.

After we deduct the premium expense charge from your premium payments, we apply the remaining premium to your policy as described below.

A premium payment is received by us when it is received at our offices. After you have paid your initial premium, we suggest you send payments directly to us, rather than through your agent/registered representative, to assure the earliest crediting date.

Your initial premium must be at least equal to the sum of the scheduled premium from the policy date through the investment date. The investment date is the date we apply the net premium to your policy.

**Scheduled Premium.** You may select your scheduled premium (within our limits) when you apply for your policy. The scheduled premium, shown in your policy and schedule, is the amount you choose to pay over a stated time period. This amount may or may not be enough to keep your policy in force. You may receive premium reminder notices for the scheduled premium on a quarterly, semi-annual or annual basis. You are not required to pay the scheduled premium.

You can change the amount of your scheduled premium within our minimum and maximum limits at any time. If you fail to pay your scheduled premium or if you change the amount of your scheduled premium, your policy performance will be affected.

**Unscheduled Premium Payments.** Generally speaking, you may make unscheduled premium payments at any time, however:

- We may limit the amount of an unscheduled premium payment if it would result in an increase in the amount of the death benefit required by the federal income tax law definition of life insurance. We may require satisfactory evidence that the insured person is insurable at the time that you make the unscheduled premium payment if the death benefit is increased due to an unscheduled premium payment; and
- We will return premium payments which would cause your policy to become a modified endowment contract, unless you have acknowledged in writing the new modified endowment contract status for your policy.

**Premium Payments Affect Your Coverage.** Your coverage lasts only as long as you have a positive net policy value which is enough to pay the periodic fees and charges due each month. If you do not meet this requirement, your policy will enter a 61-day grace period and you must make a sufficient premium payment to avoid lapse and loss of insurance coverage. See Lapse, page 45.

**Allocation of Net Premium.** We apply the initial net premium to your policy after all of the following conditions have been met:

- We receive the required initial premium;
- All issue requirements have been received by our Customer Service Center; and
- We approve your policy for issue.

Amounts you designate for the fixed account will be allocated to that account on the investment date. If your state requires return of your premium during the free look period, we initially invest amounts you have designated for the subaccounts of the variable account in the subaccount which invests in the ING Liquid Assets Portfolio. Five days after the date we mailed your policy to you plus the length of your state's free look period we will transfer these amounts from this subaccount to your selected subaccounts, based on your most recent premium allocation instructions.

Thereafter, all net premium we receive will be allocated to your policy on the valuation date of receipt. We will use your most recent premium allocation instructions specified in percentages stated to the nearest tenth and totaling 100%.

If your state provides for return of your policy value during the free look period (or provides no free look period), we allocate amounts you designated for the subaccounts of the variable account directly into those subaccounts.

#### **Free Look Period**

You have the right to examine your policy and return it to us (for any reason) within the period shown in the policy. The period during which you have this right is called the free look period and starts on the date you receive your policy. If you return your policy to us within the free look period, we cancel it as of your policy date.

If you cancel your policy during the free look period, you will receive a refund as determined by state law. Generally, there are two types of free look refunds:

- · Refund of all premium we have received from you; or
- Refund of your policy value plus a refund of all charges deducted.

The type of refund that applies in your state will be specified in your policy. The type of free look refund will affect when premium received before the end of the free look period is allocated to the subaccounts. See Allocation of Net Premium, page 22.

#### **Temporary Insurance**

If you apply and qualify, we may issue temporary insurance in an amount equal to the amount of insurance coverage for which you applied, up to \$4.5 million per insured person, which includes other in-force coverage we have on that insured person.

Temporary insurance coverage begins when all of the following events have occurred:

- You have completed and signed our temporary insurance coverage form;
- We have received and accepted a premium payment of at least your scheduled premium (selected on your application); and
- The necessary parts of the application are complete.

Unless otherwise provided by state law, temporary insurance coverage ends on the earliest of:

- Five days after we mail the premium refund to the address on your application;
- Five days after we mail notice of termination to the address on your application;
- Your policy date;
- The date we refuse to issue a policy based on your application; or
- 90 days after you sign our temporary life insurance coverage form.

There is no death benefit under the temporary insurance coverage if any of the following events occur:

- There is a material misrepresentation in your answers on the temporary insurance coverage form;
- There is a material misrepresentation in statements on your application;
- The person or persons intended to be insured die by suicide or self inflicted injury; or
- The bank does not honor your premium check or authorized withdrawal.

During the period of temporary insurance coverage your premium payments are held by us in a general suspense account until underwriting is completed and the policy is issued or the temporary insurance coverage otherwise ends. Premiums held in this suspense account do not earn interest and they are not allocated to the investment options available under the policy until a policy is issued. **See Allocation of Net Premium, page 22.** If a policy is not issued and temporary insurance coverage ends, any premium received will be returned without interest.

## Fees and Charges

We deduct fees and charges under the policy to compensate us for:

- Providing the insurance benefits of the policy (including rider benefits, if any);
- Administering the policy;
- · Assuming certain risks in connection with the policy; and
- Incurring expenses in distributing the policy.

The amount of a fee or charge may be more or less than the cost associated with the service or benefit. Accordingly, excess proceeds from one fee or charge may be used to make up a shortfall on another fee or charge, and we may earn a profit on one or more of these fees and charges. We may use any such profits for any proper corporate purpose, including, among other things, payment of sales expenses.

#### **Transaction Fees and Charges**

We deduct the following transaction fees and charges from your policy value each time you make certain transactions.

**Premium Expense Charge.** The premium expense charge is consists of the tax charge and the sales charge.

**Tax Charge.** We deduct 4.00% from each premium payment. This charge helps compensate us for the costs associated with state and local taxes and the federal income tax treatment of deferred acquisition costs.

**Sales Charge.** We currently deduct a sales charge of 7.00% from each premium payment during the first ten policy years, and 1.00% of each premium payment thereafter. This charge is guaranteed not to exceed 7.00% of each premium payment.

This charge helps compensate us for the costs associated with selling the policies, including promotional, advertising and distribution expenses.

**Partial Withdrawal Fee.** We deduct a \$10 partial withdrawal fee each time you take a partial withdrawal from your policy. We deduct the partial withdrawal fee proportionately from your remaining fixed and variable account values.

This fee helps offset the expenses we incur when processing a partial withdrawal.

**Excess Illustration Fee.** We currently do not assess this fee, but we reserve the right to assess a fee of up to \$25 for each illustration of your policy values you request after the first each policy year.

This fee helps offset the costs we incur when processing requests for excess illustrations.

**Redemption Fees.** If applicable, we may deduct the amount of any redemption fees imposed by the underlying mutual funds as a result of withdrawals, transfers or other fund transactions you initiate. Redemption fees, if any, are separate and distinct from any transaction charges or other charges deducted from your policy value.

#### **Periodic Fees and Charges**

We deduct the following periodic fees and charges from your policy value on the monthly processing date. The monthly processing date is the same date each month as your policy date. If that date is not a valuation date, then the monthly processing date is the next valuation date.

At any time you may choose one investment option from which we will deduct your periodic fees and charges. If you do not choose the investment option or the amount in your chosen investment option is not enough to cover the periodic fees and charges, then your periodic fees and charges are taken from the subaccounts and fixed account in the same proportion that your value in each has to your net policy value.

**Cost of Insurance.** Each month we deduct a cost of insurance charge equal to our current monthly cost of insurance rates multiplied by the net amount at risk for your total insurance coverage (your base insurance coverage plus any Term Insurance Rider coverage). The net amount at risk as calculated on each monthly processing date equals the difference between:

- Your current total death benefit discounted to take into account one month's interest earnings at an assumed 3.00% annual interest rate; and
- Your policy value minus the periodic fees and charges due on that date other than cost of insurance charges.

Monthly cost of insurance rates for both the base policy and the optional Term Insurance Rider depend on the type of underwriting used to issue the policy and the insured person's age at issue, gender, risk class, policy duration and amount of insurance coverage on the policy date. They will not, however, be greater than the guaranteed cost of insurance rates shown in the policy, which are based on the 1980 Commissioner's Standard Ordinary Sex Distinct Mortality Tables. We will apply unisex rates where appropriate under the law. This currently includes policies issued in the state of Montana. The rates that apply to you will be set forth in your policy. **See the Periodic Fees and Charges table beginning on page 8 for the minimum and maximum cost of insurance rates and the rates for a representative insured person.** Fully and simplified underwritten policies may have lower current cost of insurance rates than policies issued on a guaranteed issue underwriting basis.

The cost of insurance charges for both the base policy and the optional Term Insurance Rider vary from month to month because of changes in your net amount at risk, changes in your death benefit and the increasing age of the insured person. The net amount at risk is affected by the same factors that affect your policy value, namely:

- The net premium applied to your policy;
- The fees and charges we deduct;
- Any partial withdrawals you take;
- Interest earnings on the amounts allocated to the fixed account;
- The investment performance of the funds underlying the subaccounts of the variable account.

There are no cost of insurance charges after age 100.

The cost of insurance charges compensates us for the ongoing costs of providing insurance coverage under the base policy and the optional Term Insurance Rider, including the expected cost of paying death benefits that may be more than your policy value.

**Base Policy Acquisition Charge.** Each month we deduct a base policy acquisition charge equal to the monthly base policy acquisition charge rates multiplied by the amount of your initial base insurance coverage divided by 1,000. The rates vary based on the insured person's age at issue. Currently, this charge decreases to zero after the tenth policy year. We reserve the right, however, to assess this charge in all policy years. The rates that apply to you and the duration of this charge will be set forth in your policy. See the Periodic Fees and Charges table beginning on page 8 for the minimum and maximum base policy acquisition charge rates and the rates for a representative insured person.

This charge helps offset the costs we incur in selling, issuing and administering the policy, including costs associated with:

- Acquisition costs, including commissions we pay to your agent/registered representative;
- Conducting medical examinations;
- Processing applications;
- Underwriting;
- Billing and collecting premiums; and
- Processing claims and policy transactions.

**Mortality and Expense Risk Charge.** Each month we deduct from your policy value a mortality and expense risk charge currently equal to 0.00833% (0.10% annually) of the amount invested in the subaccounts. This charge is guaranteed not to exceed 0.02917% (0.35% annually).

This charge helps compensate us for the mortality and expense risks we assume when we issue a policy. The mortality risk is the risk that insured people, as a group, may live less time than we estimated. The expense risk is the risk that the costs of issuing and administering the policies and operating the subaccounts of the variable account are greater than we estimated.

**Policy Charge.** Each month we deduct a policy charge of \$10. This charge helps compensate us for the costs associated with:

- Establishing policy records; and
- Reporting and communicating with policy owners; and
- Overhead and other expenses.

**Loan Interest Charge.** We charge interest on loans you take. The annual interest rate charged is currently 3.75% in policy years 1-10, 3.25% in policy years 11-20 and 3.00% in all years thereafter. The annual interest rate charged may change at any time but is guaranteed not to exceed 3.75% in policy years 1-10, 3.50% in policy years 11-20 and 3.25% in all years thereafter. Interest accrues daily but is due in arrears on each policy anniversary. **See the Loan Interest section on page 38 for more information about the loan interest charge.** 

#### **Optional Term Insurance Rider Charges**

There are separate cost of insurance and acquisition charges for the optional Term Insurance Rider coverage. See Cost of Insurance on page 25, the Optional Term Insurance Rider Charges table on page 10, and the *Optional Term Insurance Rider Benefit* section on page 34 for more information about this optional rider and the applicable charges.

#### **Fund Fees and Expenses**

Each fund deducts management fees from the amounts allocated to the funds. In addition, each fund deducts other expenses which may include service fees which are used to compensate service providers, including the company and its affiliates, for administrative and policy owner services provided on behalf of the fund. Certain funds deduct a distribution or 12b-1 fee, which is used to finance any activity that is primarily intended to result in the sale of fund shares. Furthermore, certain funds may deduct redemption fees as a result of withdrawals, transfers, or other fund transactions you initiate. If applicable, we may deduct the amount of any redemption fees imposed by an underlying fund. Fund redemption fees, if any, are separate and distinct from any transaction or periodic fees and charges deducted from your policy value. For a more complete description of the funds' fees and expenses, review each fund's prospectus.

The company, or its U.S. affiliates, receives from each of the funds or the funds' affiliates varying levels and types of revenue with respect to each of the funds available through the policy. In terms of the total dollar amounts received, the greatest amount of revenue comes from assets allocated to funds managed by ING Investments, LLC or other company affiliates, which funds are either not subadvised or are subadvised by another company affiliate. Assets allocated to funds managed by a company affiliate, Directed Services, Inc., for example, but which are subadvised by unaffiliated third parties generate the next greatest amount of revenue. Finally, assets allocated to unaffiliated funds generate the least amount of revenue.

#### **Types of Revenue Received from Affiliated Funds**

Affiliated funds are (a) funds managed by ING Investments, LLC or other company affiliates, which funds are either not subadvised or are subadvised by another company affiliate; and (b) funds managed by a company affiliate but which are subadvised by unaffiliated third parties.

Revenues received by the company from affiliated funds and/or their affiliates may include:

- Service fees that are deducted from fund assets; and
- Revenues which may be based either on an annual percentage of average net assets held in the fund by the company or a percentage of the management fees. These revenues may be received as cash payments or according to a variety of financial accounting techniques which are used to allocate revenue and profits across ING businesses. For funds subadvised by unaffiliated third parties, once the subadviser has been paid, the adviser may share a portion of the remaining management fee with the company. Because subadvisory fees vary by subadviser, varying amounts of revenue are retained by the affiliated investment adviser and ultimately shared with the company.

#### **Types of Revenue Received from Unaffiliated Funds**

Revenue received from each of the unaffiliated funds or their affiliates is based on an annual percentage of the average net assets held in that fund by the company. Some unaffiliated funds or their affiliates pay us more than others and some of the amounts we receive may be significant.

Revenues received by the company from unaffiliated funds and/or their affiliates may include:

- For certain funds compensation paid from 12b-1 fees or service fees that are deducted from fund assets; and
- Additional payments for administrative recordkeeping or other services which we provide to the funds or their affiliates or as an incentive for us to make the funds available through the policy. These additional payments may be used by us to finance distribution of the policy.

The three unaffiliated fund families which currently have funds offered through the policy, ranked according to total dollar amounts they paid to the company or its affiliates in 2005, are as follows:

- Fidelity<sup>®</sup> Variable Insurance Product Portfolios;
- American Funds Insurance Series; and
- Neuberger Berman AMT Portfolios<sup>®</sup>.

If the revenues received from affiliated funds were included in this list, payments to the company or its affiliates by ING Investments, LLC and other company affiliates would be at the top of the list.

In addition to the types of revenue received from affiliated and unaffiliated funds described above, affiliated and unaffiliated funds and their investment advisers, subadvisers or affiliates may participate at their own expense in company sales conferences or educational and training meetings. In relation to such participation, a fund's investment adviser, subadviser or affiliate may help offset the cost of the meetings or sponsor events associated with the meetings. In exchange for these expense offset or sponsorship arrangements, the investment adviser, subadviser or affiliate may receive certain benefits and access opportunities to company sales representatives and wholesalers rather than monetary benefits. These benefits and opportunities include, but are not limited to:

- Co-branded marketing materials;
- Targeted marketing sales opportunities;
- Training opportunities at meetings;
- Training modules for sales personnel; and
- Opportunity to host due diligence meetings for representatives and wholesalers.

Management personnel of the company and of its affiliated broker-dealers may receive additional compensation if the overall amount of investments in funds advised by company affiliates meets certain target levels or increases over time. Compensation for certain management personnel, including sales management personnel, may be enhanced if the overall amount of investments in the policies and other products issued by the company or its affiliates increases over time. Certain sales management personnel may also receive compensation that is a specific percentage of the commissions paid to distributors or of purchase payments received under the policies.

## Death Benefits

You decide the amount of life insurance protection you need, now and in the future. Generally, we require a minimum of \$50,000 of base insurance coverage to issue your policy.

You can combine the long-term advantages of permanent life insurance with the flexibility and short-term advantages of term life insurance through the policy. The base policy provides the permanent element of your coverage. The optional Term Insurance Rider provides the term insurance element of your coverage.

It may be to your economic advantage to include part of your insurance coverage under the optional Term Insurance Rider. See Important Information About the Term Insurance Rider, page 35.

#### **Changes in the Amount of Your Insurance Coverage**

You may not increase the amount of your base insurance coverage (except that increases resulting from a death benefit option change are allowed). You may increase, however, the amount of coverage under the optional Term Insurance Rider after the first policy anniversary, subject to our current underwriting rules.

Subject to certain limitations, you may decrease the amount of your insurance coverage. Changing the amount of your insurance coverage will generally not be allowed until after the first policy year. Any change will be effective on the next monthly processing date after we receive your written request or the next monthly processing date after underwriting approval (if required), whichever is later. A death benefit option change may cause the amount of base insurance coverage to change.

There may be certain requirements that must be met before we will approve a change in the amount of your insurance coverage. After we approve such a request, we will send a new policy schedule page to you. You should attach it to your policy. We may ask you to return your policy to our Customer Service Center so that we can make this change for you.

A reduction in the amount of your insurance coverage must be for at least \$1,000 and may not result in an amount of base insurance coverage below \$25,000.

Requested reductions in insurance coverage may result in:

- Reduced premium amounts; and
- Reduced cost of insurance charges.

Requested reductions in the amount of insurance coverage will first decrease the amount coverage, if any, under your optional Term Insurance Rider. We reduce the amount of your base insurance coverage only after your optional Term Insurance Rider coverage is reduced to zero.

We reserve the right not to approve a requested reduction in your insurance coverage that would disqualify your policy as life insurance under Section 7702 of the Internal Revenue Code. In addition, we may refuse to approve a requested reduction in your insurance coverage that would cause your policy to become a modified endowment contract under Section 7702A of the Internal Revenue Code without your prior written acknowledgment accepting your policy as a modified endowment contract. Reducing the amount of insurance coverage under your policy could cause your policy to be considered a modified endowment contract. If this happens, prior and subsequent distributions from the policy (including loans) may be subject to adverse tax treatment. You should consult a qualified tax adviser before changing your amount of insurance coverage. See Modified Endowment Contracts, page 48.

#### **Insurance Coverage after Age 100**

Your insurance coverage under the policy automatically continues in force beyond the policy anniversary nearest the insured person's 100<sup>th</sup> birthday ("age 100"), unless prohibited by state law. If you do not surrender your policy before this date, on this date:

- The amount of your death benefit equals your policy value plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A;
- The optional Term Insurance Rider is terminated;
- Your net policy value is transferred into the fixed account and subsequent transfers into the subaccounts are not allowed; and
- Dollar cost averaging and automatic rebalancing programs are terminated.

Your insurance coverage continues in force until the death of the insured person, unless the policy lapses or is surrendered. However, after age 100:

- We accept no further premium payments; and
- We deduct no further fees and charges except transaction fees and charges, if applicable.

Partial withdrawals and loans are allowed after age 100. If you have an outstanding loan, interest continues to accrue. If you fail to make sufficient loan or loan interest payments, it is possible that the outstanding loan amount plus accrued loan interest may become greater than your policy value and cause your policy to lapse. To avoid lapse, you may repay the loan and loan interest after age 100.

If you wish to stop coverage after age 100, you may surrender your policy and receive the net policy value. All other normal consequences of surrender apply. See Surrender, page 44.

Coverage after age 100 is not available in all states. If a state has approved this feature, it is automatic under your policy. In certain states the death benefit during the continuation of coverage period is the net policy value. Contact your agent/registered representative or our Customer Service Center to find out if this feature is available in your state and which type of death benefit applies in your state.

The tax consequences of coverage continuing beyond the insured person's 100<sup>th</sup> birthday are uncertain. You should consult a qualified tax adviser as to those consequences. See Continuation of a Policy, page 50.

#### **Death Benefit Qualification Tests**

The death benefit proceeds are generally not subject to federal income tax if your policy continues to meet the federal income tax definition of life insurance. Your policy will meet this definition of life insurance provided that it meets the requirements of either the guideline premium test or the cash value accumulation test.

When you apply for a policy you must choose either the guideline premium test or the cash value accumulation test to make sure your policy complies with the Internal Revenue Code's definition of "life insurance." You cannot change this choice once the policy is issued.

**Guideline Premium Test.** The guideline premium test requires that premium payments do not exceed certain statutory limits and your death benefit is at least equal to your policy value multiplied by a factor defined by law. The guideline premium test provides for a maximum amount of premium in relation to the death benefit and a minimum amount of death benefit in relation to policy value. The factors for the guideline premium test can be found in Appendix A to this prospectus.

Certain changes to a policy which uses the guideline premium test may allow the payment of premium in excess of the statutory limits in order to keep the policy from lapsing. In this circumstance, any such excess premium will be allocated to the fixed account in order for the policy to continue to meet the federal income tax definition of life insurance.

**Cash Value Accumulation Test.** The cash value accumulation test requires a policy's surrender value not to exceed the net single premium necessary to fund the policy's future benefits. Under the cash value accumulation test, there is generally no limit to the amount that may be paid in premiums as long as there is enough death benefit in relation to policy value at all times. The death benefit at all times must be at least equal to an actuarially determined factor, depending on the insured person's age, gender and risk class at any point in time, multiplied by the policy value. A description of how the cash value accumulation test factors are determined can be found in Appendix A to this prospectus.

Which Death Benefit Qualification Test to Choose. The guideline premium test limits the amount of premium that may be paid into a policy. If you do not desire to pay premiums in excess of the guideline premium test limitations, you should consider the guideline premium test.

The cash value accumulation test does not limit the amount of premium that may be paid into a policy. If you desire to pay premiums in excess of the guideline premium test limitations you should elect the cash value accumulation test. However, any premium that would increase the net amount at risk is subject to evidence of insurability satisfactory to us. Required increases in the death benefit due to growth in policy value will generally be greater under the cash value accumulation test than under the guideline premium test. Required increases in the death benefit will increase the cost of insurance under the policy, thereby reducing the policy value.

#### **Death Benefit Options**

Before age 100, there are three death benefit options available under the policy. You choose the option you want when you apply for the policy. You may change that choice after your first monthly processing date and before age 100.

**Option 1.** Under death benefit option 1, the total death benefit is the greater of:

- The amount of base insurance coverage and Term Insurance Rider coverage in effect on the date of the insured person's death; or
- Your policy value on the date of the insured person's death plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A.

Under this option your total death benefit will remain level unless your policy value plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor described in Appendix A exceeds the amount of total insurance coverage. In this case, your death benefit will vary as the policy value varies.

With option 1, positive investment performance generally reduces your net amount at risk, which lowers your policy's cost of insurance charge. Option 1 also offers insurance coverage at a set amount with potentially lower cost of insurance charges over time.

Option 2. Under death benefit option 2, the total death benefit is the greater of:

- The amount of your base insurance coverage and Term Insurance Rider coverage plus your policy value on the date of the insured person's death; or
- Your policy value on the date of the insured person's death plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A.

Under this option your total death benefit will vary as the policy value varies and investment performance is reflected in your insurance coverage.

**Option 3**. Under death benefit option 3, the total death benefit is the greater of:

- The amount of base insurance coverage and Term Insurance Rider coverage in effect on the date of the insured person's death plus premiums paid minus withdrawals taken and partial withdrawal fees assessed; or
- Your policy value on the date of the insured person's death plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A.

Under this option your total death benefit will vary as you pay premiums and take withdrawals or if your policy value plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor described in Appendix A exceeds the amount of total insurance coverage plus premiums paid minus withdrawals taken.

Which Death Benefit Option to Choose. If you are satisfied with the amount of your total insurance coverage and prefer to have premium payments and favorable investment performance reflected to the maximum extent in the policy value and lower cost of insurance charges, you should choose death benefit option 1. If you prefer to have premium payments and favorable investment performance reflected partly in the form of an increasing death benefit, you should choose death benefit option 2. If you require a specific death benefit which would include a return of the premium paid, death benefit option 3 may best meet your needs.

**Changing Death Benefit Options.** On or after the first monthly processing date and before age 100 you may be able to change death benefit options as described below. We may require evidence of insurability under our normal rules of underwriting for some death benefit option changes. You may not change your death benefit option if your death benefit is currently equal to your policy value plus the refund of premium expense and base policy acquisition charges, if any, multiplied by the appropriate factor from the definition of life insurance factors described in Appendix A.

Changing your death benefit option may reduce or increase the amount of your total insurance coverage. The following death benefit option changes are allowed, and on the effective date of the change the amount of your base insurance coverage will change as follows:

Change From:	Change To:	Base Insurance Coverage Following the Change:	
Option 2	Option 1	• Your base insurance coverage before the change plus your policy value as of the effective date of the change.	
Option 3	Option 1	• Your base insurance coverage before the change plus the sum of all premium payments we have received minus all partial withdrawals you have taken as of the effective date of the change.	

Your death benefit option change is effective on your next monthly processing date after we approve it.

If we approve your request, we send a new policy schedule page to you. You should attach it to your policy. We may ask you to return your policy to our Customer Service Center so that we can make this change for you.

Although a death benefit option change may cause the amount of your total insurance coverage to change, it will not affect the amount of coverage you may have under the optional Term Insurance Rider. See *Optional Term Insurance Rider Benefit*, page 34.

Changing your death benefit option may have tax consequences. You should consult a qualified tax adviser before making changes.

#### **Death Benefit Proceeds**

After the insured person's death, if your policy is in force we pay the death benefit proceeds to the beneficiaries. The beneficiaries are the people you name to receive the death benefit proceeds from your policy. The death benefit proceeds are equal to:

- The total death benefit provided by your base policy and the Term Insurance Rider, if any, minus
- Any outstanding loan amount plus accrued loan interest; minus
- Any outstanding fees and charges incurred before the insured person's death. The death benefit is calculated as of the date of the insured person's death and will vary depending on the death benefit option you have chosen.

#### **Optional Term Insurance Rider Benefit**

Your policy may include an optional Term Insurance Rider benefit. This optional rider has additional charges, but you may cancel it at any time. *Adding or canceling riders may have tax consequences.* See Modified Endowment Contracts, page 48.

The following information does not include all of the terms and conditions of the optional Term Insurance Rider, and you should refer to the rider to fully understand its benefits and limitations. This rider may not be available under your policy. Contact your agent/registered representative for availability the availability of this optional rider.

You can increase the amount of your total insurance coverage under the policy by adding coverage under the optional Term Insurance Rider. The optional Term Insurance Rider provides an additional level term insurance benefit if the insured person dies before age 100. The rider effective date is the policy date or, if added later, the monthly processing date on or next following the date your application for this rider is approved by us.

Beginning one year after the policy date, you can increase or decrease the amount of coverage under this rider by sending a written request to our Customer Service Center. Changes in coverage must be at least \$1,000 and are subject to the following conditions:

- Any request for increased coverage under this rider must be applied for on a supplemental application. The increase is subject to evidence satisfactory to us that the insured person is still insurable at the original premium class and risk rating factor according to our normal underwriting rules;
- Any increase in coverage under this rider will be effective on the monthly processing date on or immediately following our approval of the application;
- Any decrease in coverage will be effective on the monthly processing date on or Any decrease in coverage will first reduce the term insurance coverage under this rider before the base insurance coverage under the policy is reduced.

You should consider the following factors when deciding whether to add optional Term Insurance Rider coverage to your base coverage under the policy:

- There are separate cost of insurance and acquisition charges for coverage under this rider;
- The current cost of insurance and acquisition charge rates for coverage under the Term Insurance Rider are generally less than the current cost of insurance and acquisition charge rates for coverage under the base policy. (See Cost of Insurance, page 25, and Optional Term Insurance Rider Charges table, page 10);
- A partial withdrawal may reduce coverage under this rider; and
- This rider has no cash value and provides no growth potential.

Coverage under this rider will terminate on the earliest of the following dates:

- The expiration of the grace period under the policy;
- Termination or surrender of the policy;
- The policy anniversary nearest the insured person's 100<sup>th</sup> birthday; and
- Receipt by us of a written request to cancel this rider. Cancellation will be effective on the next monthly processing date following our receipt of your written cancellation request.

#### **Important Information about the Term Insurance Rider**

It may be to your economic advantage to include all or part of your insurance coverage under the Term Insurance Rider. Working with your agent, consider the following factors when deciding whether to include coverage under the Term Insurance Rider and in what proportion to the total amount of coverage under your policy.

**Cost of Insurance and Other Fees and Charges.** The cost of insurance rates and other fees and charges affect the value of your policy. The lower the cost of insurance and other fees and charges, the greater the policy value. Accordingly, please be aware that:

- The current cost of insurance rates for coverage under the Term Insurance Rider are generally less than the current cost of insurance rates for coverage under the base policy;
- The guaranteed maximum cost of insurance rates for coverage under the Term Insurance Rider are generally more than the guaranteed maximum cost of insurance rates for coverage under the base policy; and
- Some policy fees and charges that apply to coverage under the base policy may not apply to coverage under the Term Insurance Rider.

**Compensation.** We generally pay more compensation to your agent on premiums paid for coverage under the base policy than we do on premiums paid for coverage under the Term Insurance Rider. See *Distribution of the Policies*, page 60.

With these factors in mind, you should discuss with your agent how the use of the term insurance rider will affect the costs, benefits, features and performance of your policy. You should also review illustrations based on different combinations of base policy and term insurance rider coverage so that you can decide what combination best meets your needs. The foregoing discussion does not contain all of the terms and conditions or limitations of coverage under the policy or the term insurance rider, and you should read them carefully to fully understand their benefits and limitations.

### **Policy Value**

Your policy value equals the sum of your fixed account, variable account and loan account values. Your policy value reflects:

- The net premium applied to your policy;
- The fees and charges that we deduct;
- Any partial withdrawals you take;
- Interest earned on amounts allocated to the fixed account;
- The investment performance of the funds underlying the subaccounts of the variable account; and
- Interest earned on amounts held in the loan account.

#### **Fixed Account Value**

Your fixed account value equals the net premium you allocate to the fixed account, plus interest earned, minus amounts you transfer out or withdraw. It may be reduced by fees and charges assessed against your policy value. See The Fixed Account, page 19.

#### Variable Account Value

Your variable account value equals your policy value attributable to amounts invested in the subaccounts of the variable account.

**Determining Values in the Subaccounts.** The value of the amount invested in each subaccount is measured by accumulation units and accumulation unit values. The value of each subaccount is the accumulation unit value for that subaccount multiplied by the number of accumulation units you own in that subaccount. Each subaccount has a different accumulation unit value.

The accumulation unit value is the value determined on each valuation date. The accumulation unit value of each subaccount varies with the investment performance of its underlying fund. It reflects:

- Investment income;
- Realized and unrealized gains and losses;
- Fund expenses (including fund redemption fees, if applicable); and
- Taxes, if any.

A valuation date is a date on which a fund values its shares and the New York Stock Exchange is open for business, except for days on which valuations are suspended by the SEC. Each valuation date ends at 4:00 p.m. Eastern time. We reserve the right to revise the definition of valuation date as needed in accordance with applicable federal securities laws and regulations.

You purchase accumulation units when you allocate premium or make transfers to a subaccount, including transfers from the loan account.

We redeem accumulation units:

- When amounts are transferred from a subaccount (including transfers to the loan account);
- For the monthly deduction of the periodic fees and charges from your policy value;
- For policy transaction fees (including fund redemption fees, if any);
- When you take a partial withdrawal;
- If you surrender your policy; and
- To pay the death benefit proceeds.

To calculate the number of accumulation units purchased or sold we divide the dollar amount of your transaction by the accumulation unit value for the subaccount calculated at the close of business on the valuation date of the transaction.

The date of a transaction is the date we receive your premium or transaction request at our Customer Service Center, so long as the date of receipt is a valuation date. We use the accumulation unit value which is next calculated after we receive your premium or transaction request and we use the number of accumulation units attributable to your policy on the date of receipt.

We deduct the periodic fees and charges each month from your policy value on the monthly processing date. If your monthly processing date is not a valuation date, the monthly deduction is processed on the next valuation date.

The value of amounts allocated to the subaccounts goes up or down depending on investment performance of the corresponding funds. There is no guaranteed minimum value of amounts invested in the subaccounts of the variable account.

How We Calculate Accumulation Unit Values. We determine the accumulation unit value for each subaccount on each valuation date.

We generally set the accumulation unit value for a subaccount at \$10 when the subaccount is first opened. After that, the accumulation unit value on any valuation date is:

- The accumulation unit value for the preceding valuation date, multiplied by
- The subaccount's accumulation experience factor for the valuation period.

Every valuation period begins at 4:00 p.m. Eastern time on a valuation date and ends at 4:00 p.m. Eastern time on the next valuation date. We reserve the right to revise the definition of valuation date as needed in accordance with applicable federal securities laws and regulations.

We calculate an accumulation experience factor for each subaccount every valuation date as follows:

- We take the net asset value of the underlying fund shares as reported to us by the fund managers as of the close of business on that valuation date;
- We add dividends or capital gain distributions declared and reinvested by the fund during the current valuation period;
- We subtract a charge for taxes, if applicable; and
- We divide the resulting amount by the net asset value of the shares of the underlying fund at the close of business on the previous valuation date.

#### Loan Account Value

When you take a loan from your policy we transfer an amount equal to your loan to the loan account as collateral for your loan. The loan account is part of our general account and we credit interest to the amount held in the loan account. Your loan account value is equal to your outstanding loan amount, including interest which we credit. **See Loans, page 45.** 

You purchase accumulation units when you allocate premium or make transfers to a subaccount, including transfers from the loan account.

### Special Features and Benefits

#### **Refund of Premium Expense and Base Policy Acquisition Charges**

If you surrender your policy within the first two policy years and your policy has not lapsed, we will refund the following percentages of the premium expense charge and base policy acquisition charge we deducted from your premium payments and policy value during the first policy year.

Policy Year of Surrender	Percentage of First Policy Year Premium Expense Charge Refund	Percentage of First Policy Year Base Policy Acquisition Charge Refund
1	40%	40%
2	20%	20%

#### Loans

You may borrow money from us at any time after the first monthly processing date by using your policy as collateral for the loan. Unless state law requires otherwise, the maximum amount you may borrow is limited to your net policy value minus the monthly periodic fees and charges to your next policy anniversary and accrued but unpaid loan interest to your next policy anniversary.

Your loan request must be directed to our Customer Service Center. When you request a loan the loan collateral will be taken from each active investment option you have, including the fixed account, in the same proportion that your value in each bears to your policy value.

If you request an additional loan, we add the new loan amount to your existing loan. This way, there is only one loan outstanding on your policy at any time.

**Loan Interest.** We credit amounts held in the loan account with interest at an annual rate of 3.00%. Interest which we credit to the loan account becomes part of your loan account value until the next policy anniversary when it is transferred to the investment options and allocated in the same proportion that your value in each bears to your policy value.

We also charge interest on loans you take. The annual interest rate charged is currently 3.75% in policy years 1-10, 3.25% in policy years 11-20 and 3.00% in all years thereafter. The annual interest rate charged is guaranteed not to exceed 3.75% in policy years 1-10, 3.50% in policy years 11-20 and 3.25% in all years thereafter. Interest accrues daily but is due in arrears on each policy anniversary. If you do not pay the interest when it is due, we add it to your loan amount.

**Loan Repayment.** You may repay your loan at any time. We generally assume that payments you make are premium payments. You must tell us if you want a payment to be used to repay a loan, however, we reserve the right to treat a payment as a loan repayment.

When you make a loan repayment, we transfer an amount equal to your payment from the loan account to the subaccounts and fixed account in the same proportion as your current premium allocation.

**Effects of a Loan.** Using your policy as collateral for a loan will affect your policy in various ways. You should carefully consider the following before taking a loan:

- If you do not make loan repayments your policy could lapse if your loan amount plus accrued interest is greater than your policy value;
- Taking a loan reduces your opportunity to participate in the investment performance of the subaccounts and the interest guarantees of the fixed account;
- Accruing loan interest will change your policy value as compared to what it would have been if you did not take a loan;
- Even if you repay your loan, it will have a permanent effect on your policy value;
- After age 100 if you have a loan, loan interest continues to accrue and could cause your policy to lapse;
- If you do not repay your loan we will deduct any outstanding loan amount plus accrued loan interest from amounts payable under the policy; and
- Loans may have tax consequences and if your policy lapses with a loan outstanding, you may have further tax consequences. See *Distributions Other than Death Benefits*, page 48.

#### Transfers

You currently may make an unlimited number of transfers of your variable account value between the subaccounts and to the fixed account. Transfers are subject to any conditions, limits or charges (including redemption fees) that we or the funds whose shares are involved may impose, including:

- If your state requires a refund of premium during the free look period, you may not make transfers until after your free look period ends;
- The minimum amount you may transfer is \$100;
- If the amount remaining in the investment option after a transfer will be less than \$100, we will transfer the entire amount; and
- We may limit the number of transfers or restrict or refuse transfers because of frequent or disruptive transfers, as described below.

Any conditions or limits we impose on transfers between the subaccounts or to the fixed account will generally apply equally to all policy owners. However, we may impose different conditions or limits on third parties acting on behalf of policy owners, such as market timing services.

One transfer from the fixed account to the subaccounts of the variable account may be made only during the first 30 days of each policy year and is limited to the greater of:

- 25% of your fixed account value at the time of such transfer;
- The sum of the amounts transferred and withdrawn from the fixed account during the prior policy year; or
- \$100.

We reserve the right to liberalize these restrictions on transfers from the fixed account, depending on market conditions. Any such liberalization will generally apply equally to all policy owners. However, we may impose different restrictions on third parties acting on behalf of policy owners, such as market timing services.

We process all transfers and determine all values in connection with transfers on the valuation date we receive your request, except as described below for the dollar cost averaging or automatic rebalancing programs.

**Dollar Cost Averaging.** Anytime you have at least \$10,000 invested in a sub-account which invests in either the ING Liquid Assets Portfolio or the Neuberger Berman AMT Limited Maturity Bond Portfolio (the "source sub-account"), you may elect dollar cost averaging. There is no charge for this feature.

Dollar cost averaging is a long-term investment program through which you direct us to automatically transfer at regular intervals a specific dollar amount or percentage of subaccount value from the source subaccount to one or more of the other subaccounts. We do not permit transfers to the fixed account or the loan account under this program. You may request that the dollar cost averaging transfers occur on a monthly, quarterly, semi-annual or annual basis.

This systematic plan of transferring policy values is intended to help reduce the risk of investing too much when the price of a fund's shares is high. It also helps reduce the risk of investing too little when the price of a fund's shares is low. Because you transfer the same dollar amount to the subaccounts each period, you purchase more units when the unit value is low and you purchase fewer units when the unit value is high.

You may add dollar cost averaging to your policy at any time. The first dollar cost averaging date must be at least one day after we receive your dollar cost averaging request. If your state requires a refund of all premium received during the free look period, dollar cost averaging begins after the end of your free look period.

You may have both dollar cost averaging and automatic rebalancing at the same time. However, your dollar cost averaging source subaccount cannot be included in your automatic rebalancing program.

Dollar cost averaging does not assure a profit nor does it protect you against a loss in a declining market.

You may discontinue your dollar cost averaging program at any time. We reserve the right to discontinue, modify or suspend this program, and dollar cost averaging will automatically terminate on:

- The date you specify;
- The date your balance in the source subaccount is equal to or less than the amount to be transferred. In this situation we will transfer the entire balance of the source subaccount to the other subaccounts you have selected; or
- Any date when dollar cost averaging transfers are scheduled and the policy is in the grace period.

**Automatic Rebalancing.** Automatic rebalancing is a program for simplifying the process of asset allocation and maintaining a consistent allocation of your variable account values among your chosen subaccounts. There is no charge for this feature.

If you elect automatic rebalancing, we periodically transfer amounts among the subaccounts to match the asset allocation percentages you have chosen. This action rebalances the amounts in the subaccounts that do not match your set allocation percentages. This mismatch can happen if a subaccount outperforms another subaccount over the time period between automatic rebalancing transfers.

Automatic rebalancing may occur on the same day of the month on a monthly, quarterly, semi-annual or annual basis. If you do not specify a frequency, automatic rebalancing will occur quarterly.

The first transfer occurs on the date you select (after your free look period if your state requires return of premium during the free look period). If you do not request a date, processing is on the last valuation date of the calendar quarter in which we receive your request.

You may have both automatic rebalancing and dollar cost averaging at the same time. However, the source subaccount for your dollar cost averaging program cannot be included in your automatic rebalancing program. You may not include the fixed account or the loan account.

# Automatic rebalancing does not assure a profit nor does it protect you against a loss in a declining market.

You may change your allocation percentages for automatic rebalancing at any time. Your allocation change is effective on the valuation date that we receive it at our Customer Service Center.

You may discontinue your automatic rebalancing program at any time. We reserve the right to discontinue, modify or suspend this program, and automatic rebalancing will automatically terminate if the policy is in the grace period on any date when automatic rebalancing transfers are scheduled.

**Limits on Frequent or Disruptive Transfers.** The policy is not designed to serve as a vehicle for frequent transfers. Frequent transfer activity can disrupt management of a fund and raise its expenses through:

- Increased trading and transaction costs;
- Forced and unplanned portfolio turnover;
- Lost opportunity costs; and
- Large asset swings that decrease the fund's ability to provide maximum investment return to all policy owners.

This in turn can have an adverse effect on fund performance. Accordingly, individuals or organizations that use market-timing investment strategies or make frequent transfers should not purchase the policy.

We have an excessive trading policy and monitor transfer activity. You will violate our excessive trading policy if your transfer activity:

- Exceeds our current definition of excessive trading, as defined below;
- Is identified as problematic by an underlying fund (even if the activity does not exceed our monitoring standard for excessive trading);
- Is determined, in our sole discretion, to be disruptive due to the excessive dollar amounts involved; or
- Is determined, in our sole discretion, to be not in the best interests of other policy owners.

If we determine that you have violated our excessive trading policy, we will take the following actions. Upon the first violation, we will send to you a one time warning letter. After a second violation we will suspend your transfer privileges via facsimile, telephone, email and the internet, and your transfer privileges will be limited to submission by regular U.S. mail for a period of six months. Our suspension of your electronic transfer privileges will relate to all transfers, not just those fund(s) involved in the excessive transfer activity, and will extend to other company variable life insurance policies and variable annuity contracts that you own. It may be extended to other variable policies and contracts that are issued to you by our affiliates. At the end of the six month suspension period, your electronic transfer privileges will be reinstated. If, however, you violate our excessive trading policy again, after your electronic transfer privileges permanently. We will notify you in writing if we take any of these actions.

Additionally, if we determine that our excessive trading policy has been violated by a market-timing organization or an individual or other party that is authorized to give transfer instructions on your behalf, whether such violation relates to your policy or another owner's variable policy or contract, we will also take the following actions, without prior notice:

- Not accept transfer instructions from that organization, individual or other party; and
- Not accept preauthorized transfer forms from market timing organizations, individuals or other parties acting on behalf of more than one policy owner at a time.

Our current definition of excessive trading is more than one purchase and sale of the same underlying fund within a 30-day period. We do not count transfers associated with scheduled dollar cost averaging or automatic rebalancing programs (including reoccurring rebalancing transactions under corporate owned policies) and transfers involving certain de minimis amounts when determining whether transfer activity is excessive.

The company does not allow exceptions to our excessive trading policy. We reserve the right to modify our excessive trading policy, or the policy as it relates to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of policy owners and fund investors and/or state or federal regulatory requirements. If we modify our policy, it will be applied uniformly to all policy owners or, as applicable, to all policy owners investing in the underlying fund.

Our excessive trading policy may not be completely successful in preventing market timing or excessive trading activity. If it is not completely successful fund performance and management may be adversely affected, as noted above.

**Limits Imposed by the Funds.** Most underlying funds have their own excessive trading policies, and orders for the purchase of a fund's shares are subject to acceptance or rejection by the underlying fund. We reserve the right to reject, without prior notice, any allocation or transfer to a subaccount if the corresponding fund will not accept the allocation or transfer for any reason.

**Conversion to a Guaranteed Policy.** During the first two policy years you may permanently convert your policy to a guaranteed policy, unless state law requires differently. If you elect to make this change, unless state law requires that we issue to you a new guaranteed policy, we will permanently transfer the amounts you have invested in the subaccounts of the variable account to the fixed account and allocate all future net premium to the fixed account. After you exercise this right you may not allocate future premium payments or make transfers to the subaccounts of the variable account. We do not charge for this change. Contact our Customer Service Center or your agent/registered representative for information about the conversion rights available in your state.

#### **Partial Withdrawals**

You may withdraw part of your policy's surrender value. A partial withdrawal must be at least \$500. The maximum partial withdrawal you may take is your net policy value on the date of the partial withdrawal minus loan interest to the end of the policy year and the partial withdrawal fee. If your withdrawal request is for more than the maximum, we will require you to surrender your policy or reduce the amount of the withdrawal.

We charge a fee of \$10 for each partial withdrawal. See Partial Withdrawal Fee, page 24.

We will take partial withdrawals from the fixed account and the subaccounts of the variable account in the same proportion that your value in each has to your net policy value immediately before the withdrawal. We will determine these proportions at the end of the valuation period during which we receive your partial withdrawal request.

Unless you request otherwise, proceeds from a partial withdrawal generally will be paid into an interest bearing account which you can access, without penalty, through a checkbook feature. **See Transaction Processing, page 56.** 

**Effects of a Partial Withdrawal.** We will reduce your policy value by the amount of the partial withdrawal plus the partial withdrawal fee.

Under death benefit option 1, a partial withdrawal will reduce the amount of your insurance coverage by the amount of a partial withdrawal plus the partial withdrawal fee unless the reduction would not affect your total death benefit on the date of the withdrawal.

Under death benefit option 2, a partial withdrawal will not reduce the amount of your insurance coverage.

Under death benefit option 3, a partial withdrawal will reduce the amount of your insurance coverage by the amount that the sum of all your partial withdrawals plus the partial withdrawal fees exceeds the total premium we have received from you since the policy date, unless the reduction would not affect your total death benefit on the date of the withdrawal.

Any reduction in insurance coverage will first reduce your Term Insurance Rider coverage, if any, and then your base insurance coverage.

Any reduction in insurance coverage or policy value will occur as of the date that the partial withdrawal is processed.

If a partial withdrawal reduces the amount of insurance coverage, the amount of insurance coverage will also be reduced for the current year and all future years by an equal amount. Therefore, a partial withdrawal can affect the amount of pure insurance protection under the policy.

We will not allow a partial withdrawal if the amount of base insurance coverage after the withdrawal would be less than \$25,000.

A partial withdrawal may have adverse tax consequences depending on the circumstances. See *Tax Status of the Policy*, page 47.

### Termination of Coverage

Your insurance coverage will continue under the policy until you surrender your policy or it lapses.

#### Surrender

You may surrender your policy for its surrender value at any time after the free look period while the insured person is alive. Your surrender value is your policy value plus any refund of premium expense and base policy acquisition charges due minus any outstanding loan amount and accrued loan interest.

You may take your surrender value in other than one payment.

We compute your surrender value as of the valuation date we receive your written surrender request and policy at our Customer Service Center. All insurance coverage ends on the date we receive your surrender request and policy.

Unless you request otherwise, we will deposit your surrender value into an interest bearing account which you can access, without penalty, through a checkbook feature. See Transaction Processing, page 56.

If you surrender your policy within the first two policy years, the surrender value may include a refund of a portion of the premium expense and base policy acquisition charges previously deducted. Surrender of your policy may have adverse tax consequences. See *Distributions Other than Death Benefits*, page 48.

#### Lapse

Your policy will not lapse and your insurance coverage under the policy will continue if on any monthly processing date:

- Your net policy value is enough to pay the periodic fees and charges when due; or
- After age 100, your policy value exceeds your outstanding loan amount plus accrued loan interest.

**Grace Period.** If on a monthly processing date you do not meet any of these conditions, your policy will enter the 61-day grace period during which you must make a sufficient premium payment to avoid having your policy lapse and insurance coverage terminate.

We will notify you that your policy is in a grace period at least 30 days before it ends. We will send this notice to you (and a person to whom you have assigned your policy) at your last known address in our records. We will notify you of the premium payment necessary to prevent your policy from lapsing. This amount generally equals the past due charges, plus the estimated periodic fees and charges and charges for the optional Term Insurance Rider benefits, if applicable, for the next two months. If we receive payment of the required amount before the end of the grace period, we apply it to your policy in the same manner as your other premium payments, then we deduct the overdue amounts from your policy value.

If you do not pay the full amount within the 61-day grace period, your policy and the Term Insurance Rider, if applicable, lapse without value. We withdraw your remaining variable and fixed account values, deduct amounts you owe us and inform you that your coverage has ended.

If the insured person dies during the grace period we pay death benefit proceeds to your beneficiaries with reductions for your outstanding loan amount, accrued loan interest and periodic fees and charges owed.

If your policy lapses, any distribution of policy value may be subject to current taxation. See *Distributions Other than Death Benefits*, page 48.

#### Reinstatement

Reinstatement means putting a lapsed policy back in force. You may reinstate a lapsed policy and the Term Insurance Rider, if applicable, by written request any time within five years after the beginning of the grace period which ended with the lapse of your policy. A policy that was surrendered may not be reinstated.

To reinstate the policy and the Term Insurance Rider, if applicable, you must submit evidence of insurability satisfactory to us and pay a premium large enough to keep the policy and any rider benefits in force during the 61-day grace period and for at least two months after reinstatement. If you had a loan existing when coverage lapsed, we will reinstate it with accrued loan interest to the date of the lapse.

A policy that lapses during a seven pay testing period and is reinstated more than 90 days after lapsing may be classified as a modified endowment contract for tax purposes. In general, a seven pay testing period is the first seven policy years and the first seven years after certain changes to your policy. You should consult with a competent adviser to determine whether reinstating a lapsed policy will cause it to be classified as a modified endowment contract. **See Modified Endowment Contracts, page 48.** 

# **TAX CONSIDERATIONS**

The following summary provides a general description of the federal income tax considerations associated with the policy and does not purport to be complete or to cover federal estate, gift and generation-skipping tax implications, state and local taxes or other tax situations. This discussion is not intended as tax advice. Counsel or other qualified tax advisers should be consulted for more complete information. This discussion is based upon our understanding of the present federal income tax laws. No representation is made as to the likelihood of continuation of the present federal income tax laws or as to how they may be interpreted by the Internal Revenue Service ("IRS").

The following discussion generally assumes that the policy will qualify as a life insurance contract for federal tax purposes.

### Tax Status of the Company

We are taxed as a life insurance company under the Internal Revenue Code. The variable account is not a separate entity from us. Therefore, it is not taxed separately as a "regulated investment company," but is taxed as part of the company. We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the policy. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed to us. In addition, any foreign tax credits attributable to the separate account will first be used to reduce any income taxes imposed on the variable account before being used by the company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the variable account and we do not intend to make provisions for any such taxes. However, if changes in the federal tax laws or their interpretation result in our being taxed on income or gains attributable to the variable account, then we may impose a charge against the variable account (with respect to some or all of the policies) to set aside provisions to pay such taxes.

### Tax Status of the Policy

This policy is designed to qualify as a life insurance contract under the Internal Revenue Code. All terms and provisions of the policy shall be construed in a manner which is consistent with that design. In order to qualify as a life insurance contract for federal income tax purposes and to receive the tax treatment normally accorded life insurance contracts under federal tax law, a policy must satisfy certain requirements which are set forth in Section 7702 of the Internal Revenue Code. Specifically, the policy must meet the requirements of either the cash value accumulation test or the guideline premium test. See Death Benefit Qualification Tests, page 31. If your variable life policy does not satisfy one of these two alternate tests, it will not be treated as life insurance under Internal Revenue Code 7702. You would then be subject to federal income tax on your policy income as you earn it. While there is very little guidance as to how these requirements are applied, we believe it is reasonable to conclude that our policies satisfy the applicable requirements. If it is subsequently determined that a policy does not satisfy the applicable requirements, we will take appropriate and reasonable steps to bring the policy into compliance with such requirements and we reserve the right to restrict policy transactions or modify your policy in order to do so. See Tax Treatment of Policy Death Benefits, page 48.

### Diversification and Investor Control Requirements

In addition to meeting the Internal Revenue Code Section 7702 tests, Internal Revenue Code Section 817(h) requires investments within a separate account, such as our variable account, to be adequately diversified. The Treasury has issued regulations which set the standards for measuring the adequacy of any diversification, and the Internal Revenue Service has published various revenue rulings and private letter rulings addressing diversification issues. To be adequately diversified, each subaccount and its corresponding fund must meet certain tests. If these tests are not met, your variable life policy will not be adequately diversified and not treated as life insurance under Internal Revenue Code Section 7702. You would then be subject to federal income tax on your policy income as you earn it. Each subaccount's corresponding fund has represented that it will meet the diversification standards that apply to your policy. Accordingly, we believe it is reasonable to conclude that the diversification requirements have been satisfied. If it is determined, however, that your variable life policy does not satisfy the applicable diversification regulations, we will take appropriate and reasonable steps to bring your policy into compliance with such regulations and we reserve the right to modify your policy as necessary in order to do so.

In certain circumstances, owners of a variable life insurance policy have been considered, for federal income tax purposes, to be the owners of the assets of the separate account supporting their policies, due to their ability to exercise investment control over such assets. When this is the case, the policy owners have been currently taxed on income and gains attributable to the separate account assets. Your ownership rights under your policy are similar to, but different in some ways from those described by the IRS in rulings in which it determined that policy owners are not owners of separate account assets. For example, you have additional flexibility in allocating your premium payments and your policy values. These differences could result in the IRS treating you as the owner of a pro rata share of the variable account assets. We do not know what standards will be set forth in the future, if any, in Treasury regulations or rulings. We reserve the right to modify your policy, as necessary, to try to prevent you from being considered the owner of a pro rata share of the variable account assets, or to otherwise qualify your policy for favorable tax treatment.

### Tax Treatment of Policy Death Benefits

The death benefit, or an accelerated death benefit, under a policy is generally excludable from the gross income of the beneficiary(ies) under Section 101(a)(1) of the Internal Revenue Code. However, there are exceptions to this general rule. Additionally, federal and local transfer, estate, inheritance and other tax consequences of ownership or receipt of policy proceeds depend on the circumstances of each policy owner or beneficiary(ies). A qualified tax adviser should be consulted about these consequences.

### Distributions Other than Death Benefits

Generally, the policy owner will not be taxed on any of the policy value until there is a distribution. When distributions from a policy occur, or when loan amounts are taken from or secured by a policy, the tax consequences depend on whether or not the policy is a "modified endowment contract."

#### **Modified Endowment Contracts**

Under the Internal Revenue Code, certain life insurance contracts are classified as "modified endowment contracts" and are given less favorable tax treatment than other life insurance contracts. Due to the flexibility of the policies as to premiums and benefits, the individual circumstances of each policy will determine whether or not it is classified as a modified endowment contract. The rules are too complex to be summarized here, but generally depend on the amount of premiums we receive during the first seven policy years. Certain changes in a policy after it is issued, such as reduction or increase in benefits or policy reinstatement, could also cause it to be classified as a modified endowment contract or increase the period during which the policy must be tested. A current or prospective policy owner should consult with a qualified tax adviser to determine whether or not a policy transaction will cause the policy to be classified as a modified endowment contract.

If a policy becomes a modified endowment contract, distributions that occur during the policy year will be taxed as distributions from a modified endowment contract. In addition, distributions from a policy within two years before it becomes a modified endowment contract will be taxed in this manner. This means that a distribution made from a policy that is not a modified endowment contract could later become taxable as a distribution from a modified endowment contract.

Additionally, all modified endowment contracts that are issued by us (or our affiliates) to the same policy owner during any calendar year are treated as one modified endowment contract for purposes of determining the amount includible in the policy owner's income when a taxable distribution occurs.

Once a policy is classified as a modified endowment contract, the following tax rules apply both prospectively and to any distributions made in the prior two years:

- All distributions other than death benefits, including distributions upon surrender and withdrawals, from a modified endowment contract will be treated first as distributions of gain, if any, taxable as ordinary income. Amounts will be treated as tax-free recovery of the policy owner's investment in the policy only after all gain has been distributed. The amount of gain in the policy will be equal to the difference between the policy's value and the investment in the policy;
- Loan amounts taken from or secured by a policy classified as a modified endowment contract, and also assignments or pledges of such a policy (or agreements to assign or pledge such a policy), are treated as distributions and taxed first as distributions of gain, if any, taxable as ordinary income and as tax-free recovery of the policy owner's investment in the policy only after all gain has been distributed; and
- A 10% additional income tax penalty may be imposed on the distribution amount subject to income tax. This tax penalty generally does not apply to distributions (a) made on or after the date on which the taxpayer attains age 59½; (b) which are attributable to the taxpayer becoming disabled (as defined in the Internal Revenue Code); or (c) which are part of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the taxpayer or the joint lives (or joint life expectancies) of the taxpayer and his or her beneficiary. Consult a qualified tax adviser to determine whether or not you may be subject to this penalty tax.

#### **Policies That Are Not Modified Endowment Contracts**

Distributions other than death benefits from a policy that is not classified as a modified endowment contract are generally treated first as a recovery of the policy owner's investment in the policy. Only after the recovery of all investment in the policy is there taxable income. However, certain distributions made in connection with policy benefit reductions during the first 15 policy years may be treated in whole or in part as ordinary income subject to tax. Consult a qualified tax adviser to determine whether or not any distributions made in connection with a reduction in policy benefits will be subject to tax. Loan amounts from or secured by a policy that is not a modified endowment contract are generally not taxed as distributions. However, the tax consequences of such a loan that is outstanding after policy year ten are uncertain and a qualified tax adviser should be consulted about such loans. Finally, neither distributions from, nor loan amounts from or secured by, a policy that is not a modified endowment contract are subject to the 10% additional income tax.

#### **Investment in the Policy**

Your investment in the policy is generally the total of your aggregate premiums. When a distribution is taken from the policy, your investment in the policy is reduced by the amount of the distribution that is tax free.

### **Other Tax Matters**

#### **Policy Loans**

n general, interest on a policy loan will not be deductible. A limited exception to this rule exists for certain interest paid in connection with certain "key person" insurance. You should consult a qualified tax adviser before taking out a loan to determine whether you qualify under this exception.

Moreover, the tax consequences associated with a preferred loan (a loan where the interest rate charged is less than or equal to the interest rate credited) are uncertain. Before taking out a policy loan, you should consult a qualified tax adviser as to the tax consequences.

If a loan from a policy is outstanding when the policy is surrendered or lapses, then the amount of the outstanding indebtedness will be added to the amount treated as a distribution from the policy and will be taxed accordingly.

#### **Continuation of a Policy**

The tax consequences of continuing the policy after the insured person reaches age 100 are unclear. For example, in certain situations it is possible that after the insured person reaches age 100 the IRS could treat you as being in constructive receipt of the policy value if the policy value becomes equal to the death benefit. If this happens, an amount equal to the excess of the policy value over the investment in the policy would be includible in your income at that time. Because we believe the policy will continue to constitute life insurance at that time and the IRS has not issued any guidance on this issue, we do not intend to tax report any earnings due to the possibility of constructive receipt in this circumstance. You should consult a qualified tax adviser if you intend to keep the policy in force after the insured person reaches age 100.

#### Section 1035 Exchanges

Internal Revenue Code Section 1035 provides, in certain circumstances, that no gain or loss will be recognized on the exchange of one life insurance policy solely for another life insurance policy or an endowment or annuity contract. We accept 1035 exchanges with outstanding loans. Special rules and procedures apply to 1035 exchanges. These rules can be complex, and if you wish to take advantage of Section 1035, you should consult your qualified tax adviser.

#### **Tax-exempt Policy Owners**

Special rules may apply to a policy that is owned by a tax-exempt entity. Tax-exempt entities should consult a qualified tax adviser regarding the consequences of purchasing and owning a policy. These consequences could include an effect on the tax-exempt status of the entity and the possibility of the unrelated business income tax.

#### Tax Law Changes

Although the likelihood of legislative action or tax reform is uncertain, there is always the possibility that the tax treatment of the policy could be changed by legislation or other means. It is also possible that any change may be retroactive (that is, effective before the date of the change). You should consult a qualified tax adviser with respect to legislative developments and their effect on the policy.

#### Policy Changes to Comply with the Law

So that your policy continues to qualify as life insurance under the Internal Revenue Code, we reserve the right to refuse to accept all or part of your premium payments or to change your death benefit. We may refuse to allow you to make partial withdrawals that would cause your policy to fail to qualify as life insurance. We also may make changes to your policy or its riders or make distributions from your policy to the degree that we deem necessary to qualify your policy as life insurance for tax purposes.

If we make any change of this type, it applies the same way to all affected policies.

Any increase in your death benefit will cause an increase in your cost of insurance charges.

#### **Policy Availability and Qualified Plans**

The policy is not available for sale to and cannot be acquired with funds that are assets of (i) an employee benefit plan as defined in Section 3(3) of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and that is subject to Title I of ERISA; (ii) a plan described in Section 4975(e)(1) of the Internal Revenue Code; or (iii) an entity whose underlying assets include plan assets by reason of the investment by an employee benefit plan or other plan in such entity within the meaning of 29 C.F.R. Section 2510.3-101 or otherwise.

Policy owners may use the policy in various other arrangements, including:

- Non-qualified deferred compensation or salary continuance plans;
- Split dollar insurance plans;
- Executive bonus plans;
- Retiree medical benefit plans; and
- Other plans.

The tax consequences of these plans may vary depending on the particular facts and circumstances of each arrangement. If you want to use your policy with any of these various arrangements, you should consult a qualified tax adviser regarding the tax issues of your particular arrangement.

#### Life Insurance Owned by Businesses

In recent years, Congress has adopted new rules relating to life insurance owned by businesses. For example, in the case of a policy issued to a nonnatural taxpayer, or held for the benefit of such an entity, a portion of the taxpayer's otherwise deductible interest expenses may not be deductible as a result of ownership of a policy even if no loans are taken under the policy. (An exception to this rule is provided for certain life insurance contracts which cover the life of an individual who is a 20% owner, or an officer, director, or employee of a trade or business.) As another example, special rules apply if you are subject to the alternative minimum tax. Any business contemplating the purchase of a new policy or a change in an existing policy should consult a qualified tax adviser.

#### **Income Tax Withholding**

The IRS requires us to withhold income taxes from any portion of the amounts individuals receive in a taxable transaction. We generally do not withhold income taxes if you elect in writing not to have withholding apply. If the amount withheld for you is insufficient to cover income taxes, you will have to pay income taxes and possibly penalties later.

#### **Policy Transfers**

The transfer of the policy or designation of a beneficiary may have federal, state and/or local transfer and inheritance tax consequences, including the imposition of gift, estate and generation-skipping transfer taxes. The individual situation of each policy owner or beneficiary will determine the extent, if any, to which federal, state and local transfer and inheritance taxes may be imposed and how ownership or receipt of policy proceeds will be treated for purposes of federal, state and local estate, inheritance, generation skipping and other taxes.

You should consult qualified legal or tax advisers for complete information on federal, state, local and other tax considerations.

# ADDITIONAL INFORMATION

### **General Policy Provisions**

### **Your Policy**

The policy is a contract between you and us and is the combination of:

- Your policy;
- A copy of your original application and applications for benefit increases or decreases;
- Your Term Insurance Rider, if applicable;
- Your endorsements;
- Your policy schedule pages; and
- Your reinstatement applications.

If you make a change to your coverage, we give you a copy of your changed application and new policy schedules. If you send your policy to us, we attach these items to your policy and return it to you. Otherwise, you need to attach them to your policy.

Unless there is fraud, we consider all statements made in an application to be representations and not guarantees. We use no statement to deny a claim, unless it is in an application.

A president or other officer of our company and our secretary or assistant secretary must sign all changes or amendments to your policy. No other person may change its terms or conditions.

### **Guaranteed and Simplified Issue Underwriting**

We may offer policies on a guaranteed issue or simplified issue underwriting basis for certain individuals, groups or sponsored arrangements. We issue these policies up to a preset face amount with reduced evidence of insurability. These policies carry different cost of insurance rates for than fully underwritten policies. The cost of insurance rates under these circumstances may depend on the:

- The basis for underwriting the policies;
- Issue age of the insured person; and
- Risk class of the insured person.

Generally, most guaranteed issue and simplified issue policies have higher overall charges for insurance than similar fully underwritten policies issued in the standard rate classes. This means that an insured person in a group or sponsored arrangement could get individual fully underwritten insurance coverage at a lower overall cost.

#### Age

We issue your policy at the insured person's age (stated in your policy schedule) based on the nearest birthday to the policy date. On the policy date, the insured person can generally be no younger than age 20 and no older than age 75.

We often use age to calculate rates, charges and values. We determine the insured person's age at a given time by adding the number of completed policy years to the age calculated at issue and shown in the schedule.

#### **Ownership**

The original owner is the person named as the owner in the policy application. The owner can exercise all rights and receive benefits during the life of the insured person. These rights include the right to change the owner, beneficiaries or the method designated to pay death benefit proceeds.

As a matter of law, all rights of ownership are limited by the rights of any person who has been assigned rights under the policy and any irrevocable beneficiaries.

You may name a new owner by giving us written notice. The effective date of the change to the new owner is the date the prior owner signs the notice. However, we will not be liable for any action we take before a change is recorded at our Customer Service Center. A change in ownership may cause the prior owner to recognize taxable income on gain under the policy.

#### **Beneficiaries**

You, as owner, name the beneficiaries when you apply for your policy. The primary beneficiaries who survive the insured person receive the death benefit proceeds. Other surviving beneficiaries receive death benefit proceeds only if there are no surviving primary beneficiaries. If more than one beneficiary survives the insured person, they share the death benefit proceeds equally, unless you specify otherwise. If none of your policy beneficiaries has survived the insured person, we pay the death benefit proceeds to you or to your estate, as owner.

You may name new beneficiaries during the insured person's lifetime. We pay death benefit proceeds to the beneficiaries whom you have most recently named according to our records. We do not make payments to multiple sets of beneficiaries. **The designation of certain beneficiaries may have tax consequences.** See *Other Tax Matters*, page 50.

#### **Collateral Assignment**

You may assign your policy by sending written notice to us. After we record the assignment, your rights as owner and the beneficiaries' rights (unless the beneficiaries were made irrevocable beneficiaries under an earlier assignment) are subject to the assignment. It is your responsibility to make sure the assignment is valid. The transfer or assignment of a policy may have tax consequences. See Other Tax Matters, page 50.

#### Incontestability

After your policy has been in force and the insured person is alive for two years from (1) the policy date, (2) the effective date of an increase in any other benefit or (3) reinstatement, we will not question the validity of statements in your applicable application.

#### Misstatements of Age or Gender

Notwithstanding the Incontestability provision above, if the insured person's age or gender has been misstated, we adjust the death benefit to the amount which would have been purchased for the insured person's correct age and gender. We base the adjusted death benefit on the cost of insurance charges deducted from your policy value on the last monthly processing date before the insured person's death, or as otherwise required by law.

If unisex cost of insurance rates apply, we do not make any adjustments for a misstatement of gender.

#### Suicide

If the insured person commits suicide (while sane or insane), within two years of your policy date, unless otherwise required by law, we limit death benefit proceeds to:

- The total premium we receive to the time of death; minus
- Outstanding loan account value plus accrued loan interest; minus
- Partial withdrawals taken.

We make a limited payment to the beneficiaries for any increase if the insured person commits suicide (while sane or insane), within two years of the effective date of any increase in any other benefit, unless otherwise required by law. The limited payment is equal to the cost of insurance and periodic fees and charges which were deducted for the increase.

#### **Anti-Money Laundering**

In order to protect against the possible misuse of our products in money laundering or terrorist financing, we have adopted an anti-money laundering program satisfying the requirements of the USA PATRIOT Act. Among other things, this program requires us, our agents and customers to comply with certain procedures and standards that serve to assure that our customers' identities are properly verified and that premiums are not derived from improper sources.

Under our anti-money laundering program, we may require policy owners, insured persons and/or beneficiaries to provide sufficient evidence of identification, and we reserve the right to verify any information provided to us by accessing information databases maintained internally or by outside firms.

We may also refuse to accept certain forms of premium payments or loan repayments (traveler's cheques, for example) or restrict the amount of certain forms of premium payments or loan repayments (money orders totaling more than \$5,000, for example). In addition, we may require information as to why a particular form of payment was used (third party checks, for example) and the source of the funds of such payment in order to determine whether or not we will accept it. Use of an unacceptable form of payment may result in us returning the payment to you and your policy either entering the 61-day grace period or lapsing. See Lapse, page 45. See also Premium Payments Affect Your Coverage, Page 22.

Applicable laws designed to prevent terrorist financing and money laundering might, in certain circumstances, require us to block certain transactions until authorization is received from the appropriate regulator. We may also be required to provide additional information about you and your policy to government regulators.

Our anti-money laundering program is subject to change without notice to take account of changes applicable in laws or regulations and our ongoing assessment of our exposure to illegal activity.

#### **Transaction Processing**

Generally, within seven days of when we receive all information required to process a payment, we pay:

- Death benefit proceeds;
- Surrender value;
- Partial withdrawals; and
- Loan proceeds.

We may delay processing these transactions if:

- The New York Stock Exchange is closed for trading;
- Trading on the New York Stock Exchange is restricted by the SEC;
- There is an emergency so that it is not reasonably possible to sell securities in the subaccounts or to determine the value of a subaccount's assets; and
- A governmental body with jurisdiction over the variable account allows suspension by its order.

SEC rules and regulations generally determine whether or not these conditions exist. We execute transfers among the subaccounts as of the valuation date of our receipt of your request at our Customer Service Center.

We determine the death benefit as of the date of the insured person's death. The death benefit proceeds are not affected by subsequent changes in the value of the subaccounts.

We may delay payment from our fixed account for up to six months, unless law requires otherwise, of surrender proceeds, withdrawal amounts or loan amounts. If we delay payment more than 30 days, we pay interest at our declared rate (or at a higher rate if required by law) from the date we receive your complete request.

Unless you request otherwise, we generally pay death benefit proceeds, surrender value and partial withdrawals into an interest bearing account which may be accessed by you or the beneficiary, as applicable, through a checkbook feature. This interest bearing account is backed by our general account, and the checkbook feature may be used to access the payment at any time without penalty.

#### **Notification and Claims Procedures**

Except for certain authorized telephone requests, we must receive in writing any election, designation, change, assignment or request made by the owner.

You must use a form acceptable to us. We are not liable for actions taken before we receive and record the written notice. We may require you to return your policy for changes to your policy or if you surrender it.

If the insured person dies while your policy is in force, please let us know as soon as possible. We will send you instructions on how to make a claim. As proof of the insured person's death, we may require proof of the deceased insured person's age and a certified copy of the death certificate.

The beneficiaries and the deceased insured person's next of kin may need to sign authorization forms. These forms allow us to get information such as medical records of doctors and hospitals used by the deceased insured person.

#### **Telephone Privileges**

Telephone privileges are automatically provided to you and your agent/registered representative, unless you decline it on the application or contact our Customer Service Center. Telephone privileges allow you or your agent/registered representative to call our Customer Service Center to:

- Make transfers;
- Change premium allocations;
- Change your dollar cost averaging and automatic rebalancing programs;
- Request partial withdrawals; and
- Request a loan.

Our Customer Service Center uses reasonable procedures to make sure that instructions received by telephone are genuine. These procedures may include:

- Requiring some form of personal identification;
- Providing written confirmation of any transactions; and
- Tape recording telephone calls.

By accepting telephone privileges, you authorize us to record your telephone calls with us. If we use reasonable procedures to confirm instructions, we are not liable for losses from unauthorized or fraudulent instructions. We may discontinue this privilege at any time. See Limits on Frequent or Disruptive Transfers, page 42.

Telephone and facsimile privileges may not always be available. Telephone or fax systems, whether yours, your service provider's or your agent's, can experience outages or slowdowns for a variety of reasons. These outages or slowdowns may prevent or delay our receipt of your request. Although we have taken precautions to help our systems handle heavy use, we cannot promise complete reliability under all circumstances. If you are experiencing problems, you should make your transfer request by written request.

#### **Non-Participation**

Your policy does not participate in the surplus earnings of Security Life of Denver Insurance Company.

#### **Advertising Practices and Sales Literature**

We may use advertisements and sales literature to promote this product, including:

- Articles on variable life insurance and other information published in business or financial publications;
- Indices or rankings of investment securities; and
- Comparisons with other investment vehicles, including tax considerations.

We may use information regarding the past performance of the subaccounts and funds. Past performance is not indicative of future performance of the subaccounts or funds and is not reflective of the actual investment experience of policy owners.

We may feature certain subaccounts, the underlying funds and their managers, as well as describe asset levels and sales volumes. We may refer to past, current, or prospective economic trends, and, investment performance or other information we believe may be of interest to our customers.

#### **Settlement Options**

You may elect to take the surrender value in other than one lump-sum payment. Likewise, you may elect to have the beneficiaries receive the death benefit proceeds other than in one lump-sum payment, if you make this election during the insured person's lifetime. If you have not made this election, the beneficiaries may do so within 60 days after we receive proof of the insured person's death.

The investment performance of the subaccounts does not affect payments under these settlement options. Instead, interest accrues at a fixed rate based on the option you choose. Payment options are subject to our rules at the time you make your selection. Currently, a periodic payment must be at least \$20 and the total proceeds must be at least \$2,000.

The following settlement options are available:

- **Option 1** The proceeds and interest are paid in equal installments for a specified period until the proceeds and interest are all paid;
- **Option 2** The proceeds provide an annuity payment with a specified number of months. The payments are continued for the life of the primary payee. If the primary payee dies before the certain period is over, the remaining payments are paid to a contingent payee;
- **Option 3** The proceeds are left with us to earn interest. Withdrawals and any changes are subject to our approval;
- **Option 4** The proceeds and interest are paid in equal installments of a specified amount until the proceeds and interest are all paid; and
- **Option 5** Other options we offer at the time we pay the benefit.

If none of these settlement options have been elected, your surrender value or the death benefit proceeds will be paid in one lump-sum payment.

Unless you request otherwise, death benefit proceeds generally will be paid into an interest bearing account which is backed by our general account and can be accessed by the beneficiary through a checkbook feature. Interest earned on this account may be less than interest paid under other settlement options. See Transaction Processing, page 56.

#### **Reports**

**Annual Statement.** We will send you an annual statement once each policy year showing the amount of insurance coverage under your policy as well as your policy's death benefit, policy and surrender values, the amount of premiums you have paid, the amounts you have withdrawn, borrowed or transferred and the fees and charges we have imposed since the last statement.

We send semi-annual reports with financial information on the funds, including a list of investment holdings of each fund.

We send confirmation notices to you throughout the year for certain policy transactions such as transfers between investment options, partial withdrawals and loans. You are responsible for reviewing the confirmation notices to verify that the transactions are being made as requested.

**Illustrations.** To help you better understand how your policy values will vary over time under different sets of assumptions, we will provide you with a personalized illustration projecting future results based on the age and risk classification of the insured person and other factors such as the amount of insurance coverage, death benefit option, planned premiums and rates of return (within limits) you specify. We may assess a charge not to exceed \$25 for each illustration you request after the first in a policy year. **See Excess Illustration Fee, page 24.** Subject to regulatory approval, personalized illustrations may be based upon a weighted average rather than an arithmetic average of fund expenses.

**Other Reports.** We will mail to you at your last known address of record at least annually a report containing such information as may be required by any applicable law. To reduce expenses, only one copy of most financial reports and prospectuses, including reports and prospectuses for the funds, will be mailed to your household, even if you or other persons in your household have more than one policy issued by us or an affiliate. Call our Customer Service Center toll-free at 1-877-253-5050 if you need additional copies of financial reports, prospectuses, historical account information or annual or semi-annual reports or if you would like to receive one copy for each policy in all future mailings.

### Distribution of the Policies

The company's affiliate, ING America Equities, Inc., serves as the principal underwriter (distributor) for the policies. ING America Equities, Inc. was organized under the laws of the State of Colorado on September 27, 1993 and is registered as a broker/dealer with the SEC and the NASD. We pay ING America Equities, Inc. under a distribution agreement dated May 1, 2002. ING America Equities, Inc.'s principal office is located at 1290 Broadway, Denver, Colorado 80203-5699.

ING America Equities, Inc. offers the securities under the policies on a continuous basis. For the years ended December 31, 2005, 2004 and 2003, the aggregate amount of underwriting commissions paid to ING America Equities, Inc. was \$27,968,918 \$29,625,725 and \$26,860,876, respectively.

We sell our policies through licensed insurance agents who are registered representatives of affiliated and unaffiliated broker/dealers. All broker/dealers who sell the policy have entered into selling agreements with us and ING America Equities, Inc., the principal underwriter/distributor of the policies. Under these selling agreements, we pay the broker/dealers for selling the policy, and part of that payment goes to your agent/registered representative.

The amounts that we pay for the sale of the policy can generally be categorized as either commissions or other amounts. The commissions we pay can be further categorized as base commissions (which may include a portion for wholesaling commissions) and supplemental commissions.

Base commissions consist of a percentage of premium we receive for the policy up to the target premium amount, a percentage of premium we receive for the policy in excess of the target premium amount and, as a trail commission, a percentage of your average net policy value. The percentages we pay may vary depending on the particular payment option selected. The option with the largest percentage of target premium pays up to 35% of target premium received during the first policy year, 2% of premium received in excess of target premium, and 0.20% of the average net policy value beginning in the eleventh policy year. These percentages reflect the amounts we will pay in the first policy year and the percentages may decrease thereafter.

A portion of the base commission may be used to pay wholesaling commissions, which are based on a percentage of the cumulative target premium we receive for the policy and certain other designated insurance products issued by the company and/or its affiliates during a calendar year.

Generally, the commissions paid on premiums for base coverage under the policy are greater than those paid on premiums for coverage under the Term Insurance Rider. Be aware of this and discuss with your agent/registered representative the right blend of base coverage and Term Insurance Rider coverage for you.

In addition to these commissions, we may also pay other amounts to broker/dealers and/or their agents/registered representatives. These amounts may include:

- Marketing/distribution allowances based on the percentages of premium received and the aggregate commissions paid on certain types of designated insurance products issued by the company and/or its affiliates during the year;
- Loans. These loans may have advantageous terms such as reduction or elimination of the interest charged on the loan and/or forgiveness of the principal amount of the loan, which terms may be conditioned on fixed insurance product sales;
- Advances of commissions in anticipation of future receipt of premiums (a form of lending to agents/registered representatives);
- Education and training allowances to facilitate our attendance at certain educational and training meetings to provide information and training about our products. We also hold training programs from time to time at our own expense;
- Sponsor payments or reimbursements for broker/dealers to use in sales contests for their agents/registered representatives. We do not hold contests based solely on sales of this product;
- Certain overrides and other benefits which may include cash compensation based on the amount of earned commissions, agent/representative recruiting or other activities that promote the sale of policies; and
- Additional cash or noncash compensation and reimbursements permissible under existing law. This may include, but is not limited to, cash incentives, merchandise, trips, occasional entertainment, meals and tickets to sporting events, client appreciation events, business and educational enhancement items, payment for travel expenses (including meals and lodging) to pre-approved training and education seminars, and payment for advertising and sales campaigns.

We pay commissions, other amounts and the costs of all other incentives or training programs from our resources which include the policy's fees and charges.

The following list shows the top 25 selling firms that, during 2005, received the most, in the aggregate, from us in connection with the sale of all of our variable life insurance policies, ranked by total dollars received:

- NFP Securities
- Waterstone Financial Group
- ING Financial Partners, Inc
- Capital Analysts Incorporated.
- Multi-Financial Sec. Corp.
- M Holdings Securities, Inc.
- Linsco/Private Ledger Corp.
- Ogilvie Security Advisors Corp.
- Securities America, Inc.
- ValMark Securities, Inc.
- AmSouth Investment Services, Inc.
- American General Securities

- Jefferson Pilot Securities Corporation
- SII Investments, Inc.
- InterSecurities, Inc.
- UBS Financial Services Inc.
- Securities Service Network, Inc.
- TBG Financial & Insurance Services Corp.
- Prospera Financial Services
- National Planning Corporation
- H. Beck, Inc.
- Leaders Group, Inc.
- RA Bench Securities, Inc.
- Presidio Financial Services, Inc.
- Woodbury Financial Services, Inc.

### Legal Proceedings

We are not aware of any pending legal proceedings which involve the variable account as a party.

The company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitrations, suits against the company sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the company's operations or financial position.

ING America Equities, Inc., the principal underwriter and distributor of the policy, is a party to threatened or pending lawsuits/arbitration that generally arise from the normal conduct of business. Some of these suits may seek class action status and sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. ING America Equities, Inc. is not involved in any legal proceeding which, in the opinion of management, is likely to have a material adverse affect on its ability to distribute the policy.

### **Financial Statements**

Financial statements of the variable account and the company are contained in the Statement of Additional Information. To request a free Statement of Additional Information, please contact our Customer Service Center at the address or telephone number on the back of this prospectus.

# **APPENDIX A**

#### **Definition of Life Insurance Factors**

Attained									
Age	Factor								
0-40	2.50	49	1.91	58	1.38	67	1.18	91	1.04
41	2.43	50	1.85	59	1.34	68	1.17	92	1.03
42	2.36	51	1.78	60	1.30	69	1.16	93	1.02
43	2.29	52	1.71	61	1.28	70	1.15	94	1.01
44	2.22	53	1.64	62	1.26	71	1.13	95 - 99	1.00

47	2.03	56	1.46	65	1.20	74	1.07		
48	1.97	57	1.42	66	1.19	75 - 90	1.05		

#### **Guideline Premium Test Factors**

#### **Cash Value Accumulation Test Factors**

The cash value accumulation test factors vary depending on the age and gender of the insured person.

Generally, the cash value accumulation test requires that a policy's death benefit must be sufficient so that the policy value does not at any time exceed the net single premium required to fund the policy's future benefits. The net single premium for a policy is calculated using the greater of 4.00% or the rates of interest guaranteed in the fixed account of the policy and the 1980 Commissioner's Standard Ordinary Mortality Table and will vary according to the age, risk class and gender (unless unisex rates apply) of the insured person. The factors for the cash value accumulation test are then equal to 1 divided by the applicable net single premium per dollar of paid up whole life insurance.

# **APPENDIX B**

### **Funds Available Through the Variable Account**

The following chart lists the funds that are currently available through the subaccounts of the variable account, along with each fund's investment adviser/subadviser and investment objective. More detailed information about the funds can be found in the current prospectus and Statement of Additional Information for each fund.

There is no assurance that the stated objectives and policies of any of the funds will be achieved. Shares of the funds will rise and fall in value and you could lose money by allocating premium to the subaccounts which invest in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency. Except as noted, all funds are diversified, as defined under the 1940 Act.

\* Prior to April 28, 2006, the Service Class shares of this fund were available through your variable life insurance policy. Effective April 28, 2006, the Institutional Class of fund shares will replace the Service Class of fund shares. Institutional Class shares have 0.25% lower total fund expenses than the Service Class shares, and the effect of this transaction is to give policy owners an investment in the same fund managed by the same investment adviser at a lower cost.

# **APPENDIX C**

# **INFORMATION REGARDING SUBACCOUNT CLOSINGS**

Effective April 28, 2006, we are closing to new investment the subaccounts which invest in the following funds:

- Fidelity<sup>®</sup> VIP Investment Grade Bond Portfolio (Initial Class)
- ING Lord Abbett Affiliated Portfolio (Class I)
- ING Mercury Large Cap Value Portfolio (Class I)
- ING MFS Mid Cap Growth Portfolio (Class I)
- ING Van Kampen Equity Growth Portfolio (Class I)
- ING American Century Large Company Value Portfolio (Initial Class)
- ING American Century Select Portfolio (Initial Class)
- ING American Century Small-Mid Cap Value Portfolio (Initial Class)
- ING Fundamental Research Portfolio (Initial Class)
- ING Legg Mason Aggressive Growth Portfolio (Initial Class)
- ING Strategic Allocation Conservative Portfolio (Class 1)
- ING Strategic Allocation Growth Portfolio (Class I)
- ING Strategic Allocation Moderate Portfolio (Class I)
- ING VP MidCap Opportunities Portfolio (Class I)
- ING VP Value Opportunity Portfolio (Class I)

Policy owners who have policy value allocated to one or more of the subaccounts which correspond to these funds may leave their policy value in those subaccounts, but future allocations and transfers into those subaccounts are prohibited. If your most recent premium allocation instructions includes a subaccount which corresponds to one of these funds, premium received after April 28, 2006, which would have been allocated to a subaccount corresponding to one of these funds will be allocated on a pro rata basis among all the other available subaccounts in which your policy value is allocated. If there are no other such subaccounts, you must provide us with alternative allocation instructions or the premium payment will be returned to you. Your failure to provide us with alternative allocation instructions and our return of your premium payment(s) may result in your policy entering the 61 day grace period and/or your policy lapsing without value. **See Lapse, page 45.** 

# MORE INFORMATION IS AVAILABLE

If you would like more information about us, the variable account or the policy, the following documents are available free upon request:

• Statement of Additional Information ("SAI") - The SAI contains more specific information about the variable account and the policy, as well as the financial statements of the variable account and the company. The SAI is incorporated by reference into (made legally part of) this prospectus. The following is the Table of Contents for the SAI:

	Page
General Information and History	2
Performance Reporting and Advertising	2
Experts	4
Financial Statements	4
Financial Statements of Security Life Separate Account L1	1
Statutory-Basis Financial Statements of Security Life of Denver Insurance Company	1

• A personalized illustration of policy benefits - A personalized illustration can help you understand how the policy works, given the policy's fees and charges along with the investment options, features and benefits and optional benefits you select. A personalized illustration can also help you compare the policy's death benefits, policy value and surrender value with other life insurance policies based on the same or similar assumptions. We reserve the right to assess a fee of up to \$25 for each personalized illustration you request after the first each policy year. See Excess Illustration Fee, page 24.

To request a free SAI or personalized illustration of policy benefits or to make other inquiries about the policy, please contact us at our:

Customer Service Center P.O. Box 724927 Atlanta, GA 30119 1-866-790-1988

Additional information about us, the variable account or the policy (including the SAI) can be reviewed and copied from the SEC's Internet website (http://www.sec.gov) or at the SEC's Public Reference Branch in Washington, DC. Copies of this additional information may also be obtained, upon payment of a duplicating fee, by writing the SEC's Public Reference Branch at 100 F Street, NE, Room 1580, Washington, DC 20549. More information about operation of the SEC's Public Reference Branch can be obtained by calling 202-551-5850. When looking for information regarding the policy offered through this prospectus, you may find it useful to use the number assigned to the registration statement under the 1933 Act. This number is 333-120889.

# PART B INFORMATION REQUIRED IN A STATEMENT OF ADDITIONAL INFORMATION

# SECURITY LIFE SEPARATE ACCOUNT L1 OF SECURITY LIFE OF DENVER INSURANCE COMPANY

#### Statement of Additional Information dated April 28, 2006

#### ING CORPORATE ADVANTAGE Variable Universal Life Insurance Policy

This Statement of Additional Information is not a prospectus and should be read in conjunction with the current ING Corporate Advantage VUL prospectus dated April 28, 2006. The policy offered in connection with the prospectus is a flexible premium variable universal life insurance policy funded through the Security Life Separate Account L1.

A free prospectus is available upon request by contacting the Security Life of Denver Insurance Company's customer service center at P.O. Box 724927, Atlanta, GA 30119, by calling 1-866-790-1988, or by accessing the SEC's website at http://www.sec.gov.

Read the prospectus before you invest. Unless otherwise indicated, terms used in this Statement of Additional Information shall have the same meaning as in the prospectus.

Financial Statements	4
Financial Statements of Security Life Separate Account L1	1
Financial Statements - Statutory Basis of Security Life of Denver Insurance Company	1

#### **GENERAL INFORMATION AND HISTORY**

Security Life of Denver Insurance Company (the "company," "we," "us," "our") issues the policy described in the prospectus and is responsible for providing each policy's insurance benefits. We are a stock life insurance company organized in 1929 and incorporated under the laws of the State of Colorado and an indirect, wholly owned subsidiary of ING Groep N.V. ("ING"), a global financial institution active in the fields of insurance, banking and asset management. ING is headquartered in Amsterdam, The Netherlands. We are engaged in the business of issuing insurance policies. Our headquarters is at 1290 Broadway, Denver, Colorado 80203-5699.

We established the Security Life Separate Account L1 (the "variable account") on November 3, 1993, as one of our separate accounts under the laws of the State of Colorado for the purpose of funding variable life insurance policies issued by us. The variable account is registered with the Securities and Exchange Commission ("SEC") as a unit investment trust under the Investment Company Act of 1940, as amended. Premium payments may be allocated to one or more of the available sub-accounts of the variable account. Each sub-account invests in shares of a corresponding fund at net asset value. We may make additions to, deletions from or substitutions of available funds as permitted by law and subject to the conditions of the policy.

Other than the policy owner fees and charges described in the prospectus, all expenses incurred in the operations of the variable account are borne by the company. We do, however, receive compensation for certain recordkeeping, administration or other services from the funds or affiliates of the funds available through the policies. See Fund Fees and Expenses, page 27, in the prospectus.

The company maintains custody of the assets of the variable account. As custodian, the company holds cash balances for the variable account pending investment in the funds or distribution. The funds in whose shares the assets of the sub-accounts of the variable account are invested each have custodians, as discussed in the respective fund prospectuses.

#### PERFORMANCE REPORTING AND ADVERTISING

Information regarding the past, or historical, performance of the sub-accounts of the variable account and the funds available for investment through the sub-accounts of the variable account may appear in advertisements, sales literature or reports to policy owners or prospective purchasers. SUCH PERFORMANCE INFORMATION FOR THE SUB-ACCOUNTS WILL REFLECT THE DEDUCTION OF ALL FUND FEES AND CHARGES, INCLUDING INVESTMENT MANAGEMENT FEES, DISTRIBUTION (12B-1) FEES AND OTHER EXPENSES BUT WILL NOT REFLECT DEDUCTIONS FOR ANY POLICY FEES AND CHARGES. IF THE POLICY'S PREMIUM EXPENSE, COST OF INSURANCE, MORTALITY AND EXPENSE RISK, POLICY AND ADMINISTRATIVE CHARGES AND THE OTHER TRANSACTION, PERIODIC OR OPTIONAL BENEFITS FEES AND CHARGES WERE DEDUCTED, THE PERFORMANCE SHOWN WOULD BE SIGNIFICANTLY LOWER.

With respect to performance reporting it is important to remember that past performance does not guarantee future results. Current performance may be higher or lower than the performance shown and actual investment returns and principal values will fluctuate so that shares and/or units, at redemption, may be worth more or less than their original cost.

Performance history of the sub-accounts of the variable account and the corresponding funds is measured by comparing the value at the beginning of the period to the value at the end of the period. Performance is usually calculated for periods of one month, three months, year-to-date, one year, three years, five years, ten years (if the fund has been in existence for these periods) and since the inception date of the fund (if the fund has been in existence for less than ten years). We may provide performance information showing average annual total returns for periods prior to the date a sub-account commenced operation. We will calculate such performance information based on the assumption that the sub-accounts were in existence for the same periods as those indicated for the funds, with the level of charges at the variable account level that were in effect at the inception of the sub-accounts. Performance information will be specific to the class of fund shares offered through the policy, however, for periods prior to the date a class of fund shares commenced operations, performance information may be based on a different class of shares of the same fund. In this case, performance for the periods prior to the date a class of fund shares commenced operations will be adjusted by the fund fees and expenses associated with the class of fund shares offered through the policy.

We may compare performance of the sub-accounts and/or the funds as reported from time to time in advertisements and sales literature to other variable life insurance issuers in general; to the performance of particular types of variable life insurance policies investing in mutual funds; or to investment series of mutual funds with investment objectives similar to each of the sub-accounts, whose performance is reported by Lipper Analytical Services, Inc. ("Lipper") and Morningstar. Inc. ("Morningstar") or reported by other series, companies, individuals or other industry or financial publications of general interest, such as *Forbes, Money, The Wall Street Journal, Business Week, Barron's, Kiplinger's* and *Fortune*. Lipper and Morningstar are independent services which monitor and rank the performances of variable life insurance issuers in each of the major categories of investment objectives on an industry-wide basis.

Lipper's and Morningstar's rankings include variable annuity issuers as well as variable life insurance issuers. The performance analysis prepared by Lipper and Morningstar ranks such issuers on the basis of total return, assuming reinvestment of distributions, but does not take sales charges, redemption fees or certain expense deductions at the separate account level into consideration. We may also compare the performance of each sub-account in advertising and sales literature to the Standard & Poor's Index of 500 common stocks and the Dow Jones Industrials, which are widely used measures of stock market performance. We may also compare the performance of each sub-account to other widely recognized indices. Unmanaged indices may assume the reinvestment of dividends, but typically do not reflect any "deduction" for the expense of operating or managing an investment portfolio.

To help you better understand how your policy's death benefits, policy value and surrender value will vary over time under different sets of assumptions, we encourage you to obtain a personalized illustration. Personalized illustrations will assume deductions for fund expenses and policy and variable account charges. We will base these illustrations on the age and risk classification of the insured person and other factors such as the amount of insurance coverage, death benefit option, premiums and rates of return (within limits) you specify. These personalized illustrations will be based on either a hypothetical investment return of the funds of 0% and other percentages not to exceed 12% or on the actual historical experience of the funds as if the sub-accounts had been in existence and a policy issued for the same periods as those indicated for the funds. Subject to regulatory approval, personalized illustrations may be based upon a weighted average of fund expenses rather than an arithmetic average. A personalized illustration is available upon request by contacting our Customer Service Center at P.O. Box 5065, Minot, ND 58702-5065 or by calling 1-877-253-5050.

#### **EXPERTS**

The statements of assets and liabilities of the Security Life Separate Account L1 as of December 31, 2005, and the related statements of operations for the year then ended, and the statements of changes in net assets for each of the two years in the period then ended, and the statutory-basis financial statements of Security Life of Denver Insurance Company as of December 31, 2005 and 2004, and for the years then ended, appearing in this Statement of Additional Information, have been audited by Ernst & Young LLP, independent registered public accounting firm, as set forth in their reports thereon appearing elsewhere herein, and are included in reliance on such reports given on the authority of such firm as experts in accounting and auditing.

#### FINANCIAL STATEMENTS

The financial statements of the variable account reflect the operations of the variable account as of and for the year ended December 31, 2005, and have been audited by Ernst & Young LLP, independent registered public accounting firm.

The statutory-basis financial statements of the company as of December 31, 2005 and 2004, and for the years then ended have been audited by Ernst & Young LLP, independent registered public accounting firm. The financial statements of the company should be distinguished from the financial statements of the variable account and should be considered only as bearing upon the ability of the company to meet its obligations under the policies. They should not be considered as bearing on the investment performance of the assets held in the variable account. The statutory-basis financial statements of the company as of December 31, 2005 and 2004, and for the years then ended have been prepared on the basis of statutory accounting practices prescribed or permitted by the State of Colorado Division of Insurance.

The primary business address of Ernst & Young LLP is Suite 2800, 600 Peachtree Street, Atlanta, GA 30308-2215.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Account's internal control over financial reporting. Our audits include consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Account's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2005, by correspondence with the transfer agents. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the respective Divisions constituting Security Life of Denver Insurance Company Separate Account L1 at December 31, 2005, the results of their operations and changes in their net assets for the periods disclosed in the financial statements, in conformity with U.S. generally accepted accounting principles.

#### 1. Organization

Security Life of Denver Insurance Company Separate Account L1 (the "Account") was established on November 3, 1993, by Security Life of Denver Insurance Company ("SLD" or the "Company") to support the operations of variable universal life policies ("Policies"). The Company is a wholly owned subsidiary of ING America Insurance Holdings ("ING AIH"), an insurance holding company domiciled in the State of Delaware. ING AIH is an indirect wholly owned subsidiary of ING Groep, N.V., a global financial services holding company based in The Netherlands.

The Account supports the operations of the FirstLine Variable Universal Life, FirstLine II Variable Universal Life, Strategic Advantage Variable Universal Life, Strategic Advantage II Variable Universal Life, Variable Survivorship Universal Life, Corporate Benefits Variable Universal Life, Strategic Benefits Variable Universal Life, Asset Portfolio Manager Variable Universal Life, and Estate Designer Variable Universal Life, Asset Accumulator Variable Universal Life, and ING Corporate Advantage Variable Universal Life, "Policies") offered by the Company.

The Account is organized as a unit investment trust registered with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. The Policies allow the contractowners to specify the allocation of their net premiums to the various funds. They can also transfer their account values among the funds. The Policies also provide the contractowners the option to allocate their net premiums or transfer their account values to a Guaranteed Interest Account ("GIA") in the Company's general account. The GIA guarantees a fixed rate of interest to the contractowner, and is not included in the Account's financial statements. The Account may be used to support other variable life policies as they are offered by the Company.

The assets of the Account are property of the Company. However, the portion of the Account's assets attributable to the Policies cannot be used to satisfy liabilities arising out of any other operations of the Company.

At December 31, 2005, the Account had, 81 investment divisions (the "Divisions") 26 of which invest in independently managed mutual funds and 55 of which invest in mutual funds managed by an affiliate, either Direct Services, Inc., ING Investments, LLC, or ING Life Insurance and Annuity Company. The assets in each Division are invested in shares of a designated Fund ("Fund") of various investment trusts (the "Trusts").

Investment Divisions with asset balances at December 31, 2005, and related Trusts are as follows:

#### 2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

#### Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

#### Investments

Investments are made in shares of a Fund and are recorded at fair value, determined by the net asset value per share of the respective Fund. Investment transactions in each Fund are recorded on the date the order to buy or sell is confirmed. Distributions of net investment income and capital gains from each Fund are recognized on the exdistribution date. Realized gains and losses on redemptions of the shares of the Fund of the Trusts are determined on a first-in, first-out basis. The difference between cost and current market value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

### Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of SLD, which is taxed as a life insurance company under the Internal Revenue Code. Earnings and realized capital gains of the Account attributable to the contractowners are excluded in the determination of the federal income tax liability of SLD.

#### Contractowner Reserves

Contractowner reserves of the Company are represented by net assets on the Statement of Assets and Liabilities and are equal to the aggregate account values of the contractowners invested in the Account Divisions less payables. To the extent that benefits to be paid to the contractowners exceed their account values, SLD will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to SLD.

### **Reclassifications**

Certain reclassifications have been made to prior year financial information to conform to the current year classifications.

#### 3. Charges and Fees

Under the terms of the Policies, certain charges are allocated to the Policies to cover SLD's expenses in connection with the issuance and administration of the Policies. Following is a summary of these charges:

#### Mortality, Expense Risk, and Other Charges

For FirstLine, FirstLine II, Strategic Advantage, Strategic Advantage II, Variable Survivorship, Estate Designer Policies, and Strategic Investor (Class A Policies), charges are made directly against the assets of the Account Divisions and are reflected daily in the computation of the unit values of the Divisions. A daily deduction, at an annual rate of up to 0.75% of the daily asset value of the Separate Account Divisions, is charged to the Account for mortality and expense risks assumed by the Company.

For the Corporate Benefits, Corporate Advantage, Strategic Benefits, Asset Portfolio Manager, and Asset Accumulator Policies (Class B Policies), mortality and expense charges result in the redemption of units rather than a deduction in the daily computation of unit values.

For Corporate Benefits Policies, a monthly deduction, at an annual rate of 0.20% of the contractowner account value, is charged. For Corporate Advantage Policies, a monthly deduction, at an annual rate of 0.10% of the contractowner account value, is charged. For Strategic Benefits Policies, a monthly deduction, at an annual rate of 0.85%, 0.60%, and 0.05%, of the contractowner account value, is charged during policy years 1 through 10, 11 through 20, and 21 and later, respectively. For Asset Portfolio Manager Policies, a monthly deduction, at an annual rate of 0.90% and 0.45% of the contractowner account value, is charged during policy years 1 through 10, and 11 through 20, respectively. There is no mortality and expense charge after year 20 for Asset Portfolio Manager Policies. For Asset Accumulator Policies, a monthly deduction, at an annual rate of 0.45% and 0.30% of the contractowner account value, is charged during policy years 1 through 5 and 6 through 10, respectively. There is no mortality and expense charge after year 10 for Asset Accumulator Policies.

#### 4. Related Party Transactions

During the year ended December 31, 2005, management and service fees were paid indirectly to Direct Services, Inc., an affiliate of the Company, in its capacity as investment manager to ING Investors Trust. The Fund's advisory agreement provided for fees at annual rates ranging from 0.26% to 0.91% of the average net assets of each respective Portfolio.

Management fees were paid to ING Investments, LLC, an affiliate of the Company, in its capacity as investment advisor to ING Variable Products Trust, ING VP Intermediate Bond Portfolio, ING Strategic Allocation Portfolio, Inc., and ING Variable Portfolios, Inc. The Fund's advisory agreement provides for fees at annual rates ranging from 0.35% to 0.80% of the average net assets of each respective Portfolio.

Additionally, management fees were paid to ING Life Insurance and Annuity Company, an affiliate of the Company, in its capacity as investment advisor to ING Partners, Inc. The Funds' advisory agreement provides for fees at annual rates range from 0.50% to 1.00% of the average net assets of each respective Portfolio.

(a) As investment Division was not available until 2001, this data is not meaningful and is therefore not presented.

(b) As investment Division was not available until 2002, this data is not meaningful and is therefore not presented.

(c) As investment Division was not available until 2003, this data is not meaningful and is therefore not presented.

(d) As investment Division was not available until 2004, this data is not meaningful and is therefore not presented.

(e) As investment Division was not available until 2005, this data is not meaningful and is therefore not presented.

- A The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions, divided by the average net assets. The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.
- **B** The Expense Ratio considers only the expenses borne directly by the Account and is equal to the mortality and expense charge, as defined in Note 3. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.
- C Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Account's internal control over financial reporting. Our audits include consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Account's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2005, by correspondence with the transfer agents. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the respective Divisions constituting Security Life of Denver Insurance Company Separate Account L1 at December 31, 2005, the results of their operations and changes in their net assets for the periods disclosed in the financial statements, in conformity with U.S. generally accepted accounting principles.

### 1. Organization

Security Life of Denver Insurance Company Separate Account L1 (the "Account") was established on November 3, 1993, by Security Life of Denver Insurance Company ("SLD" or the "Company") to support the operations of variable universal life policies ("Policies"). The Company is a wholly owned subsidiary of ING America Insurance Holdings ("ING AIH"), an insurance holding company domiciled in the State of Delaware. ING AIH is an indirect wholly owned subsidiary of ING Groep, N.V., a global financial services holding company based in The Netherlands.

The Account supports the operations of the FirstLine Variable Universal Life, FirstLine II Variable Universal Life, Strategic Advantage Variable Universal Life, Strategic Advantage II Variable Universal Life, Variable Survivorship Universal Life, Corporate Benefits Variable Universal Life, Strategic Benefits Variable Universal Life, Asset Portfolio Manager Variable Universal Life, and Estate Designer Variable Universal Life, Asset Accumulator Variable Universal Life, and ING Corporate Advantage Variable Universal Life, "Policies") offered by the Company.

The Account is organized as a unit investment trust registered with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. The Policies allow the contractowners to specify the allocation of their net premiums to the various funds. They can also transfer their account values among the funds. The Policies also provide the contractowners the option to allocate their net premiums or transfer their account values to a Guaranteed Interest Account ("GIA") in the Company's general account. The GIA guarantees a fixed rate of interest to the contractowner, and is not included in the Account's financial statements. The Account may be used to support other variable life policies as they are offered by the Company.

The assets of the Account are property of the Company. However, the portion of the Account's assets attributable to the Policies cannot be used to satisfy liabilities arising out of any other operations of the Company.

At December 31, 2005, the Account had, 81 investment divisions (the "Divisions") 26 of which invest in independently managed mutual funds and 55 of which invest in mutual funds managed by an affiliate, either Direct Services, Inc., ING Investments, LLC, or ING Life Insurance and Annuity Company. The assets in each Division are invested in shares of a designated Fund ("Fund") of various investment trusts (the "Trusts").

Investment Divisions with asset balances at December 31, 2005, and related Trusts are as follows:

### 2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

#### Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

### Investments

Investments are made in shares of a Fund and are recorded at fair value, determined by the net asset value per share of the respective Fund. Investment transactions in each Fund are recorded on the date the order to buy or sell is confirmed. Distributions of net investment income and capital gains from each Fund are recognized on the exdistribution date. Realized gains and losses on redemptions of the shares of the Fund of the Trusts are determined on a first-in, first-out basis. The difference between cost and current market value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

### Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of SLD, which is taxed as a life insurance company under the Internal Revenue Code. Earnings and realized capital gains of the Account attributable to the contractowners are excluded in the determination of the federal income tax liability of SLD.

#### Contractowner Reserves

Contractowner reserves of the Company are represented by net assets on the Statement of Assets and Liabilities and are equal to the aggregate account values of the contractowners invested in the Account Divisions less payables. To the extent that benefits to be paid to the contractowners exceed their account values, SLD will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to SLD.

### **Reclassifications**

Certain reclassifications have been made to prior year financial information to conform to the current year classifications.

#### 3. Charges and Fees

Under the terms of the Policies, certain charges are allocated to the Policies to cover SLD's expenses in connection with the issuance and administration of the Policies. Following is a summary of these charges:

### Mortality, Expense Risk, and Other Charges

For FirstLine, FirstLine II, Strategic Advantage, Strategic Advantage II, Variable Survivorship, Estate Designer Policies, and Strategic Investor (Class A Policies), charges are made directly against the assets of the Account Divisions and are reflected daily in the computation of the unit values of the Divisions. A daily deduction, at an annual rate of up to 0.75% of the daily asset value of the Separate Account Divisions, is charged to the Account for mortality and expense risks assumed by the Company.

For the Corporate Benefits, Corporate Advantage, Strategic Benefits, Asset Portfolio Manager, and Asset Accumulator Policies (Class B Policies), mortality and expense charges result in the redemption of units rather than a deduction in the daily computation of unit values.

For Corporate Benefits Policies, a monthly deduction, at an annual rate of 0.20% of the contractowner account value, is charged. For Corporate Advantage Policies, a monthly deduction, at an annual rate of 0.10% of the contractowner account value, is charged. For Strategic Benefits Policies, a monthly deduction, at an annual rate of 0.85%, 0.60%, and 0.05%, of the contractowner account value, is charged during policy years 1 through 10, 11 through 20, and 21 and later, respectively. For Asset Portfolio Manager Policies, a monthly deduction, at an annual rate of 0.90% and 0.45% of the contractowner account value, is charged during policy years 1 through 10, and 11 through 20, respectively. There is no mortality and expense charge after year 20 for Asset Portfolio Manager Policies. For Asset Accumulator Policies, a monthly deduction, at an annual rate of 0.45% and 0.30% of the contractowner account value, is charged during policy years 1 through 5 and 6 through 10, respectively. There is no mortality and expense charge after year 10 for Asset Accumulator Policies.

### 4. Related Party Transactions

During the year ended December 31, 2005, management and service fees were paid indirectly to Direct Services, Inc., an affiliate of the Company, in its capacity as investment manager to ING Investors Trust. The Fund's advisory agreement provided for fees at annual rates ranging from 0.26% to 0.91% of the average net assets of each respective Portfolio.

Management fees were paid to ING Investments, LLC, an affiliate of the Company, in its capacity as investment advisor to ING Variable Products Trust, ING VP Intermediate Bond Portfolio, ING Strategic Allocation Portfolio, Inc., and ING Variable Portfolios, Inc. The Fund's advisory agreement provides for fees at annual rates ranging from 0.35% to 0.80% of the average net assets of each respective Portfolio.

Additionally, management fees were paid to ING Life Insurance and Annuity Company, an affiliate of the Company, in its capacity as investment advisor to ING Partners, Inc. The Funds' advisory agreement provides for fees at annual rates range from 0.50% to 1.00% of the average net assets of each respective Portfolio.

# 5. Purchases and Sales of Investment Securities

(a) As investment Division was not available until 2001, this data is not meaningful and is therefore not presented.

(b) As investment Division was not available until 2002, this data is not meaningful and is therefore not presented.

(c) As investment Division was not available until 2003, this data is not meaningful and is therefore not presented.

(d) As investment Division was not available until 2004, this data is not meaningful and is therefore not presented.

(e) As investment Division was not available until 2005, this data is not meaningful and is therefore not presented.

- A The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions, divided by the average net assets. The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.
- **B** The Expense Ratio considers only the expenses borne directly by the Account and is equal to the mortality and expense charge, as defined in Note 3. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.
- C Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

Item 28 Persons Controlled by or Under Common Control with the Depositor or the Registrant

Incorporated herein by reference to Item 28 in Post-Effective Amendment No. 16 to Registration Statement on Form N-6 for Security Life Separate Account L1 of Security Life of Denver Insurance Company (File No. 333-50278), as filed on April 12, 2006.

### Item 29 Indemnification

Under its Bylaws, Sections 1 through 8, Security Life of Denver Insurance Company ("Security Life") indemnifies, to the full extent permitted by the laws of the State of Colorado, any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, or investigative (other than an action by or in the right of the corporation), by reason of the fact that he or she is or was a director, member of a committee appointed by the Board of Directors, officer, salaried employee, or fiduciary of Security Life or is or was serving at the request of Security Life (whether or not as a representative of Security Life) as a director, officer, employee, or fiduciary of another corporation, partnership, joint venture, trust, or other enterprise, against expenses (including attorney fees), judgments, fines, and amounts paid in settlement actually and reasonably incurred by him or her in connection with such action, suit, or proceeding if he or she acted in good faith and in a manner he or she reasonably believed to in the best interest of the corporation, or at least not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of Security Life pursuant to such provisions of the bylaws or statutes or otherwise, Security Life has been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in said Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by Security Life of expenses incurred or paid by a director or officer or controlling person of Security Life in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person of Security Life in connection with the securities being registered, Security Life will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether or not such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

A corporation may procure indemnification insurance on behalf of an individual who is or was a director of the corporation. Consistent with the laws of the State of Colorado, ING Groep N.V. maintains an umbrella insurance policy issued by an international insurer. The policy covers ING Groep N.V. and any company in which ING Groep N.V. has an ownership control of over 50%. This would encompass Security Life, as depositor, as well as ING America Equities, Inc., as the principal underwriter. The policy provides for the following types of coverage: errors and omissions, directors and officers, employment practices, fiduciary and fidelity.

Additionally, Section 13 of the Security Life Distribution Agreement with ING America Equities, Inc. (INGAE) generally provides that each party will indemnify and hold harmless the officers, directors and employees of the other party (and the variable account with respect to indemnity by INGAE) against any expenses (including legal expenses), losses, claims, damages, or liabilities arising out of or based on certain claims or circumstances in connection with the offer or sale of the policies. Under this agreement neither party is entitled to indemnity if the expenses (including legal expenses), losses, claims, damages, or liabilities resulted from their own willful misfeasance, bad faith, negligence, misconduct or wrongful act.

### Item 30 Principal Underwriters

- (a) *Other Activity.* ING America Equities, Inc., the principal underwriter for the policies, is also the principal underwriter for policies issued by ReliaStar Life Insurance Company of New York and ReliaStar Life Insurance Company.
- (b) *Management of ING America Equities, Inc.*

### Item 31 Location of Accounts and Records

Accounts and records are maintained by Security Life of Denver Insurance Company at 1290 Broadway, Denver, CO 80203-5699 and by ING Americas Finance Shared Services, an affiliate, at 5780 Powers Ferry Road, NW, Atlanta, GA 30327.

#### Item 32 Management Services

None.

### Item 33 Fee Representations

Security Life of Denver Insurance Company represents that the fees and charges deducted under the variable life insurance policy described in this registration statement, in the aggregate, are reasonable in relation to the services rendered, expenses expected to be incurred, and the risks assumed by Security Life of Denver Insurance Company under the policies. Security Life of Denver Insurance Company bases this representation on its assessment of such factors as the nature and extent of such services, expenses and risks, the need for the Security Life of Denver Insurance Company to earn a profit and the range of such fees and charges within the insurance industry.
