NEWS RELEASE

**CLARIFICATION – 2ND QUARTER CONFERENCE CALL
SATELLITE – POST SAC BREAK-EVEN**

Calgary, Alberta- April 2, 2002----During the 2nd Quarter Conference Call the question arose concerning “When would Star Choice break-even on a post subscriber acquisition cost basis?”. If one includes the operating income from Satellite Services, i.e. a consolidated Cancom viewpoint, then break-even occurs during fiscal 2003. This is a common view at Shaw as this is how Star Choice/Cancom is financed. If one looks at Star Choice as a stand-alone subsidiary of Cancom, break-even occurs in fiscal 2004.

Shaw Communications Inc. is a diversified Canadian communications company whose core business is providing broadband cable television, Internet and satellite services to approximately 2.8 million customers. Shaw also has significant interests in telecommunications, Internet infrastructure and interactive television companies. Shaw is traded on the Toronto and New York stock exchanges (Symbol: TSE - SJR.B, NYSE - SJR).
