Re : Submission of reviewed financial statements of Sahaviriya Steel Industries PCL and Subsidiary for the quarter ended March 31, 2003 and explanation of difference in result of operation for the quarter ended March 31, 2003 and 2002

Attn : The President
The Stock Exchange of Thailand

We, Sahaviriya Steel Industries Public Company Limited, hereby submit our explanation of the causes of difference between the result of business operation for the quarter ended March 31, 2003 and 2002 which is higher than 20 percent as follows:

- 1) The company realized 7,538.5 million Baht revenue from sale of hot rolled coils (534,236 metric tonne at an averaged selling price of 14,111 Baht/MT), higher than 5,011.0 million Baht revenue during the same period in 2002 (476,158 MT at an averaged price of 10,524 Baht/MT). The company also recorded 133.6 million Baht sales of steel scrap compared with 64.5 million Baht during the same period of last year. The company and subsidiaries registered a gross profit from sales and service of 1,264.6 million Baht, compared with 790.7 million Baht gross profit from sales and service during the same period in 2002.

The company and subsidiaries recorded 67.4 million Baht in other revenue (which included 55.7 million Baht gain from foreign exchange), while during the same period in 2002 the company recorded 22.8 million Baht in other revenue (which included 8.0 million Baht gain from foreign exchange)

- 2) Selling and administrative expenses of the company and subsidiaries amounted to 200.2 million Baht, compared with 269.1 million Baht during the same period of last year.
- 3) A subsidiary recorded a reversal of provision for doubtful accounts receivable in the amount 12.4 million Baht.
- 4) The company and subsidiaries registered 1,144.2 million Baht profit before interest expenses and corporate income tax, compared with profit before interest expense and corporate income tax of 544.3 million Baht during the same period in 2002.

- 5) Interest expenses on short-term and long-term loan totaled 225.9 million Baht (consisting of 219.2 and 6.7 million Baht interest of the company and subsidiaries, respectively), lower than 229.2 million Baht interest expense during the same period in 2002 (consisting of 220.5 and 8.7 million Baht interest of the company and subsidiaries, respectively).
- 6) A subsidiary recorded accrued corporate income tax in the amount of 0.9 million Baht, compared with 2.7 million Baht during the same period in 2002.
- 7) The company and subsidiaries recorded gain before minority interest of 917.4 million Baht, compared with 312.4 million Baht gain before minority interest during the same period in 2002.
- 8) After minority interest, the company and subsidiaries realized a net profit of 879.5 million Baht, compared with a net profit of 289.3 million Baht during the same period last year.

From the above factors, the company's business operation in the quarter ended March 31, 2003 resulted in a net profit compared with a net gain during the same period in 2002 more than 20 percent, mainly due to increase in sales volume, metal spread between selling price and raw material cost is higher and interest expenses is lower.

For your consideration.

Yours faithfully,

**TO THE BOARD OF DIRECTORS
SAHAVIRIYA STEEL INDUSTRIES PUBLIC COMPANY LIMITED**

We have reviewed the consolidated balance sheet of Sahaviriya Steel Industries Public Company Limited and its subsidiaries and the balance sheet of Sahaviriya Steel Industries Public Company Limited as at March 31, 2003 and the related consolidated and Company's statements of income, changes in shareholders' equity and cash flows for the quarters ended March 31, 2003 and 2002. These financial statements are the responsibility of the Company's management as to their correctness and completeness of the presentation. Our responsibility is to report on these financial statements based on our reviews.

We conducted our reviews in accordance with the Standard on Auditing applicable to review engagements. This Standard requires that we plan and perform the reviews to obtain reasonable assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provided less assurance than an audit in accordance with generally accepted auditing standards, and accordingly, we do not express an opinion.

Based on our reviews, nothing has come to our attention that causes us to believe that the consolidated and Company's financial statements are not presented fairly, in all material respects, in accordance with generally accepted accounting principles.

We have previously audited, in accordance with generally accepted auditing standards, the consolidated and Company's financial statements of Sahaviriya Steel Industries Public Company Limited for the year ended December 31, 2002, and expressed an unqualified opinion in our report dated January 31, 2003 with an emphasis paragraph regarding the matter that the Company was in the process of obtaining a debt compliance waiver from its creditors with respect to a specific debt covenant in the debt restructuring agreement. The consolidated and Company's balance sheets as at December 31, 2002, presented herein for comparison, have been derived from such financial statements which we have audited and reported. We have not performed any other audit procedures subsequent to such report date.

SAHAVIRIYA STEEL INDUSTRIES PUBLIC COMPANY LIMITED AND SUBSIDIARIES
NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE QUARTERS ENDED MARCH 31, 2003 AND 2002
"UNAUDITED"

1. ECONOMIC TURMOIL

Thailand and many Asia Pacific countries continue to experience economic difficulties since 1997. The accompanying consolidated and Company's financial statements reflect management's current assessment of the possible impact of the economic conditions on the financial position of the Company and its subsidiaries.

In 1999, the Company and Prachuap Port Company Limited entered into debt restructuring agreements with their financial institution lenders. The Company and subsidiary's abilities to perform under the restructuring is dependent on their continuing abilities to attain profitable operations.

2. BUSINESS OPERATIONS OF THE COMPANY AND SUBSIDIARIES

On January 25, 2002, the Government, by the Board of Investment, issued the announcement regarding the imposition of surcharges on imported flat rolled product of iron or non alloy steel hot rolled steel at 25% of CIF value of customs tariff with the effect for the period of six months which expired on July 28, 2002.

Subsequently, on July 23, 2002, the Committee on Dumping and Subsidies, Department of Foreign Trade, Ministry of Commerce approved the imposition of antidumping measure according to Section 31 of the Antidumping and Countervailing Act B.E. 2542 for coil or non-coil hot rolled steel originated from 14 countries by requiring guarantees at the rate of 30% of CIF value for the period of six-months after the imposition of surcharges on imported hot rolled steel according to the Board of Investment's Announcement, as described in the above paragraph, had expired.

Subsequently on November 8, 2002, the Committee on Dumping and Subsidies, Department of Foreign Trade, Ministry of Commerce by Sections 41, 42, and 73 (1) of the Antidumping and Countervailing Act B.E. 2542 approved the announcement of antidumping for coil and non-coil hot rolled steel originated from 14 countries by requiring temporarily payment of duties or letter of guarantee by factory or country at various determined rates, which minimum and maximum determined rates are in the range between 5.98% to 136.50% of CIF value for the period of four months from November 18, 2002.

As a result of continuous actions of the Government as mentioned above, the Company has significant amount of profit from its operations attributable to significant increase in sales volume, which not only domestic demand for hot rolled steel increased from economic recovery in construction and auto-mobile industries but also the average prices of hot rolled steel increased according to rising global prices. In addition, the Company has higher volume of export with the export prices higher than domestic prices.

3. BASIS FOR PREPARATION OF THE CONSOLIDATED AND COMPANY'S FINANCIAL STATEMENTS

3.1 The interim consolidated and Company's financial statements have been prepared in accordance with the Notification of the Department of Commercial Registration (Currently Department of Business Development) dated September 14, 2001 regarding "The Brief Particulars in the Financial Statements B.E. 2001" to be effective for financial statements covering the period beginning on or after January 1, 2002.

The Company prepares its financial statements in conformity with accounting principles and practices generally accepted in Thailand.

- 3.2 The results of operations for the quarter ended March 31, 2003 are not necessarily indicative of the operating results anticipated for the full year.
- 3.3 The balance sheet as at December 31, 2002, presented herein for comparison, has been derived from the financial statements of the Company for the year then ended which have been audited.
- 3.4 Certain financial information which is normally included in the financial statements prepared in accordance with generally accepted accounting principles, but which is not required for interim reporting purposes, has been omitted. In addition, the interim financial statements should be read in conjunction with the financial statements and notes thereto included in the audited financial statements for the year ended December 31, 2002.
- 3.5 The consolidated financial statements include the accounts of the Company, Prachuap Port Company Limited and West Coast Engineering Company Limited of which the Company has a holding of 51% and 99.99%, respectively, after eliminating inter-company transactions and balances.
- 3.6 Preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that may affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent assets and liabilities. The actual results may differ from those estimates.

4. SIGNIFICANT ACCOUNTING POLICIES

The Company uses the same accounting policies and calculation method in these interim financial statements as those used in the financial statements for 2002.

5. INVENTORIES

Inventories consist of the following:

	<u>9,443,211</u>	<u>10,989,810</u>	<u>9,484,786</u>	<u>11,039,232</u>

As at March 31, 2003 and December 31, 2002, all finished goods and raw materials are pledged as collateral for short-term loans from banks (see Notes 8).

6. PROPERTY, PLANT AND EQUIPMENT - NET

- 6.1 Certain land, buildings and machinery representing more than 90% of the total value of such assets are mortgaged as collateral for bank overdrafts, loans from banks, long-term loans and convertible debentures (see Notes 8, 9 and 10).
- 6.2 In 2002, the Company engaged an independent professional appraiser, American Appraisal (Thailand) Limited, to reappraise the plant facilities for the second time after the first appraisal in 1997. In 1998, Prachuap Port Company Limited engaged such company to appraise its new berth and berth facilities. The appraisal reports submitted by the appraiser were as of December 11, 2002 and September 25, 1998, respectively.

The results of the second appraisal of the Company were as follows:

	Baht : '000
Appraisal increment - Land	3,902
Appraisal increment - Buildings	241,085
Appraisal increment - Machinery	5,365,065
Appraisal increment - Facilities	10,700

The method of appraisal for the value of buildings, machinery and berth and facilities was the depreciated replacement cost to reflect the unexpired service potential of the assets with regard to age and condition.

The increment resulting from the appraisal is recorded in the accounts as unrealized increment per assets appraisal and is included as a component of shareholders' equity.

In addition, the Company and such subsidiary evaluate the recoverable amounts by using the discounted cash flow method, and expect that the recoverable amounts were higher than the appraisal values from such depreciated replacement cost basis.

The Company and such subsidiary have a policy to review and adjust the depreciated appraisal value of assets on a periodic basis.

As at March 31, 2003 and December 31, 2002, the Company, subsidiary and related company have recorded unrealized appraisal increment for assets and recognized unrealized increment per assets appraisal in shareholders' equity as follows:

6.4 The Company may be affected by the Supreme Court's verdict to demolish its building and structures, having the book value of Baht 18.9 million, located on the leased land under dispute in case the supreme court's verdict would be the same as the Civil Court's verdict. Currently, the lessor is appealing to the Supreme Court.

7. OTHER NON-CURRENT ASSETS

As at March 31, 2003 and December 31, 2002, other non-current assets include receivable from cancellation of shipbuilding contract as follows:

	CONSOLIDATED		THE COMPANY ONLY	
	March 31, 2003	December 31, 2002	March 31, 2003	December 31, 2002
	Baht'000	Baht'000	Baht'000	Baht'000

	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>

Receivable from cancellation of shipbuilding contract represents the transaction of Prachuap Port Company Limited which cancelled the shipbuilding contract relating to the tugboats. The supplier agreed to return all the money paid of USD 3.81 million or Baht 167.96 million within fifteen installments from July 8, 2002 to March 8, 2007. The subsidiary is currently in the process of preparing the official repayment agreement with the supplier. In 2003 and 2002, the supplier repaid a portion in the amount of USD 0.25 million or Baht 11.02 million and the amount of USD 0.55 million or Baht 24.25 million respectively, to the subsidiary. However, the subsidiary has provided for the allowance for doubtful debt in full for the remaining amount due to the uncertainty of the recoverability.

8. BANK OVERDRAFTS AND SHORT-TERM LOANS FROM FINANCIAL INSTITUTIONS

Short-term loans from financial institutions included the revolving short-term loan facilities with a maximum amount of Baht 3,210 million, which were carried over from debt restructuring on June 30, 1999 and trade financing loans which represent short-term trade financing from financial institutions after debt restructuring with a credit limit of Baht 2,564 million which can be adjusted in accordance with the Company's operational performance but not exceeding Baht 4,200 million. The trade financing facilities include letters of credit, trust receipts, promissory notes, bills discounted, packing credits and letters of bank guarantee.

Such short-term loans are secured by the mortgage of land, buildings and machinery (see Note 6.1) and the assignment of insurance proceeds including the pledge of raw materials and finished products owned by the Company to the lenders (see Note 5).

As at March 31, 2003 and December 31, 2002, the Company has unused credit facilities of Baht 1,887 million and Baht 294 million from the revolving trade financing, respectively. Commission and withdrawal terms are in accordance with the debt restructuring agreement.

9. LONG-TERM LOANS

Long-term loans consist of the following:

	CONSOLIDATED		THE COMPANY ONLY	
	March 31, 2003 Baht'000	December 31, 2002 Baht'000	March 31, 2003 Baht'000	December 31, 2002 Baht'000

Loan repayable monthly from May 2002 - 2004 and semi-annually from June 2004 onwards	750,387	773,083	-	-
Loan which may be forgiven	112,959	112,959	-	-
	<u>11,712,115</u>	<u>11,734,811</u>	<u>10,848,769</u>	<u>10,848,769</u>
Less Current portion	<u>(1,533,328)</u>	<u>(220,760)</u>	<u>(1,304,212)</u>	<u>-</u>
	10,178,787	11,514,051	9,544,557	10,848,769
Deferred interest expenses	929,970	858,314	919,684	847,657
	<u>11,108,757</u>	<u>12,372,365</u>	<u>10,464,241</u>	<u>11,696,426</u>

Such long-term loans are secured by the mortgage of land, buildings and machinery (see Note 6.1) and the assignment of insurance proceeds on the Company's assets to the lenders.

Deferred interest expenses represent the cumulative effects of the change in interest rates to be paid at the floating rates for the restructured debts at the date of restructuring and the balance sheet date.

The debt restructuring agreement contains certain covenants prohibiting dividend payments before July 1, 2002 and before the Company prepays or repays certain amounts of principal of long-term loans.

The debt restructuring agreement requires the Company to calculate the debt service coverage ratio every 6 months commencing from July 1, 2002 onward. In the case the debt service coverage ratio is higher than 1.25 times, the Company has to make a prepayment of loans in the amount equal to half of the cash flow which is in excess of such ratio of 1.25 times. For the first six-month ended December 31, 2002, the Company had cash flows and the debt service coverage ratio higher than the forecast as per the debt restructuring plan, thus the Company has to make a prepayment of loans in the amount of Baht 1,304 million within May 15, 2003. However, as at December 31, 2002, the reclassification had not been made to the financial statements to present such amount as current liability as the management was then in the process of obtaining debt compliance waiver from its creditors with respect to a specific debt covenant.

In the quarter ended March 31, 2003, the Company agreed to make a loan prepayment to the creditors within the period as described above. The Company thus has reclassified such transaction as current liability in the financial statements for the quarter ended March 31, 2003.

10. CONVERTIBLE DEBENTURES

Convertible debentures consist of the following:

	CONSOLIDATED		THE COMPANY ONLY	
	March 31, 2003 Baht'000	December 31, 2002 Baht'000	March 31, 2003 Baht'000	December 31, 2002 Baht'000
Convertible debentures	2,400,000	2,400,000	2,400,000	2,400,000
Deferred interest expenses	173,553	182,151	173,553	182,151
	<u>2,573,553</u>	<u>2,582,151</u>	<u>2,573,553</u>	<u>2,582,151</u>

Convertible debentures are secured by the mortgage of land, buildings and machinery (see Note 6.1) and the assignment of insurance proceeds.

Equity component part of convertible debentures has not been separately presented from the liability component part in the balance sheet because the carrying amounts of liability and equity elements could not be reasonably measured at the date of issuance.

As at March 31, 2003 and December 31, 2002, no convertible debentures have been exercised.

For the quarter ended March 31, 2003, the initial conversion price is lower than the average fair value of ordinary shares. Therefore the diluted earnings per share is presented. However, for the quarter ended March 31, 2002, the initial conversion price is greater than the average fair value of ordinary shares. Therefore, the diluted earnings per share was not presented.

11. FOREIGN EXCHANGE RISK MANAGEMENT

As at March 31, 2003 and December 31, 2002, assets and liabilities in foreign currencies consist of the following:

		CONSOLIDATED AND THE COMPANY ONLY	
		March 31, 2003	December 31, 2002
Assets	- US Dollar	17,197,458	9,845,498
Liabilities	- US Dollar	40,233,424	94,498,944

	- Euro	180,513	170,460
	- Pound Sterling	31,980	22,368

As at March 31, 2003 and December 31, 2002, the Company did not make any hedging contracts to cover assets which are due for receipt in 2003. However, the Company entered into hedging contracts of US\$ 11.9 million for liabilities which are due in 2003 as at December 31, 2002.
