NOTICE OF AND IMPORTANT INFORMATION ABOUT AN UPCOMING FUND REORGANIZATION

The following information only affects you if you currently invest in or plan to invest in the subaccount that corresponds to the VY[®] FMR[®] Diversified Mid Cap Portfolio.

On November 17, 2016, the Board of Trustees of Voya Investors Trust approved a proposal to reorganize the VY[®] FMR[®] Diversified Mid Cap Portfolio. Subject to shareholder approval, effective after the close of business on or about July 14, 2017, (the "Reorganization Date"), Class I shares of the VY[®] FMR[®] Diversified Mid Cap Portfolio (the "Merging Fund") will reorganize with and into Class I shares of the Voya MidCap Opportunities Portfolio (the "Surviving Fund").

Voluntary Transfers Before the Reorganization Date. Prior to the Reorganization Date and for 30 days thereafter, you may transfer amounts allocated to the subaccount that invests in the Merging Fund to any other available subaccount or to the fixed account. There will be no charge for any such transfer, and any such transfer will not count as a transfer when imposing any applicable restriction or limit on transfers. **See the Transfers section on page 43 of your policy prospectus for information about making subaccount transfers, including applicable restrictions and limits on transfers.**

On the Reorganization Date. On April 28, 2006, the Surviving Fund was closed to new investors and to new investments by existing investors. On the Reorganization Date, the Surviving Fund will be reopened and your investment in the subaccount that invested in the Merging Fund will automatically become an investment in the subaccount that invests in the Surviving Fund with an equal total net asset value. You will not incur any tax liability because of this automatic reallocation, and your policy value immediately before the reallocation will equal your policy value immediately after the reallocation.

Automatic Fund Reallocation After the Reorganization Date. After the Reorganization Date, the Merging Fund will no longer be available through your policy. Unless you provide us with alternative allocation instructions, after the Reorganization Date all allocations directed to the subaccount that invests in the Merging Fund will be automatically allocated to the subaccount that invests in the Surviving Fund. **See the Transfers section on page 43 of your policy prospectus for information about making fund allocation changes.**

Allocation Instructions. You may give us alternative allocation instructions at any time by contacting McCamish Systems, LLC, P.O. Box 724927, Atlanta, GA 30119, 1-866-790-1988.

- ¹ This fund is structured as a “fund of funds.” A fund structured as a “fund of funds” may have higher fees and expenses than a fund that invests directly in debt and equity securities because it also incurs the fees and expenses of the underlying funds in which it invests. Please refer to the fund prospectus for information about the aggregate annual operating expenses of the fund and its corresponding underlying fund or funds.
- ² This fund employs a managed volatility strategy. A managed volatility strategy is a strategy that is intended to reduce a fund’s overall volatility and downside risk and, thereby, help us manage the risks associated with providing certain guarantees under the policy. During rising markets, the hedging strategies employed to manage volatility could result in your Separate Account Value rising less than would have been the case if you had been invested in a fund with substantially similar investment objectives, policies and strategies that does not utilize a volatility management strategy. In addition, the cost of these hedging strategies may have a negative impact on investment performance. On the other hand, investing in funds with a managed volatility strategy may be helpful in a declining market with higher market volatility because the hedging strategy will reduce your equity exposure in such circumstances. In such cases, your Separate Account Value may decline less than would have been the case if you had not invested in funds with a managed volatility strategy. There is no guarantee that a managed volatility strategy can achieve or maintain the fund’s optimal risk targets, and the fund may not perform as expected.
