Item 1.02 Termination of a Material Definitive Agreement

On July 31, 2009, The Colonial BancGroup, Inc. (the Company) and Taylor, Bean & Whitaker Mortgage Corp. (TBW) agreed to a mutual termination of the Stock Purchase Agreement, as amended (the Agreement), under which the purchasers would have made a \$300 million equity investment in the Company.

The transaction was subject to regulatory approvals and certain other conditions, and the Agreement included a provision under which either the Company or TBW, on behalf of all the investors, could terminate the Agreement if the transaction was not consummated by July 31, 2009. Since the closing conditions were not satisfied by July 31, 2009, and since there could be no assurance that the closing conditions would be satisfied in the future, the Company and TBW elected to mutually terminate the Agreement on July 31, 2009. There are no termination penalties to the Company or TBW as a result of the mutual termination of the Agreement.

A copy of the Mutual Termination of Stock Purchase Agreement is included as Exhibit 10.1 and is incorporated herein by reference. COLONIAL BANCGROUP REPORTS SECOND QUARTER 2009 RESULTS

MONTGOMERY, Ala. – July 31, 2009 - (NYSE: CNB) The Colonial BancGroup, Inc. today reported results for the quarter ended June 30, 2009. A summary of the results is presented below.

- Net loss of \$606 million, or \$3.02 per common share, in the quarter compared to a net loss of \$168 million, or \$0.86 per common share, in the 1st quarter of 2009; non-cash charges of \$377 million, or \$1.87 per common share related to a valuation allowance on its deferred tax assets (\$302 million, or \$1.50 per common share) and to write down goodwill (\$75 million, or \$0.37 per common share); the valuation allowance on deferred taxes may be reversed in the future to offset taxable income;
- Loan loss provision was \$294 million, up 14% from the first quarter of \$257 million; net charge-offs for the quarter were \$244 million, or 7.02% annualized of average loans, compared to \$132 million, or 3.72% annualized of average loans, in the 1st quarter of 2009; other credit costs include write downs and expenses on foreclosed properties of \$43 million in the quarter, up \$36 million from the 1st quarter of 2009;
- The balance in the allowance for loan losses was \$500 million or 3.69% of net loans at June 30, 2009;
- Nonperforming assets increased to \$1.7 billion or 12.29% of net loans, other real estate owned and repossessions at June 30, 2009, up \$603 million over March 31, 2009; the increase in nonperforming assets reflects the continued economic distress in our markets, primarily in Florida; the weakness in the portfolio continued to be primarily in the construction-related sector, which comprised approximately 72% of Colonial's nonperforming assets at June 30, 2009;
- FDIC insurance and other regulatory fees were \$29.6 million, up \$18.4 million from the 1st quarter of 2009 due primarily to the FDIC's special assessment of \$12.2 million charged to banks in the quarter;
- Pre-tax, pre-credit results excluding goodwill impairment and FDIC insurance and other regulatory fees resulted in a profit of \$19.0 million or \$0.09 per common share;
- Strong liquidity position: cash and interest bearing deposits in banks and the Federal Reserve were approximately \$1.5 billion at June 30, 2009;

- Total deposits increased 7.3% from December 31, 2008;
- Colonial's regulatory capital ratios at June 30, 2009 were:

	Colonial BancGroup	Colonial Bank
Tier I Risk-Based Capital ratio	5.44%	6.46%
Total Risk-Based Capital ratio	9.43%	9.21%
Tier I Leverage ratio	3.49%	4.18%

- Tangible book value per share of \$1.29 at June 30, 2009;
- Net interest margin of 1.97% for the 2nd quarter compared to 2.04% in the 1st quarter of 2009, resulting primarily from the lower yielding assets due to Colonial's significant liquidity position, the impact of increasing nonperforming assets, and continued customer preference for higher cost time deposits;
- Core noninterest income for the 2nd quarter increased \$2.8 million, or 6% from the 1st quarter of 2009, driven by a \$2.1 million or 17% increase in retail mortgage banking fees;
- Core noninterest expenses, excluding FDIC insurance and other regulatory fees, losses and expense on other real estate and professional fees, for the 2nd quarter were down 2% from the 1st quarter of 2009.

"During the second quarter, we took aggressive action related to capital strategies, liquidity, credit quality and expense reduction. Going forward, we believe these actions put our company in a better position to reinforce its value as a gateway to over 400,000 business and household customers who currently bank with Colonial. Our loyal employee force of over 4,500 resourceful individuals and our branch network of over 350 locations continue to serve as a solid foundation for Colonial's multi-state franchise in spite of difficult economic and regulatory conditions," said Lewis Beville, Colonial's CEO and President.

Capital Action Plan

Colonial is actively pursuing a variety of strategic capital alternatives including, but not limited to the following:

• Exploring a sale or merger of the Company

- Selling the Nevada branches
- Possibly selling other branches
- Exploring the sale of problem assets
- Reducing expenses
- Initiating an exchange of bank level subordinated debt for senior debt which is expected to increase Tier I capital at the bank
- · Seeking sources of private capital
- · Reducing assets

Colonial has engaged Citigroup Global Markets Inc. (Citi), as its financial advisor. Since Citi's engagement on July 9, 2009, Colonial has held private management meetings with potential strategic acquisition candidates and private equity investment firms. Colonial can give no assurances as to whether any of these candidates or firms will enter into a long term agreement with Colonial or whether any other candidates will emerge in the future, and Colonial does not expect to make any further statement about the outcome of such meetings unless an agreement satisfactory to Colonial can be reached.

On July 14, 2009, Colonial announced the signing of an asset purchase agreement with Global Consumer Acquisition Corporation (GCAC) for the sale of 21 Colonial Bank branch offices located in Nevada. Upon the closing of the transaction, GCAC is expected to acquire the branch network including approximately \$492 million in deposits and approximately \$440 million in loans, for a deposit premium of approximately \$28 million or 5.7% of total deposits. The transaction is expected to close on or before September 30, 2009 and is subject to GCAC shareholder and regulatory approval. For a full description of the transaction please refer to a copy of the asset purchase agreement attached to the Current Report on Form 8-K filed by Colonial BancGroup, Inc. on July 14, 2009 with the SEC. The 8-K can be accessed through the Company's website at www.sec.gov.

In December 2008, Colonial launched the Colonial 1st program which is an on-going, company-wide review of business practices with goals of enhancing the customer experience and improving the Company's overall efficiency. Over 4,000 ideas were generated from 30 cross-functional teams from throughout the Company. Colonial plans to implement approximately 700 of those ideas which are expected to generate pre-tax savings of \$25 million in 2009 and over \$50 million in 2010. As part of the Colonial 1st program, during July 2009, Colonial reduced the overall staffing level by approximately 3% through the elimination of 136 positions company-wide. The total number of employees decreased from 4,930 at December 31, 2008 to 4,627 currently, a 6% decrease.

Termination of Agreement

As previously announced, Colonial signed a stock purchase agreement, as amended, with investors led by Taylor, Bean & Whitaker Mortgage Corp. (TBW) for a \$300 million equity investment in Colonial. The transaction was subject to regulatory approvals and certain other conditions, and the terms of the agreement included a provision under which either Colonial or TBW, on behalf of all investors, could terminate if the transaction did not close by July 31, 2009. Since the regulatory approval process with the OTS remained pending as of July 31, 2009 and all of the conditions necessary for closing did not occur as of that date, and since there could be no assurance that the required regulatory approvals or other conditions would be satisfied in the future, both Colonial and TBW elected on July 31, 2009 to mutually terminate the stock purchase agreement. "We are disappointed that the transaction with TBW was not completed by July 31, 2009; however, we have shifted our focus to the alternatives described in the Capital Action Plan," said Mr. Beville.

Regulatory Update

Colonial is operating under C&D orders with the Federal Reserve, FDIC and the State of Alabama which require that Colonial Bank maintain certain capital levels. As of June 30, 2009, Colonial Bank was not in compliance with the capital requirements for the Tier I Leverage Ratio and Total Risk-Based Capital Ratio. In connection with its efforts to comply with the regulatory orders and requirements, the Board of Directors has retained Promontory Financial Group to advise and assist in satisfying regulatory requirements and expectations. For more information about the C&D orders, refer to the Current Reports on Form 8-K filed by Colonial BancGroup, Inc, on June 9, 2009 and July 27, 2009 which are available on the SEC's website and in the investor relations portion of Colonial's website.

Going Concern Assessment

As a result of the above described regulatory actions and the current uncertainties associated with Colonial's ability to increase its capital levels to meet regulatory requirements, management has concluded that there is substantial doubt about Colonial's ability to continue as a going concern. The Company expects to update its 2008 financial statements contained in the Company's Annual Report on Form 10-K, prior to filing its June 30, 2009 Form 10-Q. The Company is working to implement the Capital Action Plan described above which includes strategies to increase capital or to sell the Company in order to address the uncertainties giving rise to the going concern assessment.

Forward Looking Statements

This presentation includes "forward-looking statements" within the meaning of the federal securities laws. Words such as "believes," "estimates," "plans," "expects," "should," "may," "might," "could," "outlook," "potential," "would" and "anticipates," and the negative of these terms and similar expressions, as they relate to The Colonial BancGroup, Inc. (BancGroup) (including its subsidiaries or its management), are intended to identify forward-looking statements. The forward-looking statements in this presentation are subject to risks and uncertainties that could cause actual results to differ materially from those expressed in or implied by such statements.

In addition to factors mentioned elsewhere in this presentation or previously disclosed in BancGroup's SEC reports (accessible on the SEC's website at www.sec.gov or on BancGroup's website at www.colonialbank.com), the following factors, among others, could cause actual results to differ materially from forward-looking statements and future results could differ materially from historical performance. These factors are not exclusive:

- continued deterioration in Colonial Bank's financial condition, including losses in our loan portfolio greater than estimated or expected;
- failure to close on the pending sale of 21 branch offices of Colonial Bank located in Nevada pursuant to the asset purchase agreement with Global Consumer Acquisition Corporation;
- an inability to raise additional capital on terms and conditions that are satisfactory, including failure to receive final approval and actual funding from the U.S. Treasury Department's Capital Purchase Program;
- imposition of regulatory conditions or requirements on either BancGroup or the other parties to the transaction referenced above that could make consummation of the transaction impracticable;
- failure to comply with the recent regulatory orders and additional regulatory measures that could be imposed independently or as a result of such failures;
- possible inability of the Company to continue as a going concern;
- the impact of current economic conditions and the results of our operations on our ability to borrow additional funds to meet our liquidity needs:
- economic conditions affecting real estate values and transactions in BancGroup's market and/or general economic conditions, either nationally or regionally, that are less favorable or take longer to recover than expected;
- changes in the interest rate environment which expand or reduce margins or adversely affect critical estimates as applied, projected returns on investments, and fair values of assets;
- continued or sustained deterioration of market and economic conditions or business performance could increase the likelihood that we would have an additional goodwill impairment charge;

Forward Looking Statements

- deposit attrition, customer loss, or revenue loss in the ordinary course of business;
- increases in competitive pressure in the banking industry and from non-banks;
- costs or difficulties related to the integration of the businesses of BancGroup and institutions it acquires are greater than expected;
- the inability of BancGroup to realize elements of its strategic and operating plans for 2009 and beyond, including a reduction of assets in order to improve capital ratios;
- the anticipated cost savings and revenue enhancements from the Colonial 1st program may not be achieved in their entirety or accomplished within our expected time frame;
- natural disasters in BancGroup's primary market areas which result in prolonged business disruption or materially impair the value of collateral securing loans;
- management's assumptions and estimates underlying critical accounting policies prove to be inadequate or materially incorrect or are not borne out by subsequent events;
- the impact of recent and future federal and state legislative and regulatory changes;
- current or future litigation, regulatory investigations, proceedings, inquiries or directives;
- strategies to manage interest rate risk may yield results other than those anticipated;
- changes which may occur in the regulatory environment;
- a significant rate of inflation (deflation);
- unanticipated litigation or claims;
- changes in the securities markets;
- acts of terrorism or war; and
- details of the recently enacted Emergency Economic Stabilization Act of 2008, the American Recovery and Reinvestment Act of 2009, the Homeowner Affordability and Stability Plan and various announced and unannounced programs implemented by the U.S. Treasury Department and bank regulators to address capital and liquidity concerns in the banking system are still being finalized and may have a significant effect on the financial services industry and BancGroup.

Many of these factors are beyond BancGroup's control. The reader is cautioned not to place undue reliance on any forward looking statements made by or on behalf of BancGroup. Any such statement speaks only as of the date the statement was made or as of such date that may be referenced within the statement. BancGroup does not undertake any obligation to update or revise any forward-looking statements.

Summary of Second Quarter 2009 Performance

Unaudited

- Net loss of \$3.02 per common share, or \$606 million in the quarter; non-cash charges of \$377 million, or \$1.87 per common share, to establish a valuation allowance on its deferred tax assets (\$302 million, or \$1.50 per common share) and to write down goodwill (\$75 million, or \$0.37 per common share); the valuation allowance on deferred taxes may be reversed in the future to offset taxable income;
- Loan loss provision was \$294 million, up 14% from the first quarter of \$257 million. Net charge-offs for the quarter were \$244 million, or 7% annualized of average loans, an increase from \$132 million, or 3.72% annualized of average loans, in the 1st quarter of 2009; other credit costs include write downs and expenses on foreclosed properties which were \$43 million in the quarter up \$36 million from the 1st quarter of 2009;
- The balance in the allowance for loan losses was \$500 million, or 3.69% of net loans at June 30, 2009:
- Nonperforming assets increased to \$1.7 billion, or 12.29% of net loans, other real estate owned and repossessions at June 30, 2009, up \$603 million from March 31, 2009; the increase in nonperforming assets reflects the continued economic distress in our markets, primarily in Florida; the weakness in the portfolio continued to be primarily in the construction-related sector, which comprised 72% of Colonial's nonperforming assets at June 30, 2009;
- FDIC insurance and other regulatory fees were \$29.6 million, up \$18.4 million from the 1st quarter of 2009 due primarily to the FDIC's special assessment charged to banks in the quarter of \$12.2 million;
