INDEPENDENT AUDITOR'S REPORT

The Board of Directors
Shearman, Ralston Inc.
New York, NY

We have audited the statement of financial condition of Shearman, Ralston Inc. as of September 30, 2003 and the related statements of income, cash flows and changes in stockholders' equity for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Shearman, Ralston Inc. as of September 30, 2003, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements, taken as a whole. The information contained in Schedules number "1" through "4" is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Securities Transactions:

Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis. The Company uses the specific identification method for determining the cost basis in computing realized gains and losses.

The margin account balance is included in accounts payable and accrued liabilities in the statement of financial condition.

Customers' securities transactions are reported on a settlement date basis with the related commission income and clearing expenses reported on a trade date basis as securities transactions occur. All such transactions are cleared through another broker-dealer on a fully disclosed basis.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for income taxes and interest is \$11,171 and \$30,610, respectively.

**INDEPENDENT AUDITOR'S REPORT
ON INTERNAL ACCOUNTING CONTROL**

The Board of Directors
Shearman, Ralston Inc.
New York, NY

In planning and performing our audit of the financial statements of Shearman, Ralston Inc. for the year ended September 30, 2003, we considered its internal control structure including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Shearman, Ralston Inc., that we considered relevant to the objectives stated in Rule 17a-5(g).

The management of the Company is responsible for establishing and maintaining internal controls and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, management is required to make estimates and judgments to assess the expected benefits and related costs of internal controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. The objective of internal controls and of the practices and procedures is to provide management with reasonable, but not absolute, assurance (1) that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and (2) that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal controls or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal controls would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the AICPA. A material weakness is a condition in which the design or operation of the specific internal control elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal controls, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and our study, we believe that the Company's practices and procedures were adequate at September 30, 2003 to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, the National Association of Securities Dealers, Inc. and other regulatory agencies which rely on SEC Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
