Re: China Resources Enterprise, Limited Rule 12g3-2(b) Materials, File No.82-4177

Dear Sirs,

03 APR 16 MI 7: 2

APR 2003

We are instructed to enclose herewith a copy of the announcement dated 3rd April, 2003 pursuant to Rule 12g3-2(b)(1)(iii) under the Securities Exchange Act of 1934 (the "Exchange Act"), in connection with the exemption from reporting under the Rule of China Resources Enterprise, Limited (the "Company").

The above document has been marked in the upper right hand corner to indicate the Commission file number for the Company's 12g3-2(b) exemption.

Pursuant to Rule 12g3-2(b)(4) and (5), the enclosed material shall not be deemed "filed" with the Commission or otherwise subject to the liabilities of Section 18 of the Exchange Act, and the furnishing of such material shall not constitute an admission for any purpose that the Company is subject to the Exchange Act.

Kindly acknowledge receipt of this letter and the enclosure by stamping the enclosed copy of this letter and returning it in the enclosed self-addressed envelope.

Yours faithfully,
For and on behalf of
FAIR WIND SECRETARIAL SERVICES LIMITED

LO Tai On Director Encl.

c.c. Mr. Jonathan H. Lemberg,

Morrison & Foerster, 23/F Entertainment Building 30 Queen's Road Central, Hong Kong (30318/1)

(w/o enclosure) Mr. Bryan Ho

CHAIRMAN'S STATEMI

Final Results

The Group's consolidated turnover and profit attributable to shareholders for the year ended 31st December 2002 amounted to approximately HK\$28,822.0 million and HK\$1,402.9 million respectively, representing an increase of 19.1% and 16.4% from that of last year. Profit contributed by the textile business replaced the anticipated decline in profit from property development segment. Earnings per share of the Group, on a weighted average basis, was HK\$0.68 compared to HK\$0.60 in 2001.

On a geographical basis, turnover from the Chinese Mainland accounted for 42.4% in 2002 as compared to 31.9% last year. The growth is consistent with the Group's strategic direction to increase the weighting of its business from the Chinese Mainland.

Dividends

The Board recommends a final dividend of HK\$0.13 per share for 2002 (2001: HK\$0.1 per share) payable on or about 2nd July 2003 to shareholders whose names appear on the Register of Members of the Company on 2nd June 2003.

Together with the interim dividend of HK\$0.09 per share and the special dividend of HK\$0.25 per share paid on 8th February 2002, the total distribution for 2002 will amount to HK\$0.47 per share (2001: HK\$0.18 per share).

Closure of Register

The Register of Members will be closed from 2nd June 2003 to 5th June 2003, both days inclusive. In order to qualify for the final dividend, all completed transfer forms accompanied by the relevant share certificates must be lodged with the share registrars of the Company, Standard Registrars Limited of G/F, Bank of East Asia Harbour View Centre, 56 Gloucester Road, Wanchai; Hong Kong, not later than 4:30 p.m. on 30th May, 2003.

Strategic Focus

The Group has identified the Chinese Mainland retailing market as driver to lead the growth of its distribution businesses. In 2002, retail sales in the Chinese Mainland grew 8.8% in nominal terms, again faster than the nominal GDP growth of 6.7%. This is the trend for the past eight years in the Chinese Mainland. Its robust economy and growing urban segment is underpinning the retailing market with consumers showing a growing preference for better shopping environment and quality products. Modern food retail formats, in particular hypermarkets and superstores, are quickly gaining popularity. Coupled with the economic liberalization after its accession to the World Trade Organization, we believe the mainland consumer sector is still at an early stage of its metamorphosis and opportunities abound.

Under the Group's retail-led distribution model, some of our consumer businesses, including food, textiles as well as beverage, will form part of the supply chain for our retail businesses. Our objective is to maximize the operational synergies between our retailing businesses and supply chain-related distribution businesses. The Group has initially targeted fresh food and garment products for integration with the retailing businesses.

Last year, we formulated strategies for our retail, food, textiles and logistics businesses together with professional firms. This year, we have started to further streamline our business via non-core asset disposal. On 26th March 2003, in a bid

to further streamline our business and focus on the core operations, the Group proposed a restructuring which, if approved and implemented, will result in the 'Group's shareholders receiving a special dividend through a distribution in specie of the Group's existing interests in concrete manufacturing and related interests under a new holding company, China Resources Cement Holdings Limited ("China Resources Cement"). The restructuring is conditional on, among other things, the approval by the independent shareholders of the Company on the acquisition of some cement operations held by China Resources (Holdings) Company Limited ("China Resources Holdings"). An application has been made to The Stock Exchange of Hong Kong Limited ("the Stock Exchange") for the listing of China Resources Cement on the Stock Exchange by way of introduction. Details of the group restructuring will be shown in a circular to be dispatched to the shareholders. We will continue to review our business portfolio and improve its overall efficiency in a manner consistent with the legitimate interests and benefits of our shareholders.

Corporate Governance

In a bid to improve financial transparency, the Group announced voluntarily its first quarterly, financial and operational review in November last year. It is our intention to continue to publish quarterly financial and operational review in the future. In fact, we are the third Hang Seng Index constituent stock to voluntarily announce quarterly performance review. Summarised below are the other major corporate governance initiatives adopted by the Group last year.

- The Group's Executive Committee, which formulates company policies and supervises their implementation, held an intensive meeting in September 2002 to discuss international corporate governance standards and our comparison. It subsequently approved of a proposal to further elevate our standard.
- A handbook on corporate governance was prepared and distributed internally by the end of last year. The handbook sets out our principles and practices in corporate governance and will be updated regularly to match with international standards.
- As a measure to further enhance the Board's independence in the review of management performance, the Group appointed Dr. the Hon Li Ka Cheung Eric as independent non-executive director in March 2003.

The Group is committed to ensuring shareholders of high standard of corporate governance in all aspects and our requirements are promulgated to all management levels. We will continue to look for further improvement riding on the efforts made last year.

Investor Relations

With a common goal to strengthen investor relations, the Group's senior management and heads of different business units worked closely last year to enable an open and responsive communication with shareholders, the financial community and the media in Hong Kong and abroad. During the year, company visits, site visits, roadshows and conferences were arranged to provide investors with a full perspective of our businesses and new investments. More than 240 analysts and 440 fund managers attended the functions. Through such interactive and keen communication with investors, management benefited considerably from

Review of operations

Petroleum and Chemical Distribution

The Group's petroleum and chemical operation is engaged principally in the marketing and distribution of petroleum, LPG and chemical products in Hong Kong and the Chinese Mainland.

Uncertain world economy, fear of wars, concern on the oil supply from the Middle East and the unusual cold winter in Central Asia impacted the supply as well as the prices of oil and the petroleum products during the year under review. Oil prices have risen sharply from US\$21 per barrel at the beginning of 2002 to US\$31 at the year end. Despite all these volatilities, the petroleum operation achieved a favourable performance in 2002.

Turnover for the year of 2002 for this segment was HK\$10,500.8 million, an increase of 6.2% compared with last year. Net profit before corporate interest and expenses for the year of 2002 was HK\$284.7 million, an increase of 24.9% over that of 2001.

The petroleum operation reported a turnover HK\$8,076.8 million for the year of 2002, representing an increase of 2.1% over that of last year. Overall sales volume sustained at last year level. Sales volume for diesel oil fell by 17.4% while fuel oil and aviation kerosene rose by 3.3% and 19.4% respectively over that of last year. Despite downward pressure to selling prices for diesel oil and aviation kerosene due to fluctuating crude oil prices and competition, the operation was able to enhance its profits through centralized purchase and improved logistics control. Performance of the gas operation in Hong Kong has been stable for the year under review:

Petrol and LPG stations in Hong Kong recorded an increase of 19.7% in sales volume for the year of 2002. As to LPG sold at own stations, overall sales volume soared by 28.4% over last year as a result of the introduction of environmental friendly LPG taxis by the Hong Kong Government and an addition of 2 new LPG stations. Despite the purchased cost of LPG went up lately, the LPG ceiling prices pre-set by the HK government every six months has precluded timely price change, causing decline in profit contribution. In addition, competition is expected to increase as major oil distributors in Hong Kong have begun to set up LPG filling facilities in their own petrol stations. Sales for the petrol stations in Chinese Mainland are expected to improve in 2003 aided by direct account sales. At yearend, the Group operated a total of 19 petrol and LPG stations in Hong Kong and 22 petrol stations in the Chinese Mainland. During the year, the Group also secured the right to operate a petrol station in Macau which is expected to be in service in 2003. Adherence to stringent safety standards helped reduce the insurance expenses of the filling stations for the year under review.

The Chemical operation enjoyed good performance due to the strong demand in the Chinese Mainland and an improved sale and distribution network. For the year ended 31st December 2002, the operation reported a turnover of HK\$1,005.1

MANAGEMENT DISCUSSION AND

To keep up with customer needs and changing market scenes, the Group has taken steps to revamp its store formats for its Chinese Mainland operations. A rebranding program has also commenced to establish a national brand.

Given the continuous expansion of the retail sector in the Chinese Mainland, the Group is optimistic to sustain the growth and to improve the profit performance of its Chinese Mainland retail operation in the years ahead through a larger operational scale and enhancement in internal efficiency.

Brand-fashion Distribution

The Group's brand fashion distribution business in the Ghinese Mainland continues its stable growth. The operation currently distributes 18 internationally acclaimed brands in designated cities and operates a total of 761 self-operated and franchised boutiques at the end of December 2002 compared to 570 last year. The substantial startup costs incurred in previous years for brand development begin to be paid off. From time to time, the Group will appraise the performance of individual shop and brand such that shop that offers little or no profit will be considered for closure while brand with limited development potential will be pulled out. In order to increase market share, the Group will continue to expand by opening new shops and growing the distribution network.

For the year under review, the operation reported a turnover of HK\$893.6 million, up 28.0% from that of last year and a net profit before corporate interest and expenses of HK\$4.5 million, down 4.0% against 2001. The strong growth of turnover was mainly due to continuing store expansion in 2002.

Hong Kong Retail

The Group currently operates a chain of retail stores in Hong Kong under the name of CRC Department Store 華潤百食, Chinese Arts & Craft Stores ("CAC") 中藝 and CRCare store 華潤堂. CRCare was previously known as CRC Medichall. The rebranding exercise was carried out in January 2003.

To cope with the changing market needs, the Group has taken strategic moves to gradually convert its traditional department stores to specialized stores. During the year of 2002, the Group closed its CRC Department Store at Central due to redevelopment of the building by its owner. The Group also redecorated the CAC Store at Wanchai and Star House respectively in order to create more prominent image for the store to market its medium to high-end arts and crafts products, jeweiry and traditional costumes. The CRC Department Store at Mongkok will be closed by April 2003 while the CAC Store at Pacific Place will be redecorated based on the newly defined image. In January 2003, the first super-sized 奉政全 CRCare store was opened under the new logo at To Kwa Wan. The new store occupies a total floor area of 12,000 square feet and offers Chinese herbs and medicines, western drugs, personal care products, health foods, dried seafood products, sports gears and household items etc. In addition, the store also provides medical consultation service. The development of specialised stores along with the brand new theme of "healthy life" will form an important part of Hone Kong

On a brighter note, the Group with the oppor there.

Mainland are expected to improve in 2003 aided by direct account sales. At year-end, the Group operated a total of 19 petrol and LPG stations in Hong Kong and 22 petrol stations in the Chinese Mainland. During the year, the Group also secured the right to operate'a petrol station in Macau which is expected to be in service in 2003. Adherence to stringent safety standards helped reduce the insurance expenses of the filling stations for the year under review.

The Chemical operation enjoyed good performance due to the strong demand in the Chinese Mainland and an improved sale and distribution network. For the year ended 31st December 2002, the operation reported a turnover of HK\$1,005.1 million, up 44.2% from last year and an operating profit of HK\$33.1 million compared to an operating loss of HK\$19.7 million last year.

For the year under review, the Marine Transportation operation reported a turnover of HK\$740.4 million, down 22.4% from last year and an operating profit of HK\$25.6 million, up 77.5% from last year. The decrease in turnover was due to fall in the sales volume of fuel replenishment for marine vessels while the rise in profit was the result of improved profit margins and effective cost control over vessel operations.

The Group anticipates fluctuation of the oil prices to continue in the near term and will take prudent measures to mitigate the effects to its business performance.

Retai

In the past two years, the economy of Hong Kong was affected adversely by deflation, falling property prices and high unemployment rate. Competition was fierce in the retail sector both in Hong Kong and the Chinese Mainland. Amidst the uncertain economy, consumers were very price sensitive. Retailers had to offee generous discounts and loyalty programs to compete for the dwindling dollars. For the year ended 31st December 2002, the retail segment reported a turnover of HK\$6,344.2 million, up 57.6% against last year and a net profit before corporate interest and expenses of HK\$24.3 million, down 21.4% compared to last year.

Supermarkei

The Group currently operates close to 460 stores in Hong Kong and the Chinese Mainland. The number includes self-operated stores and some franchised stores in the mainland. The Group became the single largest supermarket group in South China Region, after acquiring a 65% equity interest in China Resources Vanguard Co., Ltd. (formerly known as China Vanguard Super Department Co., Ltd. ("China Resources Vanguard") in July 2002 at a consideration of RMB372 million (HKS350 million). In September 2002, the Group also acquired a 39.25% equity interest in Suguo. Supermarket Co Ltd. 资果超市有限公司 for a consideration of RMB232 million (HKS217 million) in order to strengthen its retail operations the Chinese Mainland further. The share of turnover for the Chinese Mainland soperations grew from 29.5% in 2001 to 62.7% in 2002 as the number of self-operated stores went up from 254 to 316, witnessing the shift of reliance to the Chinese Mainland operations. The Group will continue to expand its supermarket operation through new store opening in 2003.

For the year ended 31st December 2002, the supermarket operations reported a turnover of HK\$4,386.3 million, up 97.3% from last year and a net loss before corporate interest and expenses of HK\$9.6 million against a net profit of HK\$2.9 million in 2001. Earnings before interest, tax, depreciation and amortization ("EBITDA") of the supermarket operations attributable to the Group for 2002 amounted to approximately HK\$127.0 million. Overall EBITDA margin was maintained at last year's level of 2.9%. For the year under review, the newly acquired operations from China Resources Vanguard contributed a profit of HK\$2.2 million. Such results included relatively high upfront store opening expenses of one-off nature as a result of significant increase in number of new stores opened in 2002 as well as a goodwill amortization of HK\$3.9 million for five months associated with the acquisition of a 65% equity interest of China Resources Vanguard. The robust growth in turnover was due to acquisition of China Resources Vanguard in July 2002 and substantial increase in number of stores in the Chinese Mainland.

image for the store to market its medium to high-end arts and crafts products, jewelry and traditional costumes. The CRC Department Store at Mongkok will be closed by April 2003 while the CAC Store at Pacific Place will be redecorated based on the newly defined image. In January 2003, the first super-sized 輕陽變 CRCare store was opened under the new logo at To Kwa Wan. The new store occupies a total floor area of 12,000 square feet and offers Chinese herbs and medicines, western drugs, personal care products, health foods, dried seafood products, sports gears and household items etc. In addition, the store also provides medical consultation service. The development of specialised stores along with the brand new theme of "healthy life" will form an important part of Hong Kong Retail's core business while CAC stores will be developed as stores of vogue promoting sale of Chinese arts and craft items.

For the year ended 31st December 2002, the Hong Kong retail operations reported a turnover of HK\$1,064.3 million, down 3.6% from that of last year and a net profit before corporate interest and expenses of HK\$29.4 million, up 26.3% compared to 2001. The performance was affected by the closure of 2 department stores.

Food Processing and Distribution

Despite the difficult economic environment in Hong Kong the performance of the Group's food processing and distribution operations was relatively stable.

For the year ended 31st December 2002, the operations reported a turnover of HK\$4,803.4 million, a decrease of 16.5% from that of 2001 and a net profit before corporate interest and expenses amounted to HK\$336.8 million, a decrease of 15.1% compared with that of 2001. The decline in revenue was mainly due to weak consumption and lifting of the quota on frozen meats export to Hong Kong in January 2002. Excluding the effect of reduced interest income caused by the dividend payment of a HK\$1.3 billion made in 2001, net profit in 2002 only fell slightly by 3.7% compared to that of last year.

Operating profit for the food distribution for the year ended 31st December 2002 was 4.5% below that of last year. The decline was distorted by the exceptionally high demand for live pigs, triggered by the outbreak of bird flu and suspension of chilled meat from Thailand during the year of 2001. For the year under review, the grocery and other food products within the food distribution operation reported an increase of 11.3% in turnover and 22.7% in operating profit over 2001, due to successful launch of new products through strong sales team and growing number of new customers. Through prudent marketing strategy and increased direct sourcing of foreign and Chinese Mainland meat products, the Group has improved the gross profit margin of frozen meats substantially by 5.4 percentage points. In order to enhance the market share in Hong Kong, the operations have been actively promoting the fresh, chilled and frozen meat under the brand name 五豐 with satisfactory results.

The ice-cream and frozen food processing enjoyed satisfactory performance, due to expansion of the sales network, increase of products variety and improved margins. For the year ended 31st December 2002, turnover rose 19.5% and its operating profit jumped 14.9% compared to that of last year.

The poor economy has caused competition from South American prawn suppliers in European market to intensify and consumption in Japanese market to decline. Poor global economy caused the selling prices of prawns and tuna to decline in 2002. However the transportation cost increased substantially due to the soaring fuel price. As a result, even though turnover was maintained at last year's level, operating profit for the marine fishing and aquatic product processing has decreased compared to 2001.

For the year ended 31st December 2002, abattoir and other operation reported a 5.2% increase in operating profit over that of last year, due to enhanced efficiency and effective cost control despite a slight decline in slaughtering volume and revenue.

In March 2003, the Group set up a joint venture to construct a modern meat processing centre in Shanghai, laying the cornerstone for entering the mainland meat market.

a better understanding of the interests and concerns of investors. The Group's concerted efforts in promoting investor relations have received enthusiastic feedback from the financial community and the media.

In addition, the Group's web site was revamped during the year to allow easier access to the most updated company news. Press releases and presentations were often distributed in a proactive manner so that investors could keep good track of the latest information.

Social Responsibility

The Group is dedicated to build better lives together with the community. In October 2002, the Group jointly organized a recruitment campaign, namely "Lead you to the mainland", with China Resources Holdings offering one hundred vacancies to new university graduates. The response to the campaign was encouraging and over 1,800 candidates attended the event. Apart from the campaign, staff from all levels of the Group was given ongoing training programs and workshops on diverse topics to enhance both their career and personal development.

It is also the Group's objective and responsibility to minimize environmental impact of our operations. Our brewery, petroleum and chemical distribution as well as food processing and distribution operations have deployed stringent environmental protection measures to reduce effluence to the least. The Group will continue to encourage and implement initiatives that could bring forth the well-being of the Hong Kong and Chinese Mainland societies and will endeavor to comply with the best industry practice.

A New Brand Identity

In September 2002, China Resources Holdings undertook a corporate branding campaign to promote and enhance its brand identity. The four "person" (A) Chinese characters embedded in our new logo represent four aspects of the China Resources culture — dedication to people, growth driven by people, respect for people and improvement to the lives of people. Together with our parent company, the Group is committed to enrich people's lives and deliver maximum value to our customers, shareholders and employees. Through innovation and enhancement, the Group aims for achieving leadership positions in our core businesses over the medium to long term. Our corporate tagline "Better life together" also, echoes the Group's existing businesses that are, by and large, tightly related to daily lives.

The 2002 results were achieved in a difficult year marked by continuing deflation in Hong Kong, global economic slowdown as well as a high degree of economic and political uncertainty. Despite the challenging environment, the Group has been laying solid foundation for its future. We have seen the initial results of our restructuring exercise announced in June 2000 as evident from the earnings stability in 2002 in the absence of significant property development profit. Over the past two to three years, we have restructured our business portfolio to reduce the reliance on property development and focus on distribution businesses.

We have also increased the pace of our investment in the mainland retailing market, through acquisitive and organic growth. The Group aims to achieve a total retailing turnover of RMB50 billion in the Chinese Mainland in five years' time to lead further corporate development. The successful acquisitions of China Resources Vanguard and Suguo are important steps to implement our retailing plan. We have also commenced a re-branding program for our supermarket business. A national brand with traits that can clearly be distinguished from another will be created. As WTO broadens direct access to the mainland market, competition is increasing especially in the supermarket sector. To succeed in competition, we are strengthening our supply chain, building up district dominance, improving cost efficiency and recruiting talents. Upon successful implementation of our retailing plan by the end of 2006, our earnings base will be enlarged and become more recurrent.

In addition, our supply chain-related operations, including food, brewery and textile, are well positioned to seek growth opportunities in the Chinese Mainland to bring synergies to our retail businesses. Though businesses in Hong Kong were restrained by the effects of more than three years of price deflation and high unemployment rate, they had displayed strong resiliency during the year and contributed stable cashflow. For the year under review, the proportion of the Group's revenue and profit before taxation from the mainland has increased to 42.4% and 29.5% respectively, compared with 31.9% and 12.5% during the year ended 31st December 2001.

Barring any unforeseeable circumstances, we expect the Group to achieve satisfactory results for 2003 and the turnover from the Chinese Mainland to exceed Hong Kong. We are confident of our long-term ability to excel in a competitive market environment.

As at 31st December 2002, the Group excluding its associated companies employs approximately 66,000 people, of which approximately 63,000 are employed in the Chinese Mainland, with the remaining predominantly in Hong Kong. The Group's employees are remunerated according to the nature of job, individual performance and market trends with built-in merit components, paid in the form of cash bonuses and share options. A new share option scheme to replace the old one was approved by the shareholders in the general meeting on 31st January 2002. Details of the scheme are described in the Group's 2002 annual report.

Appreciation

On behalf of the Board of Directors, I would like to express our sincere thanks for the valuable contributions given by Mr. Chan Wai Mo, who has recently resigned as the Group's executive director for personal reasons. Directors of the Group would also like to welcome a new member to the Board, Dr. the Hon Li Ka Cheung Eric as independent non-executive director. We believe that with his extensive experience in public services, accountancy and professional management, Dr. Li will become another valuable member of the Board.

Finally, we acknowledge our gratitude to our employees for their commitment and hard work during the year.

> Ning Gaoning Chairman

Hong Kong, 3rd April 2003

SCUSSION AND ANALYSIS

On a brighter note, the buoyant economy of the Chinese Mainland has provided the Group with the opportunities to expand its existing businesses and market share

The Group is the second largest brewer in the mainland with sales volume rising 62.3% to 2,343,748 kilolitres. China's beer industry continues to undergo consolidation with the emergence of a small number of large brewery groups. The Group will continue to play a role in this consolidation by expanding production capacity through acquisitions in targeted regions. Promotions are gearing up for the Group's national brand "Snow 實花", to enhance its market share and profitability. Sales volume of Snow increased by 37% to 442,000

The Group acquired a new brewery in Wuhan City in April 2002 and a new brewery in Panjin in December 2002, bringing the total number of breweries to 28 and a combined annual production capacity of approximately 4 million kilolitres as of December 2002. Integration of the new breweries is progressing well with positive synergy effect. In December 2002, the Group acquired the minority interest for its brewery at Shenyang and in January 2003 also acquired a 70% equity interest for a brewery in Beijing.

kilolitres, of which about half were sold outside Shenyang.

For the year ended 31st December 2002, the operation reported a turnover of HK\$3,738.1 million, an increase of 54.9% over last year and a net profit before corporate interest and expenses of HK\$100.1 million, an increase of 64.5% compared to last year. A large portion of the growth is attributable to the Group's acquisitions including the Sichuan Blue Sword in late 2001 and the brewery in Wuhan in 2002.

Sales volume for beer and purified water for the year of 2002 amounted to 2,343,748 kilolitres and 279,777 kilolitres respectively, showing an increase of 62.3% and an increase of 17.7% over that of last year. Discounting the new acquisitions, an organic growth of about 5.2% in the sales volume for beer was recorded for the year under review.

Textile

The Group acquired the textile business from its parent, China Resources Holdings Company Limited ("CRH") in January 2002 for a consideration of approximately HK\$940 million. The acquisition contained a profit guarantee of HK\$160 million from CRH. The textile business, established in the late 1950s, is one of the leading players in the textile industry engaging in the manufacturing and distribution of textiles and garments in the Chinese Mainland. The acquired business has an established network for imports and exports with a strong base of supply and customers around the world. In order to strengthen the management for the textile operation, the Group also acquired the minority interests of several operating units in Shandong in May 2002 and a controlling interest in a company in Hebei in November 2002. With a view to reduce operational and production costs of the acquired business and to facilitate the Group's plan to increase its market share in

retail properties were fully leased. The Group's rental properties held for industrial and office use; has a total floor area of approximately 812,000 square feet and 163,000 square feet respectively.

For the year ended 31st December 2002, the Group's rental properties-segment, which comprises retail stores, office and industrial premises, reported a turnover of HK\$286.5 million (2001: HK\$309.4 million) and a net profit before corporate interest and expenses of HK\$148.5 million (2001: HK\$242.5 million). A provision of HK\$78.6 million has been made, of which HK\$57.4 million was reflected in the Group's consolidated profit and loss account and HK\$21.2 million to the reserves, to reflect the decline in value for the investment properties as of December 2002.

The Group is one of the major godown and cold storage owners and operators in Hong Kong with a total floor area of 1,550,000 square feet. Due to the weak roong Kong with a total noor area of 1,550,000 square reel. Due to the weak economy, occupancy rates for godown and cold storage operations dropped from last year's 91% and 90% to this year's 89% and 86% respectively. Despite the growing competition and low demands, the operation still reported a stable performance in turnover of HK\$183.5 million (2001: HK\$170.4 million) and net profit of HK\$60.0 million (2001: HK\$62.2 million) for the year under review.

For the year ended 31st December 2002, the Group's other investments reported a turnover of HK\$518.4 million (2001: HK\$774.3 million) and a net profit before corporate interest and expenses of HK\$407.3 million (2001: HK\$169.5 million).

Excluding the asset disposal income of HK\$59.1 million and the loss recognized of HK\$292.0 million for the investment in banking business in 2001, profit for the year of 2002 increased by 1.2%.

Container Terminal

The Group has a 10% interest in HIT Investments Limited. The Hong Kong and Yantian deepwater port operations, which together serve the Shenzhen and Southern China manufacturing basin reported combined throughput growth of 21% and EBIT growth of 11%.

Building Materials

While the performance for the year under review was affected by low construction activities, the Group is cautiously optimistic of its longer-term prospect as the government attaches great importance to invest in infrastructure to maintain Hong Kong's competitiveness. The Hong Kong government has announced various key focus areas for developments including Victoria Harbour, transportation, urban renewal, ports and new towns etc. All these construction activities will generate positive demand for concrete.

lern meat mainland Company Limited ("CRH") in January 2002 for a consideration of approximately HKS40 million. The acquisition contained a profit guarantee of HKS160 million from CRH. The textile business, established in the late 1950s, is one of the leading players in the textile industry engaging in the manufacturing and distribution of textiles and garments in the Chinese Mainland. The acquired business has an established network for imports and exports with a strong base of supply and customers around the world. In order to strengthen the management for the textile operation, the Group also acquired the minority interests of several operating units in Shandong in May 2002 and a controlling interest in a company in Hebei in November 2002. With a view to reduce operational and production costs of the acquired business and to facilitate the Group's plan to increase its market share in the highly fragmented textiles and garment manufacturing industry in China, the Group announced in February 2003 the acquisition of 51% interests in China Resources Jinhua Co. Ltd., a Shenzhen-listed company, for a consideration of RMB163.5 million. The completion of acquisition is subject to regulatory approvals including a mainland waiver from making a general offer. In addition, the Group entered into an agreement in March 2003 to acquire a textile production operation in Jiangsu. In order to upgrade product quality aimed at improving profit margins, the Group has started a program in late 2002, funded through internal resources, to replace old machines with advanced ones. The west coast port lockout in the United States in September 2002 has insignificant effect to the garment exports business.

For the year ended 31st December 2002, the operation reported a turnover of HK\$2,521.5 million and a net profit before corporate interest and expenses of HK\$164.3 million. Under the provision of profit guarantee from CRH, the guaranteed profit at HK\$160.0 million was met for the year under review:

The Group is optimistic that the operation will turn more competitive in the market place and contribute good returns when the effects of technical upgrade begin to take root.

Property

The property market in Hong Kong was lackluster for the year under review. Net rentals of office and industrial properties continued to slide and had returned to the level in 1988. The Group's rental income was affected by property downturn but occupancy rates remained high.

For the year ended 31st December 2002, the property operation reported a turnover of HK\$540.8 million (2001: HK\$1,478.9 million) and a net profit before corporate interest and expenses HK\$220.8 million (2001: HK\$512.7 million). The decline in turnover and profit compared to 2001 reflects the Group's strategy to shift its focus to retail-led businesses.

Property development

For the year ended 31st December 2002, the Group's Hong Kong property development segment, which comprises its 55% interest in the Villa Esplanada project, recorded a turnover of HK\$70.8 million (2001: HK\$999.2 million) and a net profit before corporate interest and expenses of HK\$12.3 million (2001: HK\$208.0 million). The developments have been completed with all residential units substantially sold in prior years. At end of 2002, only 3 residential units were left unsold. Of the 500 car parks, 211 have been sold and 266 leased as at end of 2002.

Rental Properties

The Group's retail properties are located in the prime Hong Kong districts including Causeway Bay, Mongkok, Tsimshatsui and Tsuen Wan, occupying a total floor area of about 398,000 square feet. The Group's New Town Mall 新之城 at Nan Fung Centre, targeting younger generations, has enjoyed stable growth in rental income since opened in 2000. Riding on this success, the Group will take steps in 2003 to revamp its retail properties at Mongkok with innovative decors and distinctive themes to attract and retain customers. As of December 2002, most

Building Materials

While the performance for the year under review was affected by low construction activities, the Group is cautiously optimistic of its longer-term prospect as the government attaches great importance to invest in infrastructure to maintain Hong Kong's competitiveness. The Hong Kong government has announced various key focus areas for developments including Victoria Harbour, transportation, urban renewal, ports and new towns etc. All these construction activities will generate positive demand for concrete.

For the year ended 31st December 2002, the operation reported a turnover of HK\$391.5 million, a decrease of 41.3% from that of last year and a net profit before corporate interest and expenses of HK\$53.3 million, a decrease of 62.4% as compared to 2001.

On 26th March 2003, the Group announced a proposal to restructure the ready-mixed concrete business by way of distribution in specie of its equity in such business to shareholders with a view to streamline and focus on its core operations.

Financial review

Capital and Funding

The Group finances its operations principally by cash generated from internal operations, equity capital and bank borrowings. After fully repaying the Floating, Rate Notes of US\$175 million in April 2002 and settling the HK\$2.9 billion syndicated loan, the Group's borrowings as at 31st December 2002 was HK\$5,429.0 million with HK\$2,278.5 million payable within 1 year. The Group's consolidated cash amounted to HK\$3,946.1 million. Committed borrowing facilities available to the Group, but not drawn as at 31st December 2002, amounted to approximately HK\$2.0 billion (2001: HK\$Nil). The US\$230 million convertible guaranteed bonds, issued by the Group in May 2001 and due on 31st May 2006, are subject to fixed interest rate while all other bank borrowings are subject to floating rates.

Calculated on the basis of the Group's net borrowings over shareholders' funds and minority interests, the Group's net gearing ratio remained low at approximately 9.0%.

The Group has a substantial portion of its assets denominated in Hong Kong dollars, U.S. dollars and Renminbi. As of 31st December 2002, the Group has 21.2% of its borrowings denominated in Hong Kong dollars, 39.3% in U.S. dollars and 39.5% in Renminbi. As of 31st December 2002, the Group had no material exposure to foreign exchange contracts, interest or currency swap or other financial derivatives.

In October 2002, the Group sealed a HK\$3 billion dual-currency syndicated loan facility. The interest rate has been set at 39 basis points over the London inter-bank offered rate for the United States dollar loans and 39 basis points over the Hong Kong inter-bank offered rate for the local currency. The facility will be utilized for refinancing the existing loans and general corporate funding needs for the Group and its subsidiaries.

Pledge of assets

As at 31st December 2002, fixed assets with net book value of HK\$466.4 million (2001: HK\$654.0 million) are pledged for short-term loans in the sum of HK\$370.6 million (2001: pledged for short-term loans of HK\$438.3 million and long-term loans of HK\$37.6 million).

Contingent liabilities

As at 31st December 2002, the Group has no material contingent liabilities.
