REVIEW REPORT OF CERTIFIED PUBLIC ACCOUNTANT

To the Board of Directors of TT&T Public Company Limited

(Formerly: Thai Telephone & Telecommunication Public Company Limited)

I have reviewed the accompanying consolidated balance sheet of TT&T Public Company Limited and its subsidiaries as at March 31, 2003, the consolidated statements of income for each of the three-month periods ended March 31, 2003 and 2002, and the consolidated statements of changes in shareholders' equity and cash flows for each of the three-month periods ended March 31, 2003 and 2002. I have also reviewed the balance sheet of TT&T Public Company Limited as at March 31, 2003, the statements of income for each of the three-month periods ended March 31, 2003 and 2002, and the statements of changes in shareholders' equity and cash flows for each of the three-month periods ended March 31, 2003 and 2002. The management of TT&T Public Company Limited is responsible for the correctness and completeness of information presented in these financial statements. My responsibility is to issue a report on these financial statements based on my reviews.

I conducted my reviews in accordance with the auditing standard applicable to review engagements. This Standard requires that I plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit in accordance with generally accepted auditing standards. Accordingly, I do not express an audit opinion on the reviewed financial statements.

Based on my reviews, nothing has come to my attention that causes me to believe that the accompanying financial statements are not presented fairly, in all material respects, in accordance with generally accepted accounting principles.

I draw attention to Notes 2, 6, 9, 13 and 15 to the financial statements, which refer to the following:

- 1) Various plans have been undertaken by the Company's management with regard to debt restructuring with major creditors, the restructuring of investment in the subsidiary companies, search for investors and increase in share capital. However, the operations of the Company and its ability to comply with the conditions of the various agreements may continue to be affected by the uncertain economic conditions in Thailand and Asia Pacific in general. The ability to continue its business depends on the continuing economic recovery in Thailand and the Asia Pacific region as well as the success of various plans which the Company's management are undertaking. The financial statements do not include any adjustments relating to the recoverability and classification of assets carrying amounts and classification of liabilities that may be necessary, should the Company be unable to take action as planned.
- 2) As discussed in Note 6 to the financial statements, on March 26, 2002, the Company had novated the debt in relation to the Sale and Purchase by Installment Agreement of Public Phones from TT&T Value Added Service Co., Ltd. (a subsidiary company), at it's book value of Baht 108.3 million (approximately USD 2.4 million). The Company, on March 29, 2002, received a transfer of all assets of this particular subsidiary at the book value of approximately Baht 575 million in accordance with the conditions stipulated in the agreement dated on the Business Transfer Date (March 29, 2002) and in accordance with the Resolution of the Extraordinary General Meeting of Shareholders held on February 20, 2002 as well

KPMG

as the Resolution of Board of Directors Meeting on March 20, 2002. The Company adopted the use of the generally accepted accounting standard in the U.S.A. - APB No.16 Interpretation 39 entitled "Transfers and Exchanges Between Companies Under Common Control" for this transaction.

- 3) As discussed in Note 9 to the financial statements, the Company has settled the debt owed to Provincial Electricity Authority by way of debt (principal and interest) to equity conversion, as stated in the rehabilitation plan, amounts of approximately Baht 268 million. The Company has deposited the relevant share certificates with the Deposit of Property Central Office, Legal Execution Department on December 25, 2002. The Provincial Electricity Authority payable is classified as a "Provision" in the Balance Sheet since the outcome of the Provincial Electricity Authority's appeal to the Central Bankruptcy Court has not yet been finalised.
- 4) As discussed in Note 13 to the financial statements, the Company is not able to provide reliable estimates of the income from International Long-Distance Telephone calls from neighbouring countries, based on the difference between the number of calls from and to the neighbouring countries through the TOT Gateway. Due to uncertainty as the value of the income, the Company has not recognised the said income in the financial statements since 2002 until now. For the Auditotex service income, the Company has had ongoing negotiations with TOT Corporation Plc. about the said income sharing and it was agreed in principle in 2003 that the Company will share the income at the same rate as applicable to other value-added services. As agreed, the Company has recorded the income for 1999 to 2002 in the first quarter of 2003 amounting to Baht 60 million. As at December 31, 2002 the Company had not recorded some portion of the said income separately from the Fixed-Line Telephone Service income.
- 5) As discussed in Note 15 to the financial statements, in the fourth quarter of 2001 and the first quarter of 2002 the Company over-recorded income from TOT Corporation Plc. by approximately Baht 42.12 million and Baht 51.25 million, respectively, resulting in the loss in the fourth quarter of 2001 being understated by approximately Baht 42.12 million and the net profit in the first quarter of 2002 being overstated by approximately Baht 51.25 million. This arose because the long-distance call service at economy price does not cover the mobile phone incoming call, and is not included in the service fee charged to TOT. The Company has investigated this matter and reported it to TOT. The Company has made adjustments to the beginning balance of deficit as at January 1, 2002 and the net profit for the first quarter of 2002 to correct the errors.

I have previously audited the consolidated financial statements of TT&T Public Company Limited and its subsidiaries for the year ended December 31, 2002, and the financial statements of TT&T Public Company Limited for the same period in accordance with generally accepted auditing standards and expressed an unqualified opinion on those statements in my report dated February 12, 2003, with emphasis on the impact of the uncertainty of the economic situation, the debt novation and transfer of all assets from the subsidiary, settlement of the Provincial Electricity Authority's debt, correction of the error of income from TOT Corporation Plc. and uncertainty of the amount of income from Audiotex service and International Long-Distance Telephone call from neighbouring countries. The consolidated balance sheet and the balance sheet of TT&T Public Company Limited as at December 31, 2002, which have been presented herein for comparative purpose, are components of those financial statements which I have audited and reported thereon. I have not performed any audit procedures subsequent to the date of that report.

2. THE COMPANY'S OPERATIONS

The Company's operations have been affected significantly, and may continue to be affected for the foreseeable future, by the country's unstable economy caused by the currency volatility in the Asia Pacific region. The Company is in the public utilities business that needs large capital investment and loans to import equipment for this project. The volatility in Baht currency and the slowdown in the economic growth in Thailand caused the Company difficulty in repaying some portion of loans due within the third quarter of 1998. However, management believes that the going concern basis of preparation of the financial statements is appropriate because the Company succeeded in debt restructuring with financial creditors and major creditors and also believes that the Company will succeed in debt restructuring with the remaining creditors and will be able to comply with the conditions of the related debt restructuring agreement. Also, the Company has taken certain measures to support the impact of the said economic crisis, such as increasing telephone services income as well as value added service income, especially on data communication and internet related services, by concentration on a marketing strategy in order to increase subscribed lines, especially for the business sector and reducing operating expenses, etc. Therefore, the financial statements do not include any adjustments relating to the recoverability and classification of assets carrying amounts and classification of liabilities that may be necessary had the Company and its subsidiaries not been able to continue as going concerns. Nevertheless, the economic situation is uncertain and may have an effect on the Company 's success in future operations and ability to generate sufficient cash flows from operations to meet the conditions of the debt restructuring agreements. The ultimate outcome of this matter cannot presently be determined. The accompanying financial statements reflect management's current assessments of the impact to date of the economic situation on the financial position of the Company. Actual results could differ from the management's current assessments and such differences could be material.

Progress of Concession Conversion

At present, the government has announced its policy regarding the Joint - Undertaking Concession Conversion which is considered a pressing issue, in order to arrive at an urgent conclusion. According to the 2003 plan of the Ministry of Information Technology and Communication, a summary of the overall guidelines regarding the Joint - Undertaking Concession Conversion was made, such as income sharing, compensation details, assets network and the tax payment standard for various services. It is expected that this will be in operation during 2003.

PEA submitted an appeal to the Central Bankruptcy Court (CBC) requesting the Court to delay the submission date of their appeal against the official receiver's instruction. CBC considered and approved the delay until November 20, 2002 and set the date for considering the appeal to be March 12, 2003. As at December 31, 2002 the Company had not recorded some portion of the said income separately from the Fixed-Line Telephone Service income.

14. BONUS SCHEME

In the first quarter of 2003, the Company and its subsidiary paid and recorded a bonus payment to the employees amounting to Baht 97 million. In 2002, the payment of bonus scheme was highly uncertain. Therefore, the Company and its subsidiary did not record the bonus expense in the 2002 financial statements, but recorded it in this period after the approval by the Executive Committee Meeting No. 2/2003, held on February 19, 2003 and the Board of Director Meeting No. 1/2003, held on February 20, 2003.

15. FUNDAMENTAL ERRORS

In the fourth quarter of 2001 and the first quarter of 2002 the Company over-recorded income from TOT by approximately Baht 42.12 million and Baht 51.25 million, respectively, causing the loss in the fourth quarter of 2001 to be understated by approximately Baht 42.12 million and the net profit in the first quarter of 2002 to be overstated by approximately Baht 51.25 million. This arose because the long-distance call service at economy price does not cover the mobile phone incoming call, and is not included in the service fee charged to TOT. The Company has investigated this matter and reported it to TOT. The Company has made adjustments to the beginning balance of deficit as at January 1, 2002 and the net profit for the first quarter of 2002 to correct the errors. The impact for Basic Earnings per Share in the first quarter of 2002 are as follows:

	Net Profit	Earnings Per Share
	Thousand Baht	<u>Baht</u>
Net profit - before adjustment entry	295,913	0.11
Adjustment entry	<u>(51,254)</u>	(0.02)
Net profit - as restated	244,659	0.09

16. ASSETS USED AS COLLATERAL

As at March 31, 2003 and December 31, 2002, the Company's current accounts, savings accounts, fixed deposit accounts, and short-term investments in promissory notes amounting to Baht 2,779 million and Baht 1,981 million respectively, have been pledged as collateral to all creditors. The Company has no constraints in the utilization of these deposits but they are subject to annual creditors' approval before utilization.

17. SEGMENT INFORMATION

The Company was registered for the purpose of joint-undertaking of investment in the expansion project of telephone services with TOT in the provincial areas including the installation of the telephone number. The management considers the operations as one business and the operations of the subsidiaries are complementary with the Company's business of servicing telephone subscribers. For this reason, the management considers this as one segment of operation. In addition, in the term of areas of services and marketing areas, the management also considers this as one segment of operation because the Company and subsidiaries operate only in the Kingdom of Thailand.

18. OBLIGATIONS AND CONTINGENT LIABILITIES

18.1 As at March 31, 2003 and December 31, 2002, the Company and its subsidiary were contingently liable to a local bank for the letter of guarantee issued by the said bank in favour of another government unit amounting to approximately Baht 67 million, as collateral for the Company's compliance with the terms of the agreement.

18.2 The Company was contingently liable to the Revenue Department for tax audits for the years 1993 to 1998. The Company has appealed and incorporated this dispute into the rehabilitation proceeding. On July 30, 2001, the official from Seizure Department ordered the Company to pay corporate income tax for the year 1994 amounting to approximately Baht 91.2 million and value added tax and the related penalty amounting to approximately Baht 22.6 million to the Revenue Department and omit the payment of Specific Business Tax for the year 1994 to 1998 amounting to approximately Baht 78.5 million. On September 21, 2001, the Revenue Department has objected to the Seizure Official's order to the Central Bankruptcy Court in case of Specific Business Tax omission payment.

The Company received the appeal judgment from the Appeal Committee of the Revenue Department dated September 11, 2001, which ordered the Company to pay corporate income tax, penalty, and surcharge amounting to approximately Baht 91.2 million and the Specific Business Tax, penalty, and surcharge amounting to approximately Baht 78.5 million. However, a 50% discount was given on the penalty charges on Specific Business Tax so the remaining amount to be paid was approximately Baht 51.7 million. The Company has submitted an appeal to Central Tax Court to object to the judgment on the Specific Business Tax.

The Company accrued the Specific Business Tax, together with the fine and surcharge, totalling Baht 51.7 million and the Company requested for tax relief for which a letter of guarantee to the Revenue Department has been issued. The Tax Court dismissed the appeal submitted by the Company. The Company therefore re-appealed to the Supreme Court on June 10, 2002. At present the result of the said appeal is not yet known.

19. RECLASSIFICATION OF ACCOUNTS

Certain accounts in the 2002 interim and annual financial statements have been reclassified to conform with the 2003 interim financial statement presentation.
