NOTES TO FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2003

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Organization - The Company was incorporated in state of Illinois on February 1, 1984. The Company is registered with the Securities and Exchange Commission and is a member of the National Association of Securities Dealers, Inc. The Company's principal business activity is the sale of securities.

Securities Transactions - Commission revenue and related expense arising from securities transactions are recorded on a trade date basis, which is the same business day as the transaction date.

Securities Owned - Marketable securities are valued at market value and securities not readily marketable are valued at fair value as determined by the Board of Directors. The resulting difference between cost and market (or fair value) is included in income.

Cash Equivalents - Cash equivalents are defined as certificates of deposit and U.S. government obligations with an original maturity date, when acquired by the Company, of less than 90 days and those securities registered under the Investment Company Act of 1940 which are comprised of cash and other short-term debt instruments and are commonly referred to as "money market funds."

Furniture and Equipment - Depreciation is provided using the straight line method over five and seven year periods.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2003

NOTE 2 - NET CAPITAL REQUIREMENTS

As a registered broker/dealer and member of the National Association of Securities Dealers, Inc., the Company is subject to the Uniform Net Capital Rule, which requires the maintenance of minimum net capital and requires that the ratio of aggregated indebtedness to net capital, both as defined, shall not exceed 1500%. At March 31, 2003 the Company's net capital and required net capital were \$7,396 and \$5,000 respectively. The ratio of aggregate indebtedness to net capital was 79%.

NOTE 3 - MEDICAL REIMBURSEMENT PLAN

In August, 1997, the Company adopted a medical reimbursement plan covering all full time employees. Under terms of the plan, the Company will reimburse all payments for medical and dental expenses not covered by employee insurance. The total expenditures incurred by the Company pursuant to this plan for the year ended March 31, 2003 were \$300.

NOTE 4 - CLEARING AGREEMENT WITH OFF-BALANCE-SHEET RISK

The Company has entered into an agreement with a broker/dealer (Clearing Broker/dealer) whereby the Company forwards (introduces) customer securities transactions to the Clearing Broker/dealer, fully disclosing the customer name and other information. The processing and, if applicable, any financing pertaining to the introduced securities transactions is performed by the Clearing Broker/dealer. The customer account is therefore maintained and recorded in the books and records of the Clearing Broker/dealer on the Company's behalf. In consideration for introducing customers to the Clearing Broker/dealer, the Company receives commissions and other consideration, less the processing and other charges of the Clearing Broker/dealer. As part of the terms of the agreement between the Company and Clearing Broker/dealer, the Company is

held responsible for any losses arising when the customers introduced by the Company to the Clearing Broker/dealer fail to meet their contractual commitments pertaining to the purchase, sale and possible financing of securities transactions. The Company may therefore be exposed to off-balance-sheet risk in the event the customer is unable to fulfill its contracted obligations and it is necessary for the Clearing Broker/dealer to purchase or sell the securities at a loss. The Company's exposure to risk would consist of the amount of the loss realized and any additional expenses incurred pertaining to the transaction or other customer activity.

Through their Clearing Broker/dealer the Company's customers may enter into various transactions involving derivatives and other off-balance sheet financial instruments. These financial instruments include exchange traded options. As a writer (seller) of options, the Company's customer receives a premium in exchange for giving the counterparty the right to buy or sell the security at a future date at a contracted price. In the normal course of business, the Company's customer activities involve the execution, settlement and financing of customer option transactions. These activities may expose the Company to off-balance-sheet risk in the event that the option is exercised and the customer or contra-broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.
